PART III.

STATE THE DISCLOSURES MADE IN EACH SYSTEM COMPANY'S MOST RECENT PROXY STATEMENT AND ANNUAL REPORT ON FORM 10-K WITH RESPECT TO:

- (a) THE COMPENSATION OF DIRECTORS AND EXECUTIVE OFFICERS OF SYSTEM COMPANIES;
- (b) THEIR INTEREST IN THE SECURITIES OF SYSTEM COMPANIES INCLUDING OPTIONS OR OTHER RIGHTS TO ACQUIRE SECURITIES;
- (c) THEIR CONTRACTS AND TRANSACTIONS WITH SYSTEM COMPANIES;
- (d) THEIR INDEBTEDNESS TO SYSTEM COMPANIES;
- (e) THEIR PARTICIPATION IN BONUS AND PROFIT-SHARING ARRANGEMENTS AND OTHER BENEFITS;
- (f) THEIR RIGHTS TO INDEMNITY.

From the Proxy Statement of Xcel Energy Inc.:

DIRECTORS' COMPENSATION

The following table provides information on our compensation and reimbursement practices during 2001 for nonemployee directors. The director who is employed by Xcel Energy, Mr. Wayne Brunetti, does not receive any compensation for his Board activities.

DIRECTORS' COMPENSATION FOR 2001

Annual Director Retainer.....	\$ 28,234
Board Meeting Attendance Fees.....	\$ 1,200
Committee Meeting Attendance Fees...	\$ 1,200
Additional Retainer for Committee Chair.....	\$ 3,000
Stock Equivalent Units.....	\$ 42,000

Xcel Energy has a Stock Equivalent Plan for Non-Employee Directors to more closely align directors' interests with those of our shareholders. Under this Stock Equivalent Plan, directors may receive an annual award of stock equivalent units with each unit having a value equal to one share of our common stock. Stock equivalent units do not entitle a director to vote and are only payable as a distribution of whole shares of the Company's common stock upon a director's termination of service. The stock equivalent units fluctuate in value as the

Edgar Filing: XCEL ENERGY INC - Form U5S

value of our common stock fluctuates. Additional stock equivalent units are accumulated upon the payment of and at the same value as dividends declared on our common stock. On April 26, 2001, non-employee directors of Xcel Energy received an award of 1,332 stock equivalent units representing approximately \$42,000 in cash value. Additional stock equivalent units were accumulated during 2001 as dividends were paid on our common stock. The number of stock equivalents for each non-employee director is listed in the share ownership chart which is set forth below.

Directors also may participate in a deferred compensation plan which provides for deferral of director retainer and meeting fees until after retirement from the Board. A director may defer director retainer and meeting fees into the Stock Equivalent Plan. A director who elects to defer compensation under this plan receives a premium of 20% of the compensation that is deferred.

COMMON STOCK OWNERSHIP OF DIRECTORS AND EXECUTIVE OFFICERS

The following table sets forth information concerning beneficial ownership of our common stock as of March 1, 2002, for: (a) each director and the nominees for director; (b) named executive officers set forth in the Summary Compensation Table; and (c) the directors and executive officers as a group. Unless otherwise indicated, each person has sole investment and voting power (or shares such powers with his or her spouse) with respect to the shares set forth in the following table. None of the individuals listed in the Beneficial Ownership Table below owned more than .22% of Xcel Energy's common stock. None of these individuals owns any shares of Xcel Energy's preferred stock.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and officers to file with the Securities Exchange Commission reports regarding their ownership and changes in ownership of our stock. We are required to disclose whether we have knowledge that any person required to file such a report may have failed to do so in a timely manner. We believe that during 2001, all of our directors and officers subject to such reporting obligations have satisfied all Section 16(a) filing requirements, except that David Sparby, Vice President of Xcel Energy Services Inc., filed a late Form 5 corresponding to one transaction that occurred in fiscal 2000, Douglas W. Leatherdale, a director of Xcel Energy, filed a late Form 5 corresponding to one transaction that occurred in fiscal 2000, Grady Butts, Vice President of Xcel Energy Services Inc., filed a late Form 5 corresponding to one transaction that occurred in fiscal 2000 and Cynthia Leshner, Vice President and Chief Administrative Officer of Xcel Energy, filed a late Form 5 corresponding to one transaction that occurred in fiscal 2001. In making this statement, we have relied upon examination of the copies of Forms 3, 4, and 5 and the written representations of its directors and executive officers.

