REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Administrative Committee of the  
Greybull Retirement Plan:

We have audited the accompanying statements of net assets available for benefits of the Greybull Retirement Plan (the Plan ) as of December 31, 2006 and 2005, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2006. These financial statements are the responsibility of the Administrative Committee. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by the Administrative Committee, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2006 and 2005, and the changes in net assets available for plan benefits for the year ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2006 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The schedule is the responsibility of the Administrative Committee. Such supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic 2006 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NET ASSETS AVAILABLE FOR BENEFITS AT BEGINNING OF YEAR	2,290,601
NET ASSETS AVAILABLE FOR BENEFITS AT END OF YEAR	\$ 2,838,952

The accompanying notes are an integral part of this financial statement.

GREYBULL RETIREMENT PLAN  
NOTES TO FINANCIAL STATEMENTS

**1. SUMMARY OF SIGNIFICANT PLAN PROVISIONS**

The following description of the Greybull Retirement Plan (the Plan) provides only general information about the Plan's provisions in effect for the plan year ended December 31, 2006. Participants should refer to the Plan document for a more complete explanation of the Plan's provisions.

**General and Eligibility**

The Plan is a defined contribution plan of M-I LLC (the Company). The Company is a majority-owned subsidiary of Smith International, Inc. (Smith). The Plan is operated for the sole benefit of the union employees of the Company's U.S. operations and their beneficiaries and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Participation in the Plan may commence on the first day of the month following a 60 day waiting period from the date of hire. There is no minimum age requirement under the Plan.

**Administration and Trustee**

The Company is the plan administrator and sponsor of the Plan as defined under ERISA. The Plan's operations are monitored by an administrative committee (the Administrative Committee) which is comprised of officers and employees of the Company. Vanguard Fiduciary Trust Company (Vanguard Trust or the Trustee) is the trustee of all investments held by the Plan.

**Contributions**

The Plan allows participants to contribute a percentage of their compensation, as defined by the Plan, subject to certain limitations of the Internal Revenue Code of 1986, as amended (the Code). At its discretion, the Company may make basic and matching contributions to each participant's account under the Plan. Participants are eligible to receive a basic contribution equal to three percent of qualified compensation, and a full match on employee contributions of up to one percent of qualified compensation.

**Vesting**

Participants are fully vested in their contributions and related earnings and vest in Company contributions and related earnings at the rate of 20 percent for each year of service. Upon death, termination of employment by reason of total or permanent disability or retirement from the Company upon reaching the normal retirement age of 65, participants become fully vested in Company contributions and related earnings.

**Investment Options**

Participants have the option of investing their contributions and the Company's basic, matching and discretionary contributions among one or all of the available investments, including Smith common stock, 24 registered investment company funds and a common/collective trust offered by the Vanguard Group of Investment Companies. Participants may transfer some or all of the balances out of any fund into one or any combination of the other funds, including Smith common stock, at any time, subject to certain limitations.

**Administrative Expenses**

The Plan is responsible for its administrative expenses. The Company may elect to pay administrative expenses from the forfeitures of the Plan or pay expenses on behalf of the Plan.

Plan Termination

The Company intends for the Plan to be permanent; however, in the event of termination, partial termination or discontinuance of contributions under the Plan, the total balances of all participants shall become fully vested.

Loans

Participants may borrow from their accounts no more than once annually, subject to terms specified by the Plan document. The Plan permits participants to borrow the lesser of \$50,000 or 50 percent of their vested account balances in the Plan. These loans bear interest at prime and are repaid through payroll withholdings over a period not to exceed five years, except for qualifying loans to purchase a primary residence which may be repaid over an extended period.

Withdrawals and Forfeitures

A participant may elect to receive benefit payments through any one of the several methods provided by the Plan upon termination or retirement. The Plan also provides for hardship distributions to participants with immediate and significant financial needs, subject to authorization by Plan management and limited to the participant's vested account balance.

In the event that a participant terminates employment with the Company, the participant's vested balances will be distributed at the participant's election or distributed if the account balance is less than \$5,000. Any unvested Company contributions and related earnings/losses are forfeited if participants do not return to the Company within 60 months of their termination. During 2006, forfeitures of \$15,543 and \$11,840 were used to reduce the Company's contributions and pay Plan expenses, respectively. Forfeitures available at December 31, 2006 and 2005, totaled \$4,289 and \$6,062, respectively.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting

The accounts of the Plan are maintained on the cash basis of accounting. For financial reporting purposes, however, the financial statements have been converted to an accrual basis in accordance with accounting principles generally accepted in the United States of America.

