Arrangements Regarding Director Selection

Pursuant to the terms of an agreement entered into in September 1997 between RealNetworks and Mr. Glaser, RealNetworks has agreed to use its best efforts to nominate, elect and not remove Mr. Glaser from the Board of Directors so long as Mr. Glaser owns a specified number of shares of our common stock.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities and Exchange Act of 1934, as amended, requires RealNetworks' executive officers, directors, and persons who own more than ten percent of a registered class of RealNetworks' equity securities to file reports of ownership and changes of ownership with the Securities and Exchange Commission. Executive officers, directors and greater than ten percent shareholders are required by SEC regulation to furnish us with copies of all such reports they file. Specific due dates have been established by the SEC, and we are required to disclose any failure to file by those dates.

Based solely on our review of the copies of such reports received by us, and on written representations by our executive officers and directors, we believe that during fiscal 2018, all of our executive officers and directors and all of the persons known to us to own more than ten percent of our common stock, complied with all Section 16(a) filing requirements applicable to them.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all of RealNetworks' employees, officers and directors. RealNetworks' Code of Business Conduct and Ethics is publicly available on our website (<http://investor.realnworks.com> under the caption "Corporate Governance"), or can be obtained without charge by written request to RealNetworks' Corporate Secretary at the address of RealNetworks' principal executive office. We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding an amendment to or waiver from application of the Code of Business Conduct and Ethics that applies to the Chief Executive Officer or the Chief Financial Officer, and any other applicable

accounting and financial employee, by posting such information on our website at <http://investor.realnetworks.com> under the caption "Corporate Governance."

Shareholder Nominations and Recommendations for Director Candidates

We have not made any material changes to the procedures by which our shareholders may recommend nominees to our board of directors since we last disclosed the procedures by which shareholders may nominate director candidates under the caption "Shareholder Nominations and Recommendations for Director Candidates" in our proxy statement for the 2018 annual meeting of RealNetworks shareholders filed with the SEC on August 22, 2018.

Audit Committee of the Board

We have a standing Audit Committee of the Board of Directors comprised of Messrs. Trempont, Jaffe and Jones. The Audit Committee provides oversight of our accounting and financial reporting, processes and financial statement audits, reviews RealNetworks' internal accounting procedures and consults with and reviews the services provided by its independent auditors. All of the members of our Audit Committee are financially literate pursuant to Nasdaq rules, and our Board has designated Mr. Trempont as the Audit Committee Financial Expert, as defined by the SEC and applicable listing standards. Applying the rules of the Nasdaq Stock Market and the SEC, the Board has determined that Mr. Trempont is independent.

Item 11. Executive Compensation

COMPENSATION DISCUSSION AND ANALYSIS

This compensation discussion and analysis describes the principles underlying our executive compensation program and discusses how those principles affected our policies and decisions regarding the compensation of our named executive officers.

EXECUTIVE SUMMARY FOR 2018

Overview. 2018 was a solid year strategically for RealNetworks. Although financial goals were not achieved, we made progress on key growth initiatives, while enhancing margins and reducing operating expenses compared to the prior year. As management rigorously evaluated our products and services throughout 2018, the most promising growth initiatives were identified and the company ended the year poised for the commercialization of these key initiatives. As in prior years, management continues to focus on achieving meaningful growth and profitability.

Chairman and Chief Executive Officer, Rob Glaser drove the company's efforts, together with a strong senior leadership team comprised of Max Pellegrini, who was named President of RealNetworks in February 2018, Cary Baker, Chief Financial Officer, and Michael Parham, General Counsel.

In January 2019, we announced the acquisition of an additional 42% interest in Rhapsody International, Inc., operating under the Napster brand, bringing our aggregate ownership interest to 84%. Going forward, although Napster will continue to operate as an independent business, its financial results will be reported on a consolidated basis in the RealNetworks financial statements as of January 19, 2019. Bill Patrizio, formerly RealNetworks' President of Consumer Media business, was named President and Chief Executive Officer of Napster in March 2018. Although not serving as an executive officer of RealNetworks at the end of fiscal year 2018, Mr. Patrizio is deemed a named executive officer of ours for 2018 pursuant to Item 402(a)(3)(iv) of Regulation S-K and, therefore, his 2018 RealNetworks compensation is reported in this Compensation Disclosure and Analysis and related tables. Mr. Patrizio's 2018 Napster compensation is not reported herein as Napster, although an affiliate of ours, was an independent company of which RealNetworks held a 42% noncontrolling interest throughout 2018.

Aligning the compensation of our management team with our overall corporate strategy and growth plans, our compensation program is substantially performance-based and aims to encourage the performance necessary to drive growth and profitability for RealNetworks. In general, the compensation provided to our named executive officers in 2018 was consistent with compensation in prior years. Nevertheless, as reported in the Summary Compensation Table that follows this Compensation Discussion and Analysis, all of the company's officers have 2018 total compensation that is lower than the total compensation reported for 2017, except for Mr. Pellegrini due to the grant date fair value of an equity award granted in connection with his February 2018 promotion; the value of that equity award is not available to Mr. Pellegrini, however, unless and until the award vests and the market price of our stock increases above the grant date closing price. Further, the total

compensation value provided to all of the named executive officers, again as reported in the Summary Compensation Table, was below the median value provided by peer group companies.

Financial Results. Our top-line financial results for 2018 were below expectations, although momentum towards strategic goals continues, and operating expenses for 2018 improved from the prior year, consistent with recent trends. Overall, our financial results reflect efforts to advance key growth initiatives, enhance profitability, and improve cost structure. Consolidated revenue decreased by 12% from 2017 when calculated in accordance with U.S. generally accepted accounting principles, or GAAP, which excludes revenue from discontinued operations. Operating expenses declined 3% over the prior year, and net loss from continuing operations increased from a loss of \$17.4 million in 2017 to a loss of \$25.0 million in 2018. Adjusted EBITDA increased from a loss of \$12.0 million in 2017 to a loss of \$16.3 million in 2018, as management evaluated our most promising initiatives and focused on partnership opportunities and optimal sales channels, and improved overall efficiencies. Adjusted EBITDA for 2018 consisted of GAAP net income (loss), excluding interest income (loss), income tax expense, gain on investments, equity in net loss of Napster, depreciation and amortization, acquisitions-related intangible asset amortization, stock-based compensation, restructuring and other charges, and lease exit and related charges.

Our incentive bonus program for 2018, which was primarily based on achievement against target revenue and contribution margin goals, paid out at a lower level than 2017 due to actual 2018 financial results, which missed our goals.

Management Team. The executive compensation program is designed to aggressively drive company performance by encouraging successful execution of our growth and strategic initiatives.

Our named executive officers for 2018 include the following executive officers:

Robert Glaser Founder, Chairman and Chief Executive Officer

Cary Baker SVP, Chief Financial Officer and Treasurer

Michael Parham SVP, General Counsel and Corporate Secretary

Massimiliano Pellegrini President, RealNetworks

William Patrizio Former President, Consumer Media of RealNetworks (until March 1, 2018)

Pay for Performance. Our Compensation Committee supports a pay-for-performance philosophy, with the goal of having a substantial part of our executive compensation program consisting of performance-based compensation. This is reflected in our annual performance-based incentive bonus plan, which we also refer to as our Executive Bonus Plan, which provides eligible executives the opportunity to earn a bonus upon achieving pre-established performance objectives, all of which are weighted toward financial and strategic objectives of our businesses. In 2018, all of our named executive officers participated in the Executive Bonus Plan, except Mr. Patrizio as he left the company in March 2018 upon becoming President and Chief Executive Officer of Napster. Moreover, in a continuing effort to more closely align the interests of executives and shareholders and to conserve cash, the Compensation Committee determined that any payouts under the plan would be paid in the form of fully vested restricted stock units. The purpose of this structure was to preserve company cash and align the payment from the annual bonus plan with shareholder value.

