**FOURTH QUARTER 2003 INFORMATION AND RESULTS**

(São Paulo, Brazil, February 11 2004)

**18% REVENUE GROWTH IN 4Q03 COMPARED WITH 4Q02**  
**2% INCREASE IN EBITDA IN 2003 COMPARED WITH 2002**  
**11% GROWTH IN NET INCOME IN 2003 COMPARED WITH 2002**

Despite the unfavorable environment during 2003, characterized by the low level of economic activity in Brazil, Ultrapar succeeded in achieving improvements in all its principal performance indicators. The improvements in economic indicators in of recent months, such as reductions in interest rates, inflation and the Brazil country risk premium, pave the way for a possible resumption of economic growth in 2004. In addition, Ultrapar's 2004 results should also be favorably impacted by the acquisitions made during 2003.

(1) Ultrapar underwent a corporate restructuring during 2002. While the restructuring was completed in December of that year, it was based on June 30, 2002 financial statements. For the purpose of the explanations hereof, we have used pro-forma statements which re-states 3Q02 and 4Q02 minority interest and net income to incorporate the effects of the restructuring

(2) Based on the weighted average of the number of shares outstanding through the year

## Highlights

- Issuance of Eurobond** In January 2004, taking the opportunity offered by the confidence of the financial community in the prospect of the Brazilian economy and the increase in capital inflows, Ultrapar raised US\$60 million in Eurobonds, in the name of its subsidiary LPG International Inc., with the objective of reducing its cost of debt. Carrying a coupon of 3.5%p.a. and maturity in June 2005, the bonds were issued at 99.8326% of par value, resulting in an annual return for the investor of 3.625%p.a. The funds raised were used in the restructuring of a US\$ 60 million syndicated loan raised in 2002 that had interest of 7.15%P<sup>a</sup>.

- **Payment of Dividends** - On February 11 2004, the Board of Directors voted to pay dividends on 2003 profits equivalent to R\$ 0.599754 per thousand preferred shares and R\$ 0.545231 per thousand common shares, payable on March, 03 2004.

### Ultrapar and the macroeconomic environment

Financial markets in 4Q03 reflected the confidence of the investing community in the government's orthodox macroeconomic policies and its optimism as regards the ability of the successive interest rate reductions to generate a recovery in the economy. Such confidence and optimism swelled the inflow of international capital, the maintenance of a strengthened Real and brought the country risk premium down below 500 bps. The real economy, after stagnating for much of the year, started to show in August the first signs of recovery. Since the beginning of the recovering, the Brazilian industrial's production (adjusted for seasonal effects) showed an accumulate growth of 5.5%. Nevertheless, the result for 2003 as a whole is expected to be practically flat. Additionally, the recovery in manufacturing has not yet been accompanied by an improvement in real income, influencing negatively LPG consumption in Brazil.

Ultragaz faced intense competition in the fourth quarter, typical for that time of the year when sales volume are seasonally lower, but aggravated by the second consecutive year of declining Brazilian retraction. The result was that EBITDA dipped below that of 3Q03, although remaining 7% higher than that of 4Q02. The drop in consumption, due to (i) the declining of real income, (ii) the adjustment in LPG prices charged in the Brazilian market to those practiced in the international market and (iii) the penetration of natural gas in the market for large industrial consumers; caused the Brazilian LPG market to begin a reorganization process, materialized with Ultragaz's acquisition of Shell's Brazilian LPG distribution operations in August 2003. We believe that the reshuffling of the market it is not finish yet.

Oxiteno, which also faced a seasonal reduction in volume in the fourth quarter retraction in sales, managed to report results in line with those of 3Q03, as a consequence of a better sales mix. On the other hand, when comparing with the 4Q02, Oxiteno's EBITDA eased by 34% retraction. The comparison with 4Q02 EBITDA is strongly affected by the effect of the Real valorization on Oxiteno's results.

Ultracargo reported 4Q03 EBITDA totaling R\$ 9.1 million, R\$ 1.7 million below that of 3Q03, mainly due to lower demand for road transport. Compared with 4Q02, EBITDA growth was 31%, as the result of capacity increases undertaken throughout the year. Two new storage terminals are due to become operational in March 2004: the Liquid Fuel Terminal in Montes Claros and the Intermodal Terminal in Tatuí, which will add 4,400 m<sup>3</sup> and 2,500 m<sup>3</sup> of storage capacity, respectively.

Ultrapar reported EBITDA for full year 2003 of R\$ 498.5 million and net income of R\$ 246.4 million, with an increase in 2% and 11% respectively, in comparison with 2002.