(1) The amounts in this column for 2001 represent awards earned under the

Edgar Filing: XCEL ENERGY INC - Form U5S

Xcel Energy Executive Annual Incentive Award program. For Mr. Brunetti and Mr. Kelly, the amounts for 2001 include the value of 25,068 and 4,449 shares, respectively, of restricted common stock they received in lieu of a portion of the cash payments to which they were otherwise entitled under the Xcel Energy Executive Annual Incentive Award program. For Mr. Bonavia, the amount for 2001 includes the pre-tax value of 3,023 shares of common stock he received in lieu of a portion of the cash payment to which he was otherwise entitled under the Xcel Energy Executive Annual Incentive Award program.

(2) The amounts shown for 2001 include reimbursements for taxes on certain personal benefits, including a flexible perquisite allowance received by the named executives. The 2000 amount for Messrs. Brunetti and Kelly also include taxes on relocation benefits of \$162,745 and \$55,855, respectively. In addition, the 2001 amount for Mr. Howard includes \$3,523,208 in tax gross-up.

(3) Amounts shown in this column reflect the market value of restricted stock awarded under the NSP Long-Term Incentive Program ("LTIP"), and are based on the closing price of the Company's common stock on the date that the awards are made. The restrictions lapsed effective August 21, 2000, with the change-in-control as a result of the Merger. At December 31, 2001, Mr. Brunetti was the only Named Executive Officer who held shares of restricted stock. As of December 31, 2001, Mr. Brunetti held 17,143 shares of restricted stock with an aggregate value of \$483,043.58. The restricted stock vests in three equal annual installments commencing February 1, 2002.

(4) The amounts shown for 2000 include stock option awards made to the named executives under the NSP LTIP for Messrs. Howard, McIntyre and Johnson (200,000, 62,136 and 38,188, respectively). The balance of the options for Messrs. Howard, McIntyre and Johnson in 2000, and all of the options for Messrs. Brunetti, Kelly and Bonavia for 2000 were granted under the Xcel Energy Omnibus Incentive Plan. These grants were three-year front-loaded (i.e., they represented three years' worth of options) and it is not expected that additional options will be granted until 2003.

(5) The amounts shown for 2001 include cash payments made under the Xcel Energy Long-term Incentive Program. NSP had no LTIP payouts in 1999 and 2000. No performance cash awards under the NCE Value Creation Plan for Messrs. Brunetti, Kelly and Bonavia were paid during 2001, 2000, or 1999.

(6) The amounts represented in the "All Other Compensation" column for the year 2001 for the Named Executive Officers include the following:

The benefits listed in the Pension Plan Table are not subject to any deduction or offset. The compensation used to calculate the SERP benefits is base salary plus annual incentive. The Salary and Bonus columns of the Summary Compensation Table for 2001 reflect the covered compensation used to calculate SERP benefits.

The SERP benefit accrues ratably over 20 years and, when fully accrued, is equal to (a) 55% of the highest three years covered compensation of the five years preceding retirement or termination minus (b) the qualified plan benefit. The SERP benefit is payable as an annuity for 20 years, or as a single lump-sum amount equal to the actuarial equivalent present value of the 20-year annuity. Benefits are payable at age 62, or as early as age 55 reduced 5% for each year that the benefit commencement date precedes age 62.

The approximate credited years of service under the SERP as of December 31, 2001, were as follows:

Mr. Brunetti	14 years
Mr. McIntyre	29 years
Mr. Kelly	34 years
Mr. Johnson	23 years
Mr. Bonavia	4 years

Notwithstanding any special provisions related to pension benefits described under "Employment Agreements and Severance Arrangements," the Company has granted additional credited years of service to Mr. Brunetti for purposes of SERP accrual. The additional credited years of service (approximately seven) are included in the above table. Additionally, the Company has agreed to grant full accrual of SERP benefits to Mr. Brunetti at age 62 and to Mr. Bonavia at age 57 and 8 months, if they continue to be employed by the Company until such age.

In accordance with his employment agreement, upon retirement, Mr. Howard, who

Edgar Filing: XCEL ENERGY INC - Form U5S

retired as Chairman of the Board effective August 18, 2001, received a lump-sum payment equal to the present value of combined benefits from the NSP Traditional Pension Plan and supplemental Company payments as though he had completed 30 years of service, less the pension benefits earned from a former employer. For purposes of the employment agreement, the present value of the lump sum payment was calculated using a discount rate based on the interest rate for valuing immediate annuities used by the Pension Benefit Guaranty Corporation, which was different from the GATT rate utilized for other employees.

