**Table of Contents**

**CIRRUS LOGIC, INC.**  
**NOTES TO THE CONSOLIDATED CONDENSED FINANCIAL STATEMENTS**  
**(unaudited)**

**1. Basis of Presentation**

The consolidated condensed financial statements have been prepared by Cirrus Logic, Inc. ( we, us, our, or the Company ) pursuant to the rules and regulations of the Securities and Exchange Commission ( Commission ). The accompanying unaudited consolidated condensed financial statements do not include complete footnotes and financial presentations. As a result, these financial statements should be read along with the audited consolidated financial statements and notes thereto for the year ended March 25, 2006, included in our amended 2006 Annual Report on Form 10-K/A filed with the Commission on April 18, 2007. In our opinion, the financial statements reflect all adjustments, including normal recurring adjustments, necessary for a fair presentation of the financial position, operating results and cash flows, for those periods presented. The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect reported assets, liabilities, revenues and expenses, as well as disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions. Moreover, the results of operations for the interim periods presented are not necessarily indicative of the results that may be expected for the entire year.

*Recently Issued Accounting Pronouncements*

In June 2006, the *Financial Accounting Standards Board* ( FASB ) issued *FASB Interpretation No. 48* ( FIN No. 48 ) *Accounting for Uncertainty in Income Taxes*, which prescribes a recognition threshold and measurement process for recording in the financial statements uncertain tax positions taken or expected to be taken in a tax return. Additionally, FIN No. 48 provides guidance on derecognition, classification, accounting in interim periods and disclosure requirements of uncertain tax positions. The accounting provisions of FIN No. 48 will be effective for the Company beginning April 1, 2007. The Company is in the process of determining the effect, if any, that the adoption of FIN No. 48 will have on its financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 ( SFAS No. 157 ) *Fair Value Measurements*, which establishes a framework for measuring the fair value of assets and liabilities as they appear on the balance sheet. The statement attempts to reconcile the many pronouncements issued by the FASB dealing with fair value measurements in order to increase the consistency and comparability of financial statements. SFAS No. 157 requires implementation under the prospective approach, with the exception that certain enumerated financial instruments shall be accounted for retrospectively. The statement will become effective for the Company on March 30, 2008. The Company is in the process of determining the effect, if any, that the adoption of SFAS No. 157 will have on our financial statements.

**1A. Special Committee Review of Past Stock Option Granting Practices**

In October 2006 we announced that an internal review of our past practices related to grants of stock options had revealed information that raised potential questions about the measurement dates used to account for certain stock option grants. We also announced that, at the recommendation of the Audit Committee of the Company's Board of Directors (the Board ), the Board appointed an independent director to serve as a Special Committee to conduct an investigation into our historic stock option granting practices.

The Special Committee retained independent legal counsel to assist in the investigation. During the eight month investigation, the Special Committee and its independent counsel, assisted by independent forensic accountants, reviewed the facts and circumstances surrounding annual stock option grants made to executive officers, employees and non-employee directors, searched relevant physical and electronic

## Table of Contents

documents and interviewed current and former directors, officers, and employees. In March 2007, we announced that the Special Committee had reported its principal findings to the Board relating to the above investigation. Based on the report of the Special Committee and on management's preliminary conclusions and recommendations, the Board concluded that incorrect measurement dates were used for financial accounting purposes for certain stock options granted between January 1, 1997 and December 31, 2005.

The Special Committee found that the Company's stock plan administrative deficiencies between January 1, 1997 and December 31, 2005 led to a number of misdated option grants. The Special Committee concluded that prior to 2003, the limited controls and the lack of definitive processes for stock option granting and approval allowed for potential abuse, including the use of hindsight, in the establishment of more favorable grant dates for certain options. In particular, the Special Committee believed that based on the evidence developed in the investigation, that certain executive officers had knowledge of and participated in the selection of three grant dates for broad based employee option grants in the 2000 through 2002 timeframe. The executive officers involved in the option grant process prior to 2003, and in particular the grants described above in the 2000 through 2002 timeframe, were no longer with the Company at the time of the Special Committee's report with the exception of David D. French ( Mr. French ), the Company's President and Chief Executive Officer. In light of these findings, as of March 5, 2007, Mr. French entered into a resignation agreement with the Company and resigned as President and Chief Executive Officer and as a director of the Company.

As a result of the findings of the Special Committee, the Company has, concurrent with this filing, amended its annual report on Form 10-K for the year ended March 25, 2006 and its quarterly report on Form 10-Q for the three months ended June 24, 2006 to reflect the recognition of additional share-based compensation expense arising from stock grants to executive officers and employees.

## **2. Stock-Based Compensation**

Effective March 26, 2006, the beginning of our fiscal year 2007, the Company adopted the provisions of the *Statement of Financial Accounting Standards No. 123(R)* ( SFAS No. 123(R) ) and, in doing so, consulted the guidance provided in *Staff Accounting Bulletin No. 107* ( SAB No. 107 ). SFAS No. 123(R) requires stock-based compensation to be accounted for under the fair value method and requires the use of an option pricing model for estimating fair value. Accordingly, stock-based compensation is measured at grant date based on the fair value of the award. The Company previously accounted for awards granted under its equity incentive plans under the intrinsic value method prescribed by *Accounting Principles Board Opinion No. 25* ( APB No. 25 ), *Accounting for Stock Issued to Employees*, and related interpretations, and provided the required pro forma disclosures prescribed by SFAS No. 123, *Accounting for Stock-Based Compensation*, as amended.

Under the modified prospective method of adoption for SFAS No. 123(R), the compensation cost recognized by the Company beginning in fiscal year 2007 includes (a) compensation cost for all equity incentive awards granted prior to, but not yet vested as of March 26, 2006, based on the grant-date fair value estimated in accordance with the original provisions of SFAS No. 123, and (b) compensation cost for all equity incentive awards granted subsequent to March 25, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123(R). The Company uses the accelerated method to recognize stock-based compensation costs over the service period of the award. Upon exercise, cancellation, or expiration of stock options, deferred tax assets for options with multiple vesting dates are eliminated for each vesting period on a first-in, first-out basis as if each vesting period was a separate award. To calculate the excess tax benefits available for use in offsetting future tax shortfalls as of the date of implementation, the Company followed the guidance in paragraph 81 of SFAS No. 123(R).

We have various stock incentive plans (the Stock Plans ) under which officers, employees, non-employee directors and consultants may be granted qualified and non-qualified options to purchase shares of our authorized but not issued common stock. Except as noted in Note 1A, options are priced at the fair market value of the stock on the date of grant. Options granted to employees are exercisable upon vesting, generally in tranches over four years and certain options granted to non-employee directors are exercisable upon grant. Options expire no later than ten years from the date of grant.

**Table of Contents**

Stock-based compensation recognized in fiscal year 2007 as a result of the adoption of SFAS No. 123(R), as well as pro forma disclosures according to the original provisions of SFAS No. 123 for periods prior to the adoption of SFAS No. 123(R), use the Black-Scholes option pricing model for estimating fair value of options granted under the Company's equity incentive plans.

The following table summarizes the effects of stock-based compensation on cost of goods sold, research and development, sales, general and administrative, income from continuing operations before taxes, and net income after taxes for options granted under the Company's equity incentive plans (in thousands, except per share amounts; unaudited):

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>December</b>	<b>December</b>	<b>December</b>	<b>December</b>
	<b>30,</b>	<b>24,</b>	<b>30,</b>	<b>24,</b>
	<b>2006</b>	<b>2005</b>	<b>2006</b>	<b>2005</b>
Cost of sales	\$ 17	\$ 2	\$ 50	\$ 14
Research and development	488	58	1,653	494
Sales, general, and administrative	899	89	2,808	735
Effect on income from continuing operations (before taxes)	1,404	149	4,511	1,243
Income Tax Benefit			(2)	
Total share based compensation expense (net of taxes)	\$ 1,404	\$ 149	\$ 4,509	\$ 1,243
Share based compensation effects on basic earnings per share	\$ 0.02	\$ 0.01	\$ 0.05	\$ 0.01
Share based compensation effects on diluted earnings per share	\$ 0.02	\$ 0.01	\$ 0.05	\$ 0.01
Share based compensation effects on operating activities cash flow	\$ 1,404	\$ 149	\$ 4,509	\$ 1,243
Share based compensation effects on financing activities cash flow	\$	\$	\$ 57	\$

During the third quarter and first nine months of fiscal year 2007, we received a net \$1.2 million and \$5.9 million, respectively, from the exercise of options granted under the Company's Stock Plans.