Further in line with this pay-for-performance philosophy, since 2012, we have relied more on performance-related equity awards, as evidenced by the long-term performance-based option awards granted to Mr. Glaser in 2014, 2015 and 2016. These awards become eligible to vest only upon achievement of significant total shareholder return goals (subject to continued service). The performance-based options granted to Mr. Glaser in 2014 and 2015 expired unearned. In 2017 and 2018, the Compensation Committee granted time-based option awards for Mr. Glaser's long-term equity awards, although the fair value of these awards were lower than the 2016 option award and the 2018 award was for both fewer shares and lower value than his 2017 option award.

Accordingly, actual compensation paid to our named executive officers varies with the company's performance in achieving financial and strategic objectives and the executive's individual performance. We believe that our emphasis on pay for performance provides appropriate incentive to our executives to achieve important business objectives of the company and better aligns the interests of our executives with that of our shareholders.

Please note that for 2018 we defined “contribution margin by reportable segment” as operating income (loss) including other income (expense) net, but excluding the impact of the following: depreciation and amortization; acquisitions related intangible asset amortization; stock-based compensation; restructuring and other charges; lease exit and related charges.

2018 Compensation Highlights.

Highlights relating to our named executive officers, generally:

▲ All of our named executive officers for 2018 were also executive officers in the prior year.

All of our continuing executive officers, except for Mr. Glaser, were provided salary increases during 2018, with Mr. Pellegrini's salary increasing in connection with the additional responsibility taken on with his February 2018 promotion, resulting in a 12.5% increase from his previous salary, and Messrs. Baker and Parham receiving 3% and 8% increases in August 2018 to recognize their experience and position relative to their individual labor markets.

● In addition, 2018 incentive bonus payouts for named executive officers were significantly below target levels and lower than the prior year because we missed our 2018 financial objectives by more than in 2017.

● Payouts of 2018 incentive bonuses were made to the named executive officers 100% in the form of fully vested RSUs rather than in cash in an effort to conserve the company's cash and to more closely align the interests of executives with those of the company's shareholders.

Highlights relating to our CEO:

● Our CEO's total compensation for 2018 was lower than 2017. His incentive bonus payout was lower than last year and well below target, and his long-term equity award was lower than in 2017 both in terms of the number of shares and their grant value. Base salary, which is subject to annual review by the Compensation Committee, remained the same, although the allocation between components changed, and it was below the median of our peer group.

● Of the total value from equity awards granted to our CEO in 2018, 26% was directly performance based as it related to the payment of the 2017 incentive bonus (which has been reported as 2017 compensation); 60% was a long-term equity award granted as a stock option scheduled to vest over four years. We view these options as naturally performance-based because they only provide value to the CEO if our stock price increases above the closing price on the grant date; and the remaining 14%, or \$75,000, was equity in the form of a stock option granted in lieu of cash salary for 2018, thus making a portion of his annual salary more performance-based and less guaranteed than if his salary had been paid solely in cash. There was no premium added to the option value when replacing the cash salary (i.e., \$75,000 of salary for 2018 was granted as options in 2018). The company does not view the CEO's salary replacement options as long-term incentive compensation, therefore we view 100% of the CEO's equity compensation for 2018 as contingent on achieving a minimum stock price performance threshold.

● Our CEO's total direct compensation for 2018, comprised of salary, 2018 bonus, and equity awards, but excluding the 2017 bonus that was paid in a mix of cash and equity in early 2018, was lower than in 2017 and also below the median for peer group CEOs.

EXECUTIVE COMPENSATION PROGRAM PHILOSOPHY AND ELEMENTS

The overall objectives of our executive compensation program are to provide compensation at competitive levels in order to recruit and retain talented executives, motivate our executives to achieve our strategic and financial objectives, and provide incentives to help align the interests of our executives with the interests of our shareholders.

Our executive compensation program provides the following three primary elements of compensation:

● Base salary. Our named executive officers receive base salary so that we can recognize them for their day-to-day contributions and provide competitive pay that encourages retention and recruitment. Base salaries are subject to annual review by our Compensation Committee.

● Annual performance-based incentive bonus. We establish a performance-based incentive bonus plan on an annual basis, under which our named executive officers each have an opportunity to earn a bonus, typically paid in cash (although this was not the case for 2018), upon achievement of certain performance objectives derived from the

internal strategic plan we establish for the company each year. The bonuses are intended to motivate our executives to achieve our financial and strategic objectives. These bonuses are not guaranteed.

Bonuses in 2018 were below the target opportunity provided to each eligible named executive officer. Moreover, 2018 bonuses were paid 100% in the form of fully vested RSUs, exhibiting discipline from a cash management perspective and a desire to more closely align executives' interests with shareholders.

Although the 2018 bonus was paid in the form of fully vested RSUs, these equity awards were not considered to be equity compensation from the company's perspective as they were essentially cash-equivalent payments made pursuant to the Executive Bonus Plan. Further, although the grants that relate to the 2017 Executive Bonus Plan are reported in the "2018 Grants of Plan-Based Awards" table that follows this Compensation Discussion and Analysis, the value of those awards is not included in 2018 total compensation for our named executive officers as it was more appropriately included in 2017 total compensation.

Long-term equity compensation. We provide equity-based compensation to our named executive officers to better align their interests with the interests of our shareholders as well as to motivate our officers to enhance the long-term performance of RealNetworks. Equity awards also are an important retention tool for us because the awards typically vest over a multi-year period. In July 2018, we executed a broad-based equity program to refresh the equity holdings of our employees worldwide, including our executive officers (except Mr. Glaser). In connection with this broad-based program, Mr. Baker and Mr. Parham were granted options to acquire 200,000 and 150,000 shares, respectively, vesting biannually over the four years following the grant date. Mr. Pellegrini was not granted an award pursuant to the broad-based program as he was granted a long-term equity award in connection with his February 2018 promotion. Mr. Pellegrini's promotion award was an option to acquire 500,000 shares, vesting biannually over the four years following the grant date. Mr. Glaser's 2018 long-term equity award was an option to purchase 350,000 shares, vesting 25% on the one-year anniversary and 12.5% every six months thereafter, for a total vesting period of four years. Mr. Glaser also was granted an option award in 2018 to acquire 54,466 shares, which was granted in lieu of \$75,000 of cash salary. The company does not view this salary replacement option as part of Mr. Glaser's long-term equity compensation.

These elements provide incentives to encourage our executives to appropriately balance their focus between our short-term and long-term strategic goals.

We believe that there are multiple, dynamic factors that contribute to the success of our businesses and the individuals that lead those businesses. Moreover, we recognize that our business and the industry in which we operate are constantly evolving and highly competitive in nature. Our approach to executive compensation, therefore, has been to avoid adopting a strict, formulaic structure and to instead allow for a more nuanced and customized system. Under our executive compensation program, we consider the needs of our businesses and our company as a whole; design various elements of compensation to drive our executives and their teams to meet or exceed company goals and objectives; and take into account competitive practices in order to achieve our recruiting and retention needs.

Consistent with our desire to maintain competitive practices and achieve our recruiting and retention goals, in addition to our three primary elements of compensation, our executive compensation packages also contain certain severance and change in control arrangements; some targeted, one-time bonuses; and retirement and other generally available, broad-based benefits. In general, we provide very limited executive perquisites, and we do not provide our executives with tax gross ups or supplemental retirement plans.

EXECUTIVE COMPENSATION DECISION-MAKING PROCESS

The Roles of our Board, Compensation Committee and Chief Executive Officer. Our Compensation Committee's purpose is to discharge the Board of Director's responsibilities relating to the compensation of our executive officers and the adoption of policies that govern our compensation and benefit programs, other than with respect to our chief executive officer's compensation. Our Compensation Committee reviews and recommends the chief executive officer's compensation, which is subject to the approval of the Board. The Board is able to make any adjustments that it may determine are appropriate with respect to our chief executive officer's compensation. The Compensation Committee determines all compensation for our other named executive officers. At the invitation of our Compensation Committee, our chief executive officer provides input regarding the performance and appropriate compensation of the other named executive officers. The Compensation Committee

gives considerable weight to the chief executive officer's assessment of the other named executive officers because of his direct knowledge of each executive's role, performance and contributions. During 2018, our chief executive officer attended all Compensation Committee meetings at the request of the Committee. However, no executive officer was present for the portion of a Compensation Committee meeting during which his own compensation was discussed or determined.

