Table of Contents**PART I**

When we use the terms Greenhill , we , us , our , the company , and the firm , we mean Greenhill & Co., Inc., a Delaware corporation, and its consolidated subsidiaries (formerly Greenhill & Co. Holdings, LLC and subsidiaries). Our principal financial advisory subsidiaries are Greenhill & Co., LLC, a registered broker-dealer regulated by the Securities and Exchange Commission which provides investment banking and fund placement advisory services in North America; Greenhill & Co. International LLP and Greenhill & Co. Europe LLP, each of which provides investment banking services in Europe and is regulated by the United Kingdom Financial Services Authority; and Greenhill & Co., Canada Ltd. and Greenhill & Co. Japan Ltd., each of which provides investment banking services in Canada and Japan, respectively. Our principal merchant banking subsidiaries are Greenhill Capital Partners, LLC and Greenhill Venture Partners, LLC, each of which is a registered investment adviser regulated by the Securities and Exchange Commission through which we conduct our North American merchant banking business; and Greenhill Capital Partners Europe LLP, an investment adviser regulated by the United Kingdom Financial Services Authority through which we conduct our European merchant banking business.

Item 1. Business**Overview**

Greenhill is an independent investment banking firm that (i) provides financial advice on significant mergers, acquisitions, restructurings and similar corporate finance matters as well as our fund placement services for private equity and other financial sponsors and (ii) manages merchant banking funds and similar vehicles and commits capital to those funds and vehicles. We act for clients located throughout the world from offices in New York, London, Frankfurt, Toronto, Tokyo, Dallas, San Francisco and Chicago.

We were established in 1996 by Robert F. Greenhill, the former President of Morgan Stanley and former Chairman and Chief Executive Officer of Smith Barney. Since its founding, Greenhill has grown steadily, recruiting a number of managing directors from major investment banks (as well as senior professionals from other institutions), with a range of geographic, industry and transaction specialties as well as different sets of corporate management and other relationships. As part of this expansion, we opened a London office in 1998, raised our first merchant banking fund in 2000, opened a Frankfurt office in 2000 and began offering financial restructuring advice in 2001. On May 11, 2004, we converted from a limited liability company to a corporation, and completed an initial public offering of our common stock. We opened our Dallas office in April 2005 and completed the closing of our second merchant banking fund in June 2005. We opened our Toronto office in July 2006 and completed the final closing of our first venture capital fund in September 2006. We raised our first European merchant banking fund in 2007. We completed the initial public offering of our special purpose acquisition company, GHL Acquisition Corp., in February 2008, opened our San Francisco office in April 2008, launched our fund placement advisory group in May 2008, opened our Tokyo office in October 2008 and opened our Chicago office in November 2008. As of December 31, 2008, we had 47 managing directors and 5 senior advisors globally.

Principal Sources of Revenue

Our principal sources of revenue are financial advisory and merchant banking.

	For the Year Ended December 31,				
	2008	2007	2006	2005	2004

(In millions)

Financial advisory fees	\$ 218.2	\$ 366.7	\$ 209.8	\$ 142.1	\$ 130.9
Merchant banking & other revenue ⁽¹⁾	3.7	33.7	80.8	79.1	21.0
Total revenue	\$ 221.9	\$ 400.4	\$ 290.6	\$ 221.2	\$ 151.9

(1) Merchant banking & other revenue includes interest income of \$3.6 million, \$5.4 million, \$3.1 million, \$2.9 million, and \$0.8 million in 2008, 2007, 2006, 2005, and 2004, respectively.

Table of Contents

Financial Advisory

Our financial advisory business consists of mergers and acquisitions, financing advisory and restructuring, and fund placement advisory. For all of our financial advisory services, we draw on the extensive experience, corporate relationships and industry expertise of our managing directors and senior advisors.

On mergers and acquisitions engagements, we provide a broad range of advice to global clients in relation to domestic and cross-border mergers, acquisitions, and similar corporate finance matters and are generally involved at each stage of these transactions, from initial structuring to final execution. Our focus is on providing high-quality advice to senior executive management and boards of directors of prominent large and mid-cap companies in transactions that typically are of the highest strategic and financial importance to those companies. We advise clients on strategic matters, including acquisitions, divestitures, defensive tactics, special committee assignments and other important corporate events. We provide advice on valuation, tactics, industry dynamics, structuring alternatives, timing and pricing of transactions, and financing alternatives. Where requested to do so, we may provide an opinion regarding the fairness of a transaction.

In our financing advisory and restructuring practice, we advise debtors, creditors and companies experiencing financial distress as well as potential acquirors of distressed companies and assets. We provide advice on valuation, restructuring alternatives, capital structures, and sales or recapitalizations. We also assist those clients who seek court-assisted reorganizations by developing and seeking approval for plans of reorganization as well as the implementation of such plans.

In our fund placement advisory practice we assist private equity funds and other financial sponsors in raising capital from a global set of institutional and other investors.

Financial advisory revenues accounted for 98% and 92% of our revenues in 2008 and 2007, respectively. Non-U.S. clients are a significant part of our business, generating 53% and 64% of our financial advisory revenues in 2008 and 2007, respectively. We generate revenues from our financial advisory services by charging our clients fees consisting principally of fees paid upon the commencement of an engagement, fees paid upon the announcement of a transaction, fees paid upon the successful conclusion of a transaction or closing of a fund and, in connection principally with restructuring assignments, monthly retainer fees.

Merchant Banking and Other

Our merchant banking activities currently consist primarily of management of and investment in Greenhill's merchant banking funds, Greenhill Capital Partners I (or "GCP I"), Greenhill Capital Partners II (or "GCP II"), and collectively with GCP I, Greenhill Capital Partners (or "GCP"), Greenhill SAV Partners (or "GSAVP") and Greenhill Capital Partners Europe (or "GCP Europe"), which are families of merchant banking funds that invest in portfolio companies. Merchant banking funds are private investment funds raised from contributions by qualified institutional investors and financially sophisticated individuals. The funds generally make investments in non-public companies, typically with a view toward divesting within 3 to 5 years. We pursue merchant banking and other investment activities in addition to our financial advisory activities because we believe merchant banking can generate attractive returns on the firm's capital, and because it allows us to further leverage our managing directors' industry knowledge and corporate relationships. We believe we can pursue merchant banking opportunities without creating conflicts with our advisory clients by typically focusing on significantly smaller companies than those with respect to which we seek to provide financial advice. GCP typically makes controlling or influential minority investments of \$10 million to \$75 million in companies with valuations that are between \$50 million and \$500 million at the time of investment. GCP has invested a substantial portion of its capital in the energy, financial services and telecommunications industries. GSAVP

typically makes smaller investments in early-growth-stage companies that offer technology-enabled or business information services. Such investments typically involve higher levels of risk and are more speculative than our GCP investments. GCP Europe

Table of Contents

typically makes controlling or influential minority investments of £10 million to £30 million in companies with valuations that are between £50 million and £250 million at the time of investment. We expect to expand our merchant banking and related activities over time.

Merchant banking and other revenue accounted for 2% and 8% of our revenues in 2008 and 2007, respectively. We generate merchant banking revenue from (i) management fees paid by the funds we manage, (ii) gains (or losses) on our investments in the merchant banking funds and other principal investment activities, and (iii) merchant banking profit overrides. We charge management fees in GCP II, GSAVP and GCP Europe to all investors except the firm. In GCP I, we charge management fees to all outside investors who are not employed or affiliated with us. We may also generate gains (or losses) from our capital investment in our merchant banking funds depending upon the performance of the funds. Our investments in our merchant banking funds generate realized and unrealized investment gains (or losses) based on our allocable share of earnings generated by the funds. As the general partner of our merchant banking funds we make investment decisions for the funds and are entitled to receive an override on the profits of the funds after certain performance hurdles are met.

We began our merchant banking activities in 2000 with the establishment of GCP I, which had total committed capital of \$423 million. In 2005 we closed our second merchant banking fund, GCP II, which had total committed capital of \$875 million. The firm has committed approximately 10%, or \$88.5 million, to GCP II and our managing directors and other employees have committed an additional \$136 million to that fund. In 2006 we expanded our merchant banking activities with the closing of our venture capital fund, GSAVP, which had total committed capital of \$101.5 million. The firm has committed \$10.9 million to GSAVP and our managing directors and other employees have committed an additional \$22.6 million to that fund. In 2007, we closed our first European merchant banking fund, GCP Europe, which had total committed capital of approximately £191 million. The firm has committed £25 million to GCP Europe and our managing directors and other employees have committed an additional £41.9 million.

In February 2008, GH Acquisition Corp. (GHAC), a blank check company sponsored by the firm, completed its initial public offering, selling 40,000,000 units for an aggregate purchase price of \$400 million. We originally invested \$8.0 million in GH Acquisition Corp. and owned approximately 17.3% of its outstanding common stock (AMEX:GHQ) upon consummation of the offering. In September 2008, GH Acquisition Corp. announced that it had agreed to acquire Iridium Holdings, L.L.C. (Iridium), a leading provider of voice and data mobile satellite services, at an enterprise value of approximately \$591 million, subject to stockholder approval, various regulatory approvals and other customary closing conditions. In October 2008, we completed our previously agreed investment of \$22.9 million in a convertible subordinated note issued by Iridium. If the acquisition of Iridium is completed upon the agreed terms and our investment is converted to common shares without any adjustment to the conversion price, the firm will own approximately 9.2 million common shares and 6 million warrants (at a strike price of \$7.00 per share) of the combined company.

Employees

Our managing directors and senior advisors have an average of 25 years of relevant experience, and many of them are able to use this experience to advise on mergers and acquisitions, financing advisory and restructuring transactions, fund placement and merchant banking investments, depending on the situation. We spend significant amounts of time training and mentoring our junior professionals. We generally provide our junior professionals with exposure to mergers and acquisitions, financing advisory and restructurings, fund placement advisory and merchant banking to varying degrees, which provides us with the flexibility to allocate resources depending on the economic environment, and provides our bankers consistent transactional experience and a wide variety of experiences to assist in the development of business and financial judgment.

As of December 31, 2008, Greenhill employed a total of 234 people (including our managing directors and senior advisors), of which 150 were located in our North American offices, 81 were based

Table of Contents

in our European offices and 3 in our Asian office. The vast majority of our finance, operational and administrative employees are located in the United States. We strive to maintain a work environment that fosters professionalism, excellence, diversity, and cooperation among our employees worldwide. We utilize a comprehensive evaluation process at the end of each year to measure performance, determine compensation and provide guidance on opportunities for improved performance.

Competition

In our financial advisory services business, we operate in a highly competitive environment where there are no long-term contracted sources of revenue. Each revenue-generating engagement is separately awarded and negotiated. Our list of clients with whom there is an active revenue-generating engagement changes continually. To develop new client relationships, and to develop new engagements from historic client relationships, we maintain a business dialogue with a large number of clients and potential clients, as well as with their financial and legal advisors, on an ongoing basis. We have gained a significant number of new clients each year through our business development initiatives, through recruiting additional senior investment banking professionals who bring with them client relationships and through referrals from members of boards of directors, attorneys and other parties with whom we have relationships. At the same time, we lose clients each year as a result of the sale or merger of a client, a change in a client's senior management, competition from other investment banks and other causes.

The financial services industry is intensely competitive, and we expect it to remain so. Our competitors are other investment banking firms, merchant banks and financial advisory firms. We compete with some of our competitors globally and with some others on a regional, product or niche basis. We compete on the basis of a number of factors, including transaction execution skills, our range of products and services, innovation, reputation and price.

Over the years there has been substantial consolidation and convergence among companies in the financial services industry. In particular, a number of large commercial banks, insurance companies and other broad-based financial services firms have established or acquired broker-dealers or have merged with other financial institutions. Many of these firms have the ability to offer a wider range of products, from loans, deposit-taking and insurance to brokerage, asset management and investment banking services, which may enhance their competitive position. They also have the ability to support investment banking and securities products with commercial banking, insurance and other financial services revenues in an effort to gain market share, which could result in pricing pressure in our businesses. This trend toward consolidation and convergence has significantly increased the capital base and geographic reach of our competitors.

In 2008, this trend of consolidation and convergence accelerated considerably as several major U.S. financial institutions consolidated, filed for bankruptcy protection, were forced to merge or received substantial government assistance. At present, it is unclear how this will impact the competitive landscape. We believe our primary competitors in securing mergers and acquisitions and financing advisory and restructuring engagements are Bank of America Corporation, Citigroup Inc., Credit Suisse Holdings (USA), Inc., Goldman Sachs Group, Inc., JPMorgan Chase & Co., Morgan Stanley, UBS A.G. and other bulge bracket firms as well as investment banking firms such as Blackstone Group, Evercore Partners Inc., Jefferies Group, Inc., Lazard Ltd. and other closely held independent firms.

In our merchant banking business, we face competition both in the pursuit of outside investors for our merchant banking funds and in identifying investments in attractive portfolio companies. The activity of identifying, completing and realizing attractive private equity investments of the types our merchant banking funds have made and expect to make is competitive and involves a high degree of uncertainty. We may be competing with other investors, including other merchant banking funds, and corporate buyers for the investments that we make. The level of capital committed to merchant banking funds generally has increased dramatically in recent years, intensifying the competition in the

Table of Contents

acquisition of attractive investments. In addition, the current diminished availability of credit may cause more merchant banking funds to adopt our strategy of low-leverage investing which would increase competition.

Competition is also intense for the hiring and retention of qualified employees. Our ability to continue to compete effectively in our businesses will depend upon our ability to attract new employees and retain and motivate our existing employees.

Regulation

Our business, as well as the financial services industry generally, is subject to extensive regulation in the United States, Europe and elsewhere. As a matter of public policy, regulatory bodies in the United States and the rest of the world are charged with safeguarding the integrity of the securities and other financial markets and with protecting the interests of customers participating in those markets. In the United States, the Securities and Exchange Commission (SEC) is the federal agency responsible for the administration of the federal securities laws. Greenhill & Co., LLC, a wholly-owned subsidiary of Greenhill through which we conduct our U.S. financial advisory business, is registered as a broker-dealer with the SEC and the Financial Industry Regulatory Authority (FINRA), and in all 50 states and the District of Columbia. Greenhill & Co., LLC is subject to regulation and oversight by the SEC. In addition, FINRA, a self-regulatory organization that is subject to oversight by the SEC, adopts and enforces rules governing the conduct, and examines the activities, of its member firms, including Greenhill & Co., LLC. State securities regulators also have regulatory or oversight authority over Greenhill & Co., LLC. Similarly, Greenhill & Co. International LLP and Greenhill & Co. Europe LLP, our controlled affiliated partnerships with offices in the United Kingdom and Germany, respectively, through which we conduct our European financial advisory business, are licensed by and also subject to regulation by the United Kingdom's Financial Services Authority. Our business may also be subject to regulation by non-U.S. governmental and regulatory bodies and self-regulatory authorities in other countries where Greenhill operates.

Broker-dealers are subject to regulations that cover all aspects of the securities business, including sales methods, trade practices among broker-dealers, use and safekeeping of customers' funds and securities, capital structure, record-keeping, the financing of customers' purchases and the conduct and qualifications of directors, officers and employees. Additional legislation, changes in rules promulgated by self-regulatory organizations or changes in the interpretation or enforcement of existing laws and rules, either in the United States or elsewhere, may directly affect the mode of operation and profitability of Greenhill.

The U.S. and non-U.S. government agencies and self-regulatory organizations, as well as state securities commissions in the United States, are empowered to conduct administrative proceedings that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer or its directors, officers or employees.

In addition, Greenhill Capital Partners, LLC and Greenhill Venture Partners, LLC are registered investment advisers under the Investment Advisers Act of 1940. As such, they are subject to regulation and periodic examinations by the SEC. Greenhill Capital Partners Europe LLP is licensed by and subject to regulation by the United Kingdom's Financial Services Authority.

Where You Can Find Additional Information

Greenhill & Co., Inc. files current, annual and quarterly reports, proxy statements and other information required by the Securities Exchange Act of 1934, as amended (the Exchange Act), with the SEC. You may read and copy any document the company files at the SEC's public reference room located at 100 F Street, N.E., Washington, D.C. 20549, U.S.A. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. The firm's

SEC filings are also available to the public from the SEC's internet site at <http://www.sec.gov>. Copies of these reports, proxy statements and

Table of Contents

other information can also be inspected at the offices of the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005, U.S.A.

Our public internet site is <http://www.greenhill.com>. We make available free of charge through our internet site, via a link to the SEC's internet site at <http://www.sec.gov>, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and Forms 3, 4 and 5 filed on behalf of directors and executive officers and any amendments to those reports filed or furnished pursuant to the Exchange Act as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. Also posted on our website in the Corporate Governance section, and available in print upon request of any stockholder to our Investor Relations Department, are charters for our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee, our Corporate Governance Guidelines, Related Person Transaction Policy and Code of Business Conduct and Ethics governing our directors, officers and employees. You will need to have Adobe Acrobat Reader software installed on your computer to view these documents, which are in PDF format.

Item 1A. Risk Factors

Our ability to retain our senior managing directors is critical to the success of our business

The success of our business depends upon the personal reputation, judgment, business generation capabilities and project execution skills of our managing directors and senior advisors, particularly our senior managing directors. Founded in 1996, our business has a more limited operating history than many of our competitors and, as a result, our managing directors' personal reputations and relationships with our clients are a critical element in obtaining and maintaining client engagements, and forming and investing merchant banking funds. Accordingly, the retention of our managing directors is particularly crucial to our future success. The departure or other loss of Mr. Greenhill, our founder and Chairman, or the departure or other loss of other senior managing directors, each of whom manages substantial client relationships and possesses substantial experience and expertise, could materially adversely affect our ability to secure and successfully complete engagements and conduct our merchant banking business, which would materially adversely affect our results of operations.

In addition, if any of our managing directors were to join an existing competitor or form a competing company, some of our clients could choose to use the services of that competitor instead of our services. There is no guarantee that the compensation arrangements, non-competition agreements and lock-up agreements we have entered into with our managing directors are sufficiently broad or effective to prevent our managing directors from resigning to join our competitors or that the non-competition agreements would be upheld if we were to seek to enforce our rights under these agreements.

A significant portion of our revenues are derived from financial advisory fees

We have historically earned a significant portion of our revenues from financial advisory fees paid to us by our clients, in large part upon the successful completion of the client's transaction, restructuring or fund raising. Financial advisory revenues represented 98% and 92% of our total revenues in 2008 and 2007, respectively. Unlike diversified investment banks, we only have one other significant alternative source of revenue, and lack such other sources of revenue as securities trading or underwriting. We expect that our reliance on financial advisory fees will continue for the foreseeable future and a decline in our financial advisory engagements or the market for advisory services generally would have a material adverse effect on our business and results of operations.

Table of Contents

Our business has been adversely affected by difficult market conditions and may continue to be adversely affected by market uncertainty, disruptions in the credit markets and other unfavorable economic, geopolitical or market conditions

Adverse market and economic conditions in 2008 affected the number and size of transactions on which we provided mergers and acquisitions advice and therefore adversely affected our financial advisory fees. In 2008, worldwide completed M&A volume decreased by 32%, from \$4,013 billion in 2007 to \$2,735 billion in 2008⁽¹⁾. Our clients engaging in mergers and acquisitions often rely on access to the credit markets to finance their transactions. The lack of available credit and the increased cost of credit can adversely affect the size, volume, timing and ability of our clients to successfully complete merger and acquisition transactions and adversely affect our financial advisory business. The continuing market volatility also affects our clients ability and willingness to engage in stock-for-stock transactions. Accordingly, we expect that the current lack of liquidity and general uncertainty about economic and market activities may continue to adversely impact our business.

As of the end of 2008, the United States, Canada, Europe and Asia are all in economic recessions. As our operations in the United States and Europe historically have provided most of our revenues and earnings, our revenues and profitability are particularly affected by economic conditions in these locations.

Adverse market or economic conditions, including continuing volatility in the commodities markets, limited access to credit as well as a slowdown of activity in the sectors in which the portfolio companies of our merchant banking funds operate could also adversely affect the business operations of those portfolio companies, and therefore, our earnings. In addition, during a market downturn, our merchant banking funds may find fewer opportunities to exit and realize value from their investments.

In the event of a continued economic downturn, revenues from mergers and acquisitions advisory activities may decline further, and revenues from financing advisory and restructuring activities may not fully offset any such decline

During a period when mergers and acquisitions activity declines and debt defaults increase, we increasingly rely on the provision of financing advisory and restructuring and bankruptcy services as a source of new business. We provide various restructuring and restructuring-related advice to companies in financial distress or their creditors or other stakeholders. A number of factors affect demand for these advisory services, including general economic conditions and the availability and cost of debt and equity financing. Presently, our financing advisory and restructuring business is significantly smaller than our mergers and acquisitions advisory business, and it is unlikely that we will be able to offset a decline in mergers and acquisitions revenue with revenue generated from financing advisory and restructuring assignments.

The requirement of Section 327 of the U.S. Bankruptcy Code requiring that one be a disinterested person to be employed in a restructuring was modified recently to allow a person not to be disqualified solely by virtue of its status as an underwriter of securities. The disinterested person definition of the U.S. Bankruptcy Code, as previously in effect, disqualified certain of our competitors. The new definition could allow for more financial services firms to compete for restructuring engagements as well as with respect to the recruitment and retention of professionals. If our competitors succeed in being retained in new restructuring engagements, our financial restructuring practice, and thereby our results of operations, could be materially adversely affected.

If demand for our financing advisory and restructuring services decreases, we could suffer a decline in revenues, which could lower our overall profitability materially.

(1) Source: Thompson Financial as of January 19, 2009.

Table of Contents

Our merger and acquisition and financing advisory and restructuring engagements are singular in nature and do not provide for subsequent engagements

Our clients generally retain us on a non-exclusive, short-term, engagement-by-engagement basis in connection with specific merger or acquisition transactions or financing advisory and restructuring projects, rather than under long-term contracts covering potential additional future services. As these transactions are singular in nature and our engagements are not likely to recur, we must seek out new engagements when our current engagements are successfully completed or are terminated. As a result, high activity levels in any period are not necessarily indicative of continued high levels of activity in the next-succeeding or any other period. In addition, when an engagement is terminated, whether due to the cancellation of a transaction due to market reasons or otherwise, we may earn limited or no fees and may not be able to recoup the costs that we incurred prior to that termination.

A high percentage of our financial advisory revenues are derived from a few clients and the termination of any one financial advisory engagement could reduce our revenues and harm our operating results

Each year, we advise a limited number of clients. Our top ten client engagements accounted for 54% of our total revenues in 2008 and 56% of our total revenues in 2007. Our single largest client engagement accounted for 10% and 12% of our total revenues in 2008 and 2007, respectively. While the composition of the group comprising our largest clients varies significantly from year to year, we expect that our financial advisory engagements will continue to be limited to a relatively small number of clients and that an even smaller number of those clients will account for a high percentage of revenues in any particular year. As a result, the adverse impact on our results of operation of one lost engagement or the failure of one transaction or restructuring on which we are advising to be completed can be significant.

Investment gains from our merchant banking portfolio vary from period to period; these gains may not recur and may not be replaced by other gains; our investments may lose money

We have a limited number of investments in our merchant banking portfolio. The fair value of these investments may appreciate (or depreciate) at different rates based on a variety of factors. There were no gains (or losses) from any single investment that accounted for more than 10% of total revenues recognized by the firm in 2008 or 2007. Historically, gains (or losses) from investments have been significantly impacted by market factors, specific industry conditions and other factors beyond our control, and we cannot predict the timing or size of any such gains (or losses) in future periods. The lack of investment gains (and any losses which may be attributable to the investments in our merchant banking portfolio) may adversely affect our stock price.

There will not be a consistent pattern in our financial results from quarter to quarter, which may result in increased volatility of our stock price

We can experience significant variations in revenues and profits during the year. These variations can generally be attributed to the fact that our revenues are usually earned in large amounts throughout the year upon the successful completion of a transaction or restructuring or closing of a fund, the timing of which is uncertain and is not subject to our control. Moreover, the timing of our realization of gains or the incurrence of valuation losses from our merchant banking portfolio may vary significantly from period to period and depends on a number of factors beyond our control, including most notably market and general economic conditions.

Compared to our larger, more diversified competitors in the financial services industry, we generally experience even greater variations in our revenues and profits. This is due to our dependence on a relatively small number of transactions for most of our revenues, with the result that our earnings can be significantly affected if any particular transaction is not completed successfully, and to the fact that we lack other, more stable sources of revenue in material

amounts, such as brokerage and asset

Table of Contents

management fees, which could moderate some of the volatility in financial advisory revenues. In addition, our merchant banking investments are reported at estimated fair value at the end of each quarter. The value of our investments may increase or decrease significantly depending upon market factors that are beyond our control. As a result, it may be difficult for us to achieve steady earnings growth on a quarterly basis, which could adversely affect our stock price.

In addition, in many cases we are not paid for financial advisory engagements that do not result in the successful consummation of a transaction or restructuring or closing of a fund. As a result, our business is highly dependent on market conditions and the decisions and actions of our clients and interested third parties. For example, a client could delay or terminate a transaction because of a failure to agree upon final terms with the counterparty, failure to obtain necessary regulatory consents or board or shareholder approvals, failure to secure necessary financing, or adverse market conditions. Anticipated bidders for assets of a client during a restructuring transaction may not materialize or our client may not be able to restructure its operations or indebtedness due to a failure to reach agreement with its principal creditors. In these circumstances, in many cases we do not receive any financial advisory fees, other than the reimbursement of certain out-of-pocket expenses. The failure of the parties to complete a transaction on which we are advising, and the consequent loss of revenue to us, could lead to large adverse movements in our stock price.

We are continuing to expand our merchant banking business, which will entail increased levels of investments in high-risk, illiquid assets

In 2007, we continued to expand our merchant banking business by establishing a new European merchant banking fund, GCP Europe, to which we committed £25.0 million. Subject to market conditions, we intend to form a new merchant banking fund prior to the expiration of the commitment period of GCP II in June 2010, to which we will likely make a substantial commitment. Our funds generally make investments in relatively high-risk, illiquid assets. Contributing capital to these funds is risky and we may lose some or all of the principal amount of our investments.

Our revenues from this business are primarily derived from management fees calculated as a percentage of committed capital and/or assets under management, investment gains and profit overrides, which are earned if investments are profitable over a specified threshold. Our ability to form new merchant banking funds is subject to a number of uncertainties, including adverse market or economic conditions, competition from other fund managers, and the ability to negotiate terms with major investors. There can be no assurance that we will be able to form new merchant banking funds.

We may occasionally make principal investments, such as our \$8.0 million investment in GHLAC, a blank check company sponsored by the firm. GHLAC (AMEX: GHQ) completed its \$400 million initial public offering in February 2008 and in September 2008 agreed to acquire Iridium Holdings, LLC, subject to stockholder approval, various regulatory approvals and other customary closing conditions. In October 2008, we completed our \$22.9 million investment in Iridium Holdings, LLC. These investments may be in high-risk, illiquid assets, and we may be required to hold such investments for a long time. We may lose all of the money we commit to such investments.