REPORT OF THE COMPENSATION AND NOMINATING COMMITTEE OF THE BOARD OF DIRECTORS

The executive compensation and benefit programs of the Company are administered by the Compensation and Nominating committee of the Board of Directors (the "Committee"). The Committee is composed of W. Thomas Stephens, Chairperson, C. Coney Burgess, David A. Christensen, A. Barry Hirschfeld, Douglas W. Leatherdale, and A. Patricia Sampson, all of whom are independent, "non-employee directors" of the Company, as defined by Section 16(b) of the Securities Exchange Act of 1934 (the "1934 Act"), and "outside directors" as defined within the meaning of Section 162(m) of the Internal Revenue Code of 1986. The Board has delegated to the Committee the responsibility of establishing the Company's compensation philosophy, as well as the compensation package for the Chairman, President and Chief Executive Officer and other named executives of the Company. This includes establishing and administering the Company's base salary program, executive annual and long-term incentive programs, and executive benefit programs. The Committee also recommends and administers compensation and benefit programs for all Company executives and key talent.

105

COMPENSATION PHILOSOPHY

The Committee's goal is to attract, retain, and motivate the outstanding executive talent needed to deliver superior returns to shareholders and provide the highest quality of service to customers.

The Company's executive compensation philosophy uses a combination of salary and performance-based (incentive) compensation, delivered through annual and long-term incentives, to align management's interests with those of shareholders. This philosophy results in a compensation mix for senior officers in which annual and long-term incentives account for more than 50 percent of the executives' annual compensation. In addition, the Company's compensation program helps to reinforce management's link to shareholders by establishing plans that compensate executives based on corporate, business unit, and individual performance goals. Finally, significant use of equity-based incentives encourages management to respond to business challenges and opportunities as owners as well as employees.

In establishing a compensation strategy for the Company, the Committee worked with an independent, nationally recognized compensation and benefits consulting firm and took into account several factors:

- o The desire to align management interests with those of shareholders.
- o The desire to strongly link management pay to both annual and long-term

Edgar Filing: XCEL ENERGY INC - Form U5S

Company performance.

- o The need to attract talent from broader markets as the utility industry changes, to retain individuals of outstanding ability and to motivate such individuals to achieve superior performance.

As a result, the Committee has approved a compensation strategy designed to meet these objectives and encourage executives to achieve in a highly evolving competitive environment. Base salaries and annual and long-term incentive opportunities are set to the median of utility industry and general industry levels to provide an incentive for executives to optimize the Company's performance. In addition, stock-based compensation has become a significant portion of overall executive pay. Base salaries are reviewed annually, with increases tied to such factors as individual performance, the executive's duties and responsibilities, financial results, and changes in the marketplace. However, the overall opportunity for pay increases through base salary will continue to be de-emphasized, so that the majority of each executive's opportunity for increased compensation will be delivered through incentive-based pay.

Federal tax law limits the deductibility of executive compensation in excess of \$1,000,000 unless certain exceptions are met. It is the Committee's intent to maintain the deductibility of executive compensation to the extent reasonably practicable and to the extent consistent with its other compensation objectives.

BASE SALARY

The Committee targeted base salaries to the 50th percentile of a combined group of utility and general industry companies (on a revenue adjusted basis) as described above. Under the terms of his employment agreement, Mr. Brunetti was entitled to a base salary not less than his salary immediately prior to the Merger, which was \$685,000. In connection with the assumption of increased responsibilities following the Merger, effective August 2000, Mr. Brunetti received a salary adjustment to \$895,000. This was intended to be his salary level for the balance of 2000 as well as all of 2001. Consequently, Mr. Brunetti did not receive any salary increase for 2001. Similarly, with the exception of Mr. Kelly, the other Named Executive Officers received salary adjustments in August 2000 and did not receive any further adjustments for 2001. Mr. Kelly received a salary adjustment of 6% for 2001 in recognition of accepting additional responsibilities. These base salaries are included in the "Salary" column of the Summary Compensation Table.

ANNUAL INCENTIVE

Annual incentives are administered under the Xcel Energy Executive Annual Incentive Award Plan (the "Xcel Annual Incentive Plan"), which was approved by shareholders in 2000.

106

Annual incentive awards are targeted to the 50th percentile of blended utility industry and general industry levels, as discussed above, and are based on achieving corporate financial and operational goals and business unit operational goals.

Target Annual Incentive Awards for 2001

Edgar Filing: XCEL ENERGY INC - Form U5S

Corporate goals include targeted earnings per share, a customer service index (which includes measurement of reliability) and an employee satisfaction index (which includes safety). Business Unit goals include customer service, reliability, safety and meeting budget, measured at a business unit level.

Target annual incentive awards (as a percent of base salary) are set for all Xcel Energy officers, ranging from 75% of salary for Mr. Brunetti to 50% of salary for the other Named Executive Officers. Maximum awards may be up to two times the target awards. Mr. Howard did not receive any annual incentive award.