Recent Accounting Pronouncements

In December 2006, the Financial Accounting Standards Board issued Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), which requires investment contracts held by a defined contribution plan to be reported at fair value in the statement of net assets available for benefits with a reconciliation to contract value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Plan adopted the FSP requirements effective December 31, 2006 and determined there was not a material difference between the contract value and the fair value as it relates to its common/collective trust, and therefore, no adjustment was made to the Statement of Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Registered investment company funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. The common/collective trust, which contains fully benefit-responsive investment contracts, is stated at fair value based on the value of the underlying investments and is expressed in units and is then adjusted by the issuer to contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The Company determined that the difference between contract value and fair value of its common/collective trust was not material to the Plan's financial position. There are no reserves against contract value for credit risk of the contract issue or otherwise. The crediting interest rates were 4.8 percent and 4.0 percent at December 31, 2006 and 2005, respectively. The average yield for the year ended December 31, 2006 was 4.3 percent. The Smith stock fund is valued at its year-end unit closing price (computed by dividing the sum of (i) the year-end market price plus (ii) the uninvested cash position, by the total number of member units). Participant loans are valued at cost which approximates fair value.

Purchases and sales of Plan investments are recorded as of the trade date. The net appreciation or depreciation in the fair value of investments reflected in the accompanying statement of changes in net assets available for plan benefits includes realized, as well as unrealized, gains or losses on the sale of investments. The net change in realized gains and losses on sales are determined using the actual purchase and sale price of the related investments. The net changes in unrealized gains and losses are determined using the fair values as of the beginning of the year or the purchase price if acquired since that date.

Participant Account Valuation

The Plan provides that net changes in unrealized appreciation and depreciation and gains and losses upon sale are allocated daily to the individual participant's account. The net changes, unrealized and realized, in a particular investment fund are allocated in proportion to the respective participant's account balance in each fund, after reducing the participant's account for distributions, if any.

Dividend and interest income from investments is reported as earned on an accrual basis in the statement of changes in net assets available for plan benefits and is allocated to participants' accounts based upon each participant's proportionate share of assets in each investment fund.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Administrative Committee to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. FEDERAL INCOME TAX STATUS

The Plan obtained its latest determination letter on August 22, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended for minor items since receiving the determination letter which, in the opinion of the Administrative Committee, would not impact the status of the Plan. Therefore, the Administrative Committee believes that the Plan is qualified and the related trust was tax-exempt as of the financial statement date.

**4. RISKS AND UNCERTAINTIES**

The Plan provides for various investments in registered investment company funds, a common/collective trust and Smith common stock. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values and concentrations of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for Plan benefits. Historically, the investment mix has remained relatively consistent. The allocation of total Plan assets by investment type at December 31, is as follows:

	2006	2005
Balanced Funds (Stocks and Bonds)	74.4%	73.2%
Domestic Stock Funds	14.5	16.0
Participant loans	6.9	5.7
International Stock Funds	1.7	1.6
Bond Funds	1.0	1.2
Smith International, Inc. common stock	0.8	1.4
Money Market Fund	0.7	0.9
	100.0%	100.0%

**5. RELATED-PARTY TRANSACTIONS**

The Plan invests in shares of common stock of Smith. As Smith is the majority owner of the sponsor, these transactions qualify as party-in-interest transactions. In addition, the Plan invests in shares of registered investment company funds and a common/collective trust fund managed by the Vanguard Group, an affiliate of Vanguard Trust. As Vanguard Trust is the Trustee of the Plan, these transactions qualify as party-in-interest transactions.

**6. INVESTMENTS**

Individual investments, which exceed five percent of net assets available for Plan benefits as of December 31, are as follows:

	2006	2005
Vanguard Wellington Fund	\$1,897,680	\$1,592,384
Participant loans	195,438	130,005
Vanguard 500 Index Portfolio Fund	179,345	158,235
Vanguard PRIMECAP Fund	153,382	153,223

During 2006, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	2006
Equity funds	\$ 33,207
Balanced funds	129,923
Smith International, Inc. common stock	3,809
	\$ 166,939
