QUARTERLY REPORT

(Mark One)

þ **Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**
For the quarterly period ended September 30, 2010

OR

o **Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**
For the transition period from __________ to __________

Commission file number: 1-12162

BORGWARNER INC.

(Exact name of registrant as specified in its charter)

Delaware	13-3404508
State or other jurisdiction of Incorporation or organization	(I.R.S. Employer Identification No.)
3850 Hamlin Road, Auburn Hills, Michigan	48326
(Address of principal executive offices)	(Zip Code)

Registrant s telephone number, including area code: (248) 754-9200

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES þ NO o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

YES þ NO o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer þ	Accelerated filer o	Non-accelerated filer o	Smaller reporting company o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

YES o NO þ

As of October 20, 2010, the registrant had 113,756,203 shares of voting common stock outstanding.

Diluted	127,804*	117,495	128,535*	116,440**
Dividends declared per share	$	$	$	$ 0.12

*

The Company s diluted earnings per share for the quarter and nine months ended September 30, 2010 includes the impact of the Company s 3.50% convertible notes and associated warrants. Refer to Note 18, Earnings (Loss) Per Share , for further information on our diluted earnings calculation.

** The Company had a loss for the nine months ended September 30, 2009. As a result, diluted loss per share is the same as basic, as any dilutive securities would reduce the loss per share. Therefore, diluted shares are equal to basic shares outstanding for the nine months ended September 30, 2009.

BORGWARNER INC. AND CONSOLIDATED SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of BorgWarner Inc. and Consolidated Subsidiaries (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes necessary for a comprehensive presentation of financial position, results of operations and cash flow activity required by GAAP for complete financial statements. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of results have been included. Operating results for the three and nine months ended September 30, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010. The balance sheet as of December 31, 2009 was derived from the audited financial statements as of that date. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2009.

We have reclassified certain 2009 amounts to conform to the presentation of our 2010 Condensed Consolidated Statement of Cash Flows. The financial statements and Management s Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

Management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and accompanying notes, as well as the amounts of revenues and expenses reported during the periods covered by those financial statements and accompanying notes. Actual results could differ from these estimates.

(2) Research and Development

The following table presents the Company s gross and net expenditures on research and development (R&D) activities:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(millions)	2010	2009	2010	2009
Gross R&D expenditures	$ 60.5	$ 51.9	$ 168.9	$ 151.2
Customer reimbursements	(14.7)	(10.5)	(34.7)	(41.5)
Net R&D expenditures	$ 45.8	$ 41.4	$ 134.2	$ 109.7

The Company s net R&D expenditures are included in the selling, general and administrative expenses of the Condensed Consolidated Statements of Operations. Customer reimbursements are netted against gross R&D expenditures upon billing of services performed. The Company has contracts with several customers at the Company s various R&D locations. No such contract exceeded $6 million in any of the periods presented.

Table of Contents

(3) Other Expense (Income)
Items included in other expense consist of:

(millions)	Three Months Ended September 30, 2010	Three Months Ended September 30, 2009	Nine Months Ended September 30, 2010	Nine Months Ended September 30, 2009
Environmental litigation settlement	$	$	$ 28.0	$
BERU-Eichenauer equity investment gain			(8.0)	
Other	0.1	(1.6)	2.0	(1.6)
Total other expense (income)	$ 0.1	$ (1.6)	$ 22.0	$ (1.6)

See Notes 15 and 21 to the Consolidated Financial Statements for more information regarding the Company s second quarter 2010 environmental litigation settlement and BERU-Eichenauer equity investment gain.

(4) Income Taxes

The Company s provision for income taxes is based upon an estimated annual tax rate for the year applied to federal, state and foreign income. On a quarterly basis, the annual effective tax rate is adjusted, as appropriate, based upon changed facts and circumstances, if any, as compared to those forecasted at the beginning of the fiscal year and each interim period thereafter.

The Company s effective tax rate in the third quarter was 3.6%. The provision for income taxes in the third quarter included a favorable impact of $21.2 million from the reversal of the Company s valuation allowance on U.S. based foreign tax credit carryforwards. The improving financial performance of the Company s U.S. operations has resulted in greater certainty that the Company will be able to fully utilize existing foreign tax credit carryforwards. Excluding this item, the effective tax rate for the third quarter was 22%.

The Company s projected annual effective tax rate for 2010 is estimated to be 17.3% which includes the impact of the reversal of the Company s valuation allowance on U.S. based foreign tax credit carryforwards, the change in tax legislation related to Medicare Part D subsidies, the additional tax expense associated with the BERU-Eichenauer equity investment gain and the tax benefit associated with the Company s environmental litigation settlement. This rate differs from the U.S. statutory rate primarily due to foreign rates, which differ from those in the U.S., the realization of certain business tax credits including foreign tax credits and favorable permanent differences between book and tax treatment for items, including equity in affiliates earnings. Excluding the impacts of the reversal of the valuation allowance on U.S. based foreign tax credits, the change in tax treatment for Medicare Part D subsidies, the BERU-Eichenauer equity investment gain and the Company s environmental litigation settlement, the Company s annual effective tax rate associated with on-going business operations was estimated to be 22%. In the second quarter, the Company increased its estimated annual effective tax rate for on-going business operations from 18% to 22%, primarily due to an increase in forecasted global earnings in higher taxed jurisdictions.

In the first quarter of 2010, the Patient Protection and Affordable Care Act (PPACA) was signed into law. In addition, the Health Care and Education Reconciliation Act of 2010 (the Reconciliation Act) was also passed, amending certain portions of the PPACA. The PPACA contains a provision eliminating tax deductibility of retiree health care costs to the extent of federal subsidies received by plan sponsors who provide retiree prescription drug benefits equivalent to Medicare Part D coverage. However, based upon the changes made in the Reconciliation Act, the tax benefit related to the Medicare Part D subsidies will be extended until December 31, 2012. For all tax years ending after December 31, 2012 there will no longer be a tax benefit for the Medicare Part D subsidies. Therefore, the impact to the Company for the loss of this future tax benefit (after December 31, 2012) was an additional tax expense of $2.5 million in the first quarter 2010.

Due to unprecedented depressed global economic conditions in 2009 there was significant uncertainty regarding industry production volumes. This precluded the Company from making a reliable estimate of the annual effective tax rate for the full year. Accordingly, the Company made the 2009 income tax provision pursuant to Accounting Standards Codification (ASC) Topic 740, *Income Taxes* , which provides that tax (or benefit) in each foreign jurisdiction that is not subject to a valuation allowance be separately computed as ordinary income/(loss) occurs within the jurisdiction for the quarter. The actual global effective tax rate for the nine months of 2009 was calculated to be a benefit of 54.5%, which resulted in a 7.0% tax rate for the third quarter. This represented an income tax benefit of ($24.2) million on a loss of ($44.4) million for the first nine months of 2009. It resulted in a $1.5 million expense on earnings before income taxes and noncontrolling interest of $21.5 million for the third quarter of 2009.

The Company continues to analyze and review all unrecognized tax benefits on a quarterly basis for changes. As of December 31, 2009, the balance of gross unrecognized tax benefits was $34.8 million. As of September 30, 2010 the balance of gross unrecognized tax benefits is $34.9 million. Included in the balance at September 30, 2010 are $28.7 million of tax positions that are permanent in nature and, if recognized, would reduce the global effective tax rate.

The Company is currently litigating disputed issues related to a certain state tax audit, which is not expected to be resolved by December 31, 2010. The Company is also in the final stages of a non-U.S. audit which may settle before December 31, 2010. A reasonably estimated amount is accounted for in the balance of the unrecognized tax benefits as of September 30, 2010. Other possible changes in the unrecognized tax benefits balance related to other examinations cannot be reasonably estimated within the next 12 months.

The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense. The Company had approximately $11.6 million of interest and penalties accrued at December 31, 2009. The Company had approximately $13.4 million for the payment of interest and penalties accrued at September 30, 2010.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction, and various states and foreign jurisdictions. The Company is no longer subject to income tax examinations by tax authorities in its major tax jurisdictions as follows:

Tax Jurisdiction	**Years No Longer Subject to Audit**
U.S. Federal	2006 and prior
Brazil	2003 and prior
France	2006 and prior
Germany	2003 and prior
Hungary	2007 and prior
Italy	2003 and prior
Japan	2008 and prior
South Korea	2004 and prior
United Kingdom	2006 and prior

Table of Contents

In certain tax jurisdictions the Company may have more than one taxpayer. The table above reflects the status of the major taxpayer in each major tax jurisdiction. In Germany the open tax years for BorgWarner BERU Systems GmbH are from 2002 and forward.

(5) Receivables Securitization

The Company securitizes certain receivables through third party financial institutions without recourse. The amount can vary each month based on the amount of underlying receivables. The Company continues to administer the collection of these receivables on behalf of the third party.

On April 24, 2009 the Company s $50 million accounts receivable securitization facility matured and was repaid. On December 21, 2009 the Company entered into a new $50 million accounts receivable securitization facility.

On September 8, 2010 the Company amended the December 21, 2009 Receivable Purchase Agreement, which increased the accounts receivable securitization facility from $50 million to $80 million, the maximum size of the facility. This facility matures on December 21, 2012.

The Company was required to adopt amended ASC Topic 860, *Accounting for Transfer of Financial Assets"*, on January 1, 2010. This adoption required the Company to reflect its receivable securitization facility in its financial statements in the current year of change. Accounting rules prior to January 1, 2010 allowed qualifying special-purpose entities off-balance sheet treatment. The impact of this adoption was an increase in receivables, net of $80 million and an increase in notes payable and other short-term debt of $80 million in the Company s September 30, 2010 Condensed Consolidated Balance Sheet.

The Company paid servicing fees related to these receivables for the three and nine months ended September 30, 2010 of $0.4 million and $0.9 million. The Company paid servicing fees related to these receivables for the nine months ended September 30, 2009 of $0.4 million. As they were under prior accounting rules, these amounts are consistently recorded in interest expense and finance charges in the Condensed Consolidated Statements of Operations.

(6) Inventories

Inventories are valued at the lower of cost or market. The cost of U.S. inventories is determined by the last-in, first-out (LIFO) method, while the operations outside the U.S. use the first-in, first-out (FIFO) or average-cost methods. Inventories consisted of the following:

(millions)	September 30, 2010	December 31, 2009
Raw material and supplies	$ 249.2	$ 187.3
Work in progress	93.1	69.8
Finished goods	111.6	68.8
FIFO inventories	453.9	325.9
LIFO reserve	(11.9)	(11.6)
Inventories, net	$ 442.0	$ 314.3

Table of Contents

(7) Property, Plant & Equipment

(millions)	September 30, 2010	December 31, 2009
Land and buildings	$ 671.9	$ 626.3
Machinery and equipment	1,940.5	1,866.5
Capital leases	2.3	2.4
Construction in progress	102.2	126.4
Total property, plant & equipment	2,716.9	2,621.6
Less accumulated depreciation	(1,293.6)	(1,211.6)
	1,423.3	1,410.0
Tooling, net of amortization	85.8	80.3
Property, plant and equipment net	$ 1,509.1	$ 1,490.3

Interest costs capitalized during the nine-month periods ended September 30, 2010 and September 30, 2009 were $8.4 million and $8.8 million, respectively.

As of September 30, 2010 and December 31, 2009, accounts payable of $20.6 million and $28.6 million, respectively, were related to property, plant and equipment purchases.

As of September 30, 2010 and December 31, 2009, specific assets of $3.5 million and $3.7 million, respectively, were pledged as collateral under certain of the Company s long-term debt agreements.

(8) Product Warranty

The Company provides warranties on some of its products. The warranty terms are typically from one to three years. Provisions for estimated expenses related to product warranty are made at the time products are sold. These estimates are established using historical information about the nature, frequency, and average cost of warranty claims. Management actively studies trends of warranty claims and takes action to improve product quality and minimize warranty claims. While management believes that the warranty accrual is appropriate, actual claims incurred could differ from the original estimates, requiring adjustments to the accrual. The accrual is recorded in both long-term and short-term liabilities on the balance sheet. The following table summarizes the activity in the warranty accrual accounts:

(millions)	Nine months ended September 30, 2010	2009
Beginning balance	$ 61.7	$ 82.1
Acquisition	3.0	
Provision	30.2	31.9
Payments	(25.6)	(51.8)
Currency translation	(1.0)	2.6
Ending balance	$ 68.3	$ 64.8

Table of Contents

The product warranty liability is classified in the consolidated balance sheet as follows:

(millions)	September 30, 2010	December 31, 2009
Accounts payable and accrued expenses	$ 35.1	$ 32.5
Other non-current liabilities	33.2	29.2
Total product warranty liability	$ 68.3	$ 61.7

(9) Notes Payable and Long-Term Debt

Following is a summary of notes payable and long-term debt, including the current portion. The weighted average interest rate on all borrowings outstanding as of September 30, 2010 and December 31, 2009 was 6.4% and 6.9%, respectively.

	September 30, 2010		December 31, 2009	
(millions)	Current	Long-Term	Current	Long-Term
Bank borrowings and other	$ 35.6	$ 1.7	$32.5	$ 1.5
Term loans due through 2015 (at an average rate of 4.4% in 2010 and 3.9% in 2009)	30.6	21.0	36.6	7.6
Receivables securitization facility (a)	80.0			
3.50% Convertible Notes due 04/15/12		343.7		330.2
5.75% Senior Notes due 11/01/16, net of unamortized discount (b)		149.3		149.3
8.00% Senior Notes due 10/01/19, net of unamortized discount (b)		133.9		133.9
4.625% Senior Notes due 9/15/20, net of unamortized discount		247.5		
7.125% Senior Notes due 2/15/29, net of unamortized discount		119.3		119.3
Carrying amount of notes payable and long-term debt	146.2	1,016.4	69.1	741.8
Impact of derivatives on debt (b)		28.7		31.4
Total notes payable and long-term debt	$146.2	$1,045.1	$69.1	$773.2

(a) On January 1, 2010, the Company adopted ASC Topic 860. The impact of this adoption is an increase in receivables, net of $80 million

and an increase in notes payable and other short-term debt of $80 million in the Company s September 30, 2010 Condensed Consolidated Balance Sheet. See Note 20 to the Condensed Consolidated Financial Statements for more information regarding the Company s first quarter 2010 adoption of ASC Topic 860.

