SUMMARY TERM SHEET

THIS SUMMARY MAY NOT CONTAIN ALL OF THE INFORMATION THAT IS IMPORTANT TO YOU. FOR A MORE COMPLETE UNDERSTANDING OF THE INFORMATION CONTAINED IN THIS PROXY STATEMENT, YOU SHOULD READ THE ENTIRE PROXY STATEMENT CAREFULLY, AS WELL AS THE ADDITIONAL DOCUMENTS TO WHICH IT REFERS.
THE ANNUAL MEETING

Date, Time and Place of Annual Meeting	The Annual Meeting will be held on July 29, 2005, beginning at 10:00 a.m., La Jolla time, at 800 Silverado Street, La Jolla, CA 92037.
Record Date: Shareholders Entitled to Vote; Quorum	Only holders of record of Planet common stock on June 15, 2005, are entitled to notice of and to vote at the Annual Meeting. As of the record date, there were 2,280,368 shares of Planet common stock outstanding. The presence, in person or by proxy, of the holders of a majority of our common stock will constitute a quorum.
Vote Required	Holders of a majority of the outstanding common stock are required to vote in favor of Proposal 1 for such proposal to pass; the five persons with the most number of votes will be elected directors pursuant to Proposal 2; and assuming a quorum is present, the affirmative vote of a majority of the shares represented and voting, either present in person or represented by proxy at the meeting are required to vote in favor of Proposals 3 and 4 for such proposals to pass.
Recommendation of Board of Directors	Our Board of Directors unanimously approved each of the Proposals to be considered at the Annual Meeting. The Board recommends that the stockholders vote FOR each proposal.
PROPOSAL 1 ALLERGY CONTROL PRODUCTS MERGER	
Companies Involved in the Merger	Planet Technologies, Inc. is engaged in the business of designing, manufacturing, selling, and distributing consumer products for use by allergy sensitive persons, including air filters, bedding and similar products. Allergy Control Products, Inc. is engaged in the business of developing and marketing environmental controls to reduce allergen exposure. Such environmental control products include: allergen proof pillow and mattress encasings, HEPA filter air cleaners, HEPA filter vacuum cleaners, carpet treatments and respiratory products.

Summary of the Merger	<p>In the Merger, the Company will issue and deliver to the sole-shareholder of ACP approximately 600,000 shares of the Company's common stock (or 300 shares of Company common stock for each one share of ACP common stock outstanding). As a condition to, and simultaneously with, the effective time of the Merger, the Company shall cause to be paid to Jonathan T. Dawson the sum of \$1,500,000 cash in full payment of all indebtedness of ACP to Mr. Dawson, its sole-shareholder.</p>
Reasons for the Merger	<p>In approving the Merger and in recommending that the Company's shareholders approve the Agreement and Plan of Merger and the Merger, the Company's Board of Directors considered a number of factors. The Company considered the impact on combining the Company's business with ACP's business, and the potential positive results of combining the operations and technology of ACP with the operations and technology of the Company.</p>
Accounting Treatment	<p>For Accounting purposes Planet will be deemed Acquirer. The transaction will be accounted for as a purchase with Planet as the accounting acquirer. At the consummation of the transaction, the purchase price will be allocated to the fair value of the assets acquired with the excess attributed to goodwill. There are no other identifiable intangible assets involved with the transaction. At this stage of the transaction, given the current nature of the assets of ACP, (i.e. accounts receivable and inventory) the book value has been assumed to equal the fair market value and the excess of the purchase price over that value has been assumed to be goodwill.</p>
Background and Negotiations Related to the Merger	<p>The Company and ACP have been discussing the possibility of merger since late 2004. The discussions led to entering into the Agreement and Plan of Merger on March 7, 2005.</p>
Material Tax Consequences to the Company and its Shareholders	<p>The Merger should not result in any material tax consequences to either the Company or its shareholders. We believe the Merger will qualify as a reorganization as defined in Section 368 of the Internal Revenue Code as either a statutory merger, or a stock for stock acquisition. We have not obtained or requested an opinion of tax counsel or a revenue ruling from the IRS regarding the tax consequences of the transaction. In addition, we do not believe that there is significant appreciation in the carrying value for federal or state income tax purposes of the assets of either ACP or Planet, which if the transaction was recharacterized as a purchase and sale would result in material taxable income to either Planet or ACP which would not be offset by current losses or loss carry forwards. The shareholders of Planet will not be distributed any cash or other consideration in connection with the Merger transaction and we therefore believe that there will be no material tax consequence to our shareholders. Again, we have not requested or obtained a tax opinion or revenue ruling regarding the tax consequences to our shareholders.</p>
Dissenters Rights	<p>If the Merger is approved by the required vote of the Company's shareholders and is not abandoned or terminated, holders of the Company's common stock who did not vote in favor of the Merger</p>

and who notify the Company in writing of their intent to demand payment of their shares if the Merger is consummated, may, by complying with Sections 1300 through 1312 of the California Corporations Code, be entitled to dissenters' rights as described therein. The Company's shareholders must notify the Company of their intent to dissent within 30 days of the date that the notice of approval of the Merger is mailed to all the Company's shareholders who did not vote in favor of the Merger.

Vote Required to Approve Asset Purchase and Merger The affirmative vote of holders of the majority of outstanding common stock is required to approve the Agreement and Plan of Merger and the Merger.

PROPOSAL 2 ELECTION OF DIRECTORS

Nominees There are five board nominees for the five board positions presently authorized by the Company's current bylaws. The names of the nominees are H. M. Busby; Scott L. Glenn; Eric B. Freedus, Ellen Preston; and Michael Trinkle.

Voting Shares represented by executed proxies will vote, if authority to do so is not withheld, for the election of the nominees. In the event that any nominee should be unavailable for election as a result of an unexpected occurrence, such shares will be voted for the election of such substitute nominee as management may propose. Each person nominated for election has agreed to serve if elected and management has no reason to believe that any nominee will be unable to serve.

PROPOSAL 3 AMENDMENT TO THE 2000 STOCK OPTION PLAN

Description of the 2000 Plan, as Amended The Company proposes to increase the number of shares reserved for issuance under the 2000 Plan from 100,000 shares to 350,000 shares. The purpose of the increase is to reserve an adequate number of shares of Common Stock for awards pursuant to the 2000 Plan sufficient to accommodate the retention of the current Board of Directors and executive officers of the Company and Edward Steube as President/ CEO of ACP, as a subsidiary of the Company, and in the future, other key employees, officers and directors. The number of shares available for issuance will be subject to adjustment to prevent dilution in the event of stock splits, stock dividends or other changes in the capitalization of the Company.

As part of the Merger, and for his remaining the President/ CEO of ACP, Edward Steube will be granted the right to the option to purchase 100,000 shares of Company common stock. This represents the total number of shares under the 2000 Plan awarded pursuant to the Merger. In addition, the Company has issued a total of 125,000 options to officers and directors of the Company for services provided that are subject to shareholder approval of this Proposal 3.

Tax Consequences For Federal Income Tax purposes, the grant to an optionee of a non-incentive option generally will not constitute a taxable event to

the optionee or to the Company. Similarly, for Federal Income Tax purposes, in general, neither the grant nor the exercise of an incentive option will constitute a taxable event to the optionee or to the Company, assuming the incentive option qualifies as an Incentive Stock Option under Internal Revenue Code Section 422.

Proposal 1 is dependent upon the approval of this Proposal 3. If Proposal 3 is not approved, the Company does not have sufficient shares available for issuance under the 2000 Plan in order to grant options to Edward Steube.

Vote Required to Approve

The affirmative votes of the holders of the majority of common stock present in person or represented by proxy and which constitute a quorum at the meeting are required to approve the amendment to the 2000 stock option plan.

PROPOSAL 4 RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Engagement of Accountant

We have approved retaining J.H. Cohn LLP to serve as our independent registered public accounting firm for the 2005 fiscal year and we seek stockholder ratification of that decision.

Vote Required to Approve

The affirmative votes of the holders of the majority of common stock present in person or represented by proxy at the meeting are required to ratify the selection of independent registered public accounting firm.

PROXY STATEMENT
PRELIMINARY COPY
FOR ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD ON July 29, 2005
INFORMATION CONCERNING SOLICITATION AND VOTING
INTRODUCTION

General Information

The enclosed proxy is solicited on behalf of the Board of Directors (the Board) of Planet Technologies, Inc., a California corporation (the Company), for use at the Annual Meeting of Shareholders to be held on July 29, 2005 at 10:00 a.m. local time (the Annual Meeting), or at any adjournment or postponement thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting. The Annual Meeting will be held at 800 Silverado Street, Second Floor, La Jolla, California 92037. The Company intends to mail this proxy statement and accompanying proxy card on or about July 8, 2005, to all shareholders entitled to vote at the Annual Meeting.

Solicitation

The Company will bear the entire cost of solicitation of proxies including preparation, assembly, printing and mailing of this proxy statement, the proxy and any additional information furnished to shareholders. Copies of solicitation materials will be furnished to banks, brokerage houses, fiduciaries and custodians holding in their names shares of Common Stock beneficially owned by others to forward to such beneficial owners. The Company may reimburse persons representing beneficial owners of Common Stock for their costs of forwarding solicitation materials to such beneficial owners. Original solicitation of proxies by mail may be supplemented by telephone, telegram or personal solicitation by directors, officers or other regular employees of the Company. No additional compensation will be paid to directors, officers or other regular employees for such services.

Voting Rights and Outstanding Shares

For purposes of the Annual Meeting, a quorum means a majority of the outstanding shares entitled to vote. Holders of record of the Company's Common Stock at the close of business on June 15, 2005 (the Record Date) will be entitled to notice of and to vote at the Annual Meeting. At the close of business on June 15, 2005, the Company had outstanding and entitled to vote 2,280,368 shares of Common Stock. In determining whether a quorum exists at the Annual meeting, all shares represented in person or by proxy, including abstentions and broker non-votes, will be counted.

Except as provided below, on all matters to be voted upon at the Annual Meeting, each holder of record of Common Stock on the Record Date will be entitled to one vote for each share held. With respect to the election of directors, shareholders may exercise cumulative voting rights, i.e., each shareholder entitled to vote for the election of directors may cast a total number of votes equal to the number of directors to be elected multiplied by the number of such shareholder shares (on an as converted basis), and may cast such total of votes for one or more candidates in such proportions as such shareholder chooses.

All votes will be tabulated by the inspector of election appointed for the meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes. Abstentions will be counted towards the tabulation of votes cast on proposals presented to the shareholders and will have the same effect as negative Votes. Broker non-votes are counted toward a quorum, but are not counted for any purpose in determining whether a matter has been approved.

How to Vote

Please sign, date and return the enclosed proxy card promptly. If your shares are held in the name of a bank, broker, or other holder of record (that is, in street name) you will receive instructions from the holder of record that you must follow for your shares to be voted.

Revocability of Proxies

Any person giving a proxy pursuant to this solicitation has the power to revoke it at any time before it is voted. It may be revoked by filing with the Secretary of the Company at the Company's principal executive office, 6835 Flanders Drive, Suite 100, San Diego, California 92121, a written notice of revocation or a duly executed proxy bearing a later date, or it may be revoked by attending the meeting and voting in person. Attendance at the meeting will not, by itself, revoke a proxy.

Votes Required to Approve Proposals

Shares represented by executed proxies that are not revoked will be voted in accordance with the instructions in the proxy, or in the absence of instructions, in accordance with the recommendations of the Board of Directors. Assuming a quorum is present at the Annual Meeting, the following table sets forth the votes required to approve each Proposal:

Proposal	Vote Required to Approve
Proposal 1 (Adopt and approve Agreement and Plan of Merger and the Merger)	Holder of a majority of the outstanding common stock. The five persons with the most number of votes will be elected.
Proposal 2 (Elect directors)	Assuming a quorum is present, the affirmative vote of a majority of the shares represented and voting, either present in person or represented by proxy at the meeting are required to vote in favor.
Proposal 3 (Amend 2000 Stock Option Plan)	Assuming a quorum is present, the affirmative vote of a majority of the shares represented and voting, either present in person or represented by proxy at the meeting are required to vote in favor.
Proposal 4 (Ratify Appointment of Independent Registered Public Accounting Firm)	Assuming a quorum is present, the affirmative vote of a majority of the shares represented and voting, either present in person or represented by proxy at the meeting are required to vote in favor.
Other Business	Assuming a quorum is present, the affirmative vote of a majority of the shares represented and voting, either present in person or represented by proxy at the meeting are required to vote in favor.

Board Recommendations

The Board of Directors unanimously approved each of the Proposals to be considered at the Annual Meeting and recommends that shareholders also vote IN FAVOR OF approval of each Proposal.

Shareholder Proposals

The deadline for submitting a shareholder proposal for inclusion in the Company's proxy statement and form of proxy for the Company's 2006 Annual Meeting of Shareholders pursuant to Rule 14a-8 of the Securities and Exchange Commission is January 27, 2006. Shareholders are also advised to review the Company's current Bylaws, which contain additional requirements with respect to advance notice of shareholder proposals and director nominations.

STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This proxy statement contains forward-looking statements that involve substantial risks and uncertainties. In some cases you can identify these statements by forward-looking words such as anticipate, believe, could, estimate, expect, intend, may, should, will, and would or similar words. In particular, statements regarding expected strategic benefits, advantages and other effects of the Merger and other proposals described in this proxy statement are forward-looking statements. You should read forward-looking statements carefully because they may discuss our future expectations, contain projections of the Company's and ACP's future results of operations or of our financial position or state other forward-looking information. The Company believes that it is important to communicate its future expectations to their investors. However, there may be events in the future that the Company is not able to accurately predict or control. The factors listed above in the sections captioned Risk Factors, as well as any cautionary language in this proxy statement, provide examples of risks, uncertainties and events that may cause the actual results to differ materially from any expectations they describe. Actual results or outcomes may differ materially from those predicted in the forward-looking statements due to the risks and uncertainties inherent in their business, including risks and uncertainties in:

market acceptance of and continuing demand for its products;

the Company's ability to protect its intellectual property;

the impact of competitive products, pricing and customer service and support;

the Company's ability to obtain additional financing to support their operations;

obtaining and maintaining regulatory approval where required;

changing market conditions; and

other risks detailed in this proxy statement.

You should not place undue reliance on any forward-looking statements, which reflect the views of the Company's and ACP's management only as of the date of this proxy statement. The Company and ACP are not obligated to update any forward-looking statements to reflect events or circumstances that occur after the date on which such statement is made.

QUESTIONS AND ANSWERS ABOUT THE MERGER

Q: WHY IS THE COMPANY MERGING WITH ACP?

A: The Company intends to expand its product scope and business operations through its merger with ACP. We believe the Company's acquisition of ACP's business will provide the Company with an operating business complementary with certain of the allergy products that the Company has developed and currently markets, as well as open new markets for the Company's products.

Q: WHAT WILL ACP RECEIVE IN THE MERGER?

A: In the Merger, each share of ACP common stock shall be converted into the right to receive 300 shares of Company common stock. The sole shareholder of ACP currently holds 2,000 shares of ACP common stock, which is convertible into 600,000 shares of Company common stock, or 300 shares of Company common stock for each one share of ACP common stock outstanding.

As a condition to, and simultaneously with, the effective time of the Merger, the Company shall cause to be paid to Jonathan T. Dawson, the sole shareholder of ACP, the sum of \$1,500,000 cash in full repayment of all indebtedness of ACP to Mr. Dawson.

Q: HOW WILL THE COMPANY SHAREHOLDERS BE AFFECTED BY THE MERGER?

A: The Company shareholders will continue to own the same number of shares of the Company common stock that they owned immediately prior to the Merger. Each share of the Company common stock, however, will represent a smaller ownership percentage of a larger company.

Q: WHAT ARE THE MATERIAL UNITED STATES TAX CONSEQUENCES OF THE MERGER TO THE COMPANY SHAREHOLDERS?

A: The Merger standing alone is not expected to result in any material tax consequences to the Company or the Company shareholders for United States income tax purposes.

We believe the Merger will qualify as a reorganization as defined in Section 368 of the Internal Revenue Code as either a statutory merger, or a stock for stock acquisition. We have not obtained or requested an opinion of tax counsel or a revenue ruling from the IRS regarding the tax consequences of the transaction. In addition, we do not believe that there is significant appreciation in the carrying value for federal or state income tax purposes of the assets of either ACP or Planet, which if the transaction was recharacterized as a purchase and sale would result in material taxable income to either Planet or ACP which would not be offset by current losses or loss carry forwards. The shareholders of Planet will not be distributed any cash or other consideration in connection with the Merger transaction and we therefore believe that there will be no material tax consequence to our shareholders. Again, we have not requested or obtained a tax opinion or revenue ruling regarding the tax consequences to our shareholders.

Q: WHAT SHAREHOLDER VOTES ARE NEEDED TO APPROVE THE MERGER?

A: The affirmative vote of the holders of a majority of the outstanding shares of the Company common stock is required to approve the proposed Agreement and Plan of Merger and the Merger.

Q: HOW WILL THE MERGER EFFECT THE DISTRIBUTION OF COMPANY COMMON STOCK AMONG SHAREHOLDERS?

A: Pre-merger, non-affiliates own 47.5% and affiliates own 52.5% of the outstanding common stock of the Company.

Post-merger, non-affiliates (excluding Jonathan T. Dawson) would own 37.6%, affiliates would own 41.5% and Jonathan T. Dawson the sole shareholder of ACP would own 21% of the outstanding common stock of the Company.

Q: WHEN DOES THE COMPANY EXPECT TO COMPLETE THE MERGER?

A: The Company and ACP are working to complete the Merger as quickly as possible. We expect to complete the Merger as soon as reasonably possible after the requisite shareholder votes have been obtained.

Q: ARE THE COMPANY SHAREHOLDERS ENTITLED TO DISSENTERS' RIGHTS?

A: If the Merger is approved by the required vote of the Company's shareholders and is not abandoned or terminated, holders of the Company's common stock who did not vote in favor of the Merger and who notify the Company in writing of their intent to demand payment of their shares if the Merger is consummated, may, by complying with Sections 1300 through 1312 of the California Corporations Code, a copy of which is attached hereto as Exhibit D, be entitled to dissenters' rights as described therein. The Company's shareholders must notify the Company of their intent to dissent within 30 days of the date that the notice of approval of the Merger is mailed to all the Company's shareholders who did not vote in favor of the Merger.

Q: WHAT DO I NEED TO DO NOW?

A: After carefully reading and considering the information contained in this proxy statement, please complete, sign and date your proxy and return it in the enclosed return envelope as soon as possible, so that your shares may be represented at the annual meeting of the Company shareholders. If you sign, date and return your proxy card but do not include instructions on how to vote your proxy, we will vote your shares IN

FAVOR of each proposal described in this proxy statement. You may attend the annual meeting, if you are a Company shareholder and vote your shares in person rather than voting by proxy.

Q: IF MY BROKER HOLDS MY SHARES IN STREET NAME, WILL MY BROKER VOTE MY SHARES FOR ME?

A: Generally your broker will vote your shares only if you provide instructions on how to vote in accordance with the information and procedures provided to you by your broker.

Q: WHAT HAPPENS IF I DO NOT VOTE?

A: If you do not submit a proxy or vote at your annual meeting, your shares will not be counted for the purpose of determining the presence of a quorum and your inaction will have the same effect as a vote against Proposal 1 but may have no effect on the outcome of the other proposals. If you submit a proxy and affirmatively elect to abstain from voting, your shares will be counted for the purpose of determining the presence of a quorum but will not be voted at the annual meeting. As a result, your abstention will have the same effect as a vote against Proposal 1 but will have no effect on the outcome of the other proposals.

Q: CAN I CHANGE MY VOTE AFTER I HAVE MAILED MY SIGNED PROXY?

A: Yes. You can change your vote at any time before your proxy is voted at the Company's annual meeting. You can do this in one of three ways:

timely delivery of a valid, later-dated proxy by mail;

revoking your proxy by written notice to the corporate secretary of the Company; or

voting in person by written ballot at the Company annual meeting.

If you have instructed a broker to vote your shares, you must follow the directions from your broker on how to change that vote.

Q: WHAT IS THE DEADLINE FOR THE RETURN OF MY PROXY?

A. The Company must receive your Proxy no later than July 28, 2005

Q: ARE THERE ANY RISKS I SHOULD CONSIDER IN DECIDING WHETHER TO VOTE FOR THE PROPOSALS DESCRIBED IN THIS PROXY STATEMENT?

A: We have listed in the section entitled Risk Factors the risks among others that you should consider in deciding whether to vote for Proposal No. 1 described in this proxy statement.

Q: WHOM SHOULD I CALL WITH QUESTIONS?

A: If you have any questions about the Merger or about any of the other proposals described in this proxy statement or the enclosed proxy, you should contact:

Planet Technologies, Inc.

RISK FACTORS

Risk Factors Associated With the Merger

An investment in the Company's common stock is subject to many risks. You should carefully consider the risks described below, together with all of the other information included in this proxy statement, including

the financial statements and the related notes, before you decide whether to approve the Acquisition. The Company's business, operating results and financial condition could be harmed by any of the following risks. The trading price of the Company's common stock could decline due to any of these risks, and you could lose all or part of your investment.

THE COMPANY MAY NOT REALIZE THE INTENDED BENEFITS OF THE MERGER IF THE COMPANY IS UNABLE TO CONSOLIDATE ITS OPERATIONS WITH THOSE OF ACP.

Achieving the benefits of the Merger will depend in part on growing ACP's operations, combining the operations of ACP and the Company, and developing new markets for the Company's and ACP's products. This integration may be difficult and unpredictable because the Company's operations are based in San Diego, California, and ACP's operations are based in Ridgefield, Connecticut. The Company plans to consolidate operations into the Ridgefield facility. If the Company cannot successfully integrate the two businesses, the Company may not realize the expected benefits of the Merger.

THE MERGER WILL RESULT IN SIGNIFICANT COSTS TO THE COMPANY AND ACP, WHETHER OR NOT THE MERGER IS COMPLETED.

The Merger will result in significant costs to the Company and ACP. Transaction costs are estimated to be at least \$100,000. These costs are expected to consist primarily of fees for attorneys, accountants, filing fees and financial printers. All of these costs will be incurred whether or not the Merger is completed. In addition, if the Agreement and Plan of Merger is terminated under specified circumstances, the Company may be obligated to pay a \$150,000 termination fee.

WE COULD BE EXPOSED TO UNKNOWN LIABILITIES OF ACP.

If there are liabilities of ACP which we do not know of, as a merger, in all likelihood, Planet would assume these liabilities and may have little or no recourse against the shareholder of ACP who will receive substantially all of the consideration for the transaction. If we discovered that there were intentional misrepresentations made to us by ACP, its shareholder or its representatives, we would explore all possible legal remedies to compensate us for any loss. However, there is no assurance that legal remedies would be available or collectible. The Board considered the possibility that Planet could be subjected to unknown liabilities in connection with evaluating the Merger transaction.

FAILURE TO COMPLETE THE MERGER COULD CAUSE THE COMPANY'S STOCK PRICE TO DECLINE.

If the Merger is not completed for any reason, the Company's stock price may decline because costs related to the Merger, such as legal and accounting, must be paid even if the Merger is not completed. In addition, if the Merger is not completed, the Company's stock price may decline to the extent that the current market price reflects a market assumption that the Merger will be completed.

IF THE CONDITIONS TO THE MERGER ARE NOT MET, THE MERGER WILL NOT OCCUR.

Specified conditions must be satisfied or waived to complete the Merger. These conditions are summarized in the section captioned "Conditions to Completion of the Merger" and are described in detail in the Agreement and Plan of Merger. The Company cannot assure you that each of the conditions will be satisfied. If the conditions are not satisfied or waived, the Merger will not occur or will be delayed and the Company may lose some or all of the intended benefits of the Merger.

THE COMPANY AND ACP MAY WAIVE ONE OR MORE OF THE CONDITIONS TO THE MERGER WITHOUT RESOLICITING SHAREHOLDER APPROVAL FOR THE MERGER.

