ULTRAPAR PARTICIPAÇÕES S.A.

Publicly Traded Company

CNPJ nº 33.256.439/0001- 39

NIRE 35.300.109.724

Dear Shareholders,

The Management of Ultrapar Participações S.A. (“Ultrapar” or the “Company”) hereby presents to the Company’s shareholders the Management Proposal, regarding the matters to be voted in the Special Shareholders’ Meeting, to be held on February 10th, 2011 (the “Meeting”):

1) Ratification, in accordance with the terms of Article 256, § 1 of the Brazilian Corporate Law, of the acquisition, by Sociedade Brasileira de Participações Ltda., subsidiary of the Company, of the total number of quotas issued by Chevron Brazil Ltda. and of shares issued by Sociedade Anônima de Óleo Galena Signal (jointly, “Sociedades Texaco”), according to the Material Notice released on August 14th, 2008

We propose the approval of the ratification of the acquisition of the control of Sociedades Texaco by a subsidiary of Ultrapar, as set forth in Annex I to the present proposal, annex which contains information about the acquisition, including the justification upon which the Company believes that this acquisition should be approved, in compliance with Article 19 of CVM Instruction 481/09.

Under the terms of Article 256, § 2, combined with item II of Article 137, both of the Brazilian Corporate Law, dissenting holders of common shares issued by the Company who hold their common shares without interruption since August 13th, 2008, inclusive, until the date of the exercise of withdrawal rights, may withdraw from the Company, upon the reimbursement of their common shares, within 30 (thirty) days from the publication date of the minutes of the Meeting. Such shareholders will have the right to receive the R\$ 36.17 per common share, calculated based on the shareholders’ equity reported in the Company’s Financial Statements for the fiscal year ending December 31st, 2009 and published on February 26th, 2010. Additional information, in accordance with Article 20 of CVM Instruction 481/09, is available in Annex II to the present proposal.

2) Stock split of the shares issued by the Company

We propose the approval of the stock split of the number of shares issued by the Company, so that each share issued by the Company shall be split into 4 (four) shares of the same class and type (“Stock Split”). The Stock Split does not change the share capital of the Company, therefore there will be no modification in the financial amount and in the stake held by the shareholder in the Company. The shares issued as a result of the Stock Split will grant its holders – including holders of American Depositary Receipts issued by the Company (“ADRs”), traded in the New York Stock Exchange (“NYSE”) – the same rights inherent to the shares previously held, including dividends, interest on capital and any payments on capital to be approved by the Company.

After the Stock Split, the 1:1 ratio between preferred shares and ADRs will be maintained, and each ADR will consequently continue to be represented by one preferred share.

The Stock Split aims at repositioning the price of the standard trading round lot of shares issued by Ultrapar in the stock market, in order to turn the share price more accessible to investors and potentially enable an increase in the trading volume of the Company's shares.

Should the Stock Split be approved, the Company's share capital will be divided into 544,383,996 (five hundred forty four million, three hundred eighty three thousand, nine hundred ninety six) shares, without par value, in registered form, with 197,719,588 (one hundred ninety seven million, seven hundred nineteen thousand, five hundred eighty eight) common shares and 346,664,408 (three hundred forty six million, six hundred sixty four thousand, four hundred and eight) preferred shares.

In addition, the record date for the Stock Split will be February 16th, 2011 in the São Paulo Stock Exchange (“BM&FBOVESPA”) and February 22nd, 2011 in the New York Stock Exchange (“NYSE”), and the shares will be traded ex-Stock Split from February 17th, 2011, inclusive, onwards. The financial institution for Ultrapar’s share bookkeeping services (Itaú Unibanco S.A.) will take all the necessary acts to automatically credit the newly issued shares in the shareholders accounts on February 22nd, 2011. Concurrently, the depositary bank of Ultrapar’s ADRs (Bank of New York Mellon) will be responsible for the issuance and distribution of the new ADRs, that will take place on February 24th, 2011.

Consequently, in order to reflect the above-mentioned proposal, we propose the approval of the amendment to the language of the caput of Article 5 of the Company’s Bylaws, which will read as follows, and its subsequent consolidation according the proposed text presented in Annex III.

3) Modification of the maximum number of members of the Company’s Board of Directors

We propose the approval of the modification of the maximum number of members of the Company’s Board of Directors, amending it from 8 (eight) to 9 (nine). Such change aim to bring new skills and experiences to the Board of Directors, in light of the significant growth of the size of the Company in recent years.

