DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements throughout that are based on management's beliefs, assumptions, current expectations, estimates and projections about the financial services industry, the economy, and about the Corporation and the Bank. Words such as anticipates, believes, estimates, expects, forecasts, intends, is likely, plans, projects, variations of such words and similar expressions are intended to identify such forward-looking statements. These forward-looking statements are intended to be covered by the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict with regard to timing, extent, likelihood and degree of occurrence. Actual results and outcomes may materially differ from what may be expressed or forecasted in the forward-looking statements. The Corporation undertakes no obligation to update, amend, or clarify forward looking statements, whether as a result of new information, future events (whether anticipated or unanticipated), or otherwise.

Future factors that could cause actual results to differ materially from the results anticipated or projected include, but are not limited to, the following: expected cost savings and synergies from our acquisition activities might not be realized within the expected time frames, and costs or difficulties related to integration matters might be greater than expected; expenses associated with the implementation of our trust and wealth management services might be greater than expected, whether due to a possible need to hire more employees than anticipated or other costs incurred in excess of budgeted amounts; the credit risks of lending activities, including changes in the level and direction of loan delinquencies and write-offs and changes in estimates of the adequacy of the allowance for loan losses; competitive pressures among depository institutions; interest rate movements and their impact on customer behavior and net interest margin; the impact of repricing and competitor's pricing initiatives on loan and deposit products; the ability to adapt successfully to technological changes to meet customers' needs and development in the market place; our ability to access cost-effective funding; changes in financial markets; changes in economic conditions in general and particularly as related to the automotive and related

Edgar Filing: COMMUNITY CENTRAL BANK CORP - Form 10KSB

industries in the Detroit metropolitan area; new legislation or regulatory changes, including but not limited to changes in federal and/or state tax laws or interpretations thereof by taxing authorities; changes in accounting principles, policies or guidelines; and our future acquisitions of other depository institutions or lines of business.

COMMUNITY CENTRAL BANK CORPORATION
FORM 10-KSB (continued)

PART I

ITEM 1. DESCRIPTION OF BUSINESS

Community Central Bank Corporation is the holding company for Community Central Bank (the "Bank") in Mount Clemens, Michigan. The Corporation opened for business in October 1996 and serves businesses and consumers across Macomb, Oakland, St. Clair and Wayne counties with a full range of lending, deposit and Internet banking services. The Bank operates two full service facilities, one in Mount Clemens and the other in Rochester Hills, Michigan. Community Central Mortgage Company, LLC, a subsidiary of the Corporation and the Bank, operates locations servicing the Detroit metropolitan area, central and northwest Indiana, northern Illinois and Raleigh, North Carolina.

The Corporation is subject to regulation by the Board of Governors of the Federal Reserve System. The Bank is subject to extensive regulation by the Michigan Office of Financial and Insurance Services ("OFIS") and by the Federal Deposit Insurance Corporation ("FDIC"). The Bank's deposits are insured up to the applicable limits by the FDIC. (See "-Regulation and Supervision" below.) The Corporation's common shares trade on The NASDAQ National Market under the symbol "CCBD."

The results of operations depend largely on net interest income. Net interest income is the difference in interest income the Corporation earns on interest-earning assets, which comprise primarily commercial business, commercial real estate and residential real estate loans, and the interest the Corporation pays on interest-bearing liabilities, which are primarily deposits and borrowings. Management strives to match the repricing characteristics of the interest earning assets and interest bearing liabilities to protect net interest income from changes in market interest rates and changes in the shape of the yield curve. The results of our operations may also be affected by local and general economic conditions. The largest geographic segment of our customer base is in Macomb County, Michigan. The economic base of the County continues to diversify from the automotive service sector. This trend should lessen the impact on the County of future economic downturns in the automotive sector of the economy. Macomb County's proximity to major highways and affordable housing has continued to spur economic growth in the area. Changes in the local economy may affect the demand for commercial loans and related small to medium business related products. This could have a significant impact on how the Corporation deploys earning assets. The competitive environment among other financial institutions and financial service providers and the Bank in the Macomb, Oakland, Wayne and St. Clair counties of Michigan may affect the pricing levels of various deposit products. The impact of competitive rates on deposit products may increase the relative cost of funds for the Corporation and thus negatively impact net interest income. For information on our results of operation, see "Management's Discussion and Analysis and Results of Operations" contained in the Stockholder Report filed as Exhibit 13 to this document.