---

### Operating Performance

**Ultragaz.** The overall volume of LPG sold on the Brazilian market during 4Q03 was 4.6% lower than that of 4Q02. Ultragaz achieved 17% growth over 4Q02, chiefly as the result of its acquisition of Shell's LPG distribution operations in Brazil. Excluding the sales volume that came with the purchase of Shell Gás, Ultragaz suffered a 3.7% decline in 4Q03 sales volume. For the full year 2003, Ultragaz's sales volume amounted to approximately 1.4 million tons, a 4.6% increase over 2002.

#### Sales Volume Ultragaz (in thousand tons)

Sales volume in the bottled segment, served mainly by 13 Kg cylinders, increased by 25%, or 52 thousand tons, over 4Q02 sales volume. The sales growth came entirely from the incorporation of the sales volume of Shell Gás. In the bulk segment, comprised mostly of commercial and industrial clients, 4Q03 sales volume increased by 4%, or 5 thousand tons. The incorporation of 16.8 thousand tons sold to the bulk segment with the acquisition of Shell Gás reduced the effect of higher natural gas penetration with industrial customers.

**Oxiteno.** Oxiteno is the only producer of Ethylene Oxide and its main sub-products in the Southern Cone, as well as a large producer of specialty chemicals. Oxiteno's products are used in many industrial sectors, such as PET packaging, polyester, textiles, paints, cosmetics and detergents.

## Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Oxiteno reported 4Q03 sales volume of 121.9 thousand tons, a 3% improvement over 4Q02. Domestic sales amounted to 75.5 thousand tons, 14% above those of fourth quarter 2002. This was attributable principally to (i) greater penetration in the agrochemical segment; (ii) the acquisition of new clients, inclusive through import substitution; and (iii) an increased market share in the paint and varnish segment, with the development of new products. Exports for the quarter totaled 45.4 thousand tons, 14% below fourth quarter 2002, since Oxiteno maintained its strategy to give priority to the domestic market. Within exports, Oxiteno also privileged exports to Mercosul, where margins are higher.

For the full year 2003, Oxiteno's sales volume was 474.2 thousand tons, 9% more than in 2002. This growth was mainly concentrated in the first half of the year, given that there were restrictions in ethylene supply in the first half of 2002, due to a shutdown for maintenance at Braskem, one of Oxiteno's suppliers of ethylene.

---

### Sales Volume Oxiteno (in thousand tons)

(\*) Includes Canamex sales volume of December 2003

**Ultracargo.** Ultracargo is the leader in logistics for oil and chemical products in Brazil. The company offers transportation services using its own and third-party fleets, and storage services through warehousing facilities at port terminals and rail junctions. Transportation services include integrated multi-modal transportation, as well as receiving and dispatching customers' goods. The company also offers ship loading and unloading services, the operation of pipelines, logistics programming and installation engineering.

Ultracargo's average volume stored increased by 8% in a 4Q on 4Q comparison due to the 20 thousand cubic meter capacity expansion of its Aratú terminal in June. Kilometrage covered by the transport segment declined by 4%. Kilometrage covered for the full year 2003 increased by 26% and effective storage capacity by 8%.

### Economic and Financial Performance

**Net Sales** Ultrapar's consolidated fourth quarter 2003 sales amounted to R\$1.1 billion, or 18% higher than the fourth quarter 2002. In 2003, Ultrapar's sales was R\$4.0 billion, 34% higher than in 2002.

### Net Sales (in R\$ Million)

---

**Ultragas** Ultragas posted 4Q03 net sales of R\$ 719.1 million, an 30% improvement over 4Q02, caused by the increased volume and the higher cost of LPG in fourth quarter 2002. In 2003, Ultragas's net sales were R\$ 2,622.6 million, 35% higher than in 2002.

**Oxiteno** Net sales in the 4Q03 were R\$ 313.9 million, 3% lower than in 4Q02, mainly as a result of the effect of the 21% YoY appreciation of the Real on the prices in Reais. This effect was partially mitigated by (i) higher sales volumes; (ii) a better sales mix; and (iii) the recovery in commodities petrochemical prices in the international market. Canamex's net sales, included only from December 2003, were R\$ 4.2 million. Oxiteno's full year 2003 net sales totaled R\$ 1,237.8 million, 29% higher than in 2002.

**Ultracargo** Net 4Q03 sales were R\$ 46.0 million, 18% higher than in 4Q02, principally as the result of higher storage volumes and contractual reviews of prices. In 2003, Ultracargo's net sales were R\$ 177.1 million, 35% higher than in 2002.

## Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

**Cost of Goods Sold** Ultrapar's 4Q03 cost of goods sold amounted to R\$ 866.6 million, a 28% growth over the R\$678.3 million of 4Q02. In 2003, the cost of goods sold increased R\$ 949.3 million, or 42% over 2002, to R\$ 3,196.4 million.

**Ultragaz** The 4Q03 cost of sales at Ultragaz was R\$ 629.6 million, compared with R\$470.2 million in 4Q02. This increase was caused mainly by higher sales volume and the 15% adjustment in LPG prices charged to distributors by Petrobras during this period.

**Oxitenó** Oxitenó's 4Q03 cost of goods sold was R\$ 216.5 million, versus R\$192.5 million in 4Q02. The increase in costs is attributed to: (i) increased sales volume, (ii) an increase in sales of specialty chemicals, which have a higher unit cost, in spite of better margins, (iii) higher payroll costs resulting from collective wage agreements celebrated in 4Q03 and (iv) the R\$ 3.4 million production costs at Canamex.

**Ultracargo** Ultracargo's 4Q03 cost of services rendered amounted to R\$ 29.7 million, a 17% increase over 4Q02. Costs in the storage segment increased by 14% YoY, largely due to the increased volume of operations and a rise in the price of the nitrogen used to clean the tanks. The costs of the transportation segment were 19% higher than in 4Q02, owing to (i) higher third party freight costs, (ii) an increase of between 11% and 18% in the unit cost of fuel, tires and spare parts and (iii) higher depreciation.

**Selling, General and Administrative (SG&A) Expenses** Ultrapar had 4Q03 operating expenses of R\$ 135.1 million, versus R\$ 118.8 million in 4Q02. In 2003, SG&A expenses came to R\$ 458.9 million, a 20% increase over 2002.

**Ultragaz** SG&A expenses at Ultragaz were R\$ 76.9 million in the quarter, R\$ 11.2 million higher than in 4Q02. The increase can be attributed to a R\$ 9.2 million increase in depreciation expenses, an increase in payroll expenses as the result of the September 2003 collective wage agreement and of the increase in headcount with the acquisition of Shell Gás. In 2003, Ultragaz's operating expenses came to R\$ 254.1 million.

**Oxitenó** SG&A expenses for 4Q03 amounted to R\$ 48.2 million, R\$ 1.2 million higher than in 4Q02. Sales expenses rose by R\$ 3.2 million (17%), mainly due to higher freight costs. General and administrative expenses declined by R\$ 2.9 million (10%) YoY, due to the **consultancy and legal fees** paid in 4Q02 in connection with the corporate restructuring. Oxitenó's SG&A expenses for the full year were R\$ 171.2 million.

**Ultracargo** SG&A expenses at Ultracargo were R\$ 11.5 million in the quarter, R\$ 1.3 million higher than in 4Q02, mainly due to higher administrative costs, a consequence of collective wage agreements celebrated in 2003. In 2003, SG&A expenses totaled R\$ 39.4 million.

---

**EBITDA** Ultrapar's consolidated 4Q03 operating cash generation (EBITDA) was R\$ 113.9 million, R\$ 26.0 million lower than the R\$ 139.9 million EBITDA of 4Q02. In 2003, EBITDA was R\$ 498.5 million, 2% higher than in 2002.

**Ultragaz** EBITDA at Ultragaz amounted to R\$ 41.7 million, 7% higher than 4Q02. In 2003, EBITDA totaled R\$ 208.2 million, showing a retraction of 5% over 2002.

**Oxitenó** EBITDA at Oxitenó amounted to R\$ 60.8 million, R\$ 31.9 million softer than 4Q02. The comparison between quarters should be analyzed in the context of the effects of the exchange rate on Oxitenó's results, since in the 4Q03 the average dollar was R\$ 2.90 compared with R\$ 3.67 in the 4Q02. Oxitenó's EBITDA for the year was R\$ 243.2 million, a 5% increase over 2002.

**Ultracargo** Ultracargo reported EBITDA of R\$ 9.1 million, 30% higher than in 4Q02. EBITDA for the year totaled R\$ 40.0 million, versus R\$ 29.3 million for 2002.

### EBITDA (R\$MM)

## Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

**Net financial income/expense** Ultrapar reported a 4Q03 net financial expense of R\$ 13.7 million, against net financial expenses of R\$ 7.2 million in 4Q02. This quarter's net financial result was negatively impacted by a lower average balance of cash investments, chiefly because of the R\$ 170.6 million disbursed for the acquisition of Shell Gás in August 2003, and by the declining trend in interest rates earned on fixed income investments (CDI overnight interbank rate).

