ING Clarion Global Real Estate Income Fund

Letter to Shareholders

Dear Shareholder:

The ING Clarion Global Real Estate Income Fund (Fund) delivered outstanding returns to its shareholders in 2006. During the year the Fund made distributions of \$3.265 per common share and the Fund's stock price closed at \$24.68 per share and the net asset value (NAV) was \$22.78 per share on 12/31/06. The NAV return for the Fund was 53.42%, the best NAV performance of any real estate closed-end fund in the market. The market return (share price appreciation plus dividends) was even better at 75.97% as the Fund's share price moved from a 6.3% discount to a 8.4% premium to NAV during the year. In 2006, the S&P/Citigroup World Property Index (WPI) increased 40.25% and the Morgan Stanley REIT Preferred Index (MSRP) rose 9.73%. For reference, a blend of 80% WPI and 20% MSRP rose 33.66% in 2006, significantly less than both the fund's NAV and market returns.

The Fund made total distributions for the year of \$3.265 per share equal to approximately 19% of the NAV at the beginning of the year. The Fund paid two special dividends (one in September and one in December) totaling \$1.885 per share. The special distributions were equivalent to approximately 11% of the beginning of the year NAV. The Fund's regular monthly dividend remained unchanged at \$0.115 per share despite the substantial special distributions to shareholders. The Fund's dividend level is established by the board with consideration of the expected level of investment income and the expectation that we might realize some part of the significant unrealized capital appreciation of the Fund's investments over the course of time as part of the active management of the investment portfolio. Our goal is to establish a regular dividend which is supported by a combination of dividends and capital gains expected to be received from our portfolio investments during the year. In addition, we have made one or more special dividends (some substantial) each year since the fund's inception. The current dividend policy reflects the board's consideration of a range of market scenarios for global real estate stocks in 2007. We believe the Fund remains well positioned to meet its primary objective of delivering a high level of stable monthly income as well as its secondary objective of capital appreciation. The unrealized gains per share remain significant at \$10.59 per share.

The Fund's investments were well diversified by property type and by geography as shown in the pie charts below. Over the course of the year, the Fund's exposure to the U.S. declined markedly as holdings in U.S. Common Stocks was reduced by 8% and holdings in U.S. preferred stocks fell by 1%. Our choice to keep the preferred stock investments well below the 30% allowed in the prospectus was a good decision given the underperformance of preferred stock relative to common stock. During the year, we doubled the exposure of the Fund to Asia and increased the exposure to European stocks 6% to a total of 25% (including the U.K.). The Fund's holdings in Canada and Australia were essentially unchanged.

Total preferred stock and debt of the Fund increased \$229 million to \$1.058 billion but leverage as a percentage of total assets actually fell slightly to 31% (versus 32% a year ago). Leverage remains well below the 35% discussed in the Fund's offering documents. In May 2004, we chose to lock in attractive longer-term rates on \$400 million by executing two interest rate swaps. The swaps have an average rate of 4.0% thus assuring an attractive low interest cost for the average remaining term of 1.5 years as of 12/31/06. Subsequent to year-end, we completed an offering of \$200 million of additional trust preferred stock. The proceeds of the offering were used to reduce the outstanding debt of the Fund at an average rate cost savings of over 0.5% per annum.

Annual Report December 31, 2006 1

Table of Contents

ING Clarion Global Real Estate Income Fund **Letter to Shareholders** continued

Global real estate companies recorded another exceptional year in 2006 with total return of 35.9% in local currency and 40.3% in U.S. Dollar (USD) exceeding the performance of broad equities of 20.7% (MSCI World Index) and bonds 5.9% (JP Morgan Global Government Bond Index) by a wide margin. The Fund's significant exposure to international real estate company equities was a benefit to U.S. shareholders as the USD fell versus most other major currencies during the year. The USD weakened during 2006 by 13.7% versus the British pound, 11.5% versus the Euro, 8.4% versus the Singapore dollar and 7.7% versus the Australian dollar. An exception was a 1.0% strengthening versus the Japanese yen. The dollar weakness increased the WPI's local currency returns by 4.4% in 2006. A weakening USD helps bolster the Fund's NAV for non-USD investments as returns earned in local currencies translated back to USD are increased by the higher exchange rates. 2006 marked a return to a longer-term trend wherein the USD has weakened versus other major currencies after the rally by the dollar in 2005. Many observers expect the USD to continue to trend lower versus other major currencies in 2007. We had no currency hedges in place at year end.

The Fund's strong NAV performance last year was aided by its 25% investment in European property stocks. European property stocks were the best performers for the year as the European sub-index of the WPI increased 68.7%. Continental Europe has now been the top performing region in three of the past five years and was second best in 2005. Strong performance was broad based. Property stocks in Spain more than doubled for the year (up 123.5%), France and Finland were up 88.6% and 84.1%, respectively; the U.K. and Germany were each up approximately 70%, and Italy and the Netherlands slightly more than 40%. Catalysts included mergers and acquisitions (M&A) activity (especially in Spain), new company formation, strong funds flows and, in the U.K., the finalization of the REIT structure which has enabled property companies to elect REIT status beginning January 1, 2007. All of the large-cap U.K. property companies have converted to the REIT structure. The aggregate market capitalization of these companies alone approximates U.S. \$70 billion which represents an approximate 10% increase to the universe of global property companies with a REIT structure.