The annual incentive formula is calculated using predetermined performance measures. For Mr. Brunetti, the formula is weighted 100% to attaining corporate goals. For the other executive officers, including Named Executive Officers, the formula is weighted 67% to attaining corporate goals and 33% to attaining business unit operational goals.

In order to encourage increased share ownership by executive officers, the Xcel Annual Incentive Plan provides the option for executives to receive their payments in shares of common stock or shares of restricted common stock (which vests in equal annual installments over a three year period) in lieu of cash. A 5% premium is added to amounts paid in shares of common stock, and a 20% premium is added to amounts paid in shares of restricted common stock.

Calculation and Payment of 2001 Annual Incentive Awards

Based on corporate performance during 2001, payouts under the corporate performance component were 142% of the corporate target. Business unit performance resulted in payouts ranging from 76% to 167% of the target for the business unit goals. As a result, the executive officers received from 139% to 150% of their targeted annual incentive awards.

The annual incentive payments for all Named Executive Officers are included in the "Bonus" column of the Summary Compensation Table.

LONG-TERM INCENTIVES

Long-term incentives are administered under the Xcel Energy Omnibus Incentive Plan, approved by shareholders in 2000. This plan allows for several forms of incentive compensation from which the Committee may select in designing long-term incentives.

For 2001 the Xcel Energy long-term incentive plan had two components:

- o stock options; and
- o performance shares.

Long-term incentive opportunities range from 225% of base salary for Mr. Brunetti to 115% of base salary for other Xcel Energy executive officers. Stock options are targeted to deliver 50% of each officer's long-term incentive opportunity, with the remaining 50% delivered through the performance share component.

Stock Option Component. In 2000 the Committee made one stock option grant to all of the Named Executive Officers. This grant was "front-loaded" and covers the period August 2000 to August 2003, during which the Committee intends to make no further grants to the Named Executive Officers. Accordingly, no additional option grants were made to the Named Executive Officers during 2001.

The 2000 grant, which was reported in last year's proxy statement, contains a "performance vesting" provision which provides that the options will become exercisable at the earlier of:

- o The date Xcel Energy common stock closes at a price which equals or exceeds \$32.890625; or
- o August 21, 2005.

Once vested, the options may be exercised at any time on or before August 20, 2010.

Performance Share Component. The performance share component uses a single measure, Total Shareholder Return ("TSR"). Xcel Energy's TSR will be measured over a three-year period, using overlapping cycles. Xcel Energy's TSR is compared to the TSR of other companies in the EEI Electrics Index as a peer group. At the end of each three-year period, the performance unit component provides for payment at target for performance at the 50th percentile of the peer group and at 200% of target for performance at or above the 75th percentile of the peer group. The performance unit component provides smaller payments for performance below the 50th percentile. No payment would be made for performance below the 35th percentile.

Awards in the performance share component are made in shares, each of which represents the value of one share of Xcel Energy common stock. The number of shares awarded is calculated by dividing the executive's target award by the fair market value of Xcel Energy common stock on the date of the grant.

For the measurement cycle that ended in 2001, the TSR was at the 47th percentile resulting in a payout of 85% of the target.

For the 2001 to 2003 measurement cycle, Mr. Brunetti was awarded 35,563 shares. Other Named Executive Officers were awarded from 6,905 to 11,011 shares. These awards are included in the Long-Term Incentive Plans -- Awards in Last Fiscal Year Table.

Other Perquisites and Benefits

Other perquisites and benefits provided to executives generally are not tied to the Company's financial performance, but are primarily designed to attract and retain executives. Among the perquisites and benefits provided by the Company in 2001 to its executives are contributions to the Employee Stock Ownership Plan ("ESOP") (at 0.8838% of the individual's covered compensation -- the same rate applied to all other ESOP participants), Company-paid life insurance in an amount equal to four times base pay, and benefits provided under the NSP Deferred Compensation Plan, the NSP Excess Benefit Plan, the New Century Energies Salary Deferral and Supplemental Savings Plan for Executive Officers and the Xcel Energy Supplemental Executive Retirement Plan that make up for retirement benefits that cannot be paid under the Company's qualified retirement plans due to Internal Revenue Code limitations and the exclusion of certain elements of pay from pension-covered earnings. The level of retirement benefits provided by these plans in the aggregate is reflected in the Pension Plan Table.

Certain executive officers, including three of the Named Executive Officers, may receive severance benefits in accordance with the Xcel Energy Senior

Edgar Filing: XCEL ENERGY INC - Form U5S

Executive Severance Policy, which is described in more detail under the section below entitled "Severance Arrangements."