Each of the conditions to the Company's and ACP's obligations to complete the Merger may be waived, in whole or in part, to the extent permitted by applicable laws, by agreement of the Company and ACP. The board of directors of the Company will evaluate the materiality of any such waiver to determine whether amendment of this proxy statement and resolicitation of proxies is warranted. However, the Company generally does not expect any such waiver to be sufficiently material to warrant resolicitation of the

shareholders. In the event that the board of directors of the Company determines any such waiver is not sufficiently material to warrant resolicitation of shareholders, the Company will have the discretion to complete the Merger without seeking further shareholder approval. Any waiver not deemed material by the board of directors, and not put before the shareholders for approval, would not be expected to create a material risk to shareholders.

SALES OF ACP'S PRODUCTS COULD DECLINE OR BE INHIBITED IF CUSTOMER RELATIONSHIPS ARE DISRUPTED BY THE MERGER.

The Merger may have the effect of disrupting customer relationships. ACP's customers or potential customers may delay or alter buying patterns during the pendency of and following the Merger. Customers may defer purchasing decisions as they evaluate the likelihood of successful completion of the Merger. ACP's customers or potential customers may instead purchase products of competitors. Any significant delay or reduction in orders for ACP's products could cause the Company's sales, following the Merger, to decline.

THE COMPANY MAY ENTER INTO SUBSEQUENT AGREEMENTS TO MERGE OR CONSOLIDATE WITH OTHER COMPANIES, AND IT MAY INCUR SIGNIFICANT COSTS IN THE PROCESS, WHETHER OR NOT THE TRANSACTIONS ARE COMPLETED.

The Company may enter into other merger agreements, in addition to the Agreement and Plan of Merger with ACP, in furtherance of the Company's strategy to consolidate with other companies in the allergy market. The Company may not be able to close any mergers on the timetable it anticipates, if at all. The Company may incur significant non-recoverable expenses in these efforts.

THE COMPANY'S PROSPECTS FOR OBTAINING ADDITIONAL FINANCING ARE UNCERTAIN AND FAILURE TO ACHIEVE PROFITABILITY OR OBTAIN NEEDED FINANCING WILL AFFECT ITS ABILITY TO PURSUE FUTURE GROWTH, HARM ITS BUSINESS OPERATIONS AND AFFECT ITS ABILITY TO CONTINUE AS A GOING CONCERN.

If the Company is unable to achieve profitability or raise additional debt or equity financing, it will not be able to continue as a going concern. The Company's future capital requirements will depend upon many factors, including development costs of new products, potential acquisition opportunities, maintenance of adequate contract manufacturing agreements, progress of research and development efforts, expansion of marketing and sales efforts and the status of competitive products. Additional financing may not be available in the future on acceptable terms or at all. The Company's history of substantial operating losses could also severely limit the Company's ability to raise additional financing. In addition, given the recent price of its common stock, if the Company raises additional funds by issuing equity securities, additional significant dilution to its shareholders could result.

If the Company is unable to increase sales, decrease costs, or obtain additional equity or debt financing, the Company may be required to close business or product lines, further restructure or refinance its debt or delay, scale back further or eliminate its research and development program. The Company may also need to obtain funds through arrangements with partners or others that may require it to relinquish its rights to certain technologies or potential products or other assets. The Company's inability to obtain capital, or its ability to obtain additional capital only upon onerous terms, could very seriously damage its business, operating results and financial condition.

ISSUING ADDITIONAL SECURITIES AS A MEANS OF RAISING CAPITAL AND THE FUTURE SALES OF THESE SECURITIES IN THE PUBLIC MARKET COULD LOWER THE COMPANY'S STOCK PRICE AND ADVERSELY AFFECT ITS ABILITY TO RAISE ADDITIONAL CAPITAL IN SUBSEQUENT FINANCINGS; IMPAIR ITS ABILITY IN NEW STOCK OFFERINGS TO RAISE FUNDS TO CONTINUE OPERATIONS; AND WILL HAVE A SIGNIFICANT DILUTIVE EFFECT ON THE COMPANY'S EXISTING SHAREHOLDERS.

The Company intends to rely on debt and equity financings to meet its working capital needs. If the securities that the Company issues in these financings are subsequently sold in the public market, the trading price of its common stock may be negatively affected. As of April 12, 2005, the last reported sale price of the

Company common stock was \$1.25. If the market price of the Company common stock continues to decrease, The Company may not be able to conduct additional financings in the future on acceptable terms or at all, and its ability to raise additional capital will be significantly limited.

Future sales of the Company's common stock, particularly shares issued upon the exercise or conversion of outstanding or newly issued securities upon exercise of its outstanding options, could have a significant negative effect on the market price of the Company's common stock. These sales might also make it more difficult for the Company to sell equity securities or equity-related securities in the future at a time and price that it would deem appropriate. The Company has agreed to use its best efforts to register shares issued to the sole-shareholder of ACP. When these shares are registered, there will be many more shares that may be sold, which could have a significant negative impact on the market price of the Company's common stock.

Shares issued in connection with the Merger and the conversion or exercise of convertible securities into shares of the Company's common stock will result in substantial dilution to the Company's existing shareholders. In order to consummate the merger with ACP, the Company intends to issue approximately 600,000 shares of common stock to the sole-shareholder of ACP.

THE COMPANY'S STOCK PRICE HAS BEEN VOLATILE AND HAS EXPERIENCED SIGNIFICANT DECLINE, AND IT MAY CONTINUE TO BE VOLATILE AND CONTINUE TO DECLINE.

In recent years, the stock market in general, and the market for shares of small capitalization technology stocks in particular, have experienced extreme price fluctuations. These fluctuations have often negatively affected small cap companies such as the Company, and may impact its ability to raise equity capital. Companies with liquidity problems also often experience downward stock price volatility. The Company believes that factors such as announcements of developments relating to its business (including any financings or any resolution of liabilities), announcements of technological innovations or new products or enhancements by the Company or its competitors, sales by competitors, sales of significant volumes of the Company's common stock into the public market, developments in its relationships with customers, partners, lenders, distributors and suppliers, shortfalls or changes in revenues, gross margins, earnings or losses or other financial results that differ from analysts' expectations, regulatory developments and fluctuations in results of operations could and have caused the price of the Company common stock to fluctuate widely and decline over the past three or more years during the technology recession. The market price of the Company common stock may continue to decline, or otherwise continue to experience significant fluctuations in the future, including fluctuations that are unrelated to the Company's performance.

CONSUMMATION OF THE MERGER WILL RESULT IN DIMINUTION OF VOTING CONTROL BY CURRENT SHAREHOLDERS OF THE COMPANY.

The proposed terms of the Merger will result in the sole shareholder of ACP acquiring an approximate twenty one (21%) percent of the voting shares of the Company. As a result, each individual shareholder of the Company will not exert the same degree of voting power with respect to the combined company that it did with the Company prior to the consummation of the Merger.

No fairness Opinion has been obtained. Because of the absence of a fairness opinion, there will be no independent assurance from an expert that the consummation of the Acquisition is fair from a financial point of view to the shareholders of the Company.

Risk Factors of the Merged Company

Amendments to the Telemarketing Sales Rule (the TSR). The amendments to the TSR in 2003 may have a material impact on Planet's and ACP's revenue and profitability. The addition of a national do-not-call list to the growing number of states that already have do-not-call lists has reduced the number of households that the Company may call. Approximately seventy-percent (70%) of Planet's historical customers have placed their names on the national do-not-call list. The Company believes that increasing numbers of its customers will join the DNC list in the future and so has developed direct mailing programs and other sales initiatives to mitigate the effect on future revenues. The Company is also considering regional

and national radio campaigns to reach new customers and plans to diversify its direct-to-consumer approach via strategic acquisition.

In addition to the federal legislation and regulations, there are numerous state statutes and regulations governing telemarketing activities, which do or may apply to us. For example, some states also place restrictions on the methods and timing of telemarketing calls and require that certain mandatory disclosures be made during the course of a telemarketing call. Some states also require that telemarketers register in the state before conducting telemarketing business in the state.

We specifically train our telemarketing representatives to handle calls in an approved manner and believe we comply in all material respects with all federal and state telemarketing regulations. There can be no assurance, however, that Planet would not be subject to regulatory challenge for a violation of federal or state law.

If ACP and Planet continue to experience losses, then the combined company stock value will be negatively impacted. Future profitability is anticipated, but there is no assurance that ACP and/or Planet will become profitable, or if it does, that either will be able to sustain or increase profitability on a quarterly or annual basis. If ACP and/or Planet continues to run at a deficit, then the combined company will require a further infusion of capital. In addition, if the anticipated profitability of ACP and/or Planet does not come to fruition, this will likely have a negative impact on the combined company stock valuation.

Planet has experienced losses, we expect future losses and we may not become profitable. For the years ended December 31, 2004, and 2003, we had net losses of approximately \$773,558 and \$574,135, respectively. As of December 31, 2004, Planet had an accumulated deficit of approximately \$3.7 million.

For the twelve months ended December 31, 2004, 2003 and 2002, ACP reported net losses of \$317,933, \$764,141 and \$3,584,879, respectively. The 2002 loss included a goodwill impairment loss of \$3,348,586 from the adoption of FASB No. 142. On December 31, 2004, ACP had an accumulated deficit of approximately \$9.5 million.

Since we have historically incurred net losses, we expect this trend to continue until some indefinite date in the future. We may not become profitable. If we do achieve profitability, we may not be able to sustain or increase profitability on a quarterly or annual basis.

We may require additional capital in the future which may not be available. Our future capital requirements will depend on many factors, including:

the cost of manufacturing our products;

developing new markets for our products;

competing technological and market developments; and

the costs involved in filing, prosecuting and enforcing patent claims.

We anticipate that our existing resources combined with revenues will enable us to maintain our current and planned operations through December 31, 2005. However, changes in our plans or other events affecting our operating expenses, such as acquisition opportunities, may cause us to expend our existing resources sooner than expected.

We may seek additional funding through private placements of stock or strategic relationships. But the uncertainty as to our future profitability may make it difficult for us to secure additional financing on acceptable terms, if we are able to secure additional financing at all. Insufficient funds may require us to delay, scale back or eliminate some or all of our activities.

We are subject to penny stock regulations. Our common stock is not listed or qualified for listing on NASDAQ or any national securities exchange but is only sporadically traded in the over-the-counter market in the so-called OTC Bulletin Board. As a result, an investor will find it difficult to dispose of, and to obtain accurate quotations as to the value of, our common stock.

Our common stock is classified as a penny stock by the Securities and Exchange Commission. The classification severely and adversely affects the market liquidity for our common stock. The Commission has adopted Rule 15g-9, which establishes the definition of a penny stock for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require: (i) that a broker or dealer approve a person's account for transactions in penny stocks; and (ii) the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased. In order to approve a person's account for transactions in penny stocks, the broker or dealer must (i) obtain financial information and investment experience objectives of the person; and (ii) make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks. The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prepared by the Commission relating to the penny stock market, which, in highlight form, sets forth (i) the basis on which the broker or dealer made the suitability determination and (ii) that the broker or dealer received a signed, written agreement from the investor prior to the transaction. Disclosure also has to be made about the risks of investing in penny stocks in public offerings and secondary trading and about the commissions payable to the broker-dealer and registered representative, current quotations for the securities and the rights and remedies available to an investor in case of fraud in penny stock transaction. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

Any inability to adequately retain or protect our employees, customer relationships and proprietary technology could harm our ability to compete. Our future success and ability to compete depends in part upon our employees, customer relationships, proprietary technology and trademarks, which we attempt to protect with a combination of trademark and trade secret claims. These legal protections afford only limited protection. Further, despite our efforts, we may be unable to prevent third parties from soliciting our employees or customers or infringing upon or misappropriating our intellectual property. Our employees, customer relationships and intellectual property may not be adequate to provide us with a competitive advantage or to prevent competitors from entering the markets for our product and services. Additionally, our competitors could independently develop non-infringing technologies that are competitive with, and equivalent or superior to, our products. We will monitor infringement and/or misappropriation of our proprietary rights. However, even if we do detect infringement or misappropriation of our proprietary rights, litigation to enforce these rights could cause us to divert financial and other resources away from our business operations.

The departure of certain key personnel could harm the financial condition of the Company. Several of our employees are intimately involved in our business and have day-to-day relationships with critical customers. Planet is not able to afford additional staff to supplement these key personnel. Competition for highly skilled business, product development, marketing and other personnel is intense, and there can be no assurance that we will be successful in recruiting new personnel or in retaining our existing personnel. A failure on our part to retain the services of these key personnel could have a material adverse effect on our operating results and financial condition. We do not maintain key man life insurance on any of our employees.

Edward J. Steube, Chief Executive Officer, is deemed to be a key employee of ACP. His departure would negatively impact the company, creating a temporary leadership and management vacuum, which would be difficult to replace on a timely basis. The company does not anticipate Mr. Steube's departure as a result of the transaction or, independent of the transaction, as a result of any plans to leave or retire. Mr. Steube has agreed to an employment contract, which will be executed contingent upon completion of the contemplated transaction.

W. Sanford Miller, currently President of ACP, will be leaving the company just prior to completion of the contemplated transaction under a severance agreement executed between Mr. Miller and ACP's current stockholder. Mr. Miller is not deemed to be a key employee of ACP, which will have no ongoing financial obligation to Mr. Miller following completion of the transaction.

If the combined company is unable to compete with its numerous competitors, then the combined company may lose market share resulting in increased losses. The combined company has many competitors with comparable characteristics and capabilities that compete for the same group of customers. Competitors are competent and experienced and, like the combined company, are continuously working to capture market share. These competitors may have greater financial, marketing and other resources. The combined company's ability to compete effectively may be adversely affected by the ability of these competitors to devote greater resources to the sales and marketing of their products and services.

Any inability to retain or protect its customer relationships could harm the combined company's ability to compete. In the normal course of events, competitors work to replace the combined company as a provider of information and products in each of the company's delivery channels. Despite its efforts, ACP may be unable to prevent third parties from effectively soliciting its customer relationships. While the combined company is not dependent upon any one customer for a material amount of its revenues, any lost customer relationship would be marginally harmful to the company's revenue stream until such time as replacement relationships are forthcoming.

There are risks associated with our planned growth. We plan to grow the Company's revenues and profits by adding to our existing customer base through internal growth and by the acquisition of other companies.

Management believes that Planet can grow through the acquisitions of other allergy control related companies as part of a roll-up strategy. The acquisition of other companies is uncertain and contains a variety of business risks, including: cultural differences, the retention of key personnel, competition, protection of intellectual property, profitability, industry changes and others.

Although we do not have an agreement to acquire any specific company at this time, other than Allergy Control Products, we intend to attempt to expand our operations through the acquisition of other companies. Acquisitions and attempted acquisitions may place a strain on our limited personnel, financial and other resources. Our ability to manage this growth, should it occur, will require expansion of our capabilities and personnel. We may not be able to find qualified personnel to fill additional positions or be able to successfully manage a larger organization.

We have very limited assets upon which to rely for adjusting to business variations and for growing new businesses. While we are likely to look for new funding to assist in the acquisition of other profitable businesses, it is uncertain whether such funds will be available. There can be no assurance that we will be successful in raising a sufficient amount of additional capital, or if we are successful, that we will be able to raise capital on reasonable terms. If we do raise additional capital, our existing shareholders may incur substantial and immediate dilution.

Future sales of our common stock by existing shareholders under Rule 144 or this offering could decrease the trading price of our common stock. As of December 31, 2004, a total of approximately 1,955,397 shares of outstanding common stock were restricted securities and could be sold in the public markets only in compliance with rule 144 adopted under the Securities Act of 1933 or other applicable exemptions from registration. Rule 144 provides that a person holding restricted securities for a period of one year may thereafter sell, in brokerage transactions, an amount not exceeding in any three-month period the greater of either (i) 1% of the issuer's outstanding common stock or (ii) the average weekly trading volume in the securities during a period of four calendar weeks immediately preceding the sale. Persons who are not affiliated with the issuer and who have held their restricted securities for at least two years are not subject to the volume limitation. Possible or actual sales of our common stock by present shareholders under Rule 144 could have a depressive effect on the price of our common stock. We have filed a registration statement to register many of these shares, which may be sold without the above limitations when and if the registration statement becomes effective.

In addition to the 1,955,397 shares of outstanding common stock above, AF Partners, LLC, holds a convertible subordinated promissory note in the principal amount of \$252,757 at December 31, 2004 with interest at 5.5% per annum, compounded quarterly and computed on the basis of a year consisting of 360 days

and four quarterly periods each consisting of 90 days. AF Partners, LLC, has the option to convert the principal and accrued interest outstanding at a price of at least \$2.50 per share, at any time until the note is paid off in full. Further, LBC Capital Resources, Inc. holds a warrant to purchase up to a maximum of 50,000 shares of Company common stock. This warrant expires on November 29, 2005.

Certain officers and directors of the Company hold options at various exercise prices, exercise dates and expiration dates that equal the right to purchase 228,653 shares of Company common stock.

Our directors and executive officers beneficially own approximately 50% of our stock, including stock options and warrants exercisable within 60 days of January 1, 2005; their interests could conflict with yours; significant sales of stock held by them could have a negative effect on our stock price; shareholders may be unable to exercise control. As of January 1, 2005, our executive officers, directors and affiliated persons were the beneficial owners of approximately 50% of our common stock, including stock options exercisable within 60 days of January 1, 2005. As a result, our executive officers, directors and affiliate persons will have significant ability to:

elect or defeat the election of our directors;

amend or prevent amendment of our articles or incorporation or bylaws;

effect or prevent a merger, sale of assets or other corporate transaction; and

control the outcome of any other matter submitted to the shareholders for vote.

As a result of their ownership and positions, our directors and executive officers collectively, are able to significantly influence all matters requiring shareholder approval, including the election of directors and approval of significant corporate transactions. In addition, sales of significant amounts of shares held by our directors and executive officers, or the prospect of these sales, could adversely affect the market price of our common stock. Management's stock ownership may discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us, which in turn could reduce our stock price or prevent our shareholders from realizing a premium over our stock price.

Absence of Dividends. We have not paid any cash dividends on our Common Stock since our inception and do not anticipate paying cash dividends in the foreseeable future.

ACP does not possess any proprietary technology. Competitors could independently develop non-infringing technologies that are competitive with, and equivalent or superior to, ACP's products. In addition to the negative impact such new technologies could have on ACP's business, if infringement or misappropriation of its proprietary rights is detected, litigation to enforce such rights could cause ACP to divert financial and other resources away from its business operations.

The departure of certain key personnel could harm the financial condition of the company. Several of our employees are intimately involved in our business and have day-to-day relationships with critical customers and processes. Competition for highly skilled business, product development, marketing and other personnel is intense, and there can be no assurance that the company will be successful in recruiting new personnel or in retaining its existing personnel. A failure to retain the services of these key personnel could have a material adverse effect on ACP's operating results and financial condition.

Insurance Reimbursement Systems. An additional risk factor is posed by insurance reimbursement systems in Europe and Canada, where pricing pressure is exerted on the company's products due to the necessity of conforming to system-imposed price guidelines favoring lower cost products. This is not a risk in the United States, where insurance does not cover the cost of the company's products.

Newly Introduced Product Testing Programs. An additional risk factor is posed by newly introduced product testing programs for allergen barrier bedding products in Germany. This has caused the company's fabric suppliers to reformulate fabric content to comply with guidelines not previously required in Germany. ACP's current product offerings in Germany have been reformulated and are in compliance with product testing guidelines, but there can be no assurance that future new guidelines will not require additional reformulations.

PROPOSAL 1 THE MERGER

Overview

Allergy Control Products, Inc., a Delaware corporation, (ACP) is engaged in the business of developing and marketing environmental controls to reduce allergen exposure. Such environmental control products include: allergen proof pillow and mattress encasings, HEPA filter air cleaners, HEPA filter vacuum cleaners, carpet treatments and respiratory products.

On March 7, 2005, the Company entered into an Agreement and Plan of Merger (the Agreement) with ACP, whereby the Company agreed, subject to shareholder approval, to purchase substantially all of the assets and assume certain liabilities of ACP (the Merger). The Agreement is the main legal document that governs the transaction and is attached to this proxy statement as Exhibit C with the exception of the exhibits thereto which will be provided upon request. We encourage you to read the Agreement carefully. The descriptions of the Agreement set forth below are qualified in their entirety by reference to the full text of the Agreement including all exhibits, schedules and other documents incorporated by reference thereto.

In the Merger, the Company will issue and deliver to the sole-shareholder of ACP approximately 600,000 shares of the Company s common stock. As a condition to, and simultaneously with, the effective time of the Merger, the Company shall cause to be paid to Jonathan T. Dawson the sum of \$1,500,000 cash. The stock and cash to Dawson represents payment in full payment of all indebtedness of ACP to Mr. Dawson, its sole-shareholder. The combined company will have no debt to Mr. Dawson after the Merger.

Reasons for the Merger

In approving the Merger and in recommending that the Company s shareholders approve the Agreement and Plan of Merger and the Merger, the Company board of directors considered a number of factors, including, without limitation, the following factors which the Company believes includes all material factors:

Information concerning the Company s and ACP s respective businesses, prospects, business plans, financial performance and condition, results of operations, technology and competitive positions;

The compatibility of the Company s business with that of ACP s business. In the past ACP like Planet has obtained additional financing from existing shareholders and debt from banks. ACP anticipates it could require up to an addition \$500,000 in working capital support to cover expenses of this transaction and normal operations;

The due diligence investigation conducted by the Company s management;

The terms of the Agreement and Plan of Merger, including price and structure, which were considered by the Company board of directors to provide a fair and equitable basis for the Merger; and

The current financial market conditions and historical stock market prices, volatility and trading information. In arriving at its determination that the Merger is in the best interest of the Company and its shareholders, the board of directors carefully considered the terms of the Agreement and Plan of Merger and the other transaction documents, as well as the potential impact of the merger on the Company. In authorizing the merger, the board of directors considered the factors set out above as well as the following factors:

A stronger and more compelling portfolio of products created by the addition of ACP s product line, including a broader range of allergen proof pillow and mattress encasings, HEPA filter air cleaners, HEPA filter vacuum cleaners, carpet treatments and respiratory products, as a result of the Merger;

ACP s expertise and experience in marketing to the medical professional;

ACP s access to distribution channels not previously utilized effectively by the Company; and

Operational synergies expected to reduce the combined operating expenses. Although the Company's principal executive office will remain in San Diego, California, the Company plans to consolidate operations of the Company and ACP into ACP's operations in Ridgefield, Connecticut, under the direction of Edward J. Steube as President of the ACP subsidiary.

The Company board of directors also considered the following potentially negative factors: the risk that the potential benefits sought in the Merger might not be fully realized;

the dilution to the Company's existing shareholders;

the potential negative effect on the Company's stock price associated with public announcement of the proposed Merger;

the potential negative effect on the Company's stock price if revenue, earnings and cash flow expectations of the Company following the Merger are not met;

the potential dilutive effect on the Company's common stock price if revenue and earnings expectations for ACP's business operations are not met;

the ability to successfully manage the combined operations of the Company and ACP; and

the other risks and uncertainties discussed under Risk Factors.

In view of the variety of factors considered in connection with its evaluation of the Merger, the Company board of directors did not find it practical to, and did not quantify or otherwise attempt to, assign relative weight to the specific factors considered in reaching its conclusions. Additionally, the Company board of directors did not undertake to make any specific determination as to whether any particular factor, or any aspect of any particular factor, was favorable or unfavorable to its ultimate determination, but rather conducted an overall analysis of the factors described above. In considering the factors described above, individual members of the board of directors may have given different weight to different factors. After taking into account all of the factors set forth above, the members of the Company board of directors concluded that the Agreement and Plan of Merger and the related Merger were advisable and in the best interests of the Company and its shareholders and that the Company should proceed with the Merger.

