Report of Independent Registered Public Accounting Firm

Trustees:

**Healthcare Services Group, Inc. Retirement Savings Plan**

We have audited the accompanying statement of net assets available for benefits of Healthcare Services Group, Inc. Retirement Plan (the Plan ) as of December 31, 2008 and 2007 and the related statement of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Healthcare Services Group, Inc. Retirement Plan as of December 31, 2008 and 2007 and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at the end of the year) is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Retirement Savings Plan  
**Notes To Financial Statements**  
December 31, 2008 and 2007

**Note A.-Description Of Plan**

The following description of the Healthcare Services Group, Inc. Retirement Savings Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General*

The Plan commenced October 1, 1999 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ( ERISA ). The Plan is a defined contribution plan covering all non-highly compensated salaried employees who have one year of service (1,000 hours) and have attained the age of twenty-one or older with the exception employees whose employment is governed by a collective bargaining agreement.

2. *Contributions*

Each year, participants may contribute up to 15% of their pretax annual compensation as defined in the Plan. There are no employer-matching contributions as defined in the Plan. A participant may elect to commence salary reductions as of the first day of the month coinciding with the date the employee satisfied the eligibility requirements.

An amendment has been made to the Plan that becomes effective January 1, 2009 that will allow the Plan to incorporate a qualified Roth contribution program. Under such a program, participants can elect to have all or a portion of their elective deferrals to be treated as Roth contributions. Unlike the regular deferrals, Roth contributions are included in the participant's current income; however, qualified distributions from a designated Roth account are not included in income. Employer matching contributions (if any) will be maintained in the same account as the regular 401(k) employer matching contributions.

Participants may also rollover to the plan amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various options offered by the Plan.

Contributions are subject to certain limitations.

3. *Participant Accounts*

Each participant's account is credited with the participant's contribution and allocations of Plan earnings. Allocations are determined by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Note A. (Continued)**

4. *Vesting*

Participants are vested immediately in their contributions plus actual earnings thereon.

5. *Administrative Expenses*

All administrative expenses were paid by the plan sponsor, Healthcare Services Group, Inc. (the Company).

6. *Benefit Payments*

On termination of service due to death or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or monthly, quarterly, semi-monthly or annual installments. No disability benefits, other than those payable upon termination of employment, are provided in the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

A Participant who has attained the age of 59 1/2 years may elect to receive a distribution of all or a portion of the vested amounts then credited to the Participant's account. The Participant will still continue to be eligible to participate in the Plan.

A Participant may elect to receive an advance distribution for hardship under certain conditions as defined in the Plan and as subject to the evaluation of the Plan Administrator based on whether certain conditions have been satisfied.

**Note B.-Summary of Accounting Policies**

A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows:

1. *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

**Note B. (Continued)**

2. *Income Recognition*

Purchases and sales of securities are recorded on a trade-date basis.

3. *Benefit Payments*

Participants' withdrawals are recorded when paid.

4. *Fair Value of Financial Instruments*

The Plan's financial instruments consist principally of cash and cash equivalents, and short-term and long-term marketable securities. The Plan's marketable securities consist of the common stock of the Company and mutual funds. The common stock is valued at the closing price reported on the NASDAQ market, the exchange on which the stock is actively traded. The mutual funds are valued at the net asset value (NAV) of shares held by the plan at year end. Pursuant to Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS No. 157), the fair value of the Plan's cash equivalents and marketable securities is determined based on Level 1 inputs, which consists of quoted prices in active markets for identical assets. Management of the Company believes recorded values of all of the financial instruments approximate their current fair values because of their nature and respective maturity dates or durations.

**Note E.-Party-In-Interest Transactions**

Certain Plan investments are shares of a money market fund managed by PNC. PNC is the trustee as defined by the Plan and, therefore, transactions involving these investments qualify as party-in-interest transactions. In addition, certain plan investments are shares of the common stock of the Company. Healthcare Services Group, Inc. is the Plan sponsor as defined by the Plan and, therefore, transactions involving stock of the Company qualify as party-in-interest transactions. The Plan held 8,378.32 and 7,569.27 shares of Healthcare Services Group, Inc. common stock with a quoted market value of \$133,467 and \$160,317 at December 31, 2008 and 2007, respectively.

**Note F.-Tax Status Of Plan**

The Internal Revenue Service has determined and informed the Company by a letter dated March 7, 2001 that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code ( IRC ). The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan s financial statements.

**Note G.-Risks And Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the statement of net assets available for benefits.

**Note H.-Fair Value Measurements**

On January 1, 2008, the Plan adopted SFAS No. 157. SFAS No. 157 provides a single definition of fair value and a common framework for measuring fair value as well as new disclosure requirements for fair value measurements used in financial statements. Under SFAS 157, fair value is determined based upon the exit price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants exclusive of any transaction costs. SFAS No. 157 also specifies a fair value hierarchy based upon observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally developed market assumptions. In accordance with SFAS No. 157, fair value measurements are classified under the following hierarchy:

Level 1 Quoted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.

Level 3 Model-derived valuations in which one or more significant inputs or significant value-drivers are unobservable.

Certain of the Plan's assets are reported at fair value in the accompanying statements of net assets available for benefits. Such assets include cash and cash equivalents and marketable securities. Additionally, the following tables provide fair value measurement information for the Plan's financial assets as of December 31, 2008:

Assets at Fair Value as of December 31, 2008
