(expressed in U.S. dollars)

1. FORMATION AND BUSINESS OF THE COMPANY

Coventure International Inc. (the "Company") was incorporated in Delaware, U.S.A. on March 31, 1999 as Bullet Environmental Systems, Inc. and changed its name on May 25, 2000 to Liquidpure Corp. On February 14, 2002, the Company changed its name to Coventure International Inc.

The Company is a development stage enterprise engaged in the business of providing management consulting products and services through an eventual network of regionally licensed operators in North America. The Company's services will include strategic analysis, planning, consulting and coaching. To date the Company has not commenced significant operational activities.

Edgar Filing: COVENTURE INTERNATIONAL INC - Form 10QSB

These financial statements include the accounts of the Company and its wholly-owned subsidiary Coventure Canada Inc. (the "Subsidiary"). The Subsidiary was incorporated in the Province of Alberta, Canada on February 5, 2002.

Going concern

The accompanying financial statements have been presented assuming the Company will continue as a going concern. At October 31, 2002, the Company had accumulated \$93,492 in losses and had no material revenue producing operations. At the date of this report, the Company's ability to continue as a going concern is dependent upon its ability to raise additional capital, achieve profitable operations or merge with a revenue-producing venture partner.

2. SIGNIFICANT ACCOUNTING POLICIES

Revenue Recognition

The Company recognizes revenue in accordance with applicable accounting regulations. Accordingly, revenues from services are recognized when all significant contractual obligations have been satisfied and collection is reasonably assured.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Income taxes

The Company uses the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on the difference between financial statement and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance in respect of amounts considered by management to be less likely than not of realization in future periods.

Foreign currency translation

Unless otherwise stated, all amounts are in United States dollars. The functional currency of the Company and its Subsidiary is the Canadian dollar. Hence, all asset and liability amounts denominated in Canadian dollars have been translated using the exchange rate as at October 31, 2002 and all expenses have been translated using the average exchange rate for each month.

Edgar Filing: COVENTURE INTERNATIONAL INC - Form 10QSB

The rates used were as follows:

(equivalent Cdn \$ per U.S. \$)

October 31, 2002 rate: .6421

Depreciation

Depreciation of property, plant and equipment is provided for on the straight-line basis over the estimated useful life of the assets, estimated to be four years. One-half the normal rate is taken in the year of acquisition.

3. SHARE CAPITAL

Holders of the common stock are entitled to one vote per share and share equally in any dividends declared and distributions on liquidation.

4. RELATED PARTY TRANSACTIONS

- a) The advances from a stockholder are interest-free and repayable on demand.
- b) In May 2000, the Company acquired a non-exclusive commercial license from a company controlled by a former director and officer of the Company for \$1,000. The Company experienced a lack of co-operation from the engineering firm who owned the patent to the apparatus under license. The Company was not provided with the technical information it required to start manufacturing any of the systems for which it was contractually permitted. Further, due to the capital market decline in 2001, it proved impossible to execute the business plan. As a result, in October 2001, the Company abandoned this license.

5. FINANCIAL INSTRUMENTS AND CONCENTRATIONS OF CREDIT RISK

The Company's financial instruments consist of cash, accounts receivable, accounts payable and advances from stockholder. It is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair value of these financial instruments approximate their carrying values.

Item 2. Management's Discussion and Analysis or Plan of Operations

Edgar Filing: COVENTURE INTERNATIONAL INC - Form 10QSB

The Company plans to provide consulting services to small and medium sized businesses in North America through a network of regionally licensed operators. The consulting services will be designed to improve a client's profitability through strategic analysis, planning, consulting and ongoing evaluation. The Company's core services will attempt to identify inefficiencies and trouble spots in a business before they cause significant problems.

The Company has tested the Coventure Analysis methodologies on a mid-sized firm located in Calgary, Alberta. The results proved that the methodology for assessing business dysfunction was sound, however the Company is refining the process of presenting the results to its client. The Company's website, WWW.COVENTURE.COM became active in May 2002.

The Company will be able to provide consulting services once it raises \$100,000 in capital. Of this amount, \$50,000 will be used to hire and train the analysts and consultants which will provide these services to future clients and \$50,000 will be used to market the Company's products, services, and licensing program. The Company does not know when it will obtain the \$100,000 in capital. The Company's initial focus will be on the development of Canadian and American markets.

During the three months ended October 31, 2002 the Company's operations used \$425 in cash. Operating capital was provided from the sale of equipment and cash on hand at July 31, 2002.

This report contains certain forward-looking statements. The Company wishes to advise readers that actual results may differ substantially from such forward-looking statements. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those expressed in or implied by the statements, including, but not limited to ability of the Company to meet its cash and working capital needs, the ability of the Company to maintain its existence as a viable entity, and other risks detailed in the Company's periodic report filings with the Securities and Exchange Commission.

PART II: OTHER INFORMATION

Item 4. Controls And Procedures

Based on the evaluation of the Company's disclosure controls and procedures by John Hromyk, the Company's President, Principal Financial Officer and Principal Accounting Officer, as of a date within 90 days of the filing date of this quarterly report, such officers have concluded that the Company's disclosure controls and procedures are effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time period specified by the Securities and Exchange Commission's rules and forms.

There were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