The Asia-Pacific region was a relative laggard but still up nicely for the year at 32.5%. The Fund benefited from our 11% investment in Australian property stocks which were good performers for the year advancing 43.0%. The Australian LPTs benefited by the diligent effort of many management teams to transform legacy business strategies to include the Funds management business as well as investing in property abroad. Our relative low weightings to Japan (3%) and Hong Kong (3%) were also positives as these countries underperformed relatively at 21.3% and 29.3% respectively. Japan disappointed despite office vacancies which are now less than 3% in Tokyo's five central wards and office rents which are up on average 8% year-over-year. In Hong Kong, property companies continued to increase investments in mainland China to achieve sustainable high levels of growth, as local residential markets remain soft and office market fundamentals decelerate.

Continuing a trend from last year, M&A activity increased in 2006 and had a material impact on the portfolio. In the U.S., a total of 24 M&A deals were announced in 2006, half of which were privatizations. The 12 privatizations, if all close per the terms proposed, represent \$39 billion of equity removed from the public market and represent a staggering total of \$68 billion of real estate assets, much of it acquired by respected savvy private market buyers. M&A activity affected several of our portfolio companies last year causing higher turnover and realized gains than normal. Two of the top 10 holdings of the Fund at the end of last year were taken over in 2006: Heritage Property Trust and Prentiss Properties. We realized significant gains on both these positions and several others in the portfolio during the year. M&A deals also occurred in Europe, Canada, and Asia. The active transaction pace continues to validate value in the publicly traded companies in relation to values in the private or direct property markets.

ING Clarion Global Real Estate Income Fund **Letter to Shareholders** continued

We expect global property companies to deliver positive performance again in 2007 based on improving real estate market fundamentals which should lead to strong earnings growth. Property companies continue to offer attractive yields relative to other equities. The outsized gains in real estate stock prices experienced in 2006 mostly reflect the combination of higher earnings and continued declines in capitalization rates (i.e., the yields required by property investors on new investments). In 2007, we look for NAV growth tied much more closely to earnings growth. All the forces and trends from a year ago remain in place to expect positive total returns in 2007 including: continued reasonable valuations of the public companies versus private real estate valuations, continued strong funds flows, M&A activity, and new REIT company formation. There appears to be no shortage of capital seeking property investments as well as no shortage of companies which are contemplating entering the listed property stock arena, which should serve to expand and enrich the available investment opportunities. Continuing the trend of 2006, we look for several new public real estate companies in Europe and Asia. Real estate continues to be underrepresented in the public markets and thus we expect a long-term growth trend in the sector driven by the increased appetite for real estate by an increasingly income-focused investor base around the globe. With dividend yields of 3-4% and 7-9% earnings growth, real estate stocks can still deliver attractive positive returns even with some modest earnings multiple contraction. The Fund is well positioned to take advantage of the increasing globalization of real estate.

We appreciate your continued faith and confidence.

Sincerely,

T. Ritson Ferguson
President and
Chief Executive Officer

Steven D. Burton
Co-Portfolio Manager

Index Definitions:

The S&P/Citigroup World Property Index is an unmanaged market-weighted total return index which consists of over 350 real estate companies from 18 developed markets with a free float total market capitalization of at least U.S. \$100 million that derive more than 60% of their revenue from real estate development, management, rental and/or direct investment in physical property.

The Morgan Stanley REIT Preferred Index is a preferred stock market capitalization weighted index of all exchange traded preferred securities of equity REITS.

The MSCI World Index is an unmanaged market capitalization-weighted index of equity securities of companies domiciled in various countries. The Index is designed to represent the performance of developed stock markets throughout the world and excludes certain market segments unavailable to U.S. based investors.

The JP Morgan Global Government Bond Index measures the performance of leading government bond markets based on total return in U.S. currency.

(a) Securities are exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. At December 31, 2006, the securities amounted to \$48,710,046 or 2.1% of net assets.

(b) Non-income producing security.

(c) Portfolio percentages are calculated based on net assets applicable to Common Shares.

Edgar Filing: ING CLARION GLOBAL REAL ESTATE INCOME FUND - Form N-CSR

- (1) Commencement of operations.
 - (2) Net asset value at February 18, 2004.
 - (3) Based on average shares outstanding.
 - (4) Total investment return on net asset value (NAV) is calculated assuming a purchase at the offering price of \$15.00 (less \$0.675 sales load) per share paid by the initial shareholder on the first day and a sale at NAV on the last day of the period reported. Total investment return based upon market value is calculated assuming a purchase of Common Shares at the then-current market price of \$15.00 on February 25, 2004 (initial public offering).
 - (5) Total investment return does not reflect brokerage commissions. A return calculated for a period of less than one year is not annualized. Dividends and distributions are assumed to be reinvested at the prices obtained under the Trust's Dividend Reinvestment Plan. NAV total return is calculated assuming reinvestment of distributions at NAV on the date of the distribution.
 - (6) Annualized.
- + Does not reflect the effects of dividends to Preferred Shareholders.

See notes to financial statements.

