ITEM 5. OTHER EVENTS

Aether Systems, Inc. made a preliminary announcement on August 1, 2001 of its financial results for the quarter and six month periods ended June 30, 2001. In the announcement Aether advised that continued demand for Aether wireless data solutions drove total revenue to \$32.1 million, a three-fold increase over the second quarter of last year. The results include recurring services revenue of \$11.4 million, engineering services revenue of \$2.8 million, software product revenue of \$9.9 million, and device sales of \$8.0 million.

In the same period last year, total revenue was \$10.8 million with recurring services revenue of \$6.2 million, engineering services revenue of \$1.6 million, software product revenue of \$2.4 million and device sales of approximately \$578,000. Aether's Q2 2001 revenue of \$32.1 million represents a 4.6 percent increase over Q1 2001 revenue of \$30.7 million.

Non-cash charges include a restructuring charge associated with Aether's integration efforts, the amortization and impairment of goodwill relating to acquisitions, the impairment of the company's investments, the company's share of losses in joint ventures under equity method accounting, and non-cash expenses relating to options and warrants, partially offset by a gain due to the early extinguishment of debt.

As part of Aether's integration strategy to consolidate excess facilities and eliminate redundant positions from acquired companies, the company recognized a restructuring charge of \$15.9 million. This charge relates

Edgar Filing: AETHER SYSTEMS INC - Form 8-K

to a workforce reduction of 250 positions and the closing of six facilities.

Gross margins improved during the quarter to 42 percent compared to 35 percent during Q1 2001. All revenue categories realized improvements.

Results include an extraordinary gain related to the early extinguishment of \$20 million in senior convertible notes payable.

3

For the first six months of 2001, Aether reported a four-fold increase in revenue to \$62.7 million, compared with \$16.2 million for the same period in 2000. The results include recurring services revenue of \$21.8 million, engineering services revenue of \$5.1 million, software product revenue of \$21.7 million and device sales of \$14.1 million. In the same period last year, Aether recorded recurring services of \$9.0 million, engineering services revenue of \$3.0 million, software product revenue of \$3.4 million and device sales revenue of approximately \$713,000.

SAFE HARBOR STATEMENT

This statement includes forward-looking statements based on the current expectations of Aether about future events. These forward-looking statements are subject to a number of risks, uncertainties and assumptions about Aether that could cause actual results to differ materially from those in such forward-looking statements. Potential risks and uncertainties include, but are not limited to, market acceptance of the products developed or to be developed by Aether, the ability of Aether to develop new technologies and projects, future decisions regarding investments and acquisitions and future market values of similar businesses, the success of Aether's efforts to reduce marginal costs while increasing sales, and the success of joint efforts with partner companies. These risks and other risk factors are described under the caption, "Risk Factors" in Aether's filings with the Securities and Exchange Commission. Aether undertakes no obligation to update the forward-looking statements contained in this press release.