ANNEX I - ACQUISITION

(in accordance to Annex 19 of CVM Instruction nr 481/09)

ANNEX 19 (in compliance with CVM Instruction n° 481/09)

ACQUISITION OF CONTROL

1. Describe the transaction

On August 14th, 2008, Sociedade Brasileira de Participações Ltda. (“SBP”), subsidiary of Ultrapar Participações S.A. (“Ultrapar”), Chevron Latin America Marketing LLC (“CLAM”) and Chevron Amazonas LLC (“CA” and, together with CLAM, “Sellers”), signed a sale and purchase agreement (“SPA”) for the acquisition of total quotas of Chevron Brasil Ltda. (“CBL”) and total shares of Sociedade Anônima de Óleo Galena Signal (“Galena”) (named “Sociedades Texaco”, when jointly mentioned), both companies with operations in the segment of distribution and supply of fuel in Brazil, except for the state of Roraima (“Acquisition”).

On March 31st, 2009 the Acquisition was closed and SBP disbursed R\$ 1,106 million, in addition to the US\$ 38 million deposit made to CLAM on August 14th, 2008. The terms of the Acquisition did not include the assumption of Sociedades Texaco’s net debt. Under the terms of the SPA, in August 2009, R\$ 162 million were disbursed related to the expected working capital adjustment, reflecting the increased working capital effectively received on the closing date of the Acquisition. The results of Sociedades Texaco were consolidated into Ultrapar’s financial statements from April 1st, 2009 onwards.

The SPA establishes the terms and conditions to allow for a gradual and organized transition process of brand names, including the license to use Texaco brand names family for up to 3 years in the South and Southeast regions and to 5 years in the Midwest, Northeast and North regions in Brazil. The closing occurred after the fulfillment of certain customary conditions precedent for similar transactions and the segregation of the lubricants and oil exploration activities of CBL to other legal entities of the Chevron group.

2. Inform the reason, statutory or legal, for which the transaction was submitted for approval in the shareholders’ meeting

The Acquisition is submitted for ratification of the shareholders’ meeting of Ultrapar in compliance with article 256, I, of the Law nr. 6,404/76 as the Acquisition price is a relevant investment for Ultrapar, under the terms of article 247, sole paragraph of the Law nr. 6,404/76.

3. Regarding the company whose control was or will be acquired:

a. Inform the name and qualification

The indemnity above was subject to certain time and amount limitations, except in the event of knowingly dishonest or deliberate misstatement or concealment or fraud by the Sellers. Amounts to be indemnified will be computed net of any insurance proceeds actually received by the Buyer Indemnified Person.

i. Required governmental approvals

The Acquisition was submitted to the Brazilian System for Protection of Competition, and was approved by the Conselho Administrativo de Defesa Econômica (“CADE”) on July 7th, 2009. In its decision, CADE ordered that resellers in seventeen municipalities, where the concentration was 100%, were offered the possibility to terminate their contracts without any penalty or fine.

j. Collaterals granted

Ultrapar acted as guarantor to ensure all obligations, including the payment, related to the Acquisition.

5. Describe the purpose of the transaction

The Acquisition was part of Ultrapar’s strategy to increase its operating scale in fuel distribution and expand its operations to the Midwest, Northeast and North regions of Brazil, allowing the Company to reach regions with consumption growth rate above that of the national average and bringing new commercial opportunities arising from the national coverage.

6. Provide an analysis of the benefits, costs and risks of the transaction

The combination of Ipiranga’s business with those of Sociedades Texaco allowed the consolidation of a nationwide fuel distribution business, besides representing improved efficiency and competitiveness in sales processes, dilution of advertising, marketing and new products development expenses, and gains of scale in administrative functions.

The main costs associated with the Acquisition are those related to the integration of operations, which include travel expenses, information systems and personnel costs. In addition, the operational integration also involves the conversion of Texaco’s service station network to the Ipiranga brand, conversion which consists of altering the visual identity of the Texaco’s service stations to the Ipiranga’s standards through painting and replacement of banners, among others, and which generates additional costs with the remodelling of the gas stations.

Regarding the risks, Ultrapar assumed certain liabilities of the business acquired in the acquisition of Sociedades Texaco, therefore, certain existing financial obligations, legal liabilities or other known and unknown contingent liabilities or risks of the businesses acquired have become the responsibility of Ultrapar. These liabilities may cause

Ultrapar to be required to make payments, incur in charges or take other actions that may adversely affect Ultrapar's financial position, results of operations and the price of its shares.

7. Inform the costs to be incurred by the company if the transaction is not approved

Notwithstanding the costs already incurred with the Acquisition, in the amount of R\$ 19 million, it is important to mention that the Acquisition resulted in the integration of the operations of Sociedades Texaco with the fuel distribution operations of Ultrapar, consolidating a nationwide fuel distribution business, allowing an improved positioning to capture the growth of the market and stronger competitiveness through the larger operating scale. As such, the non-ratification of the Acquisition would result in significant and difficult estimation losses for Ultrapar and its shareholders.