Annual Report December 31, 2006 **11**

Table of Contents

ING Clarion Global Real Estate Income Fund

Notes to Financial Statements December 31, 2006

1. Fund Organization

ING Clarion Global Real Estate Income Fund (the Trust) is a non-diversified, closed-end management investment company that was organized as a Delaware statutory trust on November 6, 2003 under the Investment Company Act of 1940, as amended. ING Clarion Real Estate Securities, L.P. (the Advisor) is the Trust's investment advisor. The Trust commenced operations on February 18, 2004.

2. Significant Accounting Policies

The following accounting policies are in accordance with U.S. generally accepted accounting principles and are consistently followed by the Trust.

Securities Valuation The net asset value of the common shares of the Trust will be computed based upon the value of the Trust's portfolio securities and other assets. The Trust calculates net asset value per common share by subtracting the Trust's liabilities (including accrued expenses, dividends payable and any borrowings of the Trust) and the liquidation value of any outstanding preferred shares from the Trust's total assets (the value of the securities the Trust holds, plus cash or other assets, including interest accrued but not yet received) and dividing the result by the total number of common shares of the Trust outstanding. Net asset value per common share will be determined as of the close of the regular trading session (usually 4:00 p.m., EST) on the New York Stock Exchange (NYSE) on each business day on which the NYSE is open for trading.

For purposes of determining the net asset value of the Trust, readily marketable portfolio assets traded principally on an exchange, or on a similar regulated market reporting contemporaneous transaction prices, are valued, except as indicated below, at the last sale price for such assets on such principal markets on the business day on which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. If no bid or asked prices are quoted on such day, then the security is valued by such method as the Trust's Board of Trustees (the Board) shall determine in good faith to reflect its fair market value. Readily marketable assets not traded on such a market are valued at the current bid prices provided by dealers or other sources approved by the Board, including pricing services when such prices are believed by the Board to reflect the fair market value of such assets. The prices provided by a pricing service take into account institutional size trading in similar groups of assets and any developments related to specific assets. Foreign securities are valued based upon quotations from the primary market in which they are traded and are translated from the local currency into U.S. dollars using current exchange rates. In addition, if quotations are not readily available, or if the values have been materially affected by events occurring after the closing of a foreign market, assets may be valued by another method that the Board of Trustees believes accurately reflects fair value. Other assets are valued at fair value by or pursuant to guidelines approved by the Board.

Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities, which mature in 60 days or less are valued at, amortized cost, which approximates market value.

Foreign Currency Translation The books and records of the Trust are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities at the current rates of exchange;
- (ii)

purchases and sales of investment securities, income and expenses at the rate of exchange prevailing on the respective dates of such transactions.

Although the net assets of the Trust are presented at the foreign exchange rates and market values at the close of each fiscal period, the Trust does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of long-term securities held at the end of the fiscal period. Similarly, the Trust does not isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the fiscal period. Accordingly, realized foreign currency gains or losses will be included in the reported net realized gains or losses on investment transactions.

Net realized gains or losses on foreign currency transactions represent net foreign exchange gains or losses from the holding of foreign currencies, currency gains or losses realized between the trade date and settlement date on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Trust's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized currency gains or losses from valuing foreign currency denominated assets or liabilities (other than investments) at period end exchange rates are reflected as a component of net unrealized appreciation or depreciation on investments and foreign currencies.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin as a result of, among other factors, the possibility of political or economic instability, or the level of governmental supervision and regulation of foreign securities markets.

Forward Exchange Currency Contracts The Trust may enter into forward exchange currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings, to hedge certain firm purchase and sales commitments denominated in foreign currencies and for investment purposes. A forward exchange currency contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and the closing of such contracts would be included in net realized gain or loss on foreign currency transactions.

Fluctuations in the value of open forward exchange currency contracts are recorded for financial reporting purposes as unrealized appreciation and depreciation by the Trust.

The Trust's custodian will place and maintain cash not available for investment or other liquid assets in a separate account of the Trust having a value at least equal

Table of ContentsING Clarion Global Real Estate Income Fund **Notes to Financial Statements** continued

to the aggregate amount of the Trust's commitments under forward exchange currency contracts entered into with respect to position hedges.

Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The face or contract amount, in U.S. dollars, reflects the total exposure the Trust has in that particular currency contract. As of December 31, 2006, the Trust did not hold any forward exchange currency contracts.

Securities Transactions and Investment Income Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the basis of identified cost. Dividend income is recorded on the ex-dividend date. Distributions received from investments in REITs are recorded as dividend income on ex-dividend date, subject to reclassification upon notice of the character of such distributions by the issuer. The portion of dividend attributable to the return of capital is recorded against the cost basis of the security. Withholding taxes on foreign dividends are recorded net of reclaimable amounts, at the time the related income is earned. Non-cash dividends included in dividend income, if any, are recorded at the fair market value of the securities received. Interest income, including accretion of original issue discount, where applicable, and accretion of discount on short-term investments, is recorded on the accrual basis. Realized gains and losses from securities transactions are recorded on the basis of identified cost.

Swaps The Trust may enter into swap agreements. A swap is an agreement to exchange the return generated by one instrument for the return generated by another instrument. The Trust enters into interest rate swap agreements to manage its exposure to interest rate and credit risk. Interest rate swap agreements involve the exchange by the Trust with another party of their respective commitments to pay or receive interest. Dividends and interest on the securities in the swap are included in the value of the exchange. The swaps are valued daily at current market value and any unrealized gain or loss is included in the Statement of Assets and Liabilities. Gain or loss is realized on the periodic reset date or termination date of the swap and is equal to the difference between the Trust's basis in the swap and the proceeds of the closing transaction, including any fees. During the period that the swap agreement is open, the Trust may be subject to risk from the potential inability of the counterparty to meet the terms of the agreement. The swaps involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities.

