Form 10-Q/A
April 06, 2005

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q/A
(Amendment No. 1)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended November 27, 2004

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE
SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-5742

RITE AID CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

23-1614034
(I.R.S. Employer
Identification No.)

30 Hunter Lane,
Camp Hill, Pennsylvania
(Address of principal executive offices)

17011
(Zip Code)

Registrant's telephone number, including area code: (717) 761-2633.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check whether the registrant is an accelerated filer (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable

date.

The registrant had 520,602,938 shares of its \$1.00 par value common stock outstanding as of December 16, 2004.

EXPLANATORY STATEMENT

As previously disclosed in our Current Report on Form 8-K dated March 18, 2005, on March 17, 2005, our management and audit committee of the Board of Directors have determined that our financial statements for each of the three years in the period ended February 28, 2004 and for the first three quarters of fiscal 2005 should be restated.

On February 7, 2005, a letter was issued by the Office of the Chief Accountant of the Securities and Exchange Commission ("SEC") to the American Institute of Certified Public Accountants that clarified the application of generally accepted accounting principles ("GAAP") for lease accounting. This letter led to our review of certain leasing transactions. As a result of our review, we have determined that our methods of accounting for rent during construction periods and amortization of leasehold improvements for a small number of stores were not consistent with GAAP. Historically, we recorded rent expense on stores at the time that the store began operations. We have now determined that we should have recorded rent expense at the time that we had the right to use the property, which typically is when we begin construction on the property. We also had leasehold improvements at a small number of stores that were being depreciated over lives longer than the minimum lease term of the related ground lease. We have now determined that we should be amortizing these improvements over a life that is no longer than the minimum lease term.

These non-cash adjustments, which are similar to others recently announced by several restaurant and retail companies, will have no impact on historical or future cash flows or the timing of payments under our operating leases. Also they have no impact on our financial covenants under our senior secured credit facility.

This Amendment No. 1 on Form 10-Q/A ("Form 10-Q/A") to our Quarterly Report on Form 10-Q for the quarterly period ended November 27, 2004, initially filed with the SEC on December 21, 2004 (the "Original Filing") is being filed to reflect the restatement of our condensed consolidated financial statements for the thirteen and thirty-nine week periods ended November 27, 2004 and November 29, 2003. For a more detailed description of this restatement, see Note 12, "Restatement of Financial Statements," to the accompanying condensed consolidated financial statements.

For the convenience of the reader, this Form 10-Q/A sets forth the Original Filing in its entirety. However, this Form 10-Q/A only amends and restates certain information in Items 1, 2 and 4 of Part I of the Original Filing, in each case, solely as a result of, and to reflect the restatement, and no other information in the Original Filing is amended hereby. The foregoing items have not been updated to reflect other events occurring after the Original Filing or to modify or update those disclosures affected by subsequent events. In addition, pursuant to the rules of the SEC, Item 6 of Part II of the Original Filing has been amended to contain currently dated certifications from our Chief Executive Officer and Chief Financial Officer, as required by Sections 302 and 906 of the Sarbanes-Oxley Act of 2002. The certifications of our Chief Executive Officer and Chief Financial Officer are attached to this Form 10-Q/A as exhibits 31.1, 31.2 and 32, respectively.

Except for the foregoing amended information, this Form 10-Q/A continues to describe conditions as of the date of the Original Filing, and we have not updated the disclosures contained herein to reflect events that occurred at a later date. We have not amended and do not intend to amend our previously filed Annual Reports on Form 10-K or our Quarterly Reports on Form 10-Q for the periods affected by the restatement that ended prior to February 28, 2004. For this reason, the consolidated financial statements, auditors reports and related financial information for the affected periods contained in such reports should no longer be relied upon.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This report includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are identified by terms and phrases such as "anticipate," "believe," "intend," "estimate," "expect," "continue," "should," "could," "may," "plan," "project," "predict," and similar expressions and include references to assumptions and relate to our future prospects, developments and business strategies.

Factors that could cause actual results to differ materially from those expressed or implied in such forward-looking statements include, but are not limited to:

- our high level of indebtedness;
- our ability to make interest and principal payments on our debt and satisfy the other covenants contained in our senior secured credit facility and other debt agreements;
- our ability to improve the operating performance of our existing stores in accordance with our long term strategy;
- our ability to hire and retain pharmacists and other store personnel;
- the outcomes of pending lawsuits and governmental investigations;
- competitive pricing pressures and continued consolidation of the drugstore industry; and
- the efforts of third party payors to reduce prescription drug reimbursements and encourage mail order, changes in state or federal legislation or regulations, the success of planned advertising and merchandising strategies, general economic conditions and inflation, interest rate movements, access to capital, and our relationships with our suppliers.

We undertake no obligation to revise the forward-looking statements included in this report to reflect any future events or circumstances. Our actual results, performance or achievements could differ materially from the results expressed in, or implied by, these forward-looking statements. Factors that could cause or contribute to such differences are discussed in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations—Overview and Factors Affecting Our Future Prospects" included in our Annual Report on Form 10-K/A for the fiscal year ended February 28, 2004 ("the Fiscal 2004 10-K/A"), which we filed with the Securities and Exchange Commission ("SEC") on April 6, 2005 and is available on the SEC's website at www.sec.gov.

RITE AID CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars and share information in thousands, except per share amounts)
(unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X and therefore do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete annual financial statements. The accompanying financial information reflects all adjustments (consisting primarily of normal recurring adjustments except as described in these notes) which are, in the opinion of management, necessary for a fair presentation of the results for the interim periods. The results of operations for the thirteen and thirty-nine week periods ended November 27, 2004 are not necessarily indicative of the results to be expected for the full year. These condensed consolidated

financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Fiscal 2004 Annual Report on Form 10-K/A filed with the SEC.

Certain reclassifications have been made to prior period amounts to conform to current period classifications.

2. (Loss) Income Per Share

Following is a summary of the components of the numerator and denominator of the basic and diluted (loss) income per share computation:

	Thirteen Week Period Ended		Thirty-Nine Week Period Ended	
	November 27, 2004	November 29, 2003	November 27, 2004	November 29, 2003
Numerator for (loss) income per share:				
Net income	\$ 288	\$ 73,260	\$ 73,886	\$ 24,003
Accretion of redeemable preferred stock	(26)	(26)	(77)	(78)
Cumulative preferred stock dividends	(8,694)	(8,032)	(25,573)	(15,906)
(Loss) income attributable to common stockholders – basic	(8,432)	65,202	48,236	8,019
Interest on convertible debt	—	2,968	—	—
Cumulative preferred stock dividends	—	8,032	—	—
(Loss) income attributable to common stockholders – diluted	\$ (8,432)	\$ 76,202	\$ 48,236	\$ 8,019
Denominator:				
Basic weighted average shares	519,876	516,226	518,095	515,609
Outstanding options	—	17,894	13,963	9,894
Convertible debt	—	38,462	—	—
Convertible preferred stock	—	74,475	—	—
Diluted weighted average shares	519,876	647,057	532,058	525,503
Basic and diluted (loss) income per share:				
Basic net (loss) income per share	\$ (0.02)	\$ 0.13	\$ 0.09	\$ 0.02
Diluted net (loss) income per share	\$ (0.02)	\$ 0.12	\$ 0.09	\$ 0.02

9

RITE AID CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Dollars and share information in thousands, except per share amounts)
(unaudited)

No potential dilutive shares of common stock have been included in the computation of loss per share for the thirteen week period ended November 27, 2004, as the Company incurred a loss attributable to common shareholders in that period, and the inclusion would be anti-dilutive. Diluted weighted average shares for the thirty-nine week periods

ended November 27, 2004, and November 29, 2003, do not reflect potential dilutive shares related to convertible preferred stock or convertible notes, as inclusion of these shares would be anti-dilutive.

