ONEIDA LTD.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(Thousands)

1. The statements for the three months ended April 26, 2003 and April 27, 2002 are unaudited; in the opinion of the Company such unaudited statements include all adjustments (which comprise only normal recurring accruals) necessary for a fair presentation of the results of such periods. The results of operations for the three months ended April 26, 2003 are not necessarily indicative of the results of operations to be expected for the year ending January 31, 2004. The consolidated financial statements and notes thereto should be read in conjunction with the financial statements and notes for the years ended in January 2003 and 2002 included in the Company's January 25, 2003 Annual Report to the Securities and Exchange Commission on Form 10-K.

2. The provision for income taxes is based on pre-tax income for financial statement purposes with an appropriate deferred tax provision to give effect to changes in temporary differences between the financial statements and tax bases of assets and liabilities. The temporary differences arise principally from postretirement benefits, depreciation and other employee benefits. The Company anticipates an effective tax rate of 37% for the year as compared to a rate of 20% in the prior year due to nonrecurring rate reductions in fiscal 2003.

3. Basic and diluted earnings per share are presented for each period in which a statement of operations is presented. Basic earnings per share is computed by dividing income less preferred stock dividends by the weighted average shares actually outstanding for the period. Diluted earnings per share includes the potentially dilutive effect of shares issuable under the employee stock purchase and incentive stock option plans.

Edgar Filing: ONEIDA LTD - Form 10-Q

The shares used in the calculation of diluted EPS exclude options to purchase shares where the exercise price was greater than the average market price of common shares for the period. Such shares aggregated 1,715 and 1,298 for the three months ended April 2003 and 2002, respectively.

The following is a reconciliation of basic earnings per share to diluted earnings per share for the three months ended April 26, 2003 and April 27, 2002:

	Net Income (Loss)	Preferred Stock Dividends	Adjusted Net Income (Loss)	Average Shares	Earnings (Loss) Per Share

2003:					
Basic earnings (loss)					
per share	\$(3,385)	\$(32)	\$(3,417)	16,556	\$(.21)
Effect of stock options.				10	
Diluted earnings (loss)					
per share	(3,385)	(32)	(3,417)	16,566	(.21)

2002:					
Basic earnings					
per share	\$1,648	\$(32)	\$1,616	16,530	\$.10
Effect of stock options.				28	
Diluted earnings					
per share	1,648	(32)	1,616	16,558	.10

4. In April 2003, the Company and its lenders entered into an amendment to the revolving credit agreement. The amendment extends the maturity to May 31, 2005 from February 1, 2004, adjusts certain financial covenants and prohibits payment of dividends on common stock. In addition, the commitment under the facility reduced to \$225,000 upon signing of the amendment with further reductions to \$220,000 on July 25, 2003, \$215,000 on November 3, 2003, \$205,000 on January 30, 2004, \$185,000 on February 7, 2004, \$175,000 on May 3, 2004 and \$165,000 on November 1, 2004.

This facility contains certain financial covenants, including a restriction limiting the Company's total debt outstanding to a pre-determined multiple of the prior rolling twelve months earnings before interest, taxes, depreciation and amortization. The Company met the current covenant requirements at April 26, 2003. It is probable that the Company will fail to meet one or more covenant requirements at July 26, 2003 and the Company intends to seek waivers from its lenders. The failure to obtain waivers could result in insufficient liquidity to support future operations. At April 26, 2003 the Company could have borrowed up to an additional \$16,098. Under the provisions of the amended note agreements, at April 26, 2003 the Company was able to declare dividends on 6% Cumulative Preferred Stock up to \$32,265 per quarter. However, no dividend was declared for the first quarter ended April 26, 2003.

