Report of Independent Registered Public Accounting Firm

To the Audit Committee
Teleflex Incorporated
401(k) Savings Plan
Limerick, Pennsylvania

We have audited the accompanying statements of net assets available for benefits of the Teleflex Incorporated 401(k) Savings Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Teleflex Incorporated 401(k) Savings Plans of December 31, 2010 and 2009, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions, together referred to as supplemental information, as of and for the year ended December 31, 2010, are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan s management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

NOTE A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GENERAL DESCRIPTION OF THE PLAN

Significant Accounting Policies

The significant accounting policies of the Teleflex Incorporated 401(k) Savings Plan (the Plan) employed in the preparation of the accompanying financial statements follow.

Investments - Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds, a common collective trust, as well as the Teleflex common stock fund as investment options for participants.

Valuation of Investments - The Plan's investments are stated at fair value, pursuant to the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) No. 820, *Fair Value Measurements and Disclosures*. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Teleflex Incorporated's (the Company) common stock is valued at the closing price reported on the New York Stock Exchange on the last business day of the Plan year.

Investment Contracts - Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by Vanguard Fiduciary Trust Company (VFTC), the trustee. As required by professional accounting standards, the statements of net assets available for benefits present the fair value of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on the contract value basis.

New Accounting Standards Adopted - On September 16, 2010, the FASB approved for issuance the FASB ASU on *Reporting Loans to Participants by Defined Contribution Pension Plans*, which is effective for plan years ending after December 15, 2010. The Plan adopted this new standard, which now requires that participant loans be classified as notes receivable for generally accepted accounting principles purposes and measured at unpaid principal balance plus accrued but unpaid interest. In prior years, these participant loans were classified as plan investments and were subject to fair value measurements and disclosure requirements in FASB ASC 820. Adopting this new standard has eliminated the need to calculate fair values for loans in accordance with FASB ASC 820. The FASB believes that any individual credit risk related to participant loans is mitigated by the fact that these loans are secured by the participant's vested balance. If a participant were to default, the participant's account balance would be offset by the unpaid balance of the loan, and the participant would be subject to tax on the unpaid loan balance. As such, the participant is the only party affected in the event of a default.

NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

Revenue Recognition and Method of Accounting - All transactions are recorded on the accrual basis. Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Realized gains or losses on security transactions are determined using the average cost of securities sold on the trade date. Expenses are recorded as incurred.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

General Description of the Plan

A general description of the Plan follows. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan, which was implemented effective July 1, 1985. Employees of the Company who have attained age 21 are eligible to participate in the Plan. Full-time employees are eligible to enter the Plan at the date of hire. Part-time employees require one year of service before they are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan includes an employee stock ownership plan (ESOP) feature, as defined in Internal Revenue Code Section 4975(e)7. The ESOP feature can be used exclusively to provide employer contributions that match participants' Section 401(k) salary deferral contributions and, in certain instances, to provide discretionary employer contributions to the Plan.

Contributions - Participants are able to contribute up to the lesser of \$16,500 or 50% of their annual compensation. For non-union employees, the employer matching contributions equaled 100% of the employees' elective deferral contribution up to 5% of compensation. For union employees, the employer matching contributions equaled 50% of the employees' elective deferral contribution up to 2% of compensation. In addition, participants who reach age 50 or older and contribute the maximum permitted under the Plan may make an additional pre-tax contribution (a catch-up contribution) of up to \$5,500. Participants may also contribute amounts representing distributions from other qualified benefit plans (via a rollover into the Plan).

Participant Accounts - Each participant's account is credited with the participant's contribution and the employer matching contribution, as well as an allocation of Plan earnings. Participants have access to their accounts 24 hours a day/7 days per week via a toll-free telephone number and a website. Fund transfers and investment election changes may be elected daily. A participant may stop, start, or change their 401(k) salary deferral rate at will.

NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

Plan Loans - Active employees may elect to take up to two loans from the Plan at any given time. As required by law, a loan amount is limited to the lesser of \$50,000 or 50% of the participant's vested account and must be repaid within five years unless the loan is for the purchase of a primary residence. Loan repayments are processed via payroll deduction on an after-tax basis. Any outstanding loan(s) not repaid within 90 days from an employee's date of termination, or within the first 12 months of an employee's leave of absence (including long-term disability), is processed as a taxable distribution.

Vesting - Participants are always 100% vested in their own 401(k) salary deferral contributions. Most participants are 100% vested in their employer matching contributions after two years of employment; however, participants in certain divisions are 100% vested in their employer matching contributions after three years of employment. Participants are 100% vested in their employer discretionary contributions after five years of employment.

Payment of Benefits - The Plan provides that a participant may elect to withdraw 100% of their vested account balance at termination of employment. A participant may also elect to withdraw 100% of their vested account balance in the event of total and permanent disability and the attainment of age 59 1/2. A participant may elect to withdraw their rollover account at any time.

Forfeitures - Forfeitures of terminated participants' nonvested accounts are used to reduce the amount of future contributions required to be made to the Plan by the Company. The amount of unallocated forfeitures at December 31, 2010 and 2009, was \$530,366 and \$134,208, respectively.

Plan Termination - The Plan may be terminated at any time by the Company. In the event of Plan termination, distribution of participant accounts shall be in accordance with Article V of the Plan document.

Plan Divestiture

During the year ended December 31, 2010, the Plan executed a divestiture of the Teleflex Marine division 401(k) Plan participants. For participants without loans outstanding, their assets were transferred in the form of a distribution. For participants with loans outstanding, their assets were transferred out of the plan intact in the form of an asset transfer. The divested plan had \$2,522,897 of assets with loans outstanding that were transferred out of the Plan directly. There were no Plan mergers or dispositions since that time.

NOTE B ADMINISTRATION OF THE PLAN

The Plan is administered by a committee of at least three members appointed by the Company's Board of Directors. The committee is the Plan Administrator and fiduciary for ERISA purposes. The Board of Directors of the Company appointed Vanguard Fiduciary Trust Company as trustee of the Plan effective September 30, 2004. The Company pays for all administrative and recordkeeping costs associated with operating the Plan. Investment management fees charged by each mutual fund are netted against returns. Investment management fees charged by the Vanguard Retirement Savings Trust VIII (which is a common collective investment trust) are charged to participants with balances in that trust.

Table of Contents**TELEFLEX INCORPORATED****401(k) SAVINGS PLAN****NOTES TO FINANCIAL STATEMENTS***December 31, 2010 and 2009***NOTE C TAX STATUS OF THE PLAN**

The Plan has received a favorable determination letter from the Internal Revenue Service dated June 3, 2008, indicating that the Plan is a qualified plan under Section 401(k) of the Internal Revenue Code. The Plan has also applied for a new determination letter with the IRS in 2010 and is currently awaiting a response to its application. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Company contributions are invested in Company stock and are nonparticipant directed until the participant becomes vested, at which time the participant can direct those funds to another investment of the Plan. The entire Company stock fund is considered to be nonparticipant directed because the amount that the participants can direct is not readily determinable. Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

NOTE F RELATED-PARTY TRANSACTIONS

The Plan invests in shares of mutual funds managed by an affiliate of VFTC. VFTC acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Table of Contents**TELEFLEX INCORPORATED****401(k) SAVINGS PLAN****NOTES TO FINANCIAL STATEMENTS***December 31, 2010 and 2009***NOTE G VANGUARD RETIREMENT SAVINGS TRUST VIII**

A portion of the Plan's investments are in the Vanguard Retirement Savings Trust VIII (Trust), which was established for the investment of assets of eligible VFTC trusts and tax-qualified pension plans. Each participating retirement plan has an undivided interest in the Trust. The assets of the Trust are held by VFTC (the Trustee). At December 31, 2010 and 2009, the Plan's interest in the net assets of the Trust was approximately .239% and .277%, respectively. Investment income and administrative expenses relating to the Trust are allocated to the individual plans based upon average monthly balances invested by each plan. The following table presents the fair values of investments for the Master Trust at December 31, 2010 and 2009:

	2010	2009
INVESTMENTS AT FAIR VALUE		
Investment contracts	\$ 14,148,802,000	\$ 14,866,196,000

NOTE I FAIR VALUE MEASUREMENTS

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Table of Contents**TELEFLEX INCORPORATED****401(k) SAVINGS PLAN****NOTES TO FINANCIAL STATEMENTS***December 31, 2010 and 2009*

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, a summary of the Plan's investments measured at fair value on a recurring basis:

Assets measured at fair value at December 31, 2010:

	Quoted Prices in Active Markets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Registered investment companies	\$ 137,724,873	\$	\$
Common collective trust		41,169,742	
Common stock fund		42,161,513	
	\$ 137,724,873	\$ 83,331,255	\$

Assets measured at fair value at December 31, 2009:

	Quoted Prices in Active Markets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Registered investment companies	\$ 123,831,362	\$	\$
Common collective trust		48,353,435	
Common stock fund		42,012,909	
	\$ 123,831,362	\$ 90,366,344	\$

Investments in the common stock fund, registered investment companies and cash equivalents have quoted prices for identical assets in active markets; therefore, the investments are measured at fair value using these readily available Level 1 inputs.

The common collective trust is an over-the-counter security with no quoted readily available Level 1 inputs and, therefore, is measured at fair value using inputs that are directly observable in active markets and are classified within Level 2 of the valuation hierarchy using the income approach.

NOTE J PLAN AMENDMENTS

The Plan was amended during the Plan year ended December 31, 2009. A summary of the amendments is as follows:

1. Amendments to comply with the Pension Protection Act of 2006 (PPA), as subsequently amended by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA), including:
 - a. Direct rollover distributions to Roth IRAs are now permitted.
 - b. Required quarterly account statements to participants and beneficiaries.
 - c. A participant whose required beginning date was on or before December 31, 2008, will have the option to waive receipt of a minimum required distribution for 2009; a participant whose required beginning date was after December 31, 2008, will have the option to elect to receive a minimum required distribution for 2009.
2. Amendments to comply with the Heroes Earnings Assistance and Relief Tax Act of 2008 (HEART Act), including:
 - a. Compensation now includes differential wage payments to an individual performing service in the uniformed services while on active duty for a period of more than 30 days.
 - b. An Employee also now includes any individual in qualified military service who is receiving differential wage payments.
 - c. A participant who dies while performing qualified military service is treated as if he died while actively employed (triggering full vesting).
 - d. A participant in qualified military service is treated as having incurred a termination from employment for purposes of eligibility to receive a distribution.
3. Trustee is responsible to ensure that contributions are made to the trust to the extent required by the terms of the trust or applicable law (to conform to DOL guidance).
4. Amendments to comply with the final Treasury Regulations regarding qualified automatic contribution arrangements (QACAs) and eligible automatic contribution arrangements (EACAs) (e.g., adding a definition of Covered Participant and including provisions regarding rehired employees, the effective date of automatic enrollment, the timing of providing the QACA and EACA notices and the withdrawal of automatic elective deferrals).

5. A participant who becomes disabled while performing qualified military service is treated as if he died while actively employed (triggering full vesting).
6. A participant who dies or becomes disabled while performing qualified military service will be treated as if he resumed active employment immediately prior to his death or disability so that he is eligible for an allocation of discretionary profit sharing contributions, if any.
7. A participant who is a qualified reservist may withdraw the portion of his account balance attributable to his own pre-tax contributions.
8. Statute of Limitations All claims for benefits or suits regarding benefits must be made within one year of the date the claimant knew or should have known that the claim existed.

The Plan was not amended during the Plan year ended December 31, 2010.

NOTE K SUBSEQUENT EVENTS

Management has evaluated subsequent events occurring between December 31, 2010, and the date the financial statements were issued. On January 1, 2011, the Plan was amended for the timing of the nonvested portion of participant accounts to be forfeited.