At November 27, 2004, an aggregate of 136,585 potential dilutive common shares related to stock options with an exercise price greater than the average market price for the period, convertible notes and preferred stock have been excluded from the thirty-nine week computation of diluted income per share. At November 29, 2003, an aggregate of 126,456 potential dilutive common shares related to stock options with an exercise price greater than the average market price for the period, convertible notes and preferred stock have been excluded from the computation of diluted income per share.

3. Store Closing and Impairment Charges

Store closing and impairment charges consist of:

	Thirteen Week Period Ended		Thirty-Nine Week Period Ended	
	November 27, 2004	November 29, 2003	November 27, 2004	November 29, 2003
Impairment charges	\$ 782	\$ 1,600	\$ 1,681	\$ 3,617
Store and equipment lease exit charges (credits)	1,615	1,455	9,582	(3,318)
	\$ 2,397	\$ 3,055	\$ 11,263	\$ 299

Impairment charges

Impairment charges include non-cash charges of \$782 and \$1,600 for the thirteen week periods ended November 27, 2004 and November 29, 2003, respectively, for the impairment of long-lived assets at 13 and 5 stores, respectively. Impairment charges include non-cash charges of \$1,681 and \$3,617 for the thirty-nine week periods ended November 27, 2004 and November 29, 2003, respectively, for the impairment of long-lived assets at 35 and 30 stores, respectively. These amounts include the write-down of long-lived assets at stores that were assessed for impairment because of management's intention to relocate or close the store.

Store and equipment lease exit charges (credits)

During the thirteen week periods ended November 27, 2004 and November 29, 2003, the Company recorded charges for 4 and 3 stores, respectively. During the thirty-nine week periods ended November 27, 2004 and November 29, 2003, the Company recorded charges for 10 and 5 stores, respectively. Charges to close a store, which principally consist of lease termination costs, are recorded at the time the store is closed and all inventory is liquidated, pursuant to the guidance set forth in Statement of Financial Accounting Standards ("SFAS") No. 146, "Accounting for Costs Associated with Exit or Disposal Activities". The Company calculates its liability for closed stores on a store-by-store basis. The calculation includes future minimum lease payments and related ancillary costs, from the date of closure to the end of the remaining lease term, net of estimated cost recoveries that may be achieved through subletting properties or through favorable lease terminations. This liability is discounted using a risk-free rate of interest. The Company evaluates these assumptions each quarter and adjusts the liability accordingly. The amounts of the closed store charges that relate to new closures, changes in interest rates, and interest accretion are presented in the following table.

RITE AID CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars and share information in thousands, except per share amounts)

(unaudited)

The reserve for store and equipment lease exit costs includes the following activity:

	Thirteen Week Period Ended		Thirty-Nine Week Period Ended	
	November 27, 2004	November 29, 2003	November 27, 2004	November 29, 2003
Balance – beginning of period	\$ 241,334	\$ 275,697	\$ 254,361	\$ 306,485
Provision for present value of noncancellable lease payments of store closings	1,858	1,048	13,848	1,949
Changes in assumptions about future sublease income, terminations and changes in interest rates	(1,225)	(1,751)	(7,635)	(11,172)
Reversals of reserves for stores that management has determined will remain open	(858)	—	(2,137)	—
Interest accretion	1,994	2,167	6,139	6,042
Cash payments, net of sublease income	(10,053)	(12,096)	(31,526)	(38,239)
Balance – end of period	\$ 233,050	\$ 265,065	\$ 233,050	\$ 265,065

The Company's revenues and income from operations for the thirteen and thirty-nine week periods ended November 27, 2004 and November 29, 2003 include results from stores that have been closed as of November 27, 2004. The revenue and operating losses of these stores for the periods are presented as follows:

	Thirteen Week Period Ended		Thirty-Nine Week Period Ended	
	November 27, 2004	November 29, 2003	November 27, 2004	November 29, 2003
Revenues	\$ 7,881	\$ 25,629	\$ 39,643	\$ 92,560
Loss from operations	(2,700)	(1,573)	(7,667)	(6,175)

Included in these stores' loss from operations for the thirteen weeks ended November 27, 2004 and November 29, 2003, are depreciation and amortization charges of \$84 and \$234 and closed store liquidation charges of \$2,454 and \$941, respectively. Included in these stores' loss from operations for the thirty-nine weeks ended November 27, 2004 and November 29, 2003, are depreciation and amortization charges of \$393 and \$877 and closed store liquidation charges of \$5,849 and \$4,170, respectively. The above results are not necessarily indicative of the impact that these

closures will have on revenues and operating results of the Company in the future, as the Company often transfers the business of a closed store to another Company store, thereby retaining a portion of these revenues.

4. Receivables

On September 22, 2004, the Company entered into receivables securitization agreements with several multi-seller asset-backed commercial paper vehicles. Under the terms of the securitization agreements, the Company sells substantially all of its eligible third party pharmaceutical receivables to a bankruptcy remote Special Purpose Entity (SPE) and retains servicing responsibility. The assets of the SPE are not available to satisfy the creditors of any other person, including any of the Company's affiliates. These agreements provide for the Company to sell, and for the SPE to purchase these receivables, and for the SPE to borrow funds secured by these receivables of up to \$400,000. At November 27, 2004, the Company retained an interest in the third party pharmaceutical receivables in the form of overcollateralization of \$225,929, which is included in accounts receivable, net on the consolidated balance sheet at allocated cost, which approximates fair value. The proceeds from collections reinvested in securitizations amounted to \$1,480,524 in the thirteen and thirty-nine week periods ended November 27, 2004.

11

RITE AID CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Dollars and share information in thousands, except per share amounts)
(unaudited)

The amount of receivables funded at any one time is dependent upon a formula that takes into account such factors as default history, obligor concentrations and potential dilution. Adjustments to this amount can occur on a weekly basis. At November 27, 2004, proceeds from the sale of receivables to the SPE totaled \$335,000. Proceeds from the initial sale of the receivables were used to repay outstanding amounts under the then existing senior secured credit facility, as described in Note 8 "Indebtedness and Credit Agreements". Any additional proceeds are expected to be used to fund operations. The Company paid one-time arrangement and marketing fees of \$2,400 at the closing date, which are recorded as a loss on debt modification. The Company must pay an ongoing program fee of approximately LIBOR plus 1.125% on the amount sold to the SPE under the securitization agreements and must pay a liquidity fee of 0.375% on the daily unused amount under the securitization agreements. The program and liquidity fees are recorded as a component of selling, general and administrative expenses. Rite Aid Corporation guarantees certain performance obligations of its affiliates under the securitization agreements, but does not guarantee the collectibility of the receivables and obligor creditworthiness.

The vehicles that make loans to the SPE have a commitment to lend that ends September 2005 with the option to annually extend the commitment to purchase. Should any of the vehicles fail to renew their commitment, the Company has access to a backstop credit facility, which is backed by the entities that make loans to the SPE's. The backstop facility is committed through September 2007.

Proceeds from collections under the receivables securitization agreements are submitted to an independent trustee on a daily basis. The trustee withholds any cash necessary to fund overdrafts on the facility and to pay trustee fees. Overdrafts on the facility occur when the daily borrowing formula is less than current proceeds from the receivable sale. The remaining collections are swept to the Company's corporate concentration account. Cash at November 27, 2004 includes \$7,606 that is restricted for these purposes.

The Company believes that the transaction meets the criteria for sales treatment in accordance with SFAS No. 140 "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities". Additionally, the Company believes that consolidation is not appropriate in accordance with FIN 46R, "Consolidation of Variable Interest Entities".

5. Sale Leaseback Transaction

On October 1, 2004, the Company sold the land and buildings on 21 owned stores to a third party. Proceeds from this sale were \$53,800. The Company entered into an agreement to lease these stores back from the purchaser over a minimum lease term of 20 years. The leases are being accounted for as operating leases. A gain on the transaction of \$3,800 has been deferred and is being recorded over the minimum lease term. A loss of \$1,500, which relates to certain stores in the transaction portfolio, was recorded as a loss on sale of fixed assets in the thirteen week period ended November 27, 2004. Future scheduled minimum payments under these leases, for the remainder of fiscal 2005 and the succeeding four fiscal years are as follows: 2005 – \$1,134; 2006 – \$4,538; 2007 – \$4,537; 2008 – \$4,538; 2009 – \$4,537; and \$76,003 in 2010 and thereafter.

