**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED****1. Presentation of Interim Financial Statements**

BankAtlantic Bancorp, Inc. (the Company) is a Florida-based diversified financial services holding company that offers a wide range of banking products and services through its wholly owned subsidiary, BankAtlantic. The Company has two reportable segments, BankAtlantic and the Parent Company. On February 28, 2007, the Company completed the sale to Stifel Financial Corp. (Stifel) of Ryan Beck Holdings, Inc. (Ryan Beck), a subsidiary engaged in retail and institutional brokerage and investment banking. As a consequence, the results of operations of Ryan Beck are presented as Discontinued Operations in the Consolidated Statement of Operations for all periods presented. The financial information of Ryan Beck is included in the Consolidated Statement of Financial Condition as of December 31, 2006, and in the Consolidated Statement of Stockholders Equity and Comprehensive Income and the Consolidated Statement of Cash Flows for all periods presented.

BankAtlantic, a federal savings bank headquartered in Fort Lauderdale, Florida, provides traditional retail banking services and a wide range of commercial banking products and related financial services through a network of 93 branches or stores located in Florida.

All significant inter-company balances and transactions have been eliminated in consolidation.

In management's opinion, the accompanying consolidated financial statements contain such adjustments as are necessary for a fair presentation of the Company's consolidated financial condition at March 31, 2007 and December 31, 2006, the consolidated results of operations for the three months ended March 31, 2007 and 2006, the consolidated stockholders equity and comprehensive income and cash flows for the three months ended March 31, 2007 and 2006. The results of operations for the three months ended March 31, 2007 are not necessarily indicative of results of operations that may be expected for the year ended December 31, 2007. The consolidated financial statements and related notes are presented as permitted by Form 10-Q and should be read in conjunction with the notes to the consolidated financial statements appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

Certain amounts for prior periods have been reclassified to conform to the statement presentation for 2007.

In September 2006, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin No. 108, (SAB 108) which established an approach to quantify errors in financial statements. The Company applied the provisions of SAB 108 using the cumulative effect transition method in connection with the preparation of its financial statements for the year ended December 31, 2006. The impact of the application of SAB 108 on the Company's Consolidated Statement of Operations for the three months ended March 31, 2006 was to adjust non-interest expenses from \$69.3 million as originally reported to \$69.7 million as adjusted. For further discussion on the implementation of SAB 108, see notes to the consolidated financial statements appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

**2. Discontinued Operations and Merger**

On February 28, 2007, Ryan Beck merged with Stifel. Under the terms of the merger, the Company and several employees of Ryan Beck who held options to acquire Ryan Beck common stock exchanged their entire interest in Ryan Beck common stock and options to acquire Ryan Beck common stock for an aggregate of 2,467,600 shares of Stifel common stock, cash of \$2.7 million and, subject to the discussion which follows, five-year warrants to purchase an aggregate of 500,000 shares of Stifel common stock at an exercise price of \$36.00 per share (the Warrants). The issuance of the Warrants is subject to Stifel shareholder approval. If the Stifel shareholders do not approve the issuance of Warrants, then Stifel will pay an additional \$20 million in cash in lieu of the Warrants. Of the total merger consideration, the Company's portion is 2,377,354 shares of Stifel common stock, cash of \$2.6 million and Warrants to purchase an aggregate of 481,715 shares of Stifel common stock. Stifel has agreed to register the shares of Stifel common stock issuable in connection with the merger and to grant incidental piggy-back registration rights. The Company has agreed that, other than in private transactions, it will not, without Stifel's consent, sell more than one-third of the shares of Stifel common stock received by it within the year following the initial registration of such securities nor more than two-thirds of the shares of Stifel common stock received by it within the two-year period following the initial registration of such securities. As of March 31, 2007, the Company owns approximately 16% of

the issued and outstanding shares of Stifel common stock and does not have the ability to exercise significant influence over Stifel's operations. As such, the Company's investment in Stifel common stock is accounted for under the cost method of accounting. Stifel common stock that can be sold within one

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

year is accounted for as securities available for sale and Stifel common stock in which sale is restricted for more than one year is accounted for as investment securities at cost. The Warrants are accounted for as derivatives. Included in the Company's Consolidated Statement of Financial Condition as of March 31, 2007 under securities available for sale and investment securities at cost are \$31.2 million and \$63.6 million, respectively of Stifel common stock and included in financial instruments at fair value is \$8.8 million of Warrants.

The Stifel agreement also provides for contingent earn-out payments, payable in cash or shares of Stifel common stock, at Stifel's election, based on (a) defined Ryan Beck private client revenues during the two-year period immediately following the merger up to a maximum of \$40,000,000 and (b) defined Ryan Beck investment banking revenues equal to 25% of the amount that such revenues exceed \$25,000,000 during each of the two twelve-month periods immediately following the consummation of the transaction. The contingent earn-out payments, if any, will be accounted for upon receipt as additional proceeds from the exchange of Ryan Beck common stock with a corresponding increase in the Company's investment in Stifel. The Company has entered into separate agreements with each individual Ryan Beck option holder in order to allocate the contingent earn-out payments.