Edgar Filing: ONEIDA LTD - Form 10-Q

5. The Company's operations and assets are in one principal industry segment, tableware products. The Company's major product categories are grouped around the manufacture and distribution of metal tableware, china dinnerware and glass tabletop products. The Company also distributes a variety of other tabletop accessories. These products are sold directly to a broad base of retail outlets including department stores, mass merchandisers, Oneida Home stores and chain stores. Additionally, these products are sold to special sales markets, which include customers who use them as premiums, incentives and business gifts. The Company also sells directly or through distributors to foodservice operations worldwide, including hotels, restaurants, airlines, cruise lines, schools and healthcare facilities. The Company's operations are located in the United States, Canada, Mexico, Italy, Australia, The United Kingdom and China.

Sales and operating income for the tableware products for the first quarter of 2003 and 2002 were as follows:

First Quarter	(000)				
	Metal	Dinnerware	Glass	Other	Total
2003 Net Sales	\$62,200	\$32,200	\$ 6,400	\$3,063	\$103,863
2002 Net Sales	69,600	36,200	7,100	2,106	115,006
2003 Operating Income (Loss)	\$(3,000)	\$ 2,300	\$(1,000)	\$ (54)	\$ (1,754)
2002 Operating Income (Loss)	2,000	4,500	(100)	(54)	\$ 6,346

6. In June 2001, the Financial Accounting Standards Board approved Statement of Financial Accounting Standards No. 142 "Goodwill and Other Intangible Assets" ("SFAS 142"). The Company adopted SFAS 142 effective January 27, 2002. Under SFAS 142, amortization of goodwill, including goodwill recorded in past business combinations, was discontinued upon adoption of this standard. Goodwill is subject to annual impairment testing, which compares the carrying value to the fair value and when appropriate, the carrying value of these assets reduces the fair value.

7. The Company has elected to continue following APB No. 25 in accounting for its stock-based compensation plans. Under APB No. 25, compensation expense is not required to be recognized for the Company's stock-based compensation plans. Under Statement of Financial Accounting Standards No. 123 ("SFAS 123") "Accounting for Stock Based Compensation", compensation expense is recognized for the fair value of the options on the date of grant over the vesting period of the options.

Application of the fair-value based accounting provision of SFAS 123 results in the following pro forma amounts of net income (loss) and earnings (loss) per share:

Quarterly Review

Consolidated net sales for the quarter ended April 26, 2003 were \$11,143 lower than in the first quarter of the prior year, reflecting continuing softness in both the foodservice and domestic retail markets.

Gross margin as a percentage of net sales was 28.4% in the first quarter of 2003, comparable to the 32.6% realized for the same period of 2002. This is mainly the result of an aggressive pricing strategy utilized to maintain market share in both the foodservice and consumer markets. In addition, unfavorable factory variance worsened as the manufacturing facilities continue to operate at a lower capacity due to reduced demand. Overall in 2003, there was a slight cost increase in procured product, which represents over 50% of total sales.

Total operating expenses increased by \$74, or 0.2%, from the same quarter last year. As a percentage of sales, operating expenses were 30.4% as compared to 27.4% in 2002 as a result of the lower sales volume.

Interest expense, prior to capitalized interest, was \$3,439 for the quarter ended April 26, 2003, a decrease of \$673 from the first quarter of 2002. This decrease is due to significantly lower average borrowings and lower prevailing interest rates incurred throughout the current quarter.

The Company anticipates an effective tax rate of 37% for the year as compared to a rate of 20% in the prior year due to nonrecurring rate reductions in fiscal 2003.

Liquidity & Financial Resources

During the first quarter of 2003, inventories increased by approximately \$7,800 and debt increased by approximately \$8,500 in the same period. Cash flow used by operations for the first quarter was \$(5,526) as compared to \$7,700 provided in the prior year's first quarter. The Company spent approximately \$2,400 in the first quarter on capital projects focused primarily on its manufacturing facilities. Capital spending for the remainder of 2003 is anticipated to be approximately \$6,900.