6. Goodwill and Other Intangibles

The Company evaluates goodwill for impairment on an annual basis, pursuant to the provisions of SFAS No. 142, "Goodwill and Other Intangibles". Intangible assets other than goodwill are finite-lived and amortized over their useful lives. Following is a summary of the Company's amortizable intangible assets as of November 27, 2004 and February 28, 2004.

12

RITE AID CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
 (Dollars and share information in thousands, except per share amounts)
 (unaudited)

	November 27, 2004		February 28, 2004	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Favorable leases and other	\$ 317,934	\$ (193,125)	\$ 298,475	\$ (173,774)
Prescription files	\$ 361,625	\$ (306,553)	350,501	(298,530)
Total	\$ 679,559	\$ (499,678)	\$ 648,976	\$ (472,304)

Amortization expense for these intangible assets was \$6,830 and \$20,426 for the thirteen and thirty-nine weeks ended November 27, 2004, respectively. Amortization expense for these intangible assets was \$8,285 and \$26,540 for the thirteen and thirty-nine weeks ended November 29, 2003, respectively. The anticipated annual amortization expense for these intangible assets is 2005 – \$27,140; 2006 – \$25,984; 2007 – \$22,727; 2008 – \$18,142; and 2009 – \$15,381.

7. Income Taxes

The Company recorded income tax expense of \$5,362 and \$11,139 for the thirteen and thirty-nine week periods ended November 27, 2004 and a tax benefit of \$47,518 for the thirteen and thirty-nine week periods ended November 29, 2003.

The provision for income taxes for the thirty-nine week period ended November 27, 2004 is for state and local income taxes. The expected federal income tax expense has been fully offset by utilization of net operating loss carryforwards resulting in the reduction of previously recorded valuation allowances.

The income tax benefit of the operating loss generated in the thirty-nine week period ended November 29, 2003 has been fully offset by a valuation allowance as a result of the Company's determination that, based on the then available evidence, it was more likely than not that the deferred tax assets would not be realized. The tax benefit of \$47,518 for the thirteen and thirty-nine week period ended November 29, 2003 is comprised of a federal tax benefit of \$51,103 and state tax expense of \$3,585. The federal benefit is related to the conclusion of the Internal Revenue Service examination for fiscal years 1996 through 2000, representing recoverable federal and state income taxes and interest, as well as a reduction of previously recorded liabilities. The state tax expense of \$3,585 is the result of the provision from operations for state income taxes for which the use of net operating losses were temporarily suspended by certain jurisdictions.

8. Indebtedness and Credit Agreements

General

Following is a summary of indebtedness and lease financing obligations at November 27, 2004 and February 28, 2004:

	November 27, 2004	February 28, 2004
Secured Debt:		
Senior secured credit facility ("SCF") term loan due September 2009	\$ 450,000	\$ —
SCF revolver draws due September 2009	99,000	—
SCF facility due April 2008	—	1,150,000

New Credit Facility

On September 22, 2004, the Company replaced its senior secured facility with a new senior secured credit facility. The new facility consists of a \$450,000 term loan and a \$950,000 revolving credit facility, and will mature in September, 2009. The proceeds of the loans made on the closing date of the new credit facility along with available cash and proceeds from the receivables securitization agreements were used to repay outstanding amounts under the old credit facility. Borrowings under the new facility currently bear interest at LIBOR plus 1.75%, if the Company chooses to make LIBOR borrowings, or at Citibank's base rate plus 0.75%. The Company is required to pay fees of 0.375% per annum on the daily unused amount of the revolving facility. Amortization payments of \$1,125 related to the new term loan begin on November 30, 2004, and continue on a quarterly basis until May 31, 2009, with a final payment of \$428,625 due August 31, 2009.

Substantially all of Rite Aid Corporation's wholly owned subsidiaries guarantee the obligations under the new senior secured credit facility. The subsidiary guarantees are secured by a first priority lien on, among other things, the inventory and prescription files of the subsidiary guarantors. Rite Aid Corporation is a holding company with no direct operations and is dependent upon dividends,

RITE AID CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars and share information in thousands, except per share amounts)

(unaudited)

distributions and other payments from its subsidiaries to service payments under the new senior secured credit facility. Rite Aid Corporation's direct obligations under the new senior secured credit facility are unsecured.

The new senior secured credit facility allows for the issuance of up to \$700,000 in additional term loans or additional revolver availability. Rite Aid may request the additional loans at any time prior to the maturity of the senior secured credit facility, provided the Company is not in default of any terms of the facility, nor is in violation of any financial covenants. The new senior secured credit facility allows the Company to have outstanding, at any time, up to \$1,800,000 in secured subordinated debt in addition to the senior secured credit facility (which amount is reduced by any additional unsecured debt that matures prior to December 31, 2009, as described below). The Company also has the ability to incur an unlimited amount of unsecured debt, if the debt does not mature or require scheduled payments of principal prior to December 31, 2009. The Company has the ability to incur additional unsecured debt of up to \$200,000 with a scheduled maturity prior to December 31, 2009. The maximum amount of additional secured subordinated debt, and unsecured debt with a maturity prior to December 31, 2009 that can be incurred is \$1,800,000. At November 27, 2004, the remaining additional permitted secured subordinated debt under the new senior credit facility is \$997,975. The new senior secured credit facility also allows for the repurchase of any debt with a maturity on or before September 22, 2009, and for the repurchase of debt with a maturity after September 22, 2009, if the Company maintains availability on the revolving credit facility of at least \$300,000.

The new senior secured credit facility contains customary covenants, which place restrictions on the incurrence of debt beyond the restrictions described above, the payment of dividends, mergers, and the granting of liens. The new senior secured credit facility also requires the Company to meet certain financial covenant ratios, but only if availability on the revolving credit facility is less than \$300,000. If availability on the revolving credit facility is less than \$300,000, the covenants would have required the Company to maintain a maximum leverage ratio of 6.20:1 for the twelve months ended November 27, 2004. Subsequent to November 27, 2004, the ratio gradually decreases to 3.20:1 for the twelve months ended August 29, 2009. In addition, if availability on the revolving credit facility is less than \$300,000, the Company would have been required to maintain a minimum fixed charge ratio of 1.05:1 for the twelve months ending November 27, 2004. Subsequent to November 27, 2004, the ratio gradually increases to 1.25:1 for the twelve months ending August 29, 2009.

The new senior secured credit facility provides for customary events of default, including nonpayment, misrepresentation, breach of covenants and bankruptcy. It is also an event of default if the Company fails to make any required payment on debt having a principal amount in excess of \$25,000 or any event occurs that enables, or which with the giving of notice or the lapse of time would enable, the holder of such debt to accelerate the maturity of such debt.

The Company's ability to borrow under the new senior secured credit facility is based on a specified borrowing base consisting of inventory and prescription files. At November 27, 2004, the term loan was fully drawn and the Company has borrowings under the revolving credit facility of \$99,000. At November 27, 2004, the Company also had letters of credit outstanding against the revolving credit facility of \$112,113. After considering the borrowing base, outstanding letters of credit and the financial covenant ratios, the Company had additional borrowing capacity of \$738,887 at November 27, 2004.

As a result of the placement of the new senior secured credit facility and the receivables securitization agreements discussed in Note 4, the Company recorded a loss on debt modification of \$20,216 in the thirteen week period ended November 27, 2004.

Other Transactions

During the thirty-nine week period ended November 27, 2004, the Company made open market purchases of the following securities (in thousands):

15

RITE AID CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Total	\$ 65,500	\$ 64,483	\$ 791

The gain on the transactions listed above is recorded as part of the loss on debt modifications in the accompanying statement of operations for the thirty-nine week period ended November 27, 2004.