Accounting Treatment of the Merger

The transaction will be accounted for as a purchase with Planet as the accounting acquirer. At the consummation of the transaction, the purchase price will be allocated to the fair value of the assets acquired with the excess attributed to goodwill. There are no other identifiable intangible assets involved with the transaction. At this stage of the transaction, given the current nature of the assets of ACP, (i.e. accounts receivable and inventory) the book value has been assumed to equal the fair market value and the excess of the purchase price over that value has been assumed to be goodwill.

Background and Negotiations Related to the Merger

In January and February 2004, Allergy Free, LLC (Allergy Free, now Planet) began an analysis of its competitors within the allergy avoidance industry. Allergy Free's business purpose in analyzing its competitors and the industry as a whole, was to determine whether there existed a potential strategic combination with another company within the industry to better optimize Allergy Free's business plan moving forward.

This analysis included looking at companies that sold through high volume retailers such as WalMart or Home Depot, marketers who sold to retailers through television infomercials and companies focused on higher quality products selling through the medical professional.

After performing the aforementioned industry analysis, the Company came to the conclusion that their product line did not meld with higher volume/lower quality goods. The Company had made its reputation by marketing the highest quality products in the market and an arrangement with a less efficacious product might

harm the Company's position in the market. The Company then focused on three companies in the segment of which one was ACP. One of the three was dismissed since its products were promoted over the internet and would not broaden the distribution of product line. The final two companies had product lines that were complementary to those of the Company and they sold the highest quality products available through physicians. The Company identified ACP as the strongest candidate company for a potential strategic combination and the other acquisition candidate was going through recapitalization. Earlier in 2004 Shauna Salzetti of the Company contacted Sanford Miller, Vice President of ACP, to discuss the potential for cross promotion of products between the two companies. Shortly thereafter, Scott L. Glenn, the then Manager of Allergy Free contacted Edward Steube the President of ACP to introduce the idea of a potential strategic alliance between their respective companies.

In the middle of 2004, Mr. Glenn met with Mr. Steube at ACP's headquarters in Ridgefield, Connecticut, to tour the ACP facilities in order to gain a greater understanding of the ACP business structure and culture and to further discussions regarding a potential strategic alliance between the companies. Key areas such as the potential to cross merchandize each others products and utilize Planet's telemarketing services for ACP's existing customer base were all upsides identified.

From the initial meetings through December 2004, the Company performed various financial analyses to determine the viability of a strategic alliance with ACP and when deemed viable, the most beneficial form for the alliance. As part of this analysis the parties shared their operating components and outlined a plan for consolidation of operations into ACP's Ridgefield, CT facility.

In January 2005, Scott L. Glenn, in the capacity of President of Planet, began discussing the terms of an alliance with Jonathan Dawson, the sole-shareholder of ACP and an employment agreement with Edward Steube as President of ACP. Thereafter, counsel for Planet and counsel for ACP began active discussions regarding preliminary terms and conditions of the Agreement and Plan of Merger.

In February 2005, an initial draft of the Agreement and Plan of Merger was begun.

On January 25, 2005, at a regularly scheduled Planet Board of Directors meeting, which included all directors except Mr. Trinkle who was unable to attend due to medical reasons, Mr. Glenn reviewed the possible acquisition of ACP. During a lengthy discussion, the Board reviewed the synergies of the operations including the consolidation into the ACP facility, the complementary distribution avenues with ACP marketing to physicians while Allergy Free markets to consumers and the strengthening of the Company's overall operations with sales in the \$8-9 million range, which could lead to increased shareholder value and a stabilized share price. It was moved, seconded and approved that the Company move forward in its discussions with ACP, for stock and cash, contingent upon shareholder approval.

On March 7, 2005, at a regularly scheduled Planet Board of Directors meeting, which included all directors except Mr. Trinkle who was unable to attend due to medical reasons, Mr. Glenn reviewed the final proposed merger agreement with ACP. The parties (ACP and Jonathan Dawson) had agreed on the general terms of \$1,500,000 cash and 600,000 shares of the Company's stock. After some discussion on the value of the stock component and the ability of the company to raise the funds required for the merger, it was noted that the stock price has varied from \$.60 to \$4.00 per share and that this transaction was acceptable within this range. Regarding the ability to raise the funds, the Board recognized this as a risk and agreed to continue the existing private placement on the same terms of \$2.50 per share for amount up to an additional \$3 million dollars to cover the cost of the acquisition, its associated costs and any upcoming deficits in working capital. The Board gave its unanimous approval for Mr. Glenn to sign the merger agreement with ACP. Subsequent to the Board meeting, the Agreement and Plan of Merger and related documents were executed and delivered. In a separate document the Board, through unanimous consent, approved the extension of the financing.

On March 10, 2005, ACP and the Company issued a public announcement of the Merger.

Federal or State Regulatory Approval Requirements.

None required.

No Fairness Opinion

The Company has not obtained the opinion of any financial advisor or other third party as to the fairness of the Merger to the shareholders of the Company from a financial point of view, or as to any other matters. The Company estimates the cost of a fairness opinion would be at least \$50,000 and could take four to six weeks to obtain. The Board of Directors of the Company did not believe that obtaining such an opinion would be an appropriate use of corporate funds, considering the limited financial resources of the Company. Nevertheless, the Board of Directors of the Company believes that the Merger is in the best interests of the shareholders of the Company.

Because of the absence of a fairness opinion, there will be no independent assurance from an expert that the consummation of the Acquisition is fair from a financial point of view to the shareholders of the Company.

Completion of the Merger

The Company and ACP are working toward completing the Merger as quickly as possible. The Company and ACP intend to complete the Merger promptly after the shareholders of the Company approve the Merger at the annual shareholders meeting. The Company and ACP expect to complete the Merger in the second quarter of 2005.

The obligations of the Company and ACP to complete the Merger are subject to the satisfaction or waiver of several closing conditions, including, in addition to other customary closing conditions, the following:

The Company's shareholders and ACP's shareholder must have approved and adopted the Agreement and Plan of Merger and the related Merger.

No injunction or other order shall have been issued to prohibit consummation of the Merger.

The representations and warranties of the Company and ACP shall be true and correct as of the date of the Agreement and Plan of Merger and the Effective Time of the Merger.

The Company and ACP shall have performed all obligations required to be performed under the Agreement and Plan of Merger.

The Company shall have retained Edward Steube as President and Chief Executive Officer of ACP, as a subsidiary of the Company.

The Company shall have caused to be paid to Jonathan T. Dawson cash in the amount of \$1,500,000 in full repayment of all obligations of ACP to Mr. Dawson. These obligations represent cash loans made by Mr. Dawson to ACP. No debt will be outstanding to Mr. Dawson after issuance of the 600,000 shares and the \$1,500,000 cash to Mr. Dawson.

Termination prior to completion of Merger

The Agreement and Plan of Merger may be terminated before the Merger is completed:

by mutual written consent;

by either party, if the Acquisition has not been completed by September 30, 2005 through no fault of the terminating party;

by the Company, if ACP has entered into discussions or has received a proposal regarding a merger, reorganization, share exchange, consolidation or similar transaction involving ACP, or any purchase of all or substantially all of the assets of ACP or more than 10% of the outstanding equity securities of ACP, and continue said discussions with any third party for more than 15 Business Days after receipt of the proposal or beginning discussions; and

by either party, if there has been a material breach by the other party of any representation, warranty, covenant or agreement in the Acquisition, and the breach has not been cured within 30 days after written notice (except that no cure period shall be required for a breach which cannot be amended within 30 days).

Termination Fees

The Company or ACP may be required to pay a termination fee to the other party as follows:

If ACP terminates the Agreement because:

The Company has breached a representation or warranty of the Company as provided in the Agreement, the Company shall pay to ACP \$150,000 as a termination fee; or

ACP accepts an acquisition or other similar proposal from a third party, then ACP must pay to the Company \$150,000 as a termination fee.

Dissenters Rights

If the Merger is approved by the required vote of the Company's shareholders and is not abandoned or terminated, holders of the Company's common stock who did not vote in favor of the Merger and who notify the Company in writing of their intent to demand payment of their shares if the Merger is consummated, may, by complying with Sections 1300 through 1312 of the California Corporations Code, a copy of which is attached hereto as Exhibit D, be entitled to dissenters' rights as described therein. The Company's shareholders must notify the Company of their intent to dissent and submit to the Company at its principal office the shareholder's certificates representing any shares which the shareholder demands that the Company purchase, to be stamped or endorsed with a statement that the share are dissenting shares, or if the shares are uncertificated securities, written notice of the number of shares which the shareholder demands that the Company purchase, within 30 days of the date that the notice of approval of the Merger is mailed to all the Company's shareholders who did not vote in favor of the Merger.

Under California law, a shareholder's failure to vote against a proposal does not constitute a waiver of appraisal rights.

THE AGREEMENT AND PLAN OF MERGER

The following is a brief summary of the some of the material terms of the Agreement and Plan of Merger. MANAGEMENT'S DISCUSSION OF THE COMPANY

Description of the Company's Business

General

On November 30, 2004, the Company acquired the business of Allergy Free, LLC, and is now engaged in the business of designing, manufacturing, selling, and distributing common products for use by allergy sensitive persons, including, without limitation, air filters, bedding, room air cleaners, and related allergen avoidance products. Allergy Free acquired its business on or about November 3, 2000, when it acquired substantially all of the assets and business of Allergy Free, L.P., a Delaware limited partnership. The business strategy is primarily based upon the marketing and selling of a complete range of branded, allergen avoidance products to its database of customers who have purchased the Allergy-Free® Electrostatic Filter. Promotion is

executed primarily through direct telemarketing, supplemented with direct mail, radio, and Internet advertising. In addition, we will continue to pursue co-marketing opportunities with appropriate partners in order to increase consumer awareness and expand our customer base. We will market our products under the Allergy Free® trade name. In conjunction with these activities, the Company operates an e-commerce website for the sale of Allergy-Free® products at www.800allergy.com.

The allergy avoidance product industry provides products and information that help people suffering from allergies or asthma to reduce the level of exposure to allergens in their environment. Market categories include: air filtration products, mold and mildew products, and products to avoid exposure to dust mites and other allergens. Market distribution channels include: direct to consumer sales, physician directed sales, the Internet, and retail. Competitors include National Allergy Supply, Mission Allergy, Allergy Control Products, Allergy Buyers Club, 3M and Sharper Image.

The Company's business, products, and properties are more fully described in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2004 attached hereto as Exhibit B.

In addition, the Company offers 3 to 10 year warranties for manufacturing defects on its permanent and flexible filter products. A provision for potential warranty claims is provided for at the time of sale, based upon warranty terms and the Company's prior experience.

ACP'S BUSINESS

Description of ACP's Business

General

Allergy Control Products, Inc. (ACP) is a supplier of indoor allergen avoidance products. ACP's core business strategy is to supply a complete range of high quality products to physician's patients who are allergy sufferers, as well as to previous customers. Promotion is executed through (a) distribution of catalogs to physicians' offices, for subsequent re-distribution to patients, (b) distribution of catalogs directly to previous customers and (c) selective e-commerce marketing initiatives. Customer transactions are primarily handled

through ACP's in-bound call center and its website. In addition to this core business strategy, ACP also sells selective products on a wholesale basis to domestic retailers as well as to international distributors.

Products include ACP's own Allergy Control® branded bedding products, which are effective barriers to the transmission of dust mite allergen and pet dander. ACP also markets other bedding products, carpet cleaning and laundry products, vacuums, air cleaners and air filters, sinus and breathing aids, respiratory products, dehumidifiers, mold prevention and house cleaning products, pet allergy products and certain allergy-related skin and hair care products.

Market distribution channels (non-wholesale) for allergen avoidance products include: physician-directed sales, direct to consumer sales, the Internet and retail. In the physician-directed sales segment, ACP's primary competitors are National Allergy Supply, Asthma and Allergies Technology, Allergy Solutions and Mission Allergy.

Seasonality of ACP's Business, Competitive Conditions, Regulatory Environment.

ACP's domestic retail business, which in 2004 accounted for approximately eighty-one percent (81%) of total gross sales, is seasonal. For example, in 2004, the quarterly sales pattern, stated as a percent of total annual sales, was as follows: Q1=27.7%; Q2=22.5%; Q3=23.7%; Q4=26.1%. This quarterly pattern is typical of seasonality experienced in previous years.

ACP is a leading factor in the physician-directed sales segment. Its competitors include National Allergy Supply, Asthma and Allergies Technology, Allergy Solutions and Mission Allergy. While certain competitors compete primarily on a discount pricing basis, ACP strives to compete on a quality and service basis. ACP's catalog offers information and products, which are among the highest quality available. ACP also supplies and communicates with its physician office relationships at the highest level of service available.

ACP is not subject to regulatory authorities governing the approval or sale of its products.

Products and Technologies

ACP offers the following allergen barrier bedding products under its own Allergy Control® brand. All of these products are contract manufactured to ACP's specifications for optimal quality and reliability.

Encasings: ACP offers three encasing product lines, each with distinct levels of allergen barrier effectiveness, comfort, durability and price. Its Pristine® Complete and Pristine® Relief encasings use micro-fiber fabrics. ACP's Economy encasings use laminated fabrics.

Blankets: ACP offers Snuggable® blankets, which are made from a top quality 300-weight Polartec® fleece, which has a high level of softness and warmth without extra weight. Allergy sufferers benefit from their use specifically because the blankets hold up exceptionally well through repeated hot water washing, which is the recommended process to eliminate allergens.

Comforters: As with its Pristine® Complete encasings, ACP's comforters are manufactured with the most advanced Pristine® encasing fabric. It delivers complete dust mite and pet allergen protection, is luxuriously soft and breathable like fine cotton linens and also includes an anti-microbial treatment. The comforters are available in both light and heavier weights.

Pillows: ACP offers two Allergy Control®/Pristine® Deluxe pillow styles—a contour neck style and a gusseted style. As in the case of ACP's branded comforters, allergy sufferers who use these branded pillows do not require encasings, since the product itself is manufactured with highly effective and comfortable allergen barrier fabric.

In addition to Allergy Control® branded bedding products, ACP offers a comprehensive list of other products for allergy sufferers. The following includes some of the important brand offerings per category in ACP's current product mix:

Bedding: Comforel® mattress cushions, Wamsutta® sheets and pillowcases.

Carpets and Laundry: Allersearch®, Capture®, DustMite®, Bissell® and De-mite® branded products.

Vacuums: A variety of Miele® vacuums, at differing price points.

Air Cleaners: Austin Air®, Blueair®, Honeywell® and Whirlpool® brands.

Air Filters: 3M®, Allergy Pro® and Allergy Zone® brands.

Respiratory (Nebulizers and Compressors): Omron® and Pari® brands.

Product Registrations

ACP does not directly manufacture any product requiring EPA or FDA registration.

Licensed Technology and Intellectual Property

ACP does not directly license technology associated with its products. ACP does have an agreement with Precision Fabrics Group, Inc (PFG), whereby PFG exclusively provides to ACP its highest quality micro-woven fabric. This agreement was originated in 1998 and was amended in 2004, extending its term until December 31, 2008.

Research and Development

ACP is not actively developing new products, although ACP has historically worked with various third parties to develop new bedding products and product line extensions.

Customers of ACP

The primary customer for ACP's products is the consumer who is an allergy sufferer. In addition, a limited number of domestic retailers purchase ACP's products for resale to the public. A limited number of international distributors also purchase certain products for resale to various parties located within their respective countries and/or market territories.

Physician offices are an important intermediary between ACP and the consumer. ACP receives customer orders from patients of more than 5,000 identified physicians. ACP has no distribution agreements with its referring physicians.

ACP's sales are primarily retail sales. In 2004, ACP's delivery channels accounted for the following percentage of total sales: Domestic Retail = 81%; International Wholesale = 10%; Domestic Wholesale = 9%.

ACP has no customer generating 10% or more of its revenues. ACP has no physicians generating a materially significant portion of its customers.

Suppliers of ACP

In addition to the already indicated branded product suppliers, ACP purchases raw materials for use in manufactured bedding products from two sources:

Precision Fabrics Group (micro-woven allergen barrier fabric)

Shawmut Mills (laminated allergen barrier fabric)

ACP has no written supply agreements with Shawmut Mills. ACP has no written supply agreements with Precision Fabrics Group, with the exception of its exclusivity agreement on the fabric referred to as Pristine

100. ACP's exclusive use of this fabric is contingent upon ACP purchasing a minimum average monthly yardage of the fabric. ACP has exceeded this minimum over the 12-month period ending March 31, 2005.

Critical materials generally are obtainable from alternative vendors. The primary material used is fabric. Alternative fabrics are available from vendors other than either Shawmut Mills or Precision Fabrics. None of the key raw materials used by ACP are inherently scarce.

ACP does not engage in manufacturing activity. Raw materials for bedding products are purchased, delivered to contract manufacturers, who in turn generate finished products according to ACP's specifications.

Sales and Marketing

ACP employs staff to manage and perform marketing, sales and customer service functions. Currently, ACP actively markets through its physician and customer catalogs, as well as on the Internet.

Employees of ACP

As of March 31, 2005, ACP employed 10 full-time and 23 part-time employees.

As of March 31, 2005, ACP's employee head count, including both part-time and full-time, consists of the following, broken down by functional categories:

Physician Sales/ Service	3
Executive/ Administrative	5
Shipping/ Receiving/ Warehouse	5
Call Center/ Customer Service	12
Wholesale (Int'l and Domestic)	2
Operations/ IT	3
Marketing	1
Purchasing	2
TOTAL	33

Properties

The executive offices and warehouse of ACP are located in approximately 13,317 square feet of leased space at 96 Danbury Road, Ridgefield, CT 06877, subject to a lease, which terminates September 30, 2007.

ACP'S MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

ACP's management's discussion and analysis of financial condition and results of operations contain forward-looking statements, which involve risks and uncertainties. ACP's actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth in the section entitled "Risk Factors" of this proxy statement.

Overview

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes. ACP evaluates its estimates and assumptions on an on-going basis. These estimates are based on historical experience and on assumptions that ACP believes to be reasonable under the circumstances. ACP's experience and assumptions form the basis for its judgments about the carrying value of its assets and liabilities that are not readily apparent from other sources.

Actual results may vary from what ACP anticipates and different assumptions or estimates about the future could change ACP's reported results. ACP believes the following accounting policies are most critical to it, in that they are important to the portrayal of its financial statements and they require ACP's most difficult, subjective or complex judgments in the preparation of its financial statements.

Revenue Recognition

ACP recognizes revenue when its products are shipped.

Returns are recognized upon receipt of the products. A provision for warranty costs has not been accrued because, in the opinion of management, warranty costs are not subject to reasonable estimation. Management believes the effects of the foregoing are not material to the financial statements taken as a whole.

ACP accepts return of products sold if they are returned in salable condition within 30 days, and if defective for the warrantee period of between 90 days and lifetime. Approximately 81% of ACP's sales are domestic retail sales.

ACP historically has accounted for returns upon receipt of products. For the year ended December 31, 2004 and 2003, the total cost of product returns from sales in prior years equaled approximately \$24,000 and \$28,000 respectively. These amounts include both warrantee claims and return of salable items for credit, but these amounts are not segregated. Accrual of potential returns for credit and warrantee claims was judged immaterial.

Net sales are shown after adjustments for returns and credit card commissions. For the year ended December 31, 2004 and 2003, adjustments for returns totaled approximately \$255,000 and \$238,000 respectively. Adjustments for credit card commissions totaled approximately \$168,000 and \$165,000 respectively.

Impairment of Long-Lived Assets

In assessing the recoverability of its long-lived assets, ACP must make assumptions regarding estimated future cash flows and other factors to determine the fair value of the respective assets. If these estimates or their related assumptions change in the future, ACP may be required to record impairment charges for these assets.

Statement of Operations Data

The following tables set forth certain items in ACP's Statements of Operations for the periods indicated.
Years Ended December 31, 2004 and 2003

	2004	2003	Change	%
Sales	\$ 7,714,653	\$ 8,266,863	\$ (552,210)	(6.7)%
Cost of Sales	\$ 4,581,795	\$ 5,232,904	\$ (651,109)	(12.4)%
Gross Profit	\$ 3,132,858	\$ 3,033,959	\$ 98,899	3.3%
Operating Expenses	\$ 3,439,875	\$ 3,772,358	\$ (332,483)	(8.8)%
Loss from Operations	\$ (307,017)	\$ (738,399)	\$ (431,382)	(58.4)%
Other Income (Expense)	\$ (10,916)	\$ (25,742)	\$ (14,826)	(57.6)%
Net Loss	\$ (317,933)	\$ (764,141)	\$ (446,208)	(58.4)%

Net Sales decreased 6.7% from \$8,266,863 for the twelve months ended December 31, 2003, to \$7,714,653 for the twelve months ended December 31, 2004. This was primarily due to a decline in sales to international distributors, which was caused by several factors. First, the European economies were relatively weak, particularly in Germany which is the market served by ACP's largest international distributor. Second, competition and insurance reimbursement systems generally continued to put pressure on pricing for allergen

barrier bedding products. And third, newly introduced consumer product testing programs in Germany temporarily put ACP's products at a competitive disadvantage.

Gross Profit increased 3.3% from \$3,033,959 for the twelve months ended December 31, 2003, to \$3,132,858 for the twelve months ended December 31, 2004. The net impact of price increases and order discounts implemented during the year contributed to gross margin improvement on catalog and web site customer purchases. Primary raw material cost reductions lowered the cost of goods sold on manufactured bedding products. And overall margins benefited from the fact that lower margin international sales accounted for a smaller percentage of total sales.

Selling and General and Administrative Expenses decreased 8.8% from \$3,772,358 for the twelve months ended December 31, 2003 to \$3,439,875 for the twelve months ended December 31, 2004. Selling Expense declined \$132,786, or 12.2%. In 2003, ACP implemented an aggressive new physician marketing program, which included substantial catalog re-design expense, as well as increased catalog distribution to prospective referring physicians. In 2004, the company re-focused physician marketing on referring physicians, resulting in reduced catalog distribution expense. General and Administrative Expense declined \$199,697, or 7.4%. Of note was lower expense associated with computer leasing, due to completion of the original lease period on the company's integrated operating system installed in 2001.

RESULT OF OPERATIONS FOR FIRST QUARTER, 2005

The net loss for the three months ended March 31, 2005, was \$82,961 compared to a net loss of \$57,565 for the three-month period ending March 31, 2004.

The Company's net sales decreased by \$78,146, from \$2,236,101 for the three months ended March 31, 2004, to \$2,157,955 for the same period in 2005. This decrease was due to a decline in domestic wholesale sales. A major contributing factor to the decline in domestic wholesale sales was the completion in 2004 of a non-recurring, co-promotional contract with a major pharmaceutical company.

Cost of sales decreased to \$1,296,463 for the three months ended March 31, 2005, from \$1,392,202 for the same period in 2004, despite the decline in sales. Overall gross margin, as a percentage of net sales, increased positively period over period, from 37.7% for the three months ended March 31, 2004 to 39.9% for the three months ended March 31, 2005. This positive increase in gross margin is primarily due to increased product prices, which were introduced beginning in late 2004, as well as to selective raw material cost reductions on manufactured bedding products.

Total operating expenses increased by \$47,625 to \$944,915 for the three months ended March 31, 2005, from \$897,290 for the three months ended March 31, 2004. This increase was primarily due to audit-related accounting expense which was incurred in the three-month period ending March 31, 2005, but was not incurred during the same period in 2004.

Other income (expense) was immaterial in both periods. There was other income of \$462 for the three months ended March 31, 2005 compared to other expense of \$4,174 for the three months ended March 31, 2004.

Off Balance Sheet Arrangements

None.

Liquidity and Capital Resources

Cash totaled \$78,107 at December 31, 2004, compared to \$165,714 at December 31, 2003. Net cash used by operating activities was \$25,966 during 2004. During the fourth quarter of 2004, ACP made a payment of short-term borrowings totaling \$250,000. Of this amount, \$50,000 was provided out of ACP's working capital and \$200,000 was provided out of proceeds of borrowings from the stockholder.

