**IMPORTANT NOTICES REGARDING PRIVACY,
DELIVERY OF SHAREHOLDER DOCUMENTS,
PORTFOLIO HOLDINGS AND PROXY VOTING**

Privacy. The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy (Privacy Policy) with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer's account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Privacy Policy periodically for changes by accessing the link on our homepage:
www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy applies only to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer's account (i.e., fund shares) is held in the name of a third-party financial adviser/broker-dealer, it is likely that only such adviser's privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance's Privacy Policy, please call 1-800-262-1122.

Delivery of Shareholder Documents. The Securities and Exchange Commission (the SEC) permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called householding and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

Edgar Filing: Eaton Vance Short Duration Diversified Income Fund - Form N-CSR

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Portfolio Holdings. The Fund and its underlying Portfolio(s) (if applicable) will file a schedule of portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website at www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Fund or Portfolio voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC's website at www.sec.gov.

The year ending October 31, 2009, closed with economic data showing a modest rebound in global economic fundamentals. For the markets, this rebound was a welcome change after witnessing a freefall in world economic output for the first two quarters of this period, followed by a slowdown in the pace of economic deterioration in the subsequent quarter. As signs of improving economic fundamentals began to emerge, investors' aversion to risk reversed course and the capital markets staged a comeback.

In the aftermath of the Lehman Brothers collapse in late 2008, with credit markets at a virtual standstill and global economic activity in decline, prices on riskier assets remained depressed. The last three months of 2008 were marked by outperformance of U.S. Government securities and a strong U.S. dollar, viewed as a safe haven amidst the economic downturn. Credit markets, however, rallied sharply in the final two quarters of this twelve month period, and currencies in both developed and emerging markets rose against the dollar.

Amidst historic levels of central bank and government intervention, yield spreads across virtually all fixed income markets have tightened substantially, producing extraordinary returns in the riskier credit markets during the last six months of this 12-month period. A similar return story played out in the currency markets, as the higher yielding emerging market currencies, and currencies of commodity exporting countries, outperformed during the second half of the fiscal year.

The bank loan market had strong performance during the period. The S&P/LSTA Leveraged Loan Index returned 30.44% for the 12-months ending October 31, 2009.¹ Performance was driven by a combination of technical factors, which improved the market's supply and demand picture. Limited new loan issuance and a contraction of the existing supply through loan repayments reduced the available universe of purchasable loans. Matched with little selling activity and modest but steady inflows, loan prices improved significantly. Lower-quality securities led the performance.

The mortgage-backed securities (MBS) market benefited from government programs aimed at bolstering the economy and the housing market. One of the most significant positives for the market was the purchase by the Federal Reserve (the Fed) of MBS in the secondary market. This program, designed to sustain lower mortgage rates, started in January 2009. By the end of October, the Fed had purchased just under one trillion dollars in U.S. Government Agency MBS. The Fed

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or market price (as applicable) with all distributions reinvested. The Fund's performance at market price will differ from its results at NAV. Although market price performance generally reflects investment results over time, during shorter periods, returns at market price can also be affected by factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for the Fund's shares, or changes in Fund distributions. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than the quoted return. For performance as of the most

recent month end, please refer to www.eatonvance.com.

Fund shares are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.

Distribution Rate ³	<i>At NAV</i> 6.12% <i>At Market Price</i> 6.94%

See page 3 for more performance information.

¹ It is not possible to invest directly in an Index or Lipper Classification. The S&P/LSTA Leveraged Loan Index is an unmanaged loan market index. The Lipper total return is the average total return, at net asset value, of the funds that are in the same Lipper Classification as the Fund. ² Performance results reflect the effects of leverage. ³ The Distribution Rate is based on the Fund's most recent monthly distribution per share (annualized) divided by the Fund's NAV or market price at the end of the period. The Fund's monthly distributions may be comprised of ordinary income, net

realized capital gains
and return of capital.

Eaton Vance Short Duration Diversified Income Fund as of October 31, 2009

MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE

expects to purchase a total of \$1.25 trillion in MBS by the end of March 2010. For the 12-month period, MBS yield spreads over U.S. Treasuries, as represented by the BofA Merrill Lynch Mortgage Master Index, tightened 70 basis points through October 31, 2009.¹

Management Discussion

The Fund is a closed-end fund that trades on the New York Stock Exchange under the symbol EVG. The Fund's investment objective is to provide a high level of current income. In pursuing its objective, the Fund's investments have been allocated primarily to senior, secured loans, U.S. Government agency MBS, and foreign obligations. During the twelve-month period, the Fund experienced strong total returns driven primarily by the recovery in the bank loan market as well as the yield spread tightening in the MBS market of 33.90% at market price and 28.04% at NAV.

The Fund's larger, higher-quality loans benefited performance in the earlier part of 2009, as these loans were the first to benefit from price recovery. However, the last six months witnessed a junk rally, with the market's lowest-quality loans skyrocketing back to life. As a result, the Fund's relative underweight to the lowest-quality loans, including second-lien loans and those rated below CCC, detracted slightly from relative performance in the second half of the year.

In terms of industry sectors, a relative overweight to the cable television; leisure goods, activities and movies; and business equipment and services industries benefited relative performance. Detractors included underweights to the automotive and lodging and casino industries. The Fund's diversification was an important risk mitigator during the fiscal year.

In the MBS portion of the Fund, the investment emphasis remained on seasoned, U.S. Government Agency MBS (seasoned MBS) during the entire period. Typically, seasoned MBS were originated in the 1980s and 1990s. As a result, they have generally lower loan-to-home value ratios, meaning that these homeowners have more equity in their homes than the average borrower. In addition, these loans are guaranteed by government agencies. In the seasoned MBS market, yield spreads to U.S. Treasuries tightened by more than 140 basis points, contributing significantly to the Fund's performance. Principal prepayment rates on these securities were relatively stable for the entire period, paying consistently at an annualized rate in the low teens.

The Fund's foreign obligations contributed positively, overall, to its performance. The Fund's foreign investments consisted primarily of long and short forward currency contracts, foreign-denominated sovereign bonds, and other derivatives. The positive performance in this sector was led by Latin America, with significant contributions from individual country investments as well, including Indonesia, Georgia, and Iceland.

In Latin America, a region that contributed positively to the Fund's returns, investments in Brazil and Uruguay performed well. Brazil's economy proved particularly resilient during the economic crisis. As a result, the currency rebounded significantly as evidence of that resilience emerged. Uruguay, an exporter to Brazil, not only benefited from Brazil's resilience but also its own growth momentum, as its economy avoided recession amidst global economic deterioration.

In Eastern and Western Europe, the Fund benefited from bond positions in Georgia, Macedonia, and Kazakhstan, as well as long exposure to U.S. dollar-denominated bonds in Iceland. In Iceland, bonds rebounded from the lows seen in 2008 during the collapse of the banking sector. Bonds in Eastern Europe generally benefited from the rally in relatively risky assets in the second half of the fiscal year. Offsetting those positives slightly was a long position in the Polish Zloty, which detracted from performance, primarily in the first half of the year, as it moved with general market sentiment.

A standout in the Fund's Asian exposures was Indonesia. Due in part to a closed economy, Indonesia was sheltered from the economic downturn more than most of its Asian counterparts. Additionally, Indonesia benefited as political stability was reinforced when President Yudhoyono was overwhelmingly reelected. Offsetting these gains were losses on short positions in the Philippines, reflecting a stronger-than-expected Philippine economy.

While the Fund benefited from positions in Egyptian T-Bills and Zambian currency, the performance in the African region was overwhelmed by the negative performance of a short position in South African currency. Like many other relatively risky investments, the South African rand rallied substantially in the second half of the fiscal year.

The Fund employs leverage through the use of derivative instruments and borrowings. The Fund's leverage was comprised of approximately 18% through borrowings and 30% through derivative investments. Use of leverage creates an opportunity for increased total return but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price).

- ¹ It is not possible to invest directly in an Index. The BofA Merrill Lynch Mortgage Master Index consists of fixed-rate, coupon-bearing bonds that are comprised of generic pass-through securities that are composed of numerous mortgage pools with various maturities.

The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund. Portfolio information provided in the report may not be representative of the Fund's current or future investments and may change due to active management.

- (1) Senior floating-rate interests (Senior Loans) often require prepayments from excess cash flows or permit the borrowers to repay at their election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, Senior Loans will have an expected average life of approximately two to four years. The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility and includes commitment fees on unfunded loan commitments, if any. Senior Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to a base lending rate, plus a premium. These base rates are primarily the London Interbank Offered Rate (LIBOR) and secondarily, the prime rate offered by one or more major United States banks (the Prime Rate) and the certificate of deposit (CD) rate or other base lending rates used by commercial lenders.
- (2) Defaulted security. Currently the issuer is in default with respect to interest payments.
- (3) Represents a payment-in-kind security which may pay all or a portion of interest in additional par.
- (4) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.
- (5) This Senior Loan will settle after October 31, 2009, at which time the interest rate will be determined.
- (6) Unfunded or partially unfunded loan commitments. See Note 1G for description.
- (7) Weighted average fixed-rate coupon that changes/updates monthly.

