Table of Contents

the annual meeting. If your shares of Audiovox Class A Common Stock are held by a broker, bank or other nominee, you will receive instruction from them on how to vote your shares. Abstentions and broker non-votes are treated as present at the meeting and are therefore counted to determine a quorum. The annual meeting may be adjourned by a majority of the votes cast upon the question, whether or not a quorum is present. If a quorum is not present, the Chairman of the meeting may adjourn the meeting to another place, date or time, without notice other than announcement at the meeting. At any adjourned meeting, any business may be transacted that might have been transacted at the annual meeting as originally notified.

If you hold shares of Audiovox Class A Common Stock in your own name, you may give instructions on how your shares are to be voted by following the telephone or internet voting procedures described on the proxy card, or, if you received a printed copy of the proxy materials, by marking, signing, dating, and returning the enclosed proxy card in the accompanying postage paid envelope.

A proxy, when properly completed and not revoked, will be voted in accordance with its instructions. If no voting instructions on a particular matter are given on a properly submitted and unrevoked proxy, the shares represented by the proxy will be voted on that particular matter as follows:

• FOR the election as directors of the seven nominees named in this proxy statement under the caption “Nominees for Election as Directors”;

• FOR the ratification of the appointment by the Audit Committee of Grant Thornton LLP as the Company’s Independent Registered Public Accounting Firm for the fiscal year ending February 28, 2009.

Vote Required

At the close of business on June 6, 2008, there were 20,593,660 outstanding shares of our Class A common stock, par value \$.01 per share, and 2,260,954 outstanding shares of our Class B common stock, par value \$.01 per share. At the annual meeting, each share of Class A common stock is entitled to one vote (whether in person or by proxy or pursuant to a shareholders’ consent) and each share of Class B common stock is entitled to ten votes (whether in person or by proxy or pursuant to a shareholders’ consent).

Class A directors are elected by a plurality of the votes of the Class A shares present in person or represented by proxy at the annual meeting and entitled to vote on the election of directors. The joint directors are elected by the Class A and Class B shareholders voting together. The ratification of the appointment of the independent registered public accounting firm must be approved by holders of a majority of the shares of common stock present in person or represented by proxy at the annual meeting and entitled to vote thereon.

Mr. John J. Shalam, our Chairman of the Board, controls in excess of 50% of all outstanding votes and he intends to vote his shares to approve all of the matters to be voted upon at the meeting that are described in this proxy statement.

Board Recommendation

The board of directors recommends that an affirmative vote be cast in favor of each of the proposals listed in the proxy card and described in this proxy statement.

Voting Your Shares

Your proxy may be revoked at any time before it is voted at the annual meeting by giving notice of revocation to us, in writing, by execution of a later dated proxy or by attending and voting at the annual meeting. PROPOSAL TWO

RATIFICATION OF GRANT THORNTON LLP AS THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The board of directors proposes that shareholders ratify the appointment by the Audit Committee of Grant Thornton LLP, as the independent registered public accounting firm for the fiscal year ending February 28, 2009. One or more representatives of Grant Thornton will be present at the annual meeting of shareholders, will have an opportunity to make a statement if he or she desires to do so and will be available to respond to appropriate questions.

The Audit Committee has appointed the firm of Grant Thornton LLP to serve as our independent registered public accounting firm for the fiscal year ending February 28, 2009, subject to ratification of this appointment by the shareholders of the Company. Grant Thornton has audited the Company's financial statements since fiscal 2003 and is considered by management of the Company to be well qualified. The firm has advised the Company that neither it nor any of its members has any direct or material indirect financial interest in the Company.