During the thirty-nine week period ended November 29, 2003, the Company replaced its senior secured credit facility due March 2005 with a new senior secured credit facility due April 2008. As a result of the placement of this facility, the Company recorded a loss on debt modification in the thirty-nine week period ended November 29, 2003 of \$43,197.

During the thirty-nine week period ended November 29, 2003, the Company made open market purchases of the following securities:

	Principal Amount Redeemed	Amount Paid	Gain / (loss)
Debt Redeemed			
6.0% fixed rate senior notes due 2005	\$ 37,848	\$ 36,853	\$ 865

Total	\$203,001	\$193,682	\$ 7,882

The net gain on the transactions listed above is recorded as part of the loss on debt modifications in the accompanying statement of operations for the thirty-nine week period ended November 29, 2003.

Other

The aggregate annual principal payments of long-term debt for the remainder of fiscal 2005 and the succeeding four fiscal years are as follows: 2005 – \$1,332; 2006 – \$214,542; 2007 – \$575,177; 2008 – \$5,370; 2009 – \$304,591; and \$1,941,368 in 2010 and thereafter.

Rite Aid Corporation's direct obligations under the new secured credit facility are unsecured. The subsidiary guarantees related to the Company's senior secured credit facility and second priority bond issuances are full and unconditional and joint and several. Also, the parent company's assets and operations are not material and subsidiaries not guaranteeing the new senior secured credit facility and bond issuances are minor. Accordingly, condensed consolidating financial information for the parent and subsidiaries is not presented.

The 12.5% senior secured notes due 2006, the 8.125% senior secured notes due 2010 and the 9.5% senior secured notes due 2011 are guaranteed by substantially all of the Company's wholly-owned subsidiaries that guarantee the senior secured credit facility and the Company's obligations under such notes are secured on a second priority basis by the same collateral as the senior secured credit facility.

9. Retirement Plans

Net periodic pension expense recorded in the thirteen and thirty-nine week periods ended November 27, 2004 and November 29, 2003, respectively, for the Company's defined benefit plans includes

10. Commitments And Contingencies

Federal Investigation

There are currently pending federal governmental investigations, both civil and criminal, by the United States Attorney, involving various matters related to prior management's business practices. The Company is cooperating fully with the United States Attorney. The Company has begun settlement discussions with the United States Attorney of the Middle District of Pennsylvania. The United States Attorney has proposed that the government would not institute any criminal proceedings against the Company if the Company enters into a consent judgment providing for a civil penalty payable over a period of years. The amount of the civil penalty has not been agreed to and there can be no assurance that a settlement will be reached or that the amount of such penalty will not have a material adverse effect on the Company's financial condition and results of operations. The Company recorded an accrual of \$20,000 in fiscal 2003 in connection with the resolution for these matters; however, the Company may incur charges in excess of that amount and the Company is unable to estimate the possible range of loss. The Company will continue to evaluate the estimate and, to the extent that additional information arises or the Company's strategy changes, the Company will adjust the accrual accordingly.

These investigations and settlement discussions are ongoing, and the Company cannot predict their outcomes. If the Company were convicted of any crime, certain licenses and government contracts such as Medicaid plan reimbursement agreements that are material to the Company's operations may be revoked, which would have a material adverse effect on the Company's results of operations, financial condition or cash flows. In addition, substantial penalties, damages or other monetary remedies assessed against the Company, including a settlement, could also have a material adverse effect on the Company's results of operations, financial condition or cash flows.

Other

In June 2000, the Company was sued by the Lemelson Foundation in a complaint which alleges that portions of the technology included in the Company's point-of-sale system infringe upon a patent held by

17

the plaintiffs. The Lemelson Foundation has brought a similar suit against a significant number of major U.S. retailers. The amount of damages sought is unspecified, and may be material. Management cannot predict the outcome of this litigation or whether it could result in a material adverse effect on the Company's results of operations, financial conditions or cash flows.

The Company is subject from time to time to lawsuits arising in the ordinary course of business. In the opinion of the Company's management, these matters are adequately covered by insurance or, if not so covered, are without merit or are of such nature or involve amounts that would not have a material adverse effect on the Company's financial condition, results of operations or cash flows if decided adversely.

11. Subsequent Events

On December 15, 2004, the Company sold the land and buildings on 14 owned stores to a third party. Proceeds from this sale were \$37,500. The Company entered into an agreement to lease these stores back from the purchaser over a minimum lease term of 20 years. The leases are being accounted for as operating leases. The Company expects to defer a gain of \$10,700 over the minimum lease term, and record a loss of \$200 as a loss on sale of fixed assets in the thirteen week period ending February 26, 2005. Future scheduled lease payments under these leases, for the remainder of fiscal 2005 and the succeeding four fiscal years, are as follows: 2005 – \$648; 2006 – \$3,113; 2007 – \$3,113; 2008 – \$3,113; 2009 – \$3,113 and \$52,277 in 2010 and thereafter.

12. Restatement of Financial Statements

Subsequent to the issuance of the Company's condensed consolidated financial statements for the thirteen and thirty-nine week periods ended November 27, 2004, the Company's management reviewed certain of its lease related accounting policies. As a result of this review, the Company determined that its previous methods of accounting for straight-line rent expense and the related deferred rent liability and depreciation expense on leasehold improvements for a small number of stores were not in conformity with GAAP. As a result, the Company's financial statements for each of the three years in the period ended February 28, 2004 and for the first three quarters of fiscal 2005 have been restated.

Historically, the Company recorded rent expense on operating leases on a straight-line basis over the minimum lease term at the time that the store began operations. The Company has now determined that it should have recorded rent expense at the time that it had the right to use the property, which typically is when the Company begins construction on the property. The Company also had leasehold improvements at a small number of stores that were being depreciated over lives longer than the minimum lease term of the related ground lease. The Company has now determined that it should be amortizing these improvements over a life that is no longer than the minimum lease term. These non-cash adjustments have no impact on historical or future cash flows or the timing of payments under the Company's operating leases. Also they have no impact on the Company's financial covenants under its senior secured credit facility.

The financial statement impact of the restatement is to recognize rent expense on operating leases on a straight-line method beginning at the time the Company has the right to use the property and to accelerate the depreciation on the leasehold improvement assets that are on ground leases so that the asset is fully depreciated over the remaining minimum lease term. The cumulative effect of the restatement through the fiscal quarter ended November 27, 2004 is to decrease net property, plant and equipment by \$1,268, to increase non-current liabilities by \$16,527 and to increase the accumulated deficit by \$17,795. The impact of the restatement is a decrease in net income of \$689 for the thirteen week period ended November 27, 2004 and a decrease in net income of \$334 for the thirteen week period ended November 29, 2003 from amounts previously reported. The impact of the restatement is a decrease in net

RITE AID CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars and share information in thousands, except per share amounts)

(unaudited)

income of \$254 for the thirty-nine week period ended November 27, 2004 and a decrease in net income of \$171 for the thirty-nine week period ended November 29, 2003 from amounts previously reported. Diluted loss per share was increased by \$0.01 for the thirteen week period ended November 27, 2004. The restatement has no effect on diluted earnings per share for the thirteen week period ended November 29, 2004 and the thirty-nine week periods ended November 27, 2004 and November 29, 2003. The cumulative effect of the restatement for all years prior to fiscal 2002 was \$19,184, which was recorded as an increase in opening stockholders' deficit at March 4, 2001.