The total intrinsic value of options exercised during the third quarter of fiscal year 2007 and 2006 was \$0.6 million and \$0.6 million, respectively. The total intrinsic value of options exercised during the first nine months of fiscal year 2007 and 2006 was \$3.5 million and \$3.8 million, respectively. Intrinsic value represents the difference between the market value of Cirrus Logic common stock at the time of exercise and the strike price of the option.

As of December 30, 2006, there was \$5.8 million of compensation cost related to non-vested stock option awards granted under the Company's equity incentive plans not yet recognized in the Company's financial statements. The unrecognized compensation cost is expected to be recognized over a weighted average period of 1.22 years. Had we not adopted SFAS 123(R), our APB No. 25 expense for the quarter and year-to-date would have been immaterial.

As of December 30, 2006, approximately 26.7 million shares of common stock were reserved for issuance under the Stock Plans. Additional information with respect to stock option activity is as follows:

**Table of Contents**

	<b>Options Available for Grant</b>	<b>Number of Options</b>	<b>Options Outstanding Weighted Average Remaining Contractual Term</b>	<b>Weighted Average Exercise Price</b>	<b>Aggregate Intrinsic Value</b>
	<b>(thousands)</b>	<b>(thousands)</b>	<b>(years)</b>	<b>(thousands)</b>	<b>(thousands)</b>
Outstanding and available at 3/25/06	17,055	11,960	\$ 8.93		
Shares auth. for issuance	20,474				
Option plans terminated	(21,717)				
Options granted	(245)	245	7.25		
Options exercised		(1,059)	5.24		
Options cancelled	1,311	(620)	6.44		
Options expired		(691)	13.80		
Outstanding and available at 12/30/06	16,878	9,835	\$ 9.10	6.11	\$ 7,694
Vested and Expected to Vest at 12/30/06		8,813	\$ 9.41	5.76	\$ 6,859
Exercisable at 12/30/2006		6,734	\$ 10.26	5.04	\$ 5,412

The following table summarizes information regarding outstanding and exercisable options as of December 30, 2006:

<b>Range of Exercise Prices</b>	<b>Options Outstanding Number of Options (in thousands)</b>	<b>Weighted Average Remaining Contractual Term</b>	<b>Weighted Average Exercise Price</b>	<b>Options Exercisable Number of Options (in thousands)</b>	<b>Weighted Average Exercise Price</b>
\$0.19 - \$2.60	225	6.02	\$ 2.29	199	\$ 2.29
\$2.61 - \$3.40	731	6.47	3.40	631	3.40
\$3.41 - \$5.16	1,837	7.74	4.90	986	4.87
\$5.17 - \$6.97	1,342	7.07	6.57	922	6.59
\$6.98 - \$9.00	2,897	7.92	7.63	1,204	7.59
\$9.01 - \$14.33	1,029	2.10	10.72	1,019	10.72
\$14.34 - \$16.69	1,012	4.30	15.82	1,012	15.82
\$16.70 - \$44.50	762	4.04	25.69	761	25.69
	9,835			6,734	

As of December 24, 2005, the number of options exercisable was 6.4 million.

Options outstanding that are expected to vest are net of estimated future option forfeitures in accordance with the provisions of SFAS No. 123(R), which are estimated as compensation costs are recognized. Options with a fair value of \$2.5 million and \$2.4 million became vested during the third quarter of fiscal years 2007 and 2006, respectively. Options with a fair value of \$6.7 million and \$4.8 million became vested during the first nine months of fiscal years 2007 and 2006, respectively.

If we had recorded stock-based compensation cost based upon the Black-Scholes fair value at the grant date for awards granted under the Stock Plans consistent with the optional methodology prescribed under SFAS No. 123 during the third quarter and first nine months of fiscal year 2006, the net income and earnings per share would have been as shown below (in thousands, except per share amounts; unaudited):

- 9 -

---

**Table of Contents**

	<b>Three Months Ended December 24, 2005</b>	<b>Nine Months Ended December 24, 2005</b>
Net income as reported	\$ 12,681	\$ 37,480
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects	149	1,243
Deduct: Total stock-based employee compensation expense determined under fair value-based method for all awards, net of tax related effects	(2,378)	(6,090)
Proforma net income	\$ 10,452	\$ 32,633
Basic net income per share as reported	\$ 0.15	\$ 0.44
Proforma basic net income per share	\$ 0.12	\$ 0.38
Diluted net income per share as reported	\$ 0.14	\$ 0.43
Proforma diluted net income per share	\$ 0.12	\$ 0.38

For purposes of pro forma disclosures, the estimated fair value of the options were amortized to expense over the vesting period (for options) using the accelerated method.

We estimated the fair value of each option grant on the date of grant using the Black-Scholes option-pricing model using the following assumptions:

	<b>Three Months Ended December 30, 2006</b>	<b>December 24, 2005</b>	<b>Nine Months Ended December 30, 2006</b>	<b>December 24, 2005</b>
Employee Option Plans:				
Expected stock price volatility	44.61%	40.60%	40.99 - 47.80%	40.60 - 94.39%
Risk-free interest rate	4.65%	3.80%	4.65 - 4.99%	3.70 - 3.80%
Expected life post-vest (in years)	2.85	0.9	1.45 - 3.09	0.9 - 1.62
Employee Stock Purchase Plan:				
Expected stock price volatility		40.60%		40.60 - 50%
Risk-free interest rate		3.80%		3.38 - 3.80%
Expected life post-vest (in years)		0.00		0.00 - 0.50

Using the Black-Scholes option valuation model, the weighted average estimated fair values of employee stock options granted for the third quarter of fiscal years 2007 and 2006 were \$2.70 and \$2.19, respectively. The weighted average estimated fair values of employee stock options granted for the first nine months of fiscal years 2007 and 2006 were \$2.87 and \$2.21, respectively.

***Employee Stock Purchase Plan***

In March 1989, we adopted the 1989 Employee Stock Purchase Plan ( ESPP ). As of December 30, 2006, 878,000 shares of common stock were reserved for future issuance under this plan. There were 22,000 and 151,000 shares issued under the ESPP during the third quarters of fiscal year 2007 and 2006, respectively.

In fiscal year 2006, the Board of Directors of the Company approved amendments to the ESPP eliminating the six-month look back feature of the plan and reducing the purchase price discount from 15 percent to 5 percent. These modifications became effective for all ESPP options granted during fiscal year 2007. Based on these modifications, the plan is no longer compensatory and the company does not recognize any compensation expense associated with

the ESPP grants. The weighted average estimated fair value for purchase rights granted under the ESPP in the third quarter of fiscal year 2006 was \$1.53.

- 10 -

---

**Table of Contents****3. Acquisitions**

On December 29, 2006, Cirrus Logic acquired 100 percent of the voting equity interests in Caretta Integrated Circuits ( Caretta ), a company based in Shanghai, China that specializes in designing power management integrated circuits for the large, single-cell lithium ion battery market. This acquisition was undertaken to strengthen and diversify our analog and mixed signal product portfolios as well as position us for growth within the China market.