Principal Accounting Fees and Services

For the fiscal years ended February 29, 2008 and February 28, 2007, the Company paid or accrued the following fees to Grant Thornton LLP (and its affiliates) for services rendered during the year or for the audit in respect of that year:

Type	2/29/08	2/28/07	(In Thousands)	Audit Fees (1)	\$ 1,703	\$ 2,499	Audit-Related Fees (2)	220	Fee
249 Tax Fees (3)	50	86	All Other Fees	—	—	Total	\$ 1,973	\$ 2,834	

(1) Audit

Fees comprise fees for professional services necessary to perform an audit or review in accordance with the standards of the Public Company Accounting Oversight Board, including services rendered for the audit of the Company's annual financial statements (including services incurred with rendering an opinion under Section 404 of the Sarbanes-Oxley Act of 2002) and review of quarterly financial statements. It also includes fees for statutory audits of our international subsidiaries for the respective fiscal years. For the period ended February 28, 2007, audit fees include the audit for the transitional period ended February 28, 2006 in connection with the Company's change in year end. (2) Audit-Related Fees comprise fees for services that reasonably relate to the performance of the audit or review of the Company's financial statements including the support of business acquisitions and the audit of the Company's employee benefit plans. (3) Tax Fees comprise fees for tax compliance, tax planning and tax advice.

The Audit Committee of the Board of Directors has considered whether the provision of non-audit services by Grant Thornton LLP is compatible with maintaining auditor independence. In 2003, the Audit Committee adopted a policy concerning approval of audit and non-audit services to be provided. The policy requires that all services Grant Thornton LLP may provide to the Company, including audit services and permitted audit-related and non-audit services, be pre-approved by the Audit Committee. The Chairman of the Audit Committee may approve certain permitted non-audit services in between Committee meetings, which services are subsequently reported to and approved by the Audit Committee. In addition, for particular permitted services, the Chief Financial Officer may approve the engagement of Grant Thornton LLP provided such engagement will amount to fees of less than \$50,000 and such engagement is reported to the Chairman of the Committee and reported to and ratified by the Committee at its next meeting.

Table of Contents

All of the services for Audit and Audit-Related Fees, Tax Fees and All Other Fees referenced above were approved by the Audit Committee pursuant to Rule 2-01(c)(7)(i)(C) of Regulation S-X under the Securities Act of 1933, as amended.

Pre-Approval of Audit and Non-Audit Services

Approval by the shareholders of the appointment of the independent registered public accounting firm is not required, but the board believes that it is desirable to submit this matter to the shareholders. If holders of a majority of our common stock present and entitled to vote on the matter do not approve the selection of Grant Thornton LLP, as our independent registered public accounting firm at the annual meeting, the selection of independent accountants will be reconsidered by the Audit Committee. Abstentions will be considered a vote against this proposal and broker non-votes will have no effect on such matter since these votes will not be considered present and entitled to vote for this purpose.

The Audit Committee considered the compatibility of the non-audit services provided to us by Grant Thornton LLP in fiscal 2008 with the independence of Grant Thornton LLP from us in evaluating whether to appoint Grant Thornton LLP to perform the audit of our financial statements and internal controls for the fiscal year ending February 28, 2009.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE ‘FOR’ THE RATIFICATION OF THE APPOINTMENT OF GRANT THORNTON LLP, AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING FEBRUARY 28, 2009.

The aforementioned Code of Conduct and Whistleblower policy aids management in preventing and identifying possible fraudulent acts within the Company. The Company's Code of Business Conduct and Ethics for Officers and Directors (the "Code of Ethics") prohibits our directors, named executive officers ("NEO's"), other officers and key accounting and finance personnel from buying or selling our common stock for at least three business days after material nonpublic information is released to the public or fifteen days prior to the end of each fiscal quarter through three days after the Company's quarterly and annual earnings release. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis (“CDA”) describes our compensation philosophy, policies and practices with respect to our Principal Executive Officer (“PEO”), Principal Financial Officer (“PFO”) and the other individuals named in the “Summary Compensation Table” below, who are collectively referred to as the Named Executive Officers (“NEO”) for the fiscal year ended February 29, 2008. It includes information regarding the Company’s overall compensation objectives and each element of compensation that we provide.