Given the nature of the investments of GCP, GSAVP and GCP Europe, there is a significant risk that our merchant banking funds will be unable to realize their investment objectives by sale or other disposition at attractive prices or will otherwise be unable to complete any exit strategy. In particular, these risks could arise from changes in the financial condition or prospects of the portfolio company in which the investment is made, changes in technology, changes in national or international economic conditions or changes in laws, regulations, fiscal policies or political conditions of countries in which investments are made.

Our merchant banking funds will typically invest in securities of a class that are not publicly-traded. In many cases we may be prohibited by contract or by applicable securities laws from selling such securities for a period of time or otherwise be restricted from disposing of such securities. We will generally not be able to sell these securities publicly unless their sale is registered under applicable

Table of Contents

securities laws, or unless an exemption from such registration requirements is available. Moreover, in cases where we hold publicly traded securities, we may be further limited in our ability to sell such securities if we sit on the board of directors of the portfolio company. In particular, our merchant banking funds' ability to dispose of investments is heavily dependent on the merger and acquisition environment and the initial public offering market, which fluctuates in terms of both volume of transactions as well as the types of companies which are able to access the market. Furthermore, the types of investments made may require a substantial length of time to liquidate.

In addition, the investments in these funds are reported at estimated fair value at the end of each quarter and our allocable share of these gains or losses will affect our revenue, which could increase the volatility of our quarterly earnings, even though such gains or losses may have no cash impact. It takes a substantial period of time to identify attractive merchant banking opportunities, to negotiate a transaction with the seller and arrange the financing to make an investment and then to realize the cash value of our investment through resale. Even if a merchant banking investment proves to be profitable, it may be several years or longer before any profits can be realized in cash from such investment.

We value our merchant banking portfolio and other investments each quarter using a fair value methodology, which could result in gains or losses to the firm; the fair value methodology may over- or under-state the ultimate value we will realize; clawbacks and losses could affect our stock price adversely

The firm makes principal investments in GCP, GSAVP and GCP Europe and similar vehicles. As of December 31, 2008, the value of the firm's principal investment in GCP, GSAVP and GCP Europe and other investments was \$72.0 million. The value of our fund investments is recorded at estimated fair value and is determined on a quarterly basis by the general partner after giving consideration to the cost of the security, the pricing of other sales of securities by the portfolio company, the price of securities of other companies comparable to the portfolio company, purchase multiples paid in other comparable third party transactions, the original purchase price multiple, market conditions, liquidity, operating results and other quantitative and qualitative factors. Significant changes in the public equity markets may have a material effect on the fair value of our principal investments and therefore on our revenues and profitability during any reporting period. The estimated fair value at which the principal investments are carried on our books may vary significantly from period to period depending on a number of factors beyond our control. It may not be possible to sell these investments at the estimated fair values attributed to them in our financial statements. Moreover, that portion of our merchant banking revenue which is attributable to realized profit overrides is subject to repayment to the limited partners of our merchant banking funds if certain performance hurdles for those funds are not met (which we refer to as a "clawback"). As a result, our stock price could be adversely affected by losses in the value of these investments or clawbacks.

Investors in our merchant banking funds may elect to remove us as the general partner of those funds at any time without cause. Such removal would lead to a decrease in our revenues, which could be substantial and lead, therefore, to a material adverse effect on our business

The third-party investors in our merchant funds may, subject to certain conditions, act at any time to remove us as the general partner in those funds without cause, resulting in a reduction in management fees we earn from such funds, and a significant reduction in the amounts of profit overrides we could earn from those funds. In addition to the significant negative impact on our revenue and earnings, the occurrence of such an event with respect to any of our funds would likely result in significant reputational damages as well.

Table of Contents

A significant deterioration in the credit markets or the failure of one or more banking institutions could adversely affect our ability to access the cash invested by us

A significant portion of our assets consist of cash and cash equivalents. We have invested these assets in instruments which we believe are highly liquid, and monitor developments relating to the liquidity of these investments on a regular basis, but in the event of a significant deterioration of the credit markets or the failure of one or more banking institutions, there can be no assurance that we will be able to liquidate these assets or access our cash. Our inability to access our cash investments could have a material adverse effect on our liquidity and result in a charge to our earnings which could have a material adverse effect on the value of our stock.

Our inability to refinance our existing revolving credit facility could adversely effect our operations. We have a revolving loan commitment from a U.S. commercial bank which expires December 31, 2009. At December 31, 2008 we had \$26.5 million drawn down from the facility. We utilize the revolving loan facility to provide for our domestic cash needs, which include the funding of capital calls for GCP II and GSAVP, dividend payments, share repurchases and for other corporate purposes. The duration of the loan commitment extends for twelve months. Our inability to extend the maturity date or retain the existing commitment amount of the loan with the existing lender or to find another lender would require us to repay all or a portion of the loan balance. In that event it is likely we would be required to repatriate funds to the U.S. to fund the repayment. This could result in an incremental tax charge. Our inability to refinance the loan facility could have a material adverse effect on our liquidity and result in our inability to meet our obligations, which could have a material adverse effect on our stock price.

We face strong competition from far larger firms and small independent firms

The investment banking industry is intensely competitive and we expect it to remain so. We compete on the basis of a number of factors, including the quality of our advice and service, innovation, reputation and price. We believe we may experience pricing pressures in our areas of operation in the future as some of our competitors seek to obtain market share by reducing prices. We are a relatively small investment bank, with 234 employees (including managing directors and senior advisors) as of December 31, 2008 and total revenues of approximately \$221.9 million in 2008. Most of our competitors in the investment banking industry have a far greater range of products and services, greater financial and marketing resources, larger customer bases, greater name recognition, more managing directors to serve their clients' needs, greater global reach and more established relationships with their customers than we have. These larger and better capitalized competitors may be better able to respond to changes in the investment banking market, to compete for skilled professionals, to finance acquisitions, to fund internal growth and to compete for market share generally.

The scale of our competitors has increased over the years as a result of substantial consolidation among companies in the investment banking industry. In 2008, this trend of consolidation and convergence accelerated considerably as several major U.S. financial institutions consolidated, filed for bankruptcy protection, were forced to merge or received substantial government assistance. In addition, a number of large commercial banks, insurance companies and other broad-based financial services firms have established or acquired financial advisory practices and broker-dealers or have merged with other financial institutions. These firms have the ability to offer a wide range of products, from loans, deposit-taking and insurance to brokerage, asset management and investment banking services, which may enhance their competitive position. They also have the ability to support investment banking with commercial banking, insurance and other financial services revenues in an effort to gain market share, which could result in pricing pressure in our businesses. In particular, the ability to provide financing as well as advisory services has become an important advantage for some of our larger competitors, and because we are unable to provide such financing we may be unable to compete for advisory clients in a significant part of the advisory market.

Table of Contents

In addition to our larger competitors, over the last few years, a number of new, smaller independent boutique investment banks have emerged which offer independent advisory services. Many of these firms have been formed by high profile investment bankers who have exited the bulge bracket firms. These firms differentiate themselves from the large multi-line investment banks and compete with us for business where independent, unconflicted advice is sought.

Strategic investments, acquisitions and joint ventures, or foreign expansion may result in additional risks and uncertainties in our business.

We intend to grow our core business through both recruiting and internal expansion and through strategic investments, acquisitions or joint ventures. In the event we make strategic investments or acquisitions or enter into joint ventures, we face numerous risks and uncertainties combining or integrating the relevant businesses and systems, including the need to combine accounting and data processing systems and management controls. In the case of joint ventures, we are subject to additional risks and uncertainties in that we may be dependent upon, and subject to liability, losses or reputational damage relating to systems, controls and personnel that are not under our control. In addition, conflicts or disagreements between us and our joint venture partners may negatively impact our business.

To the extent that we pursue business opportunities outside the United States, we will be subject to political, economic, legal, operational and other risks that are inherent in operating in a foreign country, including risks of possible nationalization, expropriation, price controls, capital controls, exchange controls and other restrictive governmental actions, as well as the outbreak of hostilities. In many countries, the laws and regulations applicable to the financial services industries are uncertain and evolving, and it may be difficult for us to determine the exact requirements of local laws in every market. Our inability to remain in compliance with local laws in a particular foreign market could have a significant and negative effect not only on our businesses in that market but also on our reputation generally. We are also subject to the enhanced risk that transactions we structure might not be legally enforceable in the relevant jurisdictions.

Greenhill is predominantly owned by its managing directors whose interests may differ from those of our public shareholders

Our managing directors and their affiliated entities collectively own approximately 45% of the total shares of common stock outstanding at December 31, 2008. Robert F. Greenhill and members of his family beneficially own approximately 14% of our common stock.

As a result of these shareholdings, Robert F. Greenhill and our other employees currently are able to exercise significant influence over the election of our entire board of directors, the management and policies of Greenhill and the outcome of any corporate transaction or other matter submitted to the shareholders for approval, including mergers, consolidations and the sale of all or substantially all of the assets of Greenhill.

Employee misconduct could harm Greenhill and is difficult to detect and deter

There have been a number of highly publicized cases involving fraud or other misconduct by employees in the financial services industry in recent years and we run the risk that employee misconduct could occur at our company. For example, misconduct by employees could involve the improper use or disclosure of confidential information, which could result in regulatory sanctions and serious reputational or financial harm. Our financial advisory business often requires that we deal with client confidences of the greatest significance to our clients, improper use of which may have a material adverse impact on our clients. Any breach of our clients' confidences as a result of employee misconduct may impair our ability to attract and retain advisory clients. It is not always possible to deter employee misconduct and the precautions we take to detect and prevent this activity may not be effective in all cases.

Table of Contents

We may face damage to our professional reputation and legal liability to our clients and affected third parties if our services are not regarded as satisfactory

As an investment banking firm, we depend to a large extent on our relationships with our clients and our reputation for integrity and high-caliber professional services to attract and retain clients. As a result, if a client is not satisfied with our services, it may be more damaging in our business than in other businesses. Moreover, our role as advisor to our clients on important mergers and acquisitions or restructuring transactions involves complex analysis and the exercise of professional judgment, including rendering fairness opinions in connection with mergers and other transactions. Our activities may subject us to the risk of significant legal liabilities to our clients and aggrieved third parties, including shareholders of our clients who could bring securities class actions against us. In recent years, the volume of claims and amount of damages claimed in litigation and regulatory proceedings against financial intermediaries have been increasing. These risks often may be difficult to assess or quantify and their existence and magnitude often remain unknown for substantial periods of time. Our engagements typically include broad indemnities from our clients and provisions to limit our exposure to legal claims relating to our services, but these provisions may not protect us or may not be enforceable in all cases. As a result, we may incur significant legal expenses in defending against litigation. Substantial legal liability or significant regulatory action against us could have material adverse financial effects or cause significant reputational harm to us, which could seriously harm our business prospects.

We are subject to extensive regulation in the financial services industry

We, as a participant in the financial services industry, are subject to extensive regulation in the United States, Europe and elsewhere. In the U.S., our broker-dealer subsidiary, Greenhill & Co., LLC is subject to regulation in the United States, by the SEC and FINRA. In the U.K., our subsidiaries, Greenhill & Co. International LLP and Greenhill & Co. Europe LLP, as well as Greenhill Capital Partners Europe LLP, are subject to regulation by the Financial Services Authority. Any failure to comply with applicable laws and regulations could result in fines, suspensions of personnel or other sanctions, including revocation of the registration of us or any of our broker-dealer or investment adviser subsidiaries. Even if a sanction imposed against us or our personnel is small in monetary amount, the adverse publicity arising from the imposition of sanctions against us by regulators could harm our reputation and cause us to lose existing clients or fail to gain new clients. Our U.S. broker-dealer and our U.K. and German investment banking affiliates are subject to periodic examinations by regulatory authorities. We cannot predict the outcome of any such examination. Our business may also be subject to regulation by non-U.S. governmental and regulatory bodies and self-regulatory authorities in other countries where Greenhill operates.

Some of our subsidiaries are registered as investment advisers with the SEC. Registered investment advisers are subject to the requirements and regulations of the Investment Advisers Act of 1940. Such requirements relate to, among other things, recordkeeping and reporting requirements, disclosure requirements, limitations on transactions between an advisor and its clients or between an advisor's clients, as well as general anti-fraud prohibitions.

In addition, as a result of recent highly publicized financial scandals, the regulatory environment in which we operate may be subject to further regulation. New laws or regulations or changes in the enforcement of existing laws or regulations applicable to our clients may also adversely affect our business. Further, financial services firms are subject to numerous conflicts of interest or perceived conflicts. While we have adopted various policies, controls and procedures to address or limit actual or perceived conflicts, these policies and procedures carry attendant costs and may not be adhered to by our employees. Failure to adhere to these policies and procedures may result in regulatory sanctions or client litigation.

Table of Contents

Legal restrictions on our clients may reduce the demand for our services

New laws or regulations or changes in enforcement of existing laws or regulations applicable to our clients may also adversely affect our businesses. For example, changes in antitrust enforcement could affect the level of mergers and acquisitions activity and changes in regulation could restrict the activities of our clients and their need for the types of advisory services that we provide to them.

Fees earned in connection with advisory assignments in the bankruptcy context may be subject to challenge and reduction

In our financial advisory business we from time to time advise debtors or creditors of companies which are involved in bankruptcy proceedings in the United States Bankruptcy Courts. Under the applicable rules of those courts, our fees are subject to approval by the court and other interested parties have the ability to challenge the payment of those fees. Fees earned and reflected in our revenues may from time to time be subject to successful challenges, which could result in a reduction of revenues and affect our stock price adversely.

Our share price may decline due to the large number of shares eligible for future sale

Sales of substantial amounts of common stock by our managing directors and other employees, or the possibility of such sales, may adversely affect the price of the common stock and impede our ability to raise capital through the issuance of equity securities.

As of December 31, 2008, there were 27,981,150 shares of common stock outstanding, which is net of 4,849,273 shares of common stock held in treasury. Of those shares, 12,355,083 shares of common stock are subject to a lock-up and may not be sold until November 6, 2009, subject to certain exceptions. The lock-up was entered into by the selling shareholders in our November 2008 offering (which included nearly all of our pre-IPO managing directors and certain other managing directors). It restricts the transfer of all the shares owned or subsequently acquired during the one year lock-up period, effectively extending and broadening the five year transfer restriction agreed to by our pre-IPO managing directors in respect of the shares they received at the time of our initial public offering in May 2004.

A significant portion of the compensation of our managing directors is paid in restricted stock units and the shares we expect to issue on the vesting of those restricted stock units could result in a significant increase in the number of shares of common stock outstanding

At the time of and since our initial public offering we have awarded our directors, managing directors and other employees restricted stock units. At December 31, 2008, 2,014,686 restricted stock units were outstanding and an additional 697,254 restricted stock units were granted to employees subsequent to year end as part of the long-term incentive award program. A significant portion of the compensation of our managing directors is paid in restricted stock units. Each restricted stock unit represents the holder's right to receive one share of our common stock or a cash payment equal to the fair value thereof, at our election, following the applicable vesting date. Awards of restricted stock units to our managing directors and other employees generally vest either ratably over a five year period beginning on the first anniversary of the grant date or do not vest until the fifth anniversary of their grant date, when they vest in full. Shares will be issued in respect of restricted stock units only under the circumstances specified in the applicable award agreements and the equity incentive plan, and may be forfeited in certain cases. Assuming all of the conditions to vesting are fulfilled, shares in respect of the 2,014,686 restricted stock units that are outstanding as of December 31, 2008 would be issued as follows: 350,499 shares in 2009, 642,062 shares in 2010, 605,378 shares in 2011, 207,751 shares in 2012 and 208,996 shares in 2013. While we have historically repurchased in the open market and through privately negotiated transactions a significant number of our shares of common stock, if we were to cease

to or were unable to repurchase shares of common stock, the number of shares outstanding would increase over time, diluting the ownership of our existing stockholders.

Table of Contents

The market price of our common stock may decline

The price of the common stock may fluctuate widely, depending upon many factors, including the perceived prospects of Greenhill and the financial services industry in general, differences between our actual financial and operating results and those expected by investors, the performance of our merchant banking portfolio, changes in general economic or market conditions and broad market fluctuations. Declines in the price of our stock may adversely affect our ability to recruit and retain key employees, including our managing directors.

We have experienced rapid growth over the past several years, which may be difficult to sustain and which may place significant demands on our administrative, operational and financial resources

Our future growth will depend, among other things, on our ability to successfully identify practice groups and individuals to join our firm. It may take more than one year for us to determine whether new professionals will be effective. During that time, we may incur significant expenses and expend significant time and resources toward training, integration and business development. If we are unable to hire and retain successful professionals, we will not be able to implement our growth strategy and our financial results may be materially adversely affected.

Sustaining growth will also require us to commit additional management, operational, and financial resources to this growth and to maintain appropriate operational and financial systems to adequately support expansion. There can be no assurance that we will be able to manage our expanding operations effectively or that we will be able to maintain or accelerate our growth, and any failure to do so could adversely affect our ability to generate revenue and control our expenses.

We may be required to make substantial payments under certain indemnification agreements

In connection with our initial public offering and conversion to corporate form in May 2004, we entered into agreements that provide for the indemnification of our managing directors, directors, officers and certain other persons authorized to act on our behalf against certain liabilities of our managing directors relating to the time they were members or partners of Greenhill & Co. Holdings, LLC or its affiliates, and certain tax liabilities of our members that may arise in respect of periods prior to the offering when we were a limited liability company. We may be required to make substantial payments under these indemnification agreements, which could adversely affect our financial condition.

Cautionary Statement Concerning Forward-Looking Statements

We have made statements under the captions **Business** , **Risk Factors** , and **Management's Discussion and Analysis of Financial Condition and Results of Operations** and in other sections of this Form 10-K that are forward-looking statements. In some cases, you can identify these statements by forward-looking words such as **may** , **might** , **will** , **should** , **expect** , **plan** , **anticipate** , **believe** , **estimate** , **intend** , **predict** , **potential** or **continue** , the negative and other comparable terminology. These forward-looking statements, which are subject to risks, uncertainties and assumptions about us, may include projections of our future financial performance, based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements. In particular, you should consider the numerous risks outlined under **Risk Factors** .

These risks are not exhaustive. Other sections of this Annual Report on Form 10-K may include additional factors which could adversely impact our business and financial performance. Moreover, we operate in a very competitive

and rapidly changing environment. New risk factors emerge from time to time and it is not possible for our management to predict all risk factors, nor can we assess the impact

Table of Contents

of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance or achievements. Moreover, neither we nor any other person assumes responsibility for the accuracy or completeness of any of these forward-looking statements. You should not rely upon forward-looking statements as predictions of future events. We are under no duty to update any of these forward-looking statements after the date of this filing to conform our prior statements to actual results or revised expectations.

Forward-looking statements include, but are not limited to, the following:

the statements about our policy that our total compensation and benefits, including that payable to our managing directors and senior advisors, will not exceed 50% of total revenues each year in Management's Discussion and Analysis of Financial Condition and Results of Operations Compensation and Benefits ;

the statement about our expectation that revenues from our financial advisory business will continue to account for the majority of our revenues in the near to medium-term in Management's Discussion and Analysis of Financial Condition and Results of Operations Overview ;

the statement about our expectations that we expect to expand our merchant banking management business and related activities over time in Overview Merchant Banking and Other ;

the statement about new managing directors adding incrementally to our revenue and income growth potential in Management's Discussion and Analysis of Financial Condition and Results of Operations Overview ;

the statement about the bankruptcy or merger of our larger competitors will create opportunities for us to attract new clients and provide us with excellent recruiting opportunities to further expand our industry expertise and geographic reach in Management's Discussion and Analysis of Financial Condition and Results of Operations Business Environment ;

the statement that weak economic and financial conditions should provide attractive opportunities to invest unspent merchant banking capital in Management's Discussion and Analysis of Financial Condition and Results of Operations Business Environment ;

the statements about our expected annual fees from our merchant banking funds in 2009 and thereafter in Management's Discussion and Analysis of Financial Condition and Results of Operations Merchant Banking and Other Revenues ;

the statement that GHILAC's consummation of its transaction with Iridium could provide a significant source of additional merchant banking revenue after completion in Management's Discussion and Analysis of Financial Condition and Results of Operations Merchant Banking and Other Revenues;

the statement about our expectation that non-compensation costs, particularly occupancy, travel and information services costs, will increase as we grow our business and make strategic investments in Management's Discussion and Analysis of Financial Condition and Results of Operations Non-Compensation Expense ; and

the discussion of our ability to meet liquidity needs in Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources .

Table of Contents

Item 1B. Unresolved Staff Comments

There are no unresolved written comments that were received from the SEC staff 180 days or more before the end of the year relating to our periodic or current reports under the Securities Act of 1934.

Item 2. Properties

At December 31, 2008, we occupied eight offices, all of which are leased. Our headquarters are located at 300 Park Avenue, New York, New York, and comprise approximately 70,000 square feet of leased space, pursuant to lease agreements expiring in 2010 (with options to renew for five years). In London, we lease approximately 19,000 square feet of office space (of which 6,000 square feet is sublet) at Lansdowne House, 57 Berkeley Square in London, pursuant to lease agreements expiring in 2013. Our Frankfurt office is located at Neue Mainzer Strasse 52 and consists of approximately 13,000 square feet of leased space, pursuant to a lease agreement expiring in 2015 (with an option to renew for five years). Our Dallas office is located at 300 Crescent Court and consists of approximately 6,000 square feet, pursuant to a lease agreement expiring in 2013. Our Toronto office is located at 79 Wellington Street and consists of approximately 5,000 square feet, pursuant to a lease agreement expiring in 2014. Our San Francisco office is located at One California Street and consists of approximately 4,000 square feet pursuant to a lease agreement expiring in 2013. Pursuant to a lease agreement expiring in 2013 our Tokyo office is located at the Marunouchi Building and consists of approximately 2,000 square feet. Pursuant to a lease agreement expiring in May 2009, our Chicago office is currently located in temporary office space at 1 South Dearborn and consists of approximately 1,000 square feet.

Item 3. Legal Proceedings

The firm is from time to time involved in legal proceedings incidental to the ordinary course of its business. We do not believe any such proceedings will have a material adverse effect on our results of operations.

Item 4. Submission of Matters to a Vote of Security Holders

There were no matters submitted to a vote of security holders during the fourth quarter of our fiscal year ended December 31, 2008.

EXECUTIVE OFFICERS AND DIRECTORS

Our executive officers are Scott L. Bok (Co-Chief Executive Officer), Simon A. Borrows (Co-Chief Executive Officer), Robert H. Niehaus (Chairman, Greenhill Capital Partners), Richard J. Lieb (Chief Financial Officer), Harold J. Rodriguez (Chief Administrative Officer, Chief Compliance Officer and Treasurer), and Jodi B. Ganz (General Counsel and Secretary). Set forth below is a brief biography of each executive officer.

Scott L. Bok, 49, has served as our Co-Chief Executive Officer since October 2007, served as U.S. President from January 2004 until October 2007 and has been a member of our Management Committee since its formation in January 2004. In addition, Mr. Bok has been a director of Greenhill & Co., Inc. since its incorporation in March 2004. From 2001 until the formation of our Management Committee, Mr. Bok participated on the two-person administrative committee responsible for managing Greenhill's operations. Mr. Bok has also served as a Senior Member of Greenhill Capital Partners since its formation. Mr. Bok joined Greenhill as a managing director in February 1997. Before joining Greenhill, Mr. Bok was a managing director in the mergers, acquisitions and restructuring department of Morgan Stanley & Co., where he worked from 1986 to 1997, based in New York and London. From 1984 to 1986, Mr. Bok practiced mergers and acquisitions and securities law in New York with Wachtell, Lipton, Rosen & Katz.

Mr. Bok is a member of the board of directors of GHIL Acquisition

Table of Contents

Corp. and various private companies. Mr. Bok is also a member of the Investment Committee of Greenhill Capital Partners.

Simon A. Borrows, 50, has served as our Co-Chief Executive Officer since October 2007, served as our Non-U.S. President from January 2004 until October 2007 and been a member of our Management Committee since its formation in January 2004. In addition, Mr. Borrows has been a director of Greenhill & Co., Inc. since its incorporation in March 2004. From 2001 until the formation of our Management Committee, Mr. Borrows participated on the two-person administrative committee responsible for managing Greenhill's operations. Mr. Borrows joined Greenhill as a managing director in June 1998. Prior to joining Greenhill, Mr. Borrows was the managing director of Baring Brothers International Limited (the corporate finance division of ING Barings), a position Mr. Borrows had held since 1995. Mr. Borrows was a director of Baring Brothers from 1989 to 1998. Prior to joining Baring Brothers in 1988, Mr. Borrows worked in the corporate finance department of Morgan Grenfell. Mr. Borrows is also a member of the Investment Committee of Greenhill Capital Partners and Greenhill Capital Partners Europe.

Robert H. Niehaus, 53, has served as the Chairman of Greenhill Capital Partners since June 2000. Mr. Niehaus has been a member of our Management Committee since its formation in January 2004. Mr. Niehaus joined Greenhill in January 2000 as a managing director to begin the formation of Greenhill Capital Partners. Prior to joining Greenhill, Mr. Niehaus spent 17 years at Morgan Stanley & Co., where he was a managing director in the merchant banking department from 1990 to 1999. Mr. Niehaus was vice chairman and a director of the Morgan Stanley Leveraged Equity Fund II, L.P., a \$2.2 billion private equity investment fund, from 1992 to 1999, and was vice chairman and a director of Morgan Stanley Capital Partners III, L.P., a \$1.8 billion private equity investment fund, from 1994 to 1999. Mr. Niehaus was also the chief operating officer of Morgan Stanley's merchant banking department from 1996 to 1998. Mr. Niehaus is a director of GHL Acquisition Corp., Heartland Payment Systems, Inc., Exco Holdings, Inc., Crusader Energy Group Inc. and various private companies. Mr. Niehaus is also a member of the Investment Committee of Greenhill Capital Partners Europe and GSAVP.

Richard J. Lieb, 49, became Chief Financial Officer of Greenhill in March 2008. Mr. Lieb has been a member of our Management Committee since March 2008. Mr. Lieb joined Greenhill in April 2005 as a Managing Director, having spent 20 years at Goldman Sachs where he headed the real estate investment banking department.

Harold J. Rodriguez, Jr., 53, has served as our Chief Administrative Officer since March 2008 and has been Managing Director Finance, Regulation and Operations and Treasurer since January 2004. From November 2000 through December 2003, Mr. Rodriguez was Chief Financial Officer of Greenhill. Mr. Rodriguez has served as the Chief Financial Officer of Greenhill Capital Partners since he joined Greenhill in June 2000. Prior to joining Greenhill, Mr. Rodriguez was Vice President Finance and Controller of Silgan Holdings, Inc., a major consumer packaging goods manufacturer, from 1987 to 2000. From 1978 to 1987, Mr. Rodriguez worked with Ernst & Young, where he was a senior manager specializing in taxation. Mr. Rodriguez has been the Chief Financial Officer of GHL Acquisition Corp since March 2008.

Jodi B. Ganz, 37, has served as the General Counsel of Greenhill since March 2008. Prior to joining Greenhill in January 2007 as Assistant General Counsel, she practiced corporate law for eight years in the New York and London offices of Davis Polk & Wardwell.