The Trust entered into interest rate swap agreements for the year ended December 31, 2006. Details of the swap agreements outstanding as of December 31, 2006 were as follows:

Counterparty	Termination Date	Notional Amount (000)	Fixed Rate	Floating Rate	Unrealized Appreciation
Citigroup	07/01/2007	\$200,000	3.68%	1 Month LIBOR	\$1,909,202
Royal Bank of Canada	07/01/2009	200,000	4.32%	1 Month LIBOR	3,309,906
					<u>\$5,219,108</u>

For each swap noted, the Trust pays a fixed rate and receives a floating rate.

Dividends and Distributions to Shareholders Dividends from net investment income, if any, are declared and paid on a monthly basis. Distributions from net realized capital gains, if any, are normally distributed in December. Income dividends and capital gain distributions to common shareholders are recorded on the ex-dividend date. To the extent the Trust's net realized capital gains, if any, can be offset by capital loss carryforwards, it is the policy of the Trust not to distribute such gains.

The current monthly rate is \$0.115 per share. The Trust continues to evaluate its monthly distribution policy in light of ongoing economic and market conditions and may change the amount of the monthly distributions in the future.

Use of Estimates The preparation of financial statements, in conformity with U.S. generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates.

3. Concentration of Risk

Under normal market conditions, the Trust's investments will be concentrated in income-producing common equity securities, preferred securities, convertible securities and non-convertible debt securities issued by companies deriving the majority of their revenue from the ownership, construction, financing, management and/or sale of commercial, industrial, and/or residential real estate. Values of the securities of such companies may fluctuate due to economic, legal, cultural, geopolitical or technological developments affecting various global real estate industries.

4. Investment Management Agreement and Other Agreements

Pursuant to an investment management agreement between the Advisor and the Trust, the Advisor is responsible for the daily management of the Trust's portfolio of investments, which includes buying and selling securities for the Trust, as well as investment research. The Advisor will receive an annual fee from the Trust based on the average weekly value of the Trust's managed assets, which includes the amount from the issuance of the preferred shares. The Trust pays for investment advisory services and facilities through a fee payable monthly in arrears at an annual rate equal to 0.85% of the average weekly value of the Trust's

Table of Contents

ING Clarion Global Real Estate Income Fund **Notes to Financial Statements** continued

managed assets plus certain direct and allocated expenses of the Advisor incurred on the Trust's behalf. The Advisor has agreed to waive a portion of its management fee in the amount of 0.25% of the average weekly values of the Trust's managed assets for the first five years of the Trust's operations (through February, 2009), and for a declining amount for an additional four years (through February, 2013). During the year ended December 31, 2006, the Trust incurred management fees of \$17,564,627, which are net of \$7,318,594 in management fees waived by the Advisor.

The Trust has multiple service agreements with The Bank of New York (BNY). Under the servicing agreements, BNY will perform custodial, fund accounting, certain administrative services, and transfer agency services for the Trust. As custodian, BNY is responsible for the custody of the Trust's assets. As administrator, BNY is responsible for maintaining the books and records of the Trust's securities and cash. As transfer agent, BNY is responsible for performing transfer agency services for the Trust.

5. Portfolio Securities

For the year ended December 31, 2006, there were purchases and sales transactions (excluding short-term securities) of \$437,610,656 and \$389,503,180, respectively.

In 2005, the Trust received 303,030 in call options for Verde Realty MLP in connection with its purchase of shares in Verde Realty MLP. These options expire in January 2007 at \$33.00 per share. There were no dollars expended for acquiring these options and there is no value to the options at December 31, 2006.

6. Federal Income Taxes

The Trust intends to elect to be, and qualify for treatment as, a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). A regulated investment company generally pays no federal income tax on the income and gains that it distributes. The Trust intends to meet the calendar year distribution requirements imposed by the Code to avoid the imposition of a 4% excise tax.

The Trust distinguishes between dividends on a tax basis and on a financial reporting basis and only distributions in excess of tax basis earnings and profits are reported in the financial statements as a tax return of capital. Differences in the recognition or classification of income between the financial statements and tax earnings and profits which result in temporary over-distributions for financial statement purposes are classified as distributions in excess of net investment income or accumulated net realized gains in the components of net assets on the Statement of Assets and Liabilities.

In order to present paid-in capital in excess of par and accumulated net realized gains or losses on the Statement of Assets and Liabilities that more closely represent their tax character, certain adjustments have been made to additional paid-in capital, undistributed net investment income and accumulated net realized gains or losses on investments. For the year ended December 31, 2006, the adjustments were to decrease accumulated net realized gain on investments by \$5,671,898 and increase undistributed net investment income by \$5,671,898 due to the difference in the treatment for book and tax purposes of certain investments.