The Role of the Compensation Consultant. Our Compensation Committee has selected and directly retains the services of Frederic W. Cook & Co., Inc., an independent executive compensation consulting firm. F.W. Cook does not provide any other services to RealNetworks and works with our management only on matters for which the Compensation Committee is responsible. The Compensation Committee has assessed the independence of F.W. Cook pursuant to SEC rules and concluded that no conflict of interest exists that would prevent F.W. Cook from serving as an independent consultant to the Compensation Committee. The Compensation Committee periodically seeks input from F.W. Cook on a range of external market factors, including evolving compensation trends, appropriate peer companies and market survey data. F.W. Cook also provides general observations on our compensation programs, but it does not determine or recommend the amount or form of compensation for our named executive officers. A representative of F.W. Cook attends Compensation Committee meetings from time to time, when requested by the Compensation Committee.

The Role of Peer Groups and Surveys. In early 2016, with the oversight of our Compensation Committee, F.W. Cook performed an executive compensation review that included identifying a peer group of companies (the "2016 Peer Group") to be used by us for the purpose of comparing our executive compensation to the market. This 2016 market analysis was used by the Compensation Committee to evaluate 2016, 2017, and 2018 executive compensation levels, including long-term equity incentive compensation.

The 22 companies in the 2016 Peer Group are publicly traded, U.S.-based software and media content companies, and were selected to reflect our smaller size following organizational changes around that time and, in our view, were competitors of ours for purposes of recruiting executive talent. The companies comprising the 2016 Peer Group are:

Angie's List, Inc. eGain Rosetta Stone Inc.

Autobyte Inc. Glu Mobile SeaChange International, Inc.

Avid Technology, Inc. Harmonic Inc. Spark Networks, Inc.

Blucora, Inc. Leaf Group (fka Demand Media) TechTarget, Inc.

Blue Nile, Inc. Limelight Networks, Inc. Travelzoo Inc.

Brightcove Inc. Marchex, Inc. United Online, Inc.

Carbonite, Inc. QuinStreet, Inc. XO Group Inc.

DHI Group

We consider multiple data sources for assessing our compensation practices. Although we consider competitive market data regarding compensation in order to achieve our goals to recruit and retain our executives, we do not attempt to maintain a certain target percentile within a peer group, nor do we rely solely on such market data. Our management and the Compensation Committee strive to incorporate flexibility into our compensation programs and the assessment process so that we are able to respond to and adjust for the evolving business environment and the value delivered by our named executive officers. In addition to competitive data, we may take into account a variety of other factors, for example, general market conditions, internal equity, an individual's level of responsibilities, as well as an individual's recent or future expected contributions.

Consideration of Say-on-Pay Vote Results. We provide our shareholders with the opportunity to cast an annual advisory vote on executive compensation. At our 2018 annual meeting of shareholders, which took place last October, our shareholders approved the compensation of our named executive officers as disclosed in our 2018 proxy statement by a vote of approximately 99% of the votes cast on the proposal. By the time that this vote was conducted, some of the decisions relating to the 2018 compensation of our executive officers had been made, so the 98% support of shareholders at the 2017 annual meeting was also considered. We highly value the input of our shareholders, and, the Compensation Committee, with input from F.W. Cook, has carefully considered the results of the 2018 say-on-pay vote and has engaged in discussions regarding

shareholder outreach efforts. The Compensation Committee will continue to consider the results of the annual say-on-pay vote and specific shareholder input in determining 2019 and future compensation programs for our executive officers.

2018 COMPENSATION

Chief Executive Officer Compensation

Upon recommendation of the Compensation Committee as advised by F.W. Cook and after considering the company's compensation strategy, internal factors, performance, competitive factors and applicable regulatory requirements, Mr. Glaser's compensation for 2018 was substantially consistent with the compensation package structure that he has had since returning to the CEO role in July 2014. For 2018, Mr. Glaser's compensation package included (i) an annualized base salary of \$525,000, which was supplemented with \$75,000 worth of stock options; (ii) an annual incentive bonus opportunity equal to 100% of his annual cash base salary, payable upon the achievement of certain performance objectives set by the Board; (iii) a long-term equity award; (iv) severance arrangements as more fully described below; (v) certain perquisites, which for 2018 included facilities-related costs attributable to his personal assistant; and (vi) generally available employee benefits.

The annualized total compensation value targeted by the Compensation Committee for Mr. Glaser, assuming all bonus goals were achieved, was below the median for peer chief executives in F.W. Cook's 2016 executive compensation review, and Mr. Glaser's actual 2018 compensation was also below the median of the total compensation for chief executive officers in the 2016 Peer Group companies. Mr. Glaser's 2018 equity compensation is viewed as performance based because it is in stock options, which require the stock price to increase after grant in order to deliver value, with an award covering 350,000 shares vesting over the four-year period following grant, and an option award to acquire 54,466 shares that was issued in lieu of \$75,000 of cash salary. In 2018, Mr. Glaser also was granted a fully vested RSU award that was paid in lieu of cash pursuant to the 2017 incentive bonus plan and, therefore, which we consider to be part of his total 2017 compensation package. The 2018 incentive bonus was paid, in the form of fully vested RSUs, during the first quarter of 2019.

Salary Options. Although Mr. Glaser's intended base salary value was \$600,000, consistent with prior years, the Compensation Committee determined that part of Mr. Glaser's base salary would be provided as a stock option because the Compensation Committee believed that a higher proportion of his compensation should be related to the company's performance. The stock option in lieu of salary for 2018, granted on January 31, 2018, covered 54,466 shares of our common stock with an exercise price equal to \$3.10 per share, which was the closing price of our common stock on the date of grant, and because these were in lieu of a portion of annual salary, the salary replacement option vested ratably each month over the year until fully vested as of December 31, 2018, subject to Mr. Glaser's continued employment with us through each such vesting date. This salary replacement option was granted pursuant to the 2005 Stock Incentive Plan, or 2005 Plan.

Annual Performance-Based Incentive Bonus. The Board determined that Mr. Glaser would be eligible to participate in the 2018 Executive Bonus Plan, which is discussed in further detail below. His target bonus opportunity was equal to 100% of his cash base salary, based upon achievement of pre-established company revenue and contribution margin goals, and strategic goals, all of which are set forth in the discussion below. At the time of adoption of the 2018 Executive Bonus Plan, the Compensation Committee determined that any bonuses approved pursuant to the plan would be paid to executives in cash or in the form of fully vested RSUs, or some combination thereof. During the first quarter of 2019, the Board approved a bonus for Mr. Glaser, pursuant to the 2018 Executive Bonus Plan, equal to \$186,375 or 35.5% of his annual cash base salary, all of which was payable in a number of fully vested RSUs calculated using the closing price of the company's common stock on The Nasdaq Stock Market on February 15, 2019. The incentive bonus payout was lower than in the prior year because, as discussed in more detail below, neither of the financial goals was achieved, although the strategic goals, which comprised 50% of the bonus opportunity, were deemed partially achieved in large part by the Board and Compensation Committee (71% attainment).

Long-Term Equity Award. On December 27, 2018, the Board, upon recommendation of the Compensation Committee, granted to Mr. Glaser a long-term option to purchase 350,000 shares of our common stock at an exercise price per share equal to \$2.14, the closing price of our common stock on the grant date. The Compensation Committee viewed this as the "annual" portion of the equity award, with (i) the 2018 salary replacement option and (ii) the fully vested RSUs awarded in lieu of cash as payment of his 2017 incentive bonus, comprising the rest of his total 2018

equity awards. The 2018 long-term option is scheduled to vest over four years, with 25% vesting on the one-year anniversary of the grant date and 12.5% vesting every six

15

months thereafter, subject to Mr. Glaser's continued employment with us through each such vesting date. The option is exercisable for up to seven years from the grant date, unless earlier terminated, and was granted pursuant to the 2005 Plan.

Mr. Glaser's long-term incentive value for 2018, excluding the salary replacement option and 2017 incentive bonus equity, was lower, in terms of dollar value, than in 2017, and was below the peer median. The Board's goal in awarding this long-term equity was to provide strong incentive for Mr. Glaser to strategically drive the company toward its goals of growth and profitability, resulting in an increased stock price and, thus, higher value for shareholders. The Compensation Committee's view is that Mr. Glaser's annual equity was performance-based, since the long-term option requires an increase in stock price from the grant date in order to provide any value to Mr. Glaser.

