CHICAGO RIVET & MACHINE CO.  
 NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)

1. In the opinion of the Company, the accompanying unaudited interim financial statements contain all adjustments necessary to present fairly the financial position of the Company as of March 31, 2009 (unaudited) and December 31, 2008 (audited) and the results of operations and changes in cash flows for the indicated periods. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
2. The results of operations for the three month period ended March 31, 2009 are not necessarily indicative of the results to be expected for the year.
3. The Company extends credit on the basis of terms that are customary within our markets to various companies doing business primarily in the automotive industry. The Company has a concentration of credit risk primarily within the automotive industry and in the Midwestern United States.
4. The Company is, from time to time, involved in litigation, including environmental claims and contract disputes, in the normal course of business. While it is not possible at this time to establish the ultimate amount of liability with respect to contingent liabilities, including those related to legal proceedings, management is of the opinion that the aggregate amount of any such liabilities, for which provision has not been made, will not have a material adverse effect on the Company's financial position.
5. The Company's federal income tax returns for the 2006, 2007 and 2008 tax years are subject to examination by the Internal Revenue Service ( IRS ). While it may be possible that a reduction could occur with respect to the Company's unrecognized tax benefits as an outcome of an IRS examination, management does not anticipate any adjustments that would result in a material change to the results of operations or financial condition of the Company. No statutes have been extended on any of the Company's federal income tax filings. The statute of limitations on the Company's 2006, 2007 and 2008 federal income tax returns will expire on September 15, 2010, 2011 and 2012, respectively. The Company's state income tax returns for the 2006 through 2008 tax years remain subject to examination by various state authorities with the latest closing period on October 31, 2012. The Company is currently not under examination by any state authority for income tax purposes and no statutes for state income tax filings have been extended.
6. Inventories are stated at the lower of cost or net realizable value, cost being determined by the first-in, first-out method. A summary of inventories is as follows:

	March 31, 2009	December 31, 2008
Raw material	\$ 1,348,050	\$ 1,600,001
Work-in-process	1,573,084	1,628,664

## CHICAGO RIVET &amp; MACHINE CO.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Revenues for the first quarter of 2009 were \$4,759,290, a decline of \$3,655,036, or 43%, compared to the first quarter of last year. The dramatic reduction in automotive production, upon which we rely for the majority of our revenue, and the effects of the current recession on all the markets we serve, were the primary causes of the reduced sales activity. We have made significant reductions in our expenditures since last year in an attempt to bring expenses in line with customer demand, but the continued weak demand resulted in a net loss of \$623,861, or \$0.65 per share, in the first quarter of 2009 compared to net income of \$27,663, or \$0.03 per share, in 2008.

Fastener segment revenues declined \$3,696,697, or 51%, from \$7,326,127 in the first quarter of 2008 to \$3,629,430 in 2009. The percentage decline is similar to the drop in North American car and truck production which was at its lowest level of any quarter in 18 years. In response to the reduced demand, we have taken steps to reduce expenses where practicable, including reductions in staffing and work schedules. The elimination of contract labor resulted in \$87,000 in savings while an aggressive competitive bid process for various supplies contributed to a \$531,000 reduction in such expenses. Even though we reduced all major categories of manufacturing costs, these savings did not fully offset the decline in sales volume, resulting in a \$982,000 reduction in fastener segment gross margin.

Assembly equipment segment revenues increased \$41,661, or 4%, from \$1,088,199 in the first quarter of 2008 to \$1,129,860 in 2009. The increase was due to the shipment of certain large machine orders during the current year quarter which offset declines in sales of tools and machine parts. Segment margins were \$57,000 lower in the first quarter of 2009 compared to 2008 primarily due to higher material costs.

Selling and administrative expenses during the first quarter of 2009 were \$68,000 lower than the first quarter of 2008. Commissions account for approximately \$52,000 of the decline due to the lower sales activity in the current year quarter. The remaining net reduction is related to various items including reduced expenditures for office supplies and maintenance.

Working capital amounted to \$14.7 million at the end of the first quarter, a decline of \$.7 million from the beginning of the year. During the quarter, inventories were reduced by \$.6 million as raw material prices retreated from the high levels reached during the second half of 2008 and quantities were reduced. Accounts receivable declined \$.3 million during the first quarter primarily due to lower sales during the first three months of the current year compared to the fourth quarter of 2008. Although accounts payable and accrued salaries and wages increased by a combined \$.5 million since the beginning of the year, reflecting normal yearly patterns, a reduction in customer deposits and other accrued expenses of \$.4 million offset most of that amount. The net result of these changes and other cash flow items on cash and certificates of deposit was an increase of \$.1 million, to \$7.6 million, as of March 31, 2009. The Company has a \$1.0 million line of credit, which expires May 31, 2009. This line of credit remains unused. Management believes that current cash, cash equivalents and operating cash flow will provide adequate working capital for the foreseeable future.

The current economic crisis continues to be the most significant factor affecting our operations. The decline in revenues and the resultant loss in the first quarter of 2009 were primarily due to weak demand in our primary markets. As the largest market for the products we manufacture, the automotive industry greatly impacts our results. The industry is currently faced with many challenges, including excess inventories, that are likely to keep near-term demand restrained. However, even in these challenging times, we believe our sound financial condition leaves us well positioned to take advantage of new opportunities. We will continue to make adjustments to our activities where necessary, without sacrificing quality, in response to changing customer demand and will continue our cost control efforts while pursuing opportunities to improve results.

Item 4. Controls and Procedures.

(a) Disclosure Controls and Procedures. The Company's management, with the participation of the Company's Chief Executive Officer and President, Chief Operating Officer and Treasurer (the Company's principal financial officer), has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

(b) Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