Information on the tax components of net assets as of December 31, 2006 is as follows:

Net Tax	Net Tax Unrealized Appreciation	Undistributed	Undistributed

Cost of Investments for Tax Purposes	Gross Tax Unrealized Appreciation	Gross Tax Unrealized Depreciation	Unrealized Appreciation on Investments	on Swap Contracts and Foreign Currency	Ordinary Income/ (Accumulated Ordinary Loss)	Other Temporary Differences	Long-Term Capital Gains/ (Accumulated Capital Loss)
\$2,652,664,521	\$779,787,941	\$(21,789,027)	\$757,998,914	\$5,262,982	\$90,830,546	\$(15,061)	\$9,574,417

For the year ended December 31, 2006 and December 31, 2005, the tax character of distributions paid, as reflected in the Statements of Changes in Net Assets, were \$265,465,336 and \$163,017,004 of ordinary income and \$100,149,675 and \$17,197,419 of long-term capital gain, respectively.

7. Borrowings

The Trust leverages through the issuance of preferred shares, and/or borrowings in an aggregate amount of approximately 35% of the Trust's capital to buy additional securities. The Trust may borrow from banks or other financial institutions. The use of preferred shares and other borrowing techniques to leverage the common shares can create risks.

The Trust has access to a secured line of credit up to \$500,000,000 from BNY for borrowing purposes. Borrowings under this arrangement bear interest at the Federal funds rate plus 50 basis points. At December 31, 2006, there was an outstanding borrowing of \$347,519,500 in connection with the Trust's line of credit.

The average daily amount of borrowings during the year ended December 31, 2006 was \$169,801,262, with a related weighted average interest rate of 5.61%. The maximum amount outstanding for the year ended December 31, 2006, was \$347,519,500.

8. Capital

During 2004, the Trust issued 101,000,000 shares of common stock at \$15.00. In connection with the Trust's DRIP plan, the Trust issued 1,408,492 common shares in 2006. At December 31, 2006, the Trust had outstanding common shares of 102,569,779 with a par value of \$0.001 per share. The Advisor owned 6,981 shares of the common shares outstanding.

On February 26, 2004, the Trust's Board authorized the issuance of preferred shares, in addition to the existing common shares, as part of its leverage strategy. Preferred shares issued by the Trust have seniority over the common shares.

The Trust issued 4,000 shares of Preferred Shares Series T28A, 4,000 shares of Preferred Shares Series W28B, 4,000 shares of Preferred Shares Series T28C, 4,000 shares of Preferred Shares Series W28D, 6,200 shares of Preferred Shares Series T7 and 6,200 shares of Preferred Shares Series W7, each with a liquidation value of \$25,000 per share plus accumulated and unpaid dividends. Dividends

Table of Contents

ING Clarion Global Real Estate Income Fund **Notes to Financial Statements** continued

will be accumulated daily at an annual rate set through auction procedures. Distributions of net realized capital gains, if any, will be paid annually.

For the year ended December 31, 2006, the annualized dividend rates ranged from:

	High	Low	At December 31, 2006
Series T28A	5.30%	4.36%	5.25%
Series W28B	5.35	4.37	5.20
Series T28C	5.27	4.38	5.27
Series W28D	5.35	4.24	5.29
Series T7	5.29	4.15	5.29
Series W7	5.29	3.96	5.29

The Trust is subject to certain limitations and restrictions while preferred shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Trust from declaring any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of preferred shares at their liquidation value.

The holders of preferred shares have voting rights equal to the holders of common shares (one vote per share) and will vote together with holders of common shares as a single class. However, holders of preferred shares, voting as a separate class, are also entitled to elect two Trustees. In addition, the Investment Company Act of 1940, as amended, requires that, along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares, (b) change a Trust's sub-classification as a closed-end investment company or change its fundamental investment restrictions and (c) change the nature of its business so as to cease to be an investment company.

9. Indemnifications

The Trust enters into contracts that contain a variety of indemnifications. The Trust's exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses or current claims or losses pursuant to these contracts.

10. New Accounting Pronouncements

On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Trust's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. The Interpretation is effective for a calendar year Trust no later than its June 29, 2007 NAV, and is to be applied to all open tax years as of the date of effectiveness. At this time, management is evaluating the implications of FIN 48 and its impact in the financial statements has not yet been determined.

On September 15, 2006, the FASB released Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157) which provides enhanced guidance for measuring fair value. The standard requires companies to provide expanded information about the assets and liabilities measured at fair value and the potential effect of these fair valuations on an entity's financial performance. The standard does not expand the use of fair value in any new circumstances, but provides clarification on acceptable fair valuation methods and applications. Adoption of FAS 157 is required for fiscal years beginning after November 15, 2007. At this time, management is evaluating the implications of FAS 157 and its impact in the financial statements has not yet been determined.

11. Subsequent Event

On January 17, 2007, the Trust issued 4,000 shares each of Preferred Shares Series TH and F, respectively, for approximately \$197,700,000 (sales proceeds less sales load and offering costs). Consistent with the other preferred shares each share has a liquidation value of \$25,000 per share plus accumulated and unpaid dividends and have seniority over common shares. Dividends will be accumulated daily at an annual rate set through auction procedures. Distributions of net realized capital gains, if any, will be paid annually. The proceeds of the preferred shares issuance were used to partially repay existing borrowings on the Trust's line of credit.