The aggregate purchase price of \$11.0 million was comprised of the following components (in thousands):

**Components of Aggregate Purchase Price**

Cash paid to shareholders	\$ 7,575
Loan repayment premium	500
Direct acquisition costs & other	1,512
Cash Escrowed	1,425
Total purchase price	\$ 11,012

The purchase price was allocated to the estimated fair value of assets acquired based on independent appraisals and management estimates as of December 30, 2007 is as follows (in thousands):

**Allocation of Purchase Price**

Net liabilities assumed	\$ (1,162)
Intangible assets subject to amortization	4,103
Goodwill	6,146
In process research and development	1,925
Net Assets Acquired	\$ 11,012

The in-process research and development of \$1.9 million was immediately expensed upon completion of the acquisition while the \$4.1 million in acquired technology and the \$6.1 million in goodwill were capitalized. The categorization of costs for the purchase price are estimates as of December 30, 2006 and are subject to change over the course of the next 6 months. The acquired technology will be amortized over a period of 10 years. The goodwill will not be deductible for tax purposes. Although we immediately began to include the results of Caretta's operations in our own upon acquisition, the acquisition took place with one day left in the third quarter of fiscal year 2007 and, as a result, the impact of Caretta's operations upon our Consolidated Condensed Statement of Operations was negligible for the period.

The following unaudited pro forma information presents the combined results of operations of the Company and Caretta for the third quarter and first nine months of fiscal years 2006 and 2007 as if the acquisition had taken place at the beginning of the respective fiscal years. The pro forma numbers below include in process research and development of \$1.9 million expensed at the time of the acquisition. The information is provided for illustrative purposes only and is not necessarily indicative of the consolidated results of operations that actually would have occurred if the acquisition had taken place at the beginning of the respective fiscal years, nor is it necessarily indicative of the future operating results of the Company.

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>

**Table of Contents****4. Accounts Receivable**

The following are the components of accounts receivable (in thousands):

	<b>December 30, 2006 (unaudited)</b>	<b>March 25, 2006</b>
Gross accounts receivable	\$ 16,667	\$ 21,133
Allowance for doubtful accounts	(82)	(196)
	<b>\$ 16,585</b>	<b>\$ 20,937</b>

**5. Inventories**

Inventories are comprised of the following (in thousands):

	<b>December 30, 2006 (unaudited)</b>	<b>March 25, 2006</b>
Work in process	\$ 9,304	\$ 10,662
Finished goods	11,027	8,046
	<b>\$ 20,331</b>	<b>\$ 18,708</b>

**6. Income Taxes**

We realized income tax expense of \$32 thousand for the third quarter of fiscal year 2007 and a net income tax benefit of \$0.3 million for the first nine months of fiscal year 2007. The fiscal year 2007 income tax benefit for the first nine months of \$0.3 million was generated by the expiration of the statute of limitations for years in which certain non-U.S. income tax exposures for transfer pricing issues had existed. The fiscal year 2007 benefit is net of non-U.S. income taxes and U.S. alternative minimum tax. Our tax expense for the third quarter and the first nine months of fiscal year 2007 was less than the Federal statutory rate due primarily to the utilization of a portion of our U.S. deferred tax asset on which there had been placed a full valuation allowance, a one-time non-U.S. income tax refund in the second quarter and the release of a tax contingency reserve in the first quarter.

We realized a net income tax benefit of \$5.3 million for the third quarter of fiscal year 2006 and \$5.8 million for the first nine months of fiscal year 2006. The benefit for both periods results primarily from the expiration of the statute of limitations for years in which certain foreign income tax exposures for transfer pricing issues had existed. Our tax expense for the first nine months of fiscal year 2006 was less than the Federal statutory rate, as we were able to utilize a portion of our deferred tax asset on which there had been placed a full valuation allowance.

Our taxes payable balance is comprised primarily of tax contingencies that are recorded to address exposures involving tax positions we have taken that are subject to challenge by taxing authorities. Our tax contingencies are established based on past experiences and judgments about potential actions by taxing jurisdictions and solely relate to transfer pricing positions we have taken in a variety of countries in which we operate. The ultimate resolution of these matters may be materially greater or less than the amount that we have accrued.

We account for income taxes in accordance with Statement of Financial Accounting Standard No. 109 ( SFAS No. 109 ), *Accounting for Income Taxes*, which provides for the recognition of deferred tax assets if realization of such assets is more likely than not. We have provided a valuation allowance equal to our net U.S. deferred tax assets due to uncertainties regarding their realization. We evaluate the realizability of our deferred tax assets on a quarterly basis. The acquisition of Caretta generated a deferred tax liability

**Table of Contents**

stemming from the purchase price allocated to Intangible assets subject to amortization. This liability is included in Other long-term obligations on the balance sheet.

**7. Restructuring and Other Costs**

During the third quarter and first nine months of fiscal year 2007, we realized a net expense in restructuring and other costs, a component of operating expenses, of \$1.0 million and \$0.6 million, respectively. The third quarter charges are primarily composed of \$1.0 million in severance and facility related charges for the closure of the Boulder, Colorado design facility and the transition of those design activities to our Austin, Texas headquarters. Twenty employees were affected by this action, five of which were relocated to our Austin headquarters.

In addition to the third quarter charges detailed above, during the first nine months of fiscal year 2007, we realized a net benefit in restructuring and other costs, a component of operating expenses, of \$0.7 million. The benefits were primarily composed of \$0.3 million related to the cancellation of a maintenance contract that had been previously restructured coupled with \$0.8 million related to adjustments to certain sublease assumptions for the Austin, Texas facility. These benefits were partially offset by a facility charge of \$0.4 million related to certain facilities in Fremont, California.

During the first nine months of fiscal year 2006, we recorded a restructuring charge of \$3.1 million in operating expenses for severance and facility related items associated with workforce reductions related to the sale of the video product line assets. This action affected approximately 10 individuals worldwide and resulted in a charge of approximately \$0.5 million. In connection with the video product line asset sale, we ceased using certain leased office space in our Fremont, California location. Accordingly, we recorded a restructuring charge of \$2.7 million related to the exit from this facility. Partially offsetting the restructuring charge was \$0.8 million related to the gain on the video product line asset sale.

As of December 30, 2006, we had a remaining accrual from all of our past restructurings of \$5.9 million, primarily related to net lease expenses that will be paid over their respective lease terms through fiscal year 2013, along with other anticipated lease termination costs. We have classified \$3.4 million of this restructuring accrual as long-term.

The following table details the changes in all of our restructuring accruals during the nine months ended December 30, 2006 (in thousands; unaudited):

Description	March 25, 2006	Charges to P&L	Cash Payments	Accretion	December 30, 2006
Severance - fiscal year 2007	\$	\$ 716	\$ (255)	\$	\$ 461
Severance - fiscal year 2006		86	(86)		
Facilities abandonment - fiscal year 2007		266	(16)	4	254
Facilities abandonment - fiscal year 2006	1,946	354	(288)	(185)	1,827
Facilities abandonment - fiscal year 2004	4,204	(723)	(884)	392	2,989
Facilities abandonment - fiscal year 1999	397				397
	\$ 6,547	\$ 699	\$ (1,529)	\$ 211	\$ 5,928

**8. Earnings Per Share**

Basic net income per share is based on the weighted effect of common shares issued and outstanding and is calculated by dividing net income by the basic weighted average shares outstanding during the period. Diluted net income per share is calculated by dividing net income by the basic weighted average number of common shares used in the basic net income per share calculation plus the number of common shares that would be issued assuming

exercise or conversion of all potentially dilutive common shares outstanding.

The weighted average outstanding options excluded from our diluted calculation for the quarter ended December 30, 2006 and December 24, 2005 were 6,668,000 and 5,867,000, respectively, as they were anti-

- 13 -

---

**Table of Contents**

dilutive. The weighted average outstanding options excluded from our diluted calculation for the nine months ended December 30, 2006 and December 24, 2005 were 6,278,000 and 6,411,000, respectively, as the exercise price exceeded the average market price during the respective periods.

**9. Legal Matters****Silvaco Data Systems**

On December 8, 2004, Silvaco Data Systems ( Silvaco ) filed suit against us, and others, alleging misappropriation of trade secrets, conversion, unfair business practices, and civil conspiracy. Silvaco's complaint stems from a trade secret dispute between Silvaco and a software vendor, Circuit Semantics, Inc., who supplied us with certain software design tools. Silvaco alleges that our use of Circuit Semantics' design tools infringes upon Silvaco's trade secrets and that we are liable for compensatory damages in the sum of \$10 million. Silvaco has not indicated how it will substantiate this amount of damages and we are unable to reasonably estimate the amount of damages, if any.