The following table shows equity awards granted to Mr. Glaser in 2018, 2017 and 2016 based on the grant date fair value:

Annual Equity Awards			Grants Outside the Annual Equity Award Program (1)		
Performance Options	Time-based Options	Total Annual Equity	Current Year Salary Options	Total Equity Awards	
2018	\$—	\$ 312,690	\$312,690	\$75,000	\$387,690
2017	\$—	\$ 688,520	\$688,520	\$150,000	\$838,520
2016	\$852,000	\$—	\$852,000	\$150,000	\$1,002,000

Also in 2018, Mr. Glaser was awarded 56,477 fully vested RSUs as full payment of his 2017 incentive bonus. As described above, the incentive bonus has historically been paid in cash, however, for cash management purposes, the 2017 incentive bonus awards were paid to executives, including Mr. Glaser, 50% in cash and 50% in the form (1) of fully vested RSUs. The 2018 incentive bonuses were paid 100% in the form of fully vested RSUs, such payout taking place during the first quarter of 2019. Even though paid partially or fully in equity, the Board of Directors does not consider equity awarded in connection with the executive bonus program to be part of an executive's equity compensation.

Stock Ownership Guidelines. While he serves as our chief executive officer, Mr. Glaser is expected to hold shares of our common stock equal to at least ten times his annual base salary. Mr. Glaser continued to meet this stock ownership threshold for fiscal year 2018.

Base Salaries

Base salaries for our named executive officers are determined for each executive based on position, responsibility, experience and competitive market data. Base salaries are adjusted from time to time to recognize various levels of responsibility, promotions, individual performance, market conditions and internal equity issues. Rather than applying a formulaic approach, the Compensation Committee awards base salaries for our named executive officers within the context of our overall merit increase system considering level of responsibility, individual performance, market competitive factors, and the critical role of the executive in our future growth and strategy. The base salaries for our named executive officers were evaluated against data generated by F.W. Cook in its 2016 review. As a result of that assessment and other factors, Messrs. Baker and Parham received base salary increases of 3% and 8%, respectively, effective August 1, 2018. Mr. Pellegrini's base salary was increased from \$400,000 to \$450,000 in connection with his promotion to President of RealNetworks, effective February 1, 2018, and to recognize his increased responsibilities and authority in his new role.

Annual Performance-Based Incentive Bonuses

In April 2018, the Compensation Committee established our 2018 Executive Bonus Plan, which is our performance-based incentive bonus program, in order to motivate and reward an individual's annual contribution to company performance. The Executive Bonus Plan is administered pursuant to the 2005 Plan. The Executive Bonus Plan pays an annual bonus, historically in the form of cash, to executives based on the achievement of pre-established financial and strategic objectives consistent with our internal strategic plan previously established by the Board in consultation with management.

16

Continuing our commitment to conserve cash resources and to include an additional performance component to the bonus program, the Compensation Committee determined that the payouts approved under the 2018 Executive Bonus Plan would be paid 100% in the form of fully vested RSUs. In 2017 and 2016, bonuses were paid 50% in cash and 50% in equity, and in 2015 100% of the bonus was paid in equity. Because incentive bonuses have, for the predominant part of the company's history, been paid only in cash and the primary purpose for payment in equity is cash preservation, the Compensation Committee considers payouts under the incentive bonus program to be part of the cash compensation package for executives. There has been no determination by the Compensation Committee as to what form future payouts under the incentive bonus program will take. Accordingly, for purposes of this Compensation Discussion and Analysis and the compensation tables that follow, we report bonus payouts, whether in cash or in the form of fully vested equity, in the year in which the bonus is earned rather than the year in which it is paid, and we do not consider these bonus equity grants to be part of an executive's equity compensation. Each of our named executive officers was eligible to participate in the 2018 Executive Bonus Plan, except for Mr. Patrizio, who relinquished his executive position at RealNetworks effective March 1, 2018 to become the President and Chief Executive Officer of Napster, in which the company held a 42% interest during 2018. Mr. Glaser had a target bonus opportunity equal to 100% of his annual cash base salary, and each of the other executives had a target bonus opportunity equal to 75% of his annual base salary although Mr. Pellegrini's target bonus opportunity was increased to 100% in connection with his February 2018 promotion. The Compensation Committee reviewed the targets and deemed them appropriate based on internal equity considerations and the desire to emphasize teamwork to achieve the company's performance objectives.

The following elements were applicable to our 2018 Executive Bonus Plan:

- Performance Criteria - The performance criteria used to determine the annual bonuses for the participating named executive officers were revenue and contribution margin by reportable segment. The Compensation Committee's philosophy is to establish performance goals for executives that reflect our strategy of producing financial results that (a) are in the interests of our company and shareholders, (b) have a degree of difficulty that the Compensation Committee considers to be challenging but achievable with significant effort and skill, and (c) require a high level of financial performance in the context of the present state of our business and the annual budget.

Consistent with this strategy, the Compensation Committee established revenue as a performance metric under the 2018 Executive Bonus Plan, representing 25% of the potential bonus, because it was a key element of our 2018 business plan and we consider revenue to be a key driver of our growth and success. For Messrs. Glaser and Baker, the revenue goal was based on total company revenue; for Messrs. Parham and Pellegrini, the revenue goal was based on company revenue excluding the Games business as these executives did not have regular oversight or responsibility for that business.

The Compensation Committee also established contribution margin as a performance metric under the 2018 Executive Bonus Plan, representing 25% of the potential bonus, in order to reward our executives for maintaining fiscal responsibility, continuing our efforts to reduce operating costs, and achieving profitability and therefore, like revenue, aligning the interests of plan participants with those of the company and its shareholders. Please note that contribution margin by reportable segment is a non-GAAP financial measure used by management, beginning in 2016, in reporting financial results and, for 2018, was defined by the company as operating income (loss) plus other income (expense) net, but excluding depreciation and amortization, acquisitions-related intangible asset amortization, stock-based compensation, restructuring and other charges, and lease exit and related charges.

Performance criteria for our named executive officers also included non-financial strategic goals intended to motivate each executive and the executive team as a whole to accomplish specific goals that would drive our growth and strong financial performance. These strategic goals, representing 50% of the potential bonus, included goals that were shared by the full executive team and goals that were specific to individual executives. The shared goals encompassed, in part, driving revenue growth, implementing successful commercial product launches, and achieving budget goals, and the individual goals generally related to leadership, collaboration and teamwork, and contribution to strategic outcome, with some goals tied directly to achievement of certain key performance indicators.

As stated above, Mr. Patrizio did not participate in the company's 2018 Executive Bonus Plan as he transitioned to employment with Napster effective March 1, 2018.

•Performance Targets and Actual Performance - Target performance goals for the financial criteria were set based on objectives in our internal strategic plan for 2018. The strategic plan for 2018 served as the basis for revenue and contribution margin targets under the Executive Bonus Plan. The following table shows the target and actual revenue and contribution margin goals that applied for 2018:

Revenue Goals:	Target	2018 Actual
Company Revenue	\$91.7M	\$69.5M
Company Revenue, excluding Games business	\$61.0M	\$47.8M
Contribution Margin Goals:		
Company Contribution Margin	\$0.9M	(\$16.3M)
Company Contribution Margin, excluding Games business	\$0.9M	(\$12.1M)

Actual performance against the strategic goals set for 2018 was assessed for each executive during the first quarter of 2019. The Compensation Committee determined that the strategic goals, which comprised 50% of total bonus opportunity, were achieved at 71% attainment for Mr. Glaser, 70% for Mr. Baker, 75% for Mr. Parham, and 71% for Mr. Pellegrini. The bonus payouts for all named executive officers was purely formulaic, based upon the achievement level.

•Payout Structure - The overall payout structure ensured that there was no ability for participants in the 2018 Executive Bonus Plan to earn awards greater than target for contribution margin or revenue performance unless revenue or contribution margin performance, respectively, was at least at target, the rationale for which was to emphasize the need for both growth and operational discipline.

