Item 5. Other Events

On September 28, 2001, Xcel Energy and five other electric utility companies asked federal regulators to let them integrate operations of their electric transmission systems into a single system through the formation of TRANSLink Transmission Co. LLC (TRANSLink).

The application to create TRANSLink, a for-profit, transmission-only company, was filed with the Federal Energy Regulatory Commission (FERC). The utilities will participate in TRANSLink through a combination of divestiture, leases and operating agreements.

## Edgar Filing: XCEL ENERGY INC - Form 8-K

The participants asked FERC to expedite consideration of their application and hope action will occur by early 2002. The application describes the proposed structure, tariffs and governance of the new company.

For more information, see the News Release attached as Exhibit 99.01.
