REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Motorola, Inc.

401(k) Plan Committee

Schaumburg, Illinois

We have audited the accompanying statements of net assets available for benefits of the Motorola 401(k) Plan (the Plan) as of December 31, 2008 and 2007, and the related statement of changes in net assets available for benefits for the year ended December 31, 2008. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008 and 2007, and the changes in net assets available for benefits for the year ended December 31, 2008 in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of expressing an opinion on the basic financial statements taken as a whole.

The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2008 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2008 financial statements taken as a whole.

MOTOROLA 401(k) PLAN
Notes to Financial Statements
December 31, 2008 and 2007

(1) Description of Plan

The following description of the Motorola 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan sponsored by Motorola, Inc. and certain subsidiaries (the Company) covering substantially all domestic employees. Employees become eligible to contribute to the Plan immediately upon employment. Pension-eligible participants (defined below) are eligible to receive Company contributions to their account on the first of the month following their first (or a subsequent) employment anniversary, after they have completed an anniversary year in which they worked at least 1,000 hours. Non-pension eligible participants are eligible for Company contributions as soon as they begin making elective deferrals.

Effective October 1, 2002, the Plan was amended to convert a portion of the Plan to a stock bonus plan and non-leveraged employee stock ownership plan (ESOP). The ESOP portion of the Plan is designed to invest primarily in shares of the Company's common stock. The ESOP portion of the Plan is participant directed. Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Trustee prior to the time that such rights are to be exercised. Dividends paid on the Company's common stock are allocated to the participant's account and reinvested in Company common stock or paid directly to the participant at the election of the participant. Pass-through dividends amounted to \$137,526 in 2008.

(b) Contributions

Participants may elect to contribute up to 30% of their pre-tax compensation, up to the annual deferral limit set by the Internal Revenue Code (IRC). The annual deferral limit as set by the IRC was \$15,500 in 2008. The Plan also allows for participants age 50 and older to contribute additional tax-deferred contributions. These catch-up contributions were subject to IRS limits of \$5,000 in 2008.

The Company makes matching contributions to participants equal to \$0.50 for each dollar of participant deferrals up to 6% of pre-tax compensation, not to exceed 3% of pre-tax compensation for the period.

Effective January 1, 2005, the Company froze its defined benefit pension plan (Pension Plan) to new participants. As a result of freezing the Pension Plan, new employees of the Company will not be eligible to participate in the Pension Plan and will be designated as non-pension eligible. Non-pension eligible participants will receive a matching contribution equal to \$1.00 for each dollar of participant deferrals up to 3% of pre-tax compensation, and \$0.50 for each dollar of participant deferrals between 3% and 5% of pre-tax compensation. There is no change for pension-eligible participants.

MOTOROLA 401(k) PLAN
Notes to Financial Statements
December 31, 2008 and 2007

(1) Description of Plan (Continued)

(c) Participant Accounts

Each participant's account is credited with the participant's elective deferrals, and allocations of Company matching contributions, plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are fully vested in their elective deferrals and related earnings at all times. A participant will be 100% vested in employer contributions and earnings thereon after they have completed an anniversary year. However, the participant becomes 100% vested in their account balances upon reaching normal retirement age, total and permanent disability, death, or Plan termination.

Participants who terminated employment prior to July 1, 2000, but chose to leave their account balances in the Plan are subject to forfeit the unvested portion of employer contributions upon the earlier of their withdrawal from the Plan, or the five year anniversary of their employment termination. Terminated employees who have left their account balances in the Plan and are rehired by the Plan Sponsor within five years are not subject to forfeiture of their unvested employer contributions. The portion of employer contributions not vested upon termination of employment is forfeited and is used to offset Company contributions. For the year ended December 31, 2008, all forfeiture amounts of \$299,561 were used to offset Company contributions.