ING Clarion Global Real Estate Income Fund

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Trustees of

ING Clarion Global Real Estate Income Fund

We have audited the accompanying statement of assets and liabilities of the ING Clarion Global Real Estate Income Fund (the Trust), including the portfolio of investments, as of December 31, 2006, and the related statements of operations and cash flows for the year then ended, and the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Trust s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2006, by correspondence with the Trust s custodian and brokers, or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Trust at December 31, 2006, the results of its operations and its cash flows for the year then ended, and the changes in its net assets for each of the two years in the period then ended and financial highlights for each of the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

ING Clarion Global Real Estate Income Fund

Supplemental Information (unaudited)

Federal Income Tax Information

Qualified dividend income of as much as \$2,702,720 was received by the Trust through December 31, 2006. The Trust intends to designate the maximum amount of dividends that qualify for the reduced tax rate pursuant to the Jobs and Growth Tax Relief Reconciliation Act of 2003.

For corporate shareholders, \$1,095,985 of investment income qualified for the dividends-received deduction.

In February 2007, you will be advised on IRS Form 1099 DIV or substitute 1099 DIV as to the federal tax status of the distributions received by you in the calendar year 2006.

ING Clarion Global Real Estate Income Fund **Supplemental Information** continued

Board Considerations in Approving the Advisory Agreement

The investment management agreement was initially approved by the Board of Trustees at an in person meeting held on December 17, 2003, and last re-approved on August 30, 2006 including a unanimous vote of the trustees who are not parties to the agreement or interested persons of any such party (as such term is defined in the Investment Company Act). The Trust's Board of Trustees approved the continuation of the investment management agreement between the Advisor and the Trust. In connection with its deliberation with respect to the investment management agreement, the Board of Trustees considered a range of information (Board Materials) provided to the Board of Trustees by the Advisor, and was represented by independent counsel. Overall, the Board of Trustees concluded that continuation of the investment management agreement was in the best interests of the Trust and its shareholders, and is consistent with the expectations of the Trust's shareholders. In determining to approve the investment management agreement, the Board of Trustees took into account a number of factors, without assigning relative weight to any factor or identifying any factor as determinative. In accordance with regulations promulgated by the SEC, a summary of the material factors taken into consideration by the Board of Trustees and by the Trust's disinterested trustees, in approving the investment management agreement, including the Board's conclusions with respect to these factors, appears below.

In particular, the Board of Trustees considered the nature, extent and quality of advisory services provided by the Advisor. The Board of Trustees considered both the performance of the Trust, as well as other services provided to the Trust by the Advisor. In concluding that the services provided by the Advisor were satisfactory and supported continuation of the investment management agreement, the Board of Trustees evaluated the Advisor's personnel, experience, investment process (including brokerage practices), track record, and compliance program, as well as the administrative oversight of the Trust's operations provided by the Advisor and the resources the Advisor devoted to the Trust, including the additional personnel added to support the Trust's operations. In making its conclusion, the Board of Trustees found that the nature, extent and quality of these services provided by the Advisor to the Trust supported renewal of the investment management agreement. Based on the Board of Trustees' evaluation of the Trust's recent and long-term performance relative to its peer groups and appropriate indices/benchmarks, in light of total return, yield and economic and market trends and market risk expectations, the Board of Trustees concluded that the Trust's performance (both actual performance and comparable performance), particularly in light of the Trust's income objective was satisfactory, and generally above average as compared to the performance achieved by a peer group of investment companies similarly managed by third parties and other accounts managed by the Advisor, as well as appropriate performance indices, and supported renewal of the investment management agreement.

The Board of Trustees also considered the level of compensation and other benefits received by the Advisor as a result of its relationship with the Trust. The Board of Trustees took into account the quality of the Advisor's services as well as advisory fees charged to other comparable closed-end global real estate funds, which fell within a relatively tight band, and other assets comparably managed by the Advisor. Based on this review, the Board of Trustees concluded that the advisory fee structure under the investment management agreement was reasonable and supports renewal of the investment management agreement. During the course of its review, the Board of Trustees also considered information relating to the costs incurred by the Advisor in connection with the provision of services to the Trust and the potential that the Advisor may realize fall out benefits as a result of its relationship with the Trust. The Board of Trustees concluded that, based on the profit levels reported by the Advisor and in light of the specific circumstances of the Trust, the advisory fees paid to the Advisor has not resulted in a profit (including allowance for return on entrepreneurial risk) to the Advisor that is excessive or beyond the range that would have been negotiated at arm's length. In this regard, the Board of Trustees did not specifically consider the potential for realization of economies of scale because the Trust is a closed-end vehicle with limited potential for asset growth. The Board of Trustees further concluded that the Advisor has sufficient profitability to remain a sustainable business and to attract and retain

talented employees supported renewal of the investment management agreement.

Table of Contents

ING Clarion Global Real Estate Income Fund

Dividend Reinvestment Plan (unaudited)

Pursuant to the Trust's Dividend Reinvestment Plan (the "Plan"), shareholders of the Trust are automatically enrolled, to have all distributions of dividends and capital gains reinvested by The Bank of New York (the "Plan Agent") in the Trust's shares pursuant to the Plan. You may elect not to participate in the Plan and to receive all dividends in cash by sending written instructions or by contacting The Bank of New York, as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by contacting the Plan Agent before the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Shareholders who do not participate in the Plan will receive all distributions in cash paid by check and mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, which serves as agent for the shareholders in administering the Plan.