The principal elements of our executive compensation programs are base salary, annual performance based cash bonuses, short-term and long-term equity incentive awards in the form of stock options, a deferred compensation program, supplemental executive term life insurance and disability plans, certain perquisites and other benefits such as a 401(K) and Profit Sharing Plan with employer matching contributions, a Cash Bonus Profit Sharing Plan and health and welfare plans that are generally available to all of our salaried employees. The Company’s objective is that the total compensation paid to executive officers and other employees should be competitive with the compensation provided to other persons with similar levels of responsibility at companies of similar size, complexity, revenue and growth potential. The Company’s executive compensation practices recognize the caliber, level of experience and performance of management and include meaningful incentives to maximize long term shareholder value while achieving the Company’s short term financial objectives.

The Compensation Committee, which we refer to in this discussion as the “Committee”, is comprised entirely of independent directors in accordance with Nasdaq rules. The Committee has the responsibility for establishing, implementing and monitoring adherence to the Company’s executive compensation policies and practices. The Committee reviews and approves compensation for the Company’s PEO, PFO, other NEO’s and directors, subject to Board of Director approval, and oversees and administers the Company’s stock option plan and restricted stock plans. The Committee also approves equity awards and non-equity awards for all employees. Periodically, the Committee reviews relevant competitive data provided by third party compensation professionals, the internal human resource department and the observations and recommendations of the Company’s executive management. In addition, the PEO submits recommended compensation levels for other executive officers of the Company to the Committee for its review and approval. The Committee has the discretion to modify any compensation recommendations by management. The Committee’s responsibilities are further defined in the Committee’s charter.

The Role of Company Executives in the Compensation Process

Although the compensation process is managed and directed by, and decisions are made by, the Committee, the recommendations of certain Company executive officers are taken into account in connection with setting the compensation of other executive officers. As described above, the PEO makes initial recommendations with respect to executive officers other than himself. Executive officers also participate in the preparation of materials requested by the Committee for use and consideration at the Compensation Committee meetings.

Compensation Philosophy and Policies

The Committee has designed the Company’s compensation program to promote individual performance and to be competitive with market practices in order to attract, retain, and motivate talented individuals in the consumer electronics industry, taking into account relative size, performance and geographic location as well as individual responsibilities and performance. The Company’s compensation program also seeks to hold our executives accountable

and reward them appropriately for the success of the Company. Accordingly, the Committee strives to create an executive compensation program that is competitive as well as reflective of Company-wide strategic objectives and individual performance.

10

Table of Contents

The Committee recognizes that certain elements of compensation are better suited to achieving different compensation objectives. The Committee believes that: (i) base salaries, which are based on market practices of similar companies, are designed to attract and retain our executives; (ii) bonuses are designed to motivate our executives to achieve specific corporate and personal performance goals and to share in the Company profits; (iii) equity incentive awards are designed to align the interest of our executive officers and shareholders by (a) motivating and rewarding the executive officer when shareholder value increases and (b) reward the executive officer for continued future service; (iv) deferred compensation plans are designed to provide our executives with supplemental retirement benefits by permitting the deferral of additional salary and bonuses with a limited employer matching contribution; (v) supplemental executive term life insurance and disability plans are designed to provide our executives and their families with supplemental benefits in accordance with market practices, and; (vi) other elements of compensation are primarily based on market practices.

The Committee's philosophy for other benefits, such as general retirement and health and welfare benefits, is to make these benefits available to employees on a non-discriminatory basis. The Company's compensation philosophy is designed to structure its compensation policy so that executive compensation is dependent on the achievement of corporate objectives and on the long-term increases in shareholder value.