Inventories at December 31, 2004 decreased by a net amount of \$104,712 or 14.5% to \$616,471 compared to \$721,183 at December 31, 2003. The net inventory decrease reflects management's adjustment of ordering levels to increase inventory turn rates during the year.

As indicated in the financial statements of ACP included as Exhibit A to this proxy, ACP has incurred losses of \$317,933 and \$764,141 during the years ended December 31, 2004 and 2003, respectively, resulting in an accumulated deficit of \$9,473,103 and stockholders' deficit of \$4,848,103 at December 31, 2004. In addition, at December 31, 2004, current liabilities exceeded current assets by \$4,997,500.

Cash and cash equivalents totaled \$79,753 at March 31, 2005. The Company used \$384,881 for its operations during the quarter. Reflecting all operating, investing and financing activities, net cash increased by \$1,646 during the quarter.

Both inventory levels and accounts payable increased modestly during the quarter. These increases partially reflect somewhat higher than normal fabric purchases, due to the availability of price discounts.

These factors, among others, raise substantial doubt as to the Company's ability to continue as a going concern. Management has determined that additional outside financing or a merger with a synergistic partner would be beneficial in alleviating this going concern problem. However, it cannot assure that sufficient financing on acceptable terms will be available. With the merger of ACP and Planet, the combined Company will strive to grow its operations, combine those operations into ACP's Ridgefield, Connecticut facility and develop new markets for Planet's and ACP's products. In addition, the combined Company may also seek additional outside financing. These combined efforts are intended to create a profitable Company with increased liquidity and capital resources to grow the business and remain a going concern. If the Company cannot successfully integrate the two businesses and obtain sufficient financing, the Company may not realize the expected benefits of the merger and eliminate going concern issue for the Company.

Recent Accounting Pronouncements

In November 2004, the FASB issued SFAS No. 151, Inventory Costs, an amendment of ARB No. 43, Chapter 4 (SFAS 151). SFAS 151 clarifies that abnormal inventory costs such as costs of idle facilities, excess freight and handling costs, and wasted materials (spoilage) are required to be recognized as current period charges. The provisions of SFAS 151 are effective for fiscal years beginning after June 15, 2005. The adoption of SFAS 151 is not expected to have a significant impact on the Company's financial position or results of operations.

CONTROLS AND PROCEDURES

ACP's management, with the participation of ACP's Chief Executive Officer, has evaluated the effectiveness of the ACP's disclosure controls and procedures as of March 31, 2005. Based on this evaluation, ACP's Chief Executive Officer concluded that the ACP's disclosure controls and procedures are effective for gathering, analyzing and disclosing the information ACP is providing in this report.

During the three months ended March 31, 2005, there were no significant changes in ACP's internal control over financial reporting that materially affected, or are reasonably likely to materially affect, ACP's internal control over financial reporting.

The Company will seek additional funding through the private placement of Planet shares in order to satisfy the \$1,500,000 payable to Mr. Dawson. Mr. Glenn has advised the Company that should there be a shortfall between the amount raised in the private placement from third parties and the monies due Mr. Dawson, he, or an affiliate of Mr. Glenn, will acquire additional shares of Planet through the private placement sufficient to complete the transaction.

As a result, after the closing of the Agreement, the sole-shareholder of ACP will own approximately 21% of the voting shares of Planet. As a condition to and simultaneously with, the effective time of the Merger, Planet shall cause to be paid to Jonathan T. DESCRIPTION OF EMPLOYEE BENEFIT PLANS

2000 Stock Incentive Plan

Planet's 2000 Stock Incentive Plan was approved by Planet's shareholders at its annual meeting of shareholders on May 1, 2000. The Board of Directors reserved 500,000 shares of common stock for issuance under the 2000 Plan, together with any remaining shares of common stock eligible for issuance under the 1995 Stock Option plan which expire unexercised. A committee consisting of Planet's Board of Directors or appointed Board members has the sole discretion to determine under which plan stock options and bonuses may be granted.

The purpose of the 2000 Incentive Plan is similar to that of the 1995 Plan, which was to attract and retain qualified personnel, to provide additional incentives to employees, officers, directors and consultants of the Company and to promote the success of the Company's business. As was the case under the 1995 Plan, under the 2000 Plan, Planet may grant or issue incentive stock options and non-statutory stock options to eligible participants, provided that incentive stock options may only be granted to employees of Planet. The 2000 Stock Incentive Plan also allows shares of common stock to be issued under a Stock Bonus Program through direct and immediate issuances. Similar to stock options granted under the Plan, stock bonus awards may be subjected to a vesting schedule determined by the Board of Directors. Option grants under both plans are discretionary. Options granted under both plans are subject to vesting as determined by the Board, provided that the option vests as to at least 20% of the shares subject to the option per year. The maximum term of a stock option under both plans is ten years, but if the optionee at the time of grant has voting power over more than 10% of the Company's outstanding capital stock, the maximum term is five years under both plans. Under both plans if an optionee terminates his or her service to Planet, such optionee may exercise only those option shares vested as of the date of termination, and must affect such exercise within the period of time after termination set forth in the optionee's option. The exercise price of incentive stock options granted under both plans must be at least equal to the fair market value of the Common Stock of the Company on the date of grant. Under both plans the exercise price of options granted to an optionee who owns stock possessing more than 10% of the voting power of Planet's outstanding capital stock must equal at least 110% of the fair market value of the common stock on the date of grant. Payment of the exercise price may be made in cash, by delivery of other shares of the Company's common stock or by any other form of legal consideration that may be acceptable to the Board.

401(k) Plan

The Company provides a defined contribution 401(k) savings plan (the 401(k) Plan) in which all full-time employees of the Company are eligible to participate. Eligible employees are permitted to contribute pre-tax salary to the 401(k) Plan subject to IRS limitations. Company contributions to the 401(k) Plan are at the discretion of the Board of Directors. There have been no Company contributions to the 401(k) Plan in 2004 or 2003.

EMPLOYMENT AGREEMENTS AND CHANGE IN CONTROL ARRANGEMENTS

The Company has entered into an employment agreement with Scott L. Glenn as President/ CEO and Chairman of the Board of the Company for a three-year period, which expires on November 29, 2007. The Company agrees to pay Mr. Glenn a salary of \$100 per month (plus healthcare and other benefits) until it is determined by the Board that the Company could afford to pay compensation comparable to CEOs of other similar companies. In exchange for foregoing a salary, the Company granted to Mr. Glenn stock options exercisable at the then fair market value at such time as may be required to maintain the aggregate number of stock options granted to Mr. Glenn at an amount not less than five (5%) percent of the issued and outstanding stock of the Company (on a fully diluted basis) during his three year term of employment. There is no severance package provided for in Mr. Glenn's employment agreement with the Company. For termination for cause, all of the compensation and benefits to which Mr. Glenn was entitled, including, without limitation, the vesting of any stock options, shall cease upon the effective date of such termination. As of the date of this

Proxy Statement, the Company has issued to Mr. Glenn a total of 125,543 options (25,000 at an exercise price of \$3.00/share and 125,543 at an exercise price of \$3.50/share). The Company has a continuing obligation to issue options at any time to Mr. Glenn in order to maintain his percentage of stock ownership at five (5%) percent.

The Company has entered into a Consulting Agreement with Dr. Petcavich wherein Dr. Petcavich will at all times be an independent contractor and pursuant to which he retains the 500 options granted to him as a director plus an hourly rate mutually agreeable to both parties based upon the scope of the project. The agreement is nonassignable by either party and is for a term of one year, automatically renewable for subsequent one year terms, unless terminated by either party in writing with at least thirty days notice.

Prior to November 30, 2004 the Company had an agreement with H.M. Busby whereby the Company had agreed to pay Mr. Busby \$100 per hour for work he performed on behalf of the Company. The Company's agreement with H.M. Busby has been terminated and all terms and conditions of the agreement have been satisfied.

In January 2005, the Company agreed to employ Bret Megargel as Vice President of Marketing and Business Development at an annualized salary of \$96,000. In March 2005, Mr. Megargel's annual salary was increased to \$192,000. Mr. Megargel was also issued 30,000 stock options under the 2000 Stock Option Plan.

If the Merger is consummated, the Company intends to enter into an employment agreement with Edward J. Steube to serve as President of the Company's ACP subsidiary at a base salary of \$200,000 per year and grant to Mr. Steube options to purchase up to the greater of 3% of the outstanding common stock of the Company or 100,000 common stock shares.

The transaction was completed pursuant to an Agreement and Plan of Merger between Planet and Allergy Free, LLC. (Agreement) As a result of the acquisition, Allergy Free's historical financial information is included in the consolidated financial results of Planet. Mr. Freedus requested to be named a director and the Company agreed to appoint Mr. Freedus as a director based upon his and his family's share holdings in Planet and the Company's evaluation of Mr. Freedus' background and qualification to serve as a director. There are no arrangements or understandings between Mr. Freedus and any other persons regarding how long Mr. Freedus will continue to serve as a director.

Over the previous two (2) year period, there has been no transaction or proposed transaction between the Company and Mr. Freedus.

THE BOARD OF DIRECTORS RECOMMENDS THAT SHAREHOLDERS VOTE IN FAVOR OF THE SLATE OF CANDIDATES FOR THE BOARD OF DIRECTORS.

PROPOSAL 3
AMENDMENT TO THE 2000 STOCK OPTION PLAN

Introduction

Subject to Shareholder approval, the Company plans to amend its 2000 Stock Option Plan (the 2000 Plan) to increase the number of shares of Common Stock issuable under the 2000 Plan from 100,000 shares to 350,000 shares. The purpose behind amending the plan is to allow the Company to retain the services of qualified individuals as directors, officers, employees, agents, consultants and independent contractors of the Company. An amendment to the Plan will allow the Company to retain the services of the current Board of Directors and executive officers of the Company and Edward J. Steube as President/ CEO of ACP, as a subsidiary of the Company, and be able to use such shares in the future for other similar agreement with other directors and selected employees, officers, agents, consultants and independent contractors of the Company.

The Company makes no guarantee as to the tax consequences described below with respect to the grant or exercise of an option, or sale of the stock covered by an option.

Description of the 2000 Plan, as Amended

The number of shares of Common Stock with respect to which awards may be granted pursuant to the 2000 Plan will be sufficient to accommodate the retention of the current Board of Directors and executive officers of the Company and of Edward J. Steube as President/ CEO of ACP, as a subsidiary of the Company, and possibly, in the future other key employees, officers and directors. Shares issuable under the 2000 Plan may be either treasury shares or authorized but unissued shares. The number of shares available for issuance will be subject to adjustment to prevent dilution in the event of stock splits, stock dividends or other changes in the capitalization of the Company.

As a part of the Merger, and pursuant to the proposed employment agreement between Edward Steube, Edward Steube will be granted the right to an option to purchase 100,000 shares of Company common stock.

In addition, as consideration for services provided the Company, the following options have been granted by the Company, subject to approval of this Proposal 3:

Subject to compliance with Rule 16b-3 of the Securities Exchange Act of 1934 (the Exchange Act), the 2000 Plan shall be administered by the Board of Directors of the Company (the Board) or, in the event the Board shall appoint and/or authorize a committee of two or more members of the Board to administer the 2000 Plan, by such committee (the Plan Administrator). Except for the terms and conditions explicitly set forth in the 2000 Plan, and subject to applicable provisions of the Internal Revenue Code of 1986, as amended (the Code) the Plan Administrator shall have the authority, in its discretion, to determine all matters

relating to the options to be granted under the 2000 Plan, including, without limitation, selection of whether an option will be an incentive stock option or a nonqualified stock option, selection of the individuals to be granted options, the number of shares to be subject to each option, the exercise price per share, the timing of grants and all other terms and conditions of the options.

Options granted under the 2000 Plan may be incentive stock options (Incentive Options) within the meaning of Section 422 of the Code or stock options which are not incentive stock options (Non-Incentive Options) and, collectively with Incentive Options, hereinafter referred to as Options). Each Option may be exercised in whole or in part; provided, that only whole shares may be issued pursuant to the exercise of any Option. Subject to any other terms and conditions herein, the Plan Administrator may provide that an Option may not be exercised in whole or in part for a stated period or periods of time during which such Option is outstanding; provided, that the Plan Administrator may rescind, modify, or waive any such limitation (including by the acceleration of the vesting schedule upon a change in control of the Company) at any time and from time to time after the grant date thereof. During an optionee's lifetime, any Incentive Options granted under the 2004 Plan are personal to such optionee and are exercisable solely by such optionee.

The Plan Administrator can determine at the time the Option is granted in the case of Incentive Options, or at any time before exercise in the case of Non-Incentive Options, that additional forms of payment will be permitted. To the extent permitted by the Plan Administrator and applicable laws and regulations (including, without limitation, federal tax and securities laws and regulations and state corporate law), an Option may be exercised by:

(a) delivery of shares of Common Stock of the Company held by an optionee having a fair market value equal to the exercise price, such fair market value to be determined in good faith by the Plan Administrator;

(b) delivery of a properly executed notice of exercise, together with irrevocable instructions to a broker, all in accordance with the regulations of the Federal Reserve Board, to promptly deliver to the Company the amount of sale or loan proceeds to pay the exercise price and any federal, state, or local withholding tax obligations that may arise in connection with the exercise; or

(c) delivery of a properly executed notice of exercise, together with instructions to the Company to withhold from the shares of Common Stock that would otherwise be issued upon exercise that number of shares of Common Stock having a fair market value equal to the option exercise price.

To the extent permitted by applicable law, the Plan Administrator may also permit any participant to pay the option exercise price upon exercise of an Option by delivering a full-recourse, interest bearing promissory note payable in one or more installments and secured by the purchased shares. The terms of any such promissory note (including the interest rate and the terms of repayment) shall be established by the Plan Administrator in its sole discretion. In no event may the maximum credit available to the participant exceed the sum of (i) the aggregate option exercise price (less the par value of those shares) plus (ii) any federal, state and local income and employment tax liability incurred by the participant in connection with the option exercise.

Upon a merger or consolidation in which securities possessing more than 25% of the total combined voting power of the Company's outstanding securities are transferred to a person different from the person holding those securities immediately prior to such transaction, the sale, transfer or other disposition of all or substantially all of the Company's assets in complete liquidation or dissolution of the Company the sale, transfer or other disposition of all or substantially all of the Company's assets to an unrelated entity, or a change in the identity of more than three (3) directors over a two-year period each, a (Corporate Transaction), any award carrying a right to exercise that was not previously exercisable shall become fully exercisable, the restrictions, deferral limitations and forfeiture conditions applicable to any other award granted shall lapse and any performance conditions imposed with respect to awards shall be deemed to be fully achieved. Notwithstanding the foregoing, any Option granted to an employee shall not become fully vested until such time as the employee experiences an involuntary termination of employment (other than on account of misconduct).

Incentive Options granted under the 2000 Plan may not be transferred, pledged, mortgaged, hypothecated or otherwise encumbered other than by will or under the laws of descent and distribution, except that the Plan Administrator may permit transfers of awards for estate planning purposes if, and to the extent, such transfers do not cause a participant who is then subject to Section 16 of the Exchange Act to lose the benefit of the exemption under Rule 16b-3 for such transactions.

Additional rules apply under the Code to the grant of Incentive Options. For instance an Incentive Option must be exercised within 10 years after the date of grant, unless granted to an individual owning more than 10% of the Company's stock, in which case the exercise period may not exceed five (5) years. Similarly, an Incentive Option must be granted at an exercise price that equals or exceeds 100% of the fair market value of the underlying stock at the time of grant, a threshold that is increased to 110% of such fair market value in the case of a grant to an individual owning more than 10% of the Company's stock.

For federal income tax purposes, the grant to an optionee of a Non-Incentive Option generally will not constitute a taxable event to the optionee or to the Company. Upon exercise of a Non-Incentive Option (or, in certain cases, a later tax recognition date), the optionee will recognize compensation income taxable as ordinary income, measured by the excess of the fair market value of the Common Stock purchased on the exercise date (or later tax recognition date) over the amount paid by the optionee for such Common Stock, and will be subject to federal income tax withholding. Upon recognition of income by the optionee, the Company may claim a deduction for the amount of such compensation. The optionee will have a tax basis in the Common Stock purchased equal to the amount paid plus the amount of ordinary income recognized upon exercise of the Non-Incentive Option. Upon the subsequent sale of the Common Stock received upon exercise of the Non-Incentive Option, an optionee will recognize capital gain or loss equal to the difference between the amount realized on such sale and his tax basis in the Common Stock, which may be long-term capital gain or loss if the optionee holds the Common Stock for more than one year from the exercise date.

For federal income tax purposes, in general, neither the grant nor the exercise of an Incentive Option will constitute a taxable event to the optionee or to the Company, assuming the Incentive Option qualifies as an incentive stock option under Code §422. If an optionee does not dispose of the Common Stock acquired upon exercise of an Incentive Option during the statutory holding period, any gain or loss upon subsequent sale of the Common Stock will be long-term capital gain or loss, assuming the shares represent a capital asset in the optionee's hands. The statutory holding period is the later of two years from the date the Incentive Option is granted or one year from the date the Common Stock is transferred to the optionee pursuant to the exercise of the Incentive Option. If the statutory holding period requirements are satisfied, the Company may not claim any federal income tax deduction upon either the exercise of the Incentive Option or the subsequent sale of the Common Stock received upon exercise thereof. If the statutory holding period requirement is not satisfied, the optionee will recognize compensation income taxable as ordinary income on the date the Common Stock is sold (or later tax recognition date) in an amount equal to the lesser of (i) the fair market value of the Common Stock on that date less the amount paid by the optionee for such Common Stock, or (ii) the amount realized on the disposition of the Common Stock less the amount paid by the optionee for such Common Stock; the Company may then claim a deduction for the amount of such compensation income.

The federal income tax consequences summarized hereinabove are based upon current law and are subject to change.

The Board may amend, alter, suspend, discontinue or terminate the 2000 Plan at any time, except that any such action shall be subject to shareholder approval at the annual meeting next following such Board action if such shareholder approval is required by federal or state law or regulation or the rules of any exchange or automated quotation system on which the Common Stock may then be listed or quoted, or if the Board of Directors otherwise determines to submit such action for shareholder approval. In addition, no amendment, alteration, suspension, discontinuation or termination to the 2000 Plan may materially impair the rights of any participant with respect to any vested Option granted before amendment without such participant's consent. Unless terminated earlier by the Board, the 2000 Plan shall terminate upon the earliest to occur of (i) 10 years after the date or which the Board approves the 2004 Plan or (ii) the date on which all shares of Common Stock available for issuance under the 2000 Plan shall have been issued as vested shares. Upon such 2000 Plan

termination, all Options and unvested stock issuances outstanding under the 2000 Plan shall continue to have full force and effect in accordance with the provisions of the agreements.

INDEPENDENT AUDITOR S REPORT

March 29, 2005
Board of Directors and Stockholder
Allergy Control Products, Inc.
96 Danbury Road
Ridgefield, CT 06877

We have audited the accompanying balance sheets of Allergy Control Products, Inc. (an S corporation) as of December 31, 2004 and 2003, and the related statements of operations and accumulated deficit, and cash flows for the years then ended. These financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Allergy Control Products, Inc. as of December 31, 2004 and 2003, and the results of its operations and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 11 to the financial statements, the Company has incurred recurring losses from operations and has a deficiency in assets, which raise substantial doubt about its ability to continue as a going concern at December 31, 2004. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ALLERGY CONTROL PRODUCTS, INC.
NOTES TO FINANCIAL STATEMENTS
December 31, 2004

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**NATURE OF BUSINESS**

Allergy Control Products, Inc. (the Company) develops and sells products, both retail and wholesale, that decrease allergic reactions resulting from environmental factors. The Company grants credit to its wholesale customers.

CHANGE IN ACCOUNTING BASIS

Accumulated deficit at January 1, 2003 has been restated to reflect the change from the accounting basis used by the Company for income tax purposes to U.S. generally accepted accounting principles.

TRADE ACCOUNTS RECEIVABLE

Trade accounts receivable are stated at the amount management expects to collect from balances outstanding at year-end. Based on management's assessment of the credit history with customers having outstanding balances and current relationships with them, it has concluded that realization losses on balances outstanding at year-end will be immaterial.

ACP's trade accounts receivable balance at December 31, 2004 was \$221,699 compared to \$220,189 at December 31, 2003.

ACP's primary business is domestic retail sales, where payment typically is made by credit card. Accordingly, ACP's trade accounts receivable balance is relatively small, currently representing less than 3% of ACP's total annual net sales.

ACP's international wholesale business, which is approximately 10% of total sales, is primarily responsible for ACP's trade accounts receivable. Despite lower international sales in the twelve months ended December 31, 2004 compared to the twelve months ended December 31, 2003, international sales in the three months ended December 31, 2004 were actually somewhat higher than international sales in the three months ended December 31, 2003. This period over period increase accounts for the modest increase in ACP's trade accounts receivable balance on December 31, 2004 compared to December 31, 2003.

ACP's trade accounts receivable have payment terms ranging from net 30 days to net 60 days. ACP has experienced immaterial losses due to inability to collect trade accounts receivable, and management knows of no reason to anticipate any change in this experience in the foreseeable future.

INVENTORY

Inventory is valued at the lower of cost, determined on the first-in, first-out method, or market and consists of:

	December 31	
	2004	2003
Materials	\$ 174,246	\$ 200,128
Work-in-process	31,395	71,339

ALLERGY CONTROL PRODUCTS, INC.

Upon disposition or retirement, the cost and related accumulated depreciation or amortization are eliminated from the respective accounts, and the resulting gain or loss is included in the statement of operations. Expenditures in the nature of normal repairs and maintenance are charged to operations as incurred.

Depreciation and amortization of equipment and leasehold improvements is recorded over the estimated useful lives of the assets using straight-line and accelerated methods.

Under those provisions, the Company does not pay federal or state corporate income taxes on its taxable income and does not receive benefit of net operating loss carryforwards or carrybacks. Instead, the Company's taxable income or loss is included on the stockholder's individual income tax return.

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

REVENUE RECOGNITION

ACP recognizes revenue upon physical shipment of product. Management believes that this policy is in compliance with guidance available in SAB 104.

PART I.

ITEM 1. DESCRIPTION OF BUSINESS

Planet Technologies, Inc.

General

On November 30, 2004, Planet acquired the business of Allergy Free, LLC, and is now engaged in the business of designing, manufacturing, selling, and distributing common products for use by allergy sensitive persons, including, without limitation, air filters, bedding, room air cleaners, and related allergen avoidance products. Allergy Free acquired its business on or about November 3, 2000, when it acquired substantially all of the assets and business of Allergy Free, L.P., a Delaware limited partnership. The business strategy is primarily based upon the marketing and selling of a complete range of branded, allergen avoidance products to its database of customers who have purchased the Allergy-Free® Electrostatic Filter. Promotion is executed primarily through direct telemarketing, supplemented with direct mail, radio, and Internet advertising. In addition, we will continue to pursue co-marketing opportunities with appropriate partners in order to increase consumer awareness and expand our customer base. We will market our products under the Allergy Free® trade name. In conjunction with these activities, Planet operates an e-commerce website for the sale of Allergy-Free® products at www.800allergy.com.

The allergy avoidance product industry provides products and information that help people suffering from allergies or asthma to reduce the level of exposure to allergens in their environment. Market categories include: air filtration products, mold and mildew products, and products to avoid exposure to dust mites and other allergens. Market distribution channels include: direct to consumer sales, physician directed sales, the Internet, and retail. Competitors include National Allergy Supply, Mission Allergy, Allergy Control Products, Allergy Buyers Club, 3M and Sharper Image.

On March 8, 2005, Planet entered into a definitive agreement to acquire Allergy Control Products, Inc. ("ACP"). The merger transaction will be structured pursuant to an Agreement and Plan of Merger agreed upon by both parties, and is subject to approval by each party's respective shareholders and other contingencies. Pursuant to the terms of the merger transaction the shareholder of ACP will be issued 600,000 shares of Planet common stock. In addition, ACP debt to its shareholder in the approximate amount of \$1,500,000 will be paid in full by Planet.