After the Trust declares a dividend or determines to make a capital gain distribution, the Plan Agent will acquire shares for the participants' account, depending upon the circumstances described below, either (i) through receipt of unissued but authorized shares from the Trust (newly issued shares) or (ii) by open market purchases. If, on the dividend payment date, the NAV is equal to or less than the market price per share plus estimated brokerage commissions (such condition being referred to herein as "market premium"), the Plan Agent will invest the dividend amount in newly issued shares on behalf of the participants. The number of newly issued shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the NAV on the date the shares are issued. However, if the NAV is less than 95% of the market price on the payment date, the dollar amount of the dividend will be divided by 95% of the market price on the payment date. If, on the dividend payment date, the NAV is greater than the market value per share plus estimated brokerage commissions (such condition being referred to herein as "market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participants in open-market purchases.

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any Federal income tax that may be payable on such dividends or distributions.

The Trust reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the Trust reserves the right to amend the Plan to include a service charge payable by the participants. Participants that request a sale of shares through the Plan Agent are subject to a \$2.50 sales fee and a \$0.15 per share sold brokerage commission. All correspondence concerning the Plan should be directed to the Plan Agent at The Bank of New York, Attention: Stock Transfer Department, P.O. Box 11258, New York, NY 10286-1258, Phone Number: (800) 432-8224.

Item 2. Code of Ethics.

- (a) The Trust has adopted a code of ethics (the Code of Ethics) that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.
- (b) Not applicable.
- (c) The Trust has not amended its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (d) The Trust has not granted a waiver or an implicit waiver from a provision of its Code of Ethics.
- (e) Not applicable.
- (f) The Trust's Code of Ethics is attached hereto as an exhibit.

Item 3. Audit Committee Financial Expert.

All of the members of the audit committee have the business and financial experience necessary to understand the fundamental financial statements of a closed-end, registered investment company; further, at least a majority of the committee's members have past employment experience sufficient to render each of them financially sophisticated, within the meaning of the American Stock Exchange Company Guide (Section 121(B)) as in effect as of the date hereof. In addition, the Board has determined that John Bartholdson is an audit committee financial expert and independent as those terms are defined in Item 3 of Form N-CSR.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees. The aggregate fees billed from the Trust's fiscal year ended December 31, 2005 and fiscal year ended December 31, 2006, for professional services rendered by the principal accountant for the audit of the Trust's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements are as follows:

2006: \$77,800

2005: \$37,000

(b) Audit-Related Fees. The aggregate fees billed from the Trust's fiscal year ended December 31, 2005 and fiscal year ended December 31, 2006 for professional services rendered for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the Trust's financial statements and are not reported above in Item 4(a) are as follows:

Table of Contents

2006: \$0

2005: \$0

(c) Tax Fees. The aggregate fees billed from the Trust's fiscal year ended December 31, 2005 and fiscal year ended December 31, 2006 for professional services rendered by the principal accountant for tax compliance, tax advice and tax planning are as follows:

2006: \$11,000

2005: \$21,500

(d) All Other Fees. The aggregate fees billed from the Trust's fiscal year ended December 31, 2005 and fiscal year ended December 31, 2006 for products and services provided by the principal accountant, other than the services reported above in Items 4(a) through (c) are as follows:

2006: \$0

2005: \$0

(e) Audit Committee Pre-Approval Policies and Procedures.

(i) The Trust has an Audit Committee Charter in place (the "Charter") that governs the pre-approval by the Trust's Audit Committee of all engagements for audit services and all Covered Non-Audit Engagements (as defined in the Charter) provided by the Trust's independent auditor (the "Independent Auditor") to the Trust and other Related Entities (as defined below). Each calendar year, the Audit Committee will review and re-approve the Charter, together with any changes deemed necessary or desirable by the Audit Committee. The Audit Committee may, from time to time, modify the nature of the services pre-approved, the aggregate level of fees pre-approved, or both.

Related Entities means (i) ING Clarion Real Estate Securities, L.P. (the "Advisor") or (ii) any entity controlling, controlled by or under common control with the Advisor.

Between regularly scheduled meetings of the Audit Committee, the Committee Chairman or Audit Committee Financial Expert shall have the authority to pre-approve Covered Non-Audit Engagements, provided that fees associated with such engagement do not exceed \$10,000 and the services to be provided do not involve provision of any of the following services by the Independent Auditor: (i) bookkeeping or other services related to the accounting records or financial statements of the audit client; (ii) financial information systems design and implementation; (iii) appraisal or valuation services, fairness opinions, or contribution-in-kind reports; (iv) actuarial services; (v) internal audit outsourcing services; (vi) management functions; (vii) human resources; (viii) broker dealer, investment advisor or investment banking services; (ix) legal services; or (x) expert services unrelated to the audit.

Pre-approval shall be required only with respect to non-audit services (i) related directly to the operations and financial reporting of the Trust and (ii) provided to a Related Entity that furnishes ongoing services to the Trust. Such pre-approval shall not apply to non-audit services provided to any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser. Pre-approval by the Audit Committee of such

Table of Contents

non-audit services shall be effected pursuant to the pre-approval procedures described in the Charter. The Charter shall not be violated if pre-approval of any such non-audit service is not obtained in circumstances in which the pre-approval requirement is waived under applicable rules promulgated by the Securities and Exchange Commission (SEC) or the AMEX, in accordance with the Sarbanes Oxley Act.