The Company's executive compensation programs are designed to achieve the following objectives:

total compensation package that is competitive with the compensation levels and practices of peer companies;

- Offer a
- Motivate and
- Align a portion

reward executives whose performance is important to the Company's continued growth, profitability and success;

The Company engaged performance compensation consultants Sibson and Company in the past to assist the Committee in reviewing the compensation programs for its executive officers and other officers of the Company. Sibson provided the Committee with relevant market data and alternatives to consider when making compensation decisions regarding the PEO, PFO and the Company's other executives. Sibson's review encompassed total compensation components, peer compensation levels and the link between cash incentive compensation, plan results and Company performance. Sibson also prepared a presentation of executive compensation trends and developments to the Company's Board of Directors. One of Sibson's recommendations was to continue to utilize stock-based compensation, profit sharing and other forms of equity and non-equity awards to motivate and retain its executives.

Principal Elements of our Executive Compensation Programs

This section describes the various elements of our compensation programs for our NEOs, with a discussion of the Committee's reasons for including a particular item in the compensation program. The Company's executive

compensation program has five principal components that are discussed below.

Executive Base Salary

The Company provides our NEOs and other employees with a base salary to compensate them for services rendered during the fiscal year. Annual base salary ranges are determined for each

11

Table of Contents

executive, on a case-by-case basis, based on the position, the individual level of responsibility and performance, and the unique value and historical contributions made to the Company's success. The Committee reviews salaries each year as part of the Company's annual performance review process as well as upon a promotion or other change in job responsibility. In addition, the base salaries of our NEO's and other employees are periodically reviewed and measured against market data provided by outside consultants and the Company's internal human resources group. The Committee reviews base salary recommendations from the PEO for our other executive officers other than the PEO. Based upon this review process, the Committee approves base salaries for our executive officers. The Committee believes that the base salaries for our executive officers are based on levels commensurate with competitive amounts paid to executives with comparable qualifications at companies engaged in similar businesses or in the same region and of similar size.

In January 2008, our PEO put into place a broad overhead reduction plan across all internal departments for the remainder of fiscal 2008 and continuing into fiscal 2009. One component of this overhead reduction plan is a temporary mandated 10% reduction in base salary of our Senior Vice Presidents and above. Accordingly, these base salary reductions are reflected in the Salary column in the Fiscal 2008 Summary Compensation Table.

Executive Incentive Bonus Plan

Executive bonuses are used to motivate individuals and to reward our executives for the achievement of the Company's financial objectives and their individual performance goals. Bonus formulas are approved by the Committee at the beginning of the fiscal year and are paid on an annual basis after the completion of the fiscal bonus year. Under our bonus programs, the Chairman of the Board and the Chief Financial Officer's bonuses are based upon the Company's pre-tax earnings, except for extraordinary items.

For fiscal 2008, Mr. Shalam's bonus was 3% or \$330,375 of consolidated pre-tax earnings of the Company and Mr. Stoehr's bonus was .75% or \$80,533 of consolidated pre-tax earnings. The Chief Executive Officer's bonus was determined by attainment of targeted pre-tax earnings of the Company for fiscal 2008 (see Section on Employment Agreements for further discussion). As the Company earned pre-tax profits in excess of \$10,000,000, the first and second pre-tax bonus targets were met. Accordingly, the CEO received a bonus of \$500,000 for fiscal 2008.

For fiscal 2008, Mr. Malone's bonus was determined by multiplying the return on sales percentage by the pre-tax income of Audiovox Electronics Corp. The return on sales percent was capped at five (5%) percent with a guaranteed minimum annual aggregate salary and bonus of \$425,000. For fiscal 2008, Mr. Malone earned a bonus of \$196,667.

Mrs. Shelton's bonus is determined by the achievement of individual performance goals at 10% of base salary (as determined by the PEO), plus 10% of base salary upon the achievement of consolidated pre-tax earnings of \$9,000,000, plus \$10,000 upon the achievement of consolidated pre-tax earnings of \$10,000,000, and a percentage of 10% of base salary equal to the percentage for which consolidated pre-tax earnings, as adjusted, exceeds \$9,000,000. For fiscal 2008, Mrs. Shelton earned a bonus of \$74,546.