STOCK OWNERSHIP GUIDELINES

The Committee believes that it is essential to align management's interests with those of the shareholders. In order to emphasize this belief, Xcel Energy adopted stock ownership guidelines for the executives. The Committee believes that linking a significant portion of an executive's current and potential future net worth to Xcel Energy's success, as reflected in the stock price, ensures that executives have a stake similar to that of Xcel Energy shareholders. Such guidelines also encourage the long-term management of the Company for the benefit of the shareholders.

108

The share ownership guideline for each executive is based on the executive's position. The guideline for the Chairman of the Board, President and Chief Executive Officer is five times base salary. The guideline for the Chief Financial Officer and the President of the Enterprises Business Unit is four times base salary. Other Business Unit Heads have a guideline of three times base salary. All other Company officers have share ownership guidelines of two times base salary. Each executive is expected to achieve the applicable ownership guidelines by August 1, 2005, and each is expected to reach interim milestones at August 1, 2003 and August 1, 2004. All shares that the executive is entitled to vote count toward compliance with the ownership guidelines.

CHIEF EXECUTIVE OFFICER COMPENSATION

The compensation of Wayne H. Brunetti, Chairman of the Board, President and Chief Executive Officer, is determined by the process described in the short-term and long-term performance components above, namely base salary, annual incentive, performance unit, and stock options. Mr. Brunetti received a long-term incentive opportunity of 225% of base salary and an annual incentive award target of 75% of base salary. As discussed above, due to the front-end loaded option grant in 2000, he was not granted any additional options in 2001. However, he was awarded 35,563 performance shares.

Mr. Brunetti received a base salary adjustment in August 2000 and did not receive further adjustment for 2001. His base salary is included in the "Salary" column of the Summary Compensation Table above.

CONCLUSION

The Committee believes that Xcel Energy's executive compensation package effectively serves the interests of the Company and its shareholders. The balance of base pay and annual and long-term incentives provides increased motivation to executives to contribute to and participate in the Company's long-term success. The Committee is dedicated to ensuring that the Company's total compensation package continues to meet the needs of the Company and will monitor and revise compensation policies as necessary.

EMPLOYMENT AGREEMENTS AND SEVERANCE ARRANGEMENTS

James J. Howard Employment Agreement

In connection with the Merger, James J. Howard entered into an employment agreement with the Company pursuant to which Mr. Howard continued employment with Xcel Energy and served as Chairman of the Board for the year following the Merger. Mr. Howard retired from his position as Chairman of the Board in August 2001. Pursuant to his employment agreement, for one year following his date of termination, he is forbidden from competing with, or disclosing confidential information about, Xcel Energy and its affiliates.

Pursuant to his employment agreement, Mr. Howard received a special retention bonus of \$7.6 million of which \$2.5 million was paid specifically for the noncompetition and confidentiality covenants described above. Mr. Howard will be obligated to forfeit that amount if he materially breaches the covenants. Xcel Energy made Mr. Howard whole for excise tax on excess severance payments made.

Mr. Howard's employment agreement also preserved the supplemental retirement benefit to which he was entitled pursuant to his employment agreement which was in effect prior to the Merger. Upon his retirement in August 2001, Mr. Howard received a lump-sum payment of \$5.7 million pursuant to this supplemental retirement benefit. See discussion under "Pension Plan Table" above.

Edgar Filing: XCEL ENERGY INC - Form U5S

Wayne H. Brunetti Employment Agreement

At the time of the merger agreement, NCE and NSP also entered into a new employment agreement with Mr. Brunetti, which replaced his existing employment agreement with NCE when the Merger was completed. The initial term of the new agreement is four years, with automatic one-year extensions beginning at the end of the second year and continuing each year thereafter unless notice is given by either party that the agreement will not be extended. Under the terms of the agreement, Mr. Brunetti served as Chief Executive Officer and President and a member of the board of directors of Xcel Energy for one year following the Merger, and, commencing August 18, 2001 (one year after the Merger) began serving as Chief Executive Officer and Chairman of the Board of Directors of Xcel Energy. Mr. Brunetti is required to perform the majority of his duties at the headquarters of Xcel Energy in Minneapolis, Minnesota, and was required to relocate the residence at which he spends the majority of his time to the Twin Cities area. His agreement also provides that if Mr. Brunetti becomes entitled to receive severance benefits, he will be forbidden from competing with Xcel Energy and its affiliates for two years following the termination of his employment, and from disclosing confidential information of Xcel Energy and its affiliates.

