3. MANAGEMENT'S DISCUSSION AND ANALYSIS

3.1 Summary of overall operating performance of the Company during the reporting period

Applicable                       Not applicable

For the first quarter of 2004, the operating revenues, net profit and earnings per share of the Company and its subsidiaries were Rmb6,461 million, Rmb1,404 million and Rmb0.23, representing increases of 24.97%, 24.58% and 21.05%, respectively, compared with the same period of last year. The significant increase in operating revenue of the Company and its subsidiaries was mainly due to the significant increase in power generation. The electricity generation reached 24.56 billion kWh for the first quarter of 2004, representing an increase of 24.04% over the same period of last year. The increase was mainly attributable to the following reasons: 1) continuous increase in the national economy that stimulated the demand for power consumption in the regions where the Company and its subsidiaries' power plants operate; 2) appropriate arrangement on repair and maintenance of generation units and a series of measures taken to ensure stable supply of coal; 3) enlarged market share through enhanced marketing strategy; 4) increase of generation capacity as a result of putting the generation units 5 and 6 of the Jining Power Plant into stable operation in 2003; 5) power generation contributed by the Yushe Power Plant and the Xindian Power Plant, both of which were acquired in 2003.