Other executive officers' bonuses are based on a target of 20% of the executive's base salary. The Committee based 50% of the executive officers' bonus on the achievement of corporate profitability targets during the fiscal year and 50% of the bonus was based on achievement of individual performance targets. The Committee believes that incentive cash bonuses should have an individual component that an executive directly contributes to and a corporate component that an executive indirectly contributes to. Individual performance objectives are determined by the executive officer to which the potential bonus recipient reports. At times, the Committee will approve additional discretionary cash bonus awards that the PEO recommends for certain executives based on individual performance

levels that exceed expectations or for the successful completion of special strategic projects or events. During fiscal 2008, the other executive officers' bonuses were paid at 75% of the targeted bonus.

Table of Contents

The Committee also reviews the unique circumstances involved in the recruitment of the Company's executive officers and will approve the payment of hiring bonuses if, in the judgment of the Committee, such payments are necessary to successfully recruit certain executives.

Executive Stock Based Compensation Awards

The Company's Stock Based Compensation Incentive Plan (the "Stock Based Incentive Plan") encourages participants to focus on long-term Company performance and provides an opportunity for our executives and designated key employees to increase their ownership in the Company through grants of the Company's common stock or grants of stock options. The Stock Based Incentive Plan provides for restricted stock grants and option grants to executive officers, employees and outside directors. The purposes of the Company's Stock Based Incentive Plan is to provide additional incentive to our executives, directors, and other employees whose substantial contributions are essential to the continued growth and success of the Company's business. Grants of stock or options are designed to strengthen their commitment to the Company, to motivate such persons to faithfully and diligently perform their responsibilities and to attract and retain competent and dedicated individuals whose efforts will result in the long-term growth and profitability of the Company. Additionally, the purpose of the Stock Based Incentive Plan is to secure for the Company and its shareholders the benefits of the incentive inherent in increased common stock ownership by our executives and the members of the Board who are not employees of the Company who drive, direct and execute the Company's strategic objectives.

The Committee administers the Company's Stock Based Incentive Plan for our executive officers, employees, and outside directors. Stock based compensation is primarily composed of stock option grants and is intended to focus our executives on creating long-term stockholder value. The Committee will periodically grant stock options to executives who are responsible for designing and implementing the Company's long-range strategic plan. At its discretion, the Committee also grants options based on individual and corporate achievements. Under these plans, the Committee grants options to purchase common stock, with an exercise price equal to or above the fair market value of the common stock on the date of grant. The Committee believes that providing stock options to the executive officers, who are responsible for the Company's management and growth, gives them an opportunity to own the Company's stock and better aligns their interests with the interests of our shareholders. The Plan also promotes the retention of our executives due to the vesting provisions of the option grant and the potential upside for stock price appreciation. Recent option grants vest over a pre-determined period and expire two or three years from grant date.

The Committee approves grants made to the CEO, CFO, directors and other executive officers and, in certain cases, recommends grants to the entire Board for its approval. The Committee determines the number of shares underlying each stock option grant based upon the executive level and years of service, the Company's performance and the executives' individual roles and responsibilities. As discussed above, the Company typically reviews salaries, bonuses, other benefits and stock option grants on an annual basis. This process typically begins during the fourth quarter and is completed before the fiscal year end or shortly thereafter. The Committee determined that options would typically be granted annually in each fiscal year. In addition, in the event that an executive officer or a designated key employee is hired during the year, the Committee may make a discretionary grant at the commencement of employment.

For these reasons, the Committee considers stock options as an important element of compensation when it reviews our executive officer compensation programs.

