Item 2.06 Material Impairments

On January 14, 2009, the registrant determined that it expects to record a non-cash charge for the fourth quarter of 2008 related to other-than-temporary impairment of one collateralized mortgage obligation. The after-tax other-than-temporary impairment charge is expected to approximate \$8.9 million. The security deemed to be other-than-temporarily impaired had a cost basis of \$25.2 million and an estimated fair value of approximately \$10.7 million at December 31, 2008.

An other-than-temporary impairment charge would result in a decrease in the registrant's net income for the period in which it is taken, and a decrease in the registrant's regulatory capital.