- (8) Adjustable rate mortgage security. Rate shown is the rate at October 31, 2009.
- (9) Security (or a portion thereof) has been pledged to cover collateral requirements on open financial contracts.
- (10) Bond pays a 3.80% coupon on the face at the end of the payment period. Principal is adjusted based on changes in the Chilean UF (Unidad de Fomento) Rate. The original face is \$2,000,000 and the current face is \$2,336,276.
- (11) Security exempt from registration under Regulation S of the Securities Act of 1933, which exempts from registration securities offered and sold outside the United States. Security may not be offered or sold in the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act of 1933.
- (12) Bond pays a 6.00% coupon on the face at the end of the payment period. Principal is adjusted based on the IPCA (Amplified Consumer Price Index) as determined by the Brazilian Institute of Geography and Statistics. The original face is BRL 1,615,000 and current face is BRL 2,990,598.
- (13) Bond pays a 3.00% coupon on the face at the end of the payment period. Principal is adjusted based on the Poland Inflation Indexed CPI. The original face is PLN 5,827,000 and the current face is PLN 6,681,180.
- (14) Bond pays a 5.00% coupon on the face at the end of the payment period. Principal is adjusted based on the Uruguayan inflation rate. The original face is UYU 38,030,000 and the current face is UYU 48,065,861.
- (15) Bond pays a 10.00% coupon on the face at the end of the payment period. Principal is adjusted based on the Turkey Inflation Indexed CPI. The original face is TRY 4,586,000 and current face is TRY 5,572,806.
- (16) Bond pays a 12.00% coupon on the face at the end of the payment period. Principal is adjusted based on the Turkey Inflation Indexed CPI. The original face is TRY 8,502,000 and the current face is TRY 8,974,269.
- (17) Non-income producing security.
- (18) Affiliated investment company available to Eaton Vance portfolios and funds which invests in high quality, U.S. dollar denominated money market instruments. The rate shown is the annualized seven-day yield as of October 31, 2009.

- (1) For the period from the start of business, February 28, 2005, to October 31, 2005.
- (2) Net asset value at beginning of period reflects the deduction of the sales load of \$0.90 per share paid by the shareholder from the \$20.00 offering price.
- (3) Computed using average common shares outstanding.
- (4) Returns are historical and are calculated by determining the percentage change in net asset value or market value with all distributions reinvested.
- (5) Total investment return on net asset value is calculated assuming a purchase at the offering price of \$20.00 less the sales load of \$0.90 per share paid by the shareholder on the first day and a sale at the net asset value on the last day of the period reported with all distributions reinvested. Total investment return on market value is calculated assuming a purchase at the offering price of \$20.00 less the sales load of \$0.90 per share paid by the shareholder on the first day and a sale at the current market price on the last day of the period reported with all distributions reinvested.
- (6) Not annualized.
- (7) Annualized.
- (8) Interest expense relates to borrowings for the purpose of financial leverage. See Note 8.
- (9) Calculated by subtracting the Fund's total liabilities (not including the notes payable) from the Fund's total assets, and dividing the result by the notes payable balance in thousands.

NOTES TO FINANCIAL STATEMENTS

1 Significant Accounting Policies

Eaton Vance Short Duration Diversified Income Fund (the Fund) is a Massachusetts business trust registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a diversified, closed-end management investment company. The Fund's primary investment objective is to provide a high level of current income, with a secondary objective of seeking capital appreciation to the extent consistent with its primary goal.

The following is a summary of significant accounting policies of the Fund. The policies are in conformity with accounting principles generally accepted in the United States of America. A source of authoritative accounting principles applied in the preparation of the Fund's financial statements is the Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification), which superseded existing non-Securities and Exchange Commission accounting and reporting standards for interim and annual reporting periods ending after September 15, 2009. The adoption of the Codification for the current reporting period did not impact the Fund's application of generally accepted accounting principles.

A Investment Valuation Interests in senior floating-rate loans (Senior Loans) for which reliable market quotations are readily available are valued generally at the average mean of bid and ask quotations obtained from a third party pricing service. Other Senior Loans are valued at fair value by the investment adviser under procedures approved by the Trustees. In fair valuing a Senior Loan, the investment adviser utilizes one or more of the valuation techniques described in (i) through (iii) below to assess the likelihood that the borrower will make a full repayment of the loan underlying such Senior Loan relative to yields on other Senior Loans issued by companies of comparable credit quality. If the investment adviser believes that there is a reasonable likelihood of full repayment, the investment adviser will determine fair value using a matrix pricing approach that considers the yield on the Senior Loan. If the investment adviser believes there is not a reasonable likelihood of full repayment, the investment adviser will determine fair value using analyses that include, but are not limited to: (i) a comparison of the value of the borrower's outstanding equity and debt to that of comparable public companies; (ii) a discounted cash flow analysis; or (iii) when the investment adviser believes it is likely that a borrower will be liquidated or sold, an analysis of the terms of such liquidation or sale. In certain cases, the investment adviser will use a combination of analytical methods to determine fair value, such as when only a portion of a borrower's assets are likely to be sold. In conducting its assessment and analyses for purposes of determining fair value of a Senior Loan, the investment adviser will use its discretion and judgment in considering and appraising relevant factors. Fair value determinations

are made by the portfolio managers of the Fund based on information available to such managers. The portfolio managers of other funds managed by the investment adviser that invest in Senior Loans may not possess the same information about a Senior Loan borrower as the portfolio managers of the Fund. At times, the fair value of a Senior Loan determined by the portfolio managers of other funds managed by the investment adviser that invest in Senior Loans may vary from the fair value of the same Senior Loan determined by the portfolio managers of the Fund. The fair value of each Senior Loan is periodically reviewed and approved by the investment adviser's Valuation Committee and by the Trustees based upon procedures approved by the Trustees. Junior Loans are valued in the same manner as Senior Loans.

Debt obligations (including short-term obligations with a remaining maturity of more than sixty days and excluding most seasoned mortgage-backed securities) will normally be valued on the basis of quotations provided by third party pricing services. The pricing services will use various techniques that consider factors including, but not limited to,

reported trades or dealer quotations, prices or yields of securities with similar characteristics, benchmark yields, broker/dealer quotes, issuer spreads, as well as industry and economic events. Most seasoned, fixed rate 30-year mortgage-backed securities are valued through the use of the investment adviser's matrix pricing system, which takes into account bond prices, yield differentials, anticipated prepayments and interest rates provided by dealers. Short-term debt securities with a remaining maturity of sixty days or less (excluding those that are non-U.S. dollar denominated, which typically are valued by a pricing service or dealer quotes) are generally valued at amortized cost, which approximates market value. Equity securities (including common shares of closed-end investment companies) listed on a U.S. securities exchange generally are valued at the last sale price on the day of valuation or, if no sales took place on such date, at the mean between the closing bid and asked prices therefore on the exchange where such securities are principally traded. Equity securities listed on the NASDAQ Global or Global Select Market generally are valued at the NASDAQ official closing price. Unlisted or listed securities for which closing sales prices or closing quotations are not available are valued at the mean between the latest available bid and asked prices or, in the case of preferred equity securities that are not listed or traded in the over-the-counter market, by a third party pricing service that will use various techniques that consider factors including, but not limited to, prices or yields of securities with similar characteristics, benchmark yields, broker/dealer quotes, quotes of underlying common stock, issuer spreads, as well as industry and economic events. Exchange-traded options are valued at the last sale price for the day of valuation as quoted on any exchange on which the option is listed or, in the absence of sales on such date, at the mean between the closing bid and asked prices therefore as reported by

Table of Contents

Eaton Vance Short Duration Diversified Income Fund as of October 31, 2009

NOTES TO FINANCIAL STATEMENTS CONT D

the Options Price Reporting Authority. Over-the-counter options (including options on securities, indices and foreign currencies) are valued by a third party pricing service using techniques that consider factors including the value of the underlying instrument, the volatility of the underlying instrument and the time until option expiration. Financial futures contracts are valued at the settlement price established by the board of trade or exchange on which they are traded. Forward foreign currency exchange contracts are generally valued at the mean of the average bid and average asked prices that are reported by currency dealers to a third party pricing service at the valuation time. Such third party pricing service valuations are supplied for specific settlement periods and the Fund's forward foreign currency exchange contracts are valued at an interpolated rate between the closest preceding and subsequent settlement period reported by the third party pricing service. Interest rate swaps and cross-currency swaps are normally valued using valuations provided by a third party pricing service. Such pricing service valuations are based on the present value of fixed and projected floating rate cash flows over the term of the swap contract. Future cash flows are discounted to their present value using swap quotations provided by electronic data services or by broker/dealers. Credit default swaps are normally valued using valuations provided by a third party pricing service. The pricing services employ electronic data processing techniques to determine the present value based on credit spread quotations obtained from broker/dealers and expected default recovery rates determined by the pricing service using proprietary models. Foreign securities and currencies are valued in U.S. dollars, based on foreign currency exchange rate quotations supplied by a third party pricing service. The pricing service uses a proprietary model to determine the exchange rate. Inputs to the model include reported trades and implied bid/ask spreads. Investments for which valuations or market quotations are not readily available or are deemed unreliable are valued at fair value using methods determined in good faith by or at the direction of the Trustees of the Fund in a manner that most fairly reflects the security's value, or the amount that the Fund might reasonably expect to receive for the security upon its current sale in the ordinary course. Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. These factors may include, but are not limited to, the type of security, the existence of any contractual restrictions on the security's disposition, the price and extent of public trading in similar securities of the issuer or of comparable companies or entities, quotations or relevant information obtained from broker-dealers or other market participants, information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange-traded securities), an analysis of the company's or entity's financial condition, and an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold.

The Fund may invest in Cash Management Portfolio (Cash Management), an affiliated investment company managed by Boston Management and Research (BMR), a subsidiary of Eaton Vance Management (EVM). Cash Management generally values its investment securities utilizing the amortized cost valuation technique permitted by Rule 2a-7 of the 1940 Act, pursuant to which Cash Management must comply with certain conditions. This technique involves initially valuing a portfolio security at its cost and thereafter assuming a constant amortization to maturity of any discount or premium. If amortized cost is determined not to approximate fair value, Cash Management may value its investment securities in the same manner as debt obligations described above.

B Investment Transactions Investment transactions for financial statement purposes are accounted for on a trade date basis. Realized gains and losses on investments sold are determined on the basis of identified cost.

C Income Interest income is recorded on the basis of interest accrued, adjusted for amortization of premium or accretion of discount. Fees associated with loan amendments are recognized immediately.

D Federal Taxes The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year substantially all of its net investment income, and all or substantially all of its net realized capital gains. Accordingly, no provision for federal income or excise tax is necessary.

At October 31, 2009, the Fund, for federal income tax purposes, had a capital loss carryforward of \$22,993,327 which will reduce its taxable income arising from future net realized gains on investment transactions, if any, to the extent permitted by the Internal Revenue Code, and thus will reduce the amount of distributions to shareholders, which would otherwise be necessary to relieve the Fund of any liability for federal income or excise tax. Such capital loss carryforward will expire on October 31, 2013 (\$2,603,915), October 31, 2014 (\$1,684,823), October 31, 2016 (\$17,966,463) and October 31, 2017 (\$738,126).

