- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 8.01

Other Events

Acorda Therapeutics, Inc. ("Acorda") expects to initiate a Phase 3 clinical trial by the end of this year studying the use of dalfampridine administered twice daily (BID) to improve walking in people who have experienced a stroke. Acorda has been exploring a once-daily (QD) formulation of dalfampridine for use in the post-stroke clinical program. Based on the results of an in-vitro alcohol dose dumping study and a subsequent fed-fasted study, Acorda has determined that the current QD formulation is not practical for further testing. Acorda is working with external partners to develop a new QD formulation that could be included in future post-stroke clinical trials.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