On January 25, 2005, we answered Silvaco's complaint by denying any wrong-doing. In addition, we filed a cross-complaint against Silvaco alleging breach of contract relating to Silvaco's refusal to provide certain technology that would enable us to use certain unrelated software tools. A trial date has not been set in this matter and we do not anticipate a trial until at least the first half of fiscal year 2008.

We intend to defend the lawsuit vigorously. In addition, Circuit Semantics is obligated to defend and indemnify us pursuant to our license agreement with them for the software. However, we cannot predict the ultimate outcome of this litigation and we are unable to estimate any potential liability we may incur.

**Other Claims**

From time to time, other various claims, charges and litigation are asserted or commenced against us arising from, or related to, contractual matters, intellectual property, employment disputes, as well as other issues. Frequent claims and litigation involving these types of issues are not uncommon in the integrated circuits industry. As to any of these claims or litigation, we cannot predict the ultimate outcome with certainty.

**10. Comprehensive Income**

The components of comprehensive income, net of tax, are as follows (in thousands; unaudited):

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>December</b>	<b>December</b>	<b>December</b>	<b>December</b>
	<b>30,</b>	<b>24,</b>	<b>30,</b>	<b>24,</b>
	<b>2006</b>	<b>2005</b>	<b>2006</b>	<b>2005</b>
Net income	\$ 3,464	\$ 12,681	\$ 20,616	\$ 37,480
Adjustments to arrive at comprehensive income:				
Change in unrealized loss on marketable securities	31	5	279	111
Reclassification adjustment for realized gains included in net income			(193)	
Comprehensive income	\$ 3,495	\$ 12,686	\$ 20,702	\$ 37,591

**11. Segment Information**

We are a premier supplier of high-precision analog and mixed-signal integrated circuits ( ICs ) for a broad range of consumer and industrial markets. We develop and market ICs and embedded software used

**Table of Contents**

by original equipment manufacturers. We also provide complete system reference designs based on our technology that enable our customers to bring products to market in a timely and cost-effective manner. We determine our operating segments in accordance with SFAS 131. Our chief executive officer ( CEO ) has been identified as the chief operating decision maker as defined by SFAS 131.

Our CEO receives and uses enterprise-wide financial information to assess financial performance and allocate resources, rather than detailed information at a product line level. Additionally, our product lines have similar characteristics and customers. They share operations support functions such as sales, public relations, supply chain management, various research and development and engineering support, in addition to the general and administrative functions of human resources, legal, finance and information technology. As of December 30, 2006, we have one operating segment with three different product lines.

In accordance with SFAS 131, below is a summary of our net sales by product line (in thousands; unaudited):

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>December</b>	<b>December</b>	<b>December</b>	<b>December</b>
	<b>30,</b>	<b>24,</b>	<b>30,</b>	<b>24,</b>
	<b>2006</b>	<b>2005</b>	<b>2006</b>	<b>2005</b>
Mixed-signal audio products	\$ 19,667	\$ 25,523	\$ 65,047	\$ 75,222
Embedded products	12,362	13,899	36,932	40,360
Industrial products	13,268	8,831	36,678	24,673
Video products				11,281
	\$ 45,297	\$ 48,253	\$ 138,657	\$ 151,536

**12. Subsequent Events***Legal Proceedings*

On January 5, 2007, a purported stockholder filed a derivative lawsuit in state district court in Travis County, Texas against current and former officers and directors of Cirrus Logic and against the Company, as a nominal defendant, alleging various breaches of fiduciary duties, conspiracy, improper financial reporting, insider trading, violations of the Texas Securities Act, unjust enrichment, accounting, gross mismanagement, abuse of control, rescission, and waste of corporate assets related to certain prior grants of stock options by the Company. Our response to the lawsuit is currently due on April 20, 2007.

On March 19, 2007, another purported stockholder filed a derivative lawsuit related to the Company's prior stock option grants in the United States District Court for the Western District of Texas – Austin Division against current and former officers and directors of Cirrus Logic and against the Company, as a nominal defendant. The individual defendants named in this lawsuit overlap, but not completely, with the state suit. The lawsuit alleges many of the causes of action alleged in the Texas state court suit, but also includes claims for alleged violations of Section 10(b) of the Exchange Act and Rule 10b-5, violations of Section 14(a) of the Exchange Act and violations of Section 20(a) of the Exchange Act. On April 10, 2007, we filed a motion to dismiss the complaint on the grounds that the plaintiff was supposed to make demands on the Board before filing the lawsuit. The plaintiff has not filed a response and no hearing before the court is currently set on the motion to dismiss.

On March 30, 2007, a different purported stockholder filed a nearly identical derivative lawsuit to the March 19, 2007 derivative lawsuit in the United States District Court for the Western District of Texas – Austin Division with identical allegations against the same defendants. We are currently evaluating this plaintiff's claims.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion should be read along with the unaudited consolidated condensed financial statements and notes thereto included in Item 1 of this Quarterly Report, as well as the audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations for the fiscal year ended March 25, 2006, contained in our 2006 amended Annual Report on Form 10-K/A filed with the Securities and Exchange Commission (the Commission) on April 18, 2007. We maintain a web site at [www.cirrus.com](http://www.cirrus.com), which makes available free of charge our recent annual report and all other filings we have made with the SEC. This Management's Discussion and Analysis of Financial Condition and Results of Operations and certain information incorporated herein by reference contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Exchange Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are based on current expectations, estimates, forecasts and projections and the beliefs and assumptions of our management including, without limitation, our expectations regarding fourth quarter sales, gross margins, and combined research and development and selling, general and administrative expenses. In some cases, forward-looking statements are identified by words such as expect, anticipate, target, project, believe, goals, estimates, intend and various types of words and similar expressions are intended to identify these forward-looking statements. In addition, any statements that refer to our plans, expectations, strategies or other characterizations of future events or circumstances are forward-looking statements. Readers are cautioned that these forward-looking statements are predictions and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. We undertake no obligation to revise or update publicly any forward-looking statement for any reason.

Among the important factors that could cause actual results to differ materially from those indicated by our forward-looking statements are those discussed in *Item 1A Risk Factors Affecting our Business Prospects* in our 2006 amended Annual Report on Form 10-K/A filed with the Commission on April 18, 2007. Readers should carefully review these risk factors, as well as those identified in the documents filed by us with the Commission, specifically the most recent reports on Form 10-K/A, 10-Q/A and 8-K, each as it may be amended from time to time.

**Overview**

Cirrus Logic (we, us, our, or the Company) develops high-precision, analog and mixed-signal integrated circuits (ICs) for a broad range of consumer and industrial markets. Building on our diverse analog mixed-signal patent portfolio, Cirrus Logic delivers highly optimized products for consumer and commercial audio, automotive entertainment and industrial applications. We develop and market ICs and embedded software used by original equipment manufacturers. We also provide complete system reference designs based on our technology that enable our customers to bring products to market in a timely and cost-effective manner.

Though our revenues for the third quarter and first nine months of fiscal year 2007 declined \$3.0 million and \$12.9 million, respectively, in comparison to the third quarter and first nine months of fiscal year 2006, respectively, our continued focus on improving our gross margins led to margin increases of 5.4 percent and 6.4 percent over the comparable period, respectively.

**Critical Accounting Policies**

Our discussion and analysis of the Company's financial condition and results of operations are based upon the consolidated condensed financial statements included in this report, which have been prepared in accordance with United States generally accepted accounting principles. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts. We evaluate the estimates on an on-going basis. We base these estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis

## Table of Contents

for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions. We also have policies that we consider to be key accounting policies, such as our policies for revenue recognition, including the deferral of revenues and gross margin on sales to our distributors and our stock option granting practices; however, these policies do not meet the definition of critical accounting estimates because they do not generally require us to make estimates or judgments that are difficult or subjective.