Our Board of Directors has seven members, three of whom are employees (Robert F. Greenhill, Scott L. Bok and Simon A. Borrows) and four of whom are independent, John C. Danforth, Steven F. Goldstone, Stephen L. Key and Isabel V. Sawhill. A brief biography of each of Ms. Sawhill and Messrs. Danforth, Greenhill, Goldstone and Key is set forth below.

Robert F. Greenhill, 72, our founder, has served as our Chairman since the time of our founding in 1996, served as Chief Executive Officer from 1996 until October 2007 and was a member of our

Table of Contents

Management Committee from its formation in January 2004 until October 2007. In addition, Mr. Greenhill has been a director of Greenhill & Co., Inc. since its incorporation in March 2004. Prior to founding and becoming Chairman of Greenhill, Mr. Greenhill was chairman and chief executive officer of Smith Barney Inc. and a member of the board of directors of the predecessor to the present Travelers Corporation (the parent of Smith Barney) from June 1993 to January 1996. From January 1991 to June 1993, Mr. Greenhill was president of, and from January 1989 to January 1991, Mr. Greenhill was a vice chairman of, Morgan Stanley Group, Inc. Mr. Greenhill joined Morgan Stanley in 1962 and became a partner in 1970. In 1972, Mr. Greenhill directed Morgan Stanley's newly-formed mergers and acquisitions department. In 1980, Mr. Greenhill was named director of Morgan Stanley's investment banking division, with responsibility for domestic and international corporate finance, mergers and acquisitions, merchant banking, capital markets services and real estate. Also in 1980, Mr. Greenhill became a member of Morgan Stanley's management committee. Mr. Greenhill is also a member of the Investment Committee of Greenhill Capital Partners.

John C. Danforth, 72, has served on our Board of Directors since February of 2005. He served as the United States Representative to the United Nations between July of 2004 and January of 2005 and, except during his service at the United Nations, has been a Partner in the law firm of Bryan Cave LLP since 1995. He served in the United States Senate from 1976 to 1995. Senator Danforth is a Director of Cerner Corporation. He is ordained to the clergy of the Episcopal Church.

Steven F. Goldstone, 63, has served on our Board of Directors since July of 2004. He currently manages Silver Spring Group, a private investment firm. From 1995 until his retirement in 2000, Mr. Goldstone was chairman and chief executive officer of RJR Nabisco, Inc. (which was subsequently named Nabisco Group Holdings following the reorganization of RJR Nabisco, Inc.). Prior to joining RJR Nabisco, Inc., Mr. Goldstone was a partner at Davis Polk & Wardwell, a law firm in New York City. He is also non-executive chairman of ConAgra Foods, Inc. and a director of Merck & Co. Mr. Goldstone is also a director of several private companies and non-profit organizations.

Stephen L. Key, 65, has served on our Board of Directors since May 2004. Since 2003, Mr. Key has been the sole proprietor of Key Consulting, LLC. Since 2001, he has served as the Vice Chairman and Chief Financial Officer of J.D. Watkins Enterprises, Inc. and as a member of its Advisory Board of Directors. From 1995 to 2001, Mr. Key was the Executive Vice President and Chief Financial Officer of Textron Inc., and from 1992 to 1995, Mr. Key was the Executive Vice President and Chief Financial Officer of ConAgra, Inc. From 1968 to 1992, Mr. Key worked at Ernst & Young, serving in various capacities, including as the Managing Partner of Ernst & Young's New York Office from 1988 to 1992. Mr. Key is a Certified Public Accountant in the State of New York. Mr. Key is also a member of the Board of Directors and serves as Chairman of the Audit Committee of 1-800 Contacts, Inc., GSI Group, and First Wind Holdings, LLC and is a member of the Board of Trustees of the Rhode Island School of Design and is a director of a private company.

Isabel V. Sawhill, 71, has served on our Board of Directors since July of 2004. Dr. Sawhill currently serves as a Senior Fellow (Economic Studies) of the Brookings Institution. From 2003 until 2006, Dr. Sawhill was Vice President and Director of Economic Studies at the Brookings Institution and prior to that had been a senior fellow at Brookings since 1997. From 1995 until 1997 she was a Senior Fellow at the Urban Institute. From 1993 until 1995, she served as an Associate Director at the Office of Management and Budget. Ms. Sawhill is a member of the Board of Directors of a number of non-profit organizations. On July 28, 2008, Ms. Sawhill announced her retirement from the Board of Directors, effective April 22, 2009.

Table of Contents**PART II****Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

The principal market on which our common stock (ticker: GHL) is traded is the New York Stock Exchange. The following tables set forth, for the fiscal quarters indicated, the high and low sales prices per share of our common stock, as reported in the consolidated transaction reporting system, and the quarterly dividends declared.

	Fiscal 2008		
	Sales Price		Dividends per share of common stock
	High	Low	
First quarter	\$ 79.64	\$ 50.51	\$ 0.45
Second quarter	75.40	52.50	0.45
Third quarter	92.90	45.42	0.45
Fourth quarter	77.40	54.65	0.45

	Fiscal 2007		
	Sales Price		Dividends per share of common stock
	High	Low	
First quarter	\$ 77.00	\$ 59.22	\$ 0.25
Second quarter	74.01	59.31	0.25
Third quarter	74.26	47.14	0.38
Fourth quarter	76.98	60.08	0.38

As of February 20, 2009, there were approximately 35 holders of record of the firm's common stock.

On February 20, 2009, the last reported sales price for the firm's common stock on the New York Stock Exchange was \$65.89 per share.

- (a) Prior to the initial public offering the firm was a limited liability company and its earnings did not fully reflect the compensation expense the firm pays its managing directors or taxes that it pays as a public corporation. Additionally, a portion of the firm's earnings attributable to its European operations was recorded as minority interest. The firm believes that the pro forma results, which increase compensation expense and tax expense to

amounts it expects it would have paid as a corporation and eliminate the minority interest, more accurately depict its results as a public company. During the years ended December 31, 2008, 2007, 2006 and 2005, the firm operated as a public company for the entire period, and the pro forma amounts presented above reflect actual results for that period. The amounts for the year ended December 31, 2004 include the pro forma results of operations as if the firm operated as a public company during the period January 1, 2004

Table of Contents

to the date of its public offering combined with the actual results of operations for the period after the public offering.

- (b) Because the firm had been a limited liability company prior to the initial public offering, payments for services rendered by its managing directors generally had been accounted for as distributions of members' capital rather than as compensation expense. As a corporation, the firm includes all payments for services rendered by managing directors in compensation and benefits expense.

Compensation and benefits expense, reflecting the firm's conversion to corporate form, consists of cash compensation and non-cash compensation related to the restricted stock units awarded to employees at the time of the firm's initial public offering consummated on May 11, 2004, as well as any additional restricted stock units awarded in the future. An adjustment to increase compensation expense for the year ended December 31, 2004 of \$6.2 million, has been made to record total compensation and benefits expense at 45% of total revenues, consistent with the percentage of compensation paid in 2004 for the period after the initial public offering.

- (c) For the year ended December 31, 2004 historical income before tax has been increased by \$6.5 million to reflect the elimination on a pro forma basis of minority interests held by the European managing directors in Greenhill & Co. International LLP.
- (d) As a limited liability company, the firm was generally not subject to income taxes except in foreign and local jurisdictions. The pro forma provision for income taxes for the year ended December 31, 2004 includes an adjustment of \$4.2 million for assumed federal, foreign, state and local income taxes as if the company were a C Corporation for the period January 1, 2004 to the date of the public offering at an assumed effective rate of 42% combined with the actual tax provision for the period after the public offering.
- (e) For 2004 the actual and pro forma numbers of common shares outstanding give effect to (i) 25,000,000 shares issued in connection with the reorganization of the firm in conjunction with the initial public offering as if it occurred on January 1, 2004, (ii) the weighted average of the 5,750,000 shares and the common stock equivalents issued in conjunction with and subsequent to the initial public offering and (iii) the 9,346 shares of treasury stock purchased by the firm.
- (f) Total revenues divided by average number of employees (including managing directors and senior advisors) in each period.
- (g) Includes our managing directors and senior advisors.

Reconciliation of Unaudited Pro Forma Data to Historical Financial Information

The following table reconciles unaudited pro forma income before tax and minority interest to income before tax and minority interest. For 2008, 2007, 2006 and 2005, actual results are presented:

	2008	For the Year Ended December 31,			2004
		2007	2006	2005	
		(in thousands)			
Income before tax and minority interest	\$ 77,858	\$ 177,201	\$ 119,157	\$ 90,000	\$ 63,508

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**Overview**

Greenhill is an independent investment banking firm that (i) provides financial advice on significant mergers, acquisitions, restructurings and similar corporate finance matters as well as fund placement services for private equity and other financial sponsors and (ii) manages merchant banking funds and similar vehicles and commits capital to those funds and vehicles. We act for clients located throughout the world from offices in New York, London, Frankfurt, Toronto, Tokyo, Dallas, San Francisco and Chicago. Our activities constitute a single business segment with two principal sources of revenue:

Financial advisory, which includes engagements relating to mergers and acquisitions, financing advisory and restructuring, and fund placement advisory; and

Merchant banking, which includes the management of outside capital invested in the firm's merchant banking funds and other similar vehicles, primarily Greenhill Capital Partners (GCP I), Greenhill Capital Partners II (GCP II), Greenhill Capital Partners Europe (GCP Europe), and Greenhill SAV Partners (GSAVP) together with GCP I, GCP II and GCP Europe, the Greenhill Funds), and the firm's principal investments in the Greenhill Funds and other merchant banking funds and similar vehicles.

Historically, our financial advisory business has accounted for the majority of our revenues, and we expect that to remain so for the near to medium term. However, there have been periods, such as the second quarter of 2008 and the first quarter of 2006, in which the revenues of our merchant banking business outweighed our financial advisory revenues. Since the initial public offering, our financial advisory business has generated 83% of total revenues and our merchant banking and other business has generated approximately 17% of our total revenue.

The main driver of the financial advisory business is overall mergers and acquisitions, or M&A, and restructuring volume, particularly in the industry sectors and geographic markets in which we focus. We have recruited and plan to continue to recruit new managing directors to expand our industry sector and geographic coverage. We expect these hires will over time, add incrementally to our revenue and income growth potential. In total, we recruited 14

Managing Directors in 2008, increasing our Managing Director count on a net basis by 40%. This group of experienced bankers brings us sector expertise in Health Care Devices, Health Care Services, Industrials, Paper & Forest Products and Telecom; new offices in San Francisco, Tokyo and Chicago; and a new Fund Placement Advisory business.

Table of Contents

The principal drivers of our merchant banking revenues are management fees paid by the funds and realized and unrealized gains on investments and profit overrides, the size and timing of which are tied to a number of different factors including the performance of the particular companies in which we invest, general economic conditions in the debt and equity markets and other factors which affect the industries in which we invest, such as commodity prices.

At December 31, 2008, we had three merchant banking funds which are actively investing and we have assets under management in those funds of \$1.3 billion. In addition, in early 2008 we completed a \$400 million initial public offering of GHLAC, a special purpose acquisition company, in which we invested approximately \$8.0 million. In September 2008 GHLAC announced an agreement to acquire Iridium, a leading provider of voice and data mobile satellite services and in October 2008, the firm completed a \$22.9 million investment in Iridium.

Our revenues can fluctuate materially depending on the number and size of completed transactions on which we advised, the number and size of our merchant banking gains (or losses) and other factors. Accordingly, the revenues in any particular year may not be indicative of future results.

Business Environment

Economic and global financial market conditions can materially affect our financial performance. See Risk Factors. Net income and revenues in any period may not be indicative of full-year results or the results of any other period and may vary significantly from year to year and quarter to quarter.

Financial advisory revenues were \$218.2 million for the year ended December 31, 2008 compared to \$366.7 million for the year ended December 31, 2007, which represents a decrease of 41%. At the same time, worldwide completed M&A volume decreased by 32%, from \$4,013 billion in 2007 to \$2,735 billion in 2008⁽²⁾.

Since July 2007 the financial markets have experienced a sharp contraction in credit availability and global M&A activity. Recent levels of capital markets volatility and an uncertain macroeconomic outlook have further contributed to a volatile and uncertain environment for evaluating many assets, securities and companies, which may lead to a more difficult environment for M&A activity. Because we earn a majority of our financial advisory revenue from fees that are dependent on the successful completion of a merger, acquisition, restructuring or similar transaction or the closing of a fund, our financial advisory business has been negatively impacted and may be further impacted by a reduction in M&A activity. We believe, however, that our simple business model as an independent, unconflicted adviser, in a period of the bankruptcy or merger of many of our larger banking-focused competitors, will create opportunities for us to attract new clients and provide us with excellent recruiting opportunities to further expand our industry expertise and geographic reach.

Merchant banking and other revenues were \$3.7 million for the year ended December 31, 2008 compared to \$33.7 million for the year ended December 31, 2007, which represents a decrease of 89%. Consistent with the difficult economic and market environment in 2008, our merchant banking portfolio experienced disappointing results. We avoided extraordinary losses through more modest use of leverage than the typical merchant banking fund. Current weak economic and financial conditions should provide attractive opportunities to invest the substantial committed but unspent capital that remains in our merchant banking funds.

Adverse changes in general economic conditions, commodity prices, credit and public equity markets could impact negatively the amount of financial advisory and merchant banking revenue realized by the firm.

We operate in a highly competitive environment where there are no long-term contracted sources of revenue, and each revenue-generating engagement, which typically relates to only one potential transaction, is separately awarded and negotiated. Our list of clients with whom there is a currently active revenue-generating engagement changes continually. We gain new clients each year through our business development initiatives, by recruiting additional senior investment banking professionals who bring with them client relationships and through referrals from chief

executives, directors, attorneys and other parties with whom we have relationships. At the same time, we lose clients each year as a result of the sale or merger of a client, a change in a client's senior management, competition from other investment banks and other causes.

A majority of our financial advisory revenue is contingent upon the closing of a merger, acquisition, restructuring or similar transaction. A transaction can fail to be completed for many reasons, including failure to agree upon final terms with the counterparty, failure to secure necessary board or shareholder approvals, failure to secure necessary financing, failure to achieve necessary regulatory approvals and adverse market conditions. In certain client engagements, often those involving financially distressed companies, we earn a significant portion of our revenue in the form of

Table of Contents

retainers and similar fees that are contractually agreed upon with each client for each assignment but are not necessarily linked to the end result.

We do not allocate our financial advisory revenue by type of advice rendered (M&A, financing advisory and restructuring, fund placement or other) because of the complexity of the assignments for which we earn revenue. For example, a restructuring assignment can involve, and in some cases end successfully in, a sale of all or part of the financially distressed client. Likewise, an acquisition assignment can relate to a financially distressed target involved in or considering a restructuring. Finally, an M&A assignment can develop from a relationship that we had on a prior restructuring assignment, and vice versa.

2008 versus 2007. Financial advisory revenues were \$218.2 million for the year ended December 31, 2008 compared to \$366.7 million for the year ended December 31, 2007, which represents a decrease of 41%. The decrease resulted from a decrease in the scale and number of completed assignments.

Prominent financial advisory assignments in 2008 include:

- The sale of Kelda Group plc to a consortium of international infrastructure investors;
- The acquisition by Roche Holding Ltd. of Ventana Medical Systems, Inc.;
- The sale of American Financial Realty Trust to Gramercy Capital Corp.;
- The acquisitions by G4S plc of ArmorGroup International plc and of Global Solutions Limited;
- The acquisition by Hancock Timber Resource Group of TimberStar Southwest;
- The sale of the Philadelphia Stock Exchange, Inc. to the NASDAQ Stock Market, Inc.; and
- The merger of Delta Air Lines with Northwest Airlines.

We earned financial advisory revenue from 65 different clients in 2008, compared to 74 in 2007. We earned \$1 million or more from 37 clients in 2008, compared to 47 in 2007. The ten largest fee-paying clients in 2008 contributed 54% to our total revenues, and none of those clients had in any prior year been among our ten largest fee-paying clients. One client represented approximately 10% of total revenues in 2008 and one client represented 12% of total revenues in 2007.

2007 versus 2006. Financial advisory revenues were \$366.7 million for the year ended December 31, 2007 compared to \$209.8 million for the year ended December 31, 2006, which represents an increase of 75%. The increase reflected generally high levels of M&A volume, increasing demand for independent advisors and our continuing business development efforts.

Prominent financial advisory assignments in 2007 include:

- The sale of Alliance Boots plc to Kohlberg Kravis Roberts & Co.;
- The sale of Ceridian Corporation to a consortium including Thomas H. Lee Partners and Fidelity National Financial;
- The sale of Crescent Real Estate Equities Company to Morgan Stanley Real Estate;

The sale of EMI Group plc to Maltby Limited;

The acquisition by Fortis SA/NV, as part of a consortium, of ABN AMRO Holding NV;

The sale of Gallaher Group plc to Japan Tobacco Inc.;

The acquisition by IHOP Corp. of Applebee's International, Inc.;

The sale of Maher Terminals Inc. to RREEF Infrastructure;

Table of Contents

The divestiture by Slough Estates plc of Slough Estates USA to Health Care Property Investors; and

The restructuring and merger of Visa USA with certain of its international affiliates.

We earned financial advisory revenue from 74 different clients in 2007, compared to 72 in 2006. We earned \$1 million or more from 47 clients in 2007, compared to 45 in 2006. The ten largest fee-paying clients in 2007 contributed 56% to our total revenues, and only one of those clients had in any prior year been among our ten largest fee-paying clients. One client represented approximately 12% of total revenues in 2007 and one client represented 10% of total revenues in 2006.

Merchant Banking & Other Revenues

Our merchant banking activities currently consist primarily of the management of and our investment in Greenhill's merchant banking funds: GCP I, GCP II, GSAVP and GCP Europe. The following table sets forth additional information relating to our merchant banking and other revenues:

	For the Year Ended December 31,				
	2008	2007	2006	2005	2004
	(In millions)				
Management fees	\$ 19.2	\$ 17.3	\$ 15.2	\$ 11.4	\$ 4.5
Net realized and unrealized gains (losses) on investments in merchant banking funds	(17.5)	7.0	27.1	32.0	11.3
Net realized and unrealized merchant banking profit overrides	(2.7)	1.8	34.6	32.3	4.1
Other realized and unrealized investment income	1.1	2.2	0.8	0.5	0.3
Interest income	3.6	5.4	3.1	2.9	0.8
Total merchant banking & other revenues	\$ 3.7	\$ 33.7	\$ 80.8	\$ 79.1	\$ 21.0

We manage four separate families of merchant banking funds: GCP I, GCP II, GCP Europe and GSAVP.

Fund	Type of Fund	Year Commenced	Total Commitments⁽¹⁾	Amount Committed by the Firm⁽¹⁾	Amount Committed by Our Employees⁽¹⁾
GCP I	North America, merchant banking	2000	\$423 million	\$30.1 million	\$69.5 million
GCP II	North America, merchant banking Northeastern United States;	2005	\$875 million	\$88.5 million	\$136 million
GSAVP	venture capital UK and Europe;	2006	\$101.5 million	\$10.9 million	\$22.6 million

GCP Europe	merchant banking	2007	£191.0 million	£25.0 million	£41.9 million
------------	------------------	------	----------------	---------------	---------------

(1) Commitment amounts are stated as of the relevant closing dates of the respective funds with the exception of GCP I, which reflects the commitments after giving effect to its 2004 reorganization.

We generate merchant banking revenue from (i) management fees paid by the funds we manage, (ii) gains (or losses) on our investments in the merchant banking funds and similar vehicles, and (iii) profit overrides.

We charge management fees in GCP II, GSAVP and GCP Europe to all investors except the firm. In GCP I, we charge management fees to all outside investors who are not employed or affiliated with us. Management fees are generally charged based upon a percentage of committed capital (ranging from 1.5% to 2.5%) during the 5 year commitment period and as a percentage of invested capital

Table of Contents

(ranging from 1.0% to 2.0%) after the termination of the commitment period. Our management fees also include portions of other transactions fees which may be paid directly to us by portfolio companies of the merchant banking funds. We currently earn annual fees from GCP II of approximately \$12.3 million, and we expect to earn such amount through 2009 (or such earlier time as the commitment period terminates) and a lesser amount thereafter. We currently earn annual fees from GSAVP of approximately \$2.1 million, and we expect to earn such annual amount through 2011 (or such earlier time as the commitment period terminates) and a lesser amount thereafter. We earned fees from GCP Europe of approximately £1.9 million in 2008 and we expect to earn the same or a slightly higher annual amount through 2012 (or such earlier time as the commitment period terminates) and a lesser amount thereafter. The amount of management fees earned from a fund after the termination of the commitment period will decline because our fee percentage is lower and is based upon invested capital, which will decrease as the investments are liquidated. For 2009, we expect to earn approximately \$0.3 million in management fees from GCP I.

We recognize revenue on investments in merchant banking funds based on our allocable share of realized and unrealized gains (or losses) reported by such funds on a quarterly basis. In addition, we recognize the consolidated earnings of the general partners of these funds in which we have a majority economic interest, offset by allocated expenses of the funds. To the extent we make other principal investments, we will also recognize revenue based on the realized and unrealized gains (or losses) from such investments on a quarterly basis. We record our investments at estimated fair value. The value of our fund investments in privately held companies is determined on a quarterly basis by the general partner of the fund after giving consideration to the cost of the security, the pricing of other sales of securities by the portfolio company, the price of securities of other companies comparable to the portfolio company, purchase multiples paid in other comparable third-party transactions, the original purchase price multiple, market conditions, liquidity, operating results and other quantitative and qualitative factors. Discounts are generally applied to the funds' privately held investments to reflect the lack of liquidity and other transfer restrictions. Investments held by our merchant banking funds as well as those held directly by us in publicly traded securities are valued using quoted market prices discounted for any contractual restrictions on sale. Because of the inherent uncertainty of valuations as well as the discounts applied, the estimated fair values of investments in privately held companies may differ significantly from the values that would have been used had a ready market for the securities existed. The values at which our investments are carried on our books are adjusted to estimated fair value at the end of each quarter and the volatility in general economic conditions, stock markets and commodity prices may result in significant changes in the fair value of the investments from quarter to quarter. Significant changes in the estimated fair value of our investments may have a material effect, positive or negative, on our revenues and thus our results of operations.

As the general partner of our merchant banking funds, we make investment decisions for the funds and are entitled to receive from the funds an override of the profits of the funds after certain performance hurdles are met. In aggregate, we and our employees are entitled to a profit override percentage of 20% of the profits, to the extent they exceed certain performance hurdles, earned by investors other than the firm in GCP II, GSAVP and GCP Europe. We are deemed to have the majority of the economic interest in the managing general partner of GCP I and the general partners of GCP II, GSAVP, GCP Europe in accordance with FASB Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46-R) (effective for investments made beginning early 2004). Under FIN 46-R we include as consolidated revenue all realized and unrealized profit overrides earned by the managing general partners of GCP I (for all investments made after January 1, 2004), GCP II, GSAVP and GCP Europe. From an economic perspective, profit overrides in respect of such investments are allocated 50% to the firm and 50% to employees of the firm. The economic share of the profit overrides allocated to the employees of the firm is recorded as compensation expense.

The amount of profit overrides we recognize as revenue will depend upon the underlying fair value of each portfolio company and is subject to the volatility referred to above. We recognize merchant banking profit overrides when certain financial returns are achieved over the life of the fund.

Table of Contents

Profit overrides are generally calculated as a percentage of the profits over a specified threshold earned by such fund on investments managed on behalf of unaffiliated investors for GCP I and principally all investors other than the firm for GCP II, GCP Europe and GSAVP.

The profit overrides realized by the firm during the period 2004 through 2008 relate to GCP I. As of December 31, 2008, we have not recognized profit overrides from our investments in GCP II, GCP Europe and GSAVP. We calculate the amount of merchant banking profit overrides, if any, on an accrual basis at the end of each period by measuring the profit on each investment over a specified financial return threshold for each investment fund. At June 30, 2008 we exceeded the profit threshold in GCP II and we entered the catch-up adjustment phase for the profit override, which entitled us to record 100 percent of the gain until we reached 20 percent of the total gain on our investment. At September 30, 2008 we no longer exceeded the profit threshold in GCP II and the previously recognized but unrealized profit override was reversed. At December 31, 2008, we remained below the profit threshold for each of GCP II, GSAVP and GCP Europe.

Overrides are generally calculated on a deal-by-deal basis but are subject to investment performance over the life of each merchant banking fund. We may be required to repay a portion of the overrides to the limited partners of the funds in the event a profit override has been realized and paid to the general partner and a minimum performance level is not achieved by the fund as a whole (we refer to these potential repayments as clawbacks). We would be required to establish a reserve for potential clawbacks if we were to determine that the likelihood of a clawback is deemed probable and the amount of the clawback can be reasonably estimated. During 2008 a portion of the accrued profit overrides for GCP I were reversed. As of December 31, 2008, we had unrealized profit overrides of \$2.7 million related to GCP I. We have not reserved for any clawback obligations because we do not believe the likelihood of a clawback is probable.

In September 2008 GHLAC announced an agreement to acquire Iridium, a leading provider of voice and data mobile satellite services and in October 2008, Greenhill completed a \$22.9 million investment in Iridium. The acquisition of Iridium is subject to stockholder approval, various regulatory approvals and other customary closing conditions. If the acquisition of Iridium is completed on the agreed terms and our investment is converted to common shares without any adjustment to the conversion price, the firm will own approximately 9.2 million common shares (AMEX:GHQ) and 6 million warrants (AMEX:GHQ.WS), exercisable at \$7.00 per common share, of the combined company. While we can provide no assurances that the transaction will receive stockholder approval and the various regulatory approvals required or that the parties will satisfy the various other closing conditions, if consummated the transaction could provide a significant source of additional merchant banking revenue after completion. In the event that GHLAC is unable to consummate a business combination prior to February 14, 2010 we will write-off our investment of approximately \$8.0 million in GHLAC made at the time of its initial public offering.

2008 versus 2007. For the year ended December 31, 2008, the firm earned \$3.7 million in merchant banking and other revenue compared to \$33.7 million in 2007, a decrease of 89%. The decrease principally resulted from a decline in the fair market value of merchant banking funds and reversal of overrides accrued in prior periods in GCP I, offset by slightly higher asset management fees resulting from greater assets under management. During 2008 GCP (and the firm) recognized gains from nine (9) of our portfolio companies and recorded losses on eighteen (18) portfolio companies. In 2007 GCP (and the firm) recognized gains related to twelve (12) portfolio companies and recorded losses related to seven (7) portfolio companies. The firm had no investments in 2008 or 2007 that contributed more than 10% to total revenues in those years. Included in merchant banking and other revenue for the years ended December 31, 2008 and 2007 is (\$0.5) million and \$0.1 million, respectively related to the portion of the interests in the general partners of GCP which are held directly by employees of the firm, which is deducted as minority interest in net income (loss) of affiliates.