A summary of the significant effects of the restatement on (i) the Company's condensed consolidated balance sheet as of November 27, 2004 and (ii) the Company's condensed consolidated statements of operations for the thirteen and thirty-nine week periods ended November 27, 2004, and November 29, 2003, is as follows:

Balance sheet as of November 27, 2004

Overview

Net income for the thirteen and thirty-nine week periods ended November 27, 2004 was \$0.3 million and \$73.9 million, respectively. Net income for the thirteen and thirty-nine week periods ended November 29, 2003 was \$73.3 million and \$24.0 million, respectively. Our operating results have been impacted by a decline in revenue growth, a trend we expect to continue in the near term, partially offset by improvements in gross margin rate and a reduction in interest expense. These items are described in more detail in the Results of Operations section below. Other items that had a significant impact on our results of operations are as follows:

Loss on Debt Modifications and Retirements: During the thirteen and thirty-nine week periods ended November 27, 2004, we recorded a loss on debt modifications and retirements of \$20.2 million and \$19.4 million, respectively. The loss in the thirteen and thirty-nine week periods ended November 27, 2004 included a charge of \$20.2 million related to the termination of our old credit facility and the issuance of a new senior secured credit facility and receivables securitization agreements. The loss in the thirty-nine week period ended November 27, 2004 was offset by net gains of \$0.8 million related to the redemption of several debt instruments during the thirty-nine week period ended November 27, 2004. During the thirty-nine week period ended November 29, 2003, we recorded a loss on debt modifications and retirements of \$35.3 million. The loss included a charge of \$43.2 million related to the termination of an old credit facility and the issuance of a new credit facility offset by net gains of \$7.9 million related to the redemption of several debt instruments in the thirty-nine week period ended November 29, 2003.

Income Tax Benefit: In the thirteen and thirty-nine week periods ended November 29, 2003, we recorded a \$47.5 million income tax benefit, primarily related to the conclusion of the Internal Revenue Service examination for fiscal years 1996 through 2000. As a result of the conclusion of the examination, we established receivables for recoverable federal and state income taxes and interest, and reduced previously recorded liabilities.

Restatement

The following Management's Discussion and Analysis of Financial Condition and Results of Operations gives effect to the restatement discussed in Note 12 to the condensed consolidated financial statements included in Item 1.

21

Revenues

Revenues were flat for the thirteen week period ended November 27, 2004, and grew by 2.2% for the thirty-nine week period ended November 27, 2004. Pharmacy sales declined by 0.1% and grew by 2.3% in the thirteen and thirty-nine week periods ended November 27, 2004, while front-end sales were flat in the thirteen week period ending November 27, 2004 and grew 2.0% in the thirty-nine week period ending November 27, 2004.

Pharmacy same store sales increased 0.1% and 2.5% for the thirteen and thirty-nine week periods ended November 27, 2004, respectively, due to an increase in sales price per prescription. These increases were driven by inflation, offset by an increase in generic sales mix and lower reimbursement rates. Offsetting the increase in price per prescription was a decrease in the number of prescriptions filled in the thirteen and thirty-nine week periods ended November 27, 2004 compared to prior year. This reduction is due primarily to certain third-party payors requiring or encouraging customers to use mail order, a reduction in hormone therapy prescriptions, the movement of certain prescription drugs to over-the-counter, and a slower start to the cold and flu season than in the prior year. We expect negative impact from mail order activity to continue for the foreseeable future. The lower rate of increase in the thirteen week period ended November 27, 2004 is also partially attributable to our Southern California stores cycling the increase in business in last year's comparable period related to the union strike at several grocery store chains.

Front-end same store sales increased 0.3% and 2.4% for the thirteen and thirty-nine week periods ended November 27, 2004, respectively, primarily as a result of improvement in our consumable categories, partially offset by a decrease in photo and film sales, sales decreases in categories negatively effected by a slow start to the cough/cold/flu season and decreased traffic in mail order effected stores. The lower rate of increase in the thirty-nine week period ended November 27, 2004 is attributable to decreases in customer visits due to the customer obtaining their prescription through mail order as opposed to pick-up at our stores and our Southern California stores cycling the increased business in last year's comparable period related to the union strike at several grocery store chains.

The 6.1% and 4.7% growth in revenues for the thirteen and thirty-nine week periods ended November 29, 2003 was driven by pharmacy sales growth of 6.3% and 5.6%, respectively, and front-end sales growth of 5.5% and 3.1%, respectively. Pharmacy same store sales increased by 6.5% and 6.3% for the thirteen and thirty-nine week periods ended November 29, 2003, respectively, due to an increase in sales price per prescription and by increased business at our Southern California stores, driven by the migration of customers impacted by a union strike at several grocery store chains. These increases were partially offset by an increase in generic sales mix and a reduction in hormone therapy and non-sedating antihistamine prescriptions. Front-end same store sales increased 6.2% and 4.1% in the thirteen and thirty-nine week periods ended November 29, 2003, respectively, primarily as a result of improvement in most core categories, such as over-the-counter items, consumables and vitamins, and improved assortments. Also contributing to front-end same store sales increases in the thirteen week period ended November 29, 2003 was the early start of the cough/cold/flu season, the switch of certain prescriptions to over-the-counter products and increased

business in certain of our Southern California stores, driven by the migration of customers impacted by an union strike at several grocery store chains.

22

Costs and Expenses

	Thirteen Week Period Ended		Thirty-Nine Week Period Ended	
	November 27, 2004	November 29, 2003	November 27, 2004	November 29, 2003
	(dollars in thousands)			
Cost of goods sold, including occupancy	\$ 3,098,555	\$ 3,105,333	\$ 9,388,222	\$ 9,261,318
Gross profit	1,008,781	1,000,511	3,087,377	2,942,785
Gross margin	24.6%	24.4%	24.7%	24.1%
Selling, general and administrative	909,016	893,117	2,748,014	2,694,884
Expense general and administrative	22.1%	21.8%	22.0%	22.1%
Stop loss sales and percentage of net charges	2,397	3,055	11,263	299
Interest expense	70,653	77,718	224,973	236,085
Loss on debt modifications and	20,216	—	19,425	35,315
(Gain) loss on sale of assets and investments, net	849	879	(1,323)	(283)
Cost of Goods Sold				

Gross margin was 24.6% for the thirteen week period ended November 27, 2004 compared to 24.4% for the thirteen week period ended November 29, 2003. Gross margin was positively impacted by improvements in pharmacy margin, which was driven by improved generic product mix and reduced inventory costs resulting from purchasing improvements. These items were partially offset by lower reimbursement rates. Partially offsetting the improvements in pharmacy margin was a decrease in front-end margin, which was driven by higher markdowns, increases in occupancy expenses and an increase in the LIFO provision.

Gross margin was 24.7% for the thirty-nine week period ended November 27, 2004 compared to 24.1% for the thirty-nine week period ended November 29, 2003. Gross margin was positively impacted primarily by improvements in pharmacy margin, which was driven by improved generic product mix and reduced inventory costs resulting from purchasing improvements. These items were partially offset by lower reimbursement rates. Gross margin was also positively impacted by a decrease in LIFO charges. Offsetting these improvements was a decrease in front-end margin, which was driven by higher markdowns.

We use the last-in, first-out (LIFO) method of inventory valuation, which is determined annually when inflation rates and inventory levels are finalized. Therefore, LIFO costs for interim period financial statements are estimated. Cost of sales includes LIFO charges of \$5.8 million and \$17.3 million for the thirteen and thirty-nine week periods ended November 27, 2004 versus LIFO (credits) charges of (\$1.4) million and \$25.4 million for the thirteen and thirty-nine week periods ended November 29, 2003. The LIFO credit recorded in the thirteen week period ended November 29, 2003, was due to a lowering of the inflation assumption used in our annual estimate for LIFO charges.

Selling, General and Administrative Expenses

Selling, general and administrative expenses ("SG&A") as a percentage of revenues was 22.1% in the thirteen week period ended November 27, 2004 compared to 21.8% in the thirteen week period ended November 29, 2003. The increase in SG&A as a percentage of revenues for the thirteen week period ended November 27, 2004 is driven by increased costs for pharmacy labor, increased advertising costs related to our television advertising campaign and increased bad debt expense. Partially offsetting these items is a decrease in worker's compensation and general liability insurance costs, a reduction in incentive compensation expense, an increase in litigation settlement proceeds and decreased depreciation and amortization costs resulting from certain store equipment and intangible assets becoming completely depreciated and amortized in the current year.