The payout mechanics of the 2018 Executive Bonus Plan based on financial metrics were as follows:

Revenue

Attainment	Incentive Payout(1)
<90%	No payout
90% - 100%	50 - 100%
100% - 120%+	100% - 200%

Contribution Margin

Attainment	Incentive Payout(2)
>\$2M below budget	No payout
\$2M below, up to budget	50 - 100%
Budget to >\$2M above	100% - 200%

(1)Payout based on revenue goals was capped at 100% unless the contribution margin reached 100%.

(2)Payout based on contribution margin goals was capped at 100% unless the revenue attainment reached 100%.

Notwithstanding the performance and payout targets established under the 2018 Executive Bonus Plan, the Compensation Committee reserved the right to adjust performance and payout targets based on acquisitions or dispositions of assets and also decrease or eliminate an executive officer's award before it was paid. Executive officers were required to be employed on the date award payments were made in order to be eligible to receive payment under the 2018 Executive Bonus Plan, except in the case of death or disability.

The dollar-equivalent payouts earned for performance under the 2018 Executive Bonus Plan were as follows:

Name	Target % Payout under 2018 Executive Bonus Plan (as a percentage of base salary)	Actual % Payout under 2018 Executive Bonus Plan (as a percentage of base salary)	Actual \$ Payout under 2018 Executive Bonus Plan (1)
Rob Glaser	100%	35.5%	\$186,375
Cary Baker	75%	35%	\$86,406
Michael Parham	75%	37.5%	\$87,305
Max Pellegrini	75% / 100% (2)	35.5%	\$155,314

Payouts were made in the form of fully vested RSUs, with Mr. Glaser being granted 56,477 RSUs, Mr. Baker (1) 26,183 RSUs, Mr. Parham 26,456 RSUs, and Mr. Pellegrini 47,064 RSUs. Dollar values reported are equal to the grant date fair value of the RSUs awarded.

(2) Mr. Pellegrini's target payout was 75% for January and February 2018, and increased to 100% effective March 1, 2018 in connection with his promotion to President of RealNetworks.

Special Cash Bonus Awards

From time to time, we utilize discretionary signing, promotion, retention or other bonus awards as compensation tools that provide incentives for executives to accept employment offers, to reward outstanding performance by executives and to retain key executives. We believe that these bonus awards are consistent with our overall executive compensation philosophy to achieve our recruiting and retention objectives as well as to allow discretion to address the needs of our businesses, which operate in a constantly evolving and highly competitive environment.

Discretionary Bonus. In February 2018, in connection with his promotion to President of RealNetworks, the Compensation Committee awarded a discretionary bonus of \$25,000 to Mr. Pellegrini in recognition of his assumption of more extensive responsibility and oversight of the company's various businesses.

The Role of Long-Term Equity Awards

Because the value of an equity award is dependent on our stock price, our equity compensation program is designed to align executive compensation with the interests of our shareholders and also with the long-term performance of RealNetworks. Equity compensation awards are also an important employee retention tool as they generally vest over a multi-year period, subject to continued service by the award recipient.

Consistent with the past several years, awards of stock options served as our primary equity vehicle for the 2018 executive compensation program. The rationale for this is to motivate executives to focus on increasing shareholder value.

2018 Option Awards. On March 7, 2018, in connection with his promotion to President of RealNetworks, the Compensation Committee granted a time-based stock option to Mr. Pellegrini to acquire 500,000 shares of common stock with a per share exercise price equal to \$3.43, the closing price of a share of our common stock on the grant date. The option is scheduled to vest over four years, with 12.5% vesting on the date that is six months after the grant date, subject to continued employment, then as to an additional 12.5% at the expiration of each successive six months of continued employment. This award is larger than a typical annual award for the role and includes an inducement to take on the enhanced leadership role, which is not expected to be continued at the same level in the future. The Compensation Committee believed that the award was appropriate as part of the compensation package to recognize Mr. Pellegrini's promotion and increased responsibilities.

On July 26, 2018 the Compensation Committee granted a time-based stock option to each of Mr. Baker and Mr. Parham to acquire 200,000 shares and 150,000 shares, respectively, of common stock with a per share exercise price equal to \$3.54, the closing price of a share of our common stock on the grant date. Each option is scheduled to vest over four years, with 12.5% vesting on the six-month anniversary of the grant date, subject to continued employment, then as to an additional 12.5% at the expiration of each successive six months of continued employment. The Compensation Committee believed that these awards were appropriate as part of the compensation package necessary to retain and motivate Mr. Baker and Mr. Parham.

19

Although Mr. Patrizio received no new equity awards in 2018, in connection with his transition from RealNetworks to Napster, the Compensation Committee approved the acceleration of vesting as of February 28, 2018 of an outstanding option as to 38,281 shares. The incremental value of this acceleration, calculated pursuant to generally accepted accounting principles, was \$32,000.

See the section entitled "Chief Executive Officer Compensation" for a discussion of Mr. Glaser's 2018 option awards. As discussed, he was granted an option valued at \$75,000 in 2018 as a supplement to his cash salary, plus a long-term option that is scheduled to vest over four years. The option granted in December 2018 reflected the "annual" long-term incentive portion of Mr. Glaser's 2018 compensation.

2018 Restricted Stock Units Awards. In February 2018, each of our named executive officers was granted a number of fully vested RSUs as partial payment of the incentive bonuses approved pursuant to the 2017 Executive Bonus Plan. These RSU awards were solely related to performance by the executives in 2017 and, accordingly, the cash value of these awards was reported as compensation in the 2017 Compensation Discussion and Analysis and related compensation tables. Because these awards were granted in 2018, although for service in 2017, they are reported in the "2018 Grants of Plan-Based Awards" table that follows this discussion. However, for purposes of describing and analyzing 2018 compensation, these awards are not included; instead, this 2018 Compensation Discussion and Analysis includes a discussion of the payouts approved pursuant to the 2018 Executive Bonus Plan even though the RSUs granted that comprise these payouts were made in February of 2019. See the section under this Compensation Discussion and Analysis entitled "2018 Compensation — Annual Performance-Based Incentive Bonuses."

Benefits, Perquisites, Severance and Certain Benefits in Connection with a Change in Control

Benefits. Benefits are part of a competitive compensation package to attract and retain employees, including executives. Our executive officers are eligible to participate in all of the benefit programs offered to employees in the geographic region in which their customary employment is based. These programs include medical, dental, vision, group life and disability insurance, a medical reimbursement plan, a transportation subsidy.

Our employees, including our named executive officers, are also eligible to participate in our 401(k) savings plan, a tax-qualified retirement savings plan pursuant to which all U.S.-based employees are able to contribute the lesser of up to 50% of their cash compensation (including base salary, bonuses, commissions and overtime pay) or the limit prescribed by the Internal Revenue Service to the plan on a before-tax basis. RealNetworks will match 50% of the first 3% of pay that is contributed to the 401(k) savings plan. All employee contributions to the 401(k) savings plan are fully vested upon contribution. Matching contributions by RealNetworks become fully vested after three years, or earlier upon attainment of retirement age (as defined by the plan) or death or disability while still employed by RealNetworks. Our executive officers are eligible to participate in the benefit programs described above on the same basis as our other employees.

Perquisites. We may offer other benefits to our employees and executive officers from time to time, including relocation packages, which benefits are typically offered to help us compete more effectively to attract or retain an executive officer. When hiring new executives, we may offer relocation benefits that are typically subject to prorated repayment if the executive voluntarily leaves his or her employment with RealNetworks other than for good reason (as defined in the offer letter) within 12 months of his or her start date. In 2018, for Mr. Glaser, we imputed \$6,443 in costs associated with the occupancy of office space and parking in our headquarters building by Mr. Glaser's personal assistant, and for Mr. Pellegrini, we reimbursed \$2,749 of travel benefits in accordance with a provision in his offer letter, which such benefits were negotiated at the time of his hire. All of these amounts have been reported as taxable income to the respective executive and reported in the "Summary Compensation Table" that follows this discussion. Relocation benefits are subject to prorated repayment if the executive voluntarily leaves his employment with RealNetworks other than for good reason (as defined in the offer letter) within 12 months of his relocation. There were no other special benefits or perquisites provided to any other named executive officer in 2018.