Products and Technologies

There are over 65 million allergy sufferers in the US alone. The American College of Allergy and Immunology recommends avoidance as the first line of treatment. Allergy Free contracts for the manufacture and distributes products to address three main allergen areas where avoidance products can provide reduced exposure. The categories are Air Filtration, Dust Mite/ Dander avoidance, and Mold concerns.

Air Filtration Product Category: According to the EPA the air inside houses is 3-5 times more polluted than outdoor air so providing products to clean the air inside the home is critical to any allergy management plan. Allergy Free air filters greatly reduce the amount of airborne contaminants. Planet currently markets three types of filters for forced heating and cooling systems along with vent filtration kits and HEPA room air cleaners.

The Aller-Pure® Gold Filter is a permanent electrostatic washable filter. The filter is very efficient in removing particles at the 1-10 micron level. The filter is pleated and offers 2.5 times the filtering surface area of a flat filter while providing a low resistance that optimizes airflow. We offer 45 standard sizes and also manufacture custom filters to meet almost any customer need. The filters have a ten-year warranty.

The Aller-Pure® MAX- (Micro-Allergen Xtractor) is the newest filter offered by the Company. The Aller-Pure MAX is rated at the highest level for residential filters. It is a pleated filter with actively electrostatic charged media. The disposable filter's life is 2-3 months and is sold in packages of 4 filters. Currently we offer this filter in 11 standard sizes.

We provide the **Aller-Pure® Flex filters** for free-standing air conditioning units and other types of heating and cooling systems often found in recreational vehicles. The flex filter is comprised of 3 layers and sewn with a trim. These filters are washable and have a three-year warranty.

Consumers filter the loose dust from their air ducts using **Allergy-Free® Vent Filtration Kits**. The vent kits are sold in one month and six week supplies. Consumers are instructed to change the vent filters when dirty and replace with new product.

Allergy-Free® Filter Cleaner Used to clean the Aller-Pure® Gold and Aller-Pure® Flex filters.

Allergy-Free® HEPA Room Air Cleaners are available in five different configurations to meet an individual's needs. These freestanding units are often used when the forced heating and cooling system is not in use and/or when an individual does not have a forced air system.

These products reduce the amount of airborne contaminants and dust in the air. The products are designed for specific customer requirements that vary based on room size, number of rooms in the house and type of heating and/or cooling system installed. Many customers will purchase and use a furnace filter, vent filtration kit, and a freestanding HEPA room air cleaner.

Dust Mite/ Dander Avoidance Product Category: Microscopic bugs called dust mites produce potent allergens and thrive in places such as beds, upholstered furniture, and carpets. Approximately 45% of all allergy sufferers are allergic to dust mites. The Company provides a complete line of products that reduce the allergy sufferers' exposure. Using a variety of the mite reducing products is recommended to achieve maximum relief. Customer testimonials report fewer headaches and less congestion once they have implemented a dust mite removal strategy.

Allergy-Free® Pristine Bed and Pillow Encasings and Hypoallergenic Pillows: The Pristine® line of encasings offered by Planet is the first choice in hypo-allergenic protective bed covers to protect household members from dust mite allergens while sleeping. The Pristine® line is highly recommended by allergy physicians.

Anti-Allergen Products for laundry and upholstery: We offer products in this category from Whirlpool, Alkaline products and Ecology Works.

Carpet Treatments: Planet markets **Capture® Carpet Cleaner, Dust Mite Control and X-Mite** carpet treatments. All of these products work by either killing the dust mites or denaturing the protein rendering it to a non-allergenic state.

Electrostatic Mops and Dusters: These mops utilize an electrostatic cloth for maximum efficiency without the use of harsh chemicals that also can be harmful to the allergy patient.

Dander Reducing Treatments: **Allerpet** solutions are rubbed directly on to the animal and reduce the amount of pet dander.

Mold Concerns Product Category: Excess mold in the environment can cause severe headaches and congestion. Allergy Free distributes a full line of products to keep the home environment to an optimum humidity level. The Damp Check Domes are used in closets and cupboards; the **Allersearch AllerMold** is a product used in showers and tubs. We also recommend and sell mold-free shower curtains and mats.

Product Registrations

Planet does not directly manufacture any product requiring EPA or FDA registration. We sell products that are registered by their manufacturers.

Licensed Technology and Intellectual Property

Planet licenses technology associated with the production of its Aller-Pure® Gold Permanent Electrostatic Filter. The licensing agreement is with Rick L. Chapman exclusively for Allergy Free. Patent number 6,056,809. Permanent Air Filter and Method of Manufacture. Specifically a washable air filter for filtering inlet air to a heating and/or air conditioning system comprising an assembly formed of: a deformable, non-electrostatic pad of a high-loft, air laid, resin bonded polymeric fibers, 2 layers of mesh along with 2 layers of expanded steel glue in an aluminum frame. The licensing agreement is for a term of 10 years or the life of the patent or for the period of time in which Planet actively sells the Aller-Pure® Gold Permanent filter. The agreement provides for a royalty of 1.65% based on net filter sales and is paid monthly. The original agreement was dated January 1, 1997.

Research and Development

Planet is not actively developing new products, although the Company has historically worked with consultants, filter-testing labs, media manufactures and filter manufacturers to develop new enhanced filters and product line extensions.

Government Requirements

Planet's sales practices are regulated at both the federal and state level. The Telephone Consumer Protection Act (the TCPA), which was enacted in 1991, authorized and directed the Federal Communications Commission (the FCC) to enact rules to regulate the telemarketing industry. In December 1992, the FCC enacted rules, which place restrictions on the methods and timing of telemarketing sales calls.

On July 3, 2003, the FCC issued a Report and Order setting forth amended rules and regulations implementing the TCPA. The rules, with a few exceptions, became effective August 25, 2003. These rules included: (1) restrictions on calls made by automatic dialing and announcing devices; (2) limitations on the use of predictive dialers for outbound calls; (3) institution of a national do-not-call registry in conjunction with the Federal Trade Commission (the FTC); (4) guidelines on maintaining an internal do-not-call list and honoring do-not-call requests; and (5) requirements for transmitting caller identification information. The do-not-call restrictions took effect October 1, 2003. The caller identification requirements became effective January 29, 2004. The FCC also included rules restricting facsimile advertisements. These rules became effective January 1, 2005.

The Federal Telemarketing Consumer Fraud and Abuse Act of 1994 authorizes the FTC to issue regulations designed to prevent deceptive and abusive telemarketing acts and practices. The FTC issued its Telemarketing Sales Rule (the TSR), which went into effect in January 1996. The TSR applies to most direct teleservices telemarketing calls and certain operator teleservices telemarketing calls and generally prohibits a variety of deceptive, unfair or abusive practices in telemarketing sales.

The FTC amended the TSR in January 2003. The majority of the amendments became effective March 31, 2003. The changes that were adopted that could adversely affect Planet include, but are not limited to: (1) subjecting a portion of our calls to additional disclosure requirements from which such calls were previously exempt; (2) prohibiting the disclosure or receipt, for consideration, of unencrypted consumer account numbers for use in telemarketing; (3) additional disclosure statements relating to certain products and services; (4) additional authorization requirements for payment methods that do not have consumer protections comparable to those available under the Electronic Funds Transfer Act (EFTA) or the Truth in Lending Act; and (5) institution of a national do-not-call registry. The do-not-call restrictions became effective October 1, 2003. Planet believes it is in compliance with the amendments.

The amendments to the TSR in 2003 may have a material impact on both Planet's revenue and profitability. The addition of a national do-not-call list to the growing number of states that already have do-not-call lists has reduced the number of households that the Company may call. Approximately seventy-percent (70%) of Planet's historical customers have placed their names on the national do-not-call list.

In addition to the federal legislation and regulations, there are numerous state statutes and regulations governing telemarketing activities, which do or may apply to us. For example, some states also place restrictions on the methods and timing of telemarketing calls and require that certain mandatory disclosures be made during the course of a telemarketing call. Some states also require that telemarketers register in the state before conducting telemarketing business in the state.

We specifically train our telemarketing representatives to handle calls in an approved manner and believe we comply in all material respects with all federal and state telemarketing regulations. There can be no assurance, however, that Planet would not be subject to regulatory challenge for a violation of federal or state law.

Annual fees for federal registrations were \$7,300 for 2004 and proposed fees for 2005 are approximately \$11,000. In addition, Planet anticipates spending an additional approximately \$5,000-\$8,000 on state fees in 2005.

Customers of Planet

The typical customer for the Company's products is the residential consumer. In excess of one million customers in this category have purchased the Company products. Additionally, but on a very limited basis, we sell products to physicians offices as well as HVAC service and duct cleaning businesses.

Suppliers of Planet

Planet acquires its products from a variety of manufacturers. The primary suppliers of the Company products include:

American Metal Filter Company (Permanent Electrostatic Filters)

Lifetime Filter Manufacturing, LLC (Disposable Filters)

J. Lamb, Inc. (Bedding Encasings)

Austin Air Systems, LTD (Room Air Cleaners)

Sales and Marketing

We employ staff to perform and manage sales and marketing functions. Outside resources are hired on an as-needed basis to augment the internal effort. Currently Planet actively markets on the Internet, through catalog sales, and inbound and outbound telemarketing.

Employees

As of January 1, 2005, Planet employed 9 full-time and 2 part-time employees. The company also uses periodic temporary labor, as needed.

Properties

The Planet office is located in approximately 5400 square feet of leased office space in San Diego, California, subject to a sublease which terminates July 31, 2005. The monthly rental payment is \$6,513 triple net.

Risk Factors

Amendments to the Telemarketing Sales Rule (the TSR). The amendments to the TSR in 2003 may have a material impact on both Planet's revenue and profitability. The addition of a national do-not-call list to the growing number of states that already have do-not-call lists has reduced the number of households

that the Company may call. Approximately seventy-percent (70%) of Planet's historical customers have placed their names on the national do-not-call list.

In addition to the federal legislation and regulations, there are numerous state statutes and regulations governing telemarketing activities, which do or may apply to us. For example, some states also place restrictions on the methods and timing of telemarketing calls and require that certain mandatory disclosures be made during the course of a telemarketing call. Some states also require that telemarketers register in the state before conducting telemarketing business in the state.

We specifically train our telemarketing representatives to handle calls in an approved manner and believe we comply in all material respects with all federal and state telemarketing regulations. There can be no assurance, however, that Planet would not be subject to regulatory challenge for a violation of federal or state law.

We have experienced losses, we expect future losses and we may not become profitable. For the years ended December 31, 2004, and 2003, we had net losses of approximately \$773,558 and \$574,135, respectively. As of December 31, 2004, we had an accumulated deficit of approximately \$3.7 million.

Since we have historically incurred net losses, we expect this trend to continue until some indefinite date in the future. We may not become profitable. If we do achieve profitability, we may not be able to sustain or increase profitability on a quarterly or annual basis.

We may require additional capital in the future which may not be available. Our future capital requirements will depend on many factors, including:

the cost of manufacturing;

developing new markets for our products;

competing technological and market developments; and

the costs involved in filing, prosecuting and enforcing patent claims.

We anticipate that our existing resources combined with revenues will enable us to maintain our current and planned operations through December 31, 2005. However, changes in our plans or other events affecting our operating expenses, such as acquisition opportunities, may cause us to expend our existing resources sooner than expected.

We may seek additional funding through private placements of stock or strategic relationships. But the uncertainty as to our future profitability may make it difficult for us to secure additional financing on acceptable terms, if we are able to secure additional financing at all. Insufficient funds may require us to delay, scale back or eliminate some or all of our activities.

We are subject to penny stock regulations. Our common stock is not listed or qualified for listing on NASDAQ or any national securities exchange but is only sporadically traded in the over-the-counter market in the so-called OTC Bulletin Board. As a result, an investor will find it difficult to dispose of, and to obtain accurate quotations as to the value of, our common stock.

Our common stock is classified as a penny stock by the Securities and Exchange Commission. The classification severely and adversely affects the market liquidity for our common stock. The Commission has adopted Rule 15g-9, which establishes the definition of a penny stock for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require: (i) that a broker or dealer approve a person's account for transactions in penny stocks; and (ii) the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased. In order to approve a person's account for transactions in penny stocks, the broker or dealer must (i) obtain financial information and investment experience objectives of the person; and (ii) make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters

to be capable of evaluating the risks of transactions in penny stocks. The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedules prepared by the Commission relating to the penny stock market, which, in highlight form, sets forth (i) the basis on which the broker or dealer made the suitability determination and (ii) that the broker or dealer received a signed, written agreement from the investor prior to the transaction. Disclosure also has to be made about the risks of investing in penny stocks in public offerings and secondary trading and about the commissions payable to the broker-dealer and registered representative, current quotations for the securities and the rights and remedies available to an investor in case of fraud in penny stock transaction. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

Any inability to adequately retain or protect our employees, customer relationships and proprietary technology could harm our ability to compete. Our future success and ability to compete depends in part upon our employees, customer relationships, proprietary technology and trademarks, which we attempt to protect with a combination of trademark and trade secret claims. These legal protections afford only limited protection. Further, despite our efforts, we may be unable to prevent third parties from soliciting our employees or customers or infringing upon or misappropriating our intellectual property. Our employees, customer relationships and intellectual property may not be adequate to provide us with a competitive advantage or to prevent competitors from entering the markets for our product and services. Additionally, our competitors could independently develop non-infringing technologies that are competitive with, and equivalent or superior to, our products. We will monitor infringement and/or misappropriation of our proprietary rights. However, even if we do detect infringement or misappropriation of our proprietary rights, litigation to enforce these rights could cause us to divert financial and other resources away from our business operations.

The departure of certain key personnel could harm the financial condition of the Company. Several of our employees are intimately involved in our business and have day-to-day relationships with critical customers. Planet is not able to afford additional staff to supplement these key personnel. Competition for highly skilled business, product development, marketing and other personnel is intense, and there can be no assurance that we will be successful in recruiting new personnel or in retaining our existing personnel. A failure on our part to retain the services of these key personnel could have a material adverse effect on our operating results and financial condition. We do not maintain key man life insurance on any of our employees.

We face numerous competitors. We have many competitors with comparable characteristics and capabilities that compete for the same group of customers. Our competitors are competent and experienced and are continuously working to take market share away from us. Our competitors have greater financial, technical, marketing and other resources than we do. Our ability to compete effectively may be adversely affected by the ability of these competitors to devote greater resources to the sales and marketing of their products and services than are available to us.

There are risks associated with our planned growth. We plan to grow the Company's revenues and profits by adding to our existing customer base through internal growth and by the acquisition of other companies.

Management believes that Planet can grow through the acquisitions of other allergy control related companies as part of a roll-up strategy. The acquisition of other companies is uncertain and contains a variety of business risks, including: cultural differences, the retention of key personnel, competition, protection of intellectual property, profitability, industry changes and others.

Although we do not have an agreement to acquire any specific company at this time, other than Allergy Control Products, we intend to attempt to expand our operations through the acquisition of other companies. Acquisitions and attempted acquisitions may place a strain on our limited personnel, financial and other resources. Our ability to manage this growth, should it occur, will require expansion of our capabilities and personnel. We may not be able to find qualified personnel to fill additional positions or be able to successfully manage a larger organization.

We have very limited assets upon which to rely for adjusting to business variations and for growing new businesses. While we are likely to look for new funding to assist in the acquisition of other profitable

businesses, it is uncertain whether such funds will be available. There can be no assurance that we will be successful in raising a sufficient amount of additional capital, or if we are successful, that we will be able to raise capital on reasonable terms. If we do raise additional capital, our existing shareholders may incur substantial and immediate dilution.

Future sales of our common stock by existing shareholders under Rule 144 or this offering could decrease the trading price of our common stock. As of December 31, 2004, a total of approximately 1,955,397 shares of outstanding common stock were restricted securities and could be sold in the public markets only in compliance with rule 144 adopted under the Securities Act of 1933 or other applicable exemptions from registration. Rule 144 provides that a person holding restricted securities for a period of one year may thereafter sell, in brokerage transactions, an amount not exceeding in any three-month period the greater of either (i) 1% of the issuer's outstanding common stock or (ii) the average weekly trading volume in the securities during a period of four calendar weeks immediately preceding the sale. Persons who are not affiliated with the issuer and who have held their restricted securities for at least two years are not subject to the volume limitation. Possible or actual sales of our common stock by present shareholders under Rule 144 could have a depressive effect on the price of our common stock. We have filed a registration statement to register many of these shares, which may be sold without the above limitations when and if the registration statement becomes effective.

Our directors and executive officers beneficially own approximately 50% of our stock, including stock options and warrants exercisable within 60 days of January 1, 2005; their interests could conflict with yours; significant sales of stock held by them could have a negative effect on our stock price; shareholders may be unable to exercise control. As of January 1, 2005, our executive officers, directors and affiliated persons were the beneficial owners of approximately 50% of our common stock, including stock options exercisable within 60 days of January 1, 2005. As a result, our executive officers, directors and affiliate persons will have significant ability to:

elect or defeat the election of our directors;

amend or prevent amendment of our articles or incorporation or bylaws;

effect or prevent a merger, sale of assets or other corporate transaction; and

control the outcome of any other matter submitted to the shareholders for vote.

As a result of their ownership and positions, our directors and executive officers collectively, are able to significantly influence all matters requiring shareholder approval, including the election of directors and approval of significant corporate transactions. In addition, sales of significant amounts of shares held by our directors and executive officers, or the prospect of these sales, could adversely affect the market price of our common stock. Management's stock ownership may discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us, which in turn could reduce our stock price or prevent our shareholders from realizing a premium over our stock price.

Absence of Dividends. We have not paid any cash dividends on our Common Stock since our inception and do not anticipate paying cash dividends in the foreseeable future.

Cohn LLP to serve as Planet 's independent registered public accounting firm for the 2004 fiscal year.

Items 5 and 7 were approved on November 17, 2004, and Items 1 through 4 and 6 were approved on November 29, 2004.

Items 1 through 4 required and received the approval of the holders of a majority of the outstanding common stock of the Company; the five persons elected under Item 5 received the most number of votes cast; with the required quorum present, Items 6 and 7 required and received the approval of holders of a majority of the outstanding common stock of the Company present in person or represented by proxy at the meeting.

That Proxy Statement previously filed by Planet with the Securities and Exchange Commission on October 20, 2004, and mailed out to all shareholders of record as of September 30, 2004, contains a more complete discussion of Items 1 through 7, as summarized above.

PART II.**ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS**

The following table sets forth the high and low sales prices of the Company's Common Stock for the period from January 1, 2003 through December 31, 2004 as furnished by the OTC.BB. These prices reflect prices between dealers without retail markups, markdowns or commissions, and may not necessarily represent actual transactions. These prices also reflect the reverse stock split effective December 6, 2004:

The market price of shares of Common Stock, like that of the common stock of many other emerging growth companies, has been and is likely to continue to be highly volatile.

The Company has never declared or paid a cash dividend. The Company has not paid and does not intend to pay any Common Stock dividends to Common Stock shareholders in the foreseeable future and intends to retain any future earnings to fund the Company's operations. Any payment of dividends in the future will depend upon the Company's earnings, capital requirements, financial condition and such other factors as the Board of Directors may deem relevant.

Recent Sales of Unregistered Securities

During the period from November 29, 2004, through December 31, 2004, the Company entered into subscription agreements with investors for the sale of an aggregate of 258,000 shares of Company common stock at \$2.50 a share. The net proceeds received by the company at December 31, 2004 totaled \$645,000. The Company relied upon an exemption from registration pursuant to Section 4(2) of, and Regulation D, promulgated under, the Securities Act.

On November 30, 2004, the Company issued 1,655,670 shares of common stock to AF Partners, LLC, and certain former members of AF Partners as consideration for the assets of Allergy Free, LLC, valued at \$2.50 per share. The Company relied on Section 4(2) of, and Regulation D, promulgated under, the Securities Act, as a basis of exemption from registration.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION**Overview**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes. Planet evaluates its estimates and judgments

on an on-going basis. Planet bases its estimates on historical experience and on assumptions that it believes to be reasonable under the circumstances. Planet's experience and assumptions form the basis for its judgments about the carrying value of its assets and liabilities that are not readily apparent from other sources. Actual results may vary from what Planet anticipates and different assumptions or estimates about the future could change Planet's reported results. Planet believes the following accounting policies are the most critical to Planet, in that they are important to the portrayal of its financial statements and they require Planet's most difficult, subjective or complex judgments in the preparation of its financial statements:

Revenue Recognition

Planet recognizes revenue on its products when the product is shipped. Planet accrues a provision for estimated returns concurrent with revenue recognition. In addition, a provision for potential warranty claims is provided for at the time of sale, based upon warranty terms and the Company's prior experience.

Allowances for Doubtful Accounts

Allowances for doubtful accounts receivable are maintained based on historical payment patterns, aging of accounts receivable, and actual write-off history. Allowances are also maintained for future sales returns and allowances based on an analysis of recent trends of product returns.

Impairment of Long-Lived Assets

In assessing the recoverability of its long-lived assets, Planet must make assumptions regarding estimated future cash flows and other factors to determine the fair value of the respective assets. If these estimates or their related assumptions change in the future, Planet may be required to record impairment charges for these assets.

Statements of Operations Data

The following tables set forth certain items in Planet's Statements of Operations for the periods indicated.

Years Ended December 31, 2004 and 2003

	2004	2003	Change	%
Sales	\$ 1,180,382	\$ 2,258,213	(1,077,831)	(47.7)
Cost of Sales	407,811	730,801	(322,990)	(44.2)
Gross Profit	772,571	1,527,412	(754,841)	(49.4)
Operating Expenses	1,286,684	1,874,398	(587,714)	(31.4)
Loss from Operations	(514,113)	(346,986)	167,127	48.2
Other Income				
(Expense)	(259,445)	(227,149)	32,296	14.2
Net Loss	(773,558)	(574,135)	199,423	34.7

Planet's net sales decreased 47.7% from \$2,258,213 for the twelve months ended December 31, 2003, to \$1,180,382 for the twelve months ended December 31, 2004. This decrease was due to several factors. First, sales in 2003 were impacted positively both from the effects of radio advertising in late 2002 and early 2003 and from having two active sales locations, with two active telemarketing staffs. For most of 2004, the Company's San Diego location was the only telemarketing group in operation. Sales in 2004 were negatively impacted by the Do Not Call (DNC) legislation which went into effect during the fourth quarter of 2003. Due to DNC requirements, the company was unable to telemarket its products to a segment of its existing customers.

Cost of Sales decreased 44.2% from \$730,801 for the twelve months ended December 31, 2003, to \$407,811 for the twelve months ended December 31, 2004, due mainly to the associated decrease in sales revenue (units sold) and a small shift in product mix and higher distribution costs. Overall gross profit, as a

percentage of sales, totaled 65.5% for the twelve months ended December 31, 2004, and 67.6% for the twelve months ended December 31, 2003. This change is due to a shift in product mix in the first quarter of 2004 and higher distribution and other costs resulting from the relocation to San Diego. This product mix shift was primarily due to an emphasis in the first quarter of 2004 on the sale of room air cleaners and up-selling across the Company's product line. The Company expects its profit margin to be impacted in the future by higher distribution costs as compared to 2004 and 2003.

Selling and general and administrative expenses decreased by 31.4% from \$1,874,398 for the twelve months ended December 31, 2003, to \$1,286,684 for the twelve months ended December 31, 2004. Of the \$587,714 decrease, approximately \$239,000 was attributable to discontinuing the national radio advertising campaign and the remainder of the decrease was related to decreased headcount and facility expenses with only one location active for most of 2004.