The gain on the sale of Ryan Beck included in the Consolidated Statement of Operations in Discontinued operations was as follows (in thousands):

**Consideration received:**

(1) Merger related costs include \$9.3 million of change in control payments, \$3.5 million of one-time employee termination benefits and \$1.5 million of share-based compensation.

**3. One-time Termination Benefits**

During March 2007, the Company reduced its workforce by approximately 225 associates, or 8% in order to reduce operating expenses with a view to increasing future operating efficiencies. The reduction in the workforce impacted every operating segment and was completed on March 27, 2007. Included in the Company's Consolidated Statement of Operations were \$2.6 million of costs associated with one-time termination benefits. These benefits include \$0.3 million of share-based compensation. The following is a reconciliation of the beginning and ending balance of the employee termination benefit liability (in thousands):

	<b>Employee Termination Benefits</b>
Balance at December 31, 2006	\$
Expense incurred	2,317
Amounts paid	(53)
Balance at March 31, 2007	\$ 2,264

**4. Accounting for Income Taxes**

On January 1, 2007, the Company adopted Financial Accounting Standards Board Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). As a result of the adoption of FIN 48 the Company decreased the liability for unrecognized tax benefits by \$700,000 and increased the beginning balance of retained earnings by a corresponding amount. This cumulative-effect adjustment amount is the difference between the net amount of assets and liabilities recognized in the Statement of Financial Condition prior to the application of FIN 48 and the net amount of assets and liabilities recognized as a result of applying the provision of FIN 48. As of the adoption date, the Company had gross tax affected unrecognized tax benefits of \$185,000 and as of March 31, 2007 the Company's gross tax affected unrecognized tax benefits were \$207,000. The recognition of these tax benefits would not significantly affect the Company's effective tax rate.

The Company and its subsidiaries file a consolidated federal income tax return and separate company state income tax returns. The Company's federal income tax returns for all years subsequent to the 2002 tax year are subject to examination. Various state jurisdiction tax years remain open to examination. The Company is not currently under examination by any taxing authority.

The Company recognizes interest and penalties related to unrecognized tax benefits in its provision for income taxes. The Company had no interest or penalties accrued related to its unrecognized tax benefits at March 31, 2007 and December 31, 2006.

**5. Defined Benefit Pension Plan**

At December 31, 1998, the Company froze its defined benefit pension plan (Plan). All participants in the Plan ceased accruing service benefits beyond that date. The Company is subject to future pension expense or income based on future actual plan returns and actuarial values of the Plan obligations to employees. Under the Plan, net periodic pension (benefit) expense incurred includes the following components (in thousands):

	<b>For the Three Months Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
Service cost benefits earned during the period	\$	\$

The Company, Levitt Corporation ( Levitt ) and Bluegreen Corporation ( Bluegreen ) may be deemed to be affiliates. The controlling shareholder of the Company and Levitt is BFC Financial Corporation ( BFC ), and Levitt owns 31% of the outstanding common stock of Bluegreen. The majority of BFC 's voting common stock is owned or controlled by the Company 's Chairman and Chief Executive Officer, and the Company 's Vice Chairman, both of whom are also directors of the Company, executive officers and directors of BFC and Levitt, and directors of Bluegreen. The Company, BFC, Levitt and Bluegreen share various office premises and employee services, pursuant to the arrangements described below.

The Company maintains service arrangements with BFC, pursuant to which the Company provides office facilities to BFC and its affiliates and the Company is compensated based on its costs. Effective January 1, 2006, certain of the Company 's human resources, risk management and investor relations employees were hired by BFC and BFC began providing the services and back-office support functions provided by these employees to the Company and Levitt.

The table below shows the effect of service arrangements on the Company 's consolidated statement of operations: (in thousands):

	<b>For the Three Month Ended March 31,</b>	
	<b>2007</b>	<b>2006</b>
Non-interest income:		
Other office facilities	\$ 40	\$ 97
Non-interest expense:		
Share based compensation	(55)	(63)
Other back-office support	(394)	(237)
Net decrease to income before income taxes of affiliate transactions	\$ (409)	\$ (203)

The Company in prior periods issued options to acquire shares of the Company 's Class A common stock to employees of Levitt. Additionally, employees of the Company have transferred to affiliate companies and the Company has elected, in accordance with the terms of the Company 's stock option plans, not to cancel the stock options held by those former employees. The Company accounts for these options to former employees as employee stock options because these individuals were employees of the Company on the grant date. During the three months ended March 31, 2007 and 2006, certain of these former employees exercised 13,062 and 13,062 of options, respectively, to acquire Class A common stock at a weighted average exercise price of \$8.56 and \$2.97, respectively.

Options outstanding to former employees, who are now employees of affiliate companies, consisted of the following as of March 31, 2007:

	<b>Class A Common Stock</b>	<b>Weighted Average Price</b>
Options outstanding	288,536	\$ 9.62
Options nonvested	154,587	\$ 12.32

During the year ended December 31, 2006, the Company issued to BFC employees that perform services for the Company options to acquire 50,300 shares of the Company 's Class A common stock at an exercise price of \$14.69. These options vest in five years and expire ten years from the grant date. The Company recognizes service provider expense on these stock options over the vesting period for these options based on the option fair value at each reporting period. The Company recorded \$13,000 and \$0 of service provider expenses for the three months ended

March 31, 2007 and 2006, respectively.