Severance Benefits. We have entered into arrangements with each of our named executive officers pursuant to which the executive may become entitled to receive severance benefits upon a qualifying termination of employment. Additionally, Mr. Glaser's arrangements provide that if his employment terminates, but Mr. Glaser remains as Chairman of the Board, then he will remain eligible to participate in our group health plans or we may provide him with an annual cash payment equivalent to our premium cost for his participation in our group health plan. The terms of the severance benefits that each named executive

officer is eligible to receive were negotiated with the executive at the time of his or her hire. The Compensation Committee believes that these severance benefits are appropriate in order to provide competitive compensation and enable the company to recruit and retain talented executives.

Severance and Change in Control Benefits. We entered into a severance agreement with Mr. Glaser pursuant to which he is eligible to receive certain severance benefits upon a qualifying termination in connection with a change in control. With all of our other named executive officers, we have agreed to “double-trigger” change in control and severance arrangements (the “CIC Agreements”). These agreements were entered into in order to encourage the retention and commitment of these executives during times of leadership transition and restructuring activities. Each of our executives has entered into a CIC Agreement in connection with his or her hire, or promotion. The Compensation Committee may request F.W. Cook to review peer practices and market data with respect to change in control and severance practices. The Compensation Committee last reviewed our change in control severance practices as compared to our peers, including the results of a study of peer practices compiled by F.W. Cook in August 2012 and determined that our practices in this regard were in line with those of our peers.

Our CIC Agreements provide for severance benefits if the employment of the executive is terminated without "cause" or such executive resigns for "good reason" (as such terms are defined in the CIC Agreement) during the period beginning three months prior to a change in control of the company and ending 12 months after the change in control. In addition, under our equity incentive plans, our executive officers may be eligible to receive certain benefits with respect to outstanding awards granted under our equity incentive plans in the event of a change in control of RealNetworks. A change in control of a corporation is often accompanied by changes in the corporate culture and job losses due to redundancy, especially at the executive levels. If a change in control of RealNetworks were under consideration, we expect that our executives could be faced with personal uncertainties and distractions about how the transaction may affect their continued employment with us. By granting awards under our equity incentive plans that include change in control benefits before any such transaction is contemplated, we hope to focus our executive's full attention and dedication to our shareholders' best interests in the event of a threatened or pending change in control, and to encourage the executive to remain employed by RealNetworks through the completion of any such transaction. The severance and change in control arrangements are described in further detail in the section below entitled, "2018 Potential Payments Upon Termination of Employment of Change-in-Control."

Tax, Accounting, and Governance Considerations

Deductibility of Executive Compensation. Section 162(m) of the Internal Revenue Code of 1986 generally limits the federal corporate income tax deduction for compensation paid by a public company to its chief executive officer and certain other executive officers to \$1 million in the year the compensation becomes taxable to the executive, unless the compensation is “performance-based compensation” or qualifies under certain other exceptions.

The Tax Cuts and Jobs Act (the "Act"), which was enacted on December 22, 2017, includes a number of significant changes to Section 162(m), such as the repeal of the qualified performance-based compensation exemption and the Act broadens the application of the deduction limit to additional executive officers who previously were exempt from such limit. As a result of these changes, except as otherwise provided in the transition relief provisions of the Act, compensation paid to any of our covered executives generally will not be deductible in 2018 or future years, to the extent that it exceeds \$1 million.

Our Compensation Committee seeks to balance its objective of ensuring an effective compensation package with the need to maximize the deductibility of executive compensation, and intends to seek to qualify executive compensation for deductibility under Section 162(m) to the extent consistent with the best interests of RealNetworks. However, due to the scope and application of 162(m) under the Act, we cannot guarantee that any compensation in excess of \$1 million paid to our covered executives after 2017 will be or will remain exempt from Section 162(m).

Accounting for Stock-Based Compensation. We account for stock-based compensation in accordance with the requirements of Accounting Standards Codification Topic 718, Compensation - Stock Compensation. Under the fair value provisions of this statement, stock-based compensation cost is measured at the grant date based on the fair value of the award.

Compensation Risk Assessment. Our Compensation Committee has reviewed our compensation policies and believes that our policies do not encourage excessive or inappropriate risk taking and that the level of risk that they do encourage is not reasonably likely to have a material adverse effect on the company. As part of its assessment, the

Compensation Committee

21

considered, among other factors, the allocation of compensation among base salary and short- and long-term compensation, our approach to establishing company-wide and individual financial, divisional and other performance targets, our bonus structure of payouts and the nature of our key performance metrics. We believe these practices encourage our employees to focus on sustained long-term growth, which we believe will ultimately contribute to the creation of shareholder value.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis for fiscal year 2018 with RealNetworks' management. Based on this review and discussion, the Compensation Committee recommended to our Board of Directors that the Compensation Discussion and Analysis be included in RealNetworks' annual report on Form 10-K and proxy statement relating to the 2019 annual meeting of shareholders.

- For Mr. Glaser, as discussed in further detail in the Compensation Discussion and Analysis in the section entitled “2018 Compensation — Chief Executive Officer Compensation,” beginning in 2018, the Compensation Committee approved a change in allocation of cash salary versus salary replacement option from \$450,000 in cash with a salary replacement option valued at \$150,000, to \$525,000 in cash with a salary replacement option valued at \$75,000, but remaining consistent with prior years with total base salary value of \$600,000. For Mr. Baker and Mr. Parham, the 2018 amount reflects an August 1, 2018 salary increase of 3% and 8% respectively. For Mr. Pellegrini, the 2018 amount reflects a salary increase from \$400,000 to \$450,000 in connection with his February 1, 2018 promotion. For Mr. Patrizio, the 2018 reflects the portion of his 2018 annual base salary of \$400,000 that was earned from January 1, 2018 through the termination of his employment with RealNetworks effective March 1, 2018.
- For Mr. Pellegrini, the 2018 bonus amount represents a discretionary bonus awarded by the Compensation Committee in connection with his February 1, 2018 promotion to President of RealNetworks. The amounts reported reflect the aggregate grant date fair value, excluding the effect of estimated forfeitures, of awards granted or modified in the year shown pursuant to our 2005 Plan, determined in accordance with financial accounting rules (FASB ASC Topic 718), rather than an amount paid to or realized by the executive officer. For a discussion of valuation assumptions for these awards, see Note 1 and Note 13 to our Notes to Consolidated Financial Statements included in our annual report on Form 10-K for the most recently completed fiscal year. The amounts reported represent incentive bonus compensation that is based on performance in the year shown. This performance-based incentive bonus compensation is discussed in further detail in the Compensation Discussion and Analysis in the section entitled “2018 Compensation — Annual Performance-Based Incentive Bonuses.” The bonuses determined to be payable pursuant to the 2018 Executive Bonus Plan were paid, in 2019, 100% in the form of fully vested RSUs, with Mr. Glaser being granted 56,477 shares, Mr. Baker 26,183 shares, Mr. Parham 26,456 shares and Mr. Pellegrini 47,064 shares pursuant to fully vested RSUs. The bonuses paid in the form of fully vested RSUs were treated as stock-based compensation pursuant to Accounting Standards Codification Topic 718, Compensation - Stock Compensation. Bonus payouts pursuant to the 2017 Executive Bonus Plan were paid 50% in cash and 50% in the form of fully vested RSUs during the first quarter of 2018, and bonus payouts pursuant to the 2016 Executive Bonus Plan were also paid 50% in cash and 50% in the form of fully vested RSUs during the first quarter of 2017.
- All other compensation generally consists of RealNetworks’ 401(k) company match of up to \$4,125 and life insurance premiums paid by RealNetworks for the benefit of the named executive officer. For Mr. Glaser, however, all other compensation also includes \$6,443 for office space and parking for Mr. Glaser’s personal assistant. For Mr. Pellegrini, all other compensation also includes \$2,749 for the reimbursement of personal travel expenses pursuant to the terms of his offer letter as described in the Compensation Discussion and Analysis in the section entitled “2018 Compensation - Perquisites.”
- Mr. Patrizio left RealNetworks effective March 1, 2018 in conjunction with being named President and Chief Executive Officer of Rhapsody International, Inc., d/b/a Napster, which was an affiliate of RealNetworks during 2018. RealNetworks acquired an additional interest in Napster in January 2019, bringing its aggregate interest to approximately 84% of Napster's outstanding equity.