We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of the consolidated condensed financial statements:

- § For purposes of calculating stock compensation expense under the provisions of the *Financial Accounting Standards Board's (FASB) Statement of Financial Accounting Standards No. 123 (R) (SFAS No. 123(R))*, we perform an analysis of current market data and historical company data to calculate an estimate of implied volatility, the expected term of the option and the expected forfeiture rate. With the exception of the expected forfeiture rate, which is not an input, we use these estimates as variables in the Black-Scholes option pricing model. Depending upon the number of stock options granted, any fluctuations in these calculations could have a material effect on the results presented in our Consolidated Condensed Statement of Operations. In addition, any differences between estimated forfeitures and actual forfeitures could also have a material impact on our financial statements. See Note 2 in the Notes to our Consolidated Condensed Financial Statements contained in *Item 1 Financial Statements*.
- § Our taxes payable balance is comprised primarily of tax contingencies that are recorded to address exposures involving tax positions we have taken that are subject to challenge by taxing authorities. Our tax contingencies are established based on past experiences and judgments about potential actions by taxing jurisdictions and solely relate to transfer pricing positions we have taken in a variety of countries in which we operate. The ultimate resolution of these matters may be materially greater or less than the amount that we have accrued. See Note 6 in the Notes to our Consolidated Condensed Financial Statements contained in *Item 1 Financial Statements*.
- § We provide for the recognition of deferred tax assets in accordance with Statement of *Financial Accounting Standards No. 109 (SFAS No. 109)*, *Accounting for Income Taxes*, if realization of such assets is more likely than not. We have provided a valuation allowance equal to our net U.S. deferred tax assets due to uncertainties regarding their realization. We evaluate the realizability of our deferred tax assets on a quarterly basis. In the event we are able to determine that it is more likely than not that we will realize some or all of our U.S. deferred tax assets, then an adjustment to the deferred tax asset would increase either income or contributed capital in the period such determination was made. See Note 6 in the Notes to our Consolidated Condensed Financial Statements contained in *Item 1 Financial Statements*.
- § Inventories are recorded at the lower of cost or market, with cost being determined on a first-in, first-out basis. We write down inventories to net realizable value based on forecasted demand, management judgment and the age of inventory. Actual demand and market conditions may be different from those projected by management, which could have a material effect on our operating results and financial position. See Note 5 in the Notes to our Consolidated Condensed Financial Statements contained in *Item 1 Financial Statements*.
- § Restructuring charges for workforce reductions and facilities consolidations reflected in the accompanying financial statements were accrued based upon specific plans established by management, in accordance with Emerging Issues Task Force No. 94-3 (EITF 94-3), *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)* or SFAS 146, *Accounting for Costs Associated with Exit or Disposal Activities* depending upon the time of the restructuring activity. We use an estimated borrowing rate as the discount rate for all of our restructuring accruals made under SFAS 146. Our facilities consolidation accruals are based upon our estimates as to the

length of time a facility would be vacant, length of the subleases and the amount of sublease  
- 17 -

---

**Table of Contents**

income we would receive once we sublet the facility, after considering current and projected market conditions. Changes in these estimates could result in an adjustment to our restructuring accruals in a future quarter, which could have a material effect on our operating results and financial position. See Note 7 in the Notes to our Consolidated Condensed Financial Statements contained in *Item 1 Financial Statements*.

- § Our available-for-sale investments, non-marketable securities and other investments are subject to a periodic impairment review pursuant to *Emerging Issues Task Force 03-1 ( EITF 03-1 ): The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*. Investments are considered to be impaired when a decline in fair value is judged to be other-than-temporary. This determination requires significant judgment and actual results may be materially different than our estimate. Marketable securities are evaluated for impairment if the decline in fair value below cost basis is significant and/or has lasted for an extended period of time. Non-marketable securities or other investments are considered to be impaired when a decline in fair value is judged to be other-than-temporary. For investments accounted for using the cost method of accounting, we evaluate information (e.g., budgets, business plans, financial statements, etc.) in addition to quoted market price, if any, in determining whether an other-than-temporary decline in value exists. Factors indicative of an other-than-temporary decline include recurring operating losses, credit defaults and subsequent rounds of financings at an amount below the cost basis of the investment. This list is not all inclusive and we weigh all quantitative and qualitative factors in determining if an other-than-temporary decline in value of an investment has occurred. When a decline in value is deemed to be other-than-temporary, we recognize an impairment loss in the current period's operating results to the extent of the decline. Actual values could be different from those estimated by management, which could have a material effect on our operating results and financial position.
- § We evaluate the recoverability of property and equipment and intangible assets in accordance with Statement of Financial Accounting Standard No. 144 ( SFAS 144 ), *Accounting for the Impairment or Disposal of Long-Lived Assets*. We test for impairment losses on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. An impairment loss is recognized in the event the carrying value of these assets exceeds the fair value of the applicable assets. Impairment evaluations involve management estimates of asset useful lives and future cash flows. Actual useful lives and cash flows could be different from those estimated by management, which could have a material effect on our operating results and financial position.
- § We maintain allowances for doubtful accounts for estimated losses resulting from the inability or failure of our customers to make required payments. We regularly evaluate our allowance for doubtful accounts based upon the age of the receivable, our ongoing customer relations, as well as any disputes with the customer. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required, which could have a material effect on our operating results and financial position. Additionally, we may maintain an allowance for doubtful accounts for estimated losses on receivables from customers with whom we are involved in litigation. See Note 4 in the Notes to our Consolidated Condensed Financial Statements contained in *Item 1 Financial Statements*.
- § We are subject to the possibility of loss contingencies for various legal matters. See Note 9 in the Notes to our Consolidated Financial Statements contained in *Item 1 Financial Statements*. We regularly evaluate current information available to us to determine whether any accruals should be made based on the status of the case, the results of the discovery process and other factors. If we ultimately determine that an accrual should be made for a legal matter, this accrual could have a material effect on our operating results and financial position and the ultimate outcome may be materially different than our estimate.

**Table of Contents****Results of Operations**

The following table summarizes the results of our operations for the third quarter and first nine months of fiscal years 2007 and 2006 as a percent of net sales. All percent amounts were calculated using the underlying data in thousands, unaudited:

	<b>Percentage of Net Sales</b>			
	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>December 30, 2006</b>	<b>December 24, 2005</b>	<b>December 30, 2006</b>	<b>December 24, 2005</b>
Mixed-signal audio products	44%	53%	47%	50%

Provision (benefit) for income taxes	0%	(11%)	0%	(4%)
Net Income	8%	26%	15%	25%

***Net Sales***

Net sales for the third quarter of fiscal year 2007 decreased \$3.0 million to \$45.3 million from \$48.3 million for the third quarter of fiscal year 2006. Industrial products net sales increased \$4.4 million, or 50 percent, during the third quarter of fiscal year 2007 from the comparable quarter of the prior fiscal year due in large part to an increase in demand for seismic and industrial measurement products. Net sales from our mixed-signal audio products declined \$5.9 million, or 23 percent, due to erosion of market demand for our audio digital to analog converters. Sales from embedded products decreased \$1.5 million, or 11 percent.

Net sales for the first nine months of fiscal year 2007 decreased \$12.9 million to \$138.7 million from \$151.5 million for the first nine months of fiscal year 2006. Industrial product sales saw an increase of \$12.0 million,

or 49 percent, in the first nine months of fiscal year 2007 in comparison to the same period of the prior fiscal year due in large part to an increase in demand for seismic and industrial measurement products. Conversely, net sales from mixed-signal audio products decreased \$10.2 million, or 14 percent, due primarily to a stabilization of market demand for our audio digital to analog converters. We also saw a decrease in our net sales from our embedded products of \$3.4 million, or 8 percent, in the first nine months of fiscal year 2007. Revenues in the first nine months of fiscal year 2006 included \$11.3 million in revenue from the digital video product line, a product line divested on June 30, 2005.

