CHICAGO RIVET & MACHINE CO.

(Exact Name of Registrant as Specified in Its Charter)

Illinois

(State or Other Jurisdiction
of Incorporation or Organization)

36-0904920

(I.R.S. Employer
Identification No.)

901 Frontenac Road, Naperville, Illinois

(Address of Principal Executive Offices)

60563

(Zip Code)

Registrant's Telephone Number, Including Area Code **(630) 357-8500**

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every interactive data file required to be submitted and posted pursuant to Rule 405 of Regulation S-T (section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of September 30, 2009, 966,132 shares of the registrant's common stock were outstanding.

CHICAGO RIVET & MACHINE CO.
 NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

1. In the opinion of the Company, the accompanying unaudited interim financial statements contain all adjustments necessary to present fairly the financial position of the Company as of September 30, 2009 (unaudited) and December 31, 2008 (audited) and the results of operations and changes in cash flows for the indicated periods. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
2. The results of operations for the three and nine-month period ending September 30, 2009 are not necessarily indicative of the results to be expected for the year.
3. The Company extends credit on the basis of terms that are customary within our markets to various companies doing business primarily in the automotive industry. The Company has a concentration of credit risk primarily within the automotive industry and in the Midwestern United States.
4. The Company is, from time to time, involved in litigation, including environmental claims and contract disputes, in the normal course of business. While it is not possible at this time to establish the ultimate amount of liability with respect to contingent liabilities, including those related to legal proceedings, management is of the opinion that the aggregate amount of any such liabilities, for which provision has not been made, will not have a material adverse effect on the Company's financial position.
5. The Company's federal income tax return for the 2008 tax year is subject to examination by the Internal Revenue Service (IRS). While it may be possible that a reduction could occur with respect to the Company's unrecognized tax benefits as an outcome of an IRS examination, management does not anticipate any adjustments that would result in a material change to the results of operations or financial condition of the Company. The 2006 and 2007 federal income tax returns were examined by the IRS and no adjustments were made as a result of these examinations. No statutes have been extended on any of the Company's federal income tax filings. The statute of limitations on the Company's 2008 federal income tax return will expire on September 15, 2012. The Company's state income tax returns for the 2006 through 2008 tax years remain subject to examination by various state authorities with the latest closing period on October 31, 2012. The Company is currently not under examination by any state authority for income tax purposes and no statutes for state income tax filings have been extended.
6. Inventories are stated at the lower of cost or net realizable value, cost being determined by the first-in, first-out method. A summary of inventories is as follows:

	September 30, 2009	December 31, 2008
Raw material	\$ 1,306,591	\$ 1,600,001
Work-in-process	1,594,373	1,628,664
Finished goods	1,627,745	2,399,967
	4,528,709	5,628,632
Valuation reserves	(595,000)	(580,000)
	\$ 3,933,709	\$ 5,048,632

7. Segment Information The Company operates in two business segments as determined by its products. The fastener segment includes rivets, cold-formed fasteners and screw machine products. The assembly equipment segment includes automatic rivet setting machines, parts and tools for such machines and the leasing of automatic rivet setting machines. Information by segment is as follows:

	Fastener	Assembly Equipment	Other	Consolidated
Three Months Ended September 30, 2009:				
Net sales	\$ 4,742,053	\$ 748,094	\$	\$ 5,490,147

Table of Contents

CHICAGO RIVET & MACHINE CO.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Results for the third quarter of 2009 continued to be negatively impacted by reduced domestic manufacturing activity as a result of the ongoing economic recession. Net revenues in the third quarter of 2009 were \$5,490,147, a decline of 17.6% compared to 2008, when revenues were \$6,662,021. Year to date revenues total \$14,929,260, a decline of 35.4% compared to the \$23,123,359 recorded for the first three quarters of 2008. Although we have reduced expenses, cost reductions were not sufficient to offset the effects of the decline in sales. The net result was a net loss of \$246,814, or \$0.26 per share, in the third quarter of 2009 compared to a net loss of \$195,409, or \$0.20 per share, in 2008 when economic activity began its dramatic decline. The year to date net loss is \$1,310,132, or \$1.36 per share, compared to a net loss of \$187,158, or \$.19 per share, in 2008.