At the end of the quarter, Ultrapar's net debt totaled R\$ 78.1 million, with a dollar exposure of R\$ 21.2 million and a dollar exposure of R\$ 31.1 million related to the investment in Canamex, which is in dollar. A breakdown of Ultrapar's debt, with details on costs and maturities, can be found on the last page of this report.

**Net Income** Ultrapar's net income for the fourth quarter 2003 was R\$ 59.0 million. In 2003, ultrapar's net income was R\$ 246.4 million, a 11% increase over 2002.

**Investments** Investments totaled R\$ 59.7 million in the 4Q03, allocated as follows:

- At Ultragas, primarily on the expansion of the bulk segment (UltraSystem), maintenance of equipment and rebuilding the stock of gas cylinders
- At Oxiteno, primarily on new product development, security, installing the ERP management system and an increase in production capacity
- At Ultracargo, on the construction of the Santos Intermodal Terminal, the Montes Claros Terminal and expansion of the truck fleet

---

<b>CAPEX 4Q03</b>	<b>R\$ MM</b>	<b>% of Total</b>
Ultragas	25.3	36%
Oxiteno	15.2	28%
Ultracargo	19.2	36%
<b>Ultrapar</b>	<b>59.7</b>	<b>100%</b>

### Ultrapar in the capital markets

Ultrapar's share price soared by 50% in 2003. Average daily trading volume, considering the trading on both the São Paulo and the New York stock exchanges, increased to R\$ 1,586 thousand, 29% above the average R\$ 1,233 thousand of 2002.

**Share Buy-back** During 4Q03 Ultrapar repurchased 10,700,000 of its own shares.

### Outlook

The recent improvement in the Brazilian macroeconomic environment, with declines in interest rates, inflation and the country risk premium, holds out the possibility of a recovery in the economy. On top of this, Ultrapar's 2004 results are expected to benefit from the acquisitions made in 2003. Ultragas should benefit from the integration of the operations of the recently acquired Shell Gás and

from a new level of scale of distribution. Oxiteno, which has hitherto been basing its growth on the development of new products and new markets, will now be able to employ its expertise and experience of the sector to leverage Canamex growth. Ultracargo will continue to benefit from the growth opportunities offered by the expansion of international trade in petrochemicals, vegetable oils and alcohol. The highlight of 2004 will be its new liquids terminal in the port of Santos, scheduled to commence operations at the end of the year and expected to enhance the company's results in 2005. In summary, we shall

---

continue our efforts to improve the profitability of our existing operations and, confident of our competencies, to pursue new opportunities

### **Forthcoming Events**

#### **Conference Call with analysts:**

On February 12, 2004, Ultrapar will host a conference call with investment analysts to discuss the company's fourth quarter 2003 performance and the perspectives for 2004.

#### **Conference Call in English: 13:00 hours (Brasília time) / 10:00 a.m. (NY time)**

All financial information has been prepared in accordance with Brazilian corporate law accounting. All figures are given in Brazilian Reais, except on page 18 where they were converted into U.S. dollars, based on the average commercial exchange rate for the corresponding periods.

This document may contain forecasts as to future events. Such forecasts reflect merely expectations on the part of the Company's management. Words such as believe, expect, plan, strategy, prospect, forecast, estimate, project, anticipate, can and other words with a similar meaning, are to be understood as preliminary declarations as to future expectations and projections. Such declarations are subject to risks and uncertainties forecasted or otherwise by the Company and may make the effective results significantly different from those that have been projected. For this reason, the reader should not base his/her decisions solely on these estimates.

**NOTICE TO SHAREHOLDERS**

**ULTRAPAR PARTICIPAÇÕES S.A.**

CNPJ nº 33.256.439/0001-39

**A PUBLICLY HELD COMPANY**

**DIVIDENDS**

The Board of Directors of Ultrapar Participações S.A., at its meeting held on February 11, 2004, decided to distribute dividends in complementation to compulsory dividends, payable from net income for the fiscal year ending December 31, 2003, in the amount of R\$ 39,000,057.42 (thirty nine million and fifty seven reais and forty two centavos), to be paid from March 3, 2004 without remuneration or monetary restatement.

The holders of common and preferred shares will receive the dividend of R\$ 0.545231 per thousand shares and R\$ 0.599754 per thousand shares, respectively.

The record date for dividend rights will be February 23, 2004. The shares will be traded an ex-dividend basis on the São Paulo Stock Exchange as from February 24, 2004 and on the New York Stock Exchange as from February 19, 2004.

São Paulo, February 11, 2004.