110

Under his employment agreement, Mr. Brunetti will receive the following compensation and benefits:

- o a base salary not less than his base salary immediately before the Merger;
- o the opportunity to earn annual and long-term incentive compensation amounts not less than he was able to earn immediately before the Merger;
- o life insurance coverage and participation in a supplemental executive retirement plan;
- o the same fringe benefits as he received under his NCE employment agreement, or, if greater, as those of the next higher executive officer of Xcel Energy; and

If Mr. Brunetti's employment were to be terminated by Xcel Energy without cause or if he were to terminate his employment for good reason, he would be entitled to receive the compensation and benefits described above as if he had remained employed for the employment period remaining under his employment agreement and then retired, at which time he would be eligible for all retiree benefits provided to retired senior executives of Xcel Energy. In determining the level of his compensation following termination of employment, the amount of incentive compensation he would receive would be based upon the target level of incentive compensation he would have received in the year in which his termination occurred, and he would receive cash equal to the value of stock options, restricted stock and other stock-based awards he would have received instead of receiving the awards. In addition, the restrictions on his restricted stock would lapse and his stock options would have become vested. Finally, Xcel Energy would be obligated to make Mr. Brunetti whole for any excise tax on severance payments that he incurs.

Edgar Filing: XCEL ENERGY INC - Form U5S

Mr. Brunetti also had a change-of-control employment agreement with NCE. The Merger did not cause a "change of control" under this agreement, so it did not become effective as a result of the Merger. However, in case this agreement becomes effective because of a later change of control, Mr. Brunetti has waived his right to receive any severance benefits under the change-of-control employment agreement to the extent they would duplicate severance benefits under his employment agreement.

Paul J. Bonavia Employment Agreement

In connection with and effective upon completion of the Merger, Xcel Energy and Paul J. Bonavia entered into an amendment to an employment agreement between Mr. Bonavia and NCE. Except as discussed below, the original agreement expired December 14, 2000. In connection with the Merger, Mr. Bonavia's position changed from Senior Vice President, General Counsel and President of NCE's International Business Unit to President of Xcel Energy's Energy Markets Business Unit. In the amendment, Mr. Bonavia agreed not to assert before January 6, 2003 that his duties and responsibilities have been diminished, and thus he has waived the right to claim certain benefits under the Xcel Senior Executive Severance Policy relating to this change in his status prior to that date. If certain conditions are met on January 6, 2003 or within seven business days thereafter, which conditions include the termination of Mr. Bonavia's employment, Mr. Bonavia will be entitled to severance benefits comparable to those provided to the other senior executives under the Xcel Senior Executive Severance Policy described below.

Severance Policy

NSP and NCE each adopted a 1999 senior executive severance policy in March 1999. These policies were combined into a single Xcel Energy Senior Executive Severance Policy which will continue until August 18, 2003 and may be extended beyond August 2003. All of the executive officers of Xcel Energy other than Mr. Brunetti participate in the policy.

Under the policy, a participant whose employment is terminated at any time before August 18, 2003, the third anniversary of the Merger, will receive severance benefits unless:

- o the employer terminated the participant for cause;
- o the termination was because of the participant's death, disability, or retirement;
- o the division or subsidiary in which the participant worked was sold and the buyer agreed to continue the participant's employment with specified protections for the participant; or

111

- o the participant terminated voluntarily without good reason. To receive the severance benefits, the participant must also sign an agreement releasing all claims against the employer and its affiliates, and agreeing not to compete with the employer and its affiliates and not to solicit their employees and customers.

The severance benefits for executive officers under the policy include the

Edgar Filing: XCEL ENERGY INC - Form U5S

following:

- o a cash payment equal to 2.5 times the participant's annual base salary, annual bonus and annualized long-term incentive compensation, plus prorated incentive compensation for the year of termination;
- o a cash payment equal to the additional amounts that would have been credited to the executive under pension and retirement savings plans, if the participant had remained employed for another 2.5 years;
- o continued welfare benefits and a perquisite allowance for 2.5 years;
- o financial planning benefit for two years, and outplacement services costing not more than \$30,000; and
- o an additional cash payment to make the participant whole for any excise tax on excess severance payments that he or she may incur, with certain limitations specified in the policies.

Some of the executive officers of NCE who participate in the severance policy also had change-of-control employment agreements with NCE. The Merger was not considered a change of control under these agreements, so they did not become effective as a result of the Merger. However, if they become effective because of a later change of control, the severance benefits under the Xcel Senior Executive Severance Policy will be reduced by any severance benefits that the participant receives under such an employment agreement.

(d) A description of the service, sales or construction contracts between these EWGs and an Xcel Energy company, and the fees or revenues under such

Edgar Filing: XCEL ENERGY INC - Form U5S

contracts, is as follows:

NRG Northeast Generating's subsidiaries (the Company) have entered into power sales and agency agreements with NRG Power Marketing Inc., a wholly-owned subsidiary of NRG. The agreements are effective until Dec. 31, 2030. Under the agreements, NRG Power Marketing Inc. will (i) have the exclusive right to manage, market and sell all power not otherwise sold or committed to or by such subsidiaries, (ii) procure and provide to such subsidiaries all fuel required to operate their respective facilities and (iii) market sell and purchase all emission credits owned, earned or acquired by such subsidiaries. In addition, NRG Power Marketing will have the exclusive right and obligation to effect the direction of the power output from the facilities.