BankAtlantic entered into securities sold under agreements to repurchase transactions with Levitt and BFC in the aggregate of \$3.9 million and \$5.5 million as of March 31, 2007 and December 31, 2006, respectively. The Company recognized \$51,000 and \$152,000 of interest expense in connection with the above deposits during the three months ended March 31, 2007 and 2006, respectively. These transactions have similar terms as BankAtlantic repurchase agreements with unaffiliated third parties.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries****8. Segment Reporting**

Operating segments are defined as components of an enterprise about which separate financial information is available that is regularly reviewed by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Reportable segments consist of one or more operating segments with similar economic characteristics, products and services, production processes, type of customer, distribution system and regulatory environment. The information provided for Segment Reporting is based on internal reports utilized by management. Results of operations are reported through two reportable segments: BankAtlantic and the Parent Company. The Parent Company activities consist of equity and debt financings, capital management and acquisition related expenses.

The following summarizes the aggregation of the Company's operating segments into reportable segments:

<b>Reportable Segment</b>	<b>Operating Segments Aggregated</b>
BankAtlantic	Banking operations.
Parent Company	BankAtlantic Bancorp's operations, costs of acquisitions, capital management and financing activities.

The accounting policies of the segments are generally the same as those described in the summary of significant accounting policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. Intersegment transactions are eliminated in consolidation.

The Company evaluates segment performance based on segment net income from continuing operations after tax. The table below is segment information for segment net income from continuing operations for the three months ended March 31, 2007 and 2006 (in thousands):

	<b>BankAtlantic</b>	<b>Parent Company</b>	<b>Adjusting and Elimination Entries</b>	<b>Segment Total</b>

Commitments to purchase branch facilities land	5,100	11,180
Standby letters of credit	55,138	67,831
Commercial lines of credit	91,474	86,992

Standby letters of credit are conditional commitments issued by BankAtlantic to guarantee the performance of a customer to a third party. BankAtlantic's standby letters of credit are generally issued to customers in the construction industry guaranteeing project performance. These types of standby letters of credit had a maximum exposure of \$38.7 million at March 31, 2007. BankAtlantic also issues standby letters of credit to commercial lending customers guaranteeing the payment of goods and services. These types of standby letters of credit had a maximum exposure of \$16.4 million at March 31, 2007. These guarantees are primarily issued to support public and private borrowing arrangements and have maturities of one year or less. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. BankAtlantic may hold certificates of deposit and residential and commercial liens as collateral for such commitments. Included in other liabilities at March 31, 2007 and December 31, 2006 was \$29,000 and \$44,000, respectively, of unearned guarantee fees. There were no obligations associated with these guarantees recorded in the financial statements.

#### **11. New Accounting Pronouncements**

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements . The Statement defines fair value in generally accepted accounting principles ( GAAP ), establishes a framework for measuring fair value and expands disclosure about fair value measurements. The Statement will change key concepts in fair value measures including the establishment of a fair value hierarchy and the concept of the most advantageous or principal market. This Statement does not require any new fair value measurement. The Statement applies to financial statements issued for fiscal years beginning after November 15, 2007 with early application encouraged. The Company is required to implement this Statement on January 1, 2008. Management is currently evaluating the impact this Statement will have on its financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities , which permits entities to choose to measure eligible assets and liabilities at fair value on a contract by contract

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

basis (the fair value option). The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007, with early adoption permitted. The Company expects to implement the Statement as of January 1, 2008 and management believes that the adoption of SFAS No. 159 will not have a significant impact on the Company's consolidated financial statements.

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The objective of the following discussion is to provide an understanding of the financial condition and results of operations of BankAtlantic Bancorp, Inc. and its subsidiaries (the Company, which may also be referred to as we, us, or our) for the three months ended March 31, 2007 and 2006, respectively. The principal assets of the Company consist of its ownership in BankAtlantic, a federal savings bank headquartered in Fort Lauderdale, Florida, and its subsidiaries (BankAtlantic).