Requests for pre-approval of Covered Non-Audit Engagements are submitted to the Audit Committee by the Independent Auditor and by the chief financial officer of the Related Entity for which the non-audit services are to be performed. Such requests must include a statement as to whether, in the view of the Independent Auditor and such officer, (a) the request is consistent with the SEC s rules on auditor independence and (b) the requested service is or is not a non-audit service prohibited by the SEC. A request submitted between scheduled meetings of the Audit Committee should state the reason that approval is being sought prior to the next regularly scheduled meeting of the Audit Committee.

Fee levels for all Covered Services to be provided by the Independent Auditor and pre-approved under this Policy will be established annually by the Audit Committee. Any increase in pre-approved fee levels will require specific pre-approval by the Audit Committee.

The terms and fees of the annual Audit services engagement for the Trust are subject to the specific pre-approval of the Audit Committee. The Audit Committee will approve, if necessary, any changes in terms, conditions or fees resulting from changes in audit scope, Trust structure or other matters.

(ii) 100% of the services described in each of Items 4(b) through (d) were approved by the Trust s audit committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) The percentage of hours expended on the principal accountant s engagement to audit the Trust s financial statements for the most recent fiscal year attributable to work performed by persons other than the principal accountant s full-time, permanent employees was 0%.

(g) The aggregate non-audit fees billed by the Trust s accountant for services rendered to the Trust, the Advisor or any entity controlling, controlled by, or under common control with the Advisor that provides ongoing services to the Trust (except for any sub-advisor whose role is primarily portfolio management and is subcontracted with or overseen by another investment advisor) that for the fiscal year ended December 31, 2005 and fiscal year ended December 31, 2006 are as follows:

2006: \$117,315

2005: \$37,190

(h) Not applicable.

Item 5. Audit Committee of Listed Registrants.

(a) The Trust has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The audit committee of the Trust is comprised of: Frederick S. Hammer, Asuka Nakahara, Richard L. Sutton and John Bartholdson.

(b) Not applicable.

Table of Contents**Item 6. Schedule of Investments.**

The schedule is included as part of the report to shareholders filed under Item 1 of this form.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The Trust has delegated the voting of proxies relating to its voting securities to the Advisor, pursuant to the proxy voting procedures of the Advisor. The Advisor's Proxy Voting Policies and Procedures are included as an exhibit hereto.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a) T. Ritson Ferguson

Managing Director and Chief Investment Officer

Name of Portfolio Managers	Type of Accounts	Number of Accounts Managed	Total Assets in the Accounts	Number of Accounts	Total Assets in Accounts Managed with Advisory Fee Based on Performance
				Managed with Advisory Fee Based on Performance	Managed with Advisory Fee Based on Performance
Joseph P. Smith	Registered Investment Companies	4	\$ 839,700,000	0	\$ 0
	Other Pooled Investment Vehicles	6	\$ 395,400,000	6	\$ 395,400,000
	Other Accounts	29	\$ 1,161,000,000	3	\$ 92,000,000

Potential Conflicts of Interest. The Advisor does not believe that any material conflicts of interest exist as a result of the Portfolio Managers managing the Trust and managing the other accounts noted above. The investment strategies of the Trust and the other accounts managed by the Portfolio Managers do not materially conflict in any way.

The Advisor will frequently recommend purchases or sales of the same portfolio securities for the Trust and its other clients. In such circumstances, it will be the policy of the Advisor to allocate purchases and sales among the Trust and its other clients in a manner which the Advisor deems equitable, taking into consideration such factors as size of accounts, concentration of holdings, investment objectives, tax status, cash availability, purchase costs, holding periods and other pertinent factors relative to each account. Simultaneous transactions could adversely affect the ability of the Trust to obtain or dispose of the full amount of a security which it seeks to purchase or sell or the price at which such security can be purchased or sold.

Compensation. Compensation of the Portfolio Managers includes a fixed salary plus a bonus and deferred compensation. The bonus is based upon the profitability of the Advisor which is, in part, dependent upon the value of the total assets under management, including Trust assets. However, compensation is not directly based upon the Trust's performance nor the value of the Trust's assets.

Ownership of Trust Shares. The following table indicates the dollar range of securities of the Trust beneficially owned by the Portfolio Managers as of December 31, 2006.

Name of Portfolio Managers	Dollar Value of Trust Shares Beneficially Owned
T. Ritson Ferguson	\$500,001-\$1,000,000
Steven D. Burton	\$100,001-\$500,000
Joseph P. Smith	\$10,001-\$50,000
(b) Not applicable.	

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

None.

Item 10. Submission of Matters to a Vote of Security Holders.

Not applicable.

Item 11. Controls and Procedures.

(a) The Trust's principal executive officer and principal financial officer have evaluated the Trust's disclosure controls and procedures within 90 days of this filing and have concluded that the Trust's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the Trust in this Form N-CSR was recorded, processed, summarized, and reported timely.

(b) The Trust's principal executive officer and principal financial officer are aware of no changes in the Trust's internal control over financial reporting that occurred during the Trust's second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Trust's internal control over financial reporting.

Item 12. Exhibits.

(a)(1) Code of Ethics.

(a)(2) Certification of chief executive officer and chief financial officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

(b) Certification of chief executive officer and chief financial officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

(c) Proxy Voting Policies and Procedures.