Under the agreements, NRG Power Marketing pays to the subsidiaries gross receipts generated through sales, less costs incurred by NRG Power Marketing relative to its providing services (e.g. transmission and delivery costs, fuel cost, taxes, employee labor, contract services, etc.) The Company incurs no fees related to these power sales and agency agreements with NRG Power Marketing.

The Company has no employees and has entered into operation and maintenance agreements with subsidiaries of NRG Operating Services Inc. a wholly-owned subsidiary of NRG (NRG Operating Services). The agreements are effective for five years, with options to extend beyond five years. Under the agreements, the NRG Operating Services company operator operates and maintains its respective facility, including (i) coordinating fuel delivery, unloading and inventory, (ii) managing facility spare parts, (iii) meeting external performance standards for transmission of electricity, (iv) providing operating and maintenance consulting and (v) cooperating with and assisting the Company in performing the Company's obligations under agreements related to its facilities.

Under the agreements, the operator charges an annual fee, and in addition, will be reimbursed for usual and customary costs related to providing the services including plant labor and other operating costs. A demobilization payment will be made if the subsidiary elects not to renew the agreement. There are also incentive fees and penalties based on performance under the approved operating budget, the heat rate and safety.

During 2001 and 2000, the Company incurred annual operating and maintenance costs billed from NRG Operating Services totaling \$4.4 million. In addition the Company incurred \$172.4 million and \$170.0 million, respectively, for usual and customary costs related to providing the services including plant labor and other operating costs.

The Company's subsidiaries have entered into agreements with NRG for corporate support and services. The agreements are perpetual in term, unless terminated in writing by a subsidiary. Under the agreements, NRG will provide services, as requested, in areas such as human resources, accounting, finance, treasury, tax, office administration, information technology, engineering, construction management, environmental, legal and safety. Under the agreements, NRG is paid for personnel time as well as out-of-pocket costs. During 2001 and 2000, the Company paid NRG approximately \$5.1 million and \$3.0 million, respectively, for corporate support and services.

2. (a) NRG South Central Generating LLC, in which NRG owns a 100 percent interest through two wholly-owned limited liability companies (each of which owns a 50 percent interest in NRG South Central Generating LLC), South Central Generation Holding LLC and NRG Central U.S. LLC, owns 100 percent of the following: (i) Louisiana Generating LLC, an EWG that owns a 220 megawatt gas-fired facility located in New Roads, Louisiana, and a 100 percent interest in two coal-fired units and a 58 percent interest in a third coal-fired unit located in a separate facility also in New Roads, Louisiana; (ii) NRG New Roads

Holdings LLC, owner of various equipment and of several parcels of land in Louisiana, some of which is leased to third parties for farming; (iii) Big Cajun I Peaking Power LLC, a pending EWG which t was formed to develop, own and operate the Cajun expansion project in Louisiana and (iv) NRG Sterlington Power LLC, an EWG, which was formed to own a 200 megawatt simply cycle gas peaking facility in Sterlington, Louisiana.

(b) See Footnote 1.

(c) The ratio of debt to common equity and the earnings of Louisiana Generating LLC as of Dec. 31, 2001 are as follows:

	Debt-Equity Ratio -----	Net Income (in thousands) -----
Louisiana Generating LLC	3.24	(\$21,879)

(d) A description of the service, sales or construction contracts between these EWGs and an Xcel Energy company, and the fees or revenues under such contracts, is as follows:

Louisiana Generating entered into a power sale and agency agreement with NRG Power Marketing Inc., a wholly owned subsidiary of NRG Energy. The agreement is effective until Dec. 31, 2030. Under the agreement, NRG Power Marketing Inc. will (i) have the exclusive right to manage, market and sell all power not otherwise sold or committed to or by Louisiana Generating, (ii) procure and provide to Louisiana Generating all fuel required to operate its respective facilities and (iii) market, sell and purchase all emission credits owned, earned or acquired by Louisiana Generating. In addition, NRG Power Marketing Inc. will have the exclusive right and obligation to direct the power output from the facilities.

Under the agreement, NRG Power Marketing, Inc. pays to Louisiana Generating gross receipts generated through sales, less costs incurred by NRG Power Marketing, Inc. relative to its providing services (e.g. transmission and delivery costs, fuel cost, taxes, employee labor, contract services, etc.). The Company incurs no fees related to these power sales and agency agreements with NRG Power Marketing.