The Other Income (Expense) category includes interest expense of \$197,673 and other expenses of \$62,671 for the twelve months ended December 31, 2004. While interest expense was up slightly (\$8,211) over the prior year, other expenses increased \$22,934, or 57.7% over the twelve months ended December 31, 2003. This difference was due mainly to moving costs associated with closing and moving the Company's Houston operations to San Diego during the first quarter of 2004.

Years Ended December 31, 2003 and 2002

	2003	2002	Change	%
Sales	\$ 2,258,213	\$ 3,787,164	(1,528,951)	(40.4)
Cost of Sales	730,801	1,211,128	(480,327)	(39.7)
Gross Profit	1,527,412	2,576,036	(1,048,624)	(40.7)
Operating Expenses	1,874,398	2,860,129	(985,731)	(34.5)
Loss from Operations	(346,986)	(284,093)	62,893	22.1
Other Income				
(Expense)	(227,149)	(245,449)	(18,300)	(7.5)
Net Loss	(574,135)	(529,542)	44,593	8.4

Net sales decreased 40.4% from \$3,787,164 for the year ended December 31, 2002 to \$2,258,213 for the year ended December 31, 2003. This decrease was due primarily to the decision to discontinue the national radio advertising campaign in April 2003.

Cost of sales decreased 39.7% from \$1,211,128 for the year ended December 2002 to \$730,801 for the year ended December 31, 2003, due to the associated decrease in sales revenue (units sold). Overall gross profit, as a percentage of sales, was relatively constant for the years ended 2003 and 2002, at 67.6% and 68.0%, respectively. This slight decrease year over year was due to the relatively consistent product mix during the two years.

Selling and general and administrative expenses decreased by 34.5% from \$2,860,129 for the year ended December 31, 2002 to \$1,874,398 for the year ended December 31, 2003. Of this \$985,731 decrease, \$939,000 was due to discontinuing the national radio advertising campaign and approximately \$15,000 due to a reduction in lease expense in Houston during 2003, where the Company down-sized into a smaller portion of the existing space.

The Other Income(Expense) category mainly includes interest expense which totaled \$189,462 for the year ended December 31, 2003, an increase of \$28,019 or 17.4% over the prior year due to higher outstanding borrowings during the 2003 year.

Off Balance Sheet Arrangements

None.

Liquidity And Capital Resources

Cash and cash equivalents totaled \$374,923 at December 31, 2004, compared to \$128,005 at December 31, 2003. Although the Company used cash totaling \$435,833 in its operations during 2004, an advance from a related party of \$120,000 and proceeds from investors notes payable of \$142,000 offset some of the cash used in operations. Payments totaling \$226,612 were made to pay principal portions of notes payable during the year. During the fourth quarter of 2004, shares were sold to investors through a private placement offering which provided operating capital of approximately \$645,000 to pay expenses incurred in the combination of Allergy Free and Planet Polymer and provide further support for sales and marketing efforts. The Company intends to continue its Private Placement Offering for an additional 90 days or more in an effort to provide more working capital and consider acquisition opportunities. No assurance can be given that the Company will be able to obtain such financing or internally generate cash flows, which may impact the Company's ability to continue as a going concern.

Inventories at December 31, 2004 decreased \$65,128 or 77.4% to \$19,012 compared to \$84,140 at December 31, 2003. This decrease continues the trend started in 2003, that as sales and customer demand slipped during the year, inventory levels dropped as well, as management adjusted ordering levels to meet demand.

Recent Accounting Pronouncements

In December 2004, the FASB issued SFAS No. 123R, Share-Based Payment (SFAS 123R), a revision of SFAS No. 123, Accounting for Stock-Based Compensation, requiring that the compensation cost relating to share-based payment transactions, including grants of employee stock options, be measured and recognized in the financial statements using the fair value of the compensation awards. The provisions of SFAS 123R are effective for us for the first interim or annual reporting period that begins after December 15, 2005; therefore, the Company will adopt the new requirements no later than the beginning of its first quarter of fiscal 2006. Adoption of the expensing requirements will reduce the Company's reported earnings. Management is currently evaluating the two methods of adoption allowed by SFAS 123R; the modified-prospective transition method, and the modified-retrospective transition method.

In November 2004, the FASB issued SFAS No. 151, Inventory Costs, an amendment of ARB No. 43, Chapter 4 (SFAS 151). SFAS 151 clarifies that abnormal inventory costs such as costs of idle facilities, excess freight and handling costs, and wasted materials (spoilage) are required to be recognized as current period charges. The provisions of SFAS 151 are effective for fiscal years beginning after June 15, 2005. The adoption of SFAS 151 is not expected to have a significant impact on the Company's financial position or results of operations.

2005, Robert Petcavich tendered his resignation as a director. On that same date, at a meeting of the Board of Directors, Mr. Eric B. Freedus was elected as a director of the Company.

On November 17, 2004, Michael Trinkle and H. Mac Busby were approved as Audit Committee members. Description of Employee Benefit Plans:

2000 Stock Incentive Plan

Planet's 2000 Stock Incentive Plan was approved by Planet's shareholders at its annual meeting of shareholders on May 1, 2000. The Board of Directors reserved 500,000 shares of common stock for issuance under the 2000 Plan, together with any remaining shares of common stock eligible for issuance under the 1995 Stock Option plan which expire unexercised. A committee consisting of Planet's Board of Directors or appointed Board members has the sole discretion to determine under which plan stock options and bonuses may be granted.

The purpose of the 2000 Incentive Plan is similar to that of the 1995 Plan, which was to attract and retain qualified personnel, to provide additional incentives to employees, officers, directors and consultants of the Company and to promote the success of the Company's business. As was the case under the 1995 Plan, under the 2000 Plan, Planet may grant or issue incentive stock options and non-statutory stock options to eligible participants, provided that incentive stock options may only be granted to employees of Planet. The 2000 Stock Incentive Plan also allows shares of

common stock to be issued under a Stock Bonus Program through direct and immediate issuances. Similar to stock options granted under the Plan, stock bonus awards may be subjected to a vesting schedule determined by the Board of Directors. Option grants under both plans are discretionary. Options granted under both plans are subject to vesting as determined by the Board, provided that the option vests as to at least 20% of the shares subject to the option per year. The maximum term of a stock option under both plans is ten years, but if the optionee at the time of grant has voting power over more than 10% of the Company's outstanding capital stock, the maximum term is five years under both plans. Under both plans if an optionee terminates his or her service to Planet, such optionee may exercise only those option shares vested as of the date of termination, and must affect such exercise within the period of time after termination set forth in the optionee's option. The exercise price of incentive stock options granted under both plans must be at least equal to the fair market value of the Common Stock of the Company on the date of grant. Under both plans the exercise price of options granted to an optionee who owns stock possessing more than 10% of the voting power of Planet's outstanding capital stock must equal at least 110% of the fair market

B-21

value of the common stock on the date of grant. Payment of the exercise price may be made in cash, by delivery of other shares of the Company's common stock or by any other form of legal consideration that may be acceptable to the Board.

401(k) Plan

The Company provides a defined contribution 401(k) savings plan (the "401(k) Plan") in which all full-time employees of the Company are eligible to participate. Eligible employees are permitted to contribute pre-tax salary to the 401(k) Plan subject to IRS limitations. Company contributions to the 401(k) Plan are at the discretion of the Board of Directors. There have been no Company contributions to the 401(k) Plan in 2004 or 2003.

Employment Agreements and Change in Control Arrangements

The Company has entered into an employment agreement with Scott L. Glenn as President/ CEO and Chairman of the Board of the Company for a three-year period, which expires on November 29, 2007. The Company agrees to pay Mr. Glenn a salary of \$100 per month (plus healthcare and other benefits) until it is determined by the Board that the Company could afford to pay compensation comparable to CEOs of other similar companies. In exchange for foregoing a salary, the Company granted to Mr. Glenn stock options exercisable at the then fair market value at such time as may be required to maintain the aggregate number of stock options granted to Mr. Glenn at an amount not less than five (5%) percent of the issued and outstanding stock of the Company (on a fully diluted basis) during his three year term of employment.

The Company has entered into a Consulting Agreement with Dr. Petcavich pursuant to which he retains the 500 options granted to him as a director plus an hourly rate to be determined.

Prior to November 30, 2004 the Company had an agreement with H.M. Busby whereby the Company had agreed to pay Mr. Busby \$100 per hour for work he performed on behalf of the Company.

In January 2005, the Company agreed to employ Bret Megargel as Vice President of Marketing and Business Development at an annualized salary of \$96,000. In March 2005, Mr. Megargel's annual salary was increased to \$192,000. Mr. Megargel was also issued 30,000 stock options under the 2000 Stock Option Plan.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors
Planet Technologies, Inc.

We have audited the accompanying balance sheet of Planet Technologies, Inc., formerly Planet Polymer Technologies, Inc., as of December 31, 2004, and the related statements of operations, shareholders' deficiency and cash flows for the years ended December 31, 2004 and 2003. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Planet Technologies, Inc. as of December 31, 2004, and its results of operations and cash flows for the years ended December 31, 2004 and 2003, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2, the Company has experienced recurring net losses resulting in a shareholders' deficiency of \$504,400, as of December 31, 2004. In addition, the Company has a working capital deficiency of \$490,715 as of December 31, 2004. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans regarding this matter are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

PLANET TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS

Note 1 The company:

Planet Technologies, Inc. (Planet or the Company) formerly known as Planet Polymer Technologies, Inc. (Planet Polymer) was incorporated in August, 1991, in the State of California, and, since November 30, 2004, is engaged in the business of designing, manufacturing, selling and distributing common products for use by allergy sensitive persons, including, without limitation, air filters, bedding, room air cleaners, and related allergen avoidance products. The business strategy is primarily based upon promotion of products directly to the consumer by telemarketing to the Company's database of customers who have purchased the Allergy Free Electrostatic Filter.

On November 30, 2004, Planet acquired the business of Allergy Free, LLC (Allergy) for approximately 1.65 million shares of Planet stock (after giving effect to a 50:1 reverse stock split), a convertible note of \$274,300 bearing interest at 5.5% per annum and due and payable within three years, and assumption of debt. As a result, Allergy owned approximately 92.7% of the voting shares of Planet. Since the stockholders of Allergy received the majority of the voting shares of Planet, the former managing member of Allergy continued on as the president of the Company, and representatives of Allergy hold three of the five seats on the Company's Board of Directors, the merger was accounted for as a recapitalization of Allergy, whereby Allergy was the accounting acquirer (legal acquiree) and Planet was the accounting acquiree (legal acquirer). Since, at the closing, Planet was a non-operating shell corporation no longer meeting the definition of a business as defined in EITF Consensus 98-3, Determining Whether a Nonmonetary Transaction Involves Receipt of Productive Assets or of a Business , the transaction was equivalent to Allergy issuing stock for the net liabilities of Planet, accompanied by a recapitalization. The accounting was identical to that resulting from a reverse acquisition, except that there were no adjustments to the historic carrying values of the assets and liabilities. Accordingly, the accompanying statements of operations and cash flows are the historical financial statements of Allergy Free.

Immediately prior to the closing of the acquisition, Planet Polymer distributed to a trustee for the benefit of Planet Polymer shareholders of record as of September 30, 2004, the right to receive all royalties payable to Planet pursuant to those certain sale and licensing agreements between Planet and Agway, Inc., related to Planet's Fresh Seal® and Optigen® technology and that certain purchase, sale and license agreement between Planet and Ryer Enterprises, LLC, relating to Planet's AQUAMIM® technology.

Prior to acquiring Allergy, Planet Polymer was an advanced materials company that developed and licensed unique polymer materials. All operations related to Planet Polymer have been discontinued.

Note 2 Summary of significant accounting policies:

Basis of presentation:

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. This basis of accounting contemplates the recovery of the Company's assets and the satisfaction of its liabilities in the normal course of business. Successful transition to profitable operations is dependent upon obtaining a level of sales adequate to support the Company's cost structure. The Company has suffered recurring losses resulting in an accumulated deficit of \$3,702,696, a shareholders' deficiency of \$504,400, and a working capital deficiency of \$490,715 as of December 31, 2004. Management intends to continue to finance operations primarily through its potential ability to generate cash flows from equity offerings, including restricted stock sales. However, there can be no assurance that the Company will be able to obtain such financing or internally generate cash flows from operations, which may impact the Company's ability to continue as a going concern. The accompanying balance sheet does not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the potential inability of the Company to continue as a going concern.

PLANET TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS (Continued)

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Cash and cash equivalents and concentration of credit risk:

The Company maintains its cash in bank deposit accounts at various financial institutions. Highly-liquid investments with original maturities of three months or less when purchased are considered to be cash equivalents. As of December 31, 2004, the Company had a cash balance that exceeded the Federal Deposit Insurance Corporation limitation for coverage of \$100,000 by \$235,047.

Inventory:

Inventory consists of finished products which are purchased from established vendors. Inventory is stated at the lower of cost, determined by the First-In, First-Out method, or market. Inventory is reduced by provisions for excess and slow moving items commensurate with known or estimated exposures. The Company stopped manufacturing its permanent filters in February 2004, when the manufacturing was contracted out to a manufacturer. The Company's manufacturing equipment is used by this vendor to produce its filters.

Property and equipment:

Property and equipment are stated at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets ranging from two to ten years. Leasehold improvements are amortized over the shorter of their useful lives or the term of the related lease.

Stock-based compensation:

Statement of Financial Accounting Standards No. 123 (SFAS 123), Accounting for Stock-Based Compensation , provides for the use of a fair value based method of accounting for stock-based compensation. However, SFAS 123 allows an entity to continue to measure compensation cost for stock options granted to employees using the intrinsic value method of accounting prescribed by Accounting Principles Board Opinion No. 25 (APB 25), Accounting for Stock Issued to Employees , which only requires charges to compensation expense for the excess, if any, of the fair value of the underlying stock at the date a stock option is granted (or at an appropriate subsequent measurement date) over the amount the employee must pay to acquire the stock. The Company has elected to account for employee stock options using the intrinsic value method under APB 25. By making that election, it is required by SFAS 123 and Statement of Financial Accounting Standards No. 148, Accounting for Stock-Based Compensation Transition and Disclosure to provide pro forma disclosures of net loss as if a fair value based method of accounting had been applied.

During 2004 and 2003, the Company granted options to its employees and board of directors at the fair value of the common stock. The weighted-average fair value of these options using the Black-Scholes option-pricing model was \$3.48 and \$0.05 utilizing an expected life of 10 and 4 years, an expected volatility of 237% and 223%, no dividend yield and a risk free interest rate of 4.27% and 4.65%, respectively.

PLANET TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS (Continued)

Had compensation cost for the Company's stock-based compensation plans been determined based on the fair value method at the grant dates for awards under the Company's plans, the Company's net loss and net loss per share for 2004 and 2003 would have been increased to the pro forma amounts indicated below.

	2004		2003	
	Net Loss	Loss per Share Basic and Diluted	Net Loss	Loss per Share Basic and Diluted
As reported	\$ (773,558)	\$ (0.46)	\$ (574,135)	\$ (0.35)
Stock based compensation expense assuming a fair value based method had been used for all awards	(95,306)	(0.06)	(63,862)	(0.04)
Pro forma	\$ (868,864)	\$ (0.52)	\$ (637,997)	\$ (0.39)

In accordance with the provisions of SFAS 123, all other issuances of common stock, warrants, stock options or other equity instruments to non-employees as the consideration for goods or services received by the Company are accounted for based on the fair value of the equity instruments issued (unless the fair value of the consideration received can be more reliably measured). Generally, the fair value of any options, warrants or similar equity investments will be estimated based on the Black-Scholes option-pricing model.

Net loss per share:

Net loss per share is computed using the weighted average number of shares of common stock outstanding and is presented for basic and diluted loss per share. Basic loss per share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted loss per share is computed by dividing net by the weighted average number of common shares outstanding during the period increased to include, if dilutive, the number of additional common shares what would have been outstanding if the potential common shares had been issued.

The Company has excluded all convertible preferred stock and outstanding stock options and warrants from the calculation of diluted loss per share because all such securities are considered anti-dilutive. Accordingly, diluted loss per share equals basic loss per share. The total number of potential common shares excluded from the calculation of diluted loss per share for the years ended December 31, 2004 and 2003 was 468,494 and 27,333, respectively.

Advertising:

The Company expenses the cost of advertising and promotions as incurred. Advertising costs charged to operations were \$57,139 and \$263,935 in 2004 and 2003, respectively.

Revenue recognition:

The Company recognizes revenue from product sales upon shipment of goods, with a provision for estimated returns recorded at that time. In addition, a provision for potential warranty claims is provided for at the time of sale, based upon warranty terms and the Company's prior experience.

The Company sells most of its products on a prepaid basis. Once the credit payment has been verified, the Company ships the products. Limited terms are extended to selected customers. Credit is extended for a 30-day term. On a periodic basis, the Company evaluates its accounts receivable and establishes an allowance for doubtful accounts, based on a history of past write-offs and collections and current credit considerations.

PLANET TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS (Continued)

Shipping and handling costs:

The Company expenses shipping and handling costs as incurred as part of cost of sales.

Income taxes:

The Company accounts for income taxes using the liability method. Current income tax expense is the amount of income taxes expected to be payable for the current year. Deferred income taxes are recognized for the tax consequences in future years for differences between the tax bases of assets and liabilities and their financial reporting amounts at each year-end (temporary differences) based on enacted laws and statutory rates applicable for the periods in which the temporary differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount that is considered more than likely not to be realized.

Pre merger losses of Allergy were not subject to the Company s federal and state income tax. Historically, Allergy has not been a tax paying entity for federal income tax purposes, and thus no income tax expense had been recorded in the financial statements. Income or losses of the Company were taxed to the members in their respective returns. However, in the State of California, limited liability companies were subject to an annual fee based on the gross income of the company. In addition, the calculation of the tax provision does not include the pre-merger net operating loss of Planet Polymer, which, had been eliminated against equity accounts as part of the acquisition agreement and for the purposes of preparing these financial statements.

401(k) plan:

The Company provides a defined contribution 401(k) savings plan (the 401(k) Plan) in which all full-time employees of the Company are eligible to participate. Eligible employees may contribute pre-tax amounts to the 401(k) Plan subject to the Internal Revenue Code limitations. Company contributions to the 401(k) Plan are at the discretion of the Board of Directors. There were no Company contributions charged to operations related to the 401(k) Plan in 2004 and 2003.

Valuation of long-lived assets:

The Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the asset exceeds the fair value of the asset.

Note 3 Property and equipment:

Property and equipment as of December 31, 2004 consists of the following:

Furniture and fixtures	\$ 262,105
Machinery and equipment	82,868
Computer equipment	66,218
Leasehold improvements	70,478
 Total	 481,669
Less accumulated depreciation and amortization	380,599
 Total	 \$ 101,070

PLANET TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS (Continued)

Note 4 Warranty reserve:

The Company accrues an estimate of its exposure to warranty claims based on both current and historical product sales data and warranty costs incurred. The air filters produced and sold by the Company carry a ten-year warranty. The Company assesses the adequacy of its recorded warranty liability quarterly and adjusts the amount as necessary. The warranty liability is included in accrued expenses in the accompanying balance sheet. As of December 31, 2004, the warranty accrual was \$130,961. The majority of the warranty accrual relates to products that were sold prior to the acquisition of Allergy Free L.P. by Allergy Free, LLC in November 2000. As part of the Agreement and Plan of Merger, the Company is obligated to provide the warranty coverage on these products through their original warranty period. Changes in the Company's warranty liability were as follows:

Warranty accrual, beginning of year	\$ 130,961
Warranties issued during the year	296
Adjustments to preexisting accruals	(80)
Actual warranty expenditures	(216)
 Total	 \$ 130,961

Note 5 Convertible notes payable to shareholder:

As of December 31, 2004, the Company has a subordinated convertible note payable to a shareholder. The uncollateralized note payable is due on December 1, 2007 however; the Company intends to pay down the note payable with monthly principal and interest payments of \$12,085 until full satisfaction of the note payable in October 2006. Interest is due quarterly. At any time, the holder of the note may, at its sole and exclusive option, convert all or any part of the principal and accrued interest outstanding into shares of common stock by giving written notice to the Company specifying the amount of note principal and/or accrued interest to be converted at a price per share of common stock equal to the fair value.

Note 6 Income taxes:

The differences between income tax benefit provided at the Company's effective rate and the federal statutory rate (34%) at December 31, 2004 are as follows:

Income tax benefit at statutory rate	\$ (263,010)
State taxes, net of Federal benefit	(46,413)
Other	69,000
Increase in valuation allowance	240,423
 Total	 \$

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred tax assets at December 31, 2004 are as follows:

Net operating loss carryforwards	\$ 4,636,000
Tax credit carryforwards	142,000
Reserves, accrued expenses and other	85,000
Less: valuation allowances	(4,863,000)

Net deferred tax assets

\$

B-38

PLANET TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS (Continued)

As the ultimate realization of the potential benefits of the Company's net operating loss carryforwards is considered unlikely by management, the Company has offset the deferred tax assets attributable to those potential benefits through a valuation allowance and, accordingly, the Company did not recognize any benefit from income taxes in the accompanying statement of operations.

At December 31, 2004, the Company had net operating loss carryforwards for Federal and California state income tax purposes of approximately \$12,981,000 and \$3,647,000, respectively. The Company's California loss carryforwards expire in 2005 through 2014 and Federal loss carryforwards begin to expire in 2011. The Company also has available tax credit carryforwards for Federal and California tax purposes that aggregate approximately \$142,000 that begin to expire in 2005.

During 2004, as a result of the reverse acquisition with Allergy Free, the Company experienced a change of ownership event as defined in Section 382 of the IRS Code. Accordingly, utilization of the net operating loss carryforwards and credits will be subject to a substantial annual limitation. The annual limitation may result in the expiration of net operating losses and credits before utilization.

Note 7 Shareholders' equity:

Warrants:

At December 31, 2004, warrants to purchase 2,000 shares of the Company's common stock at an exercise price of \$208.125 per share were outstanding. The warrants expire in 2005 and 2006.

All of the warrants outstanding are exercisable. All per share rights and benefits are subject to anti-dilution and other adjustments upon the occurrence of certain events.

Options:

As of December 31, 2004, the Company had two stock option plans, a 2000 Stock Option Plan (the "2000 Option Plan") and a 1995 Stock Option Plan (the "1995 Option Plan").

The 2000 Option Plan provides for 100,000 shares of common stock for issuance under the Plan, together with 100,000 additional shares of common stock for issuance to the extent that outstanding options previously granted under the 1995 Stock Option Plan expire unexercised. The 2000 Option Plan provides for the discretionary grant of options, stock appreciation rights ("SARs"), and stock bonuses to employees and directors of and consultants to the Company. Options granted under the 2000 Plan may be either incentive stock options, as defined in Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), or non-statutory stock options. In March 2005, the Board of Directors approved an amendment to the plan to increase the authorized number of shares to 250,000 shares, which will be submitted to the shareholders for approval at the next meeting of shareholders.

Under the 1995 Option Plan, incentive stock options and non-statutory stock options to acquire an aggregate of 100,000 shares of Common Stock may be granted to employees, non-employee directors and consultants to the Company. Incentive stock options may be granted only to employees of the Company.

At December 31, 2004, there were no shares of the Company's common stock available for future grant under either option plan.

Under both stock option plans, the terms of stock options granted are determined by the Board of Directors. Stock options may be granted for periods of up to ten years at a price per share not less than the fair market value of the Company's common stock at the date of grant for incentive stock options and not less than 85% of the fair market value of the Company's common stock at the date of grant for non-statutory stock options. In the case of stock options granted to employees, directors or consultants who, at the time of grant of such options, own more than 10% of the voting power of all classes of stock of the Company, the exercise price

PLANET TECHNOLOGIES, INC.**NOTES TO FINANCIAL STATEMENTS (Continued)**

shall be no less than 110% of the fair market value of the Company's common stock at the date of grant. Additionally, the term of stock option grants is limited to five years if the grantee owns in excess of 10% of the voting power of all classes of stock of the Company at the time of grant. The vesting provisions of individual options may vary but in each case will provide for vesting of at least 20% per year of the total number of shares subject to the option.