(b) In 2006, the Company entered into several interest rate swaps that had the effect of converting $325.0 million of fixed rate notes to variable rates. In the first quarter of 2009, $100 million in interest rate swaps related to the Company s 2009 fixed rate debt matured, and the Company terminated $150 million in interest rate swap agreements related to the Company s 2016

fixed rate debt and $75 million of interest rate swap agreements related to the Company s 2019 fixed rate debt. As a result of the first quarter 2009 swap terminations, a $34.5 million gain remained in debt and is being amortized over the remaining lives of the respective 2016 and 2019 debt. As of September 30, 2010, the unamortized portion was $28.7 million.

On March 31, 2010, the Company replaced its $250 million multi-currency revolving credit facility with a new $550 million multi-currency revolving credit facility, which includes a feature that allows the Company to increase its borrowings to $600 million. The new facility provides for borrowings through March 31, 2013, and is guaranteed by the Company s domestic subsidiaries. The Company has three key financial covenants as part of the credit agreement. These covenants are a net worth test, a debt compared to EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) test, and an interest coverage test. The Company was in compliance with all covenants at September 30, 2010 and expects to remain compliant in future periods. At September 30, 2010 and December 31, 2009 there were no outstanding borrowings under these facilities.

On September 16, 2010, the Company issued $250 million in 4.625% senior notes due 2020. Interest is payable semi-annually on March 15 and September 15 of each year, beginning on March 15, 2011. The senior notes were issued under the Company s $750 million universal shelf registration filed with the Securities and Exchange Commission, leaving approximately $126 million available as of September 30, 2010.

Table of Contents

On April 9, 2009, the Company issued $373.8 million in convertible senior notes due April 15, 2012. Under ASC Topic 470, *Accounting for Convertible Debt Instruments That May be Settled in Cash Upon Conversion (Including Partial Cash Settlement)*, the Company must account for the convertible senior notes by bifurcating the instruments between their liability and equity components. The value of the debt component is based on the fair value of issuing a similar nonconvertible debt security. The equity component of the convertible debt security is calculated by deducting the value of the liability from the proceeds received at issuance. The Company s September 30, 2010 Consolidated Balance Sheet includes debt of $343.7 million and capital in excess of par of $36.5 million. Additionally, ASC Topic 470 requires the Company to accrete the discounted carrying value of the convertible notes to their face value over the term of the notes. The Company s interest expense associated with this amortization is based on the effective interest rate of the convertible senior notes of 9.365%. The total interest expense related to the convertible notes in the Company s Consolidated Statement of Operations for the three and nine months ended September 30, 2010 and 2009 was as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(millions)	**2010**	**2009**	**2010**	**2009**
Interest expense	$7.9	$7.1	$23.3	$14.5
Non-cash portion	$4.6	$4.2	$13.5	$ 8.4

The notes will pay interest semi-annually of $6.5 million, which is at a coupon rate of 3.50% per year.

Holders of the notes may convert their notes at their option at any time prior to the close of business on the second scheduled trading day immediately preceding the maturity date of the notes, in multiples of $1,000 principal amount. The initial conversion rate for the notes is 30.4706 shares of the Company s common stock per $1,000 principal amount of notes (representing an initial conversion price of approximately $32.82 per share of common stock). The conversion price represents a conversion premium of 27.50% over the last reported sale price of the Company s common stock on the New York Stock Exchange on April 6, 2009, of $25.74 per share. Since the Company s stock price was above the convertible senior notes conversion price of $32.82 as of September 30, 2010, the if-converted value was approximately $174.0 million higher than the face value of the convertible senior notes at September 30, 2010. There was no dilutive impact to weighted average shares outstanding for the year-ended December 31, 2009 due to the convertible senior notes. In conjunction with the note offering, the Company entered into a bond hedge overlay at a net pre-tax cost of $25.2 million, effectively raising the conversion premium to 50.0%, or approximately $38.61 per share. Upon conversion, the Company will pay or deliver cash, shares of our common stock or a combination thereof at our election. The convertible senior notes were issued under the Company s $750 million universal shelf registration filed with the Securities and Exchange Commission (SEC).

As of September 30, 2010 and December 31, 2009, the estimated fair values of the Company s senior unsecured notes totaled $1,286.8 million and $776.0 million, respectively. The estimated fair values were $293.1 million and $43.3 million higher at September 30, 2010 and December 31, 2009, respectively than their carrying values. Fair market values are developed by the use of estimates obtained from brokers and other appropriate valuation techniques based on information available as of quarter-end and year-end. The fair value estimates do not necessarily reflect the values the Company could realize in the current markets.

Table of Contents

The Company had outstanding letters of credit at September 30, 2010 and December 31, 2009 of $26.5 million and $15.2 million, respectively. The letters of credit typically act as guarantees of payment to certain third parties in accordance with specified terms and conditions.

(10) Fair Value Measurements

On January 1, 2009, the Company fully adopted as required, ASC Topic 820 *Fair Value Measurements* which expands the disclosure of fair value measurements and its impact on the Company s financial statements.

ASC Topic 820 emphasizes that fair value is a market-based measurement, not an entity specific measurement. Therefore, a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering market participant assumptions in fair value measurements, ASC Topic 820 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Assets and liabilities measured at fair value are based on one or more of the following three valuation techniques noted in ASC Topic 820:

A. Market approach: Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

B. Cost approach: Amount that would be required to replace the service capacity of an asset (replacement cost).

C. Income approach: Techniques to convert future amounts to a single present amount based upon market expectations (including present value techniques, option-pricing and excess earnings models).

The following table classifies the assets and liabilities measured at fair value on a recurring basis as of September 30, 2010:

		Basis of Fair Value Measurements			
(millions)	Balance at September 30, 2010	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Valuation Technique
Assets:					
Commodity contracts	$ 2.9	$	$ 2.9	$	A
Foreign exchange contracts	3.8		3.8		A
	$ 6.7	$	$ 6.7	$	
Liabilities:					

Commodity contracts	$	0.3	$	$	0.3	$	A
Foreign exchange contracts		11.8			11.8		A
Net investment hedge contracts		68.4			68.4		A
	$	80.5	$	$	80.5	$	

13

Table of Contents

The following table classifies the assets and liabilities measured at fair value on a recurring basis as of December 31, 2009:

		Basis of Fair Value Measurements			
(millions)	Balance at December 31, 2009	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Valuation Technique

	$ 68.8	$	$ 68.8	$	

(11) Financial Instruments

On January 1, 2009, the Company adopted as required, ASC Topic 815, *Disclosures about Derivative Instruments and Hedging Activities* which expands the disclosure of financial instruments.

The Company s financial instruments include cash and marketable securities. Due to the short-term nature of these instruments, their book value approximates their fair value. The Company s financial instruments also include long-term debt, interest rate and currency swaps, commodity forward contracts, and foreign currency forward contracts. All derivative contracts are placed with counterparties that have an S&P, or equivalent, investment grade credit rating at the time of the contracts placement. At September 30, 2010 the Company had no derivative contracts that contained credit risk related contingent features.

The Company selectively uses cross-currency swaps to hedge the foreign currency exposure associated with our net investment in certain foreign operations (net investment hedges). Fair values of cross currency swaps are based on observable inputs, such as interest rate, yield curves, credit risks, currency exchange rates and other external valuation methodology (Level 2 inputs under ASC Topic 820).

At September 30, 2010 and December 31, 2009 the following cross-currency swaps were outstanding:

(millions)	Notional in USD	Cross-Currency Swaps Notional in Local Currency	Duration
Floating $ to Floating	$ 75.0	58.5	Oct - 19
Floating $ to Floating ¥	$ 150.0	¥ 17,581.5	

Nov - 16

The Company uses certain commodity derivative instruments to protect against commodity price changes related to forecasted raw material and supplies purchases. The Company primarily utilizes forward and option contracts, which are designated as cash flow hedges.

Table of Contents

At September 30, 2010 and December 31, 2009 the following commodity derivative contracts were outstanding:

	Commodity Hedges			
Commodity	Volume Hedged September 30, 2010	Volume Hedged December 31, 2009	Units of Measure	Duration
Nickel	150	780	Metric Tons	Dec - 10
Copper	188	759	Metric Tons	Dec - 10
Aluminum	83	330	Metric Tons	Dec - 10
Natural Gas	369,543	392,396	MMBtu	Dec - 11

The Company uses foreign exchange forward and option contracts to protect against exchange rate movements for forecasted cash flows, including purchases, operating expenses or sales transactions designated in currencies other than the functional currency of the operating unit. Foreign currency contracts require the Company, at a future date, to either buy or sell foreign currency in exchange for the operating units local currency.

At September 30, 2010 and December 31, 2009 the following foreign exchange derivative contracts were outstanding:

		Currency Hedges (millions)		
Functional Currency	Traded Currency	Notional in Traded Currency September 30, 2010	Notional in Traded Currency December 31, 2009	Duration
British Pound	Euro	122.5	84.3	Dec - 13
Euro	Hungarian Forint	640.6	2,562.6	Dec - 10
Euro	British Pound		10.5	Jan - 10
Euro	US Dollar		0.4	Feb - 10
Euro	Japanese Yen		16.7	Mar - 10
Indian Rupees	US Dollar	3.3	7.4	Dec - 11
Korean Won	Euro	55.2	62.3	Dec - 10
Mexican Peso	Euro	10.5		Dec - 10
Mexican Peso	US Dollar	1.8		Dec - 10
US Dollar	Indian Rupee	196.9	372.9	Dec - 11
US Dollar	Euro	1.8		Dec - 10
US Dollar	Japanese Yen	1,200.0		Dec - 10

In 2006, the Company entered into a series of interest rate swaps designated as fair value hedges of a portion of its senior notes. In the first quarter of 2009 the Company terminated interest rate swaps designated as fair value hedges of debt. Therefore, the basis adjustments of $34.5 million present at the termination of the hedging relationship are being amortized over the remaining life of the respective debt maturing in 2016 and 2019. The $30.0 million cash received related to the termination of these interest rate swaps is included in the Financing section of the Statement of Cash Flows. The Company recognized $5.7 million in interest expense in the first quarter of 2009 as a result of the early termination. As of September 30, 2010, there were no outstanding fixed to floating interest rate swap agreements.

Table of Contents

At September 30, 2010 and December 31, 2009 the following amounts were recorded in the Company s balance sheet as being payable to or receivable from counterparties. The fair values of foreign exchange and commodity forward or option contracts are based on Level 2 inputs under ASC Topic 820, as observed on recognized exchanges.

Derivatives designated as hedging instruments under Topic 815

		Assets			Liabilities	
(millions)	Location	September 30, 2010	December 31, 2009	Location	September 30, 2010	December 31, 2009
Foreign Exchange Contracts	Prepayments and Other Current Assets	$ 3.4	$ 3.6	Accounts Payable and Accrued Expenses	$ 6.3	$ 14.5
	Other Non-Current Assets	0.4	0.2	Other Non-Current Liabilities	5.5	3.0
Commodity Contracts	Prepayments and Other Current Assets	2.9	8.4	Accounts Payable and Accrued Expenses	0.3	0.1
Net Investment Hedges	Prepayments and Other Current Assets			Accounts Payable and Accrued Expenses	0.5	
	Other Non-Current Assets			Other Non-Current Liabilities	67.9	51.2

Effectiveness for cash flow, fair value and net investment hedges is assessed at the inception of the hedging relationship and quarterly, thereafter. To the extent that derivative instruments are deemed to be effective as defined by ASC Topic 815, gains and losses arising from these contracts are deferred in other comprehensive income or loss. Such gains and losses will be reclassified into income as the underlying operating transactions are realized. Gains and losses not qualifying for deferral treatment have been credited/charged to income as they are recognized.

The table below shows deferred gains and losses at the end of the period reported in other comprehensive income (loss) (OCI) and amounts expected to be reclassified to income or loss within the next twelve months. The gain or loss expected to be reclassified to income or loss in one year or less assumes no change in the current relationship of the hedged item and September 30, 2010 market rates.

(millions)	Balance in OCI at		Gain (Loss) expected to be reclassified to income
Contract Type	September 30, 2010	December 31, 2009	in one year or less
Foreign Exchange	$ (7.6)	$ (11.4)	$ (2.4)
Commodity	3.7	7.3	3.7
Net Investment Hedges	(65.4)	(47.2)	
Total	$ (69.3)	$ (51.3)	$ 1.3

Net investment hedges are derivative contracts entered into to hedge against changes in exchange rates that affect the overall value of net investments in foreign entities. Gains and losses on net investment hedges are recorded in other comprehensive income or loss and are used to offset equivalent gains or losses in the value of net investments that are recorded in translation gains and losses which is also a component of other comprehensive income or loss.

Derivatives Designated as Net Investment Hedges under Topic 815

(millions)		Gain (Loss) reclassified from OCI to income (effective portion) Three Months Ended			Gain (Loss) recognized in income (ineffective portion) Three Months Ended	
Contract Type	**Location**	**September 30, 2010**	**September 30, 2009**	**Location**	**September 30, 2010**	**September 30, 2009**
Cross-Currency Swap	Interest Expense	$	$	Interest Expense	$ (1.9)	$ 0.7

(millions)		Gain (Loss) reclassified from OCI to income (effective portion) Nine Months Ended			Gain (Loss) recognized in income (ineffective portion) Nine Months Ended	
Contract Type	**Location**	**September 30, 2010**	**September 30, 2009**	**Location**	**September 30, 2010**	**September 30, 2009**
Cross-Currency Swap	Interest Expense	$	$	Interest Expense	$ 1.0	$ 1.6

16

Table of Contents

Cash Flow hedges held during the period resulted in the following gains and losses recorded in income. The effective portion of gains or losses exactly offset gains or losses in the underlying transaction that they were designated to hedge, and are recorded on the same line in the income statement. Ineffectiveness resulting from imperfect matches between changes in value of hedge contracts and changes in value of the underlying transaction are immediately recognized in income.