Louisiana Generating entered into an operation and maintenance agreement with NRG Operating Services, Inc., (NRG Operating Services) a wholly-owned subsidiary of NRG Energy. The agreement is perpetual in term until terminated in writing by Louisiana Generating or until earlier terminated upon an event of default. Under the agreement, at the request of Louisiana Generating, NRG Operating Services manages, oversees and supplements the operation and maintenance of the Cajun facilities.

During the year ended Dec. 31, 2001 and for the period March 30, 2000 (Inception) through Dec. 31, 2000, Louisiana Generating incurred no operating and maintenance costs from NRG Operating Services.

Edgar Filing: XCEL ENERGY INC - Form U5S

Louisiana Generating and NRG South Central each entered into an agreement with NRG Energy for corporate support and services. The agreement is perpetual in term until terminated in writing by Louisiana Generating or NRG South Central or until earlier terminated upon an event of default. Under the agreement, NRG Energy will provide services, as requested, in areas such as human resources, accounting, finance, treasury, tax, office administration, information technology, engineering, construction management, environmental, legal and safety. Under the agreement, NRG Energy is paid for personnel time as well as out-of-pocket costs.

During the year ended Dec. 31, 2001 and for the period March 30, 2000 (Inception) through Dec. 31, 2000, Louisiana Generating and NRG South Central incurred approximately \$0.6 and \$0.5 million, respectively, for corporate support and services.

As of Dec. 31, 2001 and 2000, NRG South Central has an accounts payable-affiliates balance of approximately \$27.2 and \$40.6 million, respectively, which consisted primarily of a payable to NRG Energy for capitalized development costs incurred prior to the acquisition of the Cajun facilities and other expenses paid on its behalf.

these EWGs and an Xcel Energy company, and the fees or revenues under such contracts, is as follows:

West Coast Power LLC (WCP) purchases fuel for its plants under natural gas supply agreements (GSAs) with Dynegy Marketing and Trade (DMT), an affiliate of WCP. Charges for fuel are based upon similar terms and conditions as could be obtained from third parties.

WCP contracted with DYPM, an affiliate of WCP, to provide all power scheduling, power marketing and risk management for WCP under an energy management agreement (EMA). Additionally, WCP contracted with DMT to provide all scheduling and marketing of fuel supply for WCP under the EMA.

WCP contracted with NRG West, In., an affiliate of WCP, to manage the operations and management services agreements (OMSA). The services provided under the OMSA consisted primarily of overseeing the operations and maintenance efforts of SCE and SDG&E. SCE operated ESP and LBG until April 2000, and SDG&E operated Cabrillo I and Cabrillo II until May 2001. WCP then entered into O&M agreements with NRG Cabrillo Power Operations Inc. and NRG El Segundo Operations Inc., affiliates of WCP, for Cabrillo I and Cabrillo II effective May 2001 and for ESP and LBG effective April 2000. Fees for services primarily include recovery of the costs of operating the plant as approved in the annual budget and a base monthly fee. When the OMSAs were terminated once NRG became operator, WCP contracted with NRG Development Company, Inc., an affiliate of WCP, to provide services under the Administrative Management Agreement (the AMA). Services provided under the AMA include local services not covered under the O&M agreements, including environmental, engineering, legal and public relations services. Fees for such services are subject to executive committee approval if the amounts exceed a certain percentage of the applicable approved budget.

WCP entered into an administrative services management agreement (the ASMA) with Dynegy Power Management Services, LP, an affiliate of WCP, which provides administrative services such as business management and accounting to WCP. Fees for such services are subject to executive committee approval if the amounts exceed a certain percentage of the applicable annual approved budget.

122

Affiliates of WCP provide various services for WCP. Charges for these services are included in WCP's operating and general and administrative expenses and consisted of the following for 2001, 2000 and 1999:

Saguaro Power Company - Subsequent to the sale of EMOM's interest in Eastern Sierra to NRG commingled the majority of cash receipts and cash disbursements from the Partnership into their bank accounts. The accounts receivable, affiliates represents the balance owed to the Partnership related to the excess of the Partnership's receipts over cash disbursements made on behalf of the Partnership as of Dec. 31, 2001.

Under the terms of the Operation and Maintenance Agreement, employees of NRG Saguaro Operations Inc., a wholly owned subsidiary of NRG, perform all necessary functions to operate and maintain the Facility. The Partnership pays for direct costs of the services, plus an increment to cover overhead and benefits. NRG Saguaro Operations may also earn certain incentive compensation as defined in the agreement. Pursuant to this arrangement the Partnership incurred costs of \$2.1 million and \$2.5 million which included \$120,051 and \$243,461 of incentive compensation earned by NRG Saguaro Operations in 2001 and 2000, respectively.
