**CN reports 15 per cent rise in adjusted Q4 2006 diluted EPS <sup>(1)</sup>  
and record 2006 annual revenues, operating ratio and free cash  
flow <sup>(1)</sup>**

**MONTREAL, Jan. 23, 2007** – CN today reported its financial and operating results for the fourth quarter and year ended Dec. 31, 2006.

**Fourth-quarter and 2006 annual financial highlights**

- Quarterly net income up 16 per cent to C\$499 million, with diluted earnings per share rising 22 per cent to C\$0.95. Included in the 2006 results was a deferred income tax recovery of C\$27 million (C\$0.05 per diluted share) attributable to the resolution of matters relating to prior years' income taxes;
  - Adjusted fourth-quarter net income, excluding the deferred income tax recovery, was C\$472 million, or C\$0.90 per diluted share – a 10 per cent increase in adjusted net income and 15 per cent rise in adjusted diluted EPS; <sup>(1)</sup>
-

- 2006 net income of C\$2,087 million, an increase of 34 per cent, with diluted EPS rising 41 per cent to C\$3.91. Included in the 2006 results was a deferred income tax recovery of C\$277 million, or C\$0.51 per diluted share, attributable to lower corporate tax rates in Canada and to the resolution of matters relating to prior years' income taxes;
- Adjusted 2006 net income, excluding the deferred income tax recovery, was C\$1,810 million, or C\$3.40 per diluted share — a 16 per cent increase in adjusted net income and 23 per cent increase in adjusted diluted EPS; <sup>(1)</sup>
- Record annual revenues of C\$7,716 million and operating ratio of 60.7 per cent, and
- Record annual free cash flow of C\$1,343 million. <sup>(1)</sup>

E. Hunter Harrison, president and chief executive officer of CN, said: "The year 2006 was a strong one for CN, with the company generating record revenues and free cash flow and its best-ever annual operating ratio.

"These accomplishments were achieved in the face of some severe weather conditions during the fourth quarter of the year that disrupted our main lines and the operations of key customers in western Canada.

"The strength of 2006 positions CN well for 2007. The year ahead is one of opportunity for the company, and we'll have the people, network capacity, locomotives and freight cars in place to take advantage of new traffic."

Net income for the quarter was C\$499 million, or C\$0.95 per diluted share, including a deferred income tax recovery of C\$27 million (C\$0.05 per diluted share) attributable to the resolution of matters relating to prior years' income taxes. Excluding the deferred income tax recovery, adjusted quarterly net income was C\$472 million, or C\$0.90 per diluted share.  
<sup>(1)</sup>

Fourth-quarter operating income rose by five per cent to C\$756 million, while CN's operating ratio for the period was 61.1 per cent, an improvement of seven-tenths of a point.

Fourth-quarter 2006 revenues increased three per cent to C\$1,942 million. Revenues benefited from strength in coal, grain and fertilizers, petroleum and chemicals, and intermodal groups. Fourth-quarter revenues were affected by the unfavourable C\$35-million translation impact of the stronger Canadian dollar on U.S. dollar-denominated revenues.

Revenue ton-miles, a measurement of the relative weight and distance of rail freight transported by the company, increased by one per cent in fourth-quarter 2006 compared with the same period in 2005. Freight revenue per revenue ton-mile, a measurement of yield, defined as revenue earned from the movement of a ton of freight over one mile, increased by two per cent in fourth-quarter 2006 compared with the same period of 2005.

Operating expenses for the quarter increased by two per cent to C\$1,186 million, and benefited from the favourable C\$20-million impact of the stronger Canadian dollar on U.S. dollar-denominated operating expenses.

The stronger Canadian dollar reduced fourth-quarter net income by approximately C\$10 million, or C\$0.02 per diluted share.

## **2006 results**

Net income for the year increased 34 per cent to C\$2,087 million, with diluted earnings per share rising 41 per cent to C\$3.91. Included in the 2006 results was a deferred income tax recovery of C\$277 million (C\$0.51 per diluted share), resulting from the enactment of lower federal and provincial corporate tax rates in Canada, and the resolution of matters pertaining to prior years' income taxes.