Derivatives Designated as Cash Flow Hedging Instruments under Topic 815

(millions)		Gain (Loss) reclassified from OCI to income (effective portion) Three Months Ended			Gain (Loss) recognized in income (ineffective portion) Three Months Ended	
Contract Type	**Location**	**September 30, 2010**	**September 30, 2009**	**Location**	**September 30, 2010**	**September 30, 2009**
Foreign Exchange	Sales	$ (0.4)	$ (3.2)	SG&A Expense	$ (0.4)	$ (3.4)
Foreign Exchange	Cost of Goods Sold	(0.4)	1.0	SG&A Expense		(0.1)
Foreign Exchange	SG&A Expense	(0.2)	0.2	SG&A Expense		
Commodity	Cost of Goods Sold	2.2	(0.1)	Cost of Goods Sold	0.8	1.8

(millions)		Gain (Loss) reclassified from OCI to income (effective portion) Nine Months Ended			Gain (Loss) recognized in income (ineffective portion) Nine Months Ended	
Contract Type	**Location**	**September 30, 2010**	**September 30, 2009**	**Location**	**September 30, 2010**	**September 30, 2009**
Foreign Exchange	Sales	$ (0.5)	$ (11.3)	SG&A Expense	$ 0.9	$ (4.7)
Foreign Exchange	Cost of Goods Sold	(1.0)	4.3	SG&A Expense		0.7
Foreign Exchange	SG&A Expense	(0.4)	(0.7)	SG&A Expense		
Commodity	Cost of Goods Sold	6.2	(7.2)	Cost of Goods Sold	(0.2)	0.5

At September 30, 2010 derivative instruments that are not designated as hedging instruments as defined by ASC Topic 815 were immaterial.

(12) Retirement Benefit Plans

The Company has a number of defined benefit pension plans and other post employment benefit plans covering eligible salaried and hourly employees and their dependents. The other post employment benefit plans, which provide medical and life insurance benefits, are unfunded plans. The estimated contributions to the Company s defined benefit pension plans for 2010 range from $25 to $30 million, of which $22.1 million has been contributed through the first nine months of the year.

On February 26, 2009, the Company s subsidiary, BorgWarner Diversified Transmission Products Inc. (DTP), entered into a Plant Shutdown Agreement with the United Auto Workers (UAW) for its Muncie, Indiana automotive component plant (the Muncie Plant). Management subsequently wound-down production activity at the plant, with

operations effectively ceased as of March 31, 2009. As a result of the closure of the Muncie Plant, the Company recorded a curtailment gain of $41.9 million in the first quarter of 2009.

The Plant Shutdown Agreement with the UAW for the Muncie Plant also included a settlement of a portion of the UAW retiree health care obligation, resulting in the remeasurement of the retiree medical plan. The financial impact of this settlement resulted in expense recognition of $14.0 million, a $47.2 million reduction to retirement-related liabilities, a $27.2 million increase in accumulated other comprehensive income and a $34.0 million increase in accounts payable and accrued expenses in the first quarter of 2009. The $34.0 million in accounts payable and accrued expenses was paid in monthly installments, which began in May 2009 and concluded in April 2010.

The combined pre-tax impact of these actions was a net gain of $27.9 million, comprised of a $41.9 million curtailment gain and $14.0 million settlement loss on the Company s Condensed Consolidated Statements of Operations as of March 31, 2009.

Table of Contents

In June 2009, the Company announced its plan to freeze its defined benefit plan at its Bradford plant in the United Kingdom in consultation with affected employees and their representatives. The effect of this change resulted in the Bradford defined benefit plan ceasing to accrue defined benefits after October 1, 2009. Future pension benefits will be earned within an existing defined contribution plan going forward. The financial impact of this change was a $3.7 million reduction to retirement-related liabilities, a $3.5 increase in accumulated other comprehensive income and $0.2 million in income recognition in the second quarter of 2009.

On March 24, 2010, the Company finalized its settlement agreement regarding the closure of the Muncie Plant with the Pension Benefit Guaranty Corporation in which the Company will make certain payments directly to the Muncie Plant s defined benefit pension plan (the Plan). On December 23, 2009 the Company made initial cash contribution of $23 million for the 2009 Plan year, consistent with the settlement agreement. Also under the settlement agreement for each of the Plan years beginning in 2011, 2012, and 2013, the Company will make a cash contribution to the Plan in the amount of $15 million, unless this contribution exceeds the maximum amounts deductible under the applicable U.S. tax regulations. The Company provided $35 million in the form of a surety bond and will waive a credit balance valued at $8 million in 2014.

The components of net periodic benefit cost recorded in the Company s Condensed Consolidated Statements of Operations, are as follows:

(millions)	**Pension benefits**				**Other post employment benefits**	
	2010		**2009**			
Three months ended September 30,	US	Non-US	US	Non-US	**2010**	**2009**
Components of net periodic benefit cost:						
Service cost	$	$ 2.3	$	$ 2.5	$ 0.2	$ 0.2
Interest cost	4.4	3.7	5.1	4.5	3.6	4.8
Expected return on plan assets	(5.0)	(2.4)	(4.1)	(2.5)		
Amortization of unrecognized prior service benefit	(0.1)		(0.1)		(1.7)	(1.2)
Amortization of unrecognized loss	1.6	0.2	1.8	0.2	2.3	1.5
Net periodic benefit cost	$ 0.9	$ 3.8	$ 2.7	$ 4.7	$ 4.4	$ 5.3

(millions)	**Pension benefits**				**Other post employment benefits**	
	2010		**2009**			
Nine months ended September 30,	US	Non-US	US	Non-US	**2010**	**2009**
Components of net periodic benefit cost:						
Service cost	$	$ 7.1	$ 0.3	$ 7.5	$ 0.6	$ 0.6
Interest cost	13.1	11.1	15.6	12.6	10.9	15.1
Expected return on plan assets	(14.8)	(7.1)	(12.2)	(7.1)		
Settlement/Curtailment						(61.9)*
Amortization of unrecognized prior service benefit	(0.5)		(0.3)		(5.2)	(10.5)
Amortization of unrecognized loss	4.9	0.6	5.5	0.7	6.8	5.8

Net periodic benefit cost (benefit)	$ 2.7	$11.7	$ 8.9	$13.7	$13.1	$(50.9)

* Note: In the table above, the first quarter 2009 net settlement and curtailment of $61.9 million was offset by the $34.0 million cost to settle, resulting in a net pre-tax gain of $27.9 million.

Table of Contents

(13) Stock-Based Compensation

Under the Company s 1993 Stock Incentive Plan (1993 Plan), the Company granted options to purchase shares of the Company s common stock at the fair market value on the date of grant. The options vest over periods up to three years and have a term of ten years from date of grant. As of December 31, 2003, there were no options available for future grants under the 1993 Plan. The 1993 Plan expired at the end of 2003 and was replaced by the Company s 2004 Stock Incentive Plan, which was amended at the Company s 2009 Annual Stockholders Meeting, among other things, to increase the number of shares available for issuance under the Plan. Under the BorgWarner Inc. Amended and Restated 2004 Stock Incentive Plan (2004 Stock Incentive Plan), the number of shares authorized for grant was 12,500,000, of which approximately 2,200,000 shares are available for future issuance. As of September 30, 2010, there were a total of 3,882,529 outstanding options under the 1993 and 2004 Stock Incentive Plans.

Stock option compensation expense reduced income before income taxes and net earnings for the three and nine months ended September 30, 2010 and 2009 by:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(millions), except per share data	2010	2009	2010	2009
Earnings before income taxes and noncontrolling interest	$	$ 1.4	$ 0.1	$ 5.5
Net earnings	$	$ 1.0	$	$ 4.2
Per share basic	$	$ 0.01	$	$ 0.04
Per share diluted	$	$ 0.01	$	$ 0.04

A summary of the plans shares under option for the nine months ended September 30, 2010 is as follows:

	Shares Under Option (thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (in millions)
Outstanding at December 31, 2009	5,177	$ 27.98		
Exercised	(203)	24.81		
Forfeited	(26)	34.95		
Other	5	27.37		
Outstanding at March 31, 2010	4,953	$ 28.08	5.5	$ 50.0
Exercised	(365)	27.70		
Forfeited	(12)	29.91		
Outstanding at June 30, 2010	4,576	$ 28.10	5.3	$ 42.3
Exercised	(692)	27.93		
Forfeited	(1)	34.95		
Outstanding at September 30, 2010	3,883	$ 28.13	5.0	$ 95.1
Options exercisable at September 30, 2010	3,883	$ 28.13	5.0	$ 95.1

At its November 2007 meeting, our Compensation Committee decided that restricted common stock and stock units would be awarded in place of stock options for long-term incentive award grants to employees. These restricted shares and units for employees vest fifty percent after two years and the remainder after three years from the date of grant. The Company also grants restricted common stock to its non-employee directors. For non-employee directors restricted shares generally vest ratably on the anniversary of the date of the grant over a

period of three years. The market value of the Company s restricted common stock and stock units at the date of grant determines the value of the restricted common stock. In February 2010, 570,954 restricted shares and units were granted to employees under the 2004 Stock Incentive Plan. In April 2010, 19,440 restricted shares were granted to non-employee directors under the 2004 Stock Incentive Plan. The value of the awards is recorded as unearned compensation within capital in excess of par value in stockholders equity, and is amortized as compensation expense over the restriction periods.

Restricted stock compensation expense reduced income before income taxes and net earnings for the three and nine months ended September 30, 2010 and 2009 by:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(millions), except per share data	**2010**	**2009**	**2010**	**2009**
Earnings before income taxes and noncontrolling interest	$ 5.0	$ 4.1	$ 15.4	$ 11.8
Net earnings	$ 3.7	$ 3.1	$ 12.0	$ 9.1
Per share basic	$ 0.03	$ 0.03	$ 0.10	$ 0.08
Per share diluted	$ 0.03	$ 0.03	$ 0.09	$ 0.08

A summary of the status of the Company s nonvested restricted stock for the nine months ended September 30, 2010 is as follows:

	Shares Subject to Restriction (thousands)	Weighted Average Price
Nonvested at December 31, 2009	1,547.1	$ 29.90
Granted	571.0	35.97
Vested	(156.6)	46.34

Stock based compensation affected both operating activities ($15.6 million and $17.9 million) and financing activities ($40.4 million and $5.8 million) of the Condensed Consolidated Statements of Cash Flows for the nine months ended September 30, 2010 and 2009, respectively.

Due to the effects of stock options issued and issuable and restricted shares issued under the 1993 Plan and 2004 Stock Incentive Plan, shares increased for diluted earnings per share for the three months ended September 30, 2010 and 2009 by 2,062,000 and 766,000, respectively. Due to the effects of stock options issued and issuable and restricted shares issued under the 1993 Plan and 2004 Stock Incentive Plan, shares increased for diluted earnings per share for the nine months ended September 30, 2010 by 1,731,000. There was no dilutive impact to the weighted average shares outstanding for the nine months ended September 30, 2009 due to the Company s net loss.

(14) Comprehensive Income (Loss)

The amounts presented as changes in accumulated other comprehensive income (loss), net of related taxes, are added to (deducted from) net earnings (loss) resulting in comprehensive income (loss). The following table summarizes the components of comprehensive income (loss) on an after-tax basis for the three and nine month periods ended September 30, 2010 and 2009.

	Three months ended September 30,		Nine months ended September 30,	
(millions)	2010	2009	2010	2009
Foreign currency translation adjustments, net	$ 175.7	$ 61.1	$ (39.5)	$ 68.9
Market value change in hedge instruments, net	(21.9)	(10.7)	(11.8)	37.3
Defined benefit post employment plans, net				6.0
Bond hedge on 3.50% convertible notes, net				(36.7)
Warrant on 3.50% convertible notes, net				31.2
Unrealized gain on available-for-sale securities, net				0.2
Change in accumulated other comprehensive income (loss)	153.8	50.4	(51.3)	106.9
Net earnings (loss) attributable to BorgWarner Inc.	106.7	17.2	265.7	(25.7)
Comprehensive income	260.5	67.6	214.4	81.2
Comprehensive income (loss) attributable to the noncontrolling interest	0.1	2.5	(2.8)	0.5
Comprehensive income attributable to BorgWarner Inc.	$ 260.6	$ 70.1	$ 211.6	$ 81.7

(15) Contingencies

In the normal course of business the Company and its subsidiaries are parties to various commercial and legal claims, actions and complaints, including matters involving warranty claims, intellectual property claims, general liability and various other risks. It is not possible to predict with certainty whether or not the Company and its subsidiaries will ultimately be successful in any of these commercial and legal matters or, if not, what the impact might be. The Company s environmental and product liability contingencies are discussed separately below. The Company s management does not expect that the results in any of these commercial and legal claims, actions and complaints will have a material adverse effect on the Company s results of operations, financial position or cash flows.

Litigation

In January 2006, DTP, a subsidiary of the Company, filed a declaratory judgment action in United States District Court, Southern District of Indiana (Indianapolis Division) against the United Automobile, Aerospace, and Agricultural Implements Workers of America (UAW) Local No. 287 and Gerald Poor, individually and as the representative of a defendant class. DTP sought the Court s affirmation that DTP did not violate the Labor-Management Relations Act or the Employee Retirement Income Security Act by unilaterally amending certain medical plans effective April 1, 2006 and October 1, 2006, prior to the expiration of the then-current collective bargaining agreements. On September 10, 2008, the Court found that DTP s reservation of the right to make such amendments reducing the level of benefits provided to retirees was limited by its collectively bargained health insurance agreement with the UAW, which did not expire until April 24, 2009. Thus, the amendments were untimely.

In 2008 the Company recorded a charge of $4.0 million as a result of the Court s decision.

DTP filed a declaratory judgment action in the United States District Court, Southern District of Indiana (Indianapolis Division) against the UAW Local No. 287 and Jim Barrett and others, individually and as representatives of a defendant class, on February 26, 2009 again seeking the Court s affirmation that DTP will not violate the Labor Management Relations Act or the Employment Retirement Income Security Act (ERISA) by modifying the level of benefits provided retirees to make them comparable to other Company retiree benefit plans after April 24, 2009. Certain retirees, on behalf of themselves and others, filed a mirror-image action in the United States District Court, Eastern District of Michigan (Southern Division) on March 11, 2009, for which a class has been certified. During the last quarter of 2009 the action pending in Indiana was dismissed, while the action in Michigan is continuing. At this stage of the litigation, the Company cannot make any predictions as to the outcome, but it is vigorously defending against the suit.