23

SG&A as a percentage of sales was 22.0% in the thirty-nine week period ended November 27, 2004 compared to 22.1% in the thirty-nine week period ended November 29, 2003. Increased costs for pharmacy labor, union sponsored benefits and increased advertising costs related to our television advertising campaign were offset by a reduction in incentive compensation expense, decreased depreciation and amortization costs resulting from certain store equipment and intangible assets becoming completely depreciated and amortized in the current year and a decrease in stock-based compensation expense, which was due to awards granted in the prior year becoming fully vested.

Store Closing and Impairment Charges

Store closing and impairment charges consist of:

	Thirteen Week Period Ended		Thirty-Nine Week Period	
	November 27, 2004	November 29, 2003	November 27, 2004	November 29, 2003
	(dollars in thousands)			
Impairment charges	\$ 782	\$ 1,600	\$ 1,681	\$ 3,617
Store and equipment lease exit charges	1,615	1,455	9,582	(3,318)
(credits)	\$ 2,397	\$ 3,055	\$ 11,263	\$ 299

Impairment Charges: Impairment charges include non-cash charges of \$0.8 million and \$1.6 million in the thirteen week periods ended November 27, 2004 and November 29, 2003, respectively, for the impairment of long-lived assets at 13 and 5 stores, respectively. Impairment charges include non-cash charges of \$1.7 million and \$3.6 million in the thirty-nine week periods ended November 27, 2004 and November 29, 2003, respectively, for the impairment of long-lived assets at 35 and 30 stores, respectively. These amounts include the write-down of long-lived assets at stores that were assessed for impairment because of management's intention to relocate or close the store.

Store and Equipment Lease Exit Charges (Credits): During the thirteen week periods ended November 27, 2004 and November 29, 2003, we recorded charges for 4 stores and 3 stores, respectively, to be closed or relocated under long-term leases. During the thirty-nine week periods ended November 27, 2004 and November 29, 2003, we recorded charges for 10 and 5 stores, respectively, to be closed or relocated under long-term leases. Charges to close a store, which principally consist of lease termination costs, are recorded at the time the store is closed and all inventory is liquidated, pursuant to the guidance set forth in SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities". We calculate our liability for closed stores on a store-by-store basis. The calculation includes the future minimum lease payments and related ancillary costs, from the date of closure to the end of the remaining lease

term, net of estimated cost recoveries that may be achieved through subletting properties or favorable lease terminations. This liability is discounted using a risk free rate of interest. We evaluate these assumptions each quarter and adjust the liability accordingly. The effect of lease terminations and changes in the risk-free rate of interest during the thirteen week periods ended November 27, 2004 and November 29, 2003 resulted in net charges of \$1.6 million and \$1.5 million, respectively for store closing. The effect of lease terminations and changes in the risk-free rate of interest during the thirty-nine week periods ended November 27, 2004 and November 29, 2003 resulted in net charges (credits) of \$9.6 million and \$(3.3) million, respectively for store closing.

As part of our ongoing business activities, we assess stores for potential closure. Decisions to close stores in future periods would result in charges for store lease exit costs and liquidation of inventory, as well as impairment of assets at these stores.

Interest Expense

Interest expense was \$70.7 million and \$225.0 million for the thirteen and thirty-nine week periods ended November 27, 2004, compared to \$77.7 and \$236.1 million for the thirteen and thirty-nine week periods ended November 29, 2003. The decrease for the thirteen week period ended November 27, 2004 was due to decreased borrowings and interest costs from our new senior secured credit facility. The

24

decrease for the thirty-nine week period ended November 27, 2004 was due to decreased interest costs from our new senior secured credit facility and a decrease in debt issue cost amortization. After taking into effect the terms of the new senior secured credit facility, and assuming no further changes in LIBOR rates or our capital structure, we expect interest expense for the remainder of the year to be approximately \$70.0 million. The weighted average interest rates, excluding capital leases, on our indebtedness for the thirty-nine week periods ended November 27, 2004 and November 29, 2003, was 7.0% and 6.8%, respectively.

Income Taxes

The provision for income taxes for the thirteen and thirty-nine week periods ended November 27, 2004 of \$5.4 million and \$11.1 million, respectively are for state and local income taxes. The expected federal income tax expense has been fully offset by utilization of net operating loss carryforwards resulting in the reduction of previously recorded valuation allowances.

The income tax benefit of the operating loss generated in the thirty-nine week period ended November 29, 2003 has been fully offset by a valuation allowance as a result of our determination that, based on the then available evidence, it was more likely than not that the deferred tax assets would not be realized. The tax benefit of \$47.5 million for the thirteen and thirty-nine week period ended November 29, 2003 is comprised of a federal tax benefit of \$51.1 million and state tax expense of \$3.6 million. The benefit was booked in conjunction with the approval notification by the Joint Committee on Taxation on the conclusions of the Internal Revenue Service examination cycle for fiscal years 1996 through 2000, representing recoverable federal and state income taxes and interest, as well as a reduction of previously recorded liabilities. The state tax expense of \$3.6 million is the result of the provision from operations for state income taxes for which the use of net operating losses were temporarily suspended by certain jurisdictions.

Liquidity and Capital Resources

General

We have four primary sources of liquidity: (i) cash equivalent investments (ii) cash provided by operations (iii) the revolving credit facility under our new senior secured credit facility and (iv) sale-leasebacks of owned property. Our principal uses of cash are to provide working capital for operations, service our obligations to pay interest and principal on debt, to provide funds for capital expenditures and to provide funds for repurchases of our debt.

New Credit Facility

On September 22, 2004, we replaced our senior secured facility with a new senior secured credit facility. The new facility consists of a \$450.0 million term loan and a \$950.0 million revolving credit facility, and will mature in September, 2009. The proceeds of the loans made on the closing date of the new credit facility along with available cash and proceeds from the receivables securitization agreements were used to repay outstanding amounts under the old credit facility. Borrowings under the new facility currently bear interest at LIBOR plus 1.75%, if we choose to make LIBOR borrowings, or at Citibank's base rate plus 0.75%. We are required to pay fees of 0.375% per annum on the daily unused amount of the revolving facility. Amortization payments of \$1.1 million related to the new term loan begin on November 30, 2004, and continue on a quarterly basis until May 31, 2009, with a final payment of \$428.6 million due August 31, 2009.

Substantially all our wholly owned subsidiaries guarantee the obligations under the new senior secured credit facility. The subsidiary guarantees are secured by a first priority lien on, among other things, the inventory and prescription files of the subsidiary guarantors. Rite Aid Corporation is a holding company with no direct operations and is dependent upon dividends, distributions and other payments from our subsidiaries to service payments under the new senior secured credit facility. Rite Aid Corporation's direct obligations under the new senior secured credit facility are unsecured.

25

The new senior secured credit facility allows for the issuance of up to \$700.0 million in additional term loans or additional revolver availability. Rite Aid may request the additional loans at any time prior to the maturity of the senior secured credit facility, provided we are not in default of any terms of the facility, nor are we in violation of any of our financial covenants. The new senior secured credit facility allows us to have outstanding, at any time, up to \$1.8 billion in secured subordinated debt in addition to the senior secured credit facility (which amount is reduced by any additional unsecured debt that matures prior to December 31, 2009, as described below). We also have the ability to incur an unlimited amount of unsecured debt, if the debt does not mature or require scheduled payments of principal prior to December 31, 2009. We have the ability to incur additional unsecured debt of up to \$200.0 million with a scheduled maturity prior to December 31, 2009. The maximum amount of additional secured subordinated debt and unsecured debt with a maturity prior to December 31, 2009 that can be incurred is \$1.8 billion. At November 27, 2004, remaining additional permitted secured subordinated debt under the new senior credit facility is \$998.0 million. The new senior secured credit facility also allows for the repurchase of any debt with a maturity on or before September 22, 2009, and for the repurchase of debt with a maturity after September 22, 2009, if we maintain availability on the revolving credit facility of at least \$300.0 million.