2007 versus 2006. For the year ended December 31, 2007, the firm earned \$33.7 million in merchant banking and other revenue compared to \$80.8 million in 2006, a decrease of 58%. The

Table of Contents

decrease was primarily due to lower principal investment gains and related profit overrides, offset by greater interest income and slightly higher asset management fees resulting from greater assets under management. In total, GCP (and the firm) recognized gains relating to twelve (12) portfolio companies and recorded losses relating to seven (7) portfolio companies in 2007. GCP (and the firm) recognized gains relating to eleven (11) portfolio companies and recorded losses relating to one (1) portfolio company in 2006. The firm had no investments in 2007 or 2006 that contributed more than 10% to total revenues in those years. Included in merchant banking and other revenue for the years ended December 31, 2007 and 2006 is \$0.1 million and \$1.9 million, respectively, related to the portion of the interests in the general partners of GCP which are held directly by employees of the firm, which is deducted as minority interest.

The investment gains or losses in our investment portfolio may fluctuate significantly over time due to factors beyond our control, such as individual portfolio company performance, equity market valuations, commodity prices and merger and acquisition opportunities. Revenue recognized from gains (or losses) recorded are not necessarily indicative of revenue that may be realized and/or recognized in future periods.

Operating Expenses

Our total operating expenses for the year ended December 31, 2008 were \$144.0 million, which compares to \$223.2 million of total operating expenses for the year ended December 31, 2007. The decrease of \$79.2 million, or 36%, principally reflects a decrease in compensation expense which is described in more detail below. The pre-tax income margin was 35% in 2008 and 44% in 2007.

We classify operating expenses as compensation and benefits expense and non-compensation expenses. Management does not separately evaluate operating expenses by financial advisory and merchant banking activities.

Operating expenses apart from compensation have been modest in proportion to revenues, as a result of the relatively small number of staff and related costs (including travel, office space, communications, information services, depreciation, professional services and interest expense) that the firm bears. A portion of certain costs are reimbursed by clients under the terms of client engagements. In addition, until August 2006, Barrow Street Capital subleased office space from us and reimbursed us for the use of other facilities and participation in our health care plans.

The following table sets forth information relating to our operating expenses, which are reported net of reimbursements of certain expenses by our clients and merchant banking portfolio companies:

	For the Year Ended December 31,		
	2008	2007	2006
	(in millions, except employee data)		
Number of employees at year end	234	214	201
Employee compensation and benefits expense	\$ 102.0	\$ 183.5	\$ 134.1
<i>% of revenues</i>	<i>46%</i>	<i>46%</i>	<i>46%</i>
Non-compensation expense	42.0	39.7	37.4
<i>% of revenues</i>	<i>19%</i>	<i>10%</i>	<i>13%</i>
Total operating expense	144.0	223.2	171.5
<i>% of revenues</i>	<i>65%</i>	<i>56%</i>	<i>59%</i>
Minority interest in net income (loss) of affiliates	(0.5)	0.1	1.9
Total income before tax	78.4	177.1	117.3
<i>Pre-tax income margin</i>	<i>35%</i>	<i>44%</i>	<i>40%</i>

Table of Contents

Compensation and Benefits

The principal component of our operating expenses is compensation and benefits expense. It is our policy that our total compensation and benefits, including that payable to our managing directors and senior advisors, will not exceed 50% of total revenues each year (although we retain the ability to change this policy in the future). The actual compensation expense ratio is determined by management in consultation with the Compensation Committee and based on such factors as the relative level of revenues, the anticipated compensation requirements (which may vary depending on the level of recruitment of new managing directors in any given period and other factors), and the level of other costs and expenses.

The compensation we pay to our employees consists of base salary and benefits, annual incentive compensation payable as cash bonus awards and long-term incentive compensation awards of restricted stock units. Base salary and benefits are paid ratably throughout the year. Cash bonuses, which are accrued each quarter, are discretionary and dependent upon a number of factors, including the performance of the firm and are paid annually in February following year end. Awards of restricted stock units are also discretionary and amortized to compensation expense (based upon the value of the award at the time of grant) during the service period over which the award vests, which is generally five years. As we expense these awards, the restricted stock units recognized are recorded within stockholders' equity. In January 2009, our employees were granted 697,254 restricted stock units as part of the long-term incentive award program.

2008 versus 2007. For the year ended December 31, 2008, our employee compensation and benefits expenses were \$102.0 million, which compares to \$183.5 million of compensation and benefits expense for the year ended December 31, 2007. The decrease of \$81.5 million or 44% is due to the lower level of revenues in 2008 compared to 2007. For the year ended December 31, 2008, the ratio of compensation to revenues was 46%, which was the same as 2007.

2007 versus 2006. For the year ended December 31, 2007, our employee compensation and benefits expenses were \$183.5 million, which compares to \$134.1 million of compensation and benefits expense for the year ended December 31, 2006. The increase of \$49.4 million or 37% is primarily due to the higher level of revenues in 2007 compared to 2006. For the year ended December 31, 2007, the ratio of compensation to revenues was 46%, which was the same as 2006.

Our compensation expense is generally based upon revenue and can fluctuate materially in any particular year depending upon the amount of revenue recognized as well as other factors. Accordingly, the amount of compensation expense recognized in any particular year may not be indicative of compensation expense in a future period.

Non-Compensation Expenses

Our non-compensation expenses include the costs for occupancy and rental, communications, information services, professional fees, recruiting, travel and entertainment, insurance, depreciation, interest expense and other operating expenses, including the benefit of foreign currency gains or the expense related to foreign currency losses. Reimbursed client expenses are netted against non-compensation expenses.

We expect that our non-compensation costs, particularly occupancy, travel and information services costs, will increase as we grow our business and make strategic investments.

2008 versus 2007. For the year ended December 31, 2008, our non-compensation expenses were \$42.0 million, which compared to \$39.7 million for the year ended December 31, 2007, representing an increase of \$2.3 million or 6%. The increase is principally related to higher occupancy costs associated with rental rate increases and new office space,

increased information service costs primarily attributable to the growth in personnel, and higher interest expense related to greater average short term borrowings, partially offset by the absence of a provisions for legal contingencies in 2008 as compared to the same period in 2007.

Table of Contents

Non-compensation expenses as a percentage of revenue in the year ended December 31, 2008 were 19%. This compares to 10% for the year ended December 31, 2007. The increase in these non-compensation expenses as a percentage of revenue in 2008 as compared to 2007 reflects slightly higher expenses spread over significantly lower revenues.

2007 versus 2006. For the year ended December 31, 2007, our non-compensation expenses were \$39.7 million, which compared to \$37.4 million for the year ended December 31, 2006, representing an increase of 6%. The increase is principally related to an increase in interest expense related to greater short-term borrowings, slightly higher occupancy and other costs associated with new office space in London, Frankfurt, New York and Toronto, and greater travel and information service costs, offset in part by realized foreign currency gains and a decrease in provisions for legal contingencies in 2007 as compared to 2006.

Non-compensation expenses as a percentage of revenue in the year ended December 31, 2007 were 10%. This compares to 13% for the year ended December 31, 2006. The decrease in these expenses as a percentage of revenue in 2007 as compared to 2006 reflects a small increase in non-compensation costs spread over greater revenue.

The firm's non-compensation expenses as a percentage of revenue can vary as a result of a variety of factors including fluctuation in annual revenue amounts, the amount of recruiting and business development activity, the amount of reimbursement of engagement-related expenses by clients, the amount of our short term borrowings, interest rate and currency movements and other factors. Accordingly, the non-compensation expenses as a percentage of revenue in any particular year may not be indicative of the non-compensation expenses as a percentage of revenue in future years.

Provision for Income Taxes

We are subject to federal, foreign and state and local corporate income taxes. In addition, certain of our non-U.S. subsidiaries are subject to income taxes in their local jurisdictions.

2008 versus 2007. For the year ended December 31, 2008, the provision for taxes was \$29.4 million, which reflects an effective tax rate of approximately 38%. This compares to a provision for taxes for the year ended December 31, 2007 of \$61.8 million, which reflects an effective tax rate of approximately 35%. The decrease in the provision for taxes in 2008 as compared to 2007 principally results from lower pre-tax income partially offset by a slightly higher effective tax rate as a greater proportion of our pre-tax income was earned in higher tax rate jurisdictions during 2008 as compared to 2007.

2007 versus 2006. For the year ended December 31, 2007, the provision for taxes was \$61.8 million, which reflects an effective tax rate of approximately 35%. This compares to a provision for taxes for the year ended December 31, 2006 of \$41.6 million, which reflects an effective tax rate of approximately 36%. The increase in the provision for taxes in 2007 as compared to 2006 principally results from higher pre-tax income partially offset by a slightly lower effective tax rate based on the fact that a greater proportion of our pre-tax income was earned in lower tax rate jurisdictions.

The effective tax rate can fluctuate as a result of variations in the relative amounts of financial advisory and merchant banking revenue earned in the tax jurisdictions in which the firm operates and invests. Accordingly, the effective tax rate in any particular year may not be indicative of the effective tax rate in future years.

Geographic Data

For a summary of the total revenues, income before minority interest and tax and total assets by geographic region, see Note 15 to the consolidated financial statements.

Table of Contents

Liquidity and Capital Resources

Our liquidity position is monitored by our Management Committee, which generally meets monthly. The Management Committee monitors cash, other significant working capital assets and liabilities, debt, principal investment commitments and other matters relating to liquidity requirements. As cash accumulates it is invested in short term investments expected to provide significant liquidity.

We generate cash from both our operating activities in the form of financial advisory and asset management fees and our merchant banking investments in the form of distributions of investment proceeds and profit overrides. We use our cash primarily for operating purposes, compensation of our employees, payment of income taxes, investments in merchant banking funds, payment of dividends, repurchase of shares of our stock and leasehold improvements.

Our cash balances generally accumulate from our operating activities during the year. In general, we collect our accounts receivable within 60 days except for certain restructuring transactions where collections may take longer due to court-ordered holdbacks. Our liabilities typically consist of accounts payable, which are generally paid monthly, accrued compensation, which includes accrued cash bonuses that are paid in the first quarter of the following year to the large majority of our employees, and taxes payable. In February 2009, cash bonuses of \$16.9 million relating to 2008 compensation were paid to our employees. In addition, we expect to pay approximately \$11.6 million in early 2009 related to income taxes owed for the year ended December 31, 2008.

Since our initial public offering we have used a portion of our cash reserves to repurchase shares of our common stock, pay dividends and make investments in our merchant banking funds. Our commitments to our merchant banking funds may require us to fund capital calls on short notice. On the other hand, distributions from our merchant banking funds are generally made shortly after proceeds are received by the funds. We are unable to predict the timing or magnitude of share repurchase opportunities, capital call requirements or distribution of investment proceeds.

Our merchant banking funds typically invest in privately held companies. The ability of our merchant banking funds to sell or dispose of the securities they own depends on a number of factors beyond the control of the funds, including general economic and sector conditions, stock market conditions, commodity prices, and the availability of financing to potential buyers of such securities, among other issues. As a result we consider our investments illiquid for the short term.

To provide for working capital needs, facilitate the funding of merchant banking investments and other general corporate purposes we retain a \$90 million revolving bank loan facility. Borrowings under the facility are secured by all management fees earned by Greenhill Capital Partners, LLC and Greenhill Venture Partners, LLC and any cash distributed in respect of their partnership interests in GCP I, GCP II and GSAVP, as applicable. Interest on borrowings is based on the higher of Bank of America Prime Rate or 4 percent. The revolving bank loan facility matures on December 31, 2009. At December 31, 2008, \$26.5 million of borrowings were outstanding on the loan facility and we were compliant with all loan covenants.

As of December 31, 2008, we had total commitments (not reflected on our balance sheet) relating to future principal investments in GCP II, GSAVP and GCP Europe and other merchant banking and related activities of \$52.3 million. These commitments are expected to be drawn on from time to time and be substantially invested over a period of up to five years from the relevant commitment dates. See Management's Discussion and Analysis of Financial Condition and Results of Operations Contractual Obligations.

As of December 31, 2008 we had cash and cash equivalents on hand of \$62.8 million, of which \$39.7 million were held outside the U.S. Since we became a C Corp at the time of our initial public offering, we have been subject to federal income tax on our domestic earnings and that portion of our foreign earnings which we repatriate. It has been

our policy to retain approximately 50% of our foreign earnings within our foreign operating units to minimize our global tax burden and to fund our foreign investment needs. However, in the event our cash needs in the U.S. exceed our cash reserves and

Table of Contents

availability under the revolving loan facility we may repatriate additional cash from our foreign operations, which could result in an incremental tax charge.

Based upon authorization provided by our Board of Directors we repurchased 240,880 shares of our common stock during 2008 in open market purchases at an average price of \$62.27 per share. Additionally, during 2008 we are deemed to have repurchased 106,043 shares of our common stock at an average price of \$64.43 per share in conjunction with the payment of tax liabilities in respect of stock delivered to our employees in settlement of restricted stock units.

In November 2008, the firm completed its primary stock offering (the Primary Offering) of 1,250,000 common shares. The offering price was \$56.00 per share, and the Company received proceeds, net of underwriting commissions and expenses, of \$67.3 million. The proceeds were used to repay a portion of the outstanding borrowings under the revolving loan bank facility.

We evaluate our cash operating position on a regular basis in light of current market conditions. Our recurring monthly operating disbursements consist of base compensation expense and other operating expenses, which principally include rent and occupancy, information services, professional fees, travel and entertainment and other general expenses. Our recurring quarterly and annual disbursements consist of tax payments, dividend distributions and cash bonus payments. These amounts vary depending upon our profitability and other factors. We incur non-recurring disbursements for our investments in our merchant banking funds and other principal payments, leasehold improvements and share repurchases. While we believe that the cash generated from operations and funds available from the revolving bank loan facility will be sufficient to meet our expected operating needs, commitments to our merchant banking activities, build-out costs of new office space, tax obligations, share repurchases and common dividends, we may adjust our variable expenses and non-recurring disbursements, if necessary, to meet our liquidity needs. In the event that our needs for liquidity should increase further as we expand our business, we may consider a range of financing alternatives to meet any such needs.

Cash Flows

2008. Cash and cash equivalents decreased by \$128.8 million in 2008, including an \$12.9 million reduction resulting from the effect of the translation of foreign currency amounts into U.S. dollars at the year end foreign currency conversion rates. We used \$13.9 million from operating activities, including \$85.3 million from net income after giving effect to the non-cash items offset by a net decrease in working capital of \$99.2 million (principally from the payment of both accrued year-end 2007 bonuses and corporate income taxes). We used \$37.2 million from investing activities, including \$30.2 million for investments in our merchant banking funds, \$8.0 million in GHLAC, \$2.2 million in Barrow Street and \$22.9 million in Iridium as well as \$2.8 million for the build-out of new office space, offset by \$17.7 million related to distributions received from our merchant banking investments and proceeds of \$11.2 million from the sale of investments. We used \$64.8 million for financing activities, including \$60.0 million for the net repayment of our revolving loan facility, \$21.8 million for the repurchase of our common stock, \$50.0 million for the payment of dividends and \$1.4 million for the repayment of prior undistributed earnings to GCI's U.K. members offset by \$67.3 million from the issuance of common stock.

2007. Cash and cash equivalents increased by \$129.3 million in 2007. We generated \$145.9 million from operating activities, including \$115.4 million from net income after giving effect to the non-cash items and by a net increase in working capital of \$30.5 million (principally from a decrease in accrued compensation payable and a decrease in taxes payable). We generated \$76.5 million from investing activities, including \$38.8 million from the net sale of auction rate securities, \$37.8 million in distributions received from our merchant banking investments, and \$39.1 million from the sale of other investments (including \$30.1 million attributable to sale of Ironshore Inc. to GCP Europe), offset by \$34.7 million of new investments in merchant banking funds or other principal investments and \$4.5 million for the

build-out of new office space. We used \$92.8 million for financing activities,

Table of Contents

including \$36.9 million for the payment of dividends and \$125.0 million for the repurchase of our common stock. A portion of our financing activities were funded through net borrowings of \$67.0 million.

2006. Cash and cash equivalents decreased by \$20.9 million in 2006. We generated \$39.7 million from operating activities, including \$30.3 million from net income after giving effect to the non-cash items and by a net increase in working capital of \$9.4 million (principally from the accrual of compensation expense and taxes payable and an increase in accounts receivable, offset in part by a decrease in accounts payable and accrued expenses). We used \$12.7 million in investing activities, including \$53.2 million for new investments in merchant banking funds and shares of Ironshore, Inc., \$38.8 million from the net purchase of auction rate securities, \$8.8 million from the build-out of new office space and \$2.3 million for the purchase of Beaufort Partners Limited, offset in part by \$90.4 million in distributions from our merchant banking investments. We used \$52.6 million for financing activities, including \$21.2 million for the payment of dividends and \$53.5 million for the repurchase of our common stock. A portion of our financing activities were funded through net borrowings of \$19.5 million.

Contractual Obligations

The following table sets forth information relating to our contractual obligations as of December 31, 2008:

Contractual Obligations	Total	Payment Due by Period			More than 5 years
		Less than 1 year	1-3 years (in millions)	3-5 years	
Operating lease obligations	\$ 23.9	\$ 8.3	\$ 9.2	\$ 5.0	\$ 1.4
Revolving loan facility	26.5	26.5			
Merchant banking commitments ^(a)	51.3	20.9	23.6	6.8	
Other commitments	1.0	1.0			
Total	\$ 102.7	\$ 56.7	\$ 32.8	\$ 11.8	\$ 1.4

(a) We may be required to substantially fund our merchant banking commitments at any time through 2012, depending on the timing and level of investments by GCP II, GCP Europe and GSAVP, although we do not expect these commitments to be drawn in full. Since the merchant banking commitments can be drawn at any time over the life of the commitment period, the amounts above are shown as if spread ratably over the life of the primary commitment period.

The firm has a revolving loan facility of \$90 million to provide for working capital needs, facilitate the funding of short-term investments and other general corporate purposes. Borrowings under this facility are secured by all management fees earned by Greenhill Capital Partners, LLC and Greenhill Venture Partners, LLC and any cash distributed in respect of their partnership interests in GCP I, GCP II and GSAVP, as applicable. Interest on borrowings is based on the higher of Bank of America Prime Rate or 4 percent. The revolving bank loan facility matures on December 31, 2009. At December 31, 2008, \$26.5 million of borrowings were outstanding on the loan facility.

Market Risk

We limit our investments to (1) short-term cash investments, which we believe do not face any material interest rate risk, equity price risk or other market risk and (2) principal investments made in GCP, GSAVP, GCP Europe and other merchant banking funds and GHLAC, Iridium and related investments.

We have invested our cash in short duration, highly rated fixed income investments including treasury bills and money market funds. Changes in interest rates and other economic and market

Table of Contents

conditions could affect these investments adversely; however, we do not believe that any such changes will have a material effect on our results of operations. We monitor the quality of these investments on a regular basis and may choose to diversify such investments to mitigate perceived market risk. Our short-term cash investments are primarily denominated in U.S. dollars, Canadian dollars, pounds sterling and Euros, and we face foreign currency risk in our cash balances held in accounts outside the United States due to potential currency movements. To the extent that the cash balances in local currency exceed our short term obligations, we may hedge our foreign currency exposure.

With regard to our principal investments (including, to the extent applicable, our portion of any profit overrides earned on such investments), we face exposure to changes in the estimated fair value of the companies in which we and our merchant banking funds invest, which historically has been volatile. Significant changes in the public equity markets and credit market may have a material effect on our results of operations. Volatility in the general equity markets would impact our operations primarily because of changes in the fair value of our merchant banking or principal investments that are publicly traded securities. Volatility in the availability of credit would impact our operations primarily because of changes in the fair value of merchant banking or principal investments that rely upon a portion of leverage to operate. We have analyzed our potential exposure to general equity market risk by performing sensitivity analyses on those investments held by us and in our merchant banking funds which consist of publicly traded securities. This analysis showed that if we assume that at December 31, 2008, the market prices of all public securities were 10% lower, the impact on our operations would be a decrease in revenues of \$1.8 million. We meet on a quarterly basis to determine the estimated fair value of the investments held in our merchant banking portfolio and to discuss the risks associated with those investments. The respective Investment Committees manage the risks associated with the merchant banking portfolios by closely monitoring and managing the types of investments made as well as the monetization and realization of existing investments.

In addition, the reported amounts of our revenues may be affected by movements in the rate of exchange between the euro, pound sterling and Canadian dollar (in which currencies 38% of our revenues for the year ended December 31, 2008 were denominated) and the dollar, in which our financial statements are denominated. We do not currently hedge against movements in these exchange rates. We analyzed our potential exposure to a decline in exchange rates by performing a sensitivity analysis on our net income. Because of the strengthening in value of the dollar relative to the pound sterling and euro in 2008 on a weighted average basis, our earnings in 2008 were lower than they would have been had the value of the dollar relative to those other currencies remained constant. However, we do not believe we face any material risk in respect of exchange rate movements.

Critical Accounting Policies and Estimates

We believe that the following discussion addresses Greenhill's most critical accounting policies, which are those that are most important to the presentation of our financial condition and results of operations and require management's most difficult, subjective and complex judgments.

Basis of Financial Information

The firm's consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States, which require management to make estimates and assumptions regarding future events that affect the amounts reported in our financial statements and related footnotes, including investment valuations, compensation accruals and other matters. We believe that the estimates used in preparing our consolidated financial statements are reasonable and prudent. Actual results could differ materially from those estimates.

The consolidated financial statements of the firm include all consolidated accounts and Greenhill & Co., Inc. and all other entities in which we have a controlling interest, including Greenhill & Co. International LLP, and Greenhill & Co. Europe LLP and Greenhill Capital Partners Europe LLP, after eliminations of all significant inter-company

accounts and transactions. In accordance with FIN 46-R,

Table of Contents

the firm consolidates the general partners of our merchant banking funds in which we have a majority of the economic interest. The general partners account for their investments in their merchant banking funds under the equity method of accounting pursuant to Accounting Principles Board Opinion No. 18, *The Equity Method of Accounting for Investments in Common Stock* (APB 18). As such, the general partners records their proportionate share of income (loss) from the underlying merchant banking funds. As the merchant banking funds follow investment company accounting, and generally record all their assets and liabilities at fair value, the general partners' investment in merchant banking funds represents an estimation of fair value. The firm does not consolidate the merchant banking funds since the firm, through its general partner and limited partner interests, does not have a majority of the economic interest in such funds and under EITF No. 04-5, *Accounting for an Investment in a Limited Partnership When the Investor Is the Sole General Partner and the Limited Partners Have Certain Rights* (EITF 04-5), is subject to removal by a simple majority of unaffiliated third-party investors.

Revenue Recognition

Financial Advisory Fees

We recognize financial advisory fee revenue for mergers and acquisitions or financing advisory and restructuring engagements when the services related to the underlying transactions are completed in accordance with the terms of the engagement letter. The firm recognizes fund placement advisory fees at the time of the client's acceptance of capital or capital commitments in accordance with the terms of the engagement letter. Retainer fees are recognized as financial advisory fee revenue over the period in which the related service is rendered.

Our clients reimburse certain expenses incurred by us in the conduct of financial advisory engagements. Expenses are reported net of such client reimbursements.

Merchant Banking and Other Revenues

Merchant banking revenues consist of (i) management fees on the firm's merchant banking activities, (ii) gains (or losses) on investments in our merchant banking funds and other principal investment activities and (iii) merchant banking profit overrides.

Management fees earned from the firm's merchant banking activities are recognized over the period of related service.

We recognize revenues on investments in our merchant banking funds based on our allocable share of realized and unrealized gains (or losses) reported by such funds. Investments held by merchant banking funds are recorded at estimated fair value. The value of merchant banking fund investments in privately held companies are determined by the general partner of the fund after giving consideration to the cost of the security, the pricing of other sales of securities by the portfolio company, the price of securities of other companies comparable to the portfolio company, purchase multiples paid in other comparable third-party transactions, the original purchase price multiple, market conditions, liquidity, operating results and other qualitative and quantitative factors. Discounts are generally applied to the funds' privately held investments to reflect the lack of liquidity and other transfer restrictions. Investments held by the merchant banking funds as well as those held by us in publicly traded securities are valued using quoted market prices discounted for any legal or contractual restrictions on sale. Because of the inherent uncertainty of valuations as well as the discounts applied, the estimated fair values of investments in privately held companies may differ significantly from the values that would have been used had a ready market for the securities existed. The values at which our investments are carried on our books are adjusted to estimated fair value at the end of each quarter and the volatility in general economic conditions, stock markets and commodity prices may result in significant changes in the estimated fair value of the investments.

We recognize merchant banking profit overrides when certain financial returns are achieved over the life of the fund. Profit overrides are generally calculated as a percentage of the profits over a

Table of Contents

specified threshold earned by each fund on investments managed on behalf of unaffiliated investors for GCP I and principally all investors except the firm for GCP II, GCP Europe and GSAVP. The profit overrides earned by the firm are recognized on an accrual basis throughout the year in accordance with Method 2 of EITF Issue No. D-96,

Accounting for Management Fees Based on a Formula (EITF D-96). In accordance with Method 2 of EITF D-96 the firm records as revenue the amount that would be due pursuant to the fund agreements at each period end as if the fund agreements were terminated at that date. Overrides are generally calculated on a deal-by-deal basis but are subject to investment performance over the life of each merchant banking fund. We may be required to repay a portion of the overrides to the limited partners of the funds in the event a profit override has been realized and paid to the general partner and a minimum performance level is not achieved by the fund as a whole (we refer to these potential repayments as clawbacks). We would be required to establish a reserve for potential clawbacks if we were to determine that the likelihood of a clawback is probable and the amount of the clawback can be reasonably estimated. As of December 31, 2008, we have not reserved for any clawback obligations under applicable fund agreements.

Investments

The firm's investments in merchant banking funds are recorded under the equity method of accounting based upon the firm's proportionate share of the fair value of the underlying merchant banking fund's net assets. The firm's holdings of the GHAC common stock are also recorded under the equity method of accounting. The firm's other investments are recorded at estimated fair value.

Restricted Stock Units

In accordance with the fair value method prescribed by FASB Statement No. 123(R), Share-Based Payment (SFAS 123(R)), which is a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation , the fair value of restricted stock units granted to employees with future service requirements is recorded as compensation expense and generally is amortized over a five-year service period following the date of grant. Compensation expense is determined at the date of grant. As the firm expenses the awards, the restricted stock units recognized are recorded within stockholders' equity. The restricted stock units are reclassified into common stock and additional paid-in capital upon vesting. The firm records dividend equivalent payments, net of estimated forfeitures, on outstanding restricted stock units as a charge to stockholders' equity.

Provision for Taxes

The firm accounts for taxes in accordance with FASB Statement No. 109, Accounting for Income Taxes (SFAS 109), which requires the recognition of tax benefits or expenses on the temporary differences between the financial reporting and tax bases of its assets and liabilities.