Fastener segment revenues improved in the third quarter of 2009 to \$4,742,053, from \$4,105,171 in the second quarter, marking the second consecutive quarterly improvement, but trailed revenues in the third quarter of 2008 by \$987,580, or 17.2%. On a year to date basis, 2009 fastener segment revenues have declined by \$7,618,662, or 37.9%, from \$20,095,316 to \$12,476,654. With the majority of our revenue in this segment coming from the automotive industry, the problems in that sector in recent years have had a negative impact on our sales. While domestic automotive production improved in the third quarter, there has been an overall 40% decline in the first nine months of the year. Current economic conditions have resulted in reduced demand among our non-automotive customers as well. In response to the drop in demand, we have adjusted our operations. Even though we reduced all major categories of manufacturing costs, these savings did not fully offset the decline in sales volume, resulting in a \$113,000 reduction in fastener segment gross margin in the third quarter and a \$1,609,000 reduction in the year to date amount, compared to the year earlier periods.

Assembly equipment segment revenues totaled \$748,094 in the third quarter of 2009, and although this is a decline of \$184,294, or 19.8%, compared to the third quarter of 2008, when revenues were \$932,388, it marks a \$173,433 improvement over last quarter. Demand for our products in this segment continues to be weak and the lower level of production activity, brought on by reduced demand, resulted in a \$46,000 decline in gross margin compared to the third quarter of 2008. For the first nine months of 2009, revenues in this segment amounted to \$2,452,606, a \$575,437 decline, or 19%, compared to the first nine months of 2008 when net revenues totaled \$3,028,043. Machine sales, which are included in this segment, are particularly sensitive to economic conditions, and we have seen our unit shipments and revenues decline as a result of the current environment. In response to the lower level of sales activity in 2009, we have reduced manufacturing expenses to better match demand. These actions, however, have not fully offset the effects of reduced volume and, as a result, gross margins declined to \$630,000 from \$917,000 last year.

Selling and administrative expenses for the third quarter of 2009 were \$115,533 lower than during the third quarter of 2008. While lower sales in the quarter compared to last year resulted in a \$20,000 reduction in commission expense, cost controls accounted for most of the net savings. Salaries and related benefits were reduced by \$54,000 due to a reduction in headcount since the third quarter of last year while outside services, travel, office supplies and maintenance accounted for an additional \$29,000 in savings. On a year to date basis, selling and administrative expenses have declined \$273,265 compared to the first three quarters of 2008. Lower sales in the current year have resulted in a \$130,000 reduction in commissions through three quarters. Cost control efforts have resulted in salaries and related benefits being reduced by \$78,000 while various other items make up the net difference including reductions in outside services, travel, office supplies and maintenance.

Working capital at September 30, 2009 was approximately \$14 million, a reduction of \$1.3 million from the beginning of the year. Most of the net decline relates to the reduction in inventories, which are \$1.1 million lower as a result of lower quantities on hand as well as lower prices for certain raw materials, which had increased dramatically in the second half of 2008. Improved sales late in the third quarter resulted in a \$.4 million increase in accounts receivable since the beginning of the year; however, that increase was more than offset by the increase in accounts payable. The net result of these changes and other cash flow items on cash, cash equivalents and certificates of deposit was a decrease of \$.6 million, to \$7 million, as of September 30, 2009. Management believes that current cash, cash equivalents and operating cash flow will provide adequate working capital for the foreseeable future.

While conditions remain uncertain, we are encouraged by the improvement in sales and bottom line results compared to the first two quarters of this year. The year to date decline in revenues reflects the depressed level of production activity in our primary markets, caused by extraordinary economic conditions. We remain cautious regarding the strength of a general economic recovery given that many of the factors that contributed to the economic crisis are still present. We believe our sound financial condition

Table of Contents

leaves us well positioned to take advantage of opportunities that this environment creates, and we will continue working to make adjustments necessary to improve our operations.

This discussion contains certain forward-looking statements which are inherently subject to risks and uncertainties that may cause actual events to differ materially from those discussed herein. Factors which may cause such differences in events include, those disclosed under Risk Factors in our Annual Report on Form 10-K and in the other filings we make with the United States Securities and Exchange Commission. These factors, include among other things: conditions in the domestic automotive industry, upon which we rely for sales revenue, the intense competition in our markets, the concentration of our sales to two major customers, the price and availability of raw materials, labor relations issues, losses related to product liability, warranty and recall claims, costs relating to environmental laws and regulations, the loss of the services of our key employees and difficulties in achieving expected cost savings. Many of these factors are beyond our ability to control or predict. Readers are cautioned not to place undue reliance on these forward-looking statements. We undertake no obligation to publish revised forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

Item 4. Controls and Procedures.

(a) Disclosure Controls and Procedures. The Company's management, with the participation of the Company's Chief Executive Officer and President, Chief Operating Officer and Treasurer (the Company's principal financial officer), has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and President, Chief Operating Officer and Treasurer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

(b) Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