Environmental

The Company and certain of its current and former direct and indirect corporate predecessors, subsidiaries and divisions have been identified by the United States Environmental Protection Agency and certain state environmental agencies and private parties as potentially responsible parties (PRPs) at various hazardous waste disposal sites under the Comprehensive Environmental Response, Compensation and Liability Act (Superfund) and equivalent state laws and, as such, may presently be liable for the cost of clean-up and other remedial activities at 38 such sites. Responsibility for clean-up and other remedial activities at a Superfund site is typically shared among PRPs based on an allocation formula.

The Company believes that none of these matters, individually or in the aggregate, will have a material adverse effect on its results of operations, financial position, or cash flows. Generally, this is because either the estimates of the maximum potential liability at a site are not material or the liability will be shared with other PRPs, although no assurance can be given with respect to the ultimate outcome of any such matter.

Based on information available to the Company (which in most cases includes: an estimate of allocation of liability among PRPs; the probability that other PRPs, many of whom are large, solvent public companies, will fully pay the cost apportioned to them; currently available information from PRPs and/or federal or state environmental agencies concerning the scope of contamination and estimated remediation and consulting costs; remediation alternatives; and estimated legal fees), the Company has an accrual for indicated environmental liabilities with a balance at September 30, 2010 of $45.0 million, which includes the $28.0 million recorded in the second quarter of 2010 and referred to below. The Company has accrued amounts that do not exceed $3.0 million related to any individual site except for the Crystal Springs site discussed below, and we do not believe that the costs related to any of these sites will have a material adverse effect on the Company s results of operations, cash flows or financial condition. The Company expects to pay out substantially all of the amounts accrued for environmental liability over the next three to five years.

In connection with the sale of Kuhlman Electric Corporation, the Company agreed to indemnify the buyer and Kuhlman Electric for certain environmental liabilities, then unknown to the Company, relating to certain operations of Kuhlman Electric that pre-date the Company s 1999 acquisition of Kuhlman Electric. During 2000, Kuhlman Electric notified the Company that it discovered potential environmental contamination at its Crystal Springs, Mississippi plant while undertaking an expansion of the plant. The Company is continuing to work with the Mississippi Department of Environmental Quality and Kuhlman Electric to investigate and remediate to the extent necessary, historical contamination at the plant and surrounding area. Kuhlman Electric and others, including the Company, were sued in numerous related lawsuits, in which multiple claimants alleged personal injury and property damage relating to the alleged environmental contamination. In 2005, the Company and other defendants entered into settlements that resolved approximately 99% of those claims and the remainder of them have since been dismissed.

In 2007 and 2008, four additional lawsuits were filed against Kuhlman Electric and others, including the Company, on behalf of approximately 340 plaintiffs, alleging personal injury relating to the alleged environmental contamination. One of the lawsuits, involving a single plaintiff, was dismissed by the trial court in April 2010 and the plaintiff s appeal of that decision was dismissed by the appellate court in August 2010. The Company entered into a settlement in July 2010 regarding the personal injury claims of the plaintiffs in the other three lawsuits and those of approximately 2,700 unfiled claimants represented by those plaintiffs attorneys. In exchange for, among other things, the dismissal with prejudice of these lawsuits and the release of claims by the unfiled claimants, the Company agreed to pay $28 million in settlement funds. The settlement funds are expected to be paid in two equal installments in November 2010 and February 2011.

Conditional Asset Retirement Obligations

In March 2005, ASC Topic 410, Accounting for Conditional Asset Retirement Obligations, which requires the Company to recognize legal obligations to perform asset retirements in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. Certain government regulations require the removal and disposal of asbestos from an existing facility at the time the facility undergoes major renovations or is demolished. The liability exists because the facility will not last forever, but it is conditional on future renovations (even if there are no immediate plans to remove the materials, which pose no health or safety hazard in their current condition). Similarly, government regulations require the removal or closure of underground storage tanks and above ground storage tanks when their use ceases, the disposal of polychlorinated biphenyl transformers and capacitors when their use ceases, and the disposal of used furnace bricks and liners, and lead-based paint in conjunction with facility renovations or demolition. The Company currently has 30 manufacturing locations that have been identified as containing these items. The fair value to remove and dispose of this material has been estimated and recorded at $1.2 million as of September 30, 2010 and $1.3 million at December 31, 2009.

Product Liability

Like many other industrial companies who have historically operated in the U.S., the Company (or parties the Company is obligated to indemnify) continues to be named as one of many defendants in asbestos-related personal injury actions. We believe that the Company s involvement is limited because, in general, these claims relate to a few types of automotive friction products that were manufactured many years ago and contained encapsulated asbestos. The nature of the fibers, the encapsulation and the manner of use lead the Company to believe that these products are highly unlikely to cause harm. As of September 30, 2010 and December 31, 2009 the Company had approximately 17,000 and 23,000 pending asbestos-related product liability claims, respectively. Of the 17,000 outstanding claims at September 30, 2010, approximately 9,000 were pending in just three jurisdictions, where significant tort and judicial reform activities are underway.

The Company s policy is to vigorously defend against these lawsuits and the Company has been successful in obtaining dismissal of many claims without any payment. The Company expects that the vast majority of the pending asbestos-related product liability claims where it is a defendant (or has an obligation to indemnify a defendant) will result in no payment being made by the Company or its insurers. In 2010, of the approximately 6,400 claims resolved, 168 (2.6%) resulted in any payment being made to a claimant by or on behalf of the Company. In the full year of 2009, of the approximately 5,300 claims resolved, only 223 (4.2%) resulted in any payment being made to a claimant by or on behalf of the Company.

Prior to June 2004, the settlement and defense costs associated with all claims were covered by the Company s primary layer insurance coverage, and these carriers administered, defended, settled and paid all claims under a funding arrangement. In June 2004, primary layer

insurance carriers notified the Company of the alleged exhaustion of their policy limits. This led the Company to access the next available layer of insurance coverage. Since June 2004, secondary layer insurers have paid asbestos-related litigation defense and settlement expenses pursuant to a funding arrangement. To date, the Company has paid and accrued $144.3 million in defense and indemnity in advance of insurers reimbursement and has received $29.7 million in cash from insurers. The net outstanding balance of $114.6 million, which includes the $40.7 million referred to below, is expected to be fully recovered, of which approximately $42 million is expected to be recovered within one year. Timing of the recovery is dependent on final resolution of the declaratory judgment action referred to below. At December 31, 2009, insurers owed $58.6 million in association with these claims.

On April 5, 2010 the Superior Court of New Jersey Appellate Division affirmed a lower court judgment in an asbestos-related action against the Company and others. The Company filed its Notice of Petition to the Supreme Court of New Jersey in late April, seeking to appeal the decisions of the lower courts. On July 8, 2010 the Supreme Court of New Jersey denied the Company s Notice of Petition appealing the decision of the lower courts. As a result of the Court s decision, the Company increased its estimated liability for claims asserted, but not yet paid by $36.7 million to $40.7 million and increased the Company s related insurance receivable by $36.7 million to recognize the proceeds receivable from insurance carriers. The total claim of $40.7 million was paid by the Company in July 2010.

In addition to the $114.6 million net outstanding balance relating to past settlements and defense costs, the Company has estimated a liability of $45.7 million for claims asserted, but not yet resolved and their related defense costs at September 30, 2010. The Company also has a related asset of $45.7 million to recognize the proceeds receivable from the insurance carriers. Insurance carrier reimbursement of 100% is expected based on the Company s experience, its insurance contracts and decisions received to date in the declaratory judgment action referred to below. At December 31, 2009, the comparable value of the insurance receivable and accrued liability was $49.9 million.

The amounts recorded in the Consolidated Balance Sheets related to the estimated future settlement of existing claims are as follows:

(millions)	**September 30, 2010**	**December 31, 2009**
Assets:		
Prepayments and other current assets	$ 22.5	$ 24.9
Other non-current assets	23.2	25.0
Total insurance receivable	$ 45.7	$ 49.9
Liabilities:		
Accounts payable and accrued expenses	$ 22.5	$ 24.9
Other non-current liabilities	23.2	25.0
Total accrued liability	$ 45.7	$ 49.9

The Company cannot reasonably estimate possible losses, if any, in excess of those for which it has accrued, because it cannot predict how many additional claims may be brought against the Company (or parties the Company has an obligation to indemnify) in the future, the allegations in such claims, the possible outcomes, or the impact of tort reform legislation that may be enacted at the State or Federal levels.

A declaratory judgment action was filed in January 2004 in the Circuit Court of Cook County, Illinois by Continental Casualty Company and related companies (CNA) against the Company and certain of its other historical general liability insurers. CNA provided the Company with both primary and additional layer

insurance, and, in conjunction with other insurers, is currently defending and indemnifying the Company in its pending asbestos-related product liability claims. The lawsuit seeks to determine the extent of insurance coverage available to the Company including whether the available limits exhaust on a per occurrence or an aggregate basis, and to determine how the applicable coverage responsibilities should be apportioned. On August 15, 2005, the Court issued an interim order regarding the apportionment matter. The interim order has the effect of making insurers responsible for all defense and settlement costs pro rata to time-on-the-risk, with the pro-ration method to hold the insured harmless for periods of bankrupt or unavailable coverage. Appeals of the interim order were denied. However, the issue is reserved for appellate review at the end of the action. In addition to the primary insurance available for asbestos-related claims, the Company has substantial additional layers of insurance available for potential future asbestos-related product claims. As such, the Company continues to believe that its coverage is sufficient to meet foreseeable liabilities.

Although it is impossible to predict the outcome of pending or future claims or the impact of tort reform legislation that may be enacted at the State or Federal levels, due to the encapsulated nature of the products, the Company s experiences in vigorously defending and resolving claims in the past, and the Company s significant insurance coverage with solvent carriers as of the date of this filing, management does not believe that asbestos-related product liability claims are likely to have a material adverse effect on the Company s results of operations, cash flows or financial condition.

(16) Leases and Commitments

On September 30, 2010 the Company paid $6.0 million for certain machinery and equipment it had previously leased. The Company s $6.0 million payment has been recorded as a capital expenditure in the investing activity section of the Company s September 30, 2010 Consolidated Statement of Cash Flows.

(17) Restructuring

In the third and forth quarters of 2008 and in the second quarter of 2009 the Company took restructuring actions. These actions were in response to declines in global customer production levels, customer restructurings and a subsequent evaluation of our headcount levels in North America, Europe and Asia.

In the second quarter of 2009 the Company reduced its North American workforce by approximately 550 people, or 12%; its European workforce by approximately 150 people, or 2%; and its Asian workforce by approximately 60 people, or 3% in the second quarter. The net restructuring expense recognized in the second quarter was $9.0 million for employee termination benefits. In addition to employee termination costs, the Company recorded $36.3 million of asset impairment and $5.0 million of other charges in the second quarter of 2009 related to the North American and European restructuring. The combined 2009 restructuring expenses of $50.3 million are broken out by segment as follows: Engine $27.2 million, Drivetrain $19.7 million and Corporate $3.4 million.

Included in the second quarter of 2009 asset impairment charge is $22.3 million related to one of the Company s European locations. During the second quarter of 2009 circumstances caused the Company to evaluate the long range outlook of the facility using an undiscounted and discounted cash flow model, both of which indicated that assets were impaired. The Company then used an estimate of cost replacement to determine the fair value of the assets at the facility. This reduction of asset value was included in the Engine segment.

Estimates of restructuring expense are based on information available at the time such charges are recorded. Due to the inherent uncertainty involved in estimating restructuring expenses, actual amounts paid for such activities may differ from amounts initially recorded. Accordingly, the Company may record revisions of previous estimates by adjusting previously established reserves.

Table of Contents

The following table displays a rollforward of the employee related restructuring accruals recorded within the Company s Consolidated Balance Sheet and the related cash flow activity for the three and nine months ended September 30, 2010:

	Employee Related and Other Costs			
(millions)	Drivetrain	Engine	Corporate	Total
Balance at December 31, 2009	$ 4.5	$ 10.9	$ 2.1	$ 17.5
Cash payments	(0.8)	(5.1)	(2.1)	(8.0)
Translation adjustment	(0.1)	(0.6)		(0.7)
Balance at March 31, 2010	$ 3.6	$ 5.2		$ 8.8
Cash payments	($2.2)			($2.2)
Translation adjustment	(0.2)	(0.8)		(1.0)
Balance at June 30, 2010	$ 1.2	$ 4.4		$ 5.6
Cash payments	($0.5)	(0.3)		($0.8)
Translation adjustment	0.2	0.9		1.1
Balance at September 30, 2010	$ 0.9	$ 5.0		$ 5.9

Future cash payments for these restructuring activities are expected to be complete in the next twelve months.

(18) Earnings (Loss) Per Share

The Company presents both basic and diluted earnings per share of common stock (EPS) amounts. Basic EPS is calculated by dividing net earnings (loss) attributable to BorgWarner Inc. by the weighted average shares of common stock outstanding during the reporting period. Diluted EPS is calculated by dividing net earnings (loss) attributable to BorgWarner Inc. by the weighted average shares of common stock and common equivalent stock outstanding during the reporting period. The dilutive impact of stock options and restricted stock are calculated using the treasury stock method. The treasury stock method assumes that the proceeds from the exercise of stock options will be used by the Company to repurchase treasury shares at the prevailing market price, resulting in an incremental increase in shares outstanding, but not the full amount of shares that are issued on exercise.

The potential common shares associated with the Company s 3.50% convertible notes due April 15, 2012 are reflected in diluted earnings per share in 2010 using the if-converted method. Under this method, if dilutive, the common stock is assumed issued as of the beginning of the reporting period and included in calculating diluted earnings per share of common stock. In addition, if dilutive, interest expense, net of tax, related to the convertible notes is added back to the numerator in calculating diluted earnings per share of common stock.

Separately and concurrently with the issuance of the Company s 3.50% convertible notes, the Company entered into a bond hedge overlay, including warrants and options. If the Company s weighted-average share price exceeds $38.61 per share for any period presented, the warrants will be dilutive to the Company s earnings.