Except for historical information contained herein, the matters discussed in this document contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), that involve substantial risks and uncertainties. When used in this document and in any documents incorporated by reference herein, the words anticipate, believe, estimate, may, intend, expect and similar expressions identify certain of such forward-looking statements. Actual results, performance, or achievements could differ materially from those contemplated, expressed, or implied by the forward-looking statements contained herein. These forward-looking statements are based largely on the expectations of the Company and are subject to a number of risks and uncertainties that are subject to change based on factors which are, in many instances, beyond the Company's control. These include, but are not limited to, risks and uncertainties associated with: the impact of economic, competitive and other factors affecting the Company and its operations, markets, products and services; credit risks and loan losses, and the related sufficiency of the allowance for loan losses, including the impact on the credit quality of our loans, of changes in the real estate markets in our trade area, and where our collateral is located; the quality of our loans, including specifically residential land acquisition and development loans and other loans also secured by real estate in Florida and conditions specifically in that market sector; changes in interest rates and the effects of, and changes in, trade, monetary and fiscal policies and laws including their impact on the bank's net interest margin; adverse conditions in the stock market, the public debt market and other capital markets and the impact of such conditions on our activities and the value of our assets; BankAtlantic's seven-day banking initiatives and other growth, marketing or advertising initiatives not resulting in continued growth of core deposits or producing results which do not justify their costs; the success of our expenses discipline initiatives; any change in regulatory policy, specifically restrictions on transactions fees charged to customers; BankAtlantic's new store expansion program, successfully opening the anticipated number of new stores in 2007 and achieving growth and profitability at the stores; and the impact of periodic testing of goodwill and other intangible assets for impairment. Past performance, actual or estimated new account openings and growth rate may not be indicative of future results. Additionally, we acquired a significant investment in Stifel Financial Corp (Stifel) equity securities in connection with the merger of Ryan Beck Holdings, Inc. with Stifel, subjecting us to the risk of fluctuations in the value of Stifel shares and warrants. In addition to the risks and factors identified above, reference is also made to other risks and factors detailed in reports filed by the Company with the Securities and Exchange Commission. The Company cautions that the foregoing factors are not exclusive.

**Critical Accounting Policies**

Management views critical accounting policies as accounting policies that are important to the understanding of our financial statements and also involve estimates and judgments about inherently uncertain matters. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated statements of

financial condition and assumptions that affect the recognition of income and expenses on the consolidated statement of operations for the periods presented. Actual results could differ significantly from those estimates. Material estimates that are particularly susceptible to significant change in subsequent periods relate to the determination of the allowance for loan losses, evaluation of goodwill and other intangible assets for impairment, the valuation of real estate acquired in connection with foreclosure or in satisfaction of loans, the valuation of the fair value of assets and liabilities in the application of the purchase method of accounting, the amount of the deferred tax asset valuation allowance, accounting for uncertain tax positions, accounting for contingencies, and assumptions used in the valuation of stock based compensation. The eight accounting policies that we have identified as critical accounting policies are: (i) allowance for loan losses; (ii) valuation of securities as well as the determination of other-than-temporary declines in value; (iii) impairment of goodwill and other

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

indefinite life intangible assets; (iv) impairment of long-lived assets; (v) accounting for business combinations (vi) accounting for uncertain tax positions; (vii) accounting for contingencies; and (viii) accounting for share-based compensation. For a more detailed discussion of these critical accounting policies other than the accounting for uncertain tax positions, which is described below, see Critical Accounting Policies appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

**Accounting for Uncertain Tax Positions**

The Company accounts for uncertain tax positions in accordance with FIN 48. An uncertain tax position as defined by FIN 48 as a position in a previously filed tax return or a position expected to be taken in a future tax return that is not based on clear and unambiguous tax law and which is reflected in measuring current or deferred income tax assets and liabilities for interim or annual periods. The application of income tax law is inherently complex. The Company is required to determine if an income tax position meets the criteria of more-likely-than-not to be realized based on the merits of the position under tax laws, in order to recognize an income tax benefit. This requires the Company to make many assumptions and judgments regarding merits of income tax positions and the application of income tax law. Additionally, if a tax position meets the recognition criteria of more-likely-than-not the Company is required to make judgments and assumptions to measure the amount of the tax benefits to recognize based on the probability of the amount of tax benefits that would be realized if the tax position was challenged by the taxing authorities. Interpretations and guidance surrounding income tax laws and regulations change over time. As a consequence, changes in assumptions and judgments can materially affect amounts recognized in the Consolidated Statements of Financial Condition and the Consolidated Statements of Operations.

**Consolidated Results of Operations**

(Loss) income from continuing operations from each of the Company's reportable segments was as follows:

(In thousands)	For the Three Months Ended March		
	2007	31, 2006	Change
BankAtlantic	\$ 639	\$ 10,163	\$ (9,524)
Parent Company	(2,843)	(2,141)	(702)
Net (loss) income	\$ (2,204)	\$ 8,022	\$ (10,226)

**For the Three Months Ended March 31, 2007 Compared to the Same 2006 Period:**

Income from continuing operations decreased 127.5% to a \$2.2 million net loss during the 2007 quarter, from net income of \$8.0 million for the 2006 quarter. The decline in BankAtlantic's earnings resulted from higher expenses associated with BankAtlantic's store expansion initiatives and costs related to a reduction in personnel. BankAtlantic's earnings were also negatively impacted by lower net interest income and an increase in the provision for loan losses, each of which reflects current economic conditions impacting us and financial institutions generally. The increase in the Parent Company's net loss resulted from a \$1.5 million loss associated with the change in value of warrants to acquire Stifel common stock acquired in connection with the Ryan Beck merger transaction and higher interest expense from junior subordinated debenture borrowings due to higher short-term interest rates during the 2007 quarter compared to the same 2006 quarter.

BankAtlantic increased its provision for loan losses by \$7.3 million during the 2007 quarter compared to the 2006 quarter. This increase primarily resulted from higher loan loss reserves required for residential land acquisition and development loans in our portfolio based upon the impact on the credit quality of those loans of the deteriorating residential real estate market in Florida. BankAtlantic's net interest income declined by \$3.1 million reflecting an increase in cost of funds due to growth in higher cost deposit products, lower levels of higher yielding earning assets and higher short-term interest rates. The increase in BankAtlantic non-interest expenses primarily resulted from BankAtlantic's store expansion program and a \$2.6 million charge due to a reduction in workforce in March 2007.