Effective on January 1, 2007, the firm adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB No. 109 (FIN 48), which prescribes a single, comprehensive model for how a firm should recognize, measure, present and disclose in its financial statements uncertain tax positions that the firm has taken or expects to take on its tax returns. Income tax expense is based on pre-tax accounting income, including adjustments made for the recognition or derecognition related to uncertain tax positions. The recognition or derecognition of income tax expense related to uncertain tax positions is determined under the guidance as prescribed by FIN 48. Deferred tax assets and liabilities are recognized for the future tax attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period that includes the enactment date. The firm's deferred tax liabilities are presented as a component of taxes payable on the consolidated statements of financial condition. Management applies the more-likely-than-not criteria included in FIN 48 when determining tax

Table of Contents

benefits. The implementation of FIN 48 did not result in any current adjustment or any cumulative effect and therefore, no adjustment was recorded to retained earnings upon adoption.

Market/Credit Risks

The firm maintains its cash and cash equivalents with financial institutions with high credit ratings. At times, the firm may maintain deposits in federally insured financial institutions in excess of federally insured (FDIC) limits. However, management believes that the firm is not exposed to significant credit risk due to the financial position of the depository institution in which those deposits are held.

Financial Instruments and Fair Value

The firm adopted FASB Statement No. 157, Fair Value Measurements (SFAS 157), as of January 1, 2008. SFAS 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under SFAS 157 are described below:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In determining the appropriate levels, the firm performs a detailed analysis of the assets and liabilities that are subject to SFAS 157. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs or instruments which trade infrequently and therefore have little or no price transparency are classified as Level 3.

Derivative Instruments

The firm accounts for the GHLAC Warrants, which were obtained in connection with its investment in the GHLAC, under FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133). SFAS 133 establishes accounting and reporting standards for derivative instruments and other hedging activities. In accordance with SFAS 133, the firm records the GHLAC Warrants in the consolidated statement of financial condition at estimated fair value, with changes in estimated fair value recorded in merchant banking revenue in the consolidated financial statements.

Accounting Developments

In December 2007, FASB Statement No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of Accounting Research Bulletin No. 51 (SFAS 160) was issued. SFAS 160 requires reporting entities to present noncontrolling (minority) interests as equity (as opposed to as a liability or mezzanine equity) and provides

guidance on the accounting for transactions between an entity and noncontrolling interests. The effective date for SFAS is for annual periods beginning on or after December 15, 2008. Early adoption and retroactive application of SFAS 160 to fiscal years preceding the effective date are not permitted. The firm is currently evaluating the potential impact of adopting SFAS 160 on its consolidated financial statements.

Table of Contents

In March 2008, FASB Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities* – an amendment of FASB Statement No. 133 (SFAS 161) was issued. SFAS 161 requires firms to provide enhanced disclosures regarding derivative instruments and hedging activities. It requires firms to better convey the purpose of derivative use in terms of the risks that such firm is intending to manage. Disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items affect a firm's financial position, financial performance, and cash flows are required. This Statement retains the same scope as SFAS 133 and is effective for fiscal years and interim periods beginning on or after November 15, 2008. The firm is currently evaluating the potential impact of adopting SFAS 161 on its consolidated financial statements.

In June 2008, FSP EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payments Transactions Are Participating Securities* (FSP EITF 03-6-1) was issued. FSP EITF 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and therefore need to be included in the earnings allocation in calculating earning per share under the two-class method described in FASB Statement No. 128, *Earnings per Share*. FSP EITF 03-06-1 requires firms to treat unvested share-based payment awards that have non-forfeitable rights to dividend or dividend equivalents as a separate class of securities in calculating earnings per share. FSP EITF 03-06-1 is effective for fiscal years beginning after December 15, 2008; earlier application is not permitted. The firm is currently evaluating the potential impact of adopting FSP EITF 03-6-1 on its consolidated financial statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

We do not believe we face any material interest rate risk, foreign currency exchange risk, equity price risk or other market risk. See *Item 7. Market Risk* above for a discussion of market risks.

Item 8. Financial Statements and Supplementary Data

The financial statements required by this item are listed in *Item 15. Exhibits and Financial Statement Schedules*.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Based upon their evaluation of the firm's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15 as of the end of the year covered by this 2008 Form 10-K, the firm's Co-Chief Executive Officers and Chief Financial Officer have concluded that such controls and procedures are effective. There were no significant changes in the firm's internal controls or in other factors that could significantly affect such internal controls subsequent to the date of their evaluation.

Management's report on the firm's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act), and the related report of our independent public accounting firm, are included on pages F-2 – F-4 of this report.

In addition, on May 27, 2008 our Chief Executive Officer certified to the New York Stock Exchange (NYSE) that he was not aware of any violation by the firm of the NYSE's corporate governance listing standards. We have filed as an exhibit to this Form 10-K the certifications of our Co-Chief Executive Officers and Chief Financial Officer pursuant to Rule 13a-14(a) or 15d-14(a) of the Securities Exchange Act of 1934 (as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002).

Item 9B. Other Information

None.

Management's Report on Internal Control over Financial Reporting

Management of Greenhill & Co., Inc. and subsidiaries (the Company), is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is a process designed under the supervision of the Company's principal executive and principal financial officers to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external reporting purposes in accordance with generally accepted accounting principles in the United States of America.

As of December 31, 2008, management conducted an assessment of the effectiveness of the Company's internal control over financial reporting based on the framework established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based upon this assessment, management has determined that the Company's internal control over financial reporting as of December 31, 2008 was effective.

The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

The Company's independent registered public accounting firm has issued their auditors' report appearing on page F-4 which expresses an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Table of Contents

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of
Greenhill & Co., Inc.

We have audited the accompanying consolidated statements of financial condition of Greenhill & Co., Inc. and subsidiaries as of December 31, 2008 and 2007, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2008. These financial statements are the responsibility of Greenhill & Co., Inc.'s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Greenhill & Co., Inc. and subsidiaries at December 31, 2008 and 2007, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2008, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Greenhill & Co., Inc.'s internal control over financial reporting as of December 31, 2008, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 24, 2009 expressed an unqualified opinion thereon.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of
Greenhill & Co., Inc.

We have audited Greenhill & Co., Inc.'s internal control over financial reporting as of December 31, 2008, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Greenhill & Co., Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Greenhill & Co., Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2008, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statements of financial condition as of December 31, 2008 and 2007, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2008 of Greenhill & Co., Inc. and our report dated February 24, 2009, expressed an unqualified opinion thereon.

Table of Contents

**Greenhill & Co., Inc. and Subsidiaries
Notes to Consolidated Financial Statements**

Note 1 Organization

Greenhill & Co., Inc., a Delaware corporation, together with its subsidiaries (collectively, the Company), is an independent investment banking firm. The Company has clients located throughout the world, with offices located in New York, London, Frankfurt, Toronto, Tokyo, Dallas, San Francisco and Chicago.

The Company's activities as an investment banking firm constitute a single business segment, with two principal sources of revenue:

Financial advisory, which includes engagements relating to mergers and acquisitions, financing advisory and restructuring, and fund placement advisory; and

Merchant banking, which includes the management of outside capital invested in the Company's merchant banking funds and other similar vehicles, primarily Greenhill Capital Partners (GCP I), Greenhill Capital Partners II (GCP II), Greenhill Capital Partners Europe (GCP Europe), and Greenhill SAV Partners (GSAVP together with GCP I, GCP II, and GCP Europe, the Greenhill Funds), and the Company's principal investments in the Greenhill Funds and other merchant banking funds and similar vehicles.

The Company's U.S. and international wholly-owned subsidiaries include Greenhill & Co., LLC (G&Co), Greenhill Capital Partners, LLC (GCPLL), Greenhill Venture Partners, LLC (GVP), Greenhill Aviation Co., LLC (GAC), Greenhill & Co. Europe Holdings Limited (GCE), Greenhill & Co. Holding Canada Ltd. (GCH) and Greenhill & Co. Japan Ltd. (GCJ).

G&Co is a registered broker-dealer under the Securities Exchange Act of 1934, as amended, and is registered with the Financial Industry Regulation Authority. G&Co is engaged in investment banking activities principally in North America.

GCE is a U.K. based holding company. GCE controls Greenhill & Co. International LLP (GCI), Greenhill & Co. Europe LLP (GCEI) and Greenhill Capital Partners Europe LLP (GCPE), through its controlling membership interests. GCI and GCEI are engaged in investment banking activities, principally in Europe, and are subject to regulation by the U.K. Financial Services Authority (FSA). GCPE is also regulated by the FSA and provides investment advisory services to GCP Europe, the Company's UK-based private equity fund that invests in a diversified portfolio of private equity and equity related investments in mid-market companies located primarily in the United Kingdom and Continental Europe. The majority of the investors in GCP Europe are third parties; however, the Company and its employees have also made investments in GCP Europe.

The Company, through Greenhill & Co. Canada Ltd., a wholly-owned Canadian subsidiary of GCH, engages in investment banking activities in Canada.

The Company, through GCJ, engages in investment banking activities in Japan.

GCPLL is an investment adviser, registered under the Investment Advisers Act of 1940 (IAA). GCPLL provides investment advisory services to GCP I and GCP II, our U.S. based private equity funds that invest in a diversified portfolio of private equity and equity related investments. The majority of the investors in GCP I and GCP II are third

parties; however, the Company and its employees have also made investments in GCP I and GCP II.

GVP is an investment adviser, registered under the IAA. GVP provides investment advisory services to GSAVP, our venture funds that invest in early growth stage companies in the tech-enabled and business information services industries. The majority of the investors in GSAVP are third parties; however, the Company and its employees have also made investments in GSAVP.

F-10

Table of Contents

GAC owns and operates an aircraft, which is used for the exclusive benefit of the Company's employees and their immediate family members.

On February 21, 2008, the Company completed the initial public offering of units in its subsidiary, GHIL Acquisition Corp., a blank check company (GHILAC). In the offering, GHILAC sold 40,000,000 units for an aggregate purchase price of \$400,000,000. Each unit consists of one share of GHILAC's common stock (GHILAC Common Stock) and one warrant (the Founder Warrants). In addition, the Company purchased private placement warrants for an aggregate purchase price of \$8,000,000 (the GHILAC Private Placement Warrants, together with the Founder Warrants, the GHILAC Warrants). Currently, the Company owns approximately 8,369,563 (17.3%) of the outstanding common stock of GHILAC. As a result of its public offering GHILAC is no longer a wholly-owned subsidiary of the Company.

Note 2 Summary of Significant Accounting Policies

Basis of Financial Information

These consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States, which require management to make estimates and assumptions regarding future events that affect the amounts reported in our financial statements and these footnotes, including investment valuations, compensation accruals and other matters. Management believes that the estimates used in preparing its consolidated financial statements are reasonable and prudent. Actual results could differ materially from those estimates. Certain reclassifications have been made in prior year information to conform to current year presentation.

The consolidated financial statements of the Company include all consolidated accounts of Greenhill & Co., Inc. and all other entities in which the Company has a controlling interest, including GCI, GCEI and GCPE, after eliminations of all significant inter-company accounts and transactions. In accordance with FASB Interpretation No. 46,

Consolidation of Variable Interest Entities (FIN 46-R), the Company consolidates the general partners of its merchant banking funds in which it has a majority of the economic interest. The general partners account for their investments in their merchant banking funds under the equity method of accounting pursuant to Accounting Principles Board Opinion No. 18, The Equity Method of Accounting for Investments in Common Stock (APB 18). As such, the general partners record their proportionate shares of income (loss) from the underlying merchant banking funds. As the merchant banking funds follow investment company accounting, and generally record all their assets and liabilities at fair value, the general partners' investment in merchant banking funds represents an estimation of fair value. The Company does not consolidate the merchant banking funds since the Company, through its general partner and limited partner interests, does not have a majority of the economic interest in such funds and under EITF No. 04-5,

Accounting for an Investment in a Limited Partnership When the Investor Is the Sole General Partner and the Limited Partners Have Certain Rights (EITF 04-5), is subject to removal by a simple majority of unaffiliated third-party investors.

Minority Interest

The portion of the consolidated interests in the general partners of our merchant banking funds, which are held directly by employees of the Company are represented as minority interest in the accompanying consolidated financial statements.

Revenue Recognition

Financial Advisory Fees

The Company recognizes financial advisory fee revenue for mergers and acquisitions or financing advisory and restructuring engagements when the services related to the underlying transactions are completed in accordance with the terms of the engagement letter. The Company recognizes fund

F-11

Table of Contents

placement advisory fees at the time of the client's acceptance of capital or capital commitments in accordance with the terms of the engagement letter. Retainer fees are recognized as financial advisory fee revenue over the period in which the related service is rendered.

The Company's clients reimburse certain expenses incurred by the Company in the conduct of financial advisory engagements. Expenses are reported net of such client reimbursements. Client reimbursements totaled \$4.5 million, \$4.0 million and \$3.8 million for the years ended December 31, 2008, 2007 and 2006, respectively.

Merchant Banking and Other Revenues

Merchant banking revenues consist of (i) management fees on the Company's merchant banking activities, (ii) gains (or losses) from the Company's investments in merchant banking funds and other principal investment activities, and (iii) merchant banking profit overrides.

Management fees earned from the Company's merchant banking activities are recognized over the period of related service.

The Company recognizes revenues on investments in its merchant banking funds based on its allocable share of realized and unrealized gains (or losses) reported by such funds. Investments held by merchant banking funds are recorded at estimated fair value. The value of merchant banking fund investments in privately held companies are determined by the general partner of the fund after giving consideration to the cost of the security, the pricing of other sales of securities by the portfolio company, the price of securities of other companies comparable to the portfolio company, purchase multiples paid in other comparable third-party transactions, the original purchase price multiple, market conditions, liquidity, operating results and other qualitative and quantitative factors. Discounts are generally applied to the funds' privately held investments to reflect the lack of liquidity and other transfer restrictions. Investments held by the merchant banking funds as well as those held by the Company in publicly traded securities are valued using quoted market prices discounted for any legal or contractual restrictions on sale. Because of the inherent uncertainty of valuations as well as the discounts applied, the estimated fair values of investments in privately held companies may differ significantly from the values that would have been used had a ready market for the securities existed. The values at which the Company's investments are carried on its books are adjusted to estimated fair value at the end of each quarter and the volatility in general economic conditions, stock markets and commodity prices may result in significant changes in the estimated fair value of the investments.

The Company recognizes merchant banking profit overrides when certain financial returns are achieved over the life of the fund. Profit overrides are generally calculated as a percentage of the profits over a specified threshold earned by each fund on investments managed on behalf of unaffiliated investors for GCP I and principally all investors except the Company for GCP II, GCP Europe and GSAVP. The profit overrides earned by the Company are recognized on an accrual basis throughout the year in accordance with Method 2 of EITF Issue No. D-96, "Accounting for Management Fees Based on a Formula" (EITF D-96). In accordance with Method 2 of EITF D-96, the Company records as revenue the amount that would be due pursuant to the fund agreements at each period end as if the fund agreements were terminated at that date. Overrides are generally calculated on a deal-by-deal basis but are subject to investment performance over the life of each merchant banking fund. We may be required to repay a portion of the overrides to the limited partners of the funds in the event a profit override has been realized and paid to the general partner and a minimum performance level is not achieved by the fund as a whole (we refer to these potential repayments as "clawbacks"). We would be required to establish a reserve for potential clawbacks if we were to determine that the likelihood of a clawback is probable and the amount of the clawback can be reasonably estimated. As of December 31, 2008, the Company has not reserved for any clawback obligations under applicable fund agreements. See Note 3 "Investments" for further discussion of the merchant banking revenue recognized.

Table of Contents

Investments

The Company's investments in merchant banking funds are recorded under the equity method of accounting based upon the Company's proportionate share of the fair value of the underlying merchant banking fund's net assets. The Company's holdings of the GHLAC common stock are also recorded under the equity method of accounting. The Company's other investments are recorded at estimated fair value.

Financial Advisory Fees Receivables

Receivables are stated net of an allowance for doubtful accounts. The estimate for the allowance for doubtful accounts is derived by the Company by utilizing past client transaction history and an assessment of the client's creditworthiness. The Company recorded bad debt expense of approximately \$0.3 million, \$0.4 million and \$0.0 million for the years ended December 31, 2008, 2007 and 2006, respectively.

Restricted Stock Units

In accordance with the fair value method prescribed by FASB Statement No. 123(R), *Share-Based Payment* (SFAS 123(R)), which is a revision of FASB Statement No. 123, *Accounting for Stock-Based Compensation*, the fair value of restricted stock units granted to employees with future service requirements is recorded as compensation expense and generally is amortized over a five-year service period following the date of grant. Compensation expense is determined at the date of grant. As the Company expenses the awards, the restricted stock units recognized are recorded within stockholders' equity. The restricted stock units are reclassified into common stock and additional paid-in capital upon vesting. The Company records dividend equivalent payments, net of estimated forfeitures, on outstanding restricted stock units as a charge to stockholders' equity.

Earnings per Share

The Company calculates earnings per share (EPS) in accordance with FASB Statement No. 128, *Earnings per Share* (SFAS 128). Basic EPS is calculated by dividing net income by the weighted average number of shares outstanding for the period. Diluted EPS includes the determinants of basic EPS plus the dilutive effect of the common stock deliverable pursuant to restricted stock units for which future service is required as a condition to the delivery of the underlying common stock.

Foreign Currency Translation

Foreign currency assets and liabilities have been translated at rates of exchange prevailing at the end of the periods presented in accordance with FASB Statement No. 52 *Foreign Currency Translation* (SFAS 52). Income and expenses transacted in foreign currency have been translated at average monthly exchange rates during the period. Translation gains and losses are included in the foreign currency translation adjustment included as a component of other comprehensive income in the consolidated statement of changes in stockholders' equity. Foreign currency transaction gains and losses are included in the consolidated statement of income.

Goodwill

Goodwill is the cost in excess of the fair value of identifiable net assets at acquisition date. In accordance with FASB Statement No. 142, *Goodwill and Other Intangible Assets* (SFAS 142), goodwill is tested at least annually for impairment. An impairment loss is triggered if the estimated fair value of an operating business is less than estimated net book value. Such loss is calculated as the difference between the estimated fair value of goodwill and its carrying value. Goodwill is translated at the rate of exchange prevailing at the end of the periods presented in accordance with

SFAS 52.

F-13

Table of Contents

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation is computed by the straight-line method over the estimated useful life of the assets. Amortization of leasehold improvements is computed by the straight-line method over the lesser of the life of the asset or the term of the lease. Estimated useful lives of the assets are generally as follows:

Equipment 5 years

Furniture and fixtures 7 years

Leasehold improvements the lesser of 10 years or the remaining lease term

Provision for Taxes

The Company accounts for taxes in accordance with FASB Statement No. 109, Accounting for Income Taxes (SFAS 109), which requires the recognition of tax benefits or expenses on the temporary differences between the financial reporting and tax bases of its assets and liabilities.

Effective on January 1, 2007, the Company adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109 (FIN 48), which prescribes a single, comprehensive model for how a company should recognize, measure, present and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on its tax returns. Income tax expense is based on pre-tax accounting income, including adjustments made for the recognition or derecognition related to uncertain tax positions. The recognition or derecognition of income tax expense related to uncertain tax positions is determined under the guidance as prescribed by FIN 48. Deferred tax assets and liabilities are recognized for the future tax attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period that includes the enactment date. The Company's deferred tax liabilities are presented as a component of taxes payable on the consolidated statements of financial condition. Management applies the more-likely-than-not criteria included in FIN 48 when determining tax benefits. The implementation of FIN 48 did not result in any current adjustment or any cumulative effect and therefore, no adjustment was recorded to retained earnings upon adoption.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity date of three months or less, when purchased, to be cash equivalents. At December 31, 2008 and 2007, the carrying value of the Company's cash equivalents approximated fair value.

Market/Credit Risks

The Company maintains its cash and cash equivalents with financial institutions with high credit ratings. At times, the Company may maintain deposits in federally insured financial institutions in excess of federally insured (FDIC) limits. However, management believes that the Company is not exposed to significant credit risk due to the financial position of the depository institution in which those deposits are held.

Financial Instruments and Fair Value

The Company adopted FASB Statement No. 157, Fair Value Measurements (SFAS 157), as of January 1, 2008. SFAS 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority

Table of Contents

to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under SFAS 157 are described below:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In determining the appropriate levels, the Company performs a detailed analysis of the assets and liabilities that are subject to SFAS 157. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs or instruments which trade infrequently and therefore have little or no price transparency are classified as Level 3.

Derivative Instruments

The Company accounts for the GHLAC Warrants, which were obtained in connection with its investment in the GHLAC, under FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133). SFAS 133 establishes accounting and reporting standards for derivative instruments and other hedging activities. In accordance with SFAS 133, the Company records the GHLAC Warrants in the consolidated statement of financial condition at estimated fair value, with changes in estimated fair value recorded in merchant banking revenue in the consolidated financial statements.

Accounting Developments

In December 2007, FASB Statement No. 160, Noncontrolling Interests in Consolidated Financial Statements—an amendment of Accounting Research Bulletin No. 51 (SFAS 160) was issued. SFAS 160 requires reporting entities to present noncontrolling (minority) interests as equity (as opposed to as a liability or mezzanine equity) and provides guidance on the accounting for transactions between an entity and noncontrolling interests. The effective date for SFAS 160 is for annual periods beginning on or after December 15, 2008. Early adoption and retroactive application of SFAS 160 to fiscal years preceding the effective date are not permitted. The Company is currently evaluating the potential impact of adopting SFAS 160 on its consolidated financial statements.

In March 2008, FASB Statement No. 161, Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133 (SFAS 161) was issued. SFAS 161 requires companies to provide enhanced disclosures regarding derivative instruments and hedging activities. It requires companies to better convey the purpose of derivative use in terms of the risks that such company is intending to manage. Disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items affect a company's financial position, financial performance, and cash flows are required. This Statement retains the same scope as SFAS 133 and is effective for fiscal years and interim periods beginning on or after November 15, 2008. The Company is currently evaluating the potential impact of adopting SFAS 161 on its consolidated financial statements.

In June 2008, FSP EITF 03-6-1, Determining Whether Instruments Granted in Share-Based Payments Transactions Are Participating Securities (FSP EITF 03-6-1) was issued. FSP EITF 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and therefore need to be included in the earnings allocation in calculating earning per

F-15

Table of Contents

share under the two-class method described in SFAS 128. FSP EITF 03-06-1 requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividend or dividend equivalents as a separate class of securities in calculating earnings per share. FSP EITF 03-06-1 is effective for fiscal years beginning after December 15, 2008; earlier application is not permitted. The Company is currently evaluating the potential impact of adopting FSP EITF 03-6-1 on its consolidated financial statements.

Note 3 Investments

Affiliated Merchant Banking Investments

The Company invests in merchant banking funds for which it also acts as the managing general partner. In addition to recording its direct investments in the funds, the Company consolidates each general partner in which it has a majority of the economic interest.

The Company recognizes revenue on investments in merchant banking funds based on its allocable share of realized and unrealized gains (or losses) reported by such funds on a quarterly basis. Investments held by merchant banking funds are recorded at estimated fair value. The value of the merchant banking fund's investments in privately held companies are determined by the general partner of the fund after giving consideration to the cost of the security, the pricing of other sales of securities by the portfolio company, the price of securities of other companies comparable to the portfolio company, purchase multiples paid in other comparable third-party transactions, the original purchase price multiple, market conditions, liquidity, operating results and other quantitative and qualitative factors. Discounts are generally applied to the funds' privately held investments to reflect the lack of liquidity and other transfer restrictions. Investments in publicly traded securities are valued using quoted market prices discounted for any legal or contractual restrictions on sale. Because of the inherent uncertainty of valuations as well as the discounts applied, the estimated fair values of investment in privately held companies may differ significantly from the values that would have been used had a ready market for the securities existed. The values at which the investments are carried are adjusted to fair value at the end of each period and volatility in general economic conditions, stock markets and commodity prices may result in significant changes in the estimated fair value of the investments and consequently also that portion of the revenues attributable to the Company's merchant banking investments.

The Company's management fee income consists of fees paid by its merchant banking funds and other transaction fees paid by the portfolio companies.

Investment gains or losses from the merchant banking activities are comprised of investment income, realized and unrealized gains or losses from the Company's investment in the Greenhill Funds, and the consolidated earnings of the general partner in which it has a majority economic interest, offset by allocated expenses of the funds. That portion of the earnings or losses of the general partner which are held by employees and former employees of the Company is recorded as minority interest in net income (loss) of affiliates.

As the managing general partner the Company makes investment decisions for the Greenhill Funds and is entitled to receive an override of the profits realized from the funds. The Company includes in consolidated merchant banking revenue all realized and unrealized profit overrides it earns from the Greenhill Funds. This includes profit overrides of the managing general partner of GCP I with respect to all investments it made after January 1, 2004 and the profit overrides of the general partners of GCP II, GCP Europe and GSAVP for all investments. From an economic perspective, profit overrides in respect of all merchant banking investments made after January 1, 2004 are allocated 50% to the Company and 50% to employees of the Company. In addition, the Company also includes in merchant banking revenue its portion and certain employees' portion of the profit overrides of GCP I with respect to investments made prior to January 1, 2004. The economic share of the profit overrides allocated to the employees of the Company is recorded as compensation expense.

Table of Contents

The Company's merchant banking revenue, by source, is as follows:

	For the Years Ended December 31,		
	2008	2007	2006
	(in thousands)		
Management fees	\$ 19,208	\$ 17,301	\$ 15,181
Net realized and unrealized gains (losses) on investments in merchant banking	(17,543)	7,023	27,093
Net realized and unrealized merchant banking profit overrides	(2,700)	1,800	34,600
Other realized and unrealized investment income	1,156	2,181	766
Total merchant banking revenue	\$ 121	\$ 28,305	\$ 77,640

The carrying value of the Company's investments in affiliated merchant banking funds are as follows:

	As of December 31,	
	2008	2007
	(in thousands)	
Investment in GCP I	\$ 8,469	\$ 24,977
Investment in GCP II	55,852	53,240
Investment in GSAVP	2,730	2,982
Investment in GCPE	6,362	8,227
Total investments in affiliated merchant banking funds	\$ 73,413	\$ 89,426

At December 31, 2008 and 2007, the investment in GCP I included \$0.5 million and \$1.0 million, respectively, related to the interests in the managing general partner of GCP I held directly by various employees of the Company. At December 31, 2008 and 2007, the investment in GCP II included \$1.3 million and \$1.2 million, respectively, related to the interests in the general partner of GCP II held directly by various employees of the Company. At December 31, 2008 and 2007, approximately \$0.8 million and \$5.3 million, respectively, of the Company's compensation payable related to profit overrides for unrealized gains of the Greenhill Funds. This amount may increase or decrease depending on the change in the fair value of the Greenhill Funds' portfolio and is payable, subject to clawback, at the time the funds realize cash proceeds.

At December 31, 2008, the Company had unfunded commitments of \$51.3 million to the Greenhill Funds. These commitments are expected to be drawn on from time to time over a period of up to five years from the relevant commitment date of each fund. The commitments to GCP I expired on March 31, 2007. At December 31, 2007, the Company had unfunded commitments to GCP II of \$17.6 million which may be funded through June 2010, unfunded commitments to GSAVP of \$6.5 which may be funded through September 2011, and unfunded commitments to GCP Europe of approximately \$27.2 million which may be funded through December 2012.