Table of Contents

The following table reconciles the numerators and denominators used to calculate basic and diluted earnings (loss) per share of common stock:

	Three Months Ended September 30,		Nine Months Ended September 30,	
in millions except per share amounts	2010	2009	2010	2009
Basic earnings (loss) per share:				
Net earnings (loss) attributable to BorgWarner Inc.	$ 106.7	$ 17.2	$ 265.7	$ (25.7)
Weighted average shares of common stock outstanding	112,757	116,729	114,831	116,440
Basic earnings (loss) per share of common stock	$ 0.95	$ 0.15	$ 2.31	$ (0.22)
Diluted earnings (loss) per share:				
Net earnings (loss) attributable to BorgWarner Inc.	$ 106.7	$ 17.2	$ 265.7	$ (25.7)
Adjustment for net interest expense on convertible notes	5.0		15.1	
Diluted net earnings (loss) attributable to BorgWarner Inc.	$ 111.7	$ 17.2	$ 280.8	$ (25.7)
Weighted average shares of common stock outstanding	112,757	116,729	114,831	116,440
Effect of 3.50% convertible notes	11,389		11,389	
Effect of warrant	1,596		584	
Effect of stock-based compensation	2,062	766	1,731	
Total dilutive effect on weighted average shares of common stock outstanding	15,047	766	13,704	*
Weighted average shares of common stock outstanding including dilutive shares	127,804	117,495	128,535	116,440
Diluted earnings (loss) per share of common stock	$ 0.87	$ 0.15	$ 2.18	$ (0.22)
Total anti-dilutive shares				
Convertible debt shares		11,389		11,389
Bond hedge	3,064		2,037	
Stock options and incentive awards				345
Total anti-dilutive shares	3,064	11,389	2,037	11,734

* The Company had a loss for the nine months ended September 30,

2009. As a result, diluted loss per share is the same as basic, as any dilutive securities would reduce the loss per share. Therefore, diluted shares are equal to basic shares outstanding for the nine months ended September 30, 2009.

(19) Reporting Segments

The Company s business is comprised of two reporting segments: Engine and Drivetrain. These segments are strategic business groups, which are managed separately as each represents a specific grouping of automotive components and systems.

The Company allocates resources to each segment based upon the projected after-tax return on invested capital (ROIC) of its business initiatives. The ROIC is comprised of earnings before interest and taxes (EBIT) adjusted for restructuring, goodwill impairment charges, affiliates earnings, noncontrolling interest and other items not reflective of on-going operating profit or loss (Adjusted EBIT) compared to the projected average capital investment required. Adjusted EBIT is the measure of segment profit or loss used by the Company. The Company believes Adjusted EBIT is most reflective of the operational profitability or loss of our reporting segments.

The following tables show net sales and Adjusted EBIT for the Company s reporting segments.

Net Sales by Reporting Segment

(millions)

	Three months ended September 30,		Nine months ended September 30,	
	2010	2009	2010	2009
Engine	$ 1,018.8	$ 735.3	$ 2,942.4	$ 2,030.2
Drivetrain	397.1	296.8	1,191.6	743.8
Inter-segment eliminations	(5.0)	(4.3)	(14.6)	(10.5)
Net sales	$ 1,410.9	$ 1,027.8	$ 4,119.4	$ 2,763.5

Adjusted Earnings (Loss) Before Interest and Income Taxes (Adjusted EBIT)

(millions)

	Three months ended September 30,		Nine months ended September 30,	
	2010	2009	2010	2009
Engine	$ 136.4	$ 56.6	$ 375.9	$ 136.5
Drivetrain	31.1	7.5	105.1	(34.0)
Adjusted EBIT	167.5	64.1	481.0	102.5
Muncie closure retiree obligation net gain				(27.9)
Environmental litigation settlement			28.0	
BERU-Eichenauer equity investment gain			(8.0)	
Corporate, including equity in affiliates earnings and stock-based compensation	34.0	30.1	84.3	85.1
Restructuring expense				50.3
Interest income	(0.6)	(0.5)	(1.8)	(1.7)
Interest expense and finance charges	18.4	13.0	46.8	41.1
Earnings (loss) before income taxes and noncontrolling interest	115.7	21.5	331.7	(44.4)
Provision (benefit) for income taxes	4.2	1.5	51.1	(24.2)
Net earnings (loss)	111.5	20.0	280.6	(20.2)
Net earnings attributable to the noncontrolling interest, net of tax	4.8	2.8	14.9	5.5
Net earnings (loss) attributable to BorgWarner Inc.	$ 106.7	$ 17.2	$ 265.7	$ (25.7)

Total Assets

(millions)

	September 30, 2010	December 31, 2009
Engine	$ 3,268.4	$ 2,812.8

Drivetrain		1,172.2		1,104.1
Total		4,440.6		3,916.9
Corporate, including equity in affiliates [a]		1,137.1		894.5
Total assets	$	5,577.7	$	4,811.4

[a] Corporate assets in 2010 and 2009, including equity in affiliates include cash, deferred income taxes and investments & advances. 2009 Corporate assets are net of trade receivables securitized and sold to third parties.

(20) New Accounting Pronouncements

In September 2006, the FASB ASC amended Topic 820, *Fair Value Measurements and Disclosures*. ASC Topic 820 defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. On January 1, 2009, the Company fully adopted as required, ASC Topic 820. See Note 10 to the Consolidated Financial Statements for more information regarding the implementation of ASC Topic 820.

In December 2007, the FASB ASC amended Topic 805, *Business Combinations*. ASC Topic 805 establishes principles and requirements for recognizing identifiable assets acquired, liabilities assumed, noncontrolling interest in the acquiree, goodwill acquired in the combination or the gain from a bargain purchase, and disclosure requirements. Under this revised statement, all costs incurred to effect an acquisition are recognized separately from the acquisition. Also, restructuring costs that are expected but the acquirer is not obligated to incur are recognized separately from the acquisition. On January 1, 2009, the Company adopted ASC Topic 805. In the first quarter of 2009, the Company expensed $4.8 million related to on-going acquisition related activity.

In December 2007, the FASB ASC amended Topic 810, *Consolidation"*. For consolidated subsidiaries that are less than wholly owned, the third party holdings of equity interests are referred to as noncontrolling interests. The portion of net income (loss) attributable to noncontrolling interests for such subsidiaries is presented as net income (loss) applicable to noncontrolling interest on the consolidated statement of operation, and the portion of stockholders equity of such subsidiaries is presented as noncontrolling interest on the consolidated balance sheet. Effective January 1, 2009, the Company adopted ASC Topic 810.

In March 2008, the FASB ASC amended Topic 815, *Derivatives and Hedging"*. ASC Topic 815 requires entities to provide enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under ASC Topic 815 and its related interpretations, and how derivative instruments and related hedged items affect an entity s financial position, financial performance, and cash flows. On January 1, 2009, the Company adopted ASC Topic 815. See Note 11 to the Consolidated Financial Statements for more information regarding the implementation of ASC Topic 815.

In May 2008, the FASB ASC amended Topic 470, *Debt"*. Under ASC Topic 470, an entity must separately account for the liability and equity components of the convertible debt instruments that may be settled entirely or partially in cash upon conversion in a manner that reflects the issuer s interest cost. ASC Topic 470 is effective for fiscal years beginning after December 15, 2008, and for interim periods within those fiscal years, with retrospective application required. As a result of our adoption of ASC Topic 470 for fiscal 2009 and the Company s April 9, 2009 issuance of $373.8 million convertible senior notes due April 15, 2012, we recorded the equity and liability components of the notes on our December 31, 2009 Consolidated Balance Sheet. Additionally, ASC Topic 470 requires us to accrete the discounted carrying value of the convertible notes to their face value over the term of the notes. The Company s interest expense associated with this amortization is based on the effective interest rate of the convertible senior notes of 9.365%. See Note 9 to the Consolidated Financial Statements for more information regarding this issuance.

In June 2009, the FASB ASC amended Topic 860, *Accounting for Transfer of Financial Assets"*. ASC Topic 860 removes the concept of a qualifying special-purpose entity and removes the exception from applying ASC Topic 810, Consolidation of Variable Interest Entities, to qualifying special-purpose entities. This Statement modifies the financial-components approach used in ASC Topic 860 and limits the circumstances in which a financial asset, or portion of a financial asset, should be derecognized. Additionally, enhanced disclosures are required to provide financial statement users with greater transparency about transfers of financial assets and a transferor s continuing involvement with transferred financial assets. On January 1, 2010, the Company elected to prospectively adopt ASC Topic 860. The impact of this adoption is an increase in receivables, net of $80 million and an increase in notes payable and other short-term debt of $80 million in the Company s September 30, 2010 Condensed Consolidated Balance Sheet. See Note 5 to the Consolidated Financial Statements for more information regarding the third quarter 2010 increase in our receivable securitization facility.

In June 2009, the FASB amended ASC Topic 810, *Consolidation* . ASC Topic 810 requires an ongoing reassessment of whether an enterprise is the primary beneficiary of a variable interest entity. Additionally, ASC Topic 810 requires enhanced disclosures that will provide users of financial statements with more transparent information about an enterprise s involvement in variable interest entities. On January 1, 2010, the Company adopted ASC Topic 810.

Table of Contents

In June 2009, the FASB ASC amended Topic 105, *Generally Accepted Accounting Principles"*. This ASC Topic instituted a major change in the way accounting standards are organized. The accounting standards Codification became the single official source of authoritative, nongovernmental GAAP. As of September 30, 2009 only one level of authoritative GAAP exists, other than guidance issued by the SEC. All other literature is non-authoritative. The Company adopted the Codification in the third quarter of 2009. The adoption of the Codification had no impact on the Company s consolidated financial position, results of operations or cash flows.

(21) Recent Acquisitions

Dytech ENSA S.L.

On April 10, 2010, the Company acquired 100% of Dytech ENSA S.L. (Dytech), headquartered in Vigo, Spain. The gross cost of this acquisition is $147.7 million, or $147.6 million, net of cash and cash equivalents. Dytech is a leading producer of exhaust gas recirculation (EGR) coolers, EGR tubes, and integrated EGR modules including valves for automotive and commercial vehicle applications, both on- and off-road. This acquisition enhances the Company s emissions products offering and system/module expertise, further differentiating BorgWarner as a leader in highly engineered automotive systems. In addition, Dytech s geographic footprint and customer base complements and strengthens the Company s market presence with global automakers. The operating results of Dytech are reported within the Company s Engine segment from the date of acquisition. The Company s $147.6 million payment has been recorded as an investing activity in the Company s September 30, 2010 Consolidated Statement of Cash Flows.

The following table summarizes the aggregate estimated fair values of the assets acquired and liabilities assumed on April 10, 2010, the date of acquisition.

	in millions
Receivables, net	$ 54.3
Inventories, net	44.7
Property, plant and equipment, net	45.0
Goodwill	71.7
Other intangible assets, net of tax*	31.1
Accounts payable and accrued expenses	(79.1)
Other assets and liabilities, net	(9.3)
Assumed debt	(10.8)
Net cash consideration	$ 147.6

* Other intangibles assets, net of tax consist of $10.9 million for customer relationships, $11.0 million for unpatented technology, $9.0 million for trade names and $0.2 million in other miscellaneous intangible

assets.
Customer relationships, unpatented technology and miscellaneous intangible assets will be amortized over a 8, 15 and 3 year useful life, respectively. Trade names are not amortized.

BERU-Eichenauer GmbH

In anticipation of market growth expected for its electric cabin heaters, the Company completed the acquisition of BERU-Eichenauer GmbH by acquiring the shares of its former joint venture partner, Eichenauer Heizelemente GmbH & Co. KG. The former 50/50 joint venture was formed in 2000 to develop and manufacture electric cabin heaters in Kandel, Germany. The acquisition formally took effect on May 1, 2010.

The pre-tax impact of this acquisition was an increase in intangible and other assets of $17.6 million related to adjusting the Company s fifty percent investment to fair value under ASC Topic 805, a gain of $8.0 million and a decrease in cash of $9.6 million. The Company s $9.6 million payment has been recorded as an investing activity in the Company s September 30, 2010 Consolidated Statement of Cash Flows.

Acquisition of Etatech, Inc. Technology

In May 2010, the Company made the final payment regarding the June 2009 purchase of Etatech, Inc. The $7.5 million payment has been reflected as an investing activity in the Company s September 30, 2010 Consolidated Statement of Cash Flows.

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

INTRODUCTION

BorgWarner Inc. and Consolidated Subsidiaries (the Company) is a leading global supplier of highly engineered systems and components primarily for powertrain applications. Our products help improve vehicle performance, fuel efficiency, air quality and vehicle stability. They are manufactured and sold worldwide, primarily to original equipment manufacturers (OEMs) of light vehicles (i.e., passenger cars, sport-utility vehicles (SUVs), cross-over vehicles, vans and light-trucks). Our products are also manufactured and sold to OEMs of commercial trucks, buses and agricultural and off-highway vehicles. We also manufacture and sell our products into the aftermarket for light and commercial vehicles. We operate manufacturing facilities serving customers in the Americas, Europe and Asia, and are an original equipment supplier to every major automaker in the world.

The Company s products fall into two reporting segments: Engine and Drivetrain. The Engine segment s products include turbochargers, timing chain systems, air management, emissions systems, thermal systems, as well as diesel and gas ignition systems. The Drivetrain segment s products are all-wheel drive transfer cases, torque management systems, and components and systems for automated transmissions.

RESULTS OF OPERATIONS

Three Months Ended September 30, 2010 vs. Three Months Ended September 30, 2009

Consolidated net sales for the three months ended September 30, 2010 totaled $1,410.9 million, a 37.3% increase from the three months ended September 30, 2009. This increase occurred while light-vehicle production was up 10% worldwide, including 25% in North America and 12% in Asia, from the previous year s third quarter. Light-vehicle production was down 3% in Europe from the previous year s third quarter. The net sales increase included the second quarter 2010 acquisition of Dytech ENSA S.L. (Dytech), offset by the effect of weaker foreign currencies, primarily the Euro, of approximately $64 million. Currency fluctuations impacted all of the Company s product lines. Without the currency impact, the increase in global net sales would have been approximately 44%.

Gross profit and gross margin were $273.3 million and 19.4% for third quarter 2010 as compared to $151.8 million and 14.8% for third quarter 2009. The gross margin percentage increase is primarily due to higher sales in 2010 and successful cost reduction actions taken in 2009, offset by higher raw material costs.

Third quarter selling, general and administrative (SG&A) costs increased $24.3 million to $150.2 million from $125.9 million, and decreased as a percentage of net sales to 10.6% from 12.2%. R&D costs, which are included in SG&A expenses, increased $4.4 million to $45.8 million from $41.4 million as compared to the third quarter of 2009. As a percentage of sales, R&D costs decreased to 3.2% from 4.0% in the third quarter of 2009. Our continued investment in a number of cross-business R&D programs, as well as other key programs, is necessary for the Company s short and long-term growth. The SG&A cost increase is also reflective of higher performance related compensation in the third quarter of 2010.