PLANET TECHNOLOGIES, INC.
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

1. Basis of Presentation

In management's opinion, the accompanying unaudited financial statements of Planet Technologies, Inc. (Planet or the Company) have been prepared in accordance with the interim reporting requirements of Form 10-QSB, pursuant to the rules and regulations of the Securities and Exchange Commission. However, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

In management's opinion, all adjustments (consisting of only normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2005, are not necessarily indicative of results that may be expected for the year ending December 31, 2005. For additional information, refer to the Company's financial statements and notes thereto for the year ended December 31, 2004, contained in the Company's most recent annual report on Form 10-KSB for the fiscal year ended December 31, 2004.

2. Liquidity and Capital Resources

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. This basis of accounting contemplates the recovery of the Company's assets and the satisfaction of its liabilities in the normal course of business. Successful transition to profitable operations is dependent upon obtaining a level of sales adequate to support the Company's cost structure. The Company has suffered recurring losses resulting in an accumulated deficit of \$3,943,725, a shareholders' deficiency of \$465,429, and a working capital deficiency of \$467,063 as of March 31, 2005. Management intends to continue to finance operations primarily through its potential ability to generate cash flows from equity offerings, including restricted stock. However, there can be no assurance that the Company will be able to obtain such financing or internally generate cash flows, which may impact the Company's ability to continue as a going concern. The accompanying balance sheet does not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the potential inability of the Company to continue as a going concern.

On November 30, 2004, Planet acquired the business of Allergy Free, LLC (Allergy) for approximately 1.65 million shares of Planet stock (after giving effect to a 50:1 reverse stock split), a convertible note of \$274,300 bearing interest at 5.5% per annum and due and payable within three years, and assumption of debt. As a result, Allergy owned approximately 92.7% of the voting shares of Planet. Since the stockholders of Allergy received the majority of the voting shares of Planet, the former managing member of Allergy continued on as the president of the Company, and representatives of Allergy hold three of the five seats on the Company's Board of Directors, the merger was accounted for as a recapitalization of Allergy, whereby Allergy was the accounting acquirer (legal acquiree) and Planet was the accounting acquiree (legal acquirer). Since, at the closing, Planet was a non-operating shell corporation no longer meeting the definition of a business as defined in EITF Consensus 98-3, *Determining Whether a Nonmonetary Transaction Involves Receipt of Productive Assets or of a Business*, the transaction was equivalent to Allergy issuing stock for the net liabilities of Planet, accompanied by a recapitalization. The accounting was identical to that resulting from a reverse acquisition, except that there were no adjustments to the historic carrying values of the assets and liabilities. Accordingly, the accompanying statements of operations and cash flows are the historical financial statements of Allergy Free.

Immediately prior to the closing of the acquisition, Planet Polymer distributed to a trustee for the benefit of Planet Polymer shareholders of record as of September 30, 2004, the right to receive all royalties payable to Planet pursuant to those certain sale and licensing agreements between Planet and Agway, Inc., related to Planet's Fresh Seal® and Optigen® technology and that certain purchase, sale and license agreement between Planet and Ryer Enterprises, LLC, relating to Planet's AQUAMIM® technology.

PLANET TECHNOLOGIES, INC.

NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS (Continued)

Prior to acquiring Allergy, Planet Polymer was an advanced materials company that developed and licensed unique polymer materials. All operations related to Planet Polymer have been discontinued.

On March 7, 2005, Planet entered into a definitive agreement to acquire Allergy Control Products, Inc. (ACP). The merger transaction will be structured pursuant to an Agreement and Plan of Merger agreed upon by both parties, and is subject to approval by each party's respective shareholders and other contingencies. Pursuant to the terms of the merger transaction the shareholder of ACP will be issued 600,000 shares of Planet common stock. In addition, ACP debt to its shareholder in the approximate amount of \$1,500,000 will be paid in full by Planet, using anticipated proceeds from private placement offerings.

Investors are encouraged to review our report on Form 8-K filed with the Securities and Exchange Commission on March 10, 2005, which discusses more thoroughly the terms of the proposed merger and which is available through EDGAR at www.sec.gov, and when available, the Company's Proxy Statement which will also be available through EDGAR.

3. Earnings (Loss) Per Share

Net loss per share is computed using the weighted average number of shares of common stock outstanding and is presented for basic and diluted loss per share. Basic loss per share is computed by dividing net loss by the weighted average number of common shares outstanding for the period. Diluted loss per share is computed by dividing net by the weighted average number of common shares outstanding during the period increased to include, if dilutive, the number of additional common shares that would have been outstanding if the potential common shares had been issued.

The Company has excluded all convertible notes payable and outstanding stock options and warrants from the calculation of diluted loss per share because all such securities are considered anti-dilutive. Accordingly, diluted loss per share equals basic loss per share. The total number of potential common shares excluded from the calculation of diluted loss per share for the three months ended March 31, 2005 and 2004 was 391,208 and 26,332, respectively.

4. Income Taxes

As the ultimate realization of the potential benefits of the company's net operating loss carryforwards is considered unlikely by management, the Company has offset the deferred tax assets attributable to those potential benefits through valuation allowances and, accordingly, the Company did not recognize any benefit for income taxes in the accompanying condensed statements of operations of offset its pre-tax losses.

5. Stock-Based Compensation

As explained in Note 2 in the Form 10-KSB, the Statement of Financial Accounting Standards No. 123 (SFAS 123), Accounting for Stock-Based Compensation, provides for the use of a fair value based method of accounting for stock-based compensation. However, SFAS 123 allows an entity to continue to measure compensation cost for stock options granted to employees using the intrinsic value method of accounting prescribed by Accounting Principles Board Opinion No. 25 (APB 25), Accounting for Stock Issued to Employees, which only requires charges to compensation expense for the excess, if any, of the fair value of the underlying stock at the date a stock option is granted (or at an appropriate subsequent measurement date) over the amount the employee must pay to acquire the stock. The Company has elected to account for employee stock options using the intrinsic value method under APB 25. By making that election, it is required by SFAS 123 and Statement of Financial Accounting Standards No. 148, Accounting for Stock-Based Compensation Transition and Disclosure to provide pro forma disclosures of net loss as if a fair value based method of accounting had been applied.

PLANET TECHNOLOGIES, INC.**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS (Continued)**

In January 2005, an individual became a member of the Company's board of directors and was granted an option to purchase 500 shares of common stock at an exercise price of \$3.00 per share. The options vest one year from the date of grant and expire on January 18, 2015. The estimated fair value of the options on the date of grant was \$1,499.

In January 2005, the members of the board of directors were granted options to purchase 40,000 shares of common stock at an exercise price of \$3.00 per share. Two company officers were also granted options to purchase 30,000 shares of common stock each at an exercise price of \$3.00 per share. All of these options vest 25% one year from date of grant, and 1/36th each month thereafter, and expire on January 25, 2015. The estimated fair value of these options on the date of grant was \$299,845.

In January 2005, the Company's chairman of the board of directors was granted an option to purchase 25,000 shares of common stock at an exercise price of \$3.50 per share. The options vest 25% one year from date of grant and 1/36th each month thereafter, and expire on January 25, 2015. The estimated fair value of these options on the date of grant was \$74,958.

Had compensation cost for the Company's stock-based compensation plans been determined based on the fair value method at the grant dates for awards under the Company's plans, the Company's net loss and net loss per share for the three months ended March 31, 2005 and 2004 would have been increased to the pro forma amounts indicated below.

	2005		2004	
	Net Loss	Loss per Share Basic and Diluted	Net Loss	Loss per Share Basic and Diluted
As reported	\$ (241,029)	\$ (0.11)	\$ (242,111)	\$ (0.15)
Stock based compensation expense assuming a fair value based method had been used for all awards	(46,000)	(0.02)		
Pro forma	\$ (287,029)	\$ (0.13)	\$ (242,111)	\$ (0.15)

In accordance with the provisions of SFAS 123, all other issuances of common stock, warrants, stock options or other equity instruments to non-employees as the consideration for goods or services received by the Company are accounted for based on the fair value of the equity instruments issued (unless the fair value of the consideration received can be more reliably measured). Generally, the fair value of any options, warrants or similar equity investments will be estimated based on the Black-Scholes option-pricing model.

Except for the historical information contained herein, the discussion in this report contains forward-looking statements that involve certain risks and uncertainties. The Company's actual results could differ materially from those discussed in this report. Factors that could cause or contribute to such differences include, but are not limited to those discussed below and in the Company's Form 10-KSB for the fiscal year ended December 31, 2004.

OVERVIEW

Planet Technologies, Inc. (Planet or the Company) formerly known as Planet Polymer Technologies, Inc. (Planet Polymer) was incorporated in August, 1991, in the State of California, and, since November 30, 2004, is engaged in the business of designing, manufacturing, selling and distributing common products for use by allergy sensitive persons, including, without limitation, air filters, bedding, room air cleaners, and related allergen avoidance products.

The business strategy is primarily based upon promotion of products directly to the consumer by telemarketing to the Company's database of customers who have purchased the Allergy Free Electrostatic Filter.

B-1-9

PLANET TECHNOLOGIES, INC.

NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS (Continued)

Planet has an accumulated deficit as of March 31, 2005, of \$3,943,725.

RESULT OF OPERATIONS

The net loss for the three months ended March 31, 2005, was \$241,029 compared to a net loss of \$242,111 for the three-month period ended March 31, 2004. The Company's revenues decreased by \$159,736, from \$381,262 for the three months ended March 31, 2004, to \$221,526 for the same period in 2005. This decrease was due to several factors. First, in 2004, for a portion of the quarter, there were two active telemarketing sales locations, while in 2005, there is only one. Also, the Company continues to experience the effects of the Do Not Call legislation (DNC), which went into effect during the fourth quarter of 2003. Due to DNC requirements, the Company is unable to contact increasing numbers of its customers via outbound telemarketing.

Cost of revenues decreased to \$75,505 for the three months ended March 31, 2005, from \$146,015 for the same period in 2004, reflecting the decrease in revenues. Overall gross margin, as a percentage of sales, increased positively period over period from 61.7% for the three months ended March 31, 2004 to 65.9% for the three months ended March 31, 2005. This positive increase in gross margin is due primarily to the Company's change in manufacturing strategy in the second quarter of 2004, when the manufacture of the Company's permanent filter was contracted out to a manufacturer near the Company headquarters in San Diego, California.

Total operating expenses decreased by \$40,051 to \$380,179 for the three months ended March 31, 2005. This decrease was due mainly to \$37,760 in moving expenses which were incurred in the first quarter of 2004, when the Company's Houston, Texas operations were moved to its San Diego location.

Other expenses decreased \$50,257, from \$57,128 for the three months ended March 31, 2004, to \$6,871 for the same period in 2005. Of this decrease, \$46,863 is due to a reduction of interest expense related to former shareholder debt.

LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents totaled \$128,806 at March 31, 2005. Although the Company used cash totaling \$393,187 for its operations during the quarter, the Company also repaid \$100,000 of advances from a related party and paid principal payments totaling \$32,930 on notes payable. During the quarter, shares were sold to investors through a private placement offering that was originally initiated during the fourth quarter of 2004. Proceeds related to restricted stock totaled \$280,000 for the quarter. The Company intends to continue its Private Placement Offering for another 60 days or more in an effort to provide more working capital and for acquisition opportunities.

Inventory levels remained relatively unchanged during the quarter, and the Company paid down routing accounts payable and accrued expenses.

The Company does not believe that its existing sources of liquidity and anticipated revenue will be adequate to satisfy the Company's projected working capital and other cash requirements through December 2005 to continue operations as a public reporting company without raising additional capital.

On March 7, 2005, Planet entered into a definitive agreement to acquire Allergy Control Products, Inc. (ACP). The merger transaction will be structured pursuant to an Agreement and Plan of Merger agreed upon by both parties, and is subject to approval by each party's respective shareholders and other contingencies. Pursuant to the terms of the merger transaction the shareholder of ACP will be issued 600,000 shares of Planet common stock. In addition, ACP debt to its shareholder in the approximate amount of \$1,500,000 will be paid in full by Planet. For us to complete this transaction, we will need to raise significant additional capital through our Private Placement Offering.

PLANET TECHNOLOGIES, INC.

NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS (Continued)

Investors are encouraged to review our report on Form 8-K filed with the Securities and Exchange Commission on March 10, 2005, which discusses more thoroughly the terms of the proposed merger and which is available through EDGAR at www.sec.gov, and when available, the Company's Proxy Statement which will also be available through EDGAR.

ITEM 3. CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer and the Company's Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures as of March 31, 2005. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective for gathering, analyzing and disclosing the information the Company is required to disclose in the reports it files under the Securities and Exchange Act of 1934, within the time periods specified in the Securities and Exchange Commission's rules and forms.

During the three months ended March 31, 2005, there were no significant changes in the Company's internal control over financial reporting that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ACP agrees that it will notify Planet immediately if any such inquiries, proposals or offers are received by, any such information is requested from, or any such discussions or negotiations are sought to be initiated or continued with, any of its representatives.

ACP shall cooperate with Planet in minimizing the extent to which any contracts will continue in effect following the Effective Time of the Merger, in addition to complying with the prohibition of Section 4.01(l) hereof.

(a) Shareholder Approval. This Agreement, the Merger and the Certificate of Merger shall have been duly approved by the requisite vote of the shareholders of Planet and ACP under the laws of the state of their organization.

(b) Approvals. All approvals required to consummate the transactions contemplated hereby shall have been obtained and shall remain in full force and effect and all statutory waiting periods in respect thereof shall have expired and no such approvals shall contain any conditions, restrictions or requirements which the Planet Board reasonably determines in good faith would (i) following the Effective Time, have a Material Adverse Effect on Planet or (ii) reduce the benefits of the transactions contemplated hereby to such a degree that Planet would not have entered into this Agreement had such conditions, restrictions or requirements been known at the date hereof.

(c) No Injunction. No Governmental Authority of competent jurisdiction shall have enacted, issued, promulgated, enforced or entered any statute, rule, regulation, judgment, decree, injunction or other order (whether temporary, preliminary or permanent) which is in effect and prohibits consummation of the transactions contemplated by this Agreement.

7.02. *Conditions to Obligation of ACP*. The obligation of ACP to consummate the Merger is also subject to the fulfillment or written waiver prior to the Effective Time of each of the following additional conditions:

(a) Representations and Warranties. Except as otherwise provided in this Agreement or the Disclosure Schedule, the representations and warranties of Planet set forth in this Agreement shall be true and correct as of the date of this Agreement and as of the Effective Date as though made on and as of the Effective Date (except that representations and warranties that by their terms speak as of the date of this Agreement or some other date shall be true and correct as of such date). For purposes of this paragraph, such representations and warranties shall be deemed to be true and correct in all material respects unless the failure or failures of such representations and warranties to be true and correct in all material respects, either individually or in the aggregate, and without giving effect to any materiality, material adverse effect or similar qualifications set forth in such representations and warranties, will have or would reasonably be expected to have a Material Adverse Effect on Planet. ACP shall have received a certificate, dated the Effective Date, signed on behalf of Planet by the Chief Executive Officer and the Chief Financial Officer of Planet to such effect.

(b) Performance of Obligations of Planet. Planet shall have performed in all material respects all obligations required to be performed by them under this Agreement at or prior to the Effective Time, and ACP shall have received a certificate, dated the Effective Date, signed on behalf of Planet by the Chief Executive Officer and the Chief Financial Officer of Planet to such effect.

(c) No litigation or proceeding shall be pending against Planet brought by any Governmental Authority seeking to prevent consummation of the transactions contemplated thereby.

7.03. *Conditions to Obligation of Planet*. The obligation of Planet to consummate the Merger is also subject to the fulfillment or written waiver prior to the Effective Time of each of the following conditions:

(a) Representations and Warranties. Except as otherwise provided in this Agreement or the Disclosure Schedule, the representations and warranties of ACP set forth in this Agreement shall be true and correct as of the date of this Agreement and as of the Effective Date as though made on and as of the Effective Date (except that representations and warranties that by their terms speak as of the date of this Agreement or some other date shall be true and correct as of such date). For purposes of this paragraph, such representations and warranties shall be deemed to be true and correct in all material respects unless the failure or failures of such representations and warranties to be true and correct in all material respects, either individually or in the aggregate, and without giving effect to any materiality, material adverse effect or similar qualifications set forth in such representations and warranties, will have or would reasonably be expected to have a Material Adverse Effect on ACP. Planet shall have received a certificate, dated the Effective Date, signed on behalf of ACP by the Chief Executive Officer and the Chief Financial Officer of ACP to such effect.

(b) The Disclosure Schedule shall be updated and made current as of the day prior to the Effective Time of the Merger and a draft of the updated Disclosure Schedule shall have been delivered to Planet no

later than 72 hours prior to the Effective Time of the Merger; such update of the Disclosure Schedule shall not in any way affect the representations and warranties set forth in Section 5.03.

(c) Performance of Obligations of ACP. ACP shall have performed in all material respects all obligations required to be performed by it under this Agreement at or prior to the Effective Time, and Planet shall have received a certificate, dated the Effective Date, signed on behalf of ACP by the Chief Executive Officer and the Chief Financial Officer of ACP to such effect.

(d) Performance of Obligations of the Shareholder. Shareholder shall have performed in all material respects all obligations required to be performed by him under this Agreement, *provided, however*, that this condition shall be deemed to be satisfied notwithstanding any failure to perform such obligations unless any such failure or failures, individually or in the aggregate, has had or is reasonably likely to have a Material Adverse Effect on ACP or Planet and, if requested by Planet, Planet shall have received a certificate, dated the Effective Date, signed by each Shareholder to such effect with respect to such Shareholder.

(e) Intentionally left blank.

(f) No Litigation. No litigation or proceeding shall be pending against ACP brought by any Governmental Authority seeking to prevent consummation of the transactions contemplated hereby.

(g) Closing Financial Statements. At least four Business Days prior to the Effective Time of the Merger, ACP shall provide Planet with ACP's financial statements presenting the financial condition of ACP as of the close of business on the last day of the last month ended prior to the Effective Time of the Merger. Such financial statements shall have been prepared in all material respects in accordance with GAAP and other applicable legal and accounting requirements, and reflect all period-end accruals and other adjustments. Such financial statements shall be accompanied by a certificate of ACP's chief financial officer, dated as of a date no earlier than two Business Days prior to the Effective Time of the Merger, to the effect that such financial statements continue to reflect accurately, as of the date of the certificate, the financial condition of Planet in all material respects.

(h) Opinions of Counsel. Planet shall have received the opinion of Blanchard, Krasner & French or other reasonably acceptable counsel, as counsel to Planet and the opinion of Brody, Wilkinson and Ober, P.C., as counsel to ACP, each dated the Effective Time, including opinions in reasonable and customary form and substance on such matters as Planet shall reasonably request, including to the effect that, on the basis of facts, representations and assumptions set forth in such opinion, which are consistent with the state of facts existing at the Effective Time of the Merger, the Merger will be treated for federal income tax purposes as a reorganization under Section 368(a) of the Code. In rendering its opinion, counsel may require and rely upon representations contained in letters from ACP, Planet and/or their officers or principal shareholders as are customary for such opinions.

(i) Non-competition Agreements. Planet shall have received Non-competition Agreements executed and delivered by the Shareholder, and each of the non-officer directors and executive officers of ACP in the form of Exhibit A, each of which shall remain in full force and effect.

(j) Consents. Planet shall have obtained each of the consents required to consummate the Merger.

ARTICLE VIII

(a) Mutual Consent. At any time prior to the Effective Time, by the mutual consent of Planet and ACP if the Board of Directors of each so determines by vote of a majority of the members of its entire Board.

(b) Breach. At any time prior to the Effective Time, by Planet or ACP if its Board of Directors so determines by vote of a majority of the members of its entire Board, in the event of: (i) a breach by Planet or ACP, as the case may be, of any representation or warranty contained herein (subject to the standard set forth in Section 5.02), which breach cannot be or has not been cured within 30 days after the giving of written notice to the breaching party or parties of such breach; (ii) a breach by Planet or ACP, as the case may be, of any of the covenants or agreements contained herein, which breach cannot be or has not been cured within 30 days after the giving of written notice to the breaching party or parties of such breach or (iii) in the case of a termination by Planet, a breach by a Shareholder or Shareholders of any of the covenants or agreements contained in the Shareholder Agreements, which breach cannot be or has not been cured within 30 days after the giving of written notice to the breaching party or parties of such breach, provided that such breach (whether under (i), (ii) or (iii)) would be reasonably likely, individually or in the aggregate with other breaches, to result in a Material Adverse Effect with respect to Planet or ACP, as the case may be.

(c) Delay. At any time prior to the Effective Time, by Planet or ACP if its Board of Directors so determines by vote of a majority of the members of its entire Board, in the event that the Merger is not consummated by September 30, 2005, except to the extent that the failure of the Merger then to be consummated arises out of or results from the knowing action or inaction of (i) the party seeking to terminate pursuant to this Section 8.01(c) or (ii) any of the Shareholders (if ACP is the party seeking to terminate), which action or inaction is in violation of its obligations under this Agreement or, in the case of the Shareholders, his, her or its obligations under the relevant Shareholder Agreement.

(d) Acquisition Proposal. By Planet, if ACP shall have exercised a right specified in the provision set forth in Section 6.07 with respect to any Acquisition Proposal and shall, directly or through agents or representatives, continue discussion with any third party concerning such Acquisition Proposal for more than 15 Business Days after the date of receipt of such Acquisition Proposal.

8.02. *Effect of Termination and Abandonment*. (a) In the event of termination of this Agreement and the abandonment of the Merger pursuant to this Article 8, no party to this Agreement shall have any liability or further obligation to any other party hereunder except (i) as set forth in paragraphs (b) and (c) below and Section 9.01, (ii) that termination will not relieve a breaching party from liability if not provided for herein for any willful breach of any covenant, agreement, representation or warranty of this Agreement giving rise to such termination and (iii) any other provision of this Agreement which expressly survives the termination of this Agreement.

(b) If this Agreement is terminated by ACP pursuant to Section 8.01, paragraph (b) upon such termination Planet shall pay to ACP a termination fee of \$150,000 (the *Termination Fee*).

(c) If this Agreement is terminated (i) by ACP pursuant to Section 6.07 after a bona fide Acquisition Proposal for ACP shall have been publicly disclosed, or any person or entity shall have publicly disclosed a bona fide intention (whether or not conditional) to make an Acquisition Proposal or (ii) by Planet pursuant to Section 8.01, paragraphs (b) or (d), upon such termination ACP shall pay to Planet the Termination Fee.

(d) Any Termination Fee that becomes payable to Planet or ACP pursuant to this Section 8.02 shall be paid by wire transfer of immediately available funds to an account designated by ACP or Planet, as the case may be, if this Agreement is terminated and the termination meets the conditions set forth in this Section 8.02 at or prior to such termination.

(e) ACP and Planet agree that the agreements contained in paragraphs (b), (c) and (d) above are an integral part of the transactions contemplated by this Agreement, that without such agreements ACP and Planet would not have entered into this Agreement, and that such amounts do not constitute a penalty. If ACP or Planet fails to pay the amounts due under paragraph (b) or (c) above within the time periods specified in paragraph (d) above, the party obligated to pay the Termination Fee shall pay all costs and expenses incurred by the other party in connection with any action, including the filing of any lawsuit, taken to collect payment of such amounts, together with interest on the amount of any such unpaid amounts at the publicly announced prime rate of Bank of America, N.A. from the date such amounts were required to be paid.

(c) Failure to exercise any right under this Agreement will not constitute a waiver of such right in the event of a subsequent default.

