Item 1.02. Termination of a Material Definitive Agreement.

On October 5, 2004, Universal Technical Institute, Inc. (the Company), a Delaware corporation, announced that it terminated its \$30.0 million credit facility (the Credit Facility), effective September 30, 2004. The Credit Facility was terminated in anticipation of the Company entering into a lower cost credit facility with a new lender. The Company's press release relating to the termination of the credit facility is filed as an exhibit to this report and incorporated herein by this reference.

Lenders under the Credit Facility included Anatares Capital Corporation, JP Morgan Chase Bank, The Royal Bank of Scotland PLC, and Heller Financial, Inc. as lender and agent for the other lenders. The Credit Facility had a maturity date of March 31, 2007 and was collateralized by a security interest in substantially all of the Company's assets. At the time of termination, the Company provided cash collateral of \$10,395,000 which represents 105% of the \$9,900,000 issued and outstanding letter of credit which had previously been issued under the Credit Facility for the benefit of the Department of Education. The letter of credit is scheduled to expire on November 9, 2004.

At the time of termination, the Company had no outstanding borrowings under the Credit Facility and was in compliance with its covenant requirements. As a result of its early termination, the Company recorded a charge of approximately \$400,000 related to the write off of unamortized deferred financing costs, prepaid loan administration fees and legal costs.

At the time of termination, borrowings under the Credit Facility bore interest based upon LIBOR plus 1.75% to 2.75% or, at the Company's option, the prime rate plus 1.25% to 2.25%, in each case depending on our leverage ratio during the applicable interest period. In addition to paying interest on outstanding principal under the revolving Credit Facility, we were required to pay a risk participation fee equal to 2.50% per year on the amount of letters of credit issued under the Credit Facility and an unused facility fee ranging from 0.375% to 0.75% per annum based on the amount of the unused facility. The Credit Facility also contained certain restrictive covenants, including but not limited to maintenance of certain financial ratios and restrictions on capital expenditures, indebtedness, contingent obligations, investments and certain payments.