Table of Contents***Other Investments***

The Company's other investments are as follows:

	As of December 31,	
	2008	2007
	(in thousands)	
Barrow Street Capital III, LLC	\$ 3,736	\$ 1,825
Tammac Holdings Corp.		2,000
Energy Transfer Equity LP		4,764
Iridium Holdings, L.L.C.	22,900	
GHLAC Common Stock and GHLAC Warrants	8,316	
Total other investments	\$ 34,952	\$ 8,589

The Company committed \$5.0 million to Barrow Street Capital III, LLC (Barrow Street III), a real estate investment fund, of which \$1.0 million remains unfunded at December 31, 2008. The remaining commitment to Barrow Street III is expected to be drawn over the remaining commitment period, which ends in April 2009. The Company accounts for this investment under the equity method.

The investment in Tammac Holdings Corp, a GCP I portfolio company, is in the form of a note, which bears interest at 8% per annum and matures in November 2009. During 2008, the Company wrote down the value of its investment in Tammac Holdings Corp and recorded an unrealized loss of \$2.0 million.

In 2008, GCP LLC received distributions in kind from GCP I of marketable securities of Crown Castle International Corp. in the amount of \$5.5 million and Heartland Payment Systems, Inc. in the amount of \$1.6 million. The Company sold these investments for \$5.2 million and \$1.7 million, respectively. In 2007, GCP LLC received distributions in kind of marketable securities of Energy Transfer Equity, L.P. in the amount of \$4.5 million. This investment was sold in 2008 for \$4.3 million.

During 2008, GCE, a subsidiary of the Company, invested \$22.9 million in Iridium Holdings, L.L.C. (Iridium). GHLAC has agreed to acquire Iridium subject to stockholder approval, various regulatory approvals and other customary closing conditions. The GCE investment is in the form of a convertible subordinated note (the Note), which is unsecured, accrues interest at the rate of 5% per annum starting six months after the issuance date and matures on October 24, 2015. The Note is convertible, at GCE's option, into Iridium Class A units, subject to certain conditions.

Table of Contents***Fair Value Hierarchy***

The following tables set forth by level assets and liabilities measured at fair value on a recurring basis. As required by SFAS 157, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Assets Measured at Fair Value on a Recurring Basis as of December 31, 2008

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2008
	(in thousands)			
Assets				
Iridium Holdings, L.L.C.	\$	\$	\$ 22,900	\$ 22,900
GHLAC Warrants ⁽¹⁾			8,295	8,295
Total investments	\$	\$	\$ 31,195	\$ 31,195

Assets Measured at Fair Value on a Recurring Basis as of December 31, 2007

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2007
	(in thousands)			
Assets				
Tammac Holdings Corp.	\$	\$	\$ 2,000	\$ 2,000
Energy Transfer Equity LP	4,764			4,764
Total investments	\$ 4,764	\$	\$ 2,000	\$ 6,764

Level 3 Gains and Losses

The following tables set forth a summary of changes in the fair value of the Company's level 3 investments for the year ended December 31, 2008.

	Beginning Balance January 1, 2008	Realized Gains or (Losses)	Unrealized Gains or (Losses) (in thousands)	Purchases, Sales, Other Settlements and Issuances, net	Net Transfers in and/or out of Level 3	Ending Balance December 31, 2008
Assets						
Tammac Holdings Corp.	\$ 2,000	\$	\$ (2,000)	\$	\$	\$
Iridium Holdings, L.L.C.				22,900		22,900
GHLAC Warrants ⁽¹⁾			270	8,025		8,295
Total investments	\$ 2,000	\$	\$ (1,730)	\$ 30,925	\$	\$ 31,195

The Company has used an internally developed model to value the GHLAC Warrants, which takes into account various standard option valuation methodologies, including Black Scholes modeling. Selected inputs for the Company's model include: (1) the terms of the warrants themselves, including

⁽¹⁾ The GHLAC Warrants consist of the Founder Warrants and the GHLAC Private Placement Warrants discussed in Note 1.

Table of Contents

exercise price, exercisability threshold (where applicable) and expiration date; (2) externally observable factors including yields on U.S. Treasury obligations and various equity volatility measures, including historical volatility of broad market indices; and (3) internal estimates, including the Company's weighted average cost of capital and the probability of a GHLAC acquisition closing. The carrying value of the Iridium note approximates estimated fair value.

Note 4 Goodwill

On July 6, 2006, the Company acquired through its wholly owned subsidiary, GCH, 100% of the outstanding share capital of Beaufort Partners Limited, an independent investment bank based in Toronto, Canada. The acquisition was accounted for as a purchase. At the time of the acquisition approximately \$17.7 million of the purchase price was allocated to goodwill. Goodwill is translated at the rate of exchange prevailing at the end of the periods presented in accordance with SFAS 52. Any translation gain or loss is included in the foreign currency translation adjustment included as a component of accumulated other comprehensive income (loss) in the consolidated statement of changes in stockholders' equity and amounted to a loss of \$3.6 million in 2008. The Company has reviewed its goodwill in accordance with SFAS 142 and determined that the fair value of the reporting entity to which goodwill is related exceeded the carrying value of such reporting entity. Accordingly, no goodwill impairment loss has been recognized for the years ended December 31, 2008 and 2007.

Note 5 Related Parties

At December 31, 2008 and 2007, the Company had receivables of \$0.5 million and \$0.0 million due from the Greenhill Funds, respectively, relating to accrued management fees and expense reimbursements, which are included in due from affiliates.

Until August 2006, Barrow Street subleased office space from the Company and reimbursed the Company for the use of other facilities and participation in the Company's health care plans. Included in expenses for the year ended December 31, 2006 are reimbursements of \$0.3 million by Barrow Street.

During 2008, 2007 and 2006, the Company paid \$11,965, \$24,067 and \$26,414, respectively, for the use of an aircraft owned by an executive of the Company. Included in occupancy and equipment rental expense for each of the years ended December 31, 2008, 2007 and 2006 are rent reimbursements of \$64,890 for 2008, \$56,800 for 2007 and \$46,800 for 2006, for airplane and office space sublet by a firm owned by an executive of the Company.

Due to affiliates at December 31, 2007 represents undistributed earnings to the U.K. members of GCI from the period prior to the Company's reorganization. In April 2008, the Company repaid the principal amount of the undistributed earnings to the U.K. members of GCI. Included in accounts payable and accrued expenses are \$0.3 million and \$0.2 million in interest payable on the undistributed earnings to the U.K. members of GCI at December 31, 2008 and 2007, respectively.

Table of Contents**Note 6 Property and Equipment**

Property and Equipment consist of the following:

	As of December 31,	
	2008	2007
	(in thousands)	
Aircraft.	\$ 17,037	\$ 16,482
Equipment	9,506	8,282
Furniture and fixtures	4,682	4,620
Leasehold improvements	16,348	16,650
	47,573	46,034
Less accumulated depreciation and amortization	(35,499)	(31,507)
Total property and equipment, net	\$ 12,074	\$ 14,527

Note 7 Revolving Bank Loan Facility

At December 31, 2008, the Company had a \$90.0 million revolving loan facility from a U.S. banking institution to provide for working capital needs, facilitate the funding of investments and other general corporate purposes. The revolving loan facility is secured by all management fees earned by GCPLLC and GVP and any cash distributed to GCPLLC or GVP in respect of its partnership interests in GCPI and GCPII or GSAVP, respectively. Interest on borrowings is based on the higher of Bank of America Prime Rate or 4 percent and is payable monthly. The revolving bank loan facility matures on December 31, 2009. In addition, the Company must comply with certain financial and liquidity covenants. The weighted average daily borrowings outstanding under the loan facility was approximately \$69.2 million and \$43.8 million for the years ended December 31, 2008 and December 31, 2007, respectively. The weighted average interest rates were 4.47% to 6.80% for the years ended December 31, 2008 and 2007, respectively.

Note 8 Stockholders Equity

Dividends declared per common share were \$1.80 in 2008, \$1.26 in 2007 and \$0.70 in 2006. Dividend equivalents of \$3.4 million, \$2.2 million and \$1.0 million were recorded in 2008, 2007 and 2006, respectively, on the restricted stock units that are expected to vest.

On July 6, 2006, in connection with the acquisition of Beaufort Partners Limited, GCH issued 257,156 shares of non-voting exchangeable shares valued at \$15.4 million which are exchangeable into the same number of shares of common stock of the Company subject to certain conditions and are entitled to receive the same dividends (if any) as paid in respect of the common stock. The non-voting exchangeable shares are exchangeable at the option of the holders thereof at any time except in limited circumstances in connection with a liquidation of the Company or where the Company has exercised its rights to redeem the exchangeable shares. On November 13, 2008, 48,738 shares were converted into common stock. As of December 31, 2008, the total value of the remaining 208,418 shares amounted to \$12.4 million.

In November 2008, the Company completed its primary stock offering (the Primary Offering) of 1,250,000 common shares. The offering price was \$56.00 per share, and the Company received proceeds, net of underwriting

commissions and expenses, of \$67.3 million.

During 2008, the Company repurchased in open market transactions 240,880 shares of its common stock at an average price of \$62.27. Additionally, the Company is deemed to have repurchased 106,043 shares of its common stock at an average price of \$64.43 per share in conjunction with the payment of tax liabilities in respect of stock delivered to its employees in settlement of restricted stock units.

F-21

Table of Contents

During 2007, the Company repurchased 1,917,451 shares of its common stock in open market purchases at an average price of \$62.61 per share. Additionally, the Company is deemed to have repurchased 72,462 shares of its common stock at an average of \$68.60 per share in conjunction with the payment of tax liabilities in respect of stock delivered to its employees in settlement of restricted stock units.

During 2006, the Company repurchased 757,050 shares of its common stock in open market purchases at an average price of \$62.43 per share. Also during 2006, the Company completed the purchase at a discount to market of 244,028 shares (of which 195,222 shares were contracted for purchase at December 31, 2005) at an average price of \$47.19 per share from a former employee. Additionally, the Company is deemed to have repurchased 56,085 shares of its common stock at an average of \$67.96 per share in conjunction with the payment of tax liabilities in respect of stock delivered to its employees in settlement of restricted stock units.

Note 9 Earnings Per Share

The computations of basic and diluted EPS are set forth below:

	For The Years Ended December 31,		
	2008	2007	2006
	(in thousands, except per share amounts)		
Numerator for basic and diluted EPS net income available to common stockholders	\$ 48,978	\$ 115,276	\$ 75,666
Denominator for basic EPS weighted average number of common shares	28,167	28,635	29,518
Add dilutive effect of:			
Weighted average number of incremental shares issuable from restricted stock units	47	93	110
Denominator for diluted EPS weighted average number of common shares and dilutive potential common shares	28,214	28,728	29,628
Earnings per share:			
Basic	\$ 1.74	\$ 4.03	\$ 2.56
Diluted	\$ 1.74	\$ 4.01	\$ 2.55

Under the treasury method, as defined by SFAS 128, the number of shares issuable upon the vesting of restricted stock units included in the calculation of diluted earnings per share is the excess, if any, of the number of shares expected to be issued, less the number of shares that could be purchased by the Company with the proceeds to be received upon settlement at the average market closing price during the reporting period. The denominator for basic EPS includes the number of shares deemed issuable due to the vesting of restricted stock units for accounting purposes.

Common shares outstanding consist of (i) the 25,000,000 shares issued in connection with the reorganization, which preceded our initial public offering in May 2004, (ii) the 5,750,000 shares issued in conjunction with the initial public offering, (iii) the 257,156 exchangeable shares issued in connection with the acquisition of Beaufort Partners Limited (48,378 of which were exchanged in November 2008), (iv) the restricted stock units for which no future service is required as a condition to the delivery of the underlying common stock and (v) the 1,250,000 shares issued in the

Primary Offering in November 2008, less the treasury stock purchased by the Company.

Note 10 Retirement Plan

In the U.S., the Company sponsors a qualified defined contribution plan (the Retirement Plan) covering all eligible employees of G&Co, GCPLLC and GVP. Employees must be 21 years old to be eligible to participate. The Retirement Plan provides for both employee contributions in accordance

F-22

Table of Contents

with Section 401(k) of the Internal Revenue Code, and employer discretionary profit sharing contributions, subject to statutory limits. Participants may contribute up to 50% of eligible compensation, as defined. The Company provides matching contributions up to \$1,000 per employee. The Company incurred costs of \$0.6 million, \$0.5 million and \$0.5 million for contributions to the Retirement Plan for the years ended December 31, 2008, 2007 and 2006, respectively. At December 31, 2008 and 2007, compensation payable included \$0.5 million and \$0.5 million, respectively, related to contributions due to the Retirement Plan.

GCI also operates a defined contribution pension fund for its employees as well as employees of GCPE. The assets of the pension fund are held separately in an independently administered fund. For the year ended December 31, 2008, GCI incurred costs of approximately \$0.7 million and GCPE incurred costs of approximately \$0.1 million. For the years ended December 31, 2007 and 2006, GCI incurred costs of approximately \$0.8 million and \$0.6 million, respectively.

Note 11 Restricted Stock Units

The Company has adopted an equity incentive plan to motivate its employees and allow them to participate in the ownership of its stock. Under the Company's plan restricted stock units, which represent a right to a future payment equal to one share of common stock, may be awarded to employees, directors and certain other non-employees as selected by the Compensation Committee. Awards granted under the plan generally vest ratably over a period of five years beginning on the first anniversary of the grant date or in full on the fifth anniversary of the grant date. To the extent the restricted stock units are outstanding at the time a dividend is paid on the common stock, a dividend equivalent amount is paid to the holders of the restricted stock units.

The Company issues restricted stock units to employees under the equity incentive plan, primarily in connection with its annual bonus awards and compensation agreements for new hires. It is the Company's policy to settle restricted stock unit awards in shares at the time of vesting of such awards. The Company will generally use newly issued shares to settle such awards. The Company's Board of Directors, in consultation with management consider from time to time whether it would be in the best interests of the Company to repurchase shares of the Company's common stock, and depending on a number of factors, may authorize such repurchases.

As of December 31, 2008, 2007 and 2006, there were restricted stock units outstanding of 2,014,686, 1,746,363 and 1,401,767, respectively, which were legally unvested and require future service as a condition for the delivery of the underlying shares of common stock. For the years ended December 31, 2008, 2007 and 2006, the Company recognized compensation expense, net of forfeitures, of \$32.2 million, \$29.1 million and \$15.8 million, respectively.

The weighted-average grant date fair value for restricted stock units granted during 2008, 2007 and 2006 was \$64.93, \$74.15 and \$55.97, respectively. As of December 31, 2008, unrecognized restricted stock units compensation expense was approximately \$52.5 million, with such unrecognized compensation expense expected to be recognized over a weighted average period of approximately 1.82 years.

Table of Contents

The activity related to the restricted stock units is set forth below:

	Restricted Stock Units Outstanding			
	2008		2007	
	Units	Grant Date Weighted Average Fair Value	Units	Grant Date Weighted Average Fair Value
Outstanding, January 1,	1,746,363	\$ 53.02	1,401,767	\$ 40.61
Granted ⁽¹⁾	655,111	\$ 64.93	622,904	\$ 74.15
Delivered	(293,950)	\$ 52.44	(192,795)	\$ 39.16
Forfeited	(92,838)	\$ 53.91	(85,513)	\$ 39.21
Outstanding, December 31,	2,014,686	\$ 56.94	1,746,363	\$ 53.02

(1) Excludes 697,254 restricted stock units granted to employees subsequent to December 31, 2008 as part of the long term incentive awards program.

Note 12 Commitments and Contingencies

The Company has entered into certain leases for office space under non-cancelable operating lease agreements that expire on various dates through 2015. The Company has also entered into various operating leases, which are used to obtain office equipment. Under an operating lease for office space, a third party owes the Company a portion of the monthly lease payment. Over the remaining life of this lease, the third party owes the Company approximately \$0.5 million. This receivable is secured with a letter of credit issued on behalf of the third party in the amount of \$1.0 million.

As of December 31, 2008, the approximate aggregate minimum future rental payments required were as follows:

2009	\$ 8,285,000
2010	5,980,000
2011	3,170,000
2012	3,107,000
2013	1,937,000
Thereafter	1,374,000
Total	\$ 23,853,000

Net rent expense for the years ended December 31, 2008, 2007 and 2006 was approximately \$8.3 million, \$7.7 million and \$7.1 million, respectively.

Diversified U.S. financial institutions issued three unsecured letters of credit on behalf of the Company in the amounts totaling of \$4.2 million at December 31, 2008 and 2007, respectively, for the benefit of a lessor. At December 31, 2008 and 2007, no amounts had been drawn under any of the letters of credit.

At December 31, 2008, the Company had unfunded commitments for future investments in GCP II, GSAVP, GCPE and other merchant banking activities of \$52.3 million. Of the remaining unfunded commitments, \$1.0 million will be funded as required until 2009, \$17.6 million will be funded as required until 2010, \$6.5 million will be funded as required until 2011 and \$27.2 million will be funded as required until 2012.

In the normal course of its business, the Company indemnifies certain managing directors, directors, officers and certain other person against specified potential losses arising at a time when they are or were members or partners, directors or officers of the Company, its predecessors, or any of their respective affiliates. The Company is unable to estimate the maximum payout under these indemnities.

Table of Contents

However, management believes that it is unlikely the Company will have to make any material payments under these arrangements, and no liabilities related to these indemnities have been recognized in the consolidated statements of financial condition.

From time to time, the Company may be involved in litigation arising out of the ordinary course of its business. The Company is unable to estimate any maximum payout which may be required to be made in respect of such litigation. However, management believes it is unlikely that the Company will have to make any material payments in connection with any such litigation.

Note 13 Income Taxes

As a C corporation, the Company is subject to federal, foreign, state and local corporate income taxes.

The components of the provision for income taxes reflected on the consolidated statements of earnings are set forth below:

	For the Years Ended December 31,		
	2008	2007	2006
	(in thousands)		
Current taxes:			
U.S. federal	\$ 28,691	\$ 41,102	\$ 24,444
State and local	7,376	7,287	2,430
Non-U.S	13,229	35,993	16,693
Total current tax expense	49,296	84,382	43,567
Deferred taxes:			
U.S. federal	(13,797)	(17,489)	515
State and local	(3,601)	(1,089)	(1,070)
Non-U.S	(2,506)	(3,971)	(1,379)
Total deferred tax (benefit) expense	(19,904)	(22,549)	(1,934)
Total tax expense	\$ 29,392	\$ 61,833	\$ 41,633

The Company plans to permanently reinvest 50% of eligible earnings from its foreign affiliates, and provides U.S. income tax on the foreign earnings in excess of this planned reinvestment amount. As of December 31, 2008, the Company has provided U.S. income tax on approximately \$93.8 million of eligible earnings of its foreign affiliates since it became a C Corp in 2004 of which it has repatriated \$87.2 million. If the Company had not permanently reinvested 50% of its eligible earnings from foreign affiliates it would have incurred additional deferred tax liabilities of \$2.9 million from temporary differences related to such earnings as of December 31, 2008.

Table of Contents

Deferred income taxes reflect the net tax effects of temporary differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when such differences are expected to reverse. Significant components of the Company's net deferred tax assets and liabilities are set forth below:

	As of December 31,	
	2008	2007
	(in thousands)	
Deferred tax assets:		
Compensation and benefits	\$ 22,292	\$ 17,645
Depreciation and amortization	2,898	2,066
Unrealized loss on investments	3,133	
Cumulative translation adjustment	4,253	
Other financial accruals	1,421	925
Total deferred tax assets	33,997	20,636
Deferred tax liabilities:		
Unrealized gain on investments		8,592
Depreciation and amortization		75
Cumulative translation adjustment		856
Total deferred tax liabilities		9,523
Net deferred tax asset	\$ 33,997	\$ 11,113

Based on the Company's historical taxable income and its expectation for the future, management expects that the deferred tax asset will be realized as offsets to deferred tax liabilities and as offsets to the tax consequences of future taxable income.

Deferred taxes for the foreign affiliates are translated in accordance with SFAS 52. Any translation gain or loss is included in the foreign currency translation adjustment included as a component of other comprehensive income, net of tax, in the consolidated statement of changes in stockholder's equity.

The implementation of FIN 48 did not result in any current adjustment or any cumulative effect, and therefore, no adjustment was recorded to retained earnings upon adoption. For the years ended December 31, 2008 and 2007, the Company performed a tax analysis in accordance with FIN 48. Based upon such analysis the Company was not required to accrue any liabilities pursuant to FIN 48 for the years ended December 31, 2008 and 2007, respectively.

A reconciliation of the statutory U.S. federal income tax rate of 35.0% to the Company's effective income tax rate is set forth below:

For the Years Ended		
December 31,		
2008	2007	2006

Edgar Filing: GREENHILL & CO INC - Form 10-K

U.S. statutory tax rate	35.0%	35.0%	35.0%
Increase related to state and local taxes, net of U.S. income tax	3.1	2.2	0.8
Foreign taxes	(2.2)	(3.6)	
Other	1.6	1.3	(0.3)
Effective income tax rate	37.5%	34.9%	35.5%

Note 14 Regulatory Requirements

Certain subsidiaries of the Company are subject to various regulatory requirements in the United States and United Kingdom, which specify, among other requirements, minimum net capital requirements for registered broker-dealers.

G&Co is subject to the Securities and Exchange Commission's Uniform Net Capital requirements under Rule 15c3-1 (the Rule), which specifies, among other requirements, minimum net capital requirements for registered broker-dealers. The Rule requires G&Co to maintain a minimum net capital of the greater of \$5,000 or 1/15 of aggregate indebtedness, as defined in the Rule. As of December 31, 2008 and 2007, G&Co's net capital was \$8.6 million and \$5.9 million, respectively, which exceeded its requirement by \$7.7 million and \$2.4 million, respectively. G&Co's aggregate indebtedness to net capital ratio was 1.60 to 1 and 8.91 to 1 at December 31, 2008 and 2007, respectively. Certain advances, distributions and other capital withdrawals of G&Co are subject to certain notifications and restrictive provisions of the Rule.

GCI, GCEI and GCPE are subject to capital requirements of the FSA. As of December 31, 2008 and 2007, GCI, GCEI and GCPE were in compliance with their local capital adequacy requirements.

Note 15 Business Information

The Company's activities as an investment banking firm constitute a single business segment, with two principal sources of revenue:

Financial advisory, which includes engagements relating to mergers and acquisitions, financing advisory and restructuring, and fund placement services; and

Merchant banking, which includes the management of outside capital invested in the Greenhill Funds and the Company's principal investments in such funds and similar vehicles.

The Company has principally earned its revenues from financial advisory fees earned from clients in large part upon the successful completion of the client's transaction or restructuring. Financial advisory revenues represented approximately 98%, 92% and 72% of the Company's total revenues for the years ended December 31, 2008, 2007 and 2006, respectively.

One financial advisory client represented more than 10% of revenues in 2008, and one client (a different client) represented more than 12% of revenues in 2007. The Company's revenues attributable to these clients related to engagements similar in nature to all of the Company's other financial advisory engagements. The Company did not have any single investments in merchant banking that contributed more than 10% to total revenues in 2008, 2007 and 2006.

The Company's financial advisory and merchant banking activities are closely aligned and have similar economic characteristics. A similar network of business and other relationships upon which the Company relies for financial advisory opportunities also generate merchant banking opportunities. Generally, the Company's professionals and employees are treated as a common pool of available resources and the related compensation and other Company costs are not directly attributable to either particular revenue source. In reporting to management, the Company distinguishes the sources of its investment banking revenues between financial advisory and merchant banking. However, management does not evaluate other financial data or operating results such as operating expenses, profit and loss or assets by its financial advisory and merchant banking activities.

Since the financial markets are global in nature, the Company generally manages its business based on the operating results of the enterprise taken as whole, not by geographic region. The Company's investment banking activities are conducted out of its offices in New York, London, Frankfurt, Toronto, Tokyo, Dallas, San Francisco and Chicago. For reporting purposes, the geographic regions are North America and Europe, locations in which the Company retains substantially all of its employees,.

Table of Contents

The following table presents information about the Company by geographic region, after elimination of all significant inter-company accounts and transactions:

	As of or For the Years Ended		
	2008	December 31, 2007	2006

Note 16 Subsequent Event

On January 29, 2009, the Board of Directors of the Company declared a quarterly dividend of \$0.45 per share. The dividend will be payable on March 18, 2009 to the common stockholders of record on March 3, 2009.

**Supplemental Financial Information
Quarterly Results (unaudited)**

The following represents the Company's unaudited quarterly results for the years ended December 31, 2008 and 2007. These quarterly results were prepared in accordance with U.S. generally accepted accounting principles and reflect all adjustments that are, in the opinion of management, necessary for a fair statement of the results.

Report of Independent Registered Public Accounting Firm

To the Partners of Greenhill Capital Partners Private Equity Fund I:

We have audited the accompanying combined statements of assets, liabilities and partners' capital of Greenhill Capital Partners Private Equity Fund I (comprised of Greenhill Capital Partners, L.P., Greenhill Capital Partners (Cayman), L.P., Greenhill Capital Partners (Executives), L.P. and Greenhill Capital, L.P.) (the Partnerships), including the combined schedules of investments, as of December 31, 2008 and 2007, and the related combined statements of operations, changes in partners' capital, and cash flows for each of the three years in the period ended December 31, 2008. These combined financial statements are the responsibility of the Partnerships' General Partner. Our responsibility is to express an opinion on these combined financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free of material misstatement. We were not engaged to perform an audit of the Partnerships' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Partnerships' internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the General Partner, as well as evaluating the overall combined financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of Greenhill Capital Partners Private Equity Fund I at December 31, 2008 and 2007, and the results of its operations, changes in its partners' capital, and its cash flows for each of the three years in the period ended December 31, 2008, in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic combined financial statements taken as a whole. The accompanying supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic combined financial statements. Such additional information has been subjected to the auditing procedures applied in the audit of the basic combined financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic combined financial statements taken as a whole.

**Greenhill Capital Partners Private Equity Fund I
Notes to the Combined Financial Statements**

Note 1 Organization and Basis of Presentation

Greenhill Capital Partners, L.P. (the Delaware Fund) was formed as a Delaware limited partnership on May 2, 2000 and commenced operations on June 30, 2000. The primary business objective of the partnership is to achieve superior medium to long-term capital growth principally through a diversified portfolio of private equity and equity related investments.

The combined financial statements include the accounts of the Delaware Fund, Greenhill Capital Partners (Cayman), L.P. (the Off-Shore Fund), Greenhill Capital Partners (Executives), L.P. (the Executive Fund), and Greenhill Capital, L.P. (the Employee Fund). The Delaware Fund, the Off-Shore Fund, the Executive Fund and the Employee Fund are collectively referred to as Greenhill Capital Partners Private Equity Fund I or the Partnerships and have ownership interests representing 60.5%, 10.1%, 9.6% and 19.8% respectively, of the combined net assets shown on the combined financial statements at December 31, 2008. Such ownership interests may vary due to defaulting partners, differing management fee arrangements, and profit override allocations. The Partnerships purchase an interest in each portfolio company on a pro-rata basis based on their respective ownership interests. The Off-Shore Fund, the Executive Fund and the Employee Fund were organized as limited partnerships with substantially the same terms as the Delaware Fund and are also under the common management of the General Partner.