Executive Deferred Compensation Plan

The Company has a nonqualified Deferred Compensation Plan (the “Deferred Compensation Plan”) for a select group of executives, including the NEO’s. The Plan is intended to provide certain executives the ability to defer additional salary and bonuses, in addition to those amounts that are permitted to be deferred under the Company’s 401(K) and Profit Sharing Plan. The Deferred Compensation Plan provides for an employer matching contribution equal to 25% of the employee

13

Table of Contents

deferrals up to \$20,000 or a maximum employer matching contribution of \$5,000 per year, which vests immediately. Except for Mr. Lavelle's compensation arrangement, the Company is under no obligation to set aside any additional funds for the purpose of making payments under the Plan. In accordance with Mr. Lavelle's fiscal 2008 compensation arrangement, the Company is required to contribute \$250,000 annually into a separate deferred compensation account (the "Lavelle Account") on his behalf and benefit. The employer contributions into this account are invested by the Company in certain mutual funds. All earning and losses are allocated directly to this account and all employer contributions and earnings thereon vest immediately. Contributions and earnings and the total account balance on this account as of the end of the 2008 fiscal year are shown in the Nonqualified Deferred Compensation table for Mr. Lavelle on page 20 of this proxy statement.

The Deferred Compensation Plan is not intended to be a qualified plan under the provisions of the Internal Revenue Code. All compensation deferred under the Plan is held by the Company in a "Rabbi" investment trust and invested by the participant among a number of mutual funds. Earnings and losses are allocated to the participant's individual account. Company contributions are vested immediately. The Committee has the option of amending or terminating the Plan at any time. Contributions and earnings on those contributions and total account balances as of the end of the 2008 fiscal year are shown for our NEO's in the Nonqualified Deferred Compensation table on page 20 of this proxy statement.

Perquisites and Other Benefits

Our executives are eligible to participate in all of our employee benefit plans, such as medical, dental, group life and disability insurance plans, our 401(K) and profit sharing plan, the Cash Bonus Profit Sharing Plan, in each case on the same basis as our other employees, except for the Employee Stock Purchase Plan (this Plan was terminated on February 29, 2008) for which our NEO's are not permitted to participate. In addition, certain executives, including our NEO's, receive additional benefits, including supplemental life insurance, supplemental short-term and long-term disability benefits, car allowances or mileage reimbursements, and reimbursement of business related expenses.

Tax and Accounting Implications of the Executive Compensation Program

It is the Committee's goal that the Company's executive compensation programs maximize the benefit of tax laws and accounting requirements, while meeting the Company's compensation policies and objectives. Section 162(m) of the Internal Revenue Code imposes a \$1 million limit on the amount that a public company may deduct for compensation paid to the Company's CEO or other NEO's. This limitation does not apply to compensation that meets the requirements under Section 162(m) for "qualified performance based" compensation. The Committee believes it is desirable and in the Company's best interest to deduct compensation payable to our executive officers. Accordingly, the Committee considers the anticipated tax treatment to our Company and our executive officers in the review and establishment of compensation programs and payments. The Committee will continue to monitor the executive compensation programs to preserve the related Federal income tax deductions.

The Board and the Compensation Committee reserve the authority to award non-deductible compensation in other circumstances as they deem appropriate. Further, because of ambiguities and uncertainties as to the application and interpretation of Section 162(m) and the regulations issued thereunder, no assurance can be given, notwithstanding the Company's efforts, that compensation intended by the Company to satisfy the requirements for deductibility under Section 162(m) does in fact do so.

We adopted Statement of Financial Accounting Standards No. 123R ("SFAS No. 123R") effective December 1, 2005. In determining equity compensation awards for fiscal 2008, we generally considered the potential expense of our

compensation awards under SFAS No. 123R and the impact on earnings per share. We concluded that the award levels are in the best interests of our shareholders given competitive compensation practices among our peer companies, the awards' potential expense, our performance and the impact of the awards on executive motivation and retention.