The new senior secured credit facility contains customary covenants, which place restrictions on the incurrence of debt beyond the restrictions described above, the payment of dividends, mergers, and the granting of liens. The new senior secured credit facility also requires us to meet certain financial covenant ratios, but only if availability on the revolving credit facility is less than \$300.0 million. If availability on the revolving credit facility is less than \$300.0

million, the covenants would have required us to maintain a maximum leverage ratio of 6.20:1 for the twelve months ended November 27, 2004. Subsequent to November 27, 2004, the ratio gradually decreases to 3.20:1 for the twelve months ending August 29, 2009. In addition, if availability on the revolving credit facility is less than \$300.0 million, we would have been required to maintain a minimum fixed charge ratio of 1.05:1 for the twelve months ended November 27, 2004. Subsequent to November 27, 2004, the ratio gradually increases to 1.25:1 for the twelve months ending August 29, 2009.

The new senior secured credit facility provides for customary events of default, including nonpayment, misrepresentation, breach of covenants and bankruptcy. It is also an event of default if we fail to make any required payment on debt having a principal amount in excess of \$25.0 million or any event occurs that enables, or which with the giving of notice or the lapse of time would enable, the holder of such debt to accelerate the maturity of such debt.

Our ability to borrow under the new senior secured credit facility is based on a specified borrowing base consisting of inventory and prescription files. At November 27, 2004, the term loan was fully drawn and we have borrowings under the revolving credit facility of \$99.0 million. At November 27, 2004, we also had letters of credit outstanding against the revolving credit facility of \$112.1 million. After considering the borrowing base, outstanding letters of credit, and financial covenant ratios, we had additional borrowing capacity of \$739.0 million at November 27, 2004.

As a result of the placement of the new senior secured credit facility and the receivable securitization agreements, we recorded a loss on debt modification of \$20.2 million in the thirteen week period ended November 27, 2004.

Securitization Agreement

On September 22, 2004, we entered into receivables securitization agreements with several multi-seller asset-backed commercial paper vehicles. Under the terms of the securitization agreements, we sell substantially all of our eligible third party pharmaceutical receivables to a bankruptcy remote Special Purpose Entity (SPE) and retains servicing responsibility. The assets of the SPE are not available to satisfy the creditors of any other person, including any of our affiliates. These agreements provide for us to sell, and for the SPE to purchase these receivables, and for the SPE to borrow funds secured by these receivables of up to \$400.0 million. The amount of receivables funded at any one time is dependent upon a formula that takes into account such factors as default history, obligor concentrations and potential dilution. Adjustments to this amount can occur on a weekly basis. At November 27, 2004, proceeds from

26

the sale of receivables to the SPE totaled \$335.0 million. At November 27, 2004, we retained an interest in the third party pharmaceutical receivables in the form of overcollateralization of \$225.9 million, which is included in accounts receivable, net, on the consolidated balance sheet at allocated cost, which approximates fair value. The proceeds from collections reinvested in securitizations amounted to \$1.481 billion in the thirteen and thirty-nine week periods ended November 27, 2004.

Proceeds from the initial sale of the receivables were used to repay outstanding amounts under the existing senior secured credit facility. Any additional proceeds will be used to fund operations. We paid one-time arrangement and marketing fees of \$2.4 million at the closing date, which are recorded as a loss on debt modification. We must pay an ongoing program fee of approximately LIBOR plus 1.125% on the amount sold to the SPE under the securitization agreements and must pay a liquidity fee of 0.375% on the daily unused amount under the securitization agreements. The program and liquidity fees are recorded as a component of selling, general and administrative expenses. Rite Aid Corporation guarantees certain performance obligations of its affiliates under the securitization agreements, but does

not guarantee the collectibility of the receivables and obligor creditworthiness.

The vehicles that make loans to the SPE have a commitment to lend that ends September 2005 with the option to annually extend the commitment to purchase. Should any of the vehicles fail to renew their commitment, we have access to a backstop credit facility, which is backed by the entities that make loans to the SPE's. The backstop facility is committed through September 2007.

We believe that the transaction meets the criteria for sales treatment in accordance with SFAS No. 140 "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities". Additionally, we believe that consolidation is not appropriate in accordance with FIN 46R, "Consolidation of Variable Interest Entities".

Sale Leaseback Transactions

On October 1, 2004, we sold the land and buildings on 21 owned stores to a third party. Proceeds from this sale were \$53.8 million. We entered into an agreement to lease these stores back from the purchaser over a minimum lease term of 20 years. The leases are being accounted for as operating leases. A gain on the transaction of \$3.8 million has been deferred and is being recorded over the minimum lease term. A loss of \$1.5 million, which relates to certain stores in the transaction portfolio, was recorded as a loss on sale of fixed assets in the thirteen week period ended November 27, 2004. Future scheduled minimum payments under these leases, for the remainder of fiscal 2005 and the succeeding four fiscal years are as follows: 2005; \$1.1 million, 2006; \$4.5 million, 2007; \$4.5 million, 2008; \$4.5 million, 2009; \$4.5 million, and \$76.0 million in 2010 and thereafter.

On December 15, 2004, we sold the land and buildings on 14 owned stores to an outside entity. Proceeds from this sale were \$37.5 million. We entered into an agreement to lease these stores back from the purchaser over a minimum lease term of 20 years. The leases are being accounted for as operating leases. We expect to defer a gain of \$10.7 million over the minimum lease term, and record a loss of \$0.2 million as a loss on sale of fixed assets in the thirteen week period ending February 26, 2005. Future scheduled lease payments under these leases, for the remainder of fiscal 2005 and the succeeding four fiscal years, are as follows: 2005 – \$0.6 million; 2006 – \$3.1 million; 2007 – \$3.1 million; 2008 – \$3.1 million; 2009 – \$3.1 million and \$52.3 million in 2010 and thereafter.

Other Transactions

During the thirty-nine week period ended November 27, 2004, we made open market purchases of the following securities (in thousands):

27

	Principal Amount Redeemed	Amount Paid	Gain / (loss)
Debt Redeemed			
7.625% notes due 2005	\$27,500	\$28,275	\$ (795)
7.125% notes due 2007	26,000	26,548	(605)
6.875% fixed rate senior notes due 2028	12,000	9,660	2,191
Total	\$65,500	\$64,483	\$ 791

The gain on the transactions listed above is recorded as part of the loss on debt modifications in the accompanying statement of operations for the thirty-nine week period ended November 27, 2004.

During the thirty-nine week period ended November 29, 2003, we replaced our senior secured credit facility due March 2005 with a new senior secured credit facility due April 2008. As a result of the placement of this facility, we recorded a loss on debt modification in the thirty-nine week period ended November 29, 2003 of \$43.2 million.

During the thirty-nine week period ended November 29, 2003, we made open market purchases of the following securities (in thousands):

	Principal		Gain / (loss)
	Amount Redeemed	Amount Paid	
Debt Redeemed			
6.0% fixed rate senior notes due 2005	\$ 37,848	\$ 36,853	\$ 865
7.125% notes due 2007	124,926	120,216	4,314
6.875% senior debentures due 2013	15,227	13,144	1,981
7.7% notes due 2027	5,000	4,219	715
6.875% fixed rate senior notes due 2028	10,000	7,975	1,895
12.5% senior secured notes due 2006	10,000	11,275	(1,888)
Total	\$203,001	\$193,682	\$ 7,882

The net gain on the transactions listed above is recorded as part of the "loss on debt modifications" in the accompanying statement of operations for the thirty-nine week period ended November 29, 2003.

Other

As of November 27, 2004, we had no material off balance sheet arrangements, other than the receivables securitization agreements described above. Our contractual obligations and commitments, which consist primarily of debt, capital and operating leases, open purchase orders, lease guarantees, and outstanding letters of credit have not changed materially from the amounts disclosed in our Fiscal 2004 10-K/A.

Net Cash Provided by/Used in Operating, Investing and Financing Activities

Our operating activities provided \$523.9 million of cash in the thirty-nine week period ended November 27, 2004 and \$100.3 million of cash in the thirty-nine week period ended November 29, 2003. Operating cash flow for the thirty-nine week period ended November 27, 2004 was positively impacted by improved operating results and proceeds of \$335.0 million from the sale of certain of our third party receivables, partially offset by \$191.2 million of interest payments and an increase in inventory due to holiday season purchases. Operating cash flow for the thirty-nine week period ended November 29, 2003 was positively impacted by improved operating results and an increase in accounts payable related to the increase in inventory, which was partially offset by \$201.9 million of interest payments and increases in accounts receivable due to increased pharmacy sales and inventory, due to holiday season purchases.