Export sales, principally to Asia, including sales to U.S.-based customers with manufacturing plants overseas, were 58 percent and 63 percent of net sales during the third quarter of fiscal years 2007 and 2006,

- 19 -

---

## **Table of Contents**

respectively. Export sales were 64 percent of total sales in the first nine months of both fiscal year 2007 and fiscal year 2006. Our sales are denominated primarily in U.S. dollars. As a result, we have not entered into foreign currency forward exchange and option contracts.

We had no direct customers that accounted for more than 10 percent of our sales. We had one distributor that represented 32 percent and 29 percent of our sales for the third quarter and first nine months of fiscal year 2007, respectively. That same distributor represented 26 percent and 24 percent of our sales for the third quarter and first nine months of fiscal year 2006, respectively. Sales to our distributors represented 69 percent and 71 percent of our net sales for the third quarter of fiscal year 2007 and 2006, respectively. Sales to our distributors represented 70 percent and 65 percent of our net sales for the first nine months of fiscal year 2007 and 2006, respectively.

We expect our net sales to range between \$41 million and \$44 million for the fourth quarter of fiscal year 2007.

### *Gross Margin*

Gross margin was 60.5 percent in the third quarter of fiscal year 2007, up from 55.1 percent in the third quarter of fiscal year 2006. The primary reason for the increase in gross margins was the change in our product mix, including a 50 percent increase in revenues from our higher margin industrial product portfolio. During the third quarter of fiscal year 2006, we realized a net benefit of \$0.9 million from the sale of previously written down inventory, which favorably impacted gross margins by 3.3 percent.

Gross margin was 59.7 percent in the first nine months of fiscal year 2007, up from 53.3 percent in the comparable period of fiscal year 2006. The largest driver of the increase in gross margin was the absence of revenue from the low margin digital video product line. During the first nine months of fiscal year 2006, revenue from the digital video product line represented 7.4 percent of total revenue.

### *Research and Development Expense*

Research and development expense for the third quarter of fiscal year 2007 of \$11.2 million increased \$0.7 million from \$10.5 million in the third quarter of fiscal year 2006. This increase was primarily due to a \$0.5 million increase in stock-based compensation expense from the comparable period of the prior fiscal year.

Research and development expense for the first nine months of fiscal year 2007 of \$33.0 million decreased \$2.2 million from \$35.2 million in the comparable period of fiscal year 2006. The decrease included a \$1.5 million decrease in salaries and benefits expenses, not including stock based compensation expense, and a \$1.4 million decrease in depreciation and amortization associated with the transfer of certain acquired technologies, technology licenses, and property, plant, and equipment to Magnum Semiconductor in conjunction with the divestiture of the digital video product line. These decreases were partially offset by an increase in stock-based compensation expense during the first nine months of fiscal year 2007 when compared to the same period of the prior fiscal year.

### *Selling, General and Administrative Expense*

Selling, general and administrative expense in the third quarter of fiscal year 2007 of \$13.5 million increased by \$2.7 million from \$10.8 million in the third quarter of fiscal year 2006. This increase was due primarily to \$1.6 million in fees and services associated with our voluntary review of our stock compensation practices. Accentuating this increase was a \$0.9 million increase in stock based compensation expense during the third quarter of fiscal year 2007.

Selling, general and administrative expense in the first nine months of fiscal year 2007 of \$37.0 million decreased by \$4.5 million from \$41.5 million in the comparable period of fiscal year 2006. This decrease was primarily due to the absence of a \$4.4 million charge taken to facilities expense during the first nine months of fiscal year 2006 for a loss contingency on sub-leases entered into during fiscal year

## **Table of Contents**

2006 as we sub-leased excess space for less than our current rent obligations. Also contributing to the decrease was a \$1.1 million decline in facility related charges. These decreases were partially offset by a \$2.8 million increase in stock-based compensation expense and a \$1.6 million increase in expenses related to our voluntary review of past stock option granting practices.

### *Restructuring and Other, Net*

During the third quarter and first nine months of fiscal year 2007, we realized a net expense in restructuring and other costs, a component of operating expenses, of \$1.0 million and \$0.6 million, respectively. The third quarter charges are primarily composed of \$1.0 million in severance and facility related charges for the closure of the Boulder, Colorado design facility and the transition of those design activities to our Austin, Texas headquarters. Twenty employees were affected by this action, five of which were relocated to our Austin headquarters.

In addition to the third quarter charges detailed above, during the first nine months of fiscal year 2007, we realized a net benefit in restructuring and other costs, a component of operating expenses, of \$0.7 million. The benefits were primarily composed of \$0.3 million related to the cancellation of a maintenance contract that had been previously restructured coupled with \$0.8 million related to adjustments to certain sublease assumptions for the Austin, Texas facility. These benefits were partially offset by a facility charge of \$0.4 million related to certain facilities in Fremont, California.

During the first nine months of fiscal year 2006, we recorded a restructuring charge of \$3.1 million in operating expenses for severance and facility related items associated with workforce reductions related to the sale of the video product line assets. This action affected approximately 10 individuals worldwide and resulted in a charge of approximately \$0.5 million. In connection with the video product line asset sale, we ceased using certain leased office space in our Fremont, California location. Accordingly, we recorded a restructuring charge of \$2.7 million related to the exit from this facility. Partially offsetting the restructuring charge was \$0.8 million related to the gain on the video product line asset sale.

### *Litigation Settlement*

During the second quarter of fiscal year 2006, we settled our outstanding litigation with Fujitsu and received a net \$24.8 million from this settlement. The settlement was booked as a credit to operating expenses.

### *Realized Gain on Marketable Equity Securities*

During the first nine months of fiscal year 2007, we realized a gain of \$0.2 million related to the sale of an investment in Prudential Financial, Inc. During the first nine months of fiscal year 2006, we realized a gain of \$0.4 million related to the sale of our investment in Silicon Laboratories, Inc., which resulted from their acquisition of Cygnal Integrated Products, Inc.

### *Interest Income*

Interest income was \$3.6 million and \$2.1 million for the third quarter of fiscal years 2007 and 2006, respectively. Interest income was \$9.7 million and \$5.0 million for the first nine months of fiscal years 2007 and 2006, respectively. The increases of \$1.5 million and \$4.7 million, respectively, were primarily due to increased cash, cash equivalent, and marketable securities balances on which interest was earned coupled with higher rates of return on our investment portfolio.

### *Income Taxes*

We realized income tax expense of \$32 thousand for the third quarter of fiscal year 2007 and a net income tax benefit of \$0.3 million for the first nine months of fiscal year 2007. The fiscal year 2007 income tax benefit for the first nine months of \$0.3 million was generated by the expiration of the statute of limitations for years in which certain non-U.S. income tax exposures for transfer pricing issues had existed.

## **Table of Contents**

The fiscal year 2007 benefit is net of non-U.S. income taxes and U.S. alternative minimum tax. Our tax expense for the third quarter and the first nine months of fiscal year 2007 was less than the Federal statutory rate due primarily to the utilization of a portion of our U.S. deferred tax asset on which there had been placed a full valuation allowance, a one-time non-U.S. income tax refund in the second quarter and the release of a tax contingency reserve in the first quarter.

We realized a net income tax benefit of \$5.3 million for the third quarter of fiscal year 2006 and \$5.8 million for the first nine months of fiscal year 2006. The benefit for both periods results primarily from the expiration of the statute of limitations for years in which certain foreign income tax exposures for transfer pricing issues had existed. Our tax expense for the first nine months of fiscal year 2006 was less than the Federal statutory rate, as we were able to utilize a portion of our deferred tax asset on which there had been placed a full valuation allowance.