Severance and Termination Benefits

With the exception of Mr. Lavelle's Employment Agreement (as defined below), we do not have a formal written severance plan or severance agreement with any executive, including our NEOs. However, we have in the past and may in the future provide severance benefits to our executives on a case-by-case basis, after taking into consideration the reason for termination and other factors present at the time of separation. The Company does not have any formal written agreements with any of our executives as it relates to change in control benefits or payments, except for an agreement with Mr. Gordon that provided for a one-time payment of one year base salary if there had been a change in control on or before December 22, 2007. However, the Committee reserves the right to enter into such arrangements with our NEOs.

Employment Agreements

On June 11, 2007 the Company's Board of Directors authorized and approved a three-year employment contract effective March 1, 2007 with Mr. Patrick M. Lavelle (the "Employment Agreement"). A copy of the Employment Agreement was filed as Exhibit 10 to the Company's Current Report on Form 8-K filed on June 15, 2007 with the Securities and Exchange Commission.

The Employment Agreement will be automatically renewed for successive one year periods unless either party notifies the other of his or its intention not to renew the agreement not less than one hundred eighty (180) days prior to the expiration of the initial or any renewal term, as the case may be.

During the term of the agreement the Company will pay Mr. Lavelle an annual base salary of Seven Hundred Fifty Thousand Dollars (\$750,000.00) per annum. Pursuant to the agreement, Mr. Lavelle, effective as of the first fiscal year the Company achieves any year-end pre-tax profit, and for each fiscal year thereafter during the employment period, shall have credited to the Lavelle Account Two Hundred Fifty Thousand Dollars (\$250,000.00) for Mr. Lavelle's benefit, which sum shall be in addition to any other amounts that the Company may be required to pay for Mr. Lavelle's benefit under any deferred compensation plan established for the benefit of Mr. Lavelle and/or any other key executives of the Company.

In addition, the Company will pay Mr. Lavelle an annual bonus of Two Hundred Fifty Thousand Dollars (\$250,000.00) for each and every Five Million Dollars (\$5,000,000.00) of pre-tax profit earned by the Company above \$5,000,000 during the fiscal year. In addition, the agreement provides for an annual discretionary merit based bonus, at the sole discretion of the Board, based on the Company's performance.

In the event of the termination of Mr. Lavelle's employment, by the Company with or without cause, by Mr. Lavelle with or without good reason or by virtue of Mr. Lavelle's death or disability, Mr. Lavelle will be entitled to certain payments, continuation of benefits and vesting of stock based compensation depending on the reason for termination as more specifically set forth in the Employment Agreement.

Mr. Lavelle is subject to a confidentiality restriction during his employment and thereafter, and to non-compete, non-solicitation and non-disparagement restrictions during his employment and for 24 months following termination.

The above is a summary of the terms of the Employment Agreement and is qualified in its entirety by reference to the Employment Agreement.

401(k) and Profit Sharing Plan

The Company has a 401(k) plan for eligible employees. The Company matches a portion of the participant's contributions in the amount of 50% of elective deferrals up to a maximum of 6% of eligible compensation after three months of service. Shares of the Company's Common Stock are not an investment option in the Savings Plan and the Company does not use such shares to match participants' contributions.

15

Table of Contents

The Company also has a Profit Sharing Plan that allows the Company to make a discretionary profit sharing contribution for the benefit of participating employees, including the NEO's, for any fiscal year in an amount determined by the Board of Directors. Whether or not the Board of Directors makes a discretionary contribution, the size of the contribution is dependent upon the performance of the Company. A participant's share of the discretionary contribution is determined pursuant to the participant's eligible wages for the fiscal year as a percentage of eligible wages for all participants for the fiscal year. During fiscal 2008, the Board did not make a discretionary profit sharing contribution to the Plan.