Edgar Filing: COMMUNITY CENTRAL BANK CORP - Form 10KSB

During 2005, we continued to grow our balance sheet consistent with a traditional commercial banking model. We used wholesale funds in the form of brokered deposits and Federal Home Loan Bank advances to fund growth. The Corporation continues to see competitive deposit rates offered from local financial institutions within the geographic proximity of the Bank which could have the effect of increasing the costs of funds to a level higher than management projects. Brokered and internet certificates of deposit are based on a nationwide interest rate structure, typically at what is considered to be a premium interest rate. The local competition for certificates of deposit products has intensified and the Bank has found this type of wholesale funding to often effectively compete with the rates offered for similar term retail certificates of deposit products of local community and regional banks.

Community Central Mortgage Company, LLC ("the Mortgage Company"), which is a wholly owned mortgage-banking subsidiary of the Bank and the Corporation, has felt the effect of the nationwide slowdown in residential mortgage volumes. The Mortgage Company has scaled back both variable and fixed costs to better match the reduced revenue generated because of this origination slowdown.

On February 14, 2005, Community Central Bank Corporation completed a subscription rights offering. The Corporation received gross proceeds of approximately \$5.3 million from the offering and will use the proceeds to fund its growth strategy, for working capital and for general corporate purposes.

On June 30, 2005, the Corporation completed its acquisition and merger with River Place Financial Corp., a Michigan-chartered bank ("River Place"), pursuant to which the Corporation acquired all of the outstanding equity

3

COMMUNITY CENTRAL BANK CORPORATION
FORM 10-KSB(continued)

interests of River Place. River Place was a private bank wholly owned by the descendants of Julius Stroh, founder of The Stroh Brewery Company. River Place was established in 1983 to manage the private banking and trust needs of the Stroh family; and trusts managed by its trust department owned and controlled Stroh Brewery until its sale in 1999. The Corporation expects by expanding into trust and wealth management banking services it will broaden its base of potential customers and provide additional services to existing customers resulting in incremental income to the Corporation. The Corporation expects that the expansion into the trust and wealth management services will also increase noninterest expense. The increase in noninterest expense would comprise primarily salaries, commission, benefits and other compensation related expenses and that during the early start of operations noninterest expense will exceed noninterest income.

EFFECT OF GOVERNMENT MONETARY POLICIES. The earnings of the Corporation are affected by domestic economic conditions and the monetary and fiscal policies of the United States Government, its agencies, and the Federal Reserve Board. The Federal Reserve Board's monetary policies have had, and will likely continue to have, an important impact on the operating results of commercial banks through its power to implement national monetary policy. Monetary policy is used to, among other things, attempt to curb inflation or combat a recession. The policies of the Federal Reserve Board have a major effect upon the levels of bank loans, investments and deposits through its open market operations in United States Government securities, and through its regulation of, among other things, the discount rate on borrowings of member banks and the reserve requirements against member bank deposits. It is not possible to predict the

Edgar Filing: COMMUNITY CENTRAL BANK CORP - Form 10KSB

nature and impact of future changes in monetary and fiscal policies.

REGULATION AND SUPERVISION. Financial institutions and their holding companies are extensively regulated under federal and state law. Consequently, the growth and earnings performance of the Corporation and the Bank can be affected not only by management decisions and general economic conditions, but also by the statutes administered by, and the regulations and policies of, various governmental regulatory authorities. Those authorities include, but are not limited to, the Board of Governors of the Federal Reserve System, the FDIC, OFIS, the Securities and Exchange Commission, the Internal Revenue Service, and federal and state taxing authorities. The effect of such statutes, regulations and policies can be significant, and cannot be predicted with a high degree of certainty. There can be no assurance that future legislation or government policy will not adversely affect the banking industry or the operations of the Corporation or the Bank. Federal economic and monetary policy may affect the Bank's ability to attract deposits, make loans and achieve satisfactory interest spreads.