(1) The tax equivalent basis is computed using a 35% tax rate.

**For the Three Months Ended March 31, 2007 Compared to the Same 2006 Period:**

The decrease in tax equivalent net interest income primarily resulted from a decline in the tax equivalent net interest margin partially offset by an increase in average interest earning assets.

The decrease in tax equivalent net interest margin primarily resulted from interest bearing liability costs increasing faster than yields on interest earning assets. Interest bearing liability costs increased 59 basis points while interest earning asset yields increased by 32 basis points. The increase in interest bearing liability interest rates reflects higher rates on

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

deposits and other borrowings. The higher interest bearing deposit rates reflect growth in our high yield savings account balances, and the gradual increase in certificate of deposit and money market rates resulting from the continued high short-term rate environment. The balance of high yield savings accounts was \$256.2 million at March 31, 2007. There were no high yield savings account balances at March 31, 2006. The higher rates on our other borrowings resulted from higher average short-term interest rates during 2007 compared to 2006 as the majority of our other borrowings adjust in the near-term to changes in interest rates. The growth in earning asset yields resulted from higher yields for all categories of loans and investments primarily attributed to higher short-term interest rates. The yields on earning assets were also unfavorably impacted by a \$19.6 million increase in non-accrual loans at March 31, 2007 compared to March 31, 2006.

BankAtlantic's average interest earning assets increased primarily as a result of higher average loan and taxable investment balances. The increase in average loan balances was due to purchases of residential loans and the origination of home equity and small business loans to community banking customers. Residential, home equity and small business loan average balances during the 2007 quarter increased by \$138.2 million, \$66.5 million and \$44.3 million, respectively, from the corresponding 2006 quarter. These increases in average loan balances were partially offset by a \$136.9 million decline in average commercial real estate loan balances primarily resulting from the slow-down in the real estate market in Florida. The higher taxable investment average balance reflects increased average balances of mortgage-backed securities during the 2007 quarter.

**Provision for Loan Losses**

Balance, end of period	\$ 50,373	\$ 41,889

The \$7.5 million provision for loan losses during the three months ended March 31, 2007 was primarily the result of a \$5.7 million specific reserve associated with a residential land acquisition and development loan and increases in the qualitative component of our allowance for loan losses. These qualitative component increases were primarily based on continued deteriorating economic conditions in the residential real estate market during the quarter and higher non-performing and potential problem loans at March 31, 2007. The higher loan charge-offs experienced during the 2007 quarter were mainly in home equity and small business loans. The property values of homes securing home equity loans have declined since loan origination which subjects us to potentially higher charge-off amounts compared to historical trends.

Conditions in the residential real estate market nationally and in Florida continued to deteriorate during the first quarter of 2007. New home sales and applications for building permits fell significantly from peak levels during 2005 and inventories of unsold homes have significantly increased. The Bank's commercial real estate loan portfolio consists of several sub-categories of loans, each with differing collateral and different levels of risk. The builder land loan segment, at approximately \$140 million, consists of land loans to borrowers who have option agreements with regional and/or national builders. These loans were originally underwritten based on projected sales of the developed lots to the builders/option holders and timely repayment of the loans is primarily dependent upon the acquisition of the property pursuant to the options. If the lots are not acquired as originally anticipated, we anticipate that the borrower

may not be in a position to service the loan with the likely result being an increase in nonperforming loans and loan losses in this category.

The builder land loan segment discussed above is part of BankAtlantic's total commercial real estate acquisition and development portfolio of approximately \$562 million as of March 31, 2007. The loans other than the builder land loans in this category are generally secured by residential and commercial real estate which will be fully developed by the borrower or sold to third parties. These loans generally involve property with a longer investment and development horizon and are guaranteed by the borrower or individuals and/or secured by additional collateral such that it is expected that the borrower will have the ability to service the debt under current conditions for a longer period of time. Accordingly, management considers these other loans to be of relatively lower risk than the builder land loans .

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

Market conditions may result in BankAtlantic's borrowers having difficulty selling lots or homes in their developments for an extended period, which in turn would be expected to result in an increase in residential construction loan delinquencies and non-accrual balances. While management believes that BankAtlantic utilized conservative underwriting standards for its commercial real estate acquisition and development loans, declines in the residential real estate market and collateral values may result in higher credit losses in these loans.

At the indicated dates, BankAtlantic's non-performing assets and potential problem loans were (in thousands):

Non-accrual loans increased \$21.3 million from December 31, 2006. The majority of the increase relates to two residential land acquisition and development loans in our commercial real estate portfolio with an aggregate outstanding balance of \$20.3 million. In view of market conditions, management anticipates we may experience further deterioration in this segment of our loan portfolio as the market attempts to absorb an oversupply of available lot inventory in the face of the deteriorating residential real estate market discussed above. Residential land acquisition and development non-performing loans amounted to \$20.6 million at March 31, 2007 compared to \$0 as of December 2006.