Adjusted 2006 net income, excluding the deferred income tax recovery, was C\$1,810 million, or C\$3.40 per diluted share. <sup>(1)</sup>

Operating income for the year grew by 15 per cent to C\$3,030 million, while CN's operating ratio for the year improved by 3.1 points to 60.7 per cent.

Revenues for 2006 increased seven per cent to C\$7,716 million. Revenues benefited from strength in coal, grain and fertilizers, intermodal, petroleum and chemicals, and metals and minerals. Revenues for 2006 were affected by the unfavourable C\$255-million translation impact of the stronger Canadian dollar on U.S. dollar-denominated revenues.

Revenue ton-miles and freight revenue per revenue ton-mile both increased by three per cent in 2006 compared with 2005.

Operating expenses for 2006 increased by two per cent to C\$4,686 million, largely because of increased fuel costs, purchased services and material expense, and depreciation. Partly offsetting these factors was the favourable C\$150-million translation impact of the stronger Canadian dollar on U.S. dollar-denominated expenses, and lower casualty and other expense.

The stronger Canadian dollar reduced 2006 net income by approximately C\$60 million, or C\$0.11 per diluted share.

The financial results in this press release were determined on the basis of U.S. generally accepted accounting principles (U.S. GAAP).

<sup>(1)</sup> Please see discussion and reconciliation of these non-GAAP measures in the attached supplementary schedule, Non-GAAP Measures.

This news release contains forward-looking statements. CN cautions that, by their nature, forward-looking statements involve risk and uncertainties, including the assumption that while CN expects a moderate slowdown in the North American economy in the near term, its business prospects assume positive economic conditions in North America and globally, and that its results could differ materially from those expressed or implied in such statements. Important factors that could cause such differences include, but are not limited to, industry competition, legislative and/or regulatory developments, compliance with environmental laws and regulations, various events which could disrupt operations, including natural events such as severe weather, droughts, floods and earthquakes, the effects of adverse general economic and business conditions, inflation, currency fluctuations, changes in fuel prices, labour disruptions, environmental claims, investigations or proceedings, other types of claims and litigation, and other risks detailed from time to time in reports filed by CN with securities regulators in Canada and the United States. Reference should be made to CN's most recent Form 40-F filed with the United States Securities and Exchange Commission, its Annual Information Form filed with the Canadian securities regulators, its 2005 Annual Consolidated Financial Statements and Notes thereto and Management's Discussion and Analysis (MD&A), as well as its 2006 quarterly consolidated financial statements and MD&A, for a summary of major risks.

CN — Canadian National Railway Company — spans Canada and mid-America, from the Atlantic and Pacific oceans to the Gulf of Mexico, serving the ports of Vancouver, Prince Rupert, B.C., Montreal, Halifax, New Orleans, and Mobile, Ala., and the key cities of Toronto, Buffalo, Chicago, Detroit, Duluth, Minn./Superior, Wis., Green Bay, Wis., Minneapolis/St. Paul, Memphis, St. Louis, and Jackson, Miss., with connections to all points in North America.

*(1) On December 31, 2006, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106, and 132(R)," which requires the Company to recognize the over or underfunded position of its various benefit plans in its Consolidated Balance Sheet. As such, on December 31, 2006, the Company increased its pension asset by \$599 million, to \$1,275 million, and decreased its pension and other post-retirement benefits liability by \$7 million, to \$481 million. The Company will recognize changes in the funded status in the year in which the changes occur, through other comprehensive income. The actuarial gains/losses and prior service costs/credits that arise during the period but are not recognized as components of net periodic benefit cost will be recognized as a component of Other comprehensive loss, net of tax. These amounts recognized in Accumulated other comprehensive loss will be adjusted as they are subsequently recognized as components of net periodic benefit cost. Prior to December 31, 2006, actuarial gains/losses and prior service costs/credits were deferred in their recognition, and amortized into net periodic benefit cost over the expected average remaining service life of the employee group covered by the plans. The adoption of SFAS No. 158 had no impact on years prior to 2006 as retrospective application was not allowed. This standard had no effect on the 2006 computation of net periodic benefit cost for pensions and post-retirement benefits.*