As of October 31, 2009, the Fund had no uncertain tax positions that would require financial statement recognition, de-recognition, or disclosure. Each of the Fund's federal tax returns filed in the 3-year period ended October 31, 2009 remains subject to examination by the Internal Revenue Service.

E Expense Reduction State Street Bank and Trust Company (SSBT) serves as custodian of the Fund. Pursuant to the custodian agreement, SSBT receives a fee reduced by credits, which are determined based on the average daily cash balance the Fund maintains with SSBT.

Table of Contents

Eaton Vance Short Duration Diversified Income Fund as of October 31, 2009

NOTES TO FINANCIAL STATEMENTS CONT D

All credit balances, if any, used to reduce the Fund's custodian fees are reported as a reduction of expenses in the Statement of Operations.

F Foreign Currency Translation Investment valuations, other assets, and liabilities initially expressed in foreign currencies are translated each business day into U.S. dollars based upon current exchange rates. Purchases and sales of foreign investment securities and income and expenses denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates in effect on the respective dates of such transactions. Recognized gains or losses on investment transactions attributable to changes in foreign currency exchange rates are recorded for financial statement purposes as net realized gains and losses on investments. That portion of unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

G Unfunded Loan Commitments The Fund may enter into certain credit agreements all or a portion of which may be unfunded. The Fund is obligated to fund these commitments at the borrower's discretion. The commitments are disclosed in the accompanying Portfolio of Investments.

H Use of Estimates The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

I Indemnifications Under the Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund, and shareholders are indemnified against personal liability for the obligations of the Fund. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

J Financial Futures Contracts The Fund may enter into financial futures contracts. The Fund's investment in financial futures contracts is designed for hedging against changes in interest rates or as a substitute for the purchase of securities. Upon entering into a financial futures contract, the Fund is required to deposit with the broker, either in cash or securities, an amount equal to a certain percentage of the purchase price (initial

margin). Subsequent payments, known as variation margin, are made or received by the Fund each business day, depending on the daily fluctuations in the value of the underlying security, and are recorded as unrealized gains or losses by the Fund. Gains (losses) are realized upon the expiration or closing of the financial futures contracts. Should market conditions change unexpectedly, the Fund may not achieve the anticipated benefits of the financial futures contracts and may realize a loss. Futures contracts have minimal counterparty risk as they are exchange traded and the clearing house for the exchange is substituted as the counterparty, guaranteeing counterparty performance.

K Forward Foreign Currency Exchange Contracts The Fund may enter into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. The Fund may enter into forward contracts for hedging purposes as well as non-hedging purposes. The forward foreign currency exchange contracts are adjusted by the daily exchange rate of the underlying currency and any gains or losses are recorded as

unrealized until such time as the contracts have been closed or offset by another contract with the same broker for the same settlement date and currency. Risks may arise upon entering these contracts from the potential inability of counterparties to meet the terms of their contracts and from movements in the value of a foreign currency relative to the U.S. dollar.

L Written Options Upon the writing of a call or a put option, the premium received by the Fund is included in the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written, in accordance with the Fund's policies on investment valuations discussed above. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or are closed are added to or offset against the proceeds or amount paid on the transaction to determine the realized gain or loss. If a put option on a security is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as a writer of an option, may have no control over whether the underlying securities or other assets may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities or other assets underlying the written option. The Fund may also bear the risk of not being able to enter into a closing transaction if a liquid secondary market does not exist.

M Purchased Options Upon the purchase of a call or put option, the premium paid by the Fund is included in the Statement of Assets and Liabilities as an investment. The amount of the investment is subsequently marked-to-market to reflect the current market value of

Table of Contents

Eaton Vance Short Duration Diversified Income Fund as of October 31, 2009

NOTES TO FINANCIAL STATEMENTS CONT D

the option purchased, in accordance with the Fund's policies on investment valuations discussed above. If an option which the Fund had purchased expires on the stipulated expiration date, the Fund will realize a loss in the amount of the cost of the option. If the Fund enters into a closing sale transaction, the Fund will realize a gain or loss, depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. If the Fund exercises a put option, it will realize a gain or loss from the sale of the underlying security, and the proceeds from such sale will be decreased by the premium originally paid. If the Fund exercises a call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid. The risk associated with purchasing options is limited to the premium originally paid.

N Interest Rate Swaps The Fund may enter into interest rate swap agreements to enhance return, to hedge against fluctuations in securities prices or interest rates, or as substitution for the purchase or sale of securities. Pursuant to these agreements, the Fund either makes floating-rate payments based on a benchmark interest rate in exchange for fixed-rate payments or the Fund makes fixed-rate payments in exchange for payments on a floating benchmark interest rate. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains or losses. The value of the swap is determined by changes in the relationship between two rates of interest. The Fund is exposed to credit loss in the event of non-performance by the swap counterparty. Risk may also arise from movements in interest rates.

O Cross-Currency Swaps Cross-currency swaps are interest rate swaps in which interest cash flows are exchanged between two parties based on the notional amounts of two different currencies. The notional amounts are typically determined based on the spot exchange rates at the inception of the trade. Cross-currency swaps also involve the exchange of the notional amounts at the start of the contract at the current spot rate with an agreement to re-exchange such amounts at a later date at either the same exchange rate, a specified rate or the then current spot rate. The entire principal value of a cross-currency swap is subject to the risk that the counterparty to the swap will default on its contractual delivery obligations.

P Credit Default Swaps When the Fund is the buyer of a credit default swap contract, the Fund is entitled to receive the par (or other agreed-upon) value of a referenced debt obligation (or basket of debt obligations) from the counterparty to the contract if a credit event by a third party, such as a U.S. or foreign corporate issuer or sovereign issuer, on the debt obligation occurs. In return, the Fund pays the counterparty a periodic stream of payments over the term of the contract provided that no

credit event has occurred. If no credit event occurs, the Fund would have spent the stream of payments and received no benefits from the contract. When the Fund is the seller of a credit default swap contract, it receives the stream of payments, but is obligated to pay to the buyer of the protection an amount up to the notional amount of the swap and in certain instances take delivery of securities of the reference entity upon the occurrence of a credit event, as defined under the terms of that particular swap agreement. Credit events are contract specific but may include bankruptcy, failure to pay, restructuring, obligation acceleration and repudiation/moratorium. If the Fund is the seller of protection and a credit event occurs, the maximum potential amount of future payments that the Fund could be required to make would be an amount equal to the notional amount of the agreement. This potential amount would be partially offset by any recovery value of the respective referenced obligation, or net amount received from the settlement of a buy protection credit default swap agreement entered into by the Fund for the same referenced obligation. As the seller, the Fund effectively adds leverage to its portfolio because, in addition to its total net assets, the Fund is subject to

investment exposure on the notional amount of the swap. The interest fee paid or received on the swap contract, which is based on a specified interest rate on a fixed notional amount, is accrued daily as a component of unrealized appreciation (depreciation) and is recorded as realized gain upon receipt or realized loss upon payment. The Fund also records an increase or decrease to unrealized appreciation (depreciation) in an amount equal to the daily valuation. Up-front payments or receipts, if any, are recorded as other assets or other liabilities, respectively, and amortized over the life of the swap contract as realized gains or losses. The Fund segregates assets in the form of cash or liquid securities in an amount equal to the notional amount of the credit default swaps of which it is the seller. The Fund segregates assets in the form of cash or liquid securities in an amount equal to any unrealized depreciation of the credit default swaps of which it is the buyer, marked-to-market on a daily basis. These transactions involve certain risks, including the risk that the seller may be unable to fulfill the transaction.

Q Statement of Cash Flows The cash amount shown in the Statement of Cash Flows of the Fund is the amount included in the Fund's Statement of Assets and Liabilities and represents the cash on hand at its custodian and does not include any short-term investments.

2 Distributions to Shareholders

The Fund intends to make monthly distributions to shareholders and at least one distribution annually of all or substantially all of its net realized capital gains (reduced by available capital loss carryforwards from prior years, if any). In its distributions, the Fund intends to include amounts attributable to the imputed interest on foreign

Table of Contents

Eaton Vance Short Duration Diversified Income Fund as of October 31, 2009

NOTES TO FINANCIAL STATEMENTS CONT D

currency exposures through long and short positions in forward currency exchange contracts (represented by the difference between the foreign currency spot rate and the foreign currency forward rate) and the imputed interest derived from certain other derivative positions. Distributions are recorded on the ex-dividend date. The Fund distinguishes between distributions on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid-in capital. For tax purposes, distributions from short-term capital gains are considered to be from ordinary income. In certain circumstances, a portion of distributions to shareholders may include a return of capital component.

The tax character of distributions declared for the years ended October 31, 2009 and October 31, 2008 was as follows:

	Year Ended October 31,	
	2009	2008
Distributions declared from:		
Ordinary income	\$ 18,896,961	\$ 25,806,645
Tax return of capital	\$ 2,066,635	

During the year ended October 31, 2009, accumulated net realized loss was decreased by \$14,205,282, accumulated undistributed net investment income was decreased by \$1,833,916 and paid-in capital was decreased by \$12,371,366 due to differences between book and tax accounting, primarily for foreign currency gain (loss), paydown gain (loss), swap contracts, mixed straddles and premium amortization. These reclassifications had no effect on the net assets or net asset value per share of the Fund.

As of October 31, 2009, the components of distributable earnings (accumulated losses) and unrealized appreciation (depreciation) on a tax basis were as follows:

Capital loss carryforward	\$ (22,993,327)
Net unrealized appreciation	\$ 1,211,007

The differences between components of distributable earnings (accumulated losses) on a tax basis and the amounts reflected in the Statement of Assets and Liabilities are primarily due to defaulted bond interest, wash sales, foreign currency transactions, futures contracts, swap contracts and premium amortization.