The increase in real estate owned primarily resulted from land improvement expenditures associated with a real estate development acquired when BankAtlantic took possession of the collateral securing a land acquisition and development loan during the fourth quarter of 2006.

Performing impaired loans consists of \$3.2 million of commercial business loans and \$4.6 million of commercial real estate loans for which information known about the possible credit problems of the borrowers caused management to have doubts as to the ability of the borrowers to comply with the current loan repayment terms. These

loans may be classified as non-performing assets in subsequent periods upon receipt of additional information.

Other	2,798	1,687	1,111
Non-interest income	\$ 35,047	\$ 27,007	\$ 8,040

The higher revenues from service charges on deposits during 2007 compared to 2006 primarily resulted from higher overdraft fee income. Management believes that the increase in overdraft fee income resulted from an increase in the number of core deposit accounts, a 7% increase in overdraft charges beginning July, 2006 and a change in policy during 2006 allowing certain customers to incur debit card overdrafts. BankAtlantic opened approximately 79,000 new core deposit accounts during the three months ended March 31, 2007 compared to 77,000 during the same 2006 period and opened approximately 270,000 new core deposit accounts during the year ended December 31, 2006.

The higher other service charges and fees during the three months ended March 31, 2007 compared to the same 2006 period was primarily due to a 12% increase in interchange and surcharge income. The higher income was primarily due to the increase in the number of ATM and check cards outstanding associated with the opening of new core deposit accounts. The increase in service card fees was partially offset by a \$0.6 million decline in ATM and check card annual fees as BankAtlantic discontinued the fee as of January 1, 2007 in response to competitive market conditions.

Securities activities, net during the three months ended March 31, 2007 includes a \$481,000 gain from the sale of securities obtained from an initial public offering of BankAtlantic's health insurance carrier. The remaining gain in securities activities, net represents sales of agency securities available for sale.

Included in other income during the three months ended March 31, 2006 is a loss from real estate operations of \$1.1 million. The loss during the 2006 quarter resulted from higher development and capitalized interest costs associated with units sold. There were no units sold at the development during the three months ended March 31, 2007.

Non-interest expense	\$ 78,770	\$ 67,799	\$ 10,971

The substantial increase in employee compensation and benefits resulted primarily from BankAtlantic's store expansion initiatives as BankAtlantic has opened 18 new stores since January 2006, representing a 24% increase in its store network. The number of full time equivalent employees increased to 2,628 at March 26, 2007 from 2,328 at March 31, 2006, primarily as a result of the additional stores. Also contributing to the increased compensation costs were higher employee benefit costs associated with a larger workforce. On March 27, 2007, BankAtlantic reduced its workforce by approximately 225 associates, or 8%.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

The significant increase in occupancy and equipment primarily resulted from the expansion of the store network and back-office facilities to support a larger organization. As a consequence of these growth and expansion initiatives, BankAtlantic's rental expense, depreciation, real estate taxes, maintenance and utilities expense increased from \$9.5 million during the three months ended March 31, 2006 to \$12.5 million during the same 2007 period. Facilities rental expense increased from \$1.9 million during the three months ended March 31, 2006 to \$3.1 million for the same 2007 period, an increase of 69%. The significant increase in rental expense resulted from BankAtlantic entering into various operating lease agreements in connection with current and future store expansion as well as for back-office facilities.

During the fourth quarter of 2006, management decided to reduce advertising expenses to 2005 levels. Reflecting that decision, advertising expense during the 2007 quarter decreased 32.1% from the prior year's quarter.

Professional fees declined from 2006 levels reflecting lower consulting and legal costs as BankAtlantic incurred higher professional fees during 2006 in connection with entering into a deferred prosecution agreement with the Department of Justice in April 2006.

BankAtlantic experienced an increase in check losses for the 2007 quarter compared to the 2006 quarter primarily due to an increase in the number of core deposit accounts and the volume of checking account overdrafts.

The increase in supplies, postage and telecommunication costs during the current quarter were related to BankAtlantic's growth initiatives and the opening of new stores.

The one-time termination benefits reflect severance and related costs incurred as a result of the workforce reduction discussed above. The goal of this workforce reduction was to reduce operating expenses without impacting customer service or the store expansion initiatives. We currently estimate that the annualized expense savings is approximately \$10 million with the realization of these savings to begin during the second quarter of 2007.

Management is continuing to explore opportunities to reduce operating expenses and increase future operating efficiencies.

The increase in other non-interest expense related to increased general operating expenses, including a \$494,000 increase in insurance premiums and tangible taxes as well as \$358,000 of increased fees associated with out-sourced functions provided by BFC and the Parent Company, which include human resources and risk management services.

Net interest expense increased during the first quarter of 2007, compared to the same 2006 period, as a result of higher interest rates during 2007 compared to 2006. The Company's junior subordinated debentures and other borrowings average balances were \$263.3 million during the three months ended March 31, 2007 and 2006 while the average rates increased from 8.03% during the three months ended March 31, 2006 to 8.45% during the same 2007 period.