Cash Bonus Profit Sharing Plan

The Company has a Cash Bonus Profit Sharing Plan that allows the Company to make profit sharing contributions for the benefit of eligible employees, including NEO's for any fiscal year in an amount not to exceed 3.5% of pre-tax profits or \$2.5 million. If pre-tax profits in any given fiscal year do not exceed \$3 million, there will be no contribution to the Cash Bonus Profit Sharing Plan for that fiscal year. The size of the contribution is dependent upon the performance of the Company. A participant's share of the contribution is determined pursuant to the participant's eligible wages for the fiscal year as a percentage of eligible wages for all participants for the fiscal year. During fiscal 2008, the Company made a cash bonus profit sharing contribution in the amount of \$480 as a result of the Company achieving pre-tax profits in excess of the Cash Bonus Profit Sharing Plan limits.

Measuring Company Performance for Compensation Purposes

The value of our stock options is based upon the Company's performance, as reflected in the price of its stock and is believed to best reflect the longer-term performance of the Company. Bonuses and other performance-based incentives are based on revenue, operating income targets or pre-tax profits established in connection with the annual budgeting process, or achieving certain strategic goals and are believed to best reflect the short-term performance of the Company.

Compensation Committee Report

The following Compensation Committee Report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this information by reference therein.

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management, and based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in the Proxy Statement.

(2) Property owned or leased by Wireless Blvd. Realty, LLC, a New York limited liability company, owned 98% by the Shalam Long Term Trust, 1% by John J. Shalam and 1% by Mr. Shalam's three sons. We believe that the terms of each of the leases are no less favorable to us than those that could have been obtained from unaffiliated third parties. To the extent that conflicts of interest arise between us and such persons in the future, such conflicts will be resolved by a committee of disinterested directors.

David Shalam, the son of John J. Shalam, has served in various positions with Audiovox over the past 12 years. Mr. David Shalam currently serves as a Vice President of Operations. Mr. David Shalam's annual aggregate compensation was \$150,000 for the fiscal year ended February 29, 2008.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The following Audit Committee Report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this information by reference therein.

The Audit Committee assists the Board of Directors in fulfilling its oversight responsibilities for management's conduct of the Company's accounting and financial reporting processes and the Company's system of internal controls regarding finance, accounting, legal compliance and ethics. The Audit Committee's function is more fully described in its Charter, which the Board has adopted and which is annexed hereto as Exhibit A.

Management has the primary responsibility for the integrity of the Company's financial information and the financial reporting process, including the system of internal control over financial reporting. Grant Thornton LLP, the Company's independent registered public accounting firm, is responsible for conducting independent audits of the Company's financial statements and management's assessment and effectiveness of internal controls.

As part of its oversight and responsibility, the Audit Committee has:

- reviewed and discussed our audited financial statements for the fiscal year ended February 29, 2008 with our management and Grant Thornton LLP, including a discussion of the quality and effect of our accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements;
- discussed the matters required by Statement on Auditing Standards No. 61 (Communication with Audit Committees) with Grant Thornton LLP, including any process used by management in formulating particularly sensitive accounting estimates and the basis for the conclusions of Grant Thornton LLP regarding the reasonableness of those estimates; and
- met with representatives of Grant Thornton LLP, with and without management present, to discuss the results of their examinations, their evaluations of our internal controls and the overall quality of our financial reporting.

The Audit Committee has also received the written disclosures from Grant Thornton LLP required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees), has discussed the independence of Grant Thornton LLP and considered whether the provision of non-audit services by Grant Thornton LLP is compatible with maintaining auditor independence, and has satisfied itself as to the auditor's independence.

Based upon the Audit Committee's discussions with management and Grant Thornton LLP, and the Audit Committee's review of the representations of management and Grant Thornton LLP the Audit Committee is satisfied that its responsibilities under its charter for the year ended February 29, 2008, were met and that the financial reporting processes of the Company are functioning effectively and efficiently. Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the February 29, 2008 audited financial statements and assessment of the effectiveness of internal control over financial reporting be included in the Company's Annual Report on Form 10-K for the fiscal year ended February 29, 2008.