CEO Pay Ratio

For 2018:

The annual total compensation of the employee identified at the median of our company (other than our CEO), was \$57,383; and

The annual total compensation of our CEO was \$1,106,878.

Based on this information, for 2018, the ratio of the annual total compensation of Mr. Glaser, our CEO, to the median of the annual total compensation of all employees was estimated to be 19 to 1.

This pay ratio is a reasonable estimate calculated in a manner consistent with SEC rules based on our payroll and employment records and the methodology described below. The SEC rules for identifying the median compensated employee and calculating the pay ratio based on that employee’s annual total compensation allow companies to adopt a

variety of methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their compensation practices. As such, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies may have different employment and compensation practices and may utilize different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios.

For our 2018 ratio, we used the median employee identified pursuant to our 2017 identification process, as we believe the changes to our employee population and compensation have not significantly impacted our ratio. For 2017, to identify the median

23

of the annual total compensation of all our employees, as well as to determine the annual total compensation of the “median employee,” the methodology and the material assumptions, adjustments, and estimates that we used were as follows:

- We determined that, as of November 30, 2017, our employee population consisted of approximately 480 individuals globally. We selected November 30, which is within the last three months of 2017, as the date upon which we would identify the “median employee,” because it allowed us to make such identification in a reasonably efficient and economical manner given the global scope of our operations.
- We included all of our full-time, part-time, and temporary employees globally. The compensation of all newly hired permanent employees was annualized based on the compensation received during this period.
- Earnings of our employees outside the U.S. were converted to U.S. dollars using the currency exchange rates applicable on November 30, 2017. We did not make any cost of living adjustments.
- To identify the “median employee” from our employee population, we collected total cash compensation for each employee, including annual base salary and bonus paid during the period, as applicable, for 2017.

(1) The amounts reported in these columns represent the threshold, target and maximum amounts of annual performance-based incentive bonus compensation that might have been paid to each named executive officer for 2018 performance. The actual payouts approved for 2018 performance are shown in the “Non-Equity Incentive Plan Compensation” column of the “Summary Compensation Table.” These awards are described in further detail in the Compensation Discussion and Analysis in the section entitled “2018 Compensation — Annual Performance-Based Incentive Bonuses.” The bonus payouts approved pursuant to the 2018 Executive Bonus Plan were paid, during the

first quarter of 2019, 100% in the form of fully vested RSUs.

- (2) The number of securities reported in this column represent restricted stock units or nonqualified stock options granted under the 2005 Plan and are described in further detail above in the “Compensation Discussion and Analysis” and below in the “Outstanding Equity Awards at December 31, 2018” table. The per share exercise price of the stock options is equal to the closing price of a share of RealNetworks’ common stock on the date of grant.

- (3) The dollar amounts reported in this column reflect the aggregate grant date fair value, excluding the effect of estimated forfeitures, of the awards granted in 2018 pursuant to the 2005 Plan, determined in accordance with financial accounting rules (FASB ASC Topic 718) rather than an amount paid to or realized by the executive officer. For a discussion of valuation assumptions, see Note 1 and Note 13 to our Notes to Consolidated Financial Statements included in our annual report on Form 10-K for the most recently completed fiscal year. The option exercise price has not been deducted from the amounts indicated above. Regardless of the value placed on a stock option on the grant date, the actual value of the option will depend on the market value of RealNetworks’ common stock at such date in the future when the option is exercised. The proceeds to be paid to the individual following the exercise of the option do not include the option exercise price.

- (4) The option granted to Mr. Glaser on January 31, 2018, having a grant date fair value of \$75,000, represents his annual salary replacement option, which vests monthly over the fiscal year and which is described in more detail in the section of the Compensation Discussion and Analysis entitled “2018 Compensation — Chief Executive Officer Compensation — Salary Options.” The option granted to Mr. Pellegrini on March 7, 2018 was in connection with his promotion and is scheduled to vest over four years, with 12.5% of the option vesting on each six-month anniversary of the grant date. The options granted to Mr. Baker and Mr. Parham on July 26, 2018 are scheduled to vest over four years, with 12.5% of the options vesting on each six-month anniversary of the grant date.

(5) The stock awards reported for all executives represent fully vested restricted stock units that were granted in lieu of cash as payout pursuant to the 2017 Executive Bonus Plan. Each of these share-based payments is described in more detail in the section of the Compensation Discussion and Analysis entitled “2018 Compensation — Annual Performance-Based Incentive Bonuses.”

For better understanding of this table, we have included an additional column showing the date on which the stock option grant commenced vesting, subject to (a) continuation of employment (or service) with the company (1) through the applicable vesting dates and (b) applicable performance conditions, if any, as indicated in footnotes (2) through (11) below.

(2) The award was vested in full on the grant date.

Options vested monthly over the fiscal year in which the option is granted, subject to continued employment with the company through the applicable vesting dates, and were fully vested on December 31 of such year.

(4) Options vest at the rate of 12.5% on the six-month anniversary of the vesting commencement date and 12.5% every six months thereafter, such that the award becomes fully vested on the four-year anniversary of the vesting commencement date subject to continued employment with the company through the applicable vesting dates.

(5) The option becomes eligible to vest and exercisable only in the event of attainment of certain target total shareholder return objectives within three years of the grant date. Upon achievement of such total shareholder return, or TSR, objectives, the option vests in equal monthly installments over four years from the grant date, with retroactive vesting upon achievement of the TSR objectives, subject to continued service to the company through the applicable vesting dates.

(6) Pursuant to the terms of the 2016 shareholder-approved option exchange program, the option is now fully vested.

(7) Options vest at the rate of 25% on the one-year anniversary of the vesting commencement date and 12.5% every six months thereafter, subject to the recipient's continued service to the company through the applicable vesting dates, such that the award becomes fully vested on the four-year anniversary of the vesting commencement date.

(8) Pursuant to the terms of the 2016 shareholder-approved option exchange program, the option vested as to 31,250 shares on each of 6/06/17 and 12/06/17, vested as to 12,500 shares on each of 6/06/18 and 12/06/18, and vests as to 12,500 on 6/06/19, subject to the recipient's continued service to the company through the applicable vesting dates.

(9) Option vests at the rate of 25% on the one-year anniversary of the vesting commencement date and 12.5% every six months thereafter; in connection with his transition from RealNetworks to Napster, the Compensation Committee approved the acceleration of vesting as to 38,281 shares as of February 28, 2018, and the extension of the post-employment exercise period until February 28, 2021.

Mr. Patrizio departed from RealNetworks as of March 1, 2018, when he was named President and Chief Executive Officer of Rhapsody International, Inc., d/b/a Napster, an affiliate of ours.

Benefits Not In Connection With A Change in Control

Pursuant to his CEO severance agreement, in the event that, other than during the period beginning three months prior to a change in control of the company and ending 12 months after the change in control, either his employment is terminated without cause or he resigns for good reason, Mr. Glaser is eligible to receive (i) a lump sum payment equal to 200% of the sum of his then-current annual cash base salary and his then-current target annual bonus, (ii) a payment equal to the amount of bonus that he otherwise would have received pursuant to the bonus plan in which he participated at the time of his termination

based on actual performance, had he remained employed through the end of the performance period, and (iii) up to 18 months of COBRA coverage. These severance benefits are subject to Mr. Glaser entering into a separation agreement and release of claims in favor of the company and his compliance with non-disparagement, no-hire, non-solicitation and non-competition covenants for a period of 24 months following the termination of his employment.

Pursuant to their offer letters, Mr. Baker and Mr. Pellegrini are each eligible to receive 12 months of salary (in lump sum or monthly payments as determined by the company) and prorated bonus in lump sum, plus an equivalent period of COBRA coverage, in the event that his employment is terminated without cause other than in connection with a change in control event. For each of Mr. Pellegrini and Mr. Baker, the prorated bonus severance would be in an amount equal to actual performance (but in any case not less than 37.5% of base salary in the case of Mr. Pellegrini and 30.0% in the case of Mr. Baker) prorated to reflect his period of employment during the year in which the termination of his employment occurs.

