**THE GABELLI HEALTHCARE & WELLNESS<sup>Rx</sup> TRUST  
NOTES TO SCHEDULE OF INVESTMENTS (Unaudited)**

**1. Security Valuation.** Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Trustees (the Board) so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by Gabelli Funds, LLC, the Adviser.

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market but prior to the close of business on the day the securities are being valued. Debt instruments with remaining maturities of 60 days or less that are not credit impaired are valued at amortized cost, unless the Board determines such amount does not reflect the securities' fair value, in which case these securities will be fair valued as determined by the Board. Debt instruments having a maturity greater than 60 days for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded.

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Statement of Financial Accounting Standard No. 157, Fair Value Measurements (SFAS 157) clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosures about the use of fair value measurements. The three levels of the fair value hierarchy under SFAS 157 are described below:

Level 1 quoted prices in active markets for identical securities;

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and

Level 3 significant unobservable inputs (including the Fund's determinations as to the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The summary of the Fund's investments by inputs used to value the Fund's investments as of March 31, 2009 is as follows:

<b>Valuation Inputs</b>	<b>Investments in Securities (Market Value)</b>
	<b>Assets</b>
Level 1 Quoted Prices	\$ 43,512,444
Level 2 Other Significant Observable Inputs	6,152,888
Level 3 Significant Unobservable Inputs	349,548
<b>Total</b>	<b>\$ 50,014,880</b>

**THE GABELLI HEALTHCARE & WELLNESS<sup>Rx</sup> TRUST**  
**NOTES TO SCHEDULE OF INVESTMENTS (Continued) (Unaudited)**

The following is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	<b>Investments in Securities (Market Value)</b>
<b>Balance as of 12/31/08</b>	
Accrued discounts/(premiums)	
Realized gain/(loss)	
Change in unrealized appreciation/(depreciation)	
Net purchase/(sales)	
Transfers in and/or out of Level 3	\$ 349,548
 <b>Balance as of 03/31/09</b>	 \$ 349,548
 Net change in unrealized appreciation/(depreciation) during the period on Level 3 investments held at 03/31/09	 \$ 142,237

Statement of Financial Accounting Standard No. 161, "Disclosures about Derivative Instruments and Hedging Activities" clarifies the financial reporting for derivative instruments by requiring enhanced disclosure that enables investors to understand how and why an entity uses derivatives, how derivatives are accounted for, and how derivative instruments affect an entity's results of operations and financial position. As of March 31, 2009, the Fund did not hold any derivative instruments.

**2. Tax Information.** At December 31, 2008, the Fund had net capital loss carryforwards for federal income tax purposes of \$1,540,875 which are available to reduce future required distributions of net capital gains to shareholders through 2016.