3 Investment Adviser Fee and Other Transactions with Affiliates

The investment adviser fee is earned by EVM as compensation for management and investment advisory services rendered to the Fund. The fee is computed at an

annual rate of 0.75% of the Fund's average daily total leveraged assets, subject to the limitation described below, and is payable monthly. Total leveraged assets as referred to herein represent net assets plus liabilities or obligations attributable to investment leverage and the notional value of long and short forward currency contracts, futures contracts and swaps held by the Fund. The notional value of a contract for purposes of calculating total leveraged assets is the stated dollar value of the underlying reference instrument at the time the derivative position is entered into and remains constant throughout the life of the derivative contract. However, the derivative contracts are marked-to-market daily and any unrealized appreciation or depreciation is reflected in the Fund's net assets. When the Fund holds both long and short forward currency contracts in the same foreign currency, the offsetting positions are netted for purposes of determining total leveraged assets. When the Fund holds other long and short positions in foreign obligations denominated in the same currency, total leveraged assets are calculated by excluding the smaller of the long or short position.

The advisory agreement provides that if investment leverage exceeds 40% of the Fund's total leveraged assets, EVM will not receive a management fee on total leveraged assets in excess of this amount. As of October 31, 2009, the Fund's investment leverage was 48% of its total leveraged assets. The portion of the adviser fee payable by Cash Management on the Fund's investment of cash therein is credited against the Fund's investment adviser fee. For the year ended October 31, 2009, the Fund's investment adviser fee totaled \$3,717,055 of which \$53,144 was allocated from Cash Management and \$3,663,911 was paid or accrued directly by the Fund. For the year ended October 31, 2009, the Fund's investment adviser fee, including the portion allocated from Cash Management, was 1.25% of the Fund's average daily net assets. EVM also serves as administrator of the Fund, but receives no compensation.

In addition, EVM has contractually agreed to reimburse the Fund for fees and other expenses at an annual rate of 0.20% of the Fund's average daily total leveraged assets during the first five full years of the Fund's operations, 0.15% of the Fund's average daily total leveraged assets in year six, 0.10% in year seven and 0.05% in year eight. Pursuant to this agreement, EVM waived \$991,215 of its investment adviser fee for the year ended October 31, 2009.

Except for Trustees of the Fund who are not members of EVM's organization, officers and Trustees receive remuneration for their services to the Fund out of the investment adviser fee. Trustees of the Fund who are not affiliated with EVM may elect to defer receipt of all or a percentage of their annual fees in accordance with the terms of the Trustees Deferred Compensation Plan. For the

Table of Contents

Eaton Vance Short Duration Diversified Income Fund as of October 31, 2009

NOTES TO FINANCIAL STATEMENTS CONT D

year ended October 31, 2009, no significant amounts have been deferred. Certain officers and Trustees of the Fund are officers of EVM.

4 Purchases and Sales of Investments

Purchases and sales of investments, other than short-term obligations and including maturities, paydowns and principal repayments on Senior Loans, for the year ended October 31, 2009 were as follows:

Purchases

Investments (non-U.S. Government)	\$ 91,298,381
U.S. Government and Agency Securities	27,635,416
	\$ 118,933,797

Sales

Investments (non-U.S. Government)	\$ 83,209,687
U.S. Government and Agency Securities	34,891,184
	\$ 118,100,871

5 Common Shares of Beneficial Interest

The Fund may issue common shares pursuant to its dividend reinvestment plan. There were no transactions in common shares for the years ended October 31, 2009 and October 31, 2008.

6 Federal Income Tax Basis of Investments

The cost and unrealized appreciation (depreciation) of investments of the Fund at October 31, 2009, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$ 443,494,159
-----------------------	-----------------------

Gross unrealized appreciation	\$ 19,043,492
Gross unrealized depreciation	(16,946,327)
Net unrealized appreciation	\$ 2,097,165

7 Financial Instruments

The Fund may trade in financial instruments with off-balance sheet risk in the normal course of its investing activities. These financial instruments may include written options, forward foreign currency exchange contracts, financial futures contracts and swap contracts and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Fund has in particular classes of financial instruments and do not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting

transactions are considered. A summary of written call options at October 31, 2009 is included in the Portfolio of Investments.

A summary of obligations under these financial instruments at October 31, 2009 is as follows:

- * If the Fund is the seller of credit protection, the notional amount is the maximum potential amount of future payments the Fund could be required to make if a credit event, as defined in the credit default swap agreement, were to occur. At October 31, 2009, such maximum potential amount for all open credit default swaps in which the Fund is the seller was \$11,600,000.
- ** The contract annual fixed rate represents the fixed rate of interest received by the Fund (as a seller of protection) or paid by the Fund (as a buyer of protection) annually on the notional amount of the credit default swap contract.
- *** Current market annual fixed rates, utilized in determining the net unrealized appreciation or depreciation as of period end, serve as an indicator of the market's perception of the current status of the payment/performance risk associated with the credit derivative. The current market annual fixed rate of a particular reference entity reflects the cost, as quoted by the pricing vendor, of selling protection against default of that entity as of period end and may include upfront payments required to be made to enter into the agreement. The higher the fixed rate, the greater the market perceived risk of a credit event involving the reference entity. A rate identified as Defaulted indicates a credit event has occurred for the reference entity.
- (1) Upfront payment is exchanged with the counterparty as a result of the standardized trading coupon.

The Fund pays interest on the currency received and receives interest on the currency delivered. At the termination date, the notional amount of the currency received will be exchanged for the notional amount of the currency delivered.

Written currency call options activity for the year ended October 31, 2009 was as follows:

Principal

	Amount of Contracts (000 s omitted)	Premiums Received
Outstanding, beginning of year		\$
Options written	JPY 1,057,000	135,484
Outstanding, end of year	JPY 1,057,000	\$ 135,484

JPY - Japanese Yen

At October 31, 2009, the Fund had sufficient cash and/or securities to cover commitments under these contracts.

The Fund adopted FASB Statement of Financial Accounting Standards No. 161 (FAS 161), Disclosures about Derivative Instruments and Hedging Activities, (currently FASB Accounting Standards Codification (ASC) 815-10), effective May 1, 2009. Such standard requires enhanced disclosures about an entity's derivative and hedging activities, including qualitative disclosures about the objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk related contingent features in derivative instruments. The disclosure below includes additional information as a result of implementing FAS 161.

In the normal course of pursuing its investment objectives, the Fund is subject to the following risks:

Credit Risk: The Fund may enter into credit default swap contracts to manage its credit risk, to gain exposure to a credit in which the Fund may otherwise invest, or to enhance return.

Foreign Exchange Risk: The Fund holds foreign currency denominated investments. The value of these investments and related receivables and payables may change due to future changes in foreign currency exchange rates. To hedge against this risk, the Fund may enter into forward foreign currency exchange contracts. The Fund may also enter into such contracts to hedge the currency risk of investments it anticipates purchasing. The Fund may also purchase or write currency option contracts to enhance return.

Interest Rate Risk: The Fund holds fixed-rate bonds. The value of these bonds may decrease if interest rates rise. To hedge against this risk, the Fund may enter into interest rate and cross-currency swap contracts. The Fund may also purchase and sell U.S. Treasury and foreign debt futures contracts to hedge against changes in interest rates.

The Fund enters into swap contracts and forward foreign currency exchange contracts that may contain provisions whereby the counterparty may terminate the contract under certain conditions, including but not limited to a decline in the Fund's net assets below a certain level over a certain period of time, which would trigger a payment by the Fund for those derivatives in a liability position. At October 31, 2009, the fair value of derivatives with credit-related contingent features in a net liability position was \$1,648,232. The aggregate fair value of assets pledged as collateral by the Fund for such liability was \$2,894,916 at October 31, 2009.

The non-exchange traded derivatives in which the Fund invests, including swap contracts, over-the-counter options and forward foreign currency exchange contracts, are subject to the risk that the counterparty to the contract fails to perform its obligations under the contract. The Fund is not subject to counterparty credit risk with respect to its written options as the Fund, not the counterparty, is obligated to perform under such derivatives. At October 31, 2009, the maximum amount of loss the Fund would incur due to counterparty risk was \$2,264,219, representing the fair value of

such derivatives in an asset position. Such amount would be increased by any unamortized upfront payments made by the Fund. To mitigate this risk, the Fund has entered into master netting agreements with substantially all its derivative counterparties, which allows it and a counterparty to aggregate amounts owed by each of them for derivative transactions under the agreement into a single net amount payable by either the Fund or the counterparty. At October 31, 2009, the maximum amount of loss the Fund would incur due to counterparty risk would be reduced by approximately \$2,019,000 due to master netting

Table of Contents

Eaton Vance Short Duration Diversified Income Fund as of October 31, 2009

NOTES TO FINANCIAL STATEMENTS CONT D

agreements. Counterparties may be required to pledge collateral in the form of cash, U.S. Government securities or highly-rated bonds for the benefit of the Fund if the net amount due from the counterparty with respect to a derivative contract exceeds a certain threshold. The amount of collateral posted by the counterparties with respect to such contracts would also reduce the amount of any loss incurred.

The fair value of derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) by risk exposure at October 31, 2009 was as follows:

Statement of Assets and Liabilities Caption	Credit	Fair Value	
		Foreign Exchange	Interest Rate
Investments, at value	\$	\$ 109,892	\$
Receivable for open and closed forward foreign currency exchange contracts		1,605,321	
Receivable for open swap contracts	549,006

Payable for open and closed forward foreign currency exchange contracts		(911,358)	
Payable for open swap contracts	(1,464,160)		(1,395,723)
Total Liability Derivatives	\$ (1,464,160)	\$ (966,665)	\$ (1,530,395)

* Amount represents cumulative unrealized appreciation or (depreciation) on futures contracts in the Futures Contracts table above. Only the current day's variation margin on open futures contracts is reported within the

Edgar Filing: Eaton Vance Short Duration Diversified Income Fund - Form N-CSR

Statement of Assets and Liabilities as Receivable or Payable for variation margin, as applicable.