These unaudited interim consolidated financial statements, expressed in Canadian dollars, and prepared in accordance with U.S. GAAP, contain all adjustments (consisting of normal recurring accruals) necessary to present fairly the Company's financial position as at December 31, 2006 and December 31, 2005, and its results of operations, changes in shareholders' equity and cash flows for the three months and years ended December 31, 2006 and 2005. These consolidated financial statements have been prepared using accounting policies consistent with those used in preparing the Company's 2006 Annual Consolidated Financial Statements and should be read in conjunction with such statements, notes thereto and MD&A.

**CANADIAN NATIONAL RAILWAY COMPANY**  
**NON-GAAP MEASURES - unaudited**
**Adjusted performance measures**

During the three and twelve months ended December 31, 2006, the Company reported adjusted net income of \$472 million, or \$0.90 per diluted share and \$1,810 million, or \$3.40 per diluted share, respectively. These adjusted figures exclude the impact of a deferred income tax recovery of \$27 million (\$0.05 per diluted share) in the fourth quarter and \$277 million (\$0.51 per diluted share) in the twelve-month period ended December 31, 2006 that resulted from the enactment of lower federal and provincial corporate tax rates in Canada and the resolution of matters pertaining to prior years' income taxes. Management believes that adjusted net income and adjusted earnings per share are useful measures of performance that can facilitate period-to-period comparisons, as they exclude an item, such as the deferred income tax recovery that resulted from the enactment of lower federal and provincial corporate tax rates in Canada and the resolution of matters pertaining to prior years' income taxes, that does not necessarily arise as part of the normal day-to-day operations of the Company and could distort the analysis of trends in business performance. The exclusion of such item in adjusted net income and adjusted earnings per share does not, however, imply that such item is necessarily non-recurring. These adjusted measures do not have any standardized meaning prescribed by GAAP and may, therefore, not be comparable to similar measures presented by other companies. The reader is advised to read all information provided in the Company's 2006 Annual Consolidated Financial Statements, Notes thereto and Management's Discussion and Analysis (MD&A). The following table provides a reconciliation of net income and earnings per share, as reported for the three and twelve months ended December 31, 2006, to the adjusted performance measures presented herein.

<i>In millions, except per share data</i>	<b>Three months ended December 31, 2006</b>			<b>Year ended December 31, 2006</b>		
	<b>Reported</b>	<b>Deferred tax recovery</b>	<b>Adjusted</b>	<b>Reported</b>	<b>Deferred tax recovery</b>	<b>Adjusted</b>

**CANADIAN NATIONAL RAILWAY COMPANY**  
**NON-GAAP MEASURES - unaudited**

---

**Free cash flow**

The Company believes that free cash flow is a useful measure of performance as it demonstrates the Company's ability to generate cash after the payment of capital expenditures and dividends. Free cash flow does not have any standardized meaning prescribed by GAAP and may, therefore, not be comparable to similar measures presented by other companies. The Company defines free cash flow as cash provided from operating activities, excluding changes in the level of accounts receivable sold under the securitization program, less investing activities, and after the payment of dividends, calculated as follows:

	Three months ended December 31		Year ended December 31	
	2006	2005	2006	2005
<i>In millions</i>				
Cash provided from operating activities	\$ 1,072	\$ 694	\$ 2,950	\$ 2,705
<b>Less:</b>				
Investing activities	(484)	(373)	(1,349)	(1,075)
Cash provided before financing activities	588	321	1,601	1,630
<b>Adjustments:</b>				
Change in level of accounts receivable sold (1)	(293)	(11)	82	(54)
Dividends paid	(83)	(67)	(340)	(275)
<b>Free cash flow</b>	<b>\$ 212</b>	<b>\$ 243</b>	<b>\$ 1,343</b>	<b>\$ 1,301</b>

(1) Changes in the level of accounts receivable sold under the Company's accounts receivable securitization program are considered a financing activity.