The managing general partner of the Partnerships is GCP Managing Partner, L.P. GCP Managing Partner, L.P. is responsible for managing the Partnerships investments, subject to the approval of GCP, L.P., the other general partner of the Partnerships, with respect to investments made prior to December 31, 2003. GCP Managing Partner, L.P. and GCP, L.P. are subject to removal by a simple majority of unaffiliated third-party investors of the Partnerships. GCP Managing Partner, L.P. and GCP, L.P. are collectively known as the General Partner. The general partner of the General Partner is referred to herein as the Manager.

The Partnerships will terminate on June 30, 2010, unless extended at the option of the General Partner for one year, and thereafter with Advisory Committee approval for an additional one-year period.

The combined financial statements are prepared in conformity with U.S. generally accepted accounting principles and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the combined financial statements and the reported amounts of revenues and expenses during the reporting period. Investments are stated at estimated fair value, and any unrealized appreciation or depreciation is included in combined statement of operations. Actual results could differ from those estimates.

Capitalized terms used but not defined herein shall have the meaning assigned to them in the respective Partnership Agreements.

Certain amounts in the 2007 combined financial statements and notes have been restated due to the reclassification of loss on investment from unrealized to realized related to the allocation of the cost basis attributed to the partial sale of an investment. As a result of this reclassification the Partnerships decreased net realized gains and cost and increased net unrealized gains by \$3.7 million. This restatement had no impact on either Partners Capital or Net income (loss).

Note 2 Summary of Significant Accounting Policies

Cash and Cash Equivalents

Cash and cash equivalents consist of cash, money market funds and liquid debt instruments such as commercial paper with maturities of three months or less from the date of purchase. Cash and cash

S-9

Table of Contents

equivalents are stated at cost, which approximates fair value. The Partnerships practice is to invest cash with financial institutions and lenders that have acceptable credit ratings and to limit the amount of credit exposure to any one financial institution or lender. All highly liquid investments with a maturity of less than ninety days at the time of purchase are considered to be cash equivalents.

Market/Credit Risks

The Partnerships maintain their cash and cash equivalents with financial institutions with high credit ratings. At times, the Partnerships may maintain deposits in federally insured financial institutions in excess of federally insured (FDIC) limits. However, the Manager believes that the Partnerships are not exposed to significant credit risk due to the financial position of the depository institution in which those deposits are held.

Investment Income

Investment income is comprised of interest and dividend income. Interest income on cash and cash equivalents is recognized when earned. Interest income on debt securities of portfolio companies is recognized on the accrual basis, unless collectibility is uncertain. Dividends on publicly traded securities are recorded on the ex-dividend date.

Income Taxes

Since the Partnerships are not subject to income taxes, there is no provision for income taxes in the combined financial statements. The partners include their allocable share of partnership income and loss in their respective tax returns.

In June 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 clarifies the accounting on how uncertain income tax positions are recognized, measured, presented and disclosed in the combined financial statements in accordance with FASB No. 109, Accounting for Income Taxes (SFAS 109). FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Partnership s tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. In May 2007, the FASB issued Staff Position FIN 48-1, Definition of Settlement in FASB Interpretation No. 48 (FSP FIN 48-1), which provides guidance on how an enterprise should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. FSP FIN 48-1 is effective with the initial adoption of FIN 48. FIN 48 was initially effective for fiscal years beginning after December 15, 2006 and is applied to all open tax years as of the effective date. On December 30, 2008, the FASB issued FSP FIN 48-3, Effective Date of FASB Interpretation No. 48 for Certain Nonpublic Enterprises, which provided additional deferral of FIN 48 for certain non public entities until annual statements for the fiscal years beginning after December 15, 2008. The Partnerships have elected to defer the adoption of FIN 48 pursuant to this FSP. As of December 31, 2008, the Partnerships are evaluating the implications of FIN 48 and its impact on the financial statements has not yet been determined.

Investment Valuations

Investments consist primarily of preferred and common equity interests and partnership interests in publicly and non-publicly traded companies. Investments held by the Partnerships are recorded at estimated fair value as determined by the General Partner. The fair value of investments in privately held companies are estimated by the General Partner after giving consideration to the cost of the security, the pricing of other sales of securities by the portfolio company, the price of securities of other companies comparable to the portfolio company, purchase multiples paid in other comparable third-party transactions, the original purchase price multiple, market conditions, liquidity,

operating results

S-10

Table of Contents

and other qualitative and quantitative factors. Discounts are generally applied to the Partnerships' privately held investments to reflect the lack of liquidity and other transfer restrictions. Because of the inherent uncertainty of valuations as well as the discounts applied, the estimated fair values of investment in privately held companies may differ significantly from the values that would have been used had a ready market for the securities existed. Investments in publicly traded securities are valued using quoted market prices discounted for any legal or contractual restrictions on sale. The values at which the investments are carried are adjusted to estimated fair value at the end of each quarter and volatility in general economic conditions, stock markets and commodity prices may result in significant changes in the estimated fair value of the investments. Investment transactions are accounted for on a trade date basis. When investments are sold or distributed, the gain or loss is classified as realized. Unrealized appreciation or depreciation resulting from changes in fair value of investments (including reversals of unrealized gains or losses when investments are sold or distributed) is included in the combined statement of operations.

The Partnerships adopted SFAS No. 157 (SFAS 157), *Fair Value Measurements* , on January 1, 2008. SFAS 157 defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three broad levels of fair value hierarchy defined by SFAS 157 are as follows:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets are available for identical assets or liabilities as of the reported date.

Level 2 Quoted prices in markets that are not active, or pricing inputs that are either directly or indirectly observable, are available as of the reported date.

Level 3 Prices or valuation techniques that are both significant to the fair value measurement and unobservable as of the reported date. These financial instruments do not have two-way markets and are measured using management's best estimate of fair value, where the inputs into the determination of fair value require significant management judgment or estimation.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In determining the appropriate levels, the Company performs a detailed analysis of the assets and liabilities that are subject to SFAS 157. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs or instruments which trade infrequently and therefore have little or no price transparency are classified as Level 3.

The following table summarizes the valuation of our investments by the above SFAS 157 pricing observability levels as of December 31, 2008:

Fair Value Measurements at Reporting Date Using:

Quoted Prices in Active Markets for Identical Assets	Significant Other	Significant	Ending Balance as of
---	------------------------------	--------------------	---------------------------------

Description	Observable Inputs		Unobservable Inputs	December 31, 2008
	Level 1	Level 2	Level 3	
Investments	\$ 21,241,007		\$ 34,729,240	\$ 55,970,247

S-11

Table of Contents

The following table summarizes the fair value of Level 3 investments for the year ended 2008:

Balance as of December 31, 2007	\$ 71,756,593
Purchases (sales), net	(13,917,809)
Realized gain (loss), net	(10,006,672)
Unrealized gain (loss), net	(13,102,872)
 Balance as of December 31, 2008	 \$ 34,729,240

In-kind Distributions

Marketable securities distributed to limited partners are valued at the closing price of the security on the principal securities exchange on which such securities were traded at the close of the trading day immediately prior to the distribution date.

Use of Estimates

The combined financial statements include estimates and assumptions made by the General Partner that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 3 Investments***Purchases***

During 2007, the Partnerships made a follow-on investment in Peregrine Oil and Gas, LP and Peregrine GP, LLC (collectively *Peregrine*) for \$1.4 million.

During 2006, the Partnerships made a follow-on investment in Peregrine for \$8.0 million and exercised their 128,800 options in Crown Castle International Corp. (formerly, Global Signal Inc. (*GSL*)) (*CCI*) for additional shares of common stock for \$2.6 million.

Changes in Unrealized Investment Valuations

During 2008, the Partnerships recorded an unrealized gain \$0.3 million in Axiom Legal Systems, Inc. (*Axiom*) related to the write-up of the value of the investment. In addition, the Partnerships recorded an unrealized loss of \$15.1 million in Exco Resources, Inc. (*EXCO*) due to the change in the fair value of the remaining securities and recorded unrealized losses of \$19.3 million in Tammac Holdings Corporation (*Tammac*) and \$9.2 million in Orchard Acquisition Company (*Orchard*) related to the write-down of these investments. The Partnerships also reversed previously recognized net unrealized gains from various investments sold or distributed of \$127.3 million.

During 2007, the Partnerships recorded unrealized gains due to the change in the fair value of remaining securities of \$22.2 million in CCI and \$1.7 million in MedAssets Inc. (*MedAssets*). In addition, the Partnerships recorded unrealized losses due to the change in the fair value of the investments during the period of \$2.3 million in Heartland Payment Systems, Inc. (*Heartland*), \$1.4 million in EXCO and \$10.0 million in LMP Exploration Holdings, L.P. and

LMP Exploration Holdings GP, LLC (collectively LMP). The Partnerships also reversed previously recognized net unrealized gains from various investments sold or distributed of \$559.7 million.

During 2006, the Partnerships recorded unrealized gains due to the change in the fair value of securities of \$41.9 million in Energy Transfer Equity, L.P. (ETE), \$87.8 million in CCI, \$12.5 million in Orchard, \$33.8 million in Heartland, and \$25.3 million in EXCO. The Partnerships also reversed previously recognized net unrealized gains from various investments sold or distributed of \$149.8 million.

S-12

Table of Contents***Sale Proceeds, Realizations and other Distributions***

During 2008, the Partnerships received \$8.0 million from the sale of a portion of its investment in LMP (recorded as a return of capital), \$0.5 million from the sale of a portion of its investment in Etel Group Limited (eTel) (\$3.6 million recorded as realized loss and \$0.5 million recorded as a return of capital), \$1.0 million from the sale of its investment in Berliner Communications Inc. (Berliner) (\$6.4 million recorded as realized loss and \$1.0 million recorded as return of capital), \$5.0 million from its sale of investment in MedAssets (\$2.5 million recorded as realized gain and \$2.5 million as return of capital), and received \$4.4 million from the sale of Peregrine (recorded as return of capital). In addition, the Partnerships made an in-kind distribution of CCI, which was valued at \$90.3 million (\$84.5 million recorded as realized gain and \$5.8 million recorded as a return of capital) and an in-kind distribution of Heartland valued at \$42.4 million (\$37.3 million recorded as realized gain and \$5.1 million recorded as return of capital).

During 2008, the Partnerships also received dividend distributions of \$0.1 million and \$0.3 million from Double D Energy, Ltd. (Double D) and from Heartland, respectively (recorded as dividend income).

During 2007, the Partnerships received proceeds of \$17.7 million from the sale of its investment in Hercules Offshore, Inc. (Hercules) (\$15.8 million recorded as realized gain and \$1.9 million recorded as a return of capital). In addition, during 2007, the Partnerships received payments from amounts held in escrow by United States Exploration, Inc. (UXP) of \$3.4 million (recorded as realized gain). The estimated value of the escrow amount received was reflected in other assets as of December 31, 2006 (see below).

During 2007, the Partnerships also received \$95.6 million from the sale of a portion of its investment in Heartland (\$84.9 million recorded as realized gain and \$10.7 million recorded as a return of capital), \$4.6 million from the sale of a portion of its investment in MedAssets (\$2.1 million recorded as realized gain and \$2.5 million recorded as a return of capital), \$1.0 million from the sale of a portion of its investment in eTel (\$3.7 million recorded as a realized loss and \$1.0 million recorded as a return of capital), \$200.1 million from the CCI merger with GSL (\$187.1 million recorded as realized gain and \$13.0 million recorded as a return of capital) (See Note 7), \$173.9 million through a registered secondary offering of CCI shares (\$161.9 million recorded as realized gain and \$12.0 million recorded as a return of capital) and an additional \$96.6 million through a block trade of CCI (\$90.1 million recorded as realized gain and \$6.5 million recorded as a return of capital). In addition, the Partnerships made an in-kind distribution of ETE, which was valued at \$110.4 million (recorded as a realized gain).

During 2007, the Partnerships also received dividend distributions from investments of \$4.8 million from ETE, \$1.5 million from MedAssets, \$1.1 million from Heartland, \$0.3 million from Double D and interest income of \$0.3 million from Tammac.

During 2006, the Partnerships received proceeds of \$132.9 million from the sale of its investment in UXP (\$113.2 million recorded as realized gain and \$19.7 million recorded as a return of capital) and \$57.5 million from the sale of its investment in Republic Insurance Group (Republic) (\$41.0 million recorded as realized gain and \$16.5 million recorded as a return of capital). In addition, UXP continues to retain in escrow \$1.6 million in cash proceeds to cover expenses and unforeseen liabilities, which was received in 2007, and was reflected in other assets as of December 31, 2006 (see above).

During 2006, the Partnerships also received proceeds of \$159.3 million from the sale of a portion of its investment in two secondary stock offerings of Hercules (\$145.5 million recorded as realized gain and \$13.8 million recorded as return of capital), \$39.6 million from the sale of a portion of its investment in the initial public offering of Orchard (\$29.9 million recorded as realized gain and \$9.7 million recorded as return of capital), \$7.9 million from the sale of a portion of its investments in Heartland (\$4.7 million recorded as realized gain and \$3.2 million recorded as a return of capital), \$6.4 million from the sale of a portion of its interest in ETE (recorded as a realized gain), and \$0.4 million

from the sale of the interest rate cap agreement on the GSL margin loan (\$0.2 million

S-13

Table of Contents

recorded as realized gain and \$0.2 million recorded as return of capital) (See Note 7). In addition, the Partnerships made in-kind distributions of ETE, which were valued at \$127.8 million (recorded as a realized gain).

In addition, during 2006, the Partnerships received payments from amounts held in escrow by Everlast Energy LLP (Everlast) and Triana Energy Holdings, LLC (Triana) of \$4.1 million and \$1.3 million (\$5.4 million recorded as realized gain), respectively.

During 2006, the Partnerships also received dividend distributions from investments of \$20.1 million from CCI, \$6.2 million from ETE, \$1.7 million from MedAssets, \$1.0 million from Hercules, \$1.0 million from Republic, \$0.3 million from Heartland, \$0.4 million from Orchard, a distribution of \$0.3 million from Berliner recorded as return of capital, and \$0.3 million from Tammac recorded as interest income.

Note 4 Allocation of Profit and Loss

Each item of income, gain, loss deduction or expenses included in the determination of net income or loss is allocated among each of the partners in a manner consistent with the corresponding method of distribution for each partner.

Note 5 Distributions

Distributions will be made to each partner in accordance with its respective partnership agreement. In general, a limited partner's share of current income from dividends and interest (net of expenses) and net proceeds attributable to the disposition of investments by the partnership will be distributed first, 100% to such limited partner until such limited partner has received on a cumulative basis distributions equal to his share of the sum of (i) invested capital in the investment giving rise to the distribution; (ii) aggregate invested capital in all previously realized investments; (iii) aggregate write-downs, if any, for unrealized investments, (iv) management fees and partnership expenses paid prior to such distributions that are allocable to all realized investments in which such limited partner participated, and (v) a priority return of 8% on each of the foregoing compounded annually for the period of the investment. Remaining current income and net proceeds will then be distributed 100% to the General Partner until the General Partner has received as a catch up adjustment an amount equal to 20% of the amount distributed to such limited partner as a priority return referred to above and 20% of the amount distributed per this provision. Thereafter, current income and net proceeds will be distributed 80% to such limited partners and 20% to the General Partner (profit override also referred to as carried interest).

Since inception the Partnerships' allocation of profit override to the General Partner representing both its unrealized and realized profit override was approximately \$224.3 million as of December 31, 2008. As of December 31, 2008, the General Partner has realized \$220.5 million in distributions of its allocated profit override. Future losses in the value of the Partnerships' investments may require a reduction in the allocation of profit override to the General Partner and upon liquidation of the Partnerships, the General Partner would be obligated to contribute to the Partnerships the amount, if any, by which cumulative profit override distributions received exceed its cumulative allocable profit override. The General Partner would be required to establish a reserve for potential clawbacks if the General Partner determined that the likelihood of a clawback is probable and the amount of the clawback can be reasonably estimated. As of December 31, 2008, the General Partner has not reserved for any clawback obligations.

Cash distributions of net proceeds from dispositions of investments will be made as soon as practicable after their receipt by the Partnership. Other cash receipts of the Partnership shall be distributed at least annually or more frequently if deemed appropriate by the General Partner. Distributions in-kind will be made at the discretion of the General Partner.

Table of Contents

During 2008, 2007, and 2006 the Partnerships made cash and stock distributions to its partners of \$154.4 million (including \$90.3 million of in-kind distributions of CCI and \$42.4 million of in-kind distributions of HPY), \$614.0 million (including \$110.4 million of in-kind distributions of ETE), and \$612.7 million (including \$127.8 million of in-kind distributions of ETE), respectively. These distributions were comprised of portfolio company dividends, capital proceeds, realized gains, return of invested capital and other proceeds from refinancings.

Included in accrued expenses and other liabilities at December 31, 2008 is \$1.8 million related to foreign tax amounts withheld on behalf of certain limited partners.

Note 6 Capital Commitments

Each partner admitted to one of the Partnerships committed a specific dollar amount (Capital Commitment) to be drawn down according to the terms of the partnership agreement applicable to such partner. Capital contributions by a partner for the purpose of acquiring partnership investments or payment of certain partnership expenses and management fees reduce such partner's remaining capital commitment.

On March 31, 2005, the General Partner terminated the commitment period for the Partnerships, except for (1) commitments made to invest prior to the termination of the commitment period, (2) an investment in convertible securities in connection with the exercise, exchange or conversion of those securities, or (3) follow-on investments made before March 31, 2007, as long as such investment amount does not exceed 15% of the aggregate Capital Commitment or the Available Capital Commitments of the partners.

At March 31, 2007, the Partnerships' capacity to drawdown capital expired and there have been no further draw-downs. As of March 31, 2007, two partners were in default of their capital call obligations including amounts related to interim financings and expenses in the amount of \$5.1 million. Such amounts are not reflected in contributed capital in the combined statements of changes in partners' capital. These partners continue to share pro rata in the investments made prior to their default, however do not participate in any subsequent investments.

Note 7 Borrowings and Credit Facility

In 2004, the Partnerships entered into a \$15 million Credit Facility (the Facility) with a commercial bank (the Bank) secured by interests in the Partnerships' capital call rights. The Facility and the Bank's security interest expired on January 31, 2007 and no amounts were outstanding under the facility at that time. The purpose of this Facility was to provide the Partnership with short-term revolver borrowings to fund portfolio company investments in advance of the receipt by the Partnerships of capital contributions from the partners. Interest on outstanding borrowings was based on LIBOR plus 125 basis points. There was no interest expense related to the Facility in 2007 and 2006.

In April 2006, GCP SPV1, LLC (the Borrower) amended the February 17, 2005 credit agreement, with Morgan Stanley Mortgage Capital, Inc., as administrative agent, and certain other lenders named therein. Under the terms of the amended credit agreement the Borrower borrowed \$155.6 million, secured by 9,727,464 shares of GSL common stock owned by it. In January 2007, the Partnerships applied cash received from both the previously announced CCI merger with GSL and the subsequent CCI share repurchase towards the repayment of the entire outstanding balance on the credit agreement borrowings of \$155.6 million (\$53.8 million of which was repaid in December 2006). As a result of the credit agreement repayment, the lender relinquished its security interest in the Partnerships' remaining shares of CCI. There was no interest expense related to the credit agreement borrowings for the year ended December 31, 2008, and interest expense related to the credit agreement borrowings was \$2.2 million (including \$1.6 million for the write-off of unamortized loan origination fees and \$0.3 million for the write-off of the interest rate cap arrangement (noted below)) and \$12.1 million (including \$1.3 million of amortization of loan origination fees) for the years ended December 31, 2007 and 2006, respectively. The Borrower entered into an interest rate cap

arrangement

S-15

Table of Contents

effective April 18, 2006 (which expired on September 28, 2007) with Morgan Stanley Capital Services, Inc and terminated early the existing interest rate cap arrangement dated February 17, 2005. Under the arrangement the interest rate for a notional amount of borrowings of \$155.6 million was capped at one month LIBOR of 5.5% (or 8.5% including the applicable spread of 300 basis points). During 2006, the Borrower received \$0.1 million in cap payments and received \$0.3 million in proceeds from the termination of the original interest rate cap arrangement in April 2006.

There were no borrowings outstanding under the facility and credit agreement during the year ended December 31, 2008, and the Partnerships weighted average amount of borrowings outstanding under the facility and credit agreement during the year ended December 31, 2007 was approximately \$5.3 million, with a related weighted average annualized rate of 8.2%.

Note 8 Related Party Transactions

The Manager, an affiliate of the General Partner, committed \$30.3 million to the Partnerships. At March 31, 2007, the Partnerships' capacity to drawdown capital expired and the General Partners' Available Capital Commitment is zero. The Manager has an interest of approximately 12% in all investments made on or after February 1, 2004 and approximately 4% in all investments made prior to February 1, 2004. The carrying value of the Manager's investment in the Partnerships including profit override was approximately \$8.0 million and \$25.0 million at December 31, 2008 and 2007, respectively.

The Manager provides day-to-day managerial and administrative services to the Partnerships. Under the terms of their respective limited partnership agreements, the Delaware Fund, the Off-Shore Fund and the Executive Fund each pay a management fee for services rendered by the Manager in an amount equal to the aggregate management fees payable by all limited partners. During the commitment period, which was terminated on March 31, 2005, each limited partner (excluding the General Partner and the Employee Fund) paid an amount based upon a specified percentage ranging from 1% to 1.5% per annum of such partner's capital commitment. Subsequent to March 31, 2005 (termination of the commitment period), the management fee is 1% of such partner's aggregate Invested Capital, as defined in each limited partnership agreement. The management fee is payable semi-annually in advance. Management fees paid by the Partnerships to the Manager for the years ended December 31, 2008, 2007, and 2006 were \$0.4 million, \$0.9 million, and \$1.3 million, respectively.

The Manager shall pay all General Partner Expenses. General Partner Expenses include:

- (i) all compensation and employee benefit expenses of employees of the General Partner and related overhead (including rent, utilities, and other similar items) resulting from the activities of such employees on behalf of the Partnerships;
- (ii) all Partnership Organizational Expenses in excess of \$2.0 million in the aggregate for the Partnerships; and
- (iii) all Placement Fees payable by the Partnerships, the General Partner or the Manager in connection with the offering of limited partnership interests in the Partnerships.

The Partnerships will incur all other Partnership Expenses and Partnership Administrative Expenses (collectively, Partnership Expenses). The allocation of such Partnership Expenses will be made on a pro rata basis based on committed capital, unless any such expense is solely or disproportionately attributable to any single Partnership, in which case the Manager may allocate such expense differently. The Manager pays the Partnership Expenses on behalf of the Partnerships, for which the Manager is reimbursed on regular intervals. At December 31, 2008 the Partnerships owed \$0.1 million to the Manager for the reimbursement of such expenses. At December 31, 2007, the Partnership

owed no amounts to the Manager.

Affiliates of the General Partner may provide investment-banking services to certain portfolio companies from time to time. These fees are not subject to management fee offset.

S-16

Table of Contents

The Partnerships shall distribute to the General Partner, and the General Partner or its affiliates may retain, all break-up fees, commitment fees and other Transaction Fees, as defined in each limited partnership agreement. Eighty percent of each Partnership's proportionate share of the amount of any such Transaction Fees received by the General Partner or its affiliates shall be credited ratably to reduce the management fees payable by the limited partners of such Partnerships. Management fee reductions for 2008 and 2007 were \$0.1 million and \$0.2 million, respectively.

Note 9 Investment Portfolio

As of December 31, 2008 and 2007 the portfolio of investments by type of security are as follows:

Type of Security	2008		2007	
	Estimated Fair Value	% of Partners Capital	Estimated Fair Value	% of Partners Capital
Preferred Stock	\$ 7,238,284	10.6%	\$ 7,424,002	2.6%
Common Stock	32,885,979	48.1%	228,025,620	81.7%
LP Equity Units and Capital				
Sharing Interests	15,845,984	23.1%	24,155,074	8.7%
Promissory Note and Bridge Loan		0.0%	4,285,714	1.6%
Total	\$ 55,970,247	81.8%	\$ 263,890,411	94.6%

As of December 31, 2007 and 2006 the portfolio of investments by geographic location are as follows:

Geographic Location	2008		2007	
	Estimated Fair Value	% of Partners Capital	Estimated Fair Value	% of Partners Capital
North America	\$ 55,731,963	81.5%	\$ 263,190,411	94.3%
Europe	238,284	0.3%	700,000	0.3%

S-17

Table of Contents**Note 11 Market and Other Risk Factors**

The Partnerships' portfolio investments were comprised primarily of companies which operate in the energy, financial services and telecommunications industries. Multiple market risk factors exist which could cause the Partnerships to lose some or all of their invested capital. These risks include:

General economic risk – the Partnerships' portfolio investments can be impacted by changes caused by global and domestic market conditions, including energy, financial services and telecommunications industry specific economic conditions.

Changes in the market for public offerings could also have an effect on the Partnership and their ability to realize their investment objectives. In addition, the portfolio is subject to equity price risk and other market risk.

Concentration risk – The Partnerships invested in securities in a limited number of companies, primarily within the energy, financial services and telecommunications business sectors and these investments may not be a balanced or fully diversified portfolio.

Investee risk – Partnership investees may include smaller entrepreneurial companies which may have limited business histories, product or service lines, markets, financial resources and management depth. Such companies also may not have achieved profitable operations or positive cash flows.

Liquidity risk – the Partnerships' portfolio of investments includes illiquid, non-publicly traded securities and restricted publicly traded securities. Accordingly, there is the risk that the Partnerships may not be able to realize their investment objectives by sale or other disposition of portfolio investments at prices reflective of the Partnerships' current carrying value. As a result, the Partnerships may sustain losses with respect to some or all of their investments.

Contractual Obligations – The Partnerships enter into contracts that contain a variety of indemnity obligations. The Partnerships' maximum exposure under these arrangements is unknown. However, the Partnerships have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Note 12 Financial Highlights

The following financial highlights are being presented as required for non-registered investment companies:

	Years Ended December 31,		
	2008	2007	2006
Ratios to average limited partners' capital:			
Expenses	0.55%	0.66%	1.71%
Profit override allocation	(8.36)%	3.28%	10.42%
Total expenses and profit override allocation	(7.81)%	3.94%	12.13%
Net investment income	0.10%	1.11%	2.21%
Ratio of expenses to total committed capital	0.15%	0.82%	3.36%
Ratio of contributed capital to total committed capital	99.55%	99.55%	98.13%

Table of Contents

The net internal rate of return, since inception of the Partnerships through December 31, 2006 was 46.14%, 44.57% through December 31, 2007, and 43.62% through December 31, 2008. The net internal rate of return, since inception of the Partnerships, is net of allocations (including profit override) to the General Partner, and was computed based on the actual dates of capital contributions and distributions, and the aggregate net assets at the end of the period of the limited partners' capital as of each measurement date. Ratios are calculated for the limited partners taken as a whole. An individual limited partners ratios may vary depending on the Partnership with which they are invested due to differing management fee arrangements, profit override allocations and the timing of capital transactions.