The effect of derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) by risk exposure for the six months ended October 31, 2009 was as follows:

Statement of Operations Caption	Credit	Foreign Exchange	Interest Rate
Net realized gain (loss)			
Investment transactions	\$	\$ (39,780)	\$
Financial futures contracts			367,144
Written options			
Swap contracts	(218,601)		(12,464)
Foreign currency and forward foreign currency exchange contract transactions		(1,670,027)	
Total	\$ (218,601)	\$ (1,709,807)	\$ 354,680
Change in unrealized appreciation (depreciation)			
Investments	\$	\$ (47,605)	\$
Financial futures contracts			(501,029)
Written options		70,518	
Swap contracts	106,179		(854,072)
Foreign currency and forward foreign currency exchange contracts		1,267,020	
Total	\$ 106,179	\$ 1,289,933	\$ (1,355,101)

The average notional amounts of futures contracts, forward foreign currency exchange contracts and swap contracts outstanding during the six months ended October 31, 2009, which are indicative of the volume of these derivative types, were approximately \$15,245,000, \$107,353,000 and \$85,642,000, respectively.

The average principal amount of purchased option contracts outstanding during the six months ended October 31, 2009 was approximately \$8,999,000.

8 Revolving Credit and Security Agreement

Effective February 9, 2009, the Fund entered into a Revolving Credit and Security Agreement (the Agreement) with a bank to borrow up to a limit of \$125 million for the purchase of investment securities and for temporary or emergency purposes. Borrowings under the Agreement are secured by the assets of the Fund. Interest is charged at a rate above the London Interbank Offered Rate (LIBOR) and is payable monthly. Under the terms of the Agreement, the Fund pays a commitment fee of 0.15% on the borrowing limit. The Fund also paid an up-front fee of \$125,000, which is

being amortized to interest expense through February 5, 2010, the termination date of the Agreement. The unamortized balance at October 31, 2009 is approximately \$33,000 and is included in prepaid expenses on the Statement of Assets and Liabilities. The Fund is required to maintain certain net asset levels during the term of the Agreement. At October 31, 2009, the Fund had borrowings outstanding under the Agreement of \$111,000,000 at an interest rate of 0.98%. The carrying amount of the borrowings at October 31, 2009 approximated its fair value. Prior to February 9, 2009, the Fund participated with other portfolios and funds managed by EVM and its affiliates in a \$450 million unsecured line of credit agreement with a group of banks. Borrowings were made by the Fund for the purpose of financial leverage. Interest was charged to the Fund based on its borrowings at an amount above either the Eurodollar rate or Federal Funds rate. In addition, a fee computed at an annual rate of 0.10% on the daily unused portion of the line of credit was allocated among the participating portfolios and funds at the end of each quarter. For the

Table of Contents

Eaton Vance Short Duration Diversified Income Fund as of October 31, 2009

NOTES TO FINANCIAL STATEMENTS CONT D

year ended October 31, 2009, the combined average borrowings under the Agreement and line of credit noted above and the average interest rate were \$96,898,630 and 1.04%, respectively.

9 Risks Associated with Foreign Investments

Investing in securities issued by companies whose principal business activities are outside the United States may involve significant risks not present in domestic investments. For example, there is generally less publicly available information about foreign companies, particularly those not subject to the disclosure and reporting requirements of the U.S. securities laws. Certain foreign issuers are generally not bound by uniform accounting, auditing, and financial reporting requirements and standards of practice comparable to those applicable to domestic issuers. Investments in foreign securities also involve the risk of possible adverse changes in investment or exchange control regulations, expropriation or confiscatory taxation, limitation on the removal of funds or other assets of the Fund, political or financial instability or diplomatic and other developments which could affect such investments. Foreign securities markets, while growing in volume and sophistication, are generally not as developed as those in the United States, and securities of some foreign issuers (particularly those located in developing countries) may be less liquid and more volatile than securities of comparable U.S. companies. In general, there is less overall governmental supervision and regulation of foreign securities markets, broker-dealers and issuers than in the United States.

10 Fair Value Measurements

The Fund adopted FASB Statement of Financial Accounting Standards No. 157 (FAS 157), Fair Value Measurements , (currently FASB ASC 820-10), effective November 1, 2008. Such standard established a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At October 31, 2009, the inputs used in valuing the Fund s investments, which are carried at value, were as follows:

Quoted Prices in Active Markets for	Significant Other	Significant
--	------------------------------	--------------------

Edgar Filing: Eaton Vance Short Duration Diversified Income Fund - Form N-CSR

	Identical Assets	Observable Inputs	Unobservable Inputs	
Asset Description	(Level 1)	(Level 2)	(Level 3)	Total

11 Review for Subsequent Events

In connection with the preparation of the financial statements of the Fund as of and for the year ended October 31, 2009, events and transactions subsequent to October 31, 2009 through December 28, 2009, the date the financial statements were issued, have been evaluated by the Fund's management for possible adjustment and/or disclosure. Management has not identified any subsequent events requiring financial statement disclosure as of the date these financial statements were issued.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Shareholders of Eaton Vance Short Duration Diversified Income Fund:

We have audited the accompanying statement of assets and liabilities of Eaton Vance Short Duration Diversified Income Fund (the Fund), including the portfolio of investments, as of October 31, 2009, and the related statement of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the four years in the period then ended and the period from the start of business, February 28, 2005, to October 31, 2005. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities and senior loans owned as of October 31, 2009, by correspondence with the custodian, brokers and selling or agent banks; where replies were not received from brokers and selling or agent banks, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Eaton Vance Short Duration Diversified Income Fund as of October 31, 2009, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the four years in the period then ended and the period from the start of business, February 28, 2005, to October 31, 2005, in conformity with accounting principles generally accepted in the United States of America.

Eaton Vance Short Duration Diversified Income Fund

NOTICE TO SHAREHOLDERS

In February 2009, the following changes were made to the Fund's investment policies:

The Fund was authorized to invest in commercial mortgage-backed securities (CMBS). The Fund is permitted to invest in CMBS among the other investments in which it may invest in addition to investing at least 25% of its net assets in each of: (i) mortgage-backed securities, (ii) senior loans and (iii) foreign obligations, including derivative instruments. The risks associated with CMBS include the effects of local and other economic conditions on real estate markets, the ability of tenants to make loan payments, and the ability of a property to attract and retain tenants. CMBS may be less liquid and exhibit greater price volatility than other types of mortgage- or asset-backed securities.

The Fund was authorized to execute short sales of sovereign bonds, provided that not more than 15% of its net assets are held as collateral for such sales at any one time, and to enter into reverse repurchase agreements. A short sale involves the sale of a security that is borrowed from a broker or other institution to complete the sale. Short sales expose the Fund to the risk that it will be required to acquire securities to replace the borrowed securities (also known as covering the short position) at a time when the securities sold short have appreciated in value, thus resulting in a loss to the Fund. Under a reverse repurchase agreement, possession of a portfolio instrument is temporarily transferred to another party in return for cash, with the counterparty agreeing to return the instrument at an agreed upon time (normally within seven days) and price, which reflects an interest payment. Any fluctuation in the market value of the instrument transferred could affect the market value of the Fund's assets. Because reverse repurchase agreements may be considered to be the practical equivalent of borrowing funds, they constitute a form of leverage.

A non-fundamental investment policy of the Fund was revised to provide that the Fund may not make short sales of securities or maintain a short position, unless at all times when a short position is open (i) it owns an equal amount of such securities or securities convertible or exchangeable, without payment of any further consideration, for securities of the same issue as, and equal in amount to, the securities sold short or (ii) it holds in a segregated account cash or other liquid securities (to the extent required under the Investment Company Act of 1940) in an amount equal to the current market value of the securities sold short.

At a special meeting held on October 23, 2009, shareholders authorized the Fund to invest in commodities-related investments to the extent permitted by law. Commodities-related investments may include (but are not limited to) futures contracts on commodities and options thereon, commodity exchange-traded funds and notes, total return swaps on commodity indices, commodity-linked notes and commodity-related warrants. The value of commodities-related investments will generally be affected by overall market movements and factors specific to a particular industry or commodity, which may include weather, health, political and regulatory developments. The Fund will not invest in commodity-related investments until it has obtained any required tax rulings.

Beginning December 14, 2009, the Fund may participate in the Term Asset-Backed Loan Facility (TALF) program. The TALF is a loan facility administered by the Federal Reserve Bank of New York (the New York Fed) in conjunction with the U.S. Treasury Department. The program provides term financing for eligible asset backed securities (ABS) and commercial mortgage-backed securities (CMBS), which include those backed by student loans, autos (loan, lease, motorcycle and auto dealer floorplan), credit cards (consumer and business), equipment loans, insurance premium finance loans, small business loans and CMBS, with potential expansion to include private-label

residential mortgage-backed securities, collateralized loan and debt obligations and other types of assets deemed appropriate by the New York Fed.

TALF-eligible securities currently consist of U.S. dollar-denominated cash ABS, qualifying CMBS issued after January 1, 2009 (New Issuance CMBS) and qualifying CMBS issued before January 1, 2009 (Legacy CMBS).

ABS and CMBS must conform to several criteria issued by the Federal Reserve Board to be eligible under the TALF program. In order for New Issuance CMBS and Legacy CMBS to qualify for TALF financing, the underlying mortgage loans must also meet certain criteria. The Fund is permitted to invest in ABS and CMBS.

Under TALF, the New York Fed provides non-recourse funding to eligible borrowers through one or more loans (TALF loans) via primary dealers or a group of authorized banks (Primary Dealers) as agents. Those Primary Dealers facilitate the lending of money to eligible borrowers (pursuant to a Master Loan and Security Agreement (MLSA)), including U.S. organized pooled investment vehicles, such as hedge funds, private equity funds and registered investment companies. The loan process for ABS and New Issuance CMBS entails a borrower purchasing the securities and paying up-front a haircut amount (in general currently ranging from 5% to 16%) plus an administration fee (in general currently ten basis points for ABS and 20 basis points for CMBS), in exchange for the Primary Dealer depositing the security into an account held at The Bank of New York Mellon, with the balance of the payment coming from the New York Fed. In the case of Legacy CMBS, the loan process entails a borrower purchasing the CMBS for settlement during the eligible period for TALF subscriptions. Thereafter, the borrower submits a request for a TALF loan through the Primary Dealer on the declared subscription date. The New York Fed reviews all Legacy CMBS requests for acceptance or rejection.