Equity in affiliates earnings of $10.5 million increased $4.0 million as compared with the third quarter of 2009 primarily due to an increase in vehicle production in Japan.

Third quarter interest expense and finance charges of $18.4 million increased $5.4 million as compared with third quarter 2009. This increase is primarily due to higher debt levels.

The Company s effective tax rate in the third quarter was 3.6%. The provision for income taxes in the third quarter included a favorable impact of $21.2 million from the reversal of the Company s valuation allowance on U.S. based foreign tax credit carryforwards. The improving financial performance of the Company s U.S. operations has resulted in greater certainty that the Company will be able to fully utilize existing foreign tax credit carryforwards. Excluding this item, the effective tax rate for the third quarter was 22%.

The Company s projected annual effective tax rate for 2010 is estimated to be 17.3% which includes the impact of the reversal of the Company s valuation allowance on U.S. based foreign tax credit carryforwards, the change in tax legislation related to Medicare Part D subsidies, the additional tax expense associated with the BERU-Eichenauer equity investment gain and the tax benefit associated with the Company s environmental litigation settlement. This rate differs from the U.S. statutory rate primarily due to foreign rates, which differ from those in the U.S., the realization of certain business tax credits including foreign tax credits and favorable permanent differences between book and tax treatment for items, including equity in affiliates earnings. Excluding the impacts of the reversal of the valuation allowance on U.S. based foreign tax credits, the change in tax treatment for Medicare Part D subsidies, the BERU-Eichenauer equity investment gain and the Company s environmental litigation settlement, the Company s annual effective tax rate associated with on-going business operations was estimated to be 22%. In the second quarter, the Company increased its estimated annual effective tax rate for on-going business operations from 18% to 22%, primarily due to an increase in forecasted global earnings in higher taxed jurisdictions.

Due to unprecedented depressed global economic conditions in 2009 there was significant uncertainty regarding industry production volumes. This precluded the Company from making a reliable estimate of the annual effective tax rate for the full year. Accordingly, the Company made the 2009 income tax provision pursuant to Accounting Standards Codification (ASC) Topic 740, *Income Taxes"*, which provides that tax (or benefit) in each foreign jurisdiction that is not subject to a valuation allowance be separately computed as ordinary income/(loss) occurs within the jurisdiction for the quarter. The actual global effective tax rate for the nine months of 2009 was calculated to be a benefit of 54.5%, which resulted in a 7.0% tax rate for the third quarter. This represented an income tax benefit of ($24.2) million on a loss of ($44.4) million for the first nine months of 2009. It resulted in a $1.5 million expense on earnings before income taxes and noncontrolling interest of $21.5 million for the third quarter of 2009.

The Company s earnings per diluted share was $0.87 and $0.15 for the third quarter ended September 30, 2010 and 2009, respectively. The Company believes the following table is useful in highlighting non-recurring or non-comparable items that impacted its earnings per diluted share.

	Three Months Ended September 30,	
	2010	**2009**
GAAP earnings per share diluted	$ 0.87	$ 0.15
Non-recurring or non-comparable items:		
Reversal of foreign tax credit valuation allowance	0.17	
Total impact of non-recurring or non-comparable items per share diluted	$ 0.17	$

Table of Contents

Nine Months Ended September 30, 2010 vs. Nine Months Ended September 30, 2009

Consolidated net sales for the nine months ended September 30, 2010 totaled $4,119.4 million, a 49.1% increase from the nine months ended September 30, 2009. This increase occurred while light-vehicle production was up 29% worldwide, including 53% in North America, 16% in Europe and 33% in Asia from the previous year s first nine months. The net sales increase included the second quarter 2010 acquisition of Dytech as well as the effect of weaker foreign currencies, primarily the Euro, of approximately $29 million. Currency fluctuations impacted all of the Company s product lines. Without the currency impact, the increase in global net sales would have been approximately 50%.

Gross profit and gross margin were $787.2 million and 19.1% for the first nine months of 2010 as compared to $347.6 million and 12.6% for the first nine months of 2009. The gross margin percentage increase is primarily due to higher sales in 2010 and successful cost reduction actions taken in 2009, offset by higher raw material costs.

On February 26, 2009, the Company s subsidiary, BorgWarner Diversified Transmission Products Inc. (DTP), entered into a Plant Shutdown Agreement with the United Auto Workers (UAW) for its Muncie, Indiana automotive component plant (the Muncie Plant). Management subsequently wound-down production activity at the plant, with operations effectively ceased as of March 31, 2009. As a result of the closure of the Muncie Plant, the Company recorded a curtailment gain of $41.9 million in the first quarter of 2009.

The Plant Shutdown Agreement with the UAW for the Muncie Plant also included a settlement of a portion of the UAW retiree health care obligation, resulting in the remeasurement of the retiree medical plan. The financial impact of this settlement resulted in expense recognition of $14.0 million, a $47.2 million reduction to retirement-related liabilities, a $27.2 million increase in accumulated other comprehensive income and a $34.0 million increase in accounts payable and accrued expenses in the first quarter of 2009. The $34.0 million in accounts payable and accrued expenses was paid in monthly installments, which began in May 2009 and concluded in April 2010.

The combined pre-tax impact of these actions was a net gain of $27.9 million, comprised of a $41.9 million curtailment gain and $14.0 million settlement loss on the Company s Condensed Consolidated Statements of Operations as of March 31, 2009.

Selling, general and administrative (SG&A) costs for the nine months ended September 30, 2010 increased $102.9 million to $418.3 million from $315.4 million, and decreased as a percentage of net sales to 10.2% from 11.4%. The increase in SG&A expenses was impacted by the $27.9 million afore mentioned net gain related to the Company s Plant Shutdown Agreement with the UAW and subsequent closure of the Muncie Plant. This gain was partially offset by a $4.8 million expense associated with the adoption of ASC Topic 805, Business Combinations. Without these non-comparable items, SG&A as a percentage of net sales was 12.2% for the first nine months of 2009.

R&D costs, which are included in SG&A expenses, increased $24.5 million to $134.2 million from $109.7 million as compared to the first nine months of 2009. As a percentage of sales, R&D costs decreased to 3.3% from 4.0% in the first nine months of 2009. Our continued investment in a number of cross-business R&D programs, as well as other key programs, is necessary for the Company s short and long-term growth. The SG&A cost increase is also reflective of higher performance related compensation in the first nine months of 2010.

In the second quarter of 2009, the Company took restructuring actions in response to depressed industry conditions. The Company reduced its North American workforce by approximately 550 people, or 12%; its European workforce by approximately 150 people, or 2%; and its Asian workforce by approximately 60 people, or 3% in the second quarter. The net restructuring expense recognized in the second quarter was

$9.0 million for employee termination benefits. In addition to employee termination costs, the Company recorded $36.3 million of asset impairment and $5.0 million of other charges in the second quarter of 2009 related to the North American and European restructuring. The combined 2009 restructuring expenses of $50.3 million are broken out by segment as follows: Engine $27.2 million, Drivetrain $19.7 million and Corporate $3.4 million.

Included in the second quarter of 2009 asset impairment charge is $22.3 million related to one of the Company s European locations. During the second quarter of 2009 circumstances caused the Company to evaluate the long range outlook of the facility using undiscounted and discounted cash flow models, both of which indicated that assets were impaired. The Company then used an estimate of cost replacement to determine the fair value of the assets at the facility. This reduction of asset value was included in the Engine segment.

Other expense of $22.0 million for the first nine months of 2010 is primarily comprised of the Company s $28.0 million environmental litigation settlement, offset by an $8.0 million gain on the acquisition of BERU-Eichenauer GmbH related to adjusting the Company s fifty percent investment to fair value under ASC Topic 805.

Equity in affiliates earnings of $29.8 million increased $18.3 million as compared with the first nine months of 2009 primarily due to an increase in vehicle production in Japan.

Interest expense and finance charges for the first nine months of 2010 of $46.8 million increased $5.7 million as compared with interest expense for the first nine months of 2009. This increase is primarily due to higher debt levels.

The Company s projected annual effective tax rate for 2010 is estimated to be 17.3% which includes the impact of the reversal of the Company s valuation allowance on U.S. based foreign tax credit carryforwards, the change in tax legislation related to Medicare Part D subsidies, the additional tax expense associated with the BERU-Eichenauer equity investment gain and the tax benefit associated with the Company s environmental litigation settlement. This rate differs from the U.S. statutory rate primarily due to foreign rates, which differ from those in the U.S., the realization of certain business tax credits including foreign tax credits and favorable permanent differences between book and tax treatment for items, including equity in affiliates earnings. Excluding the impacts of the reversal of the valuation allowance on U.S. based foreign tax credits, the change in tax treatment for Medicare Part D subsidies, the BERU-Eichenauer equity investment gain and the Company s environmental litigation settlement, the Company s annual effective tax rate associated with on-going business operations was estimated to be 22%. In the second quarter, the Company increased its estimated annual effective tax rate for on-going business operations from 18% to 22%, primarily due to an increase in forecasted global earnings in higher taxed jurisdictions.

Due to unprecedented depressed global economic conditions in 2009 there was significant uncertainty regarding industry production volumes. This precluded the Company from making a reliable estimate of the annual effective tax rate for the full year. Accordingly, the Company made the 2009 income tax provision pursuant to Accounting Standards Codification (ASC) Topic 740, *Income Taxes* , which provides that tax (or benefit) in each foreign jurisdiction that is not subject to a valuation allowance be separately computed as ordinary income/(loss) occurs within the jurisdiction for the quarter. The actual global effective tax rate for the nine months of 2009 was calculated to be a benefit of 54.5%, which resulted in a 7.0% tax rate for the third quarter. This represented an income tax benefit of ($24.2) million on a loss of ($44.4) million for the first nine months of 2009. It resulted in a $1.5 million expense on earnings before income taxes and noncontrolling interest of $21.5 million for the third quarter of 2009.

Table of Contents

The Company s earnings (loss) per diluted share was $2.18 and $(0.22) for the first nine months of 2010 and 2009, respectively. The Company believes the following table is useful in highlighting non-recurring or non-comparable items that impacted its earnings (loss) per diluted share.

	Nine Months Ended September 30,	
	2010	2009
GAAP earnings or (loss) per share diluted	$ 2.18	$ (0.22)
Non-recurring or non-comparable items:		
Environmental litigation settlement	(0.14)	
Medicare Part D tax law change	(0.02)	
Reversal of foreign tax credit valuation allowance	0.17	
BERU-Eichenauer equity investment gain	0.04	
Restructuring activities		(0.29)
Interest rate derivative agreements		(0.03)
Adoption of ASC Topic 805 - acquisition activity		(0.03)
Muncie closure retiree obligation net gain		0.15
Total impact of non-recurring or non-comparable items per share diluted	$ 0.05	$ (0.20)

Reporting Segments

The Company s business is comprised of two reporting segments: Engine and Drivetrain. These segments are strategic business groups, which are managed separately as each represents a specific grouping of automotive components and systems.

The Company allocates resources to each segment based upon the projected after-tax return on invested capital (ROIC) of its business initiatives. The ROIC is comprised of earnings before interest and taxes (EBIT) adjusted for restructuring, goodwill impairment charges, affiliates earnings, noncontrolling interest and other items not reflective of on-going operating profit or loss (Adjusted EBIT) compared to the projected average capital investment required. Adjusted EBIT is the measure of segment profit or loss used by the Company. The Company believes Adjusted EBIT is most reflective of the operational profitability or loss of our reporting segments.

The following tables show net sales and Adjusted EBIT for the Company s reporting segments.

Net Sales by Reporting Segment
(millions)

	Three months ended September 30,		Nine months ended September 30,	
	2010	**2009**	**2010**	**2009**
Engine	$ 1,018.8	$ 735.3	$ 2,942.4	$ 2,030.2
Drivetrain	397.1	296.8	1,191.6	743.8
Inter-segment eliminations	(5.0)	(4.3)	(14.6)	(10.5)
Net sales	$ 1,410.9	$ 1,027.8	$ 4,119.4	$ 2,763.5

Adjusted Earnings (Loss) Before Interest and Income Taxes (Adjusted EBIT)
(millions)

	Three months ended September 30,		Nine months ended September 30,	
	2010	**2009**	**2010**	**2009**
Engine	$ 136.4	$ 56.6	$ 375.9	$ 136.5
Drivetrain	31.1	7.5	105.1	(34.0)
Adjusted EBIT	167.5	64.1	481.0	102.5
Muncie closure retiree obligation net gain				(27.9)
Environmental litigation settlement			28.0	
BERU-Eichenauer equity investment gain			(8.0)	
Corporate, including equity in affiliates earnings and stock-based compensation	34.0	30.1	84.3	85.1
Restructuring expense				50.3

Earnings (loss) before income taxes and noncontrolling interest	115.7	21.5	331.7	(44.4)
Provision (benefit) for income taxes	4.2	1.5	51.1	(24.2)
Net earnings (loss)	111.5	20.0	280.6	(20.2)
Net earnings attributable to the noncontrolling interest, net of tax	4.8	2.8	14.9	5.5
Net earnings (loss) attributable to BorgWarner Inc.	$ 106.7	$ 17.2	$ 265.7	$ (25.7)

Three Months Ended September 30, 2010 vs. Three Months Ended September 30, 2009
The Engine segment net sales increased $283.5 million, or 38.6%, and segment EBIT increased $79.8 million, or 141.0%, from third quarter 2009. Excluding the impact of weaker foreign currencies, primarily the Euro, sales increased approximately 46%. The sales increase was primarily driven by strong global growth in all major product groups as well as the second quarter 2010 acquisition of Dytech. The EBIT margin increase was primarily driven by strong global sales growth and continued cost management.
The Drivetrain segment net sales increased $100.3 million, or 33.8%, and segment EBIT increased $23.6 million, or 314.7%, from third quarter 2009. Excluding the impact of weaker foreign currencies, primarily the Euro, sales

increased approximately 39%. The sales increase was primarily driven by strong growth of transmission components and torque management devices in Europe, Asia and the U.S. The EBIT margin increase was primarily driven by strong global sales growth and continued cost management.