We account for income taxes in accordance with Statement of Financial Accounting Standard No. 109 ( SFAS No. 109 ), *Accounting for Income Taxes*, which provides for the recognition of deferred tax assets if realization of such assets is more likely than not. We have provided a valuation allowance equal to our net U.S. deferred tax assets due to uncertainties regarding their realization. We evaluate the realizability of our deferred tax assets on a quarterly basis. The acquisition of Caretta generated a deferred tax liability stemming from the purchase price allocated to Intangible assets subject to amortization. This liability is included in Other long-term obligations on the balance sheet. *Recently Issued Accounting Pronouncements*

In June 2006, the *Financial Accounting Standards Board* ( FASB ) issued *FASB Interpretation No. 48* ( FIN No. 48 ) *Accounting for Uncertainty in Income Taxes* which prescribes a recognition threshold and measurement process for recording in the financial statements uncertain tax positions taken or expected to be taken in a tax return. Additionally, FIN No. 48 provides guidance on the derecognition, classification, accounting in interim periods and disclosure requirements for uncertain tax positions. The accounting provisions of FIN No. 48 will be effective for the Company beginning April 1, 2007. The Company is in the process of determining the effect, if any, that the adoption of FIN No. 48 will have on its financial statements.

In September 2006, the FASB issued FASB Statement of Financial Accounting Standards No. 157 ( SFAS No. 157 ) *Fair Value Measurements*, which establishes a framework for measuring the fair value of assets and liabilities as they appear on the balance sheet. The statement attempts to reconcile the many pronouncements issued by the FASB dealing with fair value measurements in order to increase the consistency and comparability of financial statements. SFAS No. 157 requires implementation under the prospective approach with the exception that certain enumerated financial instruments shall be accounted for retrospectively. The statement will become effective for the Company on March 30, 2008. The Company is in the process of determining the effect, if any, that the adoption of SFAS No. 157 will have on our financial statements.

## **Liquidity and Capital Resources**

During the first nine months of fiscal year 2007, we generated approximately \$28.0 million of cash from operating activities. The primary increase in cash from operations was related to the cash components of our net income coupled with a \$2.7 million decrease in working capital. In the comparable period of fiscal year 2006, we generated approximately \$49.2 million of cash and cash equivalents from our operating activities, primarily due to a \$25 million settlement of our Fujitsu litigation coupled with a large decrease in our inventory of \$8.6 million and an increase in our accounts payable and other accrued liabilities of \$8.2 million.

Net cash used in investing activities was \$68.7 million during the first nine months of fiscal year 2007. This was primarily the result of the net purchase of \$55.3 million of available-for-sale securities. Cash flows from investing activities also included a net payment of \$8.5 million related to the acquisition of Caretta Integrated Circuits. Purchases of property and equipment and technology licenses during the period

## **Table of Contents**

were \$4.8 million. During the first nine months of fiscal year 2006, we used approximately \$18.7 million in cash from investing activities, primarily related to the net purchase of certain available-for-sale securities of \$19.2 million. These purchases were partially offset by a decrease in restricted investments of \$2.1 million associated with a scheduled decrease in the amount of a letter of credit.

We generated \$6.0 million and \$5.2 million in cash from financing activities during the first nine months of fiscal years 2007 and 2006, respectively, due primarily to the issuance of common stock in connection with option exercises and our employee stock purchase plan.

As of December 30, 2006, we have restricted cash of \$5.7 million which primarily secures certain obligations under our lease agreement for the headquarters and engineering facility in Austin, Texas.

We have not paid cash dividends on our common stock and currently intend to continue our policy of retaining any earnings for reinvestment in our business. Although we cannot assure that we will be able to generate cash in the future, we anticipate that our existing capital resources and cash flow generated from future operations will enable us to maintain our current level of operations for at least the next 12 months.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to market risks associated with interest rates on our debt securities, currency movements on non-U.S. dollar denominated assets and liabilities, and the affect of market factors on the value of our non-marketable equity securities. We assess these risks on a regular basis and have established policies to protect against the adverse effects of these and other potential exposures. There have been no significant changes in our interest rate or foreign exchange risk since we filed our Amended 2006 Annual Report on Form 10-K/A on April 18, 2007.

### **ITEM 4. CONTROLS AND PROCEDURES**

#### **Special Committee Review into Stock Option Grant Practices and Restatement**

As discussed in the Note 1A, *Special Committee Review of Past Stock Option Granting Practices*, to the Consolidated Financial Statements, a Board-appointed Special Committee recently completed an investigation into our historic stock option granting practices. Based on the report of the Special Committee and on management's preliminary conclusions and recommendations, the Board concluded that incorrect measurement dates were used for financial accounting purposes for certain stock options granted between January 1, 1997 and December 31, 2005. Details of the results of the investigation into our historic stock option granting practices are discussed in Note 1A, *Special Committee Review of Past Stock Option Granting Practices* of the Notes to the Consolidated Condensed Financial Statements presented in Item 1 of this Form 10-Q.

In March 2007, we disclosed that the non-cash charges required to correct the discrepancy would be material, and that we expected to restate our financial statements for fiscal years 2002 through 2006 as well as the first quarter of fiscal year 2007. Accordingly, the Board concluded the financial statements, related notes and selected financial data and all financial press releases and similar communications issued by us as well as the related reports of the Company's independent registered public accounting firm relating to fiscal periods 2002 through 2006, and the first fiscal quarter of 2007, should no longer be relied upon.

#### **Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures that are intended to ensure that the information required to be disclosed in our Securities Exchange Act of 1934 (the Exchange Act) filings are properly and timely recorded and reported. Our management is responsible for establishing and maintaining effective internal controls over financial reporting. We have formed a Disclosure Review Committee comprised of key individuals from several disciplines within the Company who are involved in the disclosure and reporting process. This committee, which is led by the Corporate Controller, meets periodically to ensure the timeliness, accuracy, and completeness of the information required to be disclosed in our filings.

In connection with the filing of this Quarterly Report on Form 10-Q, our current management, under the supervision of our Acting President and Chief Executive Officer (CEO) and Chief Financial Officer (CFO), conducted an evaluation of our disclosure controls and procedures. Based on this evaluation, which included the findings of the Special Committee's investigation and the restatement described herein, our CEO and CFO concluded our disclosure controls and procedures were not effective at a reasonable assurance level on December 30, 2006 because of a material weakness in internal control with respect to our control environment as it relates to our stock option granting

practices, including the involvement of our former CEO in the grant process, which resulted in the restatement of our consolidated financial statements for each of the years ended March 25, 2006, March 26, 2005 and March 27, 2004.. This material weakness was initially identified in conjunction with the Special Committee's investigation and was remediated based upon previously implemented process improvements and the coincident resignation of our former chief executive officer on March 5, 2007. Since the material weakness was remediated as of the date of this filing, our Acting President and CEO and CFO determined current disclosure controls and procedures are effective at a reasonable assurance level as of the date of this filing.

**Remediation of the Material Weaknesses in Internal Control over Financial Reporting**

Beginning November, 2002, the Company has implemented a number of improvements to its internal grant procedures. In particular, we implemented improvements to our granting processes for broad-based annual grants. For annual grants after 2002, the Company followed a practice to ensure:

- the grant date was established at a Board or Committee meeting prior to the grant date; and
- the list of recipients was final and approved by the grant date.

## **Table of Contents**

Further, for monthly grants after 2002, the Company followed a monthly grant process for obtaining approval of proposed option grants (the "Monthly Consent Process") to ensure:

- a more formalized process and checklist was completed with regard to the Monthly Consent Process; and
- proposed unanimous written consents ("UWCs") for option grants were sent to the Compensation Committee on the monthly grant date, which was usually the first Wednesday of each month (the "Monthly Grant Date").

In 2005, the Monthly Consent Process was further refined as follows:

- proposed UWCs for option grants were sent to the Compensation Committee on Friday a week prior to the Monthly Grant Date to allow additional time to review; and

- the bylaws were amended to permit electronic approvals of UWCs by the Compensation Committee.

In addition, during our initial internal review of stock option granting practices in 2006, we further improved and strengthened our Monthly Consent Process related to our stock option program through the addition of the following controls designed to provide appropriate safeguards and greater internal control over the stock option granting and administrative function:

- The stock option granting procedures have been formalized, documented and approved by the Compensation Committee and the Board;

- Using a checklist, the Company's Stock Administrator tracks each step of the Monthly Consent Process to ensure all items in the process are completed and all necessary records are properly maintained.

- Approximately two weeks before the Monthly Grant Date, the Stock Administrator creates the proposed grant list.