Table of Contents

Eaton Vance Short Duration Diversified Income Fund

NOTICE TO SHAREHOLDERS CONT D

The terms and conditions of the Fund's participation in the TALF program will be governed by the TALF Standing Loan Facility Procedures and the MLSA. The MLSA will also include representations, warranties and covenants of the Fund and the Primary Dealer. The Fund will also be required to enter into Customer Agreements with its Primary Dealers that will contain additional representations, warranties, covenants and indemnities for the benefit of such Primary Dealer.

The TALF program is currently scheduled to terminate on March 31, 2010 for ABS and Legacy CMBS and on June 30, 2010 for New Issuance CMBS.

A borrowing by the Fund under the TALF program is subject to similar risks associated with borrowings from banks as described in the Fund's prospectus. However, pursuant to a recent no-action letter issued by the Staff of the United States Securities and Exchange Commission, in lieu of complying with the 300% asset coverage requirements of Section 18 of the Investment Company Act of 1940, as amended, the Fund need only segregate, on its books or the books of its custodian, liquid assets in an amount equal to the outstanding principal and interest due on the TALF loan. Thus, the combination of this asset segregation requirement and the pledge of TALF-eligible securities ensure that the Fund's borrowing under the TALF program will, in effect, have asset coverage of at least 200%. Borrowing under the TALF program also may cause the Fund to incur costs, in addition to the interest due, including an administrative fee imposed by the New York Fed and certain other fees that may be charged by the Primary Dealers.

While not anticipated, should the periodic interest and principal payments due on a TALF loan exceed the amounts received on the pledged TALF-eligible security, the Fund may be required to pay such additional amounts from its other portfolio assets which could cause the Fund to sell other securities or investments at times when it might not otherwise choose to do so. In addition, in some instances, the Fund may be deemed to have earned income on the pledged collateral that must be paid out to shareholders under applicable Federal tax regulations without receiving cash sufficient to make such distributions. The Fund has also agreed not to exercise or refrain from exercising any vote, consent or waiver rights under a TALF-eligible security without consent of the New York Fed.

Participation in the TALF program may expose the Fund to, among others, the risks associated with leverage, bridge financing, and non-recourse financing. While the degree of leverage utilized by the Fund will vary depending upon categories of TALF-eligible securities and haircut amounts assigned from time to time under the TALF program, all TALF investments will be leveraged significantly, with the effect that fluctuations in the price of the underlying ABS or CMBS could result in high volatility in the value of the net investment and adversely effect the performance of the Fund. The use of leverage has the potential to magnify the gains or the losses on the Fund's investments. Such risks may be minimized by the non-recourse nature of the TALF loans combined with the limitation on use of TALF-financed investments in the Fund described below.

If the Fund acquires CMBS or ABS in the secondary market, it may also be exposed to the risks associated with bridge financing. Given the unique operational aspects of the TALF program, the Fund will be required to provide cash or engage bridge financing for the period between settlement and release of TALF loans by the New York Fed. The Fund is also at risk if the New York Fed chooses to reject, in whole or in part, its request for a TALF loan to finance a specific CMBS CUSIP. In those circumstances, the Fund will bear the risk that such security's value will decrease, perhaps significantly.

As noted above, the New York Fed as lender generally has limited recourse against the Fund under the terms of each MLSA. Recourse is limited to the collateral securing each TALF loan except in the following circumstances: if the Fund is no longer an eligible borrower, is in breach of certain representations and warranties, fails to reimburse amounts paid to it in error or it fails to exercise its collateral surrender rights at the maturity of a TALF loan and the TALF loan is not repaid in full. In those instances, the New York Fed may seek recourse against the Fund and any guarantor without such recourse being limited to the value of the collateral in respect of the relevant TALF loan. Similar full recourse rights likely will exist for the Primary Dealers under analogous circumstances under the Customer Agreements.

DIVIDEND REINVESTMENT PLAN

The Fund offers a dividend reinvestment plan (the Plan) pursuant to which shareholders may elect to have distributions automatically reinvested in shares (the Shares) of the Fund. You may elect to participate in the Plan by completing the Dividend Reinvestment Plan Application Form. If you do not participate, you will receive all distributions in cash paid by check mailed directly to you by American Stock & Transfer Trust Company (AST) as dividend paying agent. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions, then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with the Fund's transfer agent, AST or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by the Fund. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquiries regarding the Plan can be directed to the Plan Agent, AST, at 1-866-439-6787.

APPLICATION FOR PARTICIPATION IN DIVIDEND REINVESTMENT PLAN

This form is for shareholders who hold their common shares in their own names. If your common shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it will participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank, or nominee is unable to participate on your behalf, you should request that your common shares be re-registered in your own name which will enable your participation in the Plan.

The following authorization and appointment is given with the understanding that I may terminate it at any time by terminating my participation in the Plan as provided in the terms and conditions of the Plan.

Please print exact name on account:

Shareholder signature	Date
Shareholder signature	Date

Please sign exactly as your common shares are registered. All persons whose names appear on the share certificate must sign.

YOU SHOULD NOT RETURN THIS FORM IF YOU WISH TO RECEIVE YOUR DISTRIBUTIONS IN CASH. THIS IS NOT A PROXY.

This authorization form, when signed, should be mailed to the following address:

Eaton Vance Short Duration Diversified Income Fund

Eaton Vance Short Duration Diversified Income Fund

BOARD OF TRUSTEES ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENT

Overview of the Contract Review Process

The Investment Company Act of 1940, as amended (the 1940 Act), provides, in substance, that each investment advisory agreement between a fund and its investment adviser will continue in effect from year to year only if its continuance is approved at least annually by the fund's board of trustees, including by a vote of a majority of the trustees who are not interested persons of the fund (Independent Trustees), cast in person at a meeting called for the purpose of considering such approval.

At a meeting of the Boards of Trustees (each a Board) of the Eaton Vance group of mutual funds (the Eaton Vance Funds) held on April 27, 2009, the Board, including a majority of the Independent Trustees, voted to approve continuation of existing advisory and sub-advisory agreements for the Eaton Vance Funds for an additional one-year period. In voting its approval, the Board relied upon the affirmative recommendation of the Contract Review Committee of the Board (formerly the Special Committee), which is a committee comprised exclusively of Independent Trustees. Prior to making its recommendation, the Contract Review Committee reviewed information furnished for a series of meetings of the Contract Review Committee held in February, March and April 2009. Such information included, among other things, the following:

Information about Fees, Performance and Expenses

- An independent report comparing the advisory and related fees paid by each fund with fees paid by comparable funds;
- An independent report comparing each fund's total expense ratio and its components to comparable funds;
- An independent report comparing the investment performance of each fund to the investment performance of comparable funds over various time periods;
- Data regarding investment performance in comparison to relevant peer groups of funds and appropriate indices;
- Comparative information concerning fees charged by each adviser for managing other mutual funds and institutional accounts using investment strategies and techniques similar to those used in managing the fund;
- Profitability analyses for each adviser with respect to each fund;

Information about Portfolio Management

- Descriptions of the investment management services provided to each fund, including the investment strategies and processes employed, and any changes in portfolio management processes and personnel;
- Information concerning the allocation of brokerage and the benefits received by each adviser as a result of brokerage allocation, including information concerning the acquisition of research through soft dollar benefits received in connection with the funds' brokerage, and the implementation of a soft dollar reimbursement program established with respect to the funds;
- Data relating to portfolio turnover rates of each fund;
- The procedures and processes used to determine the fair value of fund assets and actions taken to monitor and test the effectiveness of such procedures and processes;

Information about each Adviser

Reports detailing the financial results and condition of each adviser;
Descriptions of the qualifications, education and experience of the individual investment professionals whose responsibilities include portfolio management and investment research for the funds, and information relating to their compensation and responsibilities with respect to managing other mutual funds and investment accounts;
Copies of the Codes of Ethics of each adviser and its affiliates, together with information relating to compliance with and the administration of such codes;
Copies of or descriptions of each adviser's proxy voting policies and procedures;
Information concerning the resources devoted to compliance efforts undertaken by each adviser and its affiliates on behalf of the funds (including descriptions of various compliance programs) and their record of compliance with investment policies and restrictions, including policies with respect to market-timing, late trading and selective portfolio disclosure, and with policies on personal securities transactions;
Descriptions of the business continuity and disaster recovery plans of each adviser and its affiliates;

Other Relevant Information

Information concerning the nature, cost and character of the administrative and other non-investment management services provided by Eaton Vance Management and its affiliates;
Information concerning management of the relationship with the custodian, subcustodians and fund accountants by each adviser or the funds' administrator; and
The terms of each advisory agreement.

Table of Contents

Eaton Vance Short Duration Diversified Income Fund

BOARD OF TRUSTEES ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENT CONT D

In addition to the information identified above, the Contract Review Committee considered information provided from time to time by each adviser throughout the year at meetings of the Board and its committees. Over the course of the twelve-month period ended April 30, 2009, the Board met eighteen times and the Contract Review Committee, the Audit Committee, the Governance Committee, the Portfolio Management Committee and the Compliance Reports and Regulatory Matters Committee, each of which is a Committee comprised solely of Independent Trustees, met seven, five, six, six and six times, respectively. At such meetings, the Trustees received, among other things, presentations by the portfolio managers and other investment professionals of each adviser relating to the investment performance of each fund and the investment strategies used in pursuing the fund's investment objective.

For funds that invest through one or more underlying portfolios, the Board considered similar information about the portfolio(s) when considering the approval of advisory agreements. In addition, in cases where the fund's investment adviser has engaged a sub-adviser, the Board considered similar information about the sub-adviser when considering the approval of any sub-advisory agreement.