8. Describe the sources of funding for the transaction

Ultrapar used its existing cash resources to fund the Acquisition.

9. Describe management's plans for the company whose control was or will be acquired

Management's plans include the integration of the operations of Sociedades Texaco with Ultrapar's fuel distribution business, through Ipiranga, in order to consolidate a nationwide fuel distribution business, allowing an improved positioning of the company to grow and stronger competitiveness through the larger operating scale, besides expanding its operations to the Midwest, Northeast and North regions of Brazil.

10. Provide justified declaration of the management recommending the approval of the transaction

Considering the information provided in this Annex, the management of Ultrapar understands that the ratification of the transaction will bring benefits for Ultrapar and its shareholders, given that the combination of Ipiranga with Sociedades Texaco creates a nationwide fuel distribution business, with a network of more than 5 thousand service stations and an over 20% market share, allowing an improved positioning to capture the growth of the market and stronger competitiveness through the larger operating scale.

11. Describe any existing corporate relationship, even if indirect, between:

- a. Any of the sellers or the company whose control has been or will be sold; and
- b. Related parties to the company, as defined by the accounting rules regarding this subject

Ultrapar is not aware of the existence of corporate relationship between related parties to Ultrapar, as defined by the accounting rules, and the Sellers or Sociedades Texaco.

12. Provide details of any transaction made in the last 2 (two) years by related parties to the company, as defined by the accounting rules regarding this subject, with equity or other securities or debt instruments of the company whose control was or will be acquired

4. APPRAISAL OF TEXACO

4.1. APPRAISAL METHODOLOGY

ASSETS APPROACH -- NET EQUITY AT MARKET PRICES

This methodology is derived from generally accepted accounting principles (GAAP), where financial statements are prepared based on the principle of historic or acquisition cost. Due to this principle and to the fundamental principle of accounting, the book value of the assets of a company less the book value of its liabilities equals the book value of its net equity.

On the other hand, the basic principles of economics allow us to create the following appraisal technique: the value defined for assets less the value defined for liabilities equals the value defined for a company's net equity. From an appraisal perspective, the relevant value definitions are those appropriate to the purpose of the appraisal.

The assets approach, therefore, aims at appraising a company for the adjustment of the book value (net balance) to its respective fair market values. The assets and liabilities deemed relevant are appraised for their fair market value, with a comparison being made between this value and the book value (net balance).

4.2. PROFILING OF TEXACO

IPP is a company that operates in the TEXACO-brand fuel distribution business in Brazil.

GALENA is a company that operates the TEXACO -brand model station in Rio de Janeiro.

TEXACO distributes fuels throughout the national territory, save the State of Roraima, through a network of approximately 2 thousand service stations and directly to large consumers, being supported by a logistic infrastructure of 48 operation bases.

In 2008, TEXACO sold 7 million cubic meters of diesel, gasoline, ethanol and CNG, which represents a national market share of approximately 8%. Texaco is the second largest company in the Midwest, Northeast and North regions, with a 9% market share in 2008.

In 2007, Texaco's revenue was R\$ 11.9 billion and its EBITDA was R\$ 121 million. In the first four months of 2008, Texaco generated an annualized EBITDA of R\$ 147 million.

TEXACO IN BRAZIL

In September, 1915, Texaco started operating in Brazil by way of a decree signed by the then President of the Republic Wenceslau Br[il], who authorized the Texas Company (South America) Ltda. to be set up in Brazil.

In June, 2005, Texaco Brasil had its corporate name changed to Chevron Brasil Ltda., as a result of the change of the company's name in the United States. This was due to the merger of the companies Chevron Corporation and Texaco Inc. in October, 2002, which gave rise to the ChevronTexaco Corporation, the second largest power company headquartered in the United States. In May, 2005, the company took the name of Chevron Corporation. In spite of so many changes, the Texaco brand continued to exist, being used in the service station network, in fuels, lubricants and grease commercialized in Brazil.

ASSETS PURCHASED BY THE ULTRAPAR GROUP

The TEXACO assets purchased by Ultrapar include the fuel distribution infrastructure, composed by 30 own or co-operated distribution bases, 15 buildings used as warehouses or supporting offices, and assets located in a network of approximately 2,000 exclusive dealerships.

The above-described structure shall be operated under the IPIRANGA brand. To allow for a gradual and organized brand transition process, the business terms include the licensing, already taken into account in the purchase value, of the Texaco brand family for 3 years in the South and Southeast regions and for 5 years in the Midwest, Northeast and North regions.
