27. Additional information.

On October 3, 2003, Genco announced that it will buy British Energy's 50-percent interest in AmerGen Energy Co., LLC for \$276.5 million, giving Exelon sole ownership of AmerGen and its three nuclear plants.

The amount matches the offer by FPL Energy, which announced on September 11, 2003 that it intended to buy British Energy's share of AmerGen. Under the AmerGen limited liability company operating agreement between Exelon and British Energy, either could exercise a "right of first refusal" by matching any bona-fide third-party offer agreed to by the other party.

AmerGen owns the Clinton Power Station in Central Illinois, Three Mile Island Unit 1 near Harrisburg, Pennsylvania and the Oyster Creek Generating Station on the New Jersey shore. The three stations represent about 2,500 megawatts of generating capacity.

The AmerGen purchase is expected to be completed in the first half of 2004. See Exelon Corporation Form 8-K filed on October 3, 2003.