The Contract Review Committee was assisted throughout the contract review process by Goodwin Procter LLP, legal counsel for the Independent Trustees. The members of the Contract Review Committee relied upon the advice of such counsel and their own business judgment in determining the material factors to be considered in evaluating each advisory and sub-advisory agreement and the weight to be given to each such factor. The conclusions reached with respect to each advisory and sub-advisory agreement were based on a comprehensive evaluation of all the information provided and not any single factor. Moreover, each member of the Contract Review Committee may have placed varying emphasis on particular factors in reaching conclusions with respect to each advisory and sub-advisory agreement.

Results of the Process

Based on its consideration of the foregoing, and such other information as it deemed relevant, including the factors and conclusions described below, the Contract Review Committee concluded that the continuance of the investment advisory agreement between Eaton Vance Short Duration Diversified Income Fund (the Fund) and Eaton Vance Management (the Adviser), including its fee structure, is in the interests of shareholders and, therefore, the Contract Review Committee recommended to the Board approval of the agreement. The Board accepted the recommendation of the Contract Review Committee as well as the factors considered and conclusions reached by the Contract Review Committee with respect to the agreement. Accordingly, the Board, including a majority of the Independent Trustees, voted to approve continuation of the investment advisory agreement for the Fund.

Nature, Extent and Quality of Services

In considering whether to approve the investment advisory agreement of the Fund, the Board evaluated the nature, extent and quality of services provided to the Fund by the Adviser.

The Board considered the Adviser's management capabilities and investment process with respect to the types of investments held by the Fund, including the education, experience and number of its investment professionals and other personnel who provide portfolio management, investment research, and similar services to the Fund, including

recent changes to such personnel. In particular, the Board evaluated the abilities and experience of such investment personnel in analyzing factors such as credit risk and special considerations relevant to investing in senior, secured floating-rate loans, foreign debt obligations, including debt of emerging market issuers, and mortgage-backed securities. The Board considered the Adviser's in-house research capabilities as well as other resources available to personnel of the Adviser. The Board also took into account the resources dedicated to portfolio management and other services, including the compensation paid to recruit and retain investment personnel, and the time and attention devoted to the Fund by senior management.

The Board also reviewed the compliance programs of the Adviser and relevant affiliates thereof. Among other matters, the Board considered compliance and reporting matters relating to personal trading by investment personnel, selective disclosure of portfolio holdings, late trading, frequent trading, portfolio valuation, business continuity and the allocation of investment opportunities. The Board also evaluated the responses of the Adviser and its affiliates to requests from regulatory authorities such as the Securities and Exchange Commission and the Financial Industry Regulatory Authority.

The Board considered shareholder and other administrative services provided or managed by Eaton Vance Management and its affiliates, including transfer agency and accounting services. The Board evaluated the benefits to shareholders of investing in a fund that is a part of a large family of funds.

The Board considered the Adviser's recommendations for Board action and other steps taken in response to the unprecedented dislocations experienced in the capital markets over recent periods, including sustained periods of high volatility, credit disruption and government intervention. In particular, the Board considered the Adviser's efforts and expertise with respect to each of the following

Table of Contents

Eaton Vance Short Duration Diversified Income Fund

BOARD OF TRUSTEES ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENT CONT D

matters as they relate to the Fund and/or other funds within the Eaton Vance family of funds: (i) negotiating and maintaining the availability of bank loan facilities and other sources of credit used for investment purposes or to satisfy liquidity needs; (ii) establishing the fair value of securities and other instruments held in investment portfolios during periods of market volatility and issuer-specific disruptions; and (iii) the ongoing monitoring of investment management processes and risk controls.

After consideration of the foregoing factors, among others, the Board concluded that the nature, extent and quality of services provided by the Adviser, taken as a whole, are appropriate and consistent with the terms of the respective investment advisory agreement.

Fund Performance

The Board compared the Fund's investment performance to a relevant universe of similarly managed funds identified by an independent data provider and appropriate benchmark indices. The Board reviewed comparative performance data for the one- and three-year periods ended September 30, 2008 for the Fund. The Board concluded that the performance of the Fund was satisfactory.

Management Fees and Expenses

The Board reviewed contractual investment advisory fee rates, including any administrative fee rates, payable by the Fund (referred to as "management fees"). The Board noted the nature of the management fees which are charged on total leveraged assets, and its relationship to the investment objectives of the Fund. The Board concluded that the fees were appropriate in light of the manner in which the leverage will be used by the Adviser in managing the Fund.

As part of its review, the Board considered the Fund's management fees and total expense ratio for the year ended September 30, 2008, as compared to a group of similarly managed funds selected by an independent data provider. The Board considered the fact that the Adviser had waived fees and/or paid expenses for the Fund.

After reviewing the foregoing information, and in light of the nature, extent and quality of the services provided by the Adviser, the Board concluded that the management fees charged for advisory and related services and the Fund's total expense ratio are reasonable.

Profitability

The Board reviewed the level of profits realized by the Adviser and relevant affiliates thereof in providing investment advisory and administrative services to the Fund and to all Eaton Vance Funds as a group. The Board considered the level of profits realized with and without regard to revenue sharing or other payments by the Adviser and its affiliates to third parties in respect of distribution services. The Board also considered other direct or indirect benefits received by the Adviser and its affiliates in connection with its relationship with the Fund.

The Board concluded that, in light of the foregoing factors and the nature, extent and quality of the services rendered, the profits realized by the Adviser and its affiliates are reasonable.

Economies of Scale

In reviewing management fees and profitability, the Board also considered the extent to which the Adviser and its affiliates, on the one hand, and the Fund, on the other hand, can expect to realize benefits from economies of scale as the assets of the Fund increase. The Board acknowledged the difficulty in accurately measuring the benefits resulting from the economies of scale with respect to the management of any specific fund or group of funds. The Board also considered the fact that the Fund is not continuously offered and concluded that, in light of the level of the Adviser's profits with respect to the Fund, the implementation of breakpoints in the advisory fee schedule is not appropriate at this time. Based upon the foregoing, the Board concluded that the benefits from economies of scale are currently being shared equitably by the Adviser and its affiliates and the Fund.

MANAGEMENT AND ORGANIZATION

Fund Management. The Trustees of Eaton Vance Short Duration Diversified Income Fund (the Fund) are responsible for the overall management and supervision of the Fund's affairs. The Trustees and officers of the Fund are listed below. Except as indicated, each individual has held the office shown or other offices in the same company for the last five years. The Noninterested Trustees consist of those Trustees who are not interested persons of the Fund, as that term is defined under the 1940 Act. The business address of each Trustee and officer is Two International Place, Boston, Massachusetts 02110. As used below, EVC refers to Eaton Vance Corp., EV refers to Eaton Vance, Inc., EVM refers to Eaton Vance Management, BMR refers to Boston Management and Research, and EVD refers to Eaton Vance Distributors, Inc. EVC and EV are the corporate parent and trustee, respectively, of EVM and BMR. EVD is a wholly-owned subsidiary of EVC. Each officer affiliated with Eaton Vance may hold a position with other Eaton Vance affiliates that is comparable to his or her position with EVM listed below.

Table of Contents

2319-12/09

CE-SDDISRC

Table of Contents**Item 2. Code of Ethics**

The registrant has adopted a code of ethics applicable to its Principal Executive Officer, Principal Financial Officer and Principal Accounting Officer. The registrant undertakes to provide a copy of such code of ethics to any person upon request, without charge, by calling 1-800-262-1122.

Item 3. Audit Committee Financial Expert

The registrant's Board has designated William H. Park, an independent trustee, as its audit committee financial expert. Mr. Park is a certified public accountant who is the Vice Chairman of Commercial Industrial Finance Corp (specialty finance company). Previously, he served as President and Chief Executive Officer of Prizm Capital Management, LLC (investment management firm) and as Executive Vice President and Chief Financial Officer of United Asset Management Corporation (UAM) (a holding company owning institutional investment management firms).

Item 4. Principal Accountant Fees and Services**(a) (d)**

The following table presents the aggregate fees billed to the registrant for the registrant's fiscal years ended October 31, 2008 and October 31, 2009 by the Fund's principal accountant, Deloitte & Touche LLP (D&T), for professional services rendered for the audit of the registrant's annual financial statements and fees billed for other services rendered by the principal accountant during such period.

Fiscal Years Ended	10/31/08	10/31/09
Audit Fees	\$63,395	\$64,460
Audit-Related Fees ⁽¹⁾	\$ 0	\$ 0
Tax Fees ⁽²⁾	\$20,400	\$20,900
All Other Fees ⁽³⁾	\$ 301	\$ 2,500
Total	\$84,096	\$87,860

(1) Audit-related fees consist of the aggregate fees billed for assurance and related services that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under the category of audit fees.

(2) Tax fees consist of the aggregate fees billed for professional services rendered by the

principal accountant relating to tax compliance, tax advice, and tax planning and specifically include fees for tax return preparation and other related tax compliance/planning matters.

- (3) All other fees consist of the aggregate fees billed for products and services provided by the registrant's principal accountant other than audit, audit-related, and tax services.

For both the fiscal years ended October 31, 2008 and October 31, 2009, the registrant was billed \$40,000, by D&T, for work done in connection with its Rule 17Ad-13 examination of Eaton Vance Management's assertion that it has maintained an effective internal control structure over sub-transfer agent and registrar functions, such services being pre-approved in accordance with Rule 2-01(c)(7)(ii) of Regulation S-X.

(e)(1) The registrant's audit committee has adopted policies and procedures relating to the pre-approval of services provided by the registrant's principal accountant (the Pre-Approval Policies). The Pre-Approval Policies establish a framework intended to assist the audit committee in the proper discharge of its pre-approval responsibilities. As a general matter, the Pre-Approval Policies (i) specify certain types of audit, audit-related, tax, and other services determined to be pre-approved by the audit committee; and (ii) delineate specific procedures governing the mechanics of the pre-approval process,

Table of Contents

including the approval and monitoring of audit and non-audit service fees. Unless a service is specifically pre-approved under the Pre-Approval Policies, it must be separately pre-approved by the audit committee. The Pre-Approval Policies and the types of audit and non-audit services pre-approved therein must be reviewed and ratified by the registrant's audit committee at least annually. The registrant's audit committee maintains full responsibility for the appointment, compensation, and oversight of the work of the registrant's principal accountant.