In April 2003, the Company and its lenders entered into an amendment to the revolving credit agreement. The amendment extends the maturity to May 31, 2005 from February 1, 2004, adjusts certain financial covenants and prohibits payment of dividends on common stock. In addition, the commitment under the facility reduced to \$225,000 upon signing of the amendment with further reductions to \$220,000 on July 25, 2003, \$215,000 on November 3, 2003, \$205,000 on January 30, 2004, \$185,000 on February 7, 2004, \$175,000 on May 3, 2004 and \$165,000 on

Edgar Filing: ONEIDA LTD - Form 10-Q

November 1, 2004.

This facility contains certain financial covenants, including a restriction limiting the Company's total debt outstanding to a pre-determined multiple of the prior rolling twelve months earnings before interest, taxes, depreciation and amortization. The Company met the current covenant requirements at April 26, 2003. It is probable that the Company will fail to meet one or more covenant requirements at July 26, 2003 and the Company intends to seek waivers from its lenders. The failure to obtain waivers could result in insufficient liquidity to support future operations.

Provided the above waivers are obtained, management believes there is sufficient liquidity to support the Company's funding requirements over the next year from future operations as well as from available bank lines of credit. The Company may need to raise additional capital to further reduce its outstanding debt obligations. Working capital was \$184,911 as of April 26, 2003 as compared to \$182,710 at January 25, 2003. The Company could have borrowed up to an additional \$16,098 at April 26, 2003.

Under the provisions of the amended note agreements, at April 26, 2003 the Company was able to declare dividends on 6% Cumulative Preferred Stock up to \$32,265 per quarter. However, no dividend was declared for the first quarter ended April 26, 2003.

Quantitative and Qualitative Disclosures about Market Risk

The Company's market risk is impacted by changes in interest rates and foreign currency exchange rates. Pursuant to the Company's policies, the Company does not hold or issue any significant derivative financial instruments.

The Company's primary market risk is interest rate exposure in the United States. Historically, the Company manages interest rate exposure through a mix of fixed and floating rate debt. The majority of the Company's debt is currently at floating rates. Based on floating rate borrowings outstanding at April 2003, a 1% change in the rate would result in a corresponding change in interest expense of \$2.2 million.

14

Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and our Chief Financial Officer have carried out an evaluation, with the participation of the Company's management, of the design and operation of the Company's "disclosure controls and procedures" (as defined in Rules 13a-14 and 15d-14 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) within 90 days of the date of this report. That evaluation included consideration of those controls in light of the just completed review of the Company's financial statements for the prior 8 quarters. Based upon that evaluation, each has concluded that the Company's "disclosure controls and procedures" are effective to insure that information required to be disclosed in the reports that we file under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission's rules and regulations.

Edgar Filing: ONEIDA LTD - Form 10-Q

Changes in Internal Controls

There were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls, nor any significant deficiencies or material weaknesses in such controls requiring corrective actions, subsequent to the date of their evaluation.

Forward Looking Information

With the exception of historical data, the information contained in this Form 10-Q, as well as those other documents incorporated by reference herein, may constitute forward-looking statements, within the meaning of the Federal securities laws, including but not limited to the Private Securities Litigation Reform Act of 1995. As such, the Company cautions readers that changes in certain factors could affect the Company's future results and could cause the Company's future consolidated results to differ materially from those expressed or implied herein. Such factors include, but are not limited to: changes in national or international political conditions; terrorist attacks; general economic conditions in the Company's own markets and related markets; difficulties or delays in the development, production and marketing of new products; the impact of competitive products and pricing; certain assumptions related to consumer purchasing patterns; significant increases in interest rates or the level of the Company's indebtedness; foreign currency fluctuations; major slowdowns in the retail, travel or entertainment industries; the loss of several of the Company's major customers; underutilization of the Company's plants and factories; impact of changes in accounting standards; potential legal proceedings; changes in pension and retiree medical costs; and the amount and rate of growth of the Company's selling, general and administrative expenses.