**EXHIBIT A TO
FORM OF EMPLOYMENT AGREEMENT
EMPLOYEE S PROPRIETARY INFORMATION AND INVENTIONS AGREEMENT**

In consideration of my employment or continued employment by **Planet Technologies, Inc.** (the *Company*), and the compensation received by me from the Company from time to time, I hereby agree as follows:

12. Proprietary Information.

(a) Recognition of Company s Rights. All Proprietary Information shall be the sole property of the Company and its assignees. I hereby assign to the Company any rights I may have or acquire in all Proprietary Information. At all times during my employment by the Company and at all times after termination of such employment, I will keep in confidence and trust all Proprietary Information, and I will not disclose, sell, use, lecture upon or publish any Proprietary Information or anything relating to it without the written consent of the Company, except as may be necessary in the ordinary course of performing my duties as an employee of the Company, or unless an officer of the Company expressly authorizes such in writing.

(b) Proprietary Information. The term *Proprietary Information* shall mean any and all confidential and/or proprietary knowledge, data or information of the Company, whether in oral, written, graphic or electronic form. By way of illustration, but not limitation, *Proprietary Information* includes (a) trade secrets, know-how, inventions, ideas, tangible and intangible information relating to antibodies and other biological materials, cell lines, samples of assay components, media and/or cell lines and procedures and formulations for producing any such assay components, media and/or cell lines, formulations, compounds, products, processes, designs, formulas, methods, techniques, programs, software models, algorithms, developmental or experimental work, clinical or other data, compilations of data, other works of authorship, improvements and discoveries (hereinafter collectively referred to as *Inventions*); (b) information regarding plans for research and development, new products, marketing and selling, business plans, budgets and unpublished financial statements, licenses, prices and costs, suppliers, customers, licensees and strategic partners, and the existence and terms of any business discussions, negotiations or agreements to which the Company is a party; and (c) information regarding the skills and compensation of other employees or consultants of the Company.

(c) No Improper Use of Information of Prior Employers and Others. I represent that I have not brought and will not bring with me to the Company or use in the performance of my responsibilities at the Company any equipment, supplies, facility or trade secret information of any former employer or any other person to whom I have an obligation of confidentiality which is not generally available to the public, unless I have obtained written authorization for its possession and use.

13. Assignment of Inventions.

(a) The term *Proprietary Rights* shall mean all trade secrets, patents, copyrights, trademarks, mask works, moral rights and other intellectual property rights throughout the world.

(b) Assignment of Inventions. Subject to Sections 2(f) and 2(g), I agree that all Inventions (and all Proprietary Rights with respect thereto) shall be the sole property of the Company and its assigns. I hereby assign to the Company any right, title and interest I may have or acquire in and to all Inventions (and all Proprietary Rights with respect thereto). If I have any rights to the Inventions (or Proprietary Rights with respect thereto) that cannot be assigned to the Company, I unconditionally and irrevocably waive the enforcement of such rights and all claims and causes of action of any kind against the Company with respect to such rights. I agree, at the Company s request and expense, to consent to and join in any action to enforce such rights. If I have any right to the Inventions (or Proprietary Rights with respect thereto) that cannot be assigned to the Company or waived by me, I unconditionally and irrevocably grant to the Company during the term of such rights, an exclusive, irrevocable, perpetual, worldwide, fully paid and royalty-free license, with rights to sublicense through multiple levels of sublicensees, to make, have made, use, offer for sale, sell,

import, reproduce, create derivative works of, distribute, publicly perform and publicly display by all means now known or later developed, such rights.

(c) Assistance. I further agree to assist the Company in every proper way (but at the Company's expense) to obtain, and from time to time enforce, the Proprietary Rights in any and all Inventions, including, but not limited to applying for and obtaining such patents thereon and enforcing same, as the Company may desire, together with any assignments thereof to the Company or persons designated by it. My obligation to assist the Company in obtaining and enforcing Proprietary Rights in the Inventions in any and all countries shall continue beyond the termination of my employment, but the Company shall compensate me at a reasonable rate after such termination for time actually spent by me at the Company's request on such assistance. In the event that the Company is unable for any reason whatsoever to secure my signature to any lawful and necessary document required to obtain or enforce any Proprietary Rights with respect to any Invention (including renewals, extension, continuations, divisions or continuations in part thereof), I hereby irrevocably designate and appoint the Company and its duly authorized officers and agents, as my agents and attorneys-in-fact to act for and in my behalf and instead of me, to execute and file any such documents and to do all other lawfully permitted acts to further execution or enforcement of Proprietary Rights with the same legal force and effect as if executed by me.

(d) Prior Inventions. As a matter of record I have attached hereto as *Exhibit A* a complete list of all inventions or improvements which have been made or conceived or first reduced to practice by me, alone or jointly with others, prior to the commencement of my employment by the Company which I desire to remove from the operation of this Agreement (collectively referred to as *Prior Inventions*); and I covenant that such list is complete. If disclosure of any such Prior Inventions would cause me to violate any prior confidentiality agreement, I understand that I should not list such Prior Invention in *Exhibit A* but will disclose a cursory name for each such invention, a listing of the party(ies) to whom it belongs, and the fact that full disclosure as to such Prior Invention has not been made for that reason. If no such disclosure is attached to this Agreement, I represent that I have made no such inventions and improvements at the time of signing this Agreement. If, in the course of my employment with the Company, I incorporate a Prior Invention into an Invention or a Company product or process, the Company is hereby granted and shall have a nonexclusive, royalty-free, irrevocable, perpetual, worldwide license (with rights to sublicense through multiple tiers of sublicensees) to make, have made, use, offer for sale, sell, import, reproduce, create derivative works of, distribute, publicly perform and publicly display by all means now known or later developed such Prior Invention. Notwithstanding the foregoing, I agree that I will not incorporate, or permit to be incorporated, Prior Inventions in any Invention or Company product or process without the Company's prior written consent.

(e) Obligation to Keep Company Informed. I will promptly and fully in writing disclose to the Company all Inventions authored, conceived or reduced to practice or learned by me, either alone or jointly with others, during the period of my employment and for one (1) year after termination of this Agreement, including any that may be covered by Section 2870 of the California Labor Code.

(f) Government or Third Party. I also agree to assign all my right, title and interest in and to any particular Invention to a third party, including without limitation the United States, as directed by the Company.

(g) Nonassignable Inventions. This Agreement does not apply to inventions which qualify fully for protection under Section 2870 of the California Labor Code, which are ideas or inventions for which no equipment, supplies, facility or trade secret information of the Company was used and which were developed entirely on my own time, and (1) which do not relate (a) directly to the business of the Company, or (b) to the Company's actual or demonstrably anticipated research or development, or (2) which do not result from any work performed by me for the Company. Notwithstanding the foregoing, I shall disclose in confidence to the Company any invention in order to permit the Company to make a determination as to compliance by me with the terms and conditions of this Agreement.

14. No Conflict of Interest. I agree that during the period of my employment by the Company and any period during which I am receiving compensation or any other consideration from the Company, including, but not limited to, any severance pay, I will not, without the Company's prior written consent, engage in any

employment or business activity which is competitive with the business of the Company or any of its affiliates, either directly or indirectly, in any manner or capacity, as adviser, principal, agent, affiliate, promoter, partner, officer, director, employee, stockholder, owner, co-owner, consultant or otherwise, in any phase of the business of developing, manufacturing and marketing of products or services which are in the same field of use or which otherwise compete with the products or services or proposed products or services of the Company or any of its affiliates. My ownership, as a passive investment, of less than two percent (2%) of the outstanding shares of capital stock of any corporation with one or more classes of its capital stock listed on a national securities exchange or publicly traded on the Nasdaq Stock Market or in the over-the-counter market shall not constitute a breach of this Section 3.

15. Non-Solicitation. I agree that for a period of one (1) year following termination of my employment with the Company, I will not solicit or in any manner encourage any employee, independent contractor or consultant of the Company to leave employment or service with the Company.

16. No Conflicting Obligations. I represent that my performance of all the terms of this Agreement and that my employment by the Company do not and will not breach any agreement to keep in confidence proprietary information acquired by me in confidence or in trust prior to my employment by the Company. I have not entered into, and I agree I will not enter into, any agreement either written or oral in conflict herewith.

17. Return of Company Materials. All drawings, notes, memoranda, specifications, documents, data, devices, records, apparatus, equipment, chemicals, molecules, organisms and other physical property, including any copies thereof, whether or not pertaining to Proprietary Information, furnished to me by the Company or produced by myself or others in connection with my employment shall be and remain the sole property of the Company and shall be returned promptly to the Company upon termination of this Agreement for any reason, or earlier if requested by the Company, and I will not retain or take with me any such property or any reproduction of such property.

18. General Provisions.

(a) Any notices required or permitted hereunder shall be given to the appropriate party at the address specified below or at such other address as the party shall specify in writing. Such notice shall be in writing and shall be deemed given (i) upon personal delivery to the appropriate address, (ii) upon delivery by facsimile transmission with receipt confirmed, (iii) if sent by certified or registered mail, postage prepaid, three (3) days after the date of mailing, or (iv) if sent by overnight courier, the next business day such courier regularly makes deliveries.

(b) This Agreement will be governed by and construed according to the laws of the State of California, as such laws are applied to agreements entered into and to be performed entirely within the State of California between California residents. I hereby expressly consent to the personal jurisdiction of the state and federal courts located in San Diego County, California for any lawsuit filed there against me by Company arising from or related to this Agreement.

(c) Because my services are personal and unique and because I may have access to and become acquainted with the Proprietary Information of the Company, I acknowledge and agree that, if I were to breach this Agreement, the Company would suffer an irreparable injury such that no remedy at law would adequately protect or appropriately compensate the Company for such injury. Accordingly, I agree that the Company shall have the right to enforce this Agreement and any of its provisions by injunction, specific performance or other equitable relief, without bond and without prejudice to any other rights and remedies that the Company may have for a breach of this Agreement.

(d) This Agreement (including any exhibits hereto) contains the final, complete and exclusive agreement of the parties relative to the subject matter hereof and supersedes all prior and contemporaneous understandings and agreements relating to said subject matter. This Agreement may not be changed, modified, amended or supplemented except by a written instrument signed by both parties.

(e) If any provision of this Agreement shall be declared invalid, illegal or unenforceable, such provision shall be severed and all remaining provisions shall continue in full force and effect.

(f) This Agreement shall be binding upon my heirs, executors, administrators and other legal representatives and me and shall inure to the benefit of the Company, its successors and assigns.

(g) The waiver from time to time by the Company of any of its rights or the Company's failure to exercise any remedy shall not operate or be construed as a continuing waiver of same or of any other of the Company's rights or remedies provided in this Agreement.

(h) I agree and understand that nothing in this Agreement shall confer any right with respect to continuation of employment by the Company, nor shall it interfere in any way with my right or the Company's right to terminate my employment at any time, with or without cause, nor shall it obligate the Company to make any payment to me based upon termination of my employment.

This Agreement shall be effective as of the first day of my employment by the Company.

§ 1300. Reorganization or short-form merger; dissenting shares; corporate purchase at fair market value; definitions

(a) If the approval of the outstanding shares (Section 152) of a corporation is required for a reorganization under subdivisions (a) and (b) or subdivision (e) or (f) of Section 1201, each shareholder of the corporation entitled to vote on the transaction and each shareholder of a subsidiary corporation in a short-form merger may, by complying with this chapter, require the corporation in which the shareholder holds shares to purchase for cash at their fair market value the shares owned by the shareholder which are dissenting shares as defined in subdivision (b). The fair market value shall be determined as of the day before the first announcement of the terms of the proposed reorganization or short-form merger, excluding any appreciation or depreciation in consequence of the proposed action, but adjusted for any stock split, reverse stock split, or share dividend which becomes effective thereafter.

(b) As used in this chapter, dissenting shares means shares which come within all of the following descriptions:

(1) Which were not immediately prior to the reorganization or short-form merger either (A) listed on any national securities exchange certified by the Commissioner of Corporations under subdivision (o) of Section 25100 or (B) listed on the National Market System of the NASDAQ Stock Market, and the notice of meeting of shareholders to act upon the reorganization summarizes this section and Sections 1301, 1302, 1303 and 1304; provided, however, that this provision does not apply to any shares with respect to which there exists any restriction on transfer imposed by the corporation or by any law or regulation; and provided, further, that this provision does not apply to any class of shares described in subparagraph (A) or (B) if demands for payment are filed with respect to 5 percent or more of the outstanding shares of that class.

(2) Which were outstanding on the date for the determination of shareholders entitled to vote on the reorganization and (A) were not voted in favor of the reorganization or, (B) if described in subparagraph (A) or (B) of paragraph (1) (without regard to the provisos in that paragraph), were voted against the reorganization, or which were held of record on the effective date of a short-form merger; provided, however, that subparagraph (A) rather than subparagraph (B) of this paragraph applies in any case where the approval required by Section 1201 is sought by written consent rather than at a meeting.

(3) Which the dissenting shareholder has demanded that the corporation purchase at their fair market value, in accordance with Section 1301.

(4) Which the dissenting shareholder has submitted for endorsement, in accordance with Section 1302.

(c) As used in this chapter, dissenting shareholder means the recordholder of dissenting shares and includes a transferee of record.

§ 1301. Notice to holders of dissenting shares in reorganizations; demand for purchase; time; contents

(a) If, in the case of a reorganization, any shareholders of a corporation have a right under Section 1300, subject to compliance with paragraphs (3) and (4) of subdivision (b) thereof, to require the corporation to purchase their shares for cash, such corporation shall mail to each such shareholder a notice of the approval of the reorganization by its outstanding shares (Section 152) within 10 days after the date of such approval, accompanied by a copy of Sections 1300, 1302, 1303, 1304 and this section, a statement of the price determined by the corporation to represent the fair market value of the dissenting shares, and a brief description of the procedure to be followed if the shareholder desires to exercise the shareholder's right under such sections. The statement of price constitutes an offer by the corporation to purchase at the price stated any dissenting shares as defined in subdivision (b) of Section 1300, unless they lose their status as dissenting shares under Section 1309.

(b) Any shareholder who has a right to require the corporation to purchase the shareholder's shares for cash under Section 1300, subject to compliance with paragraphs (3) and (4) of subdivision (b) thereof, and

who desires the corporation to purchase such shares shall make written demand upon the corporation for the purchase of such shares and payment to the shareholder in cash of their fair market value. The demand is not effective for any purpose unless it is received by the corporation or any transfer agent thereof (1) in the case of shares described in clause (i) or (ii) of paragraph (1) of subdivision (b) of Section 1300 (without regard to the provisos in that paragraph), not later than the date of the shareholders meeting to vote upon the reorganization, or (2) in any other case within 30 days after the date on which the notice of the approval by the outstanding shares pursuant to subdivision (a) or the notice pursuant to subdivision (i) of Section 1110 was mailed to the shareholder.

(c) The demand shall state the number and class of the shares held of record by the shareholder which the shareholder demands that the corporation purchase and shall contain a statement of what such shareholder claims to be the fair market value of those shares as of the day before the announcement of the proposed reorganization or short-form merger. The statement of fair market value constitutes an offer by the shareholder to sell the shares at such price.

§ 1302. Submission of share certificates for endorsement; uncertificated securities

Within 30 days after the date on which notice of the approval by the outstanding shares or the notice pursuant to subdivision (i) of Section 1110 was mailed to the shareholder, the shareholder shall submit to the corporation at its principal office or at the office of any transfer agent thereof, (a) if the shares are certificated securities, the shareholder's certificates representing any shares which the shareholder demands that the corporation purchase, to be stamped or endorsed with a statement that the shares are dissenting shares or to be exchanged for certificates of appropriate denomination so stamped or endorsed or (b) if the shares are uncertificated securities, written notice of the number of shares which the shareholder demands that the corporation purchase. Upon subsequent transfers of the dissenting shares on the books of the corporation, the new certificates, initial transaction statement, and other written statements issued therefor shall bear a like statement, together with the name of the original dissenting holder of the shares.

§ 1303. Payment of agreed price with interest; agreement fixing fair market value; filing; time of payment

(a) If the corporation and the shareholder agree that the shares are dissenting shares and agree upon the price of the shares, the dissenting shareholder is entitled to the agreed price with interest thereon at the legal rate on judgments from the date of the agreement. Any agreements fixing the fair market value of any dissenting shares as between the corporation and the holders thereof shall be filed with the secretary of the corporation.

(b) Subject to the provisions of Section 1306, payment of the fair market value of dissenting shares shall be made within 30 days after the amount thereof has been agreed or within 30 days after any statutory or contractual conditions to the reorganization are satisfied, whichever is later, and in the case of certificated securities, subject to surrender of the certificates therefor, unless provided otherwise by agreement.

§ 1304. Action to determine whether shares are dissenting shares or fair market value; limitation; joinder; consolidation; determination of issues; appointment of appraisers

(a) If the corporation denies that the shares are dissenting shares, or the corporation and the shareholder fail to agree upon the fair market value of the shares, then the shareholder demanding purchase of such shares as dissenting shares or any interested corporation, within six months after the date on which notice of the approval by the outstanding shares (Section 152) or notice pursuant to subdivision (i) of Section 1110 was mailed to the shareholder, but not thereafter, may file a complaint in the superior court of the proper county praying the court to determine whether the shares are dissenting shares or the fair market value of the dissenting shares or both or may intervene in any action pending on such a complaint.

(b) Two or more dissenting shareholders may join as plaintiffs or be joined as defendants in any such action and two or more such actions may be consolidated.

(c) On the trial of the action, the court shall determine the issues. If the status of the shares as dissenting shares is in issue, the court shall first determine that issue. If the fair market value of the dissenting shares is in issue, the court shall determine, or shall appoint one or more impartial appraisers to determine, the fair market value of the shares.

§ 1305. Report of appraisers; confirmation; determination by court; judgment; payment; appeal; costs

(a) If the court appoints an appraiser or appraisers, they shall proceed forthwith to determine the fair market value per share. Within the time fixed by the court, the appraisers, or a majority of them, shall make and file a report in the office of the clerk of the court. Thereupon, on the motion of any party, the report shall be submitted to the court and considered on such evidence as the court considers relevant. If the court finds the report reasonable, the court may confirm it.

(b) If a majority of the appraisers appointed fail to make and file a report within 10 days from the date of their appointment or within such further time as may be allowed by the court or the report is not confirmed by the court, the court shall determine the fair market value of the dissenting shares.

(c) Subject to the provisions of Section 1306, judgment shall be rendered against the corporation for payment of an amount equal to the fair market value of each dissenting share multiplied by the number of dissenting shares which any dissenting shareholder who is a party, or who has intervened, is entitled to require the corporation to purchase, with interest thereon at the legal rate from the date on which judgment was entered.

(d) Any such judgment shall be payable forthwith with respect to uncertificated securities and, with respect to certificated securities, only upon the endorsement and delivery to the corporation of the certificates for the shares described in the judgment. Any party may appeal from the judgment.

(e) The costs of the action, including reasonable compensation to the appraisers to be fixed by the court, shall be assessed or apportioned as the court considers equitable, but, if the appraisal exceeds the price offered by the corporation, the corporation shall pay the costs (including in the discretion of the court attorneys' fees, fees of expert witnesses and interest at the legal rate on judgments from the date of compliance with Sections 1300, 1301 and 1302 if the value awarded by the court for the shares is more than 125 percent of the price offered by the corporation under subdivision (a) of Section 1301).

§ 1306. Prevention of immediate payment; status as creditors; interest

To the extent that the provisions of Chapter 5 prevent the payment to any holders of dissenting shares of their fair market value, they shall become creditors of the corporation for the amount thereof together with interest at the legal rate on judgments until the date of payment, but subordinate to all other creditors in any liquidation proceeding, such debt to be payable when permissible under the provisions of Chapter 5.

§ 1307. Dividends on dissenting shares

Cash dividends declared and paid by the corporation upon the dissenting shares after the date of approval of the reorganization by the outstanding shares (Section 152) and prior to payment for the shares by the corporation shall be credited against the total amount to be paid by the corporation therefor.

§ 1308. Rights of dissenting shareholders pending valuation; withdrawal of demand for payment

Except as expressly limited in this chapter, holders of dissenting shares continue to have all the rights and privileges incident to their shares, until the fair market value of their shares is agreed upon or determined. A dissenting shareholder may not withdraw a demand for payment unless the corporation consents thereto.

§ 1309. Termination of dissenting share and shareholder status

Dissenting shares lose their status as dissenting shares and the holders thereof cease to be dissenting shareholders and cease to be entitled to require the corporation to purchase their shares upon the happening of any of the following:

(a) The corporation abandons the reorganization. Upon abandonment of the reorganization, the corporation shall pay on demand to any dissenting shareholder who has initiated proceedings in good faith under this chapter all necessary expenses incurred in such proceedings and reasonable attorneys' fees.

(b) The shares are transferred prior to their submission for endorsement in accordance with Section 1302 or are surrendered for conversion into shares of another class in accordance with the articles.

(c) The dissenting shareholder and the corporation do not agree upon the status of the shares as dissenting shares or upon the purchase price of the shares, and neither files a complaint or intervenes in a pending action as provided in Section 1304, within six months after the date on which notice of the approval by the outstanding shares or notice pursuant to subdivision (i) of Section 1110 was mailed to the shareholder.

(d) The dissenting shareholder, with the consent of the corporation, withdraws the shareholder's demand for purchase of the dissenting shares.

§ 1310. Suspension of right to compensation or valuation proceedings; litigation of shareholders' approval

If litigation is instituted to test the sufficiency or regularity of the votes of the shareholders in authorizing a reorganization, any proceedings under Sections 1304 and 1305 shall be suspended until final determination of such litigation.

§ 1311. Exempt shares

This chapter, except Section 1312, does not apply to classes of shares whose terms and provisions specifically set forth the amount to be paid in respect to such shares in the event of a reorganization or merger.

§ 1312. Right of dissenting shareholder to attack, set aside or rescind merger or reorganization; restraining order or injunction; conditions

(a) No shareholder of a corporation who has a right under this chapter to demand payment of cash for the shares held by the shareholder shall have any right at law or in equity to attack the validity of the reorganization or short-form merger, or to have the reorganization or short-form merger set aside or rescinded, except in an action to test whether the number of shares required to authorize or approve the reorganization have been legally voted in favor thereof; but any holder of shares of a class whose terms and provisions specifically set forth the amount to be paid in respect to them in the event of a reorganization or short-form merger is entitled to payment in accordance with those terms and provisions or, if the principal terms of the reorganization are approved pursuant to subdivision (b) of Section 1202, is entitled to payment in accordance with the terms and provisions of the approved reorganization.

(b) If one of the parties to a reorganization or short-form merger is directly or indirectly controlled by, or under common control with, another party to the reorganization or short-form merger, subdivision (a) shall not apply to any shareholder of such party who has not demanded payment of cash for such shareholder's shares pursuant to this chapter; but if the shareholder institutes any action to attack the validity of the reorganization or short-form merger or to have the reorganization or short-form merger set aside or rescinded, the shareholder shall not thereafter have any right to demand payment of cash for the shareholder's shares pursuant to this chapter. The court in any action attacking the validity of the reorganization or short-form merger or to have the reorganization or short-form merger set aside or rescinded shall not restrain or enjoin the consummation of the transaction except upon 10 days' prior notice to the corporation and upon a

determination by the court that clearly no other remedy will adequately protect the complaining shareholder or the class of shareholders of which such shareholder is a member.

(c) If one of the parties to a reorganization or short-form merger is directly or indirectly controlled by, or under common control with, another party to the reorganization or short-form merger, in any action to attack the validity of the reorganization or short-form merger or to have the reorganization or short-form merger set aside or rescinded, (1) a party to a reorganization or short-form merger which controls another party to the reorganization or short-form merger shall have the burden of proving that the transaction is just and reasonable as to the shareholders of the controlled party, and (2) a person who controls two or more parties to a reorganization shall have the burden of proving that the transaction is just and reasonable as to the shareholders of any party so controlled.

§ 1313. Conversions deemed to constitute a reorganization; application of chapter

A conversion pursuant to Chapter 11.5 (commencing with Section 1150) shall be deemed to constitute a reorganization for purposes of applying the provisions of this chapter, in accordance with and to the extent provided in Section 1159.