Cash used in investing activities was \$81.7 million for the thirty-nine week period ended November 27, 2004, due primarily to expenditures for property, plant and equipment as well as intangible assets, offset by proceeds from our sale leaseback transaction and other asset dispositions. Cash used in investing activities was \$192.5 million for the thirty-nine week period ended November 29, 2003, due primarily to the purchase of land and buildings at our Perryman, MD and Lancaster, CA distribution centers, which

had previously been held under a synthetic lease arrangement. Also impacting cash used in investing activities were expenditures for property, plant and equipment and intangible assets, offset by other asset dispositions.

Cash used in financing activities was \$681.2 million for the thirty-nine week period ended November 27, 2004, due to the restructuring of our credit facility and early redemption of several bonds. Cash provided by financing activities was \$1.3 million for the thirty-nine week period ended November 29, 2003. Cash provided by financing activities in the thirty-nine week period ended November 29, 2003 was positively impacted by proceeds from bond issuances, offset by the change in our credit facility and the repurchase of several bonds.

Capital Expenditures

During the thirty-nine week period ended November 27, 2004, we spent \$141.6 million on capital expenditures, consisting of \$74.7 million related to new store construction, store relocation and other store construction projects. An additional \$66.9 million was related to other store improvement activities and the purchase of prescription files from independent pharmacists. We plan to make total capital expenditures of approximately \$225 to \$250 million during fiscal 2005. These expenditures consist of approximately \$105 to \$120 million related to new store construction, store relocation and store remodel projects, \$85 to \$90 million dedicated to technology enhancements, improvements to distribution centers and other corporate requirements, and \$35 to \$40 million dedicated to the purchase of prescription files from independent pharmacies. Management expects that these capital expenditures will be financed primarily with cash flow from operations.

During the thirty-nine week period ended November 29, 2003, we spent \$210.0 million on capital expenditures, consisting of \$106.9 million related to the purchase of land and buildings at our Perryman, MD and Lancaster, CA distribution centers, which had previously been held under a synthetic lease arrangement, \$48.3 million related to new store construction, store relocation and other store construction projects and \$54.8 million related to other store improvement activities and the purchase of prescription files from independent pharmacists.

Future Liquidity

We are highly leveraged. Our high level of indebtedness: (i) limits our ability to obtain additional financing; (ii) limits our flexibility in planning for, or reacting to, changes in our business and the industry; (iii) places us at a competitive disadvantage relative to our competitors with less debt; (iv) renders us more vulnerable to general adverse economic and industry conditions; and (v) requires us to dedicate a substantial portion of our cash flow to service our debt. Based upon current levels of operations and planned improvements in our operating performance, management believes that cash flow from operations together with available borrowing under the new senior secured credit facility and other sources of liquidity will be adequate to meet our anticipated annual requirements for working capital, debt service and capital expenditures through the end of fiscal 2006. We will continue to assess our liquidity position and potential sources of supplemental liquidity in light of our operating performance and other relevant circumstances. Should we determine, at any time, that it is necessary to seek additional short-term liquidity, we will evaluate our alternatives and take appropriate steps to obtain sufficient additional funds. The restrictions on the incurrence of additional indebtedness in our new senior secured credit facility and several of our bond indentures may limit our ability to obtain additional funds. There can be no assurance that any such supplemental funding, if sought, could be obtained or, if available, would be on terms acceptable to us.

Factors Affecting Our Future Prospects

For a discussion of risks related to our financial condition, operations and industry, refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations Overview" and "Factors Affecting our Future

Prospects" included in our Annual Report on Form 10-K/A for the fiscal year ended February 28, 2004.

29

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Our future earnings, cash flow and fair values relevant to financial instruments are dependent upon prevalent market rates. Market risk is the risk of loss from adverse changes in market prices and interest rates. The major market risk exposure is changing interest rates. Increases in interest rates would increase our interest expense. Since the end of fiscal 2004, our primary risk exposure has not changed. We enter into debt obligations to support capital expenditures, acquisitions, working capital needs and general corporate purposes. Our policy is to manage interest rates through the use of a combination of variable-rate credit facilities, fixed-rate long-term obligations and derivative transactions.

The table below provides information about our financial instruments that are sensitive to changes in interest rates. The table presents principal payments and the related weighted average interest rates by expected maturity dates as of November 27, 2004.

	2005	2006	2007	2008	2009	Thereafter	Total	Fair Value at November 27, 2004
	(dollars in thousands)							
Long-term debt, including current portion								
Fixed rate	\$ 207	\$ 208,917	\$ 570,677	\$ 870	\$ 300,091	\$ 1,412,618	\$ 2,493,380	\$ 2,495,150
Weighted Average Interest Rate	8.00%	7.33%	7.50%	8.00%	8.69%	8.20%	8.03%	
Variable Rate	\$ 1,125	\$ 5,625	\$ 4,500	\$ 4,500	\$ 4,500	\$ 528,750	\$ 549,000	\$ 549,000
Weighted Average Interest Rate	3.75%	3.75%	3.75%	3.75%	3.75%	3.86%	3.86%	

As of November 27, 2004, 17.1% of our total debt, the debt outstanding under our senior secured credit facility, is exposed to fluctuations in variable interest rates. The interest rate on the variable rate borrowings on our senior secured credit facility as of November 27, 2004 is LIBOR plus 1.75% for the term loan and the revolving credit facility.

Our ability to satisfy interest payment obligations on our outstanding debt will depend largely on our future performance, which, in turn, is subject to prevailing economic conditions and to financial, business and other factors beyond our control. If we do not have sufficient cash flow to service our interest payment obligations on our outstanding indebtedness and if we cannot borrow or obtain equity financing to satisfy those obligations, our business and results of operations will be materially adversely affected. We cannot assure you that any such borrowing or equity financing could be successfully completed.

As of November 27, 2004, the corporate rating is B+ by Standard & Poor's.

ITEM 4. Controls and Procedures

Disclosure Controls and Procedures. On February 7, 2005, a letter was issued by the Office of the Chief Accountant of the SEC to the American Institute of Certified Public Accountants that clarified the application of GAAP for lease accounting. The SEC letter led to a review of our lease-related accounting practices. As a result of our review, we have determined that our previous methods of accounting for straight-line rent expense and the related deferred rent liability and leasehold improvement depreciation for a small number of stores were not in conformity with GAAP.

On March 17, 2005, our management and audit committee determined to restate our financial statements for each of the three years in the period ended February 28, 2004 and for the first three quarters of fiscal 2005 and to file a Form 10-K/A amending our Annual Report on Form 10-K for our fiscal year ended February 28, 2004 with restated consolidated financial statements and Forms 10-Q/A amending our interim condensed consolidated financial statements for the first three quarters of fiscal 2005. The restatement is further discussed in "Explanatory Note" in the forepart of this Form 10-Q/A, and in Note 12, "Restatement of Financial Statements," to the accompanying condensed consolidated financial statements.

In connection with the restatement referred to above, our management, including our Chief Executive Officer and Chief Financial Officer, re-evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report

30

(November 27, 2004). Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this Form 10-Q/A, our disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, the information relating to us required to be disclosed by us in the reports that we file or submit under the Exchange Act and are effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

In concluding that our disclosure controls and procedures were effective as of November 27, 2004, our management considered, among other things, the circumstances that resulted in the restatement of our previously issued financial statements. We also considered the materiality of the restatement adjustments on our consolidated balance sheet and statement of operations (as more fully set forth in Note 12, "Restatement of Financial Statements," to the accompanying condensed consolidated financial statements) and that these non-cash adjustments have no effect on historical or future cash flows or the timing of payments under our operating leases.

Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