Federal and state laws and regulations generally applicable to financial institutions and their holding companies regulate, among other things, the scope of business, investments, reserves against deposits, capital levels relative to operations, lending activities and practices, the nature and amount of collateral for loans, the establishment of branches, mergers, consolidations and dividends. The system of supervision and regulation applicable to the Corporation and the Bank establishes a comprehensive framework for their respective operations and is intended primarily for the protection of the FDIC's deposit insurance funds, the depositors of the Bank, and the public, rather than shareholders of the Bank or the Corporation.

Federal law and regulations establish supervisory standards applicable to the lending activities of the Bank including internal controls, credit underwriting, loan documentation, and loan-to-value ratios for loans secured by real property. The Bank is in compliance with these requirements.

The Corporation is subject to the periodic reporting requirements of the Securities Exchange Act of 1934, as amended, and files reports and proxy statements pursuant to such Act with the Securities and Exchange Commission.

EMPLOYEES. As of December 31, 2005, the Corporation and its subsidiaries employed 91 full-time equivalent employees.

COMPETITION. All phases of the business of the Bank are highly competitive. The Bank competes with numerous financial institutions, including other commercial banks, in the Macomb County and metropolitan Detroit area. The Bank, along with other commercial banks, competes with respect to its lending activities, and competes in attracting demand deposits with savings banks, savings and loan associations, insurance companies, small loan companies, credit unions and with the issuers of commercial paper and other securities, such as various mutual funds. Many of these institutions are substantially larger and have greater financial resources than the Bank.

The competitive factors among financial institutions can be classified into two categories; competitive rates and competitive services. Interest rates are widely advertised and thus competitive, especially in the area of time deposits.

Edgar Filing: COMMUNITY CENTRAL BANK CORP - Form 10KSB

From a service standpoint, financial institutions compete against each other in types and quality of services. The Bank is generally competitive with other financial institutions in its area with respect to interest rates paid on time and savings deposits, fees charged on deposit accounts, and interest rates charged on loans. With respect to services, the Bank offers a customer service oriented atmosphere which management believes is better suited to its customers' needs than that which is offered by other institutions in the local market.

David A. Widlak previously held the position of President and Chief Executive Officer of Central Holding Company. Ronald R. Reed previously served as Vice President of business development at First International Bank from October 1999 to September 2000. He headed Midwest Business Strategies, Inc. from May 1998 to October 1999. Prior to that he served with Michigan National Bank from March 1970 to May 1998 most recently as an area director for small business banking.

ITEM 2. DESCRIPTION OF PROPERTY

The Corporation owns two facilities, one being the original main office branch facility and the other being the corporate and bank headquarters located in downtown business district of Mount Clemens, Michigan. The main office location contains a full service branch, trust operations and IT operations. The newly constructed headquarters building that was completed in April 2005, contains the administrative office staff and executives of the Corporation and Bank, including commercial lending and the mortgage company operations. The Corporation leases its full service branch location located in Rochester Hills, Michigan. The lease has 8 years remaining on its initial term, with a 10 year renewal option. The mortgage company, a subsidiary of the Corporation and the Bank, has 9 loan production offices located in Anchorville, Livonia, Southwest

ITEM 8A. CONTROLS AND PROCEDURES

An evaluation of the Corporation's disclosure controls and procedures (as defined in Section 13a-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act")) as of December 31, 2004, was carried out under the supervision and with the participation of the Corporation's Chief Executive Officer,

Edgar Filing: COMMUNITY CENTRAL BANK CORP - Form 10KSB

Principal Financial Officer and several other members of the Corporation's senior management. The Corporation's Chief Executive Officer and Principal Financial Officer concluded that the Corporation's disclosure controls and procedures as currently in effect are effective in ensuring that the information required to be disclosed by the Corporation in the reports it files or submits under the Exchange Act is (i) accumulated and communicated to the Corporation's management (including the Chief Executive Officer and Principal Financial Officer) in a timely manner, and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. There have been no changes in our internal control over financial reporting (as defined in 13a-15(f) of the Exchange Act) that occurred during the quarter ended December 31, 2005, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

The Corporation intends to continually review and evaluate the design and effectiveness of its disclosure controls and procedures and to improve its controls and procedures over time and to correct any deficiencies that it may discover in the future. The goal is to ensure that senior management has timely access to all material non-financial information concerning the Corporation's business. While the Corporation believes the present design of its disclosure controls and procedures is effective to achieve its goal, future events affecting its business may cause the Corporation to modify its disclosure controls and procedures.