The decrease in non-interest income was a result of a \$1.5 million unrealized loss associated with the change in value of Stifel warrants acquired in connection with the Ryan Beck sale. Also included in non-interest income during

the three months ended March 31, 2007 was \$2.4 million of gains on securities activities from managed fund investments and \$781,000 of earnings from unconsolidated subsidiaries. During the three months ended March 31, 2006 gains on securities activities were \$2.5 million from managed fund investments and earnings from unconsolidated subsidiaries were \$820,000.

The decrease in non-interest expense for the three months ended March 31, 2007 compared to the same 2006 period was a result of lower compensation and operating cost.

**BankAtlantic Bancorp Consolidated Financial Condition**

Total assets at March 31, 2007 were \$6.4 billion compared to \$6.5 billion at December 31, 2006. The changes in components of total assets from December 31, 2006 to March 31, 2007 are summarized below:

Decline in cash and cash equivalents due to the use of short term investments at the Parent company to fund the Company's Class A common stock repurchase program;

Increase in securities available for sale reflecting Stifel common stock received upon the sale of Ryan Beck partially offset by the sale of Parent company equity securities to fund the Company's Class A common stock repurchase program;

Increase in investment securities at cost resulting from Stifel equity securities received as merger consideration upon the sale of Ryan Beck;

Decrease in tax certificate balances primarily due to redemptions of non-Florida tax certificates;

Lower investment in FHLB stock related to repayments of FHLB advances;

Increase in loan receivable balances associated with higher purchased residential and home equity loan balances partially offset by lower commercial real estate loan balances;

Increase in office properties and equipment associated with BankAtlantic's store expansion initiatives;

Increase in deferred tax assets primarily resulting from the increase in the allowance for loan losses; and

Decrease in discontinued operations assets held for sale reflecting the sale of Ryan Beck to Stifel.

The Company's total liabilities at March 31, 2007 were \$5.9 billion compared to \$6.0 billion at December 31, 2006. The changes in components of total liabilities from December 31, 2006 to March 31, 2007 are summarized below:

Higher non-interest-bearing deposit balances due to an increase in free checking account balances associated with *Florida's Most Convenient Bank* initiatives;

Higher interest-bearing deposit balances primarily associated with increased higher yield saving, interest-bearing checking and certificate of deposit balances partially offset by lower money market account balances;

Decrease in FHLB advances and short term borrowings due to deposit growth and a decline in earning assets; and

Decrease in discontinued operations liabilities held for sale reflecting the sale of Ryan Beck to Stifel on February 28, 2007.

**Liquidity and Capital Resources**

**BankAtlantic Bancorp, Inc. Liquidity and Capital Resources**

The Company's principal source of liquidity is dividends from BankAtlantic. The Company also obtains funds through the issuance of equity and debt securities, borrowings from financial institutions, and liquidation of equity securities and other investments. The Company uses these funds to contribute capital to its subsidiaries, pay debt service, repay borrowings, purchase equity securities, repurchase Class A common stock and fund operations. The Company's annual debt service associated with its junior subordinated debentures is approximately \$21.1 million. The

Company's estimated current annual dividends to common shareholders are approximately \$9.9 million. In March 2007, the Company received \$5.0 million of dividends from BankAtlantic. The declaration and payment of dividends and the ability of the Company to meet its debt service obligations will depend upon the results of operations, financial condition and cash requirements of the Company, as well as indenture restrictions and the ability of BankAtlantic to pay dividends to the Company. These payments are subject to regulations and OTS approval and are based upon BankAtlantic's regulatory capital levels and net income.

As consideration for the merger of Ryan Beck with Stifel, the Company received 2,377,354 shares of Stifel common stock and warrants to acquire approximately 481,715 shares of Stifel common stock at \$36.00 per share. Issuance of the warrants is subject to the approval of Stifel's shareholders, and we will receive approximately \$19.2 million in cash if the Stifel shareholders do not approve the issuance of warrants. The Company may from time to time sell Stifel equity securities and use the proceeds for general corporate purposes.

The Company has invested \$64.8 million in equity securities with a money manager. The equity securities had a fair value of \$74.0 million as of March 31, 2007. It is anticipated that these funds will be invested in this manner until

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

needed to fund the operations of the Company and its subsidiaries, which may include acquisitions, BankAtlantic's store expansion and growth initiatives, repurchase and retirement of Class A common stock or other business purposes. The Company has also utilized this portfolio of equity securities as a source of liquidity to pay debt service on its borrowings.

In May 2006, the Company's Board of Directors approved the repurchase of up to 6,000,000 shares of its Class A Common Stock. Share repurchases will be based on market conditions and liquidity requirements. No termination date was set for the buyback program. The shares will be purchased on the open market, although we may purchase shares through private transactions. The Company plans to fund the share repurchase program primarily through the sale of equity securities from its securities portfolio. During the three months ended March 31, 2007, the Company repurchased and retired 1,324,774 shares of Class A common stock at an aggregate purchase price of \$17.1 million.

**BankAtlantic Liquidity and Capital Resources**

BankAtlantic's liquidity will depend on its ability to generate sufficient cash to support loan demand, to meet deposit withdrawals, to fund growth and to pay operating expenses. BankAtlantic's securities portfolio provides an internal source of liquidity through its short-term investments as well as scheduled maturities and interest payments. Loan repayments and loan sales also provide an internal source of liquidity.