Nine Months Ended September 30, 2010 vs. Nine Months Ended September 30, 2009

The Engine segment net sales increased $912.2 million, or 44.9%, and segment EBIT increased $239.4 million, or 175.4%, from the first nine months of 2009. Excluding the impact of weaker foreign currencies, primarily the Euro, sales increased approximately 46%. The sales increase was primarily driven by strong global growth in all major product groups as well as the second quarter 2010 acquisition of Dytech. The EBIT margin increase was primarily driven by strong global sales growth and continued cost management.

The Drivetrain segment net sales increased $447.8 million, or 60.2%, and segment EBIT increased $139.1 million from the first nine months of 2009. Excluding the impact of weaker foreign currencies, primarily the Euro, sales increased approximately 61%. The sales increase was primarily driven by strong growth of transmission components and torque management devices in Europe, Asia and the U.S. The EBIT margin increase was primarily driven by strong global sales growth and continued cost management.

Outlook for the Remainder of 2010

Our overall outlook for 2010 is positive. North American and European production levels in the first nine months of 2010 were stronger than expected and demand appears to be based on fundamental improvements in those markets. Increased confidence in the stability of the European vehicle market subsequent to the expiration of government-sponsored incentive programs, and a favorable shift in Europe and Asia toward vehicles with higher BorgWarner content has resulted in higher expectations for the Company for the remainder of 2010.

The Company maintains a positive long-term outlook for its global business and is committed to new product development and strategic capital investments to enhance its product leadership strategy. The trends that are driving our long-term growth are expected to continue, including the growth of direct injection diesel and gasoline engines worldwide, the increased adoption of automated transmissions in Europe and Asia-Pacific, and the move to variable cam and chain engine timing systems in both Europe and Asia-Pacific. As the recovery from current global economic conditions continues, we expect long-term sales and net earnings growth to resume to historical rates.

FINANCIAL CONDITION AND LIQUIDITY

The Company had $432.2 million of cash on hand at September 30, 2010. On March 31, 2010, the Company replaced its $250 million multi-currency revolving credit facility with a new $550 million multi-currency revolving credit facility, which includes a feature that allows the Company to increase its borrowings to $600 million. The new facility provides for borrowings through March 31, 2013, and is guaranteed by the Company s domestic subsidiaries. The Company has three key financial covenants as part of the credit agreement. These covenants are a net worth test, a debt compared to EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) test, and an interest coverage test. The Company was in compliance with all covenants at September 30, 2010 and expects to remain compliant in future periods. At September 30, 2010 and December 31, 2009 there were no outstanding borrowings under these facilities. In addition to the credit facility, as of September 30, 2010, the Company had approximately $126 million available under a universal shelf registration statement on file with the Securities and Exchange Commission (SEC) under which a variety of debt and equity instruments could be issued. From a credit quality perspective, the Company has a credit rating of BBB from both Standard & Poor s and Fitch Ratings and Ba1 from Moody s. On March 18, 2009, Moody s downgraded the Company s credit rating from Baa3 to Ba1. The current outlook from both Standard & Poor s and Fitch Ratings is stable. On April 13, 2010, Moody s upgraded the Company s outlook to positive. On September 2, 2010 the Company received its first credit rating from Fitch Ratings. None of the Company s debt agreements require accelerated repayment in the event of a downgrade in credit ratings.

On April 24, 2009 the Company s $50 million accounts receivable securitization facility matured and was repaid. On December 21, 2009 the Company entered into a new $50 million accounts receivable securitization facility.

On September 8, 2010 the Company amended the December 21, 2009 Receivable Purchase Agreement, which increased the accounts receivable securitization facility from $50 million to $80 million, the maximum size of the facility. This facility matures on December 21, 2012.

The Company paid servicing fees related to these receivables for the three and nine months ended September 30, 2010 of $0.4 million and $0.9 million. The Company paid servicing fees related to these receivables for the nine months ended September 30, 2009 of $0.4 million. As they were under prior accounting rules, these amounts are consistently recorded in interest expense and finance charges in the Condensed Consolidated Statements of Operations.

Net cash provided by operating activities increased $86.4 million to $312.7 million for the first nine months of 2010 from $226.3 million in the first nine months of 2009. The increase reflects higher earnings, offset by higher working capital needs in the first nine months of 2010 as compared to the first nine months of 2009.

Net cash used in investing activities increased $227.9 million to $342.1 million for the first nine months of 2010 from $114.2 million in the first nine months of 2009. This increase is primarily due to the $147.6 million acquisition of Dytech, the $9.6 million acquisition of the Company s 50/50 BERU-Eichenauer joint venture, and the final $7.5 million payment for the June 2009 purchase of Etatech, Inc. Capital spending, including tooling outlays, was $187.8 million in the first nine months of 2010, compared with $127.2 million in 2009. Selective capital spending remains an area of focus for the Company, both in order to support our book of new business and for cost reductions and productivity improvements. The Company expects to continue to spend capital to support the launch of our new applications and for cost reductions and productivity improvement projects.

Net cash provided by financing activities increased $74.3 million to $106.5 million for the first nine months of 2010 from $32.2 million in the first nine months of 2009. This change is mostly due to the Company s September 16, 2010 issuance of $250 million in 4.625% senior notes, offset by the repurchasing of 5,019,400 shares of its common stock for $198.9 million in the second and third quarters of 2010, of which $197.3 million was paid for in the first nine months of 2010.

As of September 30, 2010, debt increased from year-end 2009 by $349.0 million and cash increased by $74.8 million. Our debt to capital ratio was 34.1% at the end of the third quarter versus 27.5% at the end of 2009. Our debt and debt to capital ratio increase relates to the January 1, 2010 adoption of ASC Topic 860, which required the Company to reflect its receivable securitization facility in its financial statements, as well as the Company s September 16, 2010 issuance of $250 million in 4.625% senior notes. The impact of the adoption of ASC Topic 860 is an increase in receivables, net of $80 million and an increase in notes payable and other short-term debt of $80 million in the Company s 2010 Condensed Consolidated Balance Sheet. The Company s debt to capital increase also relates to the Company s second quarter 2010 $147.6 million acquisition of Dytech as well as the repurchasing of 5,019,400 shares of common stock for $198.9 million.

The Company paid dividends to its stockholders of $13.8 million in the first nine months of 2009. On March 5, 2009, the Company announced the temporary suspension of the Company s quarterly dividend of $0.12 per share.

On April 9, 2009, the Company issued $373.8 million in convertible senior notes due April 15, 2012. Under ASC Topic 470, *Accounting for Convertible Debt Instruments That May be Settled in Cash Upon Conversion (Including Partial Cash Settlement)*, the Company must account for the convertible senior notes by bifurcating the instruments between their liability and equity components. The value of the debt component is based on the fair value of issuing a similar nonconvertible debt security. The equity component of the convertible debt security is calculated by deducting the value of the liability from the proceeds received at issuance. The Company s September 30, 2010 Consolidated Balance Sheet includes debt of $343.7 million and capital in excess of par of $36.5 million. Additionally, ASC Topic 470 requires the Company to accrete the discounted carrying value of the convertible notes to their face value over the term of the notes. The Company s interest expense associated with this amortization is based on the effective interest rate of the convertible senior notes of 9.365%. The total interest expense related to the

convertible notes in the Company s Consolidated Statement of Operations for the three and nine months ended September 30, 2010 and 2009 was as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(millions)	2010	2009	2010	2009
Interest expense	$7.9	$7.1	$23.3	$14.5
Non-cash portion	$4.6	$4.2	$13.5	$ 8.4

The notes will pay interest semi-annually of $6.5 million, which is at a coupon rate of 3.50% per year.

Holders of the notes may convert their notes at their option at any time prior to the close of business on the second scheduled trading day immediately preceding the maturity date of the notes, in multiples of $1,000 principal amount. The initial conversion rate for the notes is 30.4706 shares of the Company s common stock per $1,000 principal amount of notes (representing an initial conversion price of approximately $32.82 per share of common stock). The conversion price represents a conversion premium of 27.50% over the last reported sale price of the Company s common stock on the New York Stock Exchange on April 6, 2009, of $25.74 per share. Since the Company s stock price was above the convertible senior notes conversion price of $32.82 as of September 30, 2010, the if-converted value was approximately $174.0 million at September 30, 2010. There was no dilutive impact to weighted average shares outstanding for the year-ended December 31, 2009 due to the convertible senior notes. In conjunction with the note offering, the Company entered into a bond hedge overlay at a net pre-tax cost of $25.2 million, effectively raising the conversion premium to 50.0%, or approximately $38.61 per share. Upon conversion, the Company will pay or deliver cash, shares of our common stock or a combination thereof at our election. The convertible senior notes were issued under the Company s $750 million universal shelf registration filed with the SEC.

The Company s April 9, 2009 issuance of $373.8 million in convertible senior notes and the September 16, 2010 issuance of $250 million in senior notes were both issued under the Company s $750 million universal shelf registration filed with the SEC, leaving approximately $126 million available as of September 30, 2010.

We believe that the combination of cash from operations, cash balances, available credit facilities, and the remaining shelf registration capacity will be sufficient to satisfy our cash needs for our current level of operations and our planned operations for the foreseeable future. We will continue to balance our needs for internal growth, external growth, debt reduction and cash conservation.

OTHER MATTERS

In the normal course of business the Company and its subsidiaries are parties to various commercial and legal claims, actions and complaints, including matters involving warranty claims, intellectual property claims, general liability and various other risks. It is not possible to predict with certainty whether or not the Company and its subsidiaries will ultimately be successful in any of these commercial and legal matters or, if not, what the impact might be. The Company s environmental and product liability contingencies are discussed separately below. The Company s management does not expect that the results in any of these commercial and legal claims, actions and complaints will have a material adverse effect on the Company s results of operations, financial position or cash flows.

Table of Contents

Litigation

In January 2006, DTP, a subsidiary of the Company, filed a declaratory judgment action in United States District Court, Southern District of Indiana (Indianapolis Division) against the United Automobile, Aerospace, and Agricultural Implements Workers of America (UAW) Local No. 287 and Gerald Poor, individually and as the representative of a defendant class. DTP sought the Court s affirmation that DTP did not violate the Labor-Management Relations Act or the Employee Retirement Income Security Act by unilaterally amending certain medical plans effective April 1, 2006 and October 1, 2006, prior to the expiration of the then-current collective bargaining agreements. On September 10, 2008, the Court found that DTP s reservation of the right to make such amendments reducing the level of benefits provided to retirees was limited by its collectively bargained health insurance agreement with the UAW, which did not expire until April 24, 2009. Thus, the amendments were untimely. In 2008 the Company recorded a charge of $4.0 million as a result of the Court s decision.

DTP filed a declaratory judgment action in the United States District Court, Southern District of Indiana (Indianapolis Division) against the UAW Local No. 287 and Jim Barrett and others, individually and as representatives of a defendant class, on February 26, 2009 again seeking the Court s affirmation that DTP will not violate the Labor Management Relations Act or the Employment Retirement Income Security Act (ERISA) by modifying the level of benefits provided retirees to make them comparable to other Company retiree benefit plans after April 24, 2009. Certain retirees, on behalf of themselves and others, filed a mirror-image action in the United States District Court, Eastern District of Michigan (Southern Division) on March 11, 2009, for which a class has been certified. During the last quarter of 2009 the action pending in Indiana was dismissed, while the action in Michigan is continuing. At this stage of the litigation, the Company cannot make any predictions as to the outcome, but it is vigorously defending against the suit.

Environmental

The Company and certain of its current and former direct and indirect corporate predecessors, subsidiaries and divisions have been identified by the United States Environmental Protection Agency and certain state environmental agencies and private parties as potentially responsible parties (PRPs) at various hazardous waste disposal sites under the Comprehensive Environmental Response, Compensation and Liability Act (Superfund) and equivalent state laws and, as such, may presently be liable for the cost of clean-up and other remedial activities at 38 such sites. Responsibility for clean-up and other remedial activities at a Superfund site is typically shared among PRPs based on an allocation formula.

The Company believes that none of these matters, individually or in the aggregate, will have a material adverse effect on its results of operations, financial position, or cash flows. Generally, this is because either the estimates of the maximum potential liability at a site are not material or the liability will be shared with other PRPs, although no assurance can be given with respect to the ultimate outcome of any such matter.

Based on information available to the Company (which in most cases includes: an estimate of allocation of liability among PRPs; the probability that other PRPs, many of whom are large, solvent public companies, will fully pay the cost apportioned to them; currently available information from PRPs and/or federal or state environmental agencies concerning the scope of contamination and estimated remediation and consulting costs; remediation alternatives; and estimated legal fees), the Company has an accrual for indicated environmental liabilities with a balance at September 30, 2010 of $45.0 million, which includes the $28.0 million recorded in the second quarter of 2010 and referred to below. The Company has accrued amounts that do not exceed $3.0 million related to any individual site except for the Crystal Springs site discussed below, and we do not believe that the costs related to any of these sites will have a material adverse effect on the Company s results of operations, cash flows or financial condition. The Company expects to pay out substantially all of the amounts accrued for environmental liability over the next three to five years.

In connection with the sale of Kuhlman Electric Corporation, the Company agreed to indemnify the buyer and Kuhlman Electric for certain environmental liabilities, then unknown to the Company, relating to certain operations of Kuhlman Electric that pre-date the Company s 1999 acquisition of Kuhlman Electric. During 2000, Kuhlman Electric notified the Company that it discovered potential environmental contamination at its Crystal Springs, Mississippi plant while undertaking an expansion of the plant. The Company is continuing to work with the Mississippi Department of Environmental Quality and Kuhlman Electric to investigate and remediate to the extent necessary, historical contamination at the plant and surrounding area. Kuhlman Electric and others, including the Company, were sued in numerous related lawsuits, in which multiple claimants alleged personal injury and property damage relating to the alleged environmental contamination. In 2005, the Company and other defendants entered into settlements that resolved approximately 99% of those claims and the remainder of them have since been dismissed.

In 2007 and 2008, four additional lawsuits were filed against Kuhlman Electric and others, including the Company, on behalf of approximately 340 plaintiffs, alleging personal injury relating to the alleged environmental contamination. One of the lawsuits, involving a single plaintiff, was dismissed by the trial court in April 2010 and the plaintiff s appeal of that decision was dismissed by the appellate court in August 2010. The Company entered into a settlement in July 2010 regarding the personal injury claims of the plaintiffs in the other three lawsuits and those of approximately 2,700 unfiled claimants represented by those plaintiffs attorneys. In exchange for, among other things, the dismissal with prejudice of these lawsuits and the release of claims by the unfiled claimants, the Company agreed to pay $28 million in settlement funds. The settlement funds are expected to be paid in two equal installments in November 2010 and February 2011.