(e)(2) No services described in paragraphs (b)-(d) above were approved by the registrant's audit committee pursuant to the de minimis exception set forth in Rule 2-01 (c)(7)(i)(C) of Regulation S-X.

(f) Not applicable.

(g) The following table presents (i) the aggregate non-audit fees (i.e., fees for audit-related, tax, and other services) billed to the registrant by the registrant's principal accountant for the registrant's fiscal year ended October 31, 2008 and the fiscal year ended October 31, 2009; and (ii) the aggregate non-audit fees (i.e., fees for audit-related, tax, and other services) billed to the Eaton Vance organization by the registrant's principal accountant for the same time periods.

Fiscal Years Ended	10/31/08	10/31/09
Registrant	\$ 20,701	\$ 23,400
Eaton Vance⁽¹⁾	\$325,329	\$280,861

(1) The investment adviser to the registrant, as well as any of its affiliates that provide ongoing services to the registrant, are subsidiaries of Eaton Vance Corp.

(h) The registrant's audit committee has considered whether the provision by the registrant's principal accountant of non-audit services to the registrant's investment adviser and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant that were not pre-approved pursuant to Rule 2-01(c)(7)(ii) of Regulation S-X is compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed registrants

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities and Exchange Act of 1934, as amended. William H. Park (Chair), Lynn A. Stout, Heidi L. Steiger and Ralph F. Verni are the members of the registrant's audit committee.

Table of Contents

Item 6. Schedule of Investments

Please see schedule of investments contained in the Report to Stockholders included under Item 1 of this Form N-CSR.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the Fund Policy), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund's investment adviser and adopted the investment adviser's proxy voting policies and procedures (the Policies) which are described below. The Trustees will review the Fund's proxy voting records from time to time and will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board's Special Committee except as contemplated under the Fund Policy. The Board's Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. An independent proxy voting service (Agent), currently Institutional Shareholder Services, Inc., has been retained to assist in the voting of proxies through the provision of vote analysis, implementation and recordkeeping and disclosure services. The investment adviser will generally vote proxies through the Agent. The Agent is required to vote all proxies and/or refer then back to the investment adviser pursuant to the Policies. It is generally the policy of the investment adviser to vote in accordance with the recommendation of the Agent. The Agent shall refer to the investment adviser proxies relating to mergers and restructurings, and the disposition of assets, termination, liquidation and mergers contained in mutual fund proxies. The investment adviser will normally vote against anti-takeover measures and other proposals designed to limit the ability of shareholders to act on possible transactions, except in the case of closed-end management investment companies. The investment adviser generally supports management on social and environmental proposals. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote or the economic effect on shareholders interests or the value of the portfolio holding is indeterminable or insignificant.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients. The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to the personal of the investment adviser identified in the Policies. If such personnel expects to instruct the Agent to vote such proxies in a manner inconsistent with the guidelines of the Policies or the recommendation of the Agent, the personnel will consult with members of senior management of the investment adviser to determine if a material conflict of interests exists. If it is determined that a

Table of Contents

material conflict does exist, the investment adviser will seek instruction on how to vote from the Special Committee. Information on how the Fund voted proxies relating to portfolio securities during the most recent 12 month period ended June 30 is available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Item 8. Portfolio Managers of Closed-End Management Investment Companies

Christine Johnston, Catherine M. McDermott, Scott H. Page, Susan Schiff, Payson F. Swaffield, Mark S. Venezia and other Eaton Vance Management (EVM) investment professionals comprise the investment team responsible for the overall and day-to-day management of the Fund's investments as well as allocations among the Fund's three principal investment categories.

Ms. Johnston has been with Eaton Vance since 1994 and is a Vice President of EVM and Boston Management and Research, an Eaton Vance subsidiary (BMR). Ms. McDermott has been with Eaton Vance since 2000 and is a Vice President of EVM and BMR. Mr. Page has been an Eaton Vance portfolio manager since 1996 and is a Vice President of EVM and BMR. He is head of Eaton Vance's Bank Loan Investment Group. Ms. Schiff has been an Eaton Vance portfolio manager since 1991 and is a Vice President of EVM and BMR. Mr. Swaffield is Chief Income Investment Officer of EVM and BMR and has been an Eaton Vance portfolio manager since 1996. Mr. Venezia has been an Eaton Vance portfolio manager since 1990 and is a Vice President of EVM and BMR. He is head of Eaton Vance's Global Bond Department. This information is provided as of the date of filing of this report.

The following tables show, as of the Fund's most recent fiscal year end, the number of accounts each portfolio manager managed in each of the listed categories and the total assets in the accounts managed within each category. The table also shows the number of accounts with respect to which the advisory fee is based on the performance of the account, if any, and the total assets in those accounts.

* In millions of dollars.

** Numbers provided include an investment company structured as a fund of funds which invests in funds in the Eaton Vance complex advised by other portfolio managers.

Certain of the funds that Mr. Venezia serves as portfolio manager may invest in underlying portfolios that Mr. Venezia also serves as portfolio manager.

Table of Contents

The following table shows the dollar range of Fund shares beneficially owned by each portfolio manager as of the Fund's most recent fiscal year end.

Portfolio Manager	Dollar Range of Equity Securities Owned in the Fund
Christine Johnston	None
Catherine M. McDermott	None
Scott H. Page	None
Susan Schiff	None
Payson F. Swaffield	None
Mark S. Venezia	\$100,001 - \$500,000

Potential for Conflicts of Interest. It is possible that conflicts of interest may arise in connection with a portfolio manager's management of the Fund's investments on the one hand and investments of other accounts for which a portfolio manager is responsible on the other. For example, a portfolio manager may have conflicts of interest in allocating management time, resources and investment opportunities among the Fund and other accounts he or she advises. In addition, due to differences in the investment strategies or restrictions between the Fund and the other accounts, a portfolio manager may take action with respect to another account that differs from the action taken with respect to the Fund. In some cases, another account managed by a portfolio manager may compensate the investment adviser or sub-adviser based on the performance of the securities held by that account. The existence of such a performance based fee may create additional conflicts of interest for a portfolio manager in the allocation of management time, resources and investment opportunities. Whenever conflicts of interest arise, a portfolio manager will endeavor to exercise his or her discretion in a manner that he or she believes is equitable to all interested persons. EVM has adopted several policies and procedures designed to address these potential conflicts including: a code of ethics; and policies which govern the investment adviser's trading practices, including among other things the aggregation and allocation of trades among clients, brokerage allocation, cross trades and best execution.

Compensation Structure for EVM

Compensation of EVM's portfolio managers and other investment professionals has three primary components: (1) a base salary, (2) an annual cash bonus, and (3) annual stock-based compensation consisting of options to purchase shares of EVC's nonvoting common stock and restricted shares of EVC's nonvoting common stock. EVM's investment professionals also receive certain retirement, insurance and other benefits that are broadly available to EVM's employees. Compensation of EVM's investment professionals is reviewed primarily on an annual basis. Cash bonuses, stock-based compensation awards, and adjustments in base salary are typically paid or put into effect at or shortly after the October 31st fiscal year end of EVC.

Method to Determine Compensation. EVM compensates its portfolio managers based primarily on the scale and complexity of their portfolio responsibilities and the total return performance of managed funds and accounts versus appropriate peer groups or benchmarks. In addition to rankings within peer groups of funds on the basis of absolute performance, consideration may also be given to relative risk-

Table of Contents

adjusted performance. Risk-adjusted performance measures include, but are not limited to, the Sharpe Ratio. Performance is normally based on periods ending on the September 30th preceding fiscal year end. Fund performance is normally evaluated primarily versus peer groups of funds as determined by Lipper Inc. and/or Morningstar, Inc. When a fund's peer group as determined by Lipper or Morningstar is deemed by EVM's management not to provide a fair comparison, performance may instead be evaluated primarily against a custom peer group. In evaluating the performance of a fund and its manager, primary emphasis is normally placed on three-year performance, with secondary consideration of performance over longer and shorter periods. For funds that are tax-managed or otherwise have an objective of after-tax returns, performance is measured net of taxes. For other funds, performance is evaluated on a pre-tax basis. For funds with an investment objective other than total return (such as current income), consideration will also be given to the fund's success in achieving its objective. For managers responsible for multiple funds and accounts, investment performance is evaluated on an aggregate basis, based on averages or weighted averages among managed funds and accounts. Funds and accounts that have performance-based advisory fees are not accorded disproportionate weightings in measuring aggregate portfolio manager performance.

The compensation of portfolio managers with other job responsibilities (such as heading an investment group or providing analytical support to other portfolios) will include consideration of the scope of such responsibilities and the managers' performance in meeting them.

EVM seeks to compensate portfolio managers commensurate with their responsibilities and performance, and competitive with other firms within the investment management industry. EVM participates in investment-industry compensation surveys and utilizes survey data as a factor in determining salary, bonus and stock-based compensation levels for portfolio managers and other investment professionals. Salaries, bonuses and stock-based compensation are also influenced by the operating performance of EVM and its parent company. The overall annual cash bonus pool is based on a substantially fixed percentage of pre-bonus operating income. While the salaries of EVM's portfolio managers are comparatively fixed, cash bonuses and stock-based compensation may fluctuate significantly from year to year, based on changes in manager performance and other factors as described herein. For a high performing portfolio manager, cash bonuses and stock-based compensation may represent a substantial portion of total compensation.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

No such purchases this period.

Item 10. Submission of Matters to a Vote of Security Holders.

No Material Changes.

Table of Contents

Item 11. Controls and Procedures

(a) It is the conclusion of the registrant's principal executive officer and principal financial officer that the effectiveness of the registrant's current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant has been recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms and that the information required to be disclosed by the registrant has been accumulated and communicated to the registrant's principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.

(b) There have been no changes in the registrant's internal controls over financial reporting during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits

(a)(1) Registrant's Code of Ethics Not applicable (please see Item 2).

(a)(2)(i) Treasurer's Section 302 certification.

(a)(2)(ii) President's Section 302 certification.

(b) Combined Section 906 certification.