- The list is populated from Personnel Action Notices ("PANs") received from Human Resources ("HR") and Special Stock Option Grant Requests ("SSOGRs") are approved via the SSOGR application in SAP. All requests for grants outside the Company's grant guidelines include a "Request for Exception to Guidelines" form that includes the reasons for the proposed grant outside the Company's grant guidelines. The vesting start date for all proposed grants is set as the Monthly Grant Date.

- The Stock Administrator sends the proposed grant list to HR to confirm:

- the list is complete and correct;

- special exception forms have been obtained for any grants that fall outside guidelines; and

- there are no open negotiations with any proposed recipients relating to any of the proposed grants.

- The Stock Administrator updates the information contained in the "Equity Incentive Awards Year-to-Date Status for Fiscal Year" report, which is provided to the Compensation Committee members on a monthly basis.

- Approximately ten days prior to the Monthly Grant Date, the Stock Administrator emails a proposed written consent and associated exhibits to the members of the Compensation Committee.

- Upon receiving consent for the grants from a member of the Compensation Committee, the Stock Administrator records the date the consent is received on the checklist. A Committee member may approve the proposed UWC by signing and returning the UWC to the Stock Administrator, or alternatively, by sending an electronic message (e.g., email) to the Stock Administrator indicating the Committee member's approval.

- If the Stock Administrator has not received the UWC from all members of the Compensation Committee at least three days before the Monthly Grant Date, the Stock Administrator will re-send the request for approvals and another copy of the UWC. In addition, the Corporate Secretary of the Company will provide the proper required notice of a Compensation Meeting

## **Table of Contents**

to be held on or before the Monthly Grant. The purpose of the meeting will be to review the proposed option grants previously delivered to the Committee.

After Compensation Committee approval has been received, the Stock Administrator informs HR that the proposed grants have been approved. HR notifies the recipient of the approved grants by email on or prior to the Monthly Grant Date.

If the proposed grants have not been approved by the Compensation Committee before the Monthly Grant Date, then the Company will not grant or price any awards for that month. All proposed grants may be included for approval in the following month's grant list and must be approved again pursuant to these procedures.

If the Compensation Committee has approved the grants but employees are not notified of the approvals on or before the Monthly Grant Date, then HR contacts the General Counsel prior to providing any such notice. The General Counsel determines whether to proceed with notifying employees of the approved grants or require the grants be approved again pursuant to these procedures.

The Stock Administrator prepares a list of the approved grants and transmits the list to the Company's Third-Party Stock Plan Administrator.

The Stock Administrator maintains the appropriate records with the Company corporate minute books and records. The Stock Administrator maintains a cumulative summary document that provides a summary of all equity incentive grants issued by the Company for the current fiscal year.

After notifying the Company's Third Party Stock Plan Administrator of the awards, the Stock Administrator runs a report for the Monthly Grant Date from the Third Party Stock Plan Administrator's database to confirm that all grants sent to them have been entered in their database under the correct employee names and identification numbers.

Any material deviation from these procedures must be approved by the Company's General Counsel. The Stock Administrator notifies the Company's Chief Financial Officer and the General Counsel of any material deviation from these procedures that is not approved in advance by the General Counsel.

As of the date of this filing, these controls continue to be in effect.

Neither management, nor the Special Committee has identified any grant dates selected with hindsight or prior to completing the formal approval process since 2003. The adjustments to our financial statements principally resulted from revisions made to measurement dates for certain options granted prior to December 31, 2002. The Company is currently reviewing the Special Committee recommendations to ensure that we continue to strengthen our controls over our stock option granting process.

This material weakness discussed above was remediated through the implemented process improvements described above and the coincident resignation of our former chief executive officer on March 5, 2007.

### **Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting that occurred during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

### **Inherent Limitations on Effectiveness of Controls**

Our management, including the CEO and CFO, do not expect that our Disclosure Controls or our internal control over financial reporting will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance

**Table of Contents**

that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and breakdowns can occur as a result of simple errors or mistakes. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

**PART II**

**ITEM 1. LEGAL PROCEEDINGS**

**Silvaco Data Systems**

On December 8, 2004, Silvaco Data Systems ( Silvaco ) filed suit against us, and others, alleging misappropriation of trade secrets, conversion, unfair business practices, and civil conspiracy. Silvaco's complaint stems from a trade secret dispute between Silvaco and a software vendor, Circuit Semantics, Inc., who supplied us with certain software design tools. Silvaco alleges that our use of Circuit Semantics' design tools infringes upon Silvaco's trade secrets and that we are liable for compensatory damages in the sum of \$10 million. Silvaco has not indicated how it will substantiate this amount of damages and we are unable to reasonably estimate the amount of damages, if any.

On January 25, 2005, we answered Silvaco's complaint by denying any wrong-doing. In addition, we filed a cross-complaint against Silvaco alleging breach of contract relating to Silvaco's refusal to provide certain technology that would enable us to use certain unrelated software tools. A trial date has not been set in this matter and we do not anticipate a trial until at least the first half of fiscal year 2008.

We intend to defend the lawsuit vigorously. In addition, Circuit Semantics is obligated to defend and indemnify us pursuant to our license agreement with them for the software. However, we cannot predict the ultimate outcome of this litigation and we are unable to estimate any potential liability we may incur.

- 26 -

---

## **Table of Contents**

### **Other Claims**

From time to time, other various claims, charges and litigation are asserted or commenced against us arising from, or related to, contractual matters, intellectual property, employment disputes, as well as other issues. Frequent claims and litigation involving these types of issues are not uncommon in the IC industry. As to any of these claims or litigation, we cannot predict the ultimate outcome with certainty.

### **ITEM 1A. RISK FACTORS**

In evaluating all forward-looking statements, readers should specifically consider risk factors that may cause actual results to vary from those contained in the forward-looking statements. Various risk factors associated with our business are included in our amended Annual Report on Form 10-K/A for the fiscal year ended March 25, 2006, as filed with the U.S. Securities and Exchange Commission ( Commission ) on April 18, 2007 and available at [www.sec.gov](http://www.sec.gov). With the exception of the updates in risk factors below, there have been no material changes to those risk factors previously disclosed in our amended Annual Report on Form 10-K/A for the fiscal year ended March 25, 2006 filed with the Commission on April 18, 2007.

#### ***Our net operating loss carryforwards may be limited or they may expire before utilization***

As of March 25, 2006, we had U.S. federal tax net operating loss carryforwards of approximately \$465.8 million, which expire at various dates from fiscal year 2009 through fiscal year 2026. The year that contributed most to our federal net operating loss carryforward was fiscal year 2000 at \$208.1 million. That portion of the loss will expire in fiscal year 2020. These net operating loss carryforwards may be used to offset future taxable income and thereby reduce our U.S. federal income taxes otherwise payable. Section 382 of the Internal Revenue Code of 1986, as amended ( the Code ), imposes an annual limit on the ability of a corporation that undergoes an ownership change to use its net operating loss carry forwards to reduce its tax liability. In the event of certain changes in our shareholder base, we may at some point in the future experience an ownership change as defined in Section 382 of the Code. Accordingly, our use of the net operating loss carryforwards and credit carryforwards may be limited by the annual limitations described in Sections 382 and 383 of the Code.

In addition to our U.S. federal tax net operating loss carryforwards, we also had net operating loss carryforwards in a variety of states in which we operate. Our largest state net operating loss carryforward is in California which has rules similar to the federal rules pertaining to change in ownership. In the event of an ownership change, our ability to utilize state net operating losses may be limited by annual limitations similar to those described in Section 382 of the Code. In addition, certain states, including California, have carryforward periods that are much shorter than the federal carryforward period which increases the likelihood that some or all of our state net operating losses will expire unutilized.

We provided a valuation allowance equal to our net U.S. deferred tax assets due to uncertainties regarding whether these assets will be realized. In order to recognize these assets, we must be able to determine that it is more likely than not that these assets will be realized. We evaluate the realizability of the deferred tax assets on a quarterly basis. We have deferred tax assets generated in non-U.S. jurisdictions that we have recognized since it is more likely than not that these assets will be realized.