Conditional Asset Retirement Obligations

In March 2005, ASC Topic 410, Accounting for Conditional Asset Retirement Obligations, which requires the Company to recognize legal obligations to perform asset retirements in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. Certain government regulations require the removal and disposal of asbestos from an existing facility at the time the facility undergoes major renovations or is demolished. The liability exists because the facility will not last forever, but it is conditional on future renovations (even if there are no immediate plans to remove the materials, which pose no health or safety hazard in their current condition). Similarly, government regulations require the removal or closure of underground storage tanks and above ground storage tanks when their use ceases, the disposal of polychlorinated biphenyl transformers and capacitors when their use ceases, and the disposal of used furnace bricks and liners, and lead-based paint in conjunction with facility renovations or demolition. The Company currently has 30 manufacturing locations that have been identified as containing these items. The fair value to remove and dispose of this material has been estimated and recorded at $1.2 million as of September 30, 2010 and $1.3 million at December 31, 2009.

Product Liability

Like many other industrial companies who have historically operated in the U.S., the Company (or parties the Company is obligated to indemnify) continues to be named as one of many defendants in asbestos-related personal injury actions. We believe that the Company s involvement is limited because, in general, these claims relate to a few types of automotive friction products that were manufactured many years ago and contained encapsulated asbestos. The nature of the fibers, the encapsulation and the manner of use lead the Company to believe that these products are highly unlikely to cause harm. As of September 30, 2010 and December 31, 2009 the Company had approximately 17,000 and 23,000 pending asbestos-related product liability claims, respectively. Of the 17,000 outstanding claims at September 30, 2010, approximately 9,000 were pending in just three jurisdictions, where significant tort and judicial reform activities are underway.

The Company s policy is to vigorously defend against these lawsuits and the Company has been successful in obtaining dismissal of many claims without any payment. The Company expects that the vast majority of the pending asbestos-related product liability claims where it is a defendant (or has an obligation to indemnify a defendant) will result in no payment being made by the Company or its insurers. In 2010, of the approximately 6,400 claims resolved, 168 (2.6%) resulted in any payment being made to a claimant by or on behalf of the Company. In the full year of 2009, of the approximately 5,300 claims resolved, only 223 (4.2%) resulted in any payment being made to a claimant by or on behalf of the Company.

Prior to June 2004, the settlement and defense costs associated with all claims were covered by the Company s primary layer insurance coverage, and these carriers administered, defended, settled and paid all claims under a funding arrangement. In June 2004, primary layer insurance carriers notified the Company of the alleged exhaustion of their policy limits. This led the Company to access the next available layer of insurance coverage. Since June 2004, secondary layer insurers have paid asbestos-related litigation defense and settlement expenses pursuant to a funding arrangement. To date, the Company has paid and accrued $144.3 million in defense and indemnity in advance of insurers reimbursement and has received $29.7 million in cash from insurers. The net outstanding balance of $114.6 million, which includes the $40.7 million referred to below, is expected to be fully recovered, of which approximately $42 million is expected to be recovered within one year. Timing of the recovery is dependent on final resolution of the declaratory judgment action referred to below. At December 31, 2009, insurers owed $58.6 million in association with these claims.

On April 5, 2010 the Superior Court of New Jersey Appellate Division affirmed a lower court judgment in an asbestos-related action against the Company and others. The Company filed its Notice of Petition to the Supreme Court of New Jersey in late April, seeking to appeal the decisions of the lower courts. On July 8, 2010 the Supreme Court of New Jersey denied the Company s Notice of Petition appealing the decision of the lower courts. As a result of the Court s decision, the Company increased its estimated liability for claims asserted, but not yet paid by $36.7 million to $40.7 million and increased the Company s related insurance receivable by $36.7 million to recognize the proceeds receivable from insurance carriers. The total claim of $40.7 million was paid by the Company in July 2010.

In addition to the $114.6 million net outstanding balance relating to past settlements and defense costs, the Company has estimated a liability of $45.7 million for claims asserted, but not yet resolved and their related defense costs at September 30, 2010. The Company also has a related asset of $45.7 million to recognize the proceeds receivable from the insurance carriers. Insurance carrier reimbursement of 100% is expected based on the Company s experience, its insurance contracts and decisions received to date in the declaratory judgment action referred to below. At December 31, 2009, the comparable value of the insurance receivable and accrued liability was $49.9 million.

Table of Contents

The amounts recorded in the Consolidated Balance Sheets related to the estimated future settlement of existing claims are as follows:

(millions)	September 30, 2010	December 31, 2009
Assets:		
Prepayments and other current assets	$ 22.5	$ 24.9
Other non-current assets	23.2	25.0
Total insurance receivable	$ 45.7	$ 49.9
Liabilities:		
Accounts payable and accrued expenses	$ 22.5	$ 24.9
Other non-current liabilities	23.2	25.0
Total accrued liability	$ 45.7	$ 49.9

The Company cannot reasonably estimate possible losses, if any, in excess of those for which it has accrued, because it cannot predict how many additional claims may be brought against the Company (or parties the Company has an obligation to indemnify) in the future, the allegations in such claims, the possible outcomes, or the impact of tort reform legislation that may be enacted at the State or Federal levels.

A declaratory judgment action was filed in January 2004 in the Circuit Court of Cook County, Illinois by Continental Casualty Company and related companies (CNA) against the Company and certain of its other historical general liability insurers. CNA provided the Company with both primary and additional layer insurance, and, in conjunction with other insurers, is currently defending and indemnifying the Company in its pending asbestos-related product liability claims. The lawsuit seeks to determine the extent of insurance coverage available to the Company including whether the available limits exhaust on a per occurrence or an aggregate basis, and to determine how the applicable coverage responsibilities should be apportioned. On August 15, 2005, the Court issued an interim order regarding the apportionment matter. The interim order has the effect of making insurers responsible for all defense and settlement costs pro rata to time-on-the-risk, with the pro-ration method to hold the insured harmless for periods of bankrupt or unavailable coverage. Appeals of the interim order were denied. However, the issue is reserved for appellate review at the end of the action. In addition to the primary insurance available for asbestos-related claims, the Company has substantial additional layers of insurance available for potential future asbestos-related product claims. As such, the Company continues to believe that its coverage is sufficient to meet foreseeable liabilities.

Although it is impossible to predict the outcome of pending or future claims or the impact of tort reform legislation that may be enacted at the State or Federal levels, due to the encapsulated nature of the products, the Company s experiences in vigorously defending and resolving claims in the past, and the Company s significant insurance coverage with solvent carriers as of the date of this filing, management does not believe that asbestos-related product liability claims are likely to have a material adverse effect on the Company s results of operations, cash flows or financial condition.

New Accounting Pronouncements

In September 2006, the FASB ASC amended Topic 820, *Fair Value Measurements and Disclosures* . ASC Topic 820 defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. On January 1, 2009, the Company fully adopted as required, ASC Topic 820. See Note 10 to the Consolidated Financial Statements for more information regarding the implementation of ASC Topic 820.

In December 2007, the FASB ASC amended Topic 805, *Business Combinations*. ASC Topic 805 establishes principles and requirements for recognizing identifiable assets acquired, liabilities assumed, noncontrolling interest in the acquiree, goodwill acquired in the combination or the gain from a bargain purchase, and disclosure requirements. Under this revised statement, all costs incurred to effect an acquisition are recognized separately from the acquisition. Also, restructuring costs that are expected but the acquirer is not obligated to incur are recognized separately from the acquisition. On January 1, 2009, the Company adopted ASC Topic 805. In the first quarter of 2009, the Company expensed $4.8 million related to on-going acquisition related activity.

In December 2007, the FASB ASC amended Topic 810, *Consolidation*. For consolidated subsidiaries that are less than wholly owned, the third party holdings of equity interests are referred to as noncontrolling interests. The portion of net income (loss) attributable to noncontrolling interests for such subsidiaries is presented as net income (loss) applicable to noncontrolling interest on the consolidated statement of operation, and the portion of stockholders equity of such subsidiaries is presented as noncontrolling interest on the consolidated balance sheet. Effective January 1, 2009, the Company adopted ASC Topic 810.

In March 2008, the FASB ASC amended Topic 815, *Derivatives and Hedging*. ASC Topic 815 requires entities to provide enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under ASC Topic 815 and its related interpretations, and how derivative instruments and related hedged items affect an entity s financial position, financial performance, and cash flows. On January 1, 2009, the Company adopted ASC Topic 815. See Note 11 to the Consolidated Financial Statements for more information regarding the implementation of ASC Topic 815.

In May 2008, the FASB ASC amended Topic 470, *Debt*. Under ASC Topic 470, an entity must separately account for the liability and equity components of the convertible debt instruments that may be settled entirely or partially in cash upon conversion in a manner that reflects the issuer s interest cost. ASC Topic 470 is effective for fiscal years beginning after December 15, 2008, and for interim periods within those fiscal years, with retrospective application required. As a result of our adoption of ASC Topic 470 for fiscal 2009 and the Company s April 9, 2009 issuance of $373.8 million convertible senior notes due April 15, 2012, we recorded the equity and liability components of the notes on our December 31, 2009 Consolidated Balance Sheet. Additionally, ASC Topic 470 requires us to accrete the discounted carrying value of the convertible notes to their face value over the term of the notes. The Company s interest expense associated with this amortization is based on the effective interest rate of the convertible senior notes of 9.365%. See Note 9 to the Consolidated Financial Statements for more information regarding this issuance.

In June 2009, the FASB ASC amended Topic 860, *Accounting for Transfer of Financial Assets*. ASC Topic 860 removes the concept of a qualifying special-purpose entity and removes the exception from applying ASC Topic 810, Consolidation of Variable Interest Entities, to qualifying special-purpose entities. This Statement modifies the financial-components approach used in ASC Topic 860 and limits the circumstances in which a financial asset, or portion of a financial asset, should be derecognized. Additionally, enhanced disclosures are required to provide financial statement users with greater transparency about transfers of financial assets and a transferor s continuing involvement with transferred financial assets. On January 1, 2010, the Company elected to prospectively adopt ASC Topic 860. The impact of this adoption is an increase in receivables, net of $80 million and an increase in notes payable and other short-term debt of $80 million in the Company s September 30, 2010 Condensed Consolidated Balance Sheet. See Note 5 to the Consolidated Financial Statements for more information regarding the third quarter 2010 increase in our receivable securitization facility.

Table of Contents

In June 2009, the FASB amended ASC Topic 810, *Consolidation*. ASC Topic 810 requires an ongoing reassessment of whether an enterprise is the primary beneficiary of a variable interest entity. Additionally, ASC Topic 810 requires enhanced disclosures that will provide users of financial statements with more transparent information about an enterprise s involvement in variable interest entities. On January 1, 2010, the Company adopted ASC Topic 810.

In June 2009, the FASB ASC amended Topic 105, *Generally Accepted Accounting Principles*. This ASC Topic instituted a major change in the way accounting standards are organized. The accounting standards Codification became the single official source of authoritative, nongovernmental GAAP. As of September 30, 2009 only one level of authoritative GAAP exists, other than guidance issued by the SEC. All other literature is non-authoritative. The Company adopted the Codification in the third quarter of 2009. The adoption of the Codification had no impact on the Company s consolidated financial position, results of operations or cash flows.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

Statements contained in this Form 10-Q (including Management s Discussion and Analysis of Financial Condition and Results of Operations) may contain forward-looking statements as contemplated by the 1995 Private Securities Litigation Reform Act that are based on management s current outlook, expectations, estimates and projections. Words such as outlook , expects, anticipates, intends, plans, believes, estimates, variations of such words and simi expressions are intended to identify such forward-looking statements. Forward-looking statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond our control, that could cause actual results to differ materially from those expressed, projected or implied in or by the forward-looking statements. Such risks and uncertainties include: fluctuations in domestic or foreign vehicle production, the continued use of outside suppliers, fluctuations in demand for vehicles containing our products, changes in general economic conditions, as well as the other risks detailed in our filings with the Securities and Exchange Commission, including the Risk Factors, identified in the Form 10-K for the fiscal year ended December 31, 2009. We do not undertake any obligation to update any forward-looking statements.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

There have been no material changes to the information concerning our exposures to market risk as stated in the Company s Annual Report on Form 10-K for the year ended December 31, 2009.

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) that are designed to provide reasonable assurance that the information required to be disclosed in the reports it files with the Securities and Exchange Commission is collected and then processed, summarized and disclosed within the time periods specified in the rules of the Securities and Exchange Commission. Under the supervision and with the participation of the Company s management, including the Company s Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures as of the end of the period covered by this report. Based on such evaluation, the Company s Chief Executive Officer and Chief Financial Officer have concluded that these procedures are effective. There have been no changes in internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company s internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is subject to a number of claims and judicial and administrative proceedings (some of which involve substantial amounts) arising out of the Company s business or relating to matters for which the Company may have a contractual indemnity obligation. See Note 15 Contingencies to the condensed consolidated financial statements for a discussion of environmental, product liability and other litigation, which is incorporated herein by reference.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds (Repurchases and Authorization of Equity Securities)

The Company s Board of Directors authorized the purchase of up to 14,800,000 shares of the Company s common stock. As of September 30, 2010, the Company had repurchased 10,441,828 shares.

All shares purchased under authorization have been and will continue to be repurchased in the open market at prevailing prices and at times and amounts to be determined by management as market conditions and the Company s capital position warrant. The Company may use Rule 10b5-1 plans to facilitate share repurchases. Repurchased shares will be deemed treasury shares and may subsequently be reissued for general corporate purposes.

The following table provides information about Company purchases of its equity securities that are registered pursuant to Section 12 of the Exchange Act during the quarter ended September 30, 2010, at a total cost of $44.1 million:

ISSUER REPURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs
Month Ended July 31, 2010				5,314,872
Month Ended August 31, 2010	510,100	44.43	510,100	4,804,772
Month Ended September 30, 2010	446,600	48.00	446,600	4,358,172
Total	956,700	$ 46.10	956,700	4,358,172

NOTE: All purchases were made on the open market.