The net investment income ratio, as defined, excludes realized and unrealized gains (losses). The ratio of contributed capital to total committed capital includes the General Partner.

Report of Independent Registered Public Accounting Firm

To the Partners of Greenhill Capital Partners Private Equity Fund II:

We have audited the accompanying combined statement of assets, liabilities and partners' capital of Greenhill Capital Partners Private Equity Fund II (comprised of Greenhill Capital Partners II, L.P., Greenhill Capital Partners (Cayman) II, L.P., Greenhill Capital Partners (Executives) II, L.P. and Greenhill Capital Partners (Employees) II, L.P.) (the Partnerships), including the combined schedule of investments, as of December 31, 2008 and 2007, and the related combined statements of operations, changes in partners' capital, and cash flows for each of the three years ended in the period ended December 31, 2008. These combined financial statements are the responsibility of the Partnerships General Partner. Our responsibility is to express an opinion on these combined financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free of material misstatement. We were not engaged to perform an audit of the Partnerships' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Partnerships' internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the General Partner, as well as evaluating the overall combined financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of Greenhill Capital Partners Private Equity Fund II at December 31, 2008 and 2007, and the results of its operations, changes in its partners' capital and its cash flows for each of the three years in the period ended December 31, 2008, in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic combined financial statements taken as a whole. The accompanying supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic combined financial statements. Such additional information has been subjected to the auditing procedures applied in the audit of the basic combined financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic combined financial statements taken as a whole.

Greenhill Capital Partners Private Equity Fund II

Notes to the Combined Financial Statements

Note 1 Organization and Basis of Presentation

Greenhill Capital Partners II, L.P. (the Delaware Partnership II) was formed as a Delaware limited partnership on January 13, 2005 and commenced operations on March 31, 2005. The primary business objective of the partnership is to achieve superior medium to long-term capital growth principally through a diversified portfolio of private equity and equity related investments.

The combined financial statements include the accounts of the Delaware Partnership II, Greenhill Capital Partners (Cayman) II, L.P. (the Off-Shore Partnership II), Greenhill Capital Partners (Executives) II, L.P. (the Executive Partnership II), and Greenhill Capital Partners (Employees) II, L.P. (the Employee Partnership II). The Delaware Partnership II, the Off-Shore Partnership II, the Executive Partnership II and the Employee Partnership II are collectively referred to as Greenhill Capital Partners Private Equity Fund II or the Partnerships and have ownership interests representing 51.3%, 20.2%, 3.5% and 25.0% respectively, of the combined net assets shown on the combined financial statements at December 31, 2008. Such ownership interests may vary due to differing management fee arrangements and profit override allocations. The Partnerships will generally purchase an interest in each portfolio company on a pro-rata basis based on their respective ownership interests and on equivalent economic terms. The Off-Shore Partnership II, the Executive Partnership II and the Employee Partnership II were organized as limited partnerships with substantially the same terms as the Delaware Partnership II and are also under the common management of the General Partner.

The managing general partner of the Partnerships is GCP Managing Partner II, L.P. (the General Partner) and is responsible for managing the Partnerships' investments. The General Partner is subject to removal by a simple majority of unaffiliated third-party investors of the Partnership.

The Partnerships will terminate on March 31, 2015, unless extended at the option of the General Partner for up to two additional successive one-year terms following the expiration of such initial term.

The combined financial statements are prepared in conformity with U.S. generally accepted accounting principles and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the combined financial statements and the reported amounts of revenues and expenses during the reporting period. Investments are stated at estimated fair value, and any unrealized appreciation or depreciation is included in combined statement of operations. Actual results could differ from those estimates.

Capitalized terms used but not defined herein shall have the meaning assigned to them in the respective Partnership Agreements.

Note 2 Summary of Significant Accounting Policies

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and money market funds. Cash and cash equivalents are stated at cost, which approximates fair value. The Partnerships' practice is to invest cash with financial institutions and lenders that have acceptable credit ratings and to limit the amount of credit exposure to any one financial institution or lender. All highly liquid investments with a maturity of less than ninety days at the time of purchase are considered to be cash equivalents.

Market/Credit Risks

The Partnerships maintain their cash and cash equivalents with financial institutions with high credit ratings. At times, the Partnerships may maintain deposits in federally insured financial institutions in excess of federally insured (FDIC) limits. However, the Manager believes that the Partnerships

S-31

Table of Contents

are not exposed to significant credit risk due to the financial position of the depository institution in which those deposits are held.

Investment Income

Investment income is comprised of interest and dividend income. Interest income on cash and cash equivalents is recognized when earned. Interest income on debt securities of portfolio companies is recognized on the accrual basis, unless collectibility is uncertain. Dividends on publicly traded securities are recorded on the ex-dividend date.

Income Taxes

Since the Partnerships are not subject to income taxes, there is no provision for income taxes in the combined financial statements. The partners include their allocable share of partnership income and loss in their respective tax returns.

In June 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 clarifies the accounting on how uncertain income tax positions are recognized, measured, presented and disclosed in the combined financial statements in accordance with FASB No. 109, Accounting for Income Taxes (SFAS 109). FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Partnership s tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. In May 2007, the FASB issued Staff Position FIN 48-1, Definition of Settlement in FASB Interpretation No. 48 (FSP FIN 48-1), which provides guidance on how an enterprise should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. FSP FIN 48-1 is effective with the initial adoption of FIN 48. FIN 48 was initially effective for fiscal years beginning after December 15, 2006 and is applied to all open tax years as of the effective date. On December 30, 2008, the FASB issued FSP FIN 48-3, Effective Date of FASB Interpretation No. 48 for Certain Nonpublic Enterprises, which provided additional deferral of FIN 48 for certain non public entities until annual statements for the fiscal years beginning after December 15, 2008. The Partnerships have elected to defer the adoption of FIN 48 pursuant to this FSP. As of December 31, 2008, the Partnerships are evaluating the implications of FIN 48 and its impact on the financial statements has not yet been determined.

Investment Valuations

Investments consist primarily of preferred and common equity interests and partnership interests in publicly and non-publicly traded companies. Investments held by the Partnerships are recorded at estimated fair value as determined by the General Partner. The fair value of investments in privately held companies are estimated by the General Partner after giving consideration to the cost of the security, the pricing of other sales of securities by the portfolio company, the price of securities of other companies comparable to the portfolio company, purchase multiples paid in other comparable third-party transactions, the original purchase price multiple, market conditions, liquidity, operating results and other qualitative and quantitative factors. Discounts are generally applied to the Partnerships privately held investments to reflect the lack of liquidity and other transfer restrictions. Because of the inherent uncertainty of valuations as well as the discounts applied, the estimated fair values of investment in privately held companies may differ significantly from the values that would have been used had a ready market for the securities existed. Investments in publicly traded securities are valued using quoted market prices discounted for any legal or contractual restrictions on sale. The values at which the investments are carried are adjusted to estimated fair value at the end of each quarter and volatility in general economic conditions, stock markets and commodity prices may result in significant changes in the estimated fair value of the investments. Investment transactions are accounted for on a trade date basis. When investments are sold or distributed, the gain or loss is classified as realized.

Table of Contents

Unrealized appreciation or depreciation resulting from changes in fair value of investments (including reversals of unrealized gains or losses when investments are sold or distributed) is included in the combined statement of operations.

The Partnerships adopted SFAS No. 157 (SFAS 157), *Fair Value Measurements* , on January 1, 2008. SFAS 157 defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three broad levels of fair value hierarchy defined by SFAS 157 are as follows:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets are available for identical assets or liabilities as of the reported date.

Level 2 Quoted prices in markets that are not active, or pricing inputs that are either directly or indirectly observable, are available as of the reported date.

Level 3 Prices or valuation techniques that are both significant to the fair value measurement and unobservable as of the reported date. These financial instruments do not have two-way markets and are measured using management's best estimate of fair value, where the inputs into the determination of fair value require significant management judgment or estimation.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In determining the appropriate levels, the Company performs a detailed analysis of the assets and liabilities that are subject to SFAS 157. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs or instruments which trade infrequently and therefore have little or no price transparency are classified as Level 3.

The following table summarizes the valuation of our investments by the above SFAS 157 pricing observability levels as of December 31, 2008:

Fair Value Measurements at Reporting Date Using:

Use of Estimates

The combined financial statements include estimates and assumptions made by the General Partner that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

S-33

Table of Contents**Note 3 Investments*****Purchases***

During 2008, the Partnerships made an investment of \$75.0 million in BreitBurn Energy Holdings LLC (BreitBurn). In addition, the Partnerships completed follow-on investments of \$7.0 million in Stroz Friedberg Inc. (Stroz), \$4.8 million in Augustus Energy Partners, LLC (Augustus), and \$20.9 million in Coronado Resources LLC (Coronado).

During 2007, the Partnerships made investments of \$75.0 million in Exco Resources, Inc. (Exco), \$37.0 million in Trans-Fast Remittance LLC (Trans-Fast), and \$60.9 million in FCC Holdings, Inc. (FCC). Additionally, the Partnerships completed follow-on investments of \$9.0 million in Coronado, \$1.9 million in First Equity Card Corp (FECC), and \$1.6 million in Augustus.

During 2006, the Partnerships completed new investments of \$70.0 million in Crusader Energy Group (Crusader) (formerly, Knight Energy Group, LLC), \$0.6 million in Augustus, \$14.3 million in FECC, \$45.0 million in Ironshore Inc. (Ironshore), \$30.0 million in Stroz and \$25.0 million in Paris Re Holdings Limited (Paris Re). Additionally, the Partnerships made follow-on investments of \$14.1 million in Genesis Gas & Oil LLC (Genesis), \$5.5 million in Pearl Exploration and Production Ltd. (Pearl), (formerly, Watch Resources Ltd.) and \$2.3 million in Coronado.

Changes in Unrealized Investment Valuations

During 2008, the Partnerships recorded an unrealized gain due to the change in the fair value of securities during the year of \$7.1 million in Validus Holdings, Ltd. (Validus). The Partnerships also recorded unrealized gains of \$17.0 million in Stroz, \$3.8 million in Healthcare Finance Group, Inc. (HFG), and \$3.0 million in Ironshore, due to the write-up of the value of the investment.

During 2008, the Partnerships recorded unrealized losses due to the change in the fair value of securities of \$6.3 million in Pearl, \$5.3 million in Paris Re, \$25.5 million in Crusader, and \$39.2 million in Exco. The Partnerships also recorded unrealized losses of \$16.1 million in FECC, \$20.7 million in Trans-Fast, \$9.7 million in Coronado, \$1.7 million in Harbor Point Limited (Harbor Point) and \$2.1 million in Augustus, due to the write-down of the value of the investments.

During 2007, the Partnerships recorded unrealized gains due to the change in the fair value of the remaining securities during the year of \$15.1 million in Validus and \$30.0 million in Stroz. The Partnerships recorded unrealized losses of \$7.9 million in Pearl and \$1.7 million in Paris Re. The Partnerships also reversed previously recognized net unrealized gains from various investments of \$12.2 million.

During 2006, the Partnerships recorded an unrealized gain of \$7.1 million in Crown Castle International Corp. (CCI) (formerly, Global Signal, Inc. (GSL)) and \$1.8 million in Pearl, due to the change in the fair value of the investment during the period. In addition, the Partnerships recorded an unrealized loss of \$8.5 million in CLK Energy Partners, LLC (CLK) related to the write-down of the investment.

Realizations and other Distributions

During 2008, the Partnerships received dividend distributions of \$2.1 million from Validus, \$3.0 million from Exco, \$2.3 million from Harbor Point, \$1.6 million from Stroz, and \$3.6 million from Paris Re. In addition, the Partnerships received interest income of \$0.1 million from BreitBurn.

During 2007, the Partnerships received proceeds of \$16.1 million from the CCI merger with GSL (\$8.6 million recorded as realized gain and \$7.5 million recorded as a return of capital), \$14.0 million through a registered secondary offering of CCI shares (\$7.0 million recorded as realized gain and \$7.0 million recorded as a return of capital), and \$15.9 million from the block trade of CCI (\$10.4 million recorded as realized gain and \$5.5 million recorded as a return of capital). The Partnerships also received proceeds of \$2.7 million from a partial sale of its shareholdings in the initial public offering of

S-34

Table of Contents

Paris Re (\$0.6 million recorded as realized gain and \$2.1 million recorded as return of capital). The partnerships recorded a realized loss of \$7.0 million in CLK related to the write-off of the investment. In addition, the partnerships recorded proceeds of \$10.7 million from the sale of their membership interests in Genesis (\$12.4 million recorded as realized loss and \$10.9 million recorded as return of capital). Included in due from affiliates is \$0.2 million of additional proceeds withheld for US income tax withholding, which was received in February of 2009.

During 2007, the Partnerships received dividend distributions of \$1.5 million from Harbor Point, (recorded as dividend income) and \$4.6 million from Exco (recorded as dividend income).

During 2006, the Partnerships received distributions from CCI of \$1.6 million (recorded as dividend income).

Note 4 Allocation of Profit and Loss

Each item of income, gain, loss deduction or expenses included in the determination of net income or loss is allocated among each of the partners in a manner consistent with the corresponding method of distribution for each partner.

Note 5 Distributions

Distributions will be made to each partner in accordance with their respective partnership agreement. In general, a limited partner's share of current income from dividends and interest (net of expenses) and net proceeds attributable to the disposition of investments by the partnership will be distributed first, 100% to such limited partner until such limited partner has received on a cumulative basis distributions equal to such limited partner's share of the sum of (i) invested capital in the investment giving rise to the distribution; (ii) aggregate invested capital in all previously realized investments; (iii) aggregate write-downs, if any, for unrealized investments, (iv) management fees and partnership expenses paid prior to such distributions that are allocable to all realized investments in which such limited partner participated, and (v) a priority return of 8% on each of the foregoing compounded annually for the period of the investment. Remaining current income and net proceeds will then be distributed 100% to the General Partner until the General Partner has received as a catch up adjustment an amount equal to 20% of the amount distributed to such limited partner as a priority return referred to above and 20% of the amount distributed per this provision. Thereafter, current income and net proceeds will be distributed 80% to such limited partners and 20% to the General Partner (profit override generally referred to as carried interest)

The General Partner has not received from the Partnerships an allocation of unrealized or realized profit override as of December 31, 2008. In the event that the General Partner had been allocated profit override, future losses in the value of the Partnerships' investments may require a reduction in such allocation of profit override to the General Partner and upon liquidation of the Partnerships, the General Partner would be obligated to contribute to the Partnerships the amount, if any, by which cumulative profit override distributions received exceed its cumulative allocable profit override.

Cash distributions of net proceeds from dispositions of investments will be made as soon as practicable after their receipt by the Partnerships. Other cash receipts of the Partnership shall be distributed at least annually or more frequently if deemed appropriate by the General Partner.

During 2008, 2007 and 2006, the Partnerships made distributions to its partners of \$23.0 million, \$41.7 million, and \$14.9 million, respectively. These distributions were comprised of portfolio company dividends and return of invested capital.

Note 6 Capital Commitments

Each partner admitted to one of the Partnerships committed a specific dollar amount (Capital Commitment) to be drawn down according to the terms of the partnership agreement applicable to

S-35

Table of Contents

such partner. Capital contributions by a partner for the purpose of acquiring partnership investments or payment of certain partnership expenses and management fees reduce such partner's remaining capital commitment. However, amounts repaid to a partner as a return of capital in respect to management fees will be added back to such partner's remaining capital commitment.

In accordance with the terms of the partnership agreement, each partner will make Capital Contributions to fund investments through the end of the Commitment Period, which is generally the fifth anniversary of the last Closing Date of the Partnerships. The partners will also fund Capital Contributions post the termination of the Commitment Period for (1) commitments made to invest prior to the termination of the Commitment Period, (2) an investment in convertible securities in connection with the exercise, exchange or conversion of those securities, or (3) follow-on investments made by the end of two years from the termination of the Commitment Period, as long as such investment amount does not exceed 15% of the aggregate Capital Commitment or the Available Capital Commitments of the partners.

The partnerships have \$875 million in total aggregate capital commitments. At December 31, 2008, 2007, and 2006 the Partnerships had remaining outstanding aggregate capital commitments of \$175.9 million, \$307.1 million, and \$517.1 million from its partners, respectively.

Note 7 Credit Facility

The Partnerships have a \$100 million Credit Facility (the Facility) (amended to \$50 million, See Note 13) with a commercial bank (the Bank), subject to a borrowing base limitation. At December 31, 2008 the borrowing base exceeded the facility size and therefore there was no limitation on the borrowing amount. The purpose of the Facility is to provide the Partnerships with short-term revolver borrowings to fund portfolio company investments and certain other general purposes in advance of the receipt by the Partnerships of capital contributions from the partners. The Bank has a security interest in the Partnerships' capital call rights and the Bank could require the General Partner to make a subsequent capital call to meet the debt obligation if necessary. The Facility expires on January 28, 2009 (extended through January 27, 2011, See Note 13) and interest on outstanding borrowings is based on LIBOR plus 125 basis points (amended to 250 basis points, See Note 13). At December 31, 2008 there were no debt financing costs related to the Facility included in Other Assets and \$34,296 of debt financing costs included in Other Assets at December 31, 2007. Debt financing costs are amortized over the life of the Facility.

At December 31, 2008 there were no revolver borrowings outstanding and there were \$10.3 million of revolver borrowings outstanding at December 31, 2007. Additional amounts may be borrowed at any time to fund portfolio company investments and certain other general purposes. Interest expense related to the Facility was \$0.9 million (including \$0.1 million of amortization of the debt financing costs), \$1.1 million (including \$0.1 million of amortization of the debt financing costs), and \$1.2 million (including \$0.2 million of amortization of the debt financing costs) for the years ended December 31, 2008, 2007 and 2006, respectively.

In April 2006, the Partnerships transferred all of the shares of common stock of GSL owned by it to a new, wholly-owned subsidiary, GCP SPV2, LLC (the Borrower). The Borrower entered into a credit agreement at that time, with Morgan Stanley Mortgage Capital, Inc., as administrative agent, and certain other lenders named therein. Under the terms of the credit agreement the Borrower borrowed \$12.5 million, secured by 784,314 shares of GSL common stock owned by it. In January 2007, the Partnerships applied cash proceeds received at the time of the CCI merger with GSL and the subsequent CCI share repurchase towards the repayment of the entire outstanding balance on the credit agreement borrowings of \$12.5 million. As a result of the credit agreement repayment, the lender relinquished its security interest in the Partnerships' remaining shares of CCI. Interest expense related to the credit agreement borrowing was \$0.2 million (including \$0.1 million for the write-off of un-amortized loan origination fees) and \$0.8 million (including \$0.1 million of amortization of loan origination fees), for the years ended December 31,

2007 and 2006, respectively.

S-36

Table of Contents

The Partnerships weighted average amount of borrowings outstanding under the Facility and credit agreement during the year ended December 31, 2008, 2007 and 2006, was approximately \$19.1 million, \$16.6 million and \$24.4 million, respectively. The related weighted average annualized rate on the borrowings was 3.9%, 6.5%, 6.9% for the years ended December 31, 2008, 2007 and 2006, respectively.

Note 8 Related Party Transactions

Greenhill Capital Partners, LLC, (the Manager), the parent and an affiliate of the General Partner, committed approximately \$87.4 million, or 10.0% of committed capital, to the Partnerships of which \$17.6 million remains outstanding at December 31, 2008 to fund future investments through the end of the Commitment Period. In accordance with the terms of the partnership agreement, the Manager will also fund Capital Contributions post the termination of the Commitment Period for (1) commitments made to invest prior to the termination of the Commitment Period, (2) an investment in convertible securities in connection with the exercise, exchange or conversion of those securities, or (3) follow-on investments made by the end of two years from the termination of the Commitment Period, as long as such investment amount does not exceed 15% of the aggregate Capital Commitment or the Available Capital Commitments of all partners. Through its interest in the Partnerships, the Manager has an interest of approximately 10.1% in all investments. The carrying value of the Manager's investment in the Partnerships was approximately \$55.6 million and \$53.2 million at December 31, 2008 and 2007, respectively.

The Manager provides day-to-day managerial and administrative services to the Partnerships. Under the terms of their respective limited partnership agreements, the Delaware Partnership II, the Off-Shore Partnership II, the Executive Partnership II and the Employee Partnership II each pay a management fee for services rendered by the Manager in an amount equal to the aggregate management fees payable by all limited partners. The Managers' commitment through the General Partner is not subject to a management fee. During the commitment period, each limited partner pays an amount based upon 1.5% per annum of such partner's capital commitment. Subsequent to the commitment period, the management fee will be 1% of such partner's aggregate Invested Capital, as defined in each limited partnership agreement. The management fee is payable semi-annually in advance. A management fee of \$11.8 million was paid by the Partnerships to the Manager for each year ended December 31, 2008, 2007 and 2006.

The Manager shall pay all General Partner Expenses. General Partner Expenses include:

- (i) all compensation and employee benefit expenses of employees of the General Partner and related overhead (including rent, utilities, and other similar items) resulting from the activities of such employees on behalf of the Partnerships;
- (ii) all Partnership Organizational Expenses in excess of \$2.0 million in the aggregate for the Partnerships; and
- (iii) all Placement Fees payable by the Partnerships, the General Partner or the Manager in connection with the offering of limited partnership interests in the Partnerships.

The Partnerships will incur all other Partnership Expenses and Partnership Administrative Expenses (collectively, Partnership Expenses). The allocation of such Partnership Expenses will be made on a pro rata basis based on committed capital, unless any such expense is solely or disproportionately attributable to any single Partnership, in which case the Manager may allocate such expense differently. The Manager pays the Partnership Expenses on behalf of the Partnerships, for which the Manager is reimbursed on regular intervals. At December 31, 2008 and 2007 the Partnerships owe approximately \$0.1 million and \$0.1 million, respectively to the Manager for reimbursement of such expenses.

Affiliates of the General Partner may provide investment-banking services to certain portfolio companies from time to time. These fees are not subject to management fee offset.

S-37

Table of Contents

The Partnerships shall distribute to the General Partner, and the General Partner or its affiliates may retain, all break-up fees, commitment fees and other Transaction Fees, as defined in each limited partnership agreement. Eighty percent of each Partnerships proportionate share of the amount of any such Transaction Fees received by the General Partner or its affiliates shall be credited ratably to reduce the management fees payable by the limited partners of such Partnerships. For the year ended December 31, 2008, the portfolio companies paid \$2.0 million in transaction fees to the Manager, of which eighty percent will reduce the management fees payable by the limited partners of such Partnerships for the first six months of 2009.

Note 9 Investment Portfolio

As of December 31, 2008 and 2007 the portfolio of investments by type of security is as follows:

Type of Security	2008		2007	
	Estimated Fair Value	% of Partners Capital	Estimated Fair Value	% of Partners Capital
Common Stock	\$ 302,864,529	56.9%	\$ 225,991,340	43.5%
LP Equity Units and Capital Sharing Interests	121,300,001	22.8%	122,964,350	23.6%
Participating Preferred Stock	104,013,807	19.5%	167,206,720	32.1%
Total	\$ 528,178,337	99.2%	\$ 516,162,410	99.2%

As of December 31, 2008 and 2007 the portfolio of investments by geographic location is as follows:

Geographic Location	2008		2007	
	Estimated Fair Value	% of Partners Capital	Estimated Fair Value	% of Partners Capital
North America	\$ 528,178,337	99.2%	\$ 516,162,410	99.2%
Other		0.0%		0.0%
Total	\$ 528,178,337	99.2%	\$ 516,162,410	99.2%

Table of Contents**Note 10 Partners Capital**

As of December 31, 2008, 2007 and 2006, the capital balance of each Partnership is as follows (in millions):

	Delaware	Off-Shore	Executive	Employee	Total
Committed capital	\$ 450.3	\$ 176.5	\$ 31.1	\$ 217.1	\$ 875.0

Note 11 Market and Other Risk Factors

The Partnerships portfolio investments were comprised primarily of companies which operate in the energy, financial services, and certain other industry specific business sectors. Multiple market risk factors exist which could cause the Partnerships to lose some or all of their invested capital. These risks include:

General economic risk the Partnerships portfolio investments can be impacted by changes caused by global and domestic market conditions, including energy, financial services, and certain other industry specific business sectors economic conditions.

Changes in the market for public offerings could also have an effect on the Partnership and their ability to realize their investment objectives. In addition, the portfolio is subject to equity price risk and other market risk.

Concentration risk The Partnerships invested in transactions in a limited number of companies, primarily within the energy, financial services, and certain other industry specific business sectors and these investments may not be a balanced or fully diversified portfolio.

Investee risk Partnership investees may include smaller entrepreneurial companies which may have limited business histories, product or service lines, markets, financial resources and management depth. Such companies also may not

have achieved profitable operations or positive cash flows.

Liquidity risk the Partnerships portfolio of investments includes illiquid, non-publicly traded securities and restricted publicly traded securities. Accordingly, there is the risk that the Partnerships may not be able to realize their investment objectives by sale or other disposition of portfolio investments at prices reflective of the Partnerships current carrying value. As a result, the Partnerships may sustain losses with respect to some or all of their investments.

Contractual Obligations The Partnerships enter into contracts that contain a variety of indemnity obligations. The Partnerships maximum exposure under these arrangements is unknown. However, the

Table of Contents

Partnerships have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Note 12 Financial Highlights

The following financial highlights are being presented as required for non-registered investment companies:

	Years Ended December 31,		
	2008	2007	2006
Ratios to average limited partners capital:			
Expenses	2.50%	3.23%	9.63%
Profit override allocation	0.00%	0.00%	0.00%
Total expenses and profit override allocation	2.50%	3.23%	9.63%
Net investment loss	0.33%	1.87%	8.63%
Ratio of expenses to total committed capital	1.70%	1.71%	1.96%
Ratio of contributed capital to total committed capital	79.68%	64.67%	40.90%

The net internal rate of return since inception of the Partnerships through December 31, 2006 was (6.7)%, 1.1% through December 31, 2007, and (7.7)% through December 31, 2008. The net internal rate of return, since inception of the Partnerships, is net of allocations (including profit override if applicable) to the General Partner, and was computed based on the actual dates of capital contributions and distributions and the aggregate net assets at the end of the period of the limited partners capital as of each measurement date. Ratios are calculated for the limited partners taken as a whole. An individual limited partners ratios may vary depending on the Partnership with which they are invested due to differing management fee arrangements, profit override allocations and the timing of capital transactions.

The net investment loss ratio, as defined, excludes realized and unrealized gains (losses). The ratio of contributed capital to total committed capital includes the General Partner.

Note 13 Subsequent Events

On January 28, 2009, the Partnerships amended their existing Facility from \$100 million (See Note 7) to \$50 million. The amended facility expires on January 27, 2010 and interest on outstanding borrowings is based on LIBOR plus 250 basis points. In addition, for the duration of the Facility the Partnerships pay a 35 basis points per annum charge on the average unutilized portion of the facility and the Partnerships paid \$0.2 million in debt financing costs that will be amortized over the life of the Facility.