The FHLB has granted BankAtlantic a line of credit capped at 40% of assets subject to available collateral, with a maximum term of ten years. BankAtlantic had utilized its FHLB line of credit to borrow \$1.3 billion as of March 31, 2007. The line of credit is secured by a blanket lien on BankAtlantic's residential mortgage loans and certain commercial real estate and consumer loans. BankAtlantic's remaining available borrowings under this line of credit were approximately \$1.0 billion at March 31, 2007. BankAtlantic has established lines of credit for up to \$557.9 million with other banks to purchase federal funds of which \$45 million was outstanding as of March 31, 2007. BankAtlantic has also established a \$6.5 million line of credit with the Federal Reserve Bank of Atlanta. BankAtlantic is also a participating institution in the Federal Reserve Treasury Investment Program for up to \$50 million in fundings and at March 31, 2007, \$1.8 million of short term borrowings were outstanding under this program. BankAtlantic also has various relationships to acquire brokered deposits, which may be utilized as an alternative source of liquidity, if needed. At March 31, 2007, BankAtlantic had \$15.7 million of brokered deposits.

BankAtlantic's commitments to originate and purchase loans at March 31, 2007 were \$343 million and \$55 million, respectively, compared to \$469 million and \$29 million, respectively, at March 31, 2006. At March 31, 2007, total loan commitments represented approximately 7.4% of net loans receivable.

At March 31, 2007, BankAtlantic had investments and mortgage-backed securities of approximately \$110.6 million pledged against securities sold under agreements to repurchase, \$41.8 million pledged against public deposits and \$56.6 million pledged against treasury tax and loan accounts.

BankAtlantic in 2004 began a de novo store expansion strategy and has opened 22 stores since January 2005. At March 31, 2007, BankAtlantic had \$5.1 million of commitments to purchase land for store expansion. BankAtlantic has entered into operating land leases and has purchased various parcels of land for future store construction throughout Florida. BankAtlantic's estimated capital expenditures for the remainder of 2007 in connection with the 2007 store expansion initiatives are expected to be approximately \$52 million. BankAtlantic estimates that the capital requirements for funding this store expansion will be approximately \$4.2 million which may be funded through capital contributions from BankAtlantic Bancorp or earnings.

At March 31, 2007, BankAtlantic met all applicable liquidity and regulatory capital requirements.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

The discussion contained in BankAtlantic's Annual Report on Form 10-K for the year ended December 31, 2006, under Item 7A, Quantitative and Qualitative Disclosures about Market Risk, provides quantitative and qualitative disclosures about the Company's primary market risks which are interest rate and equity pricing risks.

The majority of BankAtlantic's assets and liabilities are monetary in nature. As a result, the earnings and growth of BankAtlantic are significantly affected by interest rates, which are subject to the influence of economic conditions generally, both domestic and foreign, and also to the monetary and fiscal policies of the United States and its agencies, particularly the Federal Reserve Board. The nature and timing of any changes in such policies or general economic conditions and their effect on BankAtlantic cannot be controlled and are extremely difficult to predict. Changes in interest rates can impact BankAtlantic's net interest income as well as the valuation of its assets and liabilities. BankAtlantic's interest rate risk position did not significantly change during the three months ended March 31, 2007. For a discussion on the effect of changing interest rates on BankAtlantic's earnings during the three months ended March 31, 2007, see Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Net Interest Income.

Included in the Company's Consolidated Statement of Financial Condition at March 31, 2007 were \$79.1 million of publicly traded equity securities and \$11.5 million of privately held equity securities that subjects it to equity pricing risks

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

arising in connection with changes in the relative values due to changing market and economic conditions. Volatility or a decline in the financial markets can negatively impact the Company's net income as a result of devaluation of these investments. Also included in the Company's Consolidated Statement of Financial Condition at March 31, 2007 was \$103.7 million investment in Stifel equity securities received in connection with the merger of Ryan Beck with Stifel in February 2007. The value of these securities will vary based on general equity market conditions, the brokerage industry volatility, the results of operations and financial condition of Stifel and the general liquidity of Stifel common stock.

**Item 4. Controls and Procedures****Evaluation of Disclosure Controls and Procedures**

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934). Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934) are effective.

**Changes in Internal Control over Financial Reporting**

In addition, we reviewed our internal control over financial reporting, and there have been no changes in our internal control over financial reporting that occurred during our first fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II OTHER INFORMATION****Item 1A. Risk Factors.**

Except as set forth herein, there have been no material changes from the risk factors disclosed in the Risk Factors section of the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

The shares may be purchased on the open market or through private transactions. The timing and the amount of repurchases, if any, will depend on market

conditions, share price, trading volume and other factors.

**Item 5. Other Information.**

Jay Fuchs entered into an agreement with BankAtlantic, dated February 9, 2007 and effective February 16, 2007, in connection with the Company's prior disclosure that Mr. Fuchs, formerly Executive Vice President of Community Banking Division of BankAtlantic, was no longer employed as an executive officer of BankAtlantic. Under the terms of this

agreement, Mr. Fuchs agreed to, among other things, a limited covenant-not-to-compete.