(e) Benefits

At the option of the participant, distributions from the Plan may be made in the form of: (a) a lump-sum distribution with the option of receiving shares of Motorola stock or cash, (b) annual distributions from the Plan (available only to retiring participants), or (c) combinations thereof. Participants hired after January 1, 1996 may not elect the Annuity or Annual Distribution options. Partial distributions (with a minimum of \$5,000) are made available to participants, with no more than one distribution in any three-month period. Participants are not required to cash out their entire benefits at age 70 (although this requirement applies to beneficiaries). Additionally, in-service withdrawals are extended to participants who have attained age 59-1/2 for pretax, post-tax, and rollover contributions. Hardship withdrawal of rollover contributions is permitted. Participants who terminate employment with the Company for any reason, and have a vested account balance of \$1,000 or less will have their account balance distributed in the form of a lump-sum distribution.

Participants who have attained the age of 70-1/2 and who are an employee of the Company may withdraw all or any portion of his/her account subject to IRS minimum distribution requirements. A participant may not take more than one withdrawal in any six-month period, and the minimum withdrawal shall be \$200.

Participants who are employees of the Company and who have made a rollover transfer into the Plan may withdraw all or any portion of their rollover transfer amounts at any time. A participant may not take more than one withdrawal in any six-month period, and the minimum withdrawal shall be \$200.

MOTOROLA 401(k) PLAN
Notes to Financial Statements
December 31, 2008 and 2007

(1) Description of Plan (Continued)

(f) Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 less their highest outstanding loan balance in the last 12 months or 50% of their vested account balance. Loan transactions are treated as a transfer to/from the investment fund to the Participant Loan Fund. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a reasonable interest rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Interest rates are based on the prime rate (published in the Wall Street Journal) plus 0.5% unless the plan administrator determines the interest rate is not reasonable. Prior to July 16, 2003, interest rates included a 0.3% loan insurance fee. Principal and interest is paid ratably through payroll deductions. A \$50 processing fee is charged for loans.

(g) Plan Termination

Although the Company has not expressed any intent to do so, it may terminate the Plan at any time. It has the right under the Plan to discontinue contributions at any time and terminate the Plan subject to the provisions of ERISA.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principals generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Adoption of New Accounting Standards

In September 2006, the FASB issued Statement No. 157, *Fair Market Measurements* (FAS 157). The Statement defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The standard is effective for financial statements issued for fiscal years beginning after November 15, 2007. In October 2008, the FASB issued Staff Position (FSP) 157-3, *Determining the Fair Value of a Financial Asset when the Market for That Asset Is Not Active*. This FSP clarifies the application of FAS 157 in a market that is not active. The impact of adoption of these standards as of January 1, 2008 was not material to the Plan's net assets available for benefits.

MOTOROLA 401(k) PLAN
Notes to Financial Statements
December 31, 2008 and 2007

(2) Summary of Significant Accounting Policies (Continued)

(d) Effect of Newly Issued But Not Yet Effective Accounting Standards

In April 2009, the FASB issued Staff Position (FSP) No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset and Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. This FSP emphasizes that even if there has been a significant decrease in the volume and level of activity, the objective of a fair value measurement remains the same. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants. The FSP provides a number of factors to consider when evaluating whether there has been a significant decrease in the volume and level of activity for an asset or liability in relation to normal market activity. In addition, when transactions or quoted prices are not considered orderly, adjustments to those prices based on the weight of available information may be needed to determine the appropriate fair value. The FSP also requires increased disclosures. This FSP is effective for annual reporting periods ending after June 15, 2009, and shall be applied prospectively. Plan management does not expect the adoption to have a material effect on the Plan's net assets available for benefits or changes therein.

(e) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

FAS 157 defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. FAS 157 establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

MOTOROLA 401(k) PLAN
Notes to Financial Statements
December 31, 2008 and 2007

(2) Summary of Significant Accounting Policies (Continued)

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used for investments of the Plan, including securities loaned and collateral for securities loaned.

The fair values of publicly traded common stocks are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Fair values of U.S. Treasury and agency securities are determined based on recent bid prices (level 2 inputs).

Corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings (level 2 inputs). When quoted prices are not available for identical or similar bonds, the bond is valued using matrix pricing, a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (level 2 inputs). Certain corporate bonds are valued using extrapolated data, proprietary models, and indicative quotes (level 3 inputs).

The fair values of investments in most common collective trusts are valued as determined by the custodian based on their net asset values and supported by the value of the underlying securities and by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (level 2 inputs). Short-term investments consist of a common collective trust with principal preservation as its primary objective.

Fair values of certificates of deposit are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (level 2 inputs).

Participant loans are reported at amortized cost. The fair value of participant loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

MOTOROLA 401(k) PLAN
Notes to Financial Statements
December 31, 2008 and 2007

(2) Summary of Significant Accounting Policies (Continued)

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2008 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments, excluding participant loans	\$147,748	\$4,143,453	\$ 224

The table below presents a reconciliation of Plan investments measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the year ended December 31, 2008, including the reporting classifications for the applicable gains and losses included in the statement of changes in the net assets available for benefits:

	Fair Value Measurements using Significant Unobservable Inputs (Level 3) (in thousands) Corporate bonds	
Beginning balance, January 1, 2008	\$	0
Total unrealized and unrealized gains or losses		0
Included in change in net assets available for benefits:		
Interest and dividend income		
Net realized and unrealized appreciation (depreciation)		(13)
Purchases, sales, issuances and settlements (net)		237
Transfers in and / or out of Level 3		
Ending balance, December 31, 2008	\$	224

(f) Administrative and Other Expenses

The expenses necessary to administer the Plan are paid out of Plan assets. Certain plan related expenses may be paid by the Company at its discretion.

(g) Payment of Benefits

Benefits are recorded when paid.

MOTOROLA 401(k) PLAN
Notes to Financial Statements
December 31, 2008 and 2007

(2) Summary of Significant Accounting Policies (Continued)

(h) Risk and Uncertainties

The Plan invests in various investment securities. These investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

(i) Reclassification

Certain amounts in the December 31, 2007 financial statements have been reclassified to conform to the December 31, 2008 presentation.

(3) Party-in-Interest Transactions

Certain Plan assets are invested in participant loans or investments managed by The Northern Trust Company, the custodian and trustee of the Plan, therefore, these transactions qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under section 408(b) of the ERISA regulations. The Plan paid certain administrative fees to the trustee, third-party administrator, and various investment managers which qualify as party-in-interest transactions.

At December 31, 2008 and 2007, the Plan had \$147,748,093 and \$383,338,516, respectively, invested in Company stock through a unitized investment fund managed by the trustee. The Plan held 33,351,714 and 23,898,910 shares of Company stock as of December 31, 2008 and 2007, respectively. The Plan also received dividend income on Company stock of \$5,238,640 for 2008.

(4) Investments

At December 31, 2008, the fair value of individual investments which exceeded 5% of net assets available for benefits are as follows (in thousands):

Northern Trust Common Collective Funds:	
S&P 500 Equity Index Fund	\$1,287,177
S&P Midcap 400 Equity Index Fund	384,907
EAFE Index Fund	566,283
Collective Daily Aggregate Bond Fund	883,359
Short Term Investment Fund	522,724

MOTOROLA 401(k) PLAN
Notes to Financial Statements
December 31, 2008 and 2007

(4) Investments (Continued)

At December 31, 2007, the fair value of individual investments which exceeded 5% of net assets available for benefits are as follows (in thousands):

Northern Trust Common Collective Funds:	
S&P 500 Equity Index Fund	\$2,035,103
S&P Midcap 400 Equity Index Fund	671,089
EAFE Index Fund	1,018,360
Collective Daily Aggregate Bond Fund	1,033,089

Motorola, Inc. Common Stock	383,338
-----------------------------	---------

During 2008, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows (in thousands):

U.S. Government and agencies securities	\$ 2,248
Corporate bonds and debentures	(14,985)
Motorola, Inc. common stock	(303,507)
Short-term and other investments	(1,137)
Investments in common/collective trusts	(1,478,597)
Net depreciation in fair value of investments	\$ (1,795,978)

(5) Securities Lending

The Plan has entered into securities lending transactions with broker/dealers for which fees are paid to the Plan. The securities are required to be 100% collateralized by cash, U.S. Government securities, or irrevocable bank letters of credit. The transferee may sell or re-pledge the securities loaned. Fees earned on securities lending activity are included in interest income. Either party may terminate the lending agreement at any time and the collateral shall be used for any failure to deliver borrowed securities.

MOTOROLA 401(k) PLAN
Notes to Financial Statements
December 31, 2008 and 2007

(5) Securities Lending (Continued)

Fair value of securities loaned by type of investment and corresponding collateral that pertain to the Plan's assets at December 31, 2008 were as follows (in thousands):

	Securities under lending agreements	Cash	Collateralized by Corporate and Government Bonds and Notes
U.S. Government and agency securities	\$ 63,042	\$	\$ 64,337
U.S. Equities	13,666		13,766
Corporate bonds and debentures	12,551		12,797
Total securities lending in Plan	\$ 89,259	\$	\$ 90,900

Fair value of securities loaned by type of investment and corresponding collateral that pertain to the Plan's assets at December 31, 2007 were as follows (in thousands):

	Securities under lending agreements	Cash	Collateralized by Corporate and Government Bonds and Notes
U.S. Government and agency securities	\$ 52,922	\$	\$ 53,960
Corporate bonds and debentures	6,056		6,207
Total securities lending in Plan	\$ 58,978	\$	\$ 60,167

Effective September 19, 2008, Northern Trust declared a collateral deficiency under its Securities Lending Authorization Agreement (Lending Agreements) with respect to five of its commingled cash collateral investment pools. As a consequence of the collateral deficiency and because participating clients of the collateral pool hold the risk of loss on the collateral, Northern Trust has allocated a portion of the collateral deficiency to each participating client, including the Plan, with the Plan's allocation being \$1,153,592.

On September 29, 2008, Northern Trust made a cash payment to the collateral pool which reduced the Plan's allocated portion of the collateral deficiency by approximately \$100,000. The deficiency as of December 31, 2008 was \$1,149,762. This is a liability of the Plan since the Plan has the obligation to repay the amount of the original collateral which is currently deficient by \$1,149,762. The total collateral obligation which is recorded as a liability on the Plan's financial statements, including the deficiency, is \$92,050,000.

MOTOROLA 401(k) PLAN
Notes to Financial Statements
December 31, 2008 and 2007

(5) Securities Lending (Continued)

The Plan has been informed by Northern Trust that there is no immediate repayment required from participating clients to fund the deficiency unless a client decides to exit the Lending Agreements. As of December 31, 2008, the Plan has not exited the Lending Agreements. The risk of realized loss to the Plan associated with this collateral deficiency is not determinable.

(6) Federal Income Taxes

The Plan has received a favorable determination letter dated November 21, 2002 from the Internal Revenue Service regarding the Plan's Federal income tax status. The Plan qualifies under the provisions of Section 401(a) of the Internal Revenue Code (IRC) of 1986, as amended. The trust is exempt from Federal income taxes pursuant to the provisions of Section 501(a) of the Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(7) Transfer of Assets Relating to Acquisitions and Separations

The following net assets were transferred in / (out) of the Plan during the plan year ended December 31, 2008 as a result of Company acquisitions and separations (in thousands):

Effective date	Acquisition/Separation	Amount Transferred in/(out)
January 18, 2008	Symbol Technologies	\$ 245,184
January 25, 2008	Emerson	(11,564)
Net transfers		\$ 233,620

(8) Legal Matters

In the ordinary course of business, Motorola is a defendant on behalf of the Plan in various lawsuits, including actions filed by former participants. The Plan Sponsor believes these legal proceedings will not have a material adverse effect on the Plan or the financial results of the Plan.

(9) Subsequent Events

On March 26, 2008, Motorola announced that it would split itself into two publicly traded companies. It is still uncertain as to when the split will occur or how it will impact the Plan.

Effective January 1, 2009, Company contributions to the Plan were suspended until a future decision is made by Motorola to provide for such contributions.