Pursuant to his offer letter, Mr. Parham is eligible to receive 12 months of salary plus 12 months of COBRA coverage in the event that his employment is terminated without cause other than in connection with a change in control event. Pursuant to his RealNetworks offer letter (which terminated in connection with his transition to employment with Napster), Mr. Patrizio was eligible to receive 18 months of salary and prorated bonus (in lump sum or monthly payments as determined by the company), plus 12 months of COBRA coverage, in the event that, prior to the three-year anniversary of his start date, his employment was terminated without cause other than in connection with a change in control event; subsequent to the three-year anniversary of his start date, however, he was eligible to receive 12 months of salary and prorated bonus, plus an equivalent period of COBRA coverage.

The above severance benefits are subject to the individual entering into a customary separation agreement and release of claims in favor of the company.

In addition, each of Messrs. Baker's and Pellegrini's, and, formerly, Mr. Patrizio's, offer letters provides that upon a termination without cause other than in connection with a change in control, the executive will receive one year of accelerated vesting of any unvested, non-performance based stock options. For Mr. Parham, certain equity awards that he holds provide for partial vesting acceleration upon his termination by us other than for cause. Specifically, for awards granted prior to November 30, 2012, if we terminate his employment for any reason other than for cause, and any of his outstanding stock options or RSUs are not fully vested, the next vesting installment of such stock options or RSUs will vest on a pro rata basis for the portion of the year elapsed since the date on which the vesting of the options or RSUs commenced or the last anniversary thereof, expressed in full months, provided that the executive executes and delivers a settlement agreement and release satisfactory to us on or before the date of such termination.

Mr. Glaser's severance agreement provides that, if his employment terminates but Mr. Glaser remains as Chairman of the Board, then he will remain eligible to participate in our group health plans or we may provide him with an annual cash payment equivalent to our premium cost for his participation in our group health plan.

Benefits In Connection With A Change in Control

The CEO severance agreement provides that if, during the period beginning three months prior to a change in control of the company and ending 12 months after the change in control, Mr. Glaser's employment is terminated without cause or he resigns for good reason, then he will receive (i) a lump sum payment equal to 200% of the sum of his then-current annual cash base salary and his then-current target annual bonus, (ii) a lump sum payment equal to his then-current target bonus, prorated to reflect his period of employment during the applicable performance period, (iii) full acceleration of the vesting of any unvested, non-performance-based equity awards, and (iv) up to 18 months of COBRA coverage. These severance benefits are subject to Mr. Glaser entering into a release of claims in favor of the company and his compliance with non-disparagement, no-hire, non-solicitation and non-competition covenants for a period of 24 months following the termination of his employment.

Mr. Glaser's performance-based options that were granted to him in December 2015 and 2016 provide that in the event of a change in control, as defined in Mr. Glaser's severance agreement, while the performance options are outstanding but prior to the achievement of the relevant TSR Goal, if the TSR Goal otherwise would be deemed achieved as measured by substituting for the trailing 90-day average stock price, the fair market value of our common stock immediately prior to the

change in control (as adjusted to reflect any dividends), then the TSR Goal will be deemed achieved as of such date. If a change in control had occurred on December 31, 2017, and the price per share of our common stock was \$3.42, which was the closing market price on December 31, 2017, none of the shares subject to any of the performance-based options would have become vested.

The CIC Agreements between RealNetworks and each of our named executive officers, except Mr. Glaser, provide that the executive would receive certain payments in the event of his or her termination of employment under certain circumstances. Specifically, in the case of Messrs. Baker or Pellegrini, and, formerly, Mr. Patrizio, if his employment is terminated without cause or he resigns for good reason and the termination occurs during the period beginning three months prior to a change in control of the company and ending 12 months after the change in control, then he is entitled to receive 150% of his base salary, 150% of his prorated bonus, 12 months of acceleration of equity awards, extension of post-termination exercisability period of outstanding vested options for up to 12 months, and up to 12 months of reimbursement of COBRA coverage (or up to 18 months of COBRA in the case of Mr. Patrizio). In the case of Mr. Parham, if his employment is terminated without cause or he resigns for good reason and the termination occurs during the period beginning three months prior to a change in control of the company and ending 12 months after the change in control, then he is entitled to receive 125% of his base salary, 125% of his target bonus or his prorated target bonus for any partial bonus period, full acceleration of equity awards granted after February 1, 2010, extension of post-termination exercisability period of outstanding vested options for up to 12 months, and up to 18 months of reimbursement of COBRA coverage. In the case of performance-based RSUs, the termination without cause or resignation for good reason of a named executive officer would result in full acceleration of such award. These severance benefits are subject to (1) the individual entering into a customary separation agreement and release of claims in favor of the company, (2) a non disparagement obligation, and (3) non solicitation and no hire obligations for a period of 12 months (for Mr. Parham) or 18 months (for Messrs. Baker, Patrizio and Pellegrini) following employment termination.

Benefits Upon Death and Disability

If the employment of a named executive officer had terminated on December 31, 2018 due to death or disability, the executive or his beneficiary would have been entitled to receive the portion of the performance-based cash incentive or discretionary bonus compensation earned in 2018 but not paid as of December 31, 2018.

If the employment of a named executive officer terminates due to his death, any stock options or RSUs that are unvested as of the date of his death will fully vest on such date and any options may be exercised by his estate or legal representative for a period of one year following such date, but not later than the expiration date of such stock options. If the employment of a named executive officer terminates due to disability, and any of his outstanding stock options or RSUs are not fully vested, the next vesting installment of such stock options or RSUs will vest on a pro rata basis for the portion of the year elapsed since the date on which the vesting of the options or RSUs commenced or the last anniversary thereof, expressed in full months. In the case of performance-based RSUs, the death or disability of a named executive officer would result in full acceleration of such award.

The executive must first provide the company with written notice within 90 days of the event that the executive believes constitutes “Good Reason” specifically identifying the acts or omissions constituting the grounds for Good Reason and a reasonable cure period of not less than 30 days following the date of such notice.

Compensation Committee Interlocks and Insider Participation

In 2018, the Compensation Committee was composed of Ms. Roberts, Ms. Lepore and Mr. Trempont for the entire year. In 2018, no executive officer of RealNetworks served as a member of the board of directors or compensation committee of any entity that had one or more executive officers serving as a member of RealNetworks' Board of Directors or Compensation Committee. In addition, no interlocking relationship existed between any member of our Compensation Committee and any member of the compensation committee of any other company.

Compensation of Non-Employee Directors

In 2018, each director who was not an employee of RealNetworks was paid \$8,750 per quarter for his or her services as a director. Non-employee directors were also paid (i) \$1,000 for participation in each meeting of the Board, (ii) \$1,000 for participation in each meeting of a Board committee, including our standing committees and certain special committees, and (iii) \$5,000 per quarter for serving as chairperson of the Audit Committee, \$3,125 per quarter for serving as chairperson of the Compensation Committee and \$2,500 per quarter for serving as chairperson of the Nominating and Corporate Governance Committee. In addition, the lead independent director was paid an additional retainer of \$5,000 per quarter. Directors were also reimbursed for their reasonable expenses incurred in attending Board of Directors or committee meetings.

Pursuant to the RealNetworks, Inc. 2007 Director Compensation Stock Plan, a sub-plan administered under our 2005 Plan, a non-employee director may make an irrevocable election prior to the commencement of each plan year to receive all or a portion of the cash compensation payable to such director for the coming year in shares of our common stock. No director elected to receive shares in lieu of cash compensation for the most recently ended fiscal year. Our 2005 Plan provides that subject to any required adjustments under the terms of the 2005 Plan, during any twelve-month period, a non-employee director may be granted options or stock appreciation rights for up to a maximum of 650,000 shares of RealNetworks common stock, and up to a maximum of an additional 300,000 shares of RealNetworks common stock with respect to restricted stock, performance awards, restricted stock units, and other share-based awards denominated in shares under the 2005 Plan. In addition, a non-employee director may receive up to \$1 million during any twelve-month period with respect to performance awards that are denominated in cash under the 2005 Plan.

Non-employee directors receive equity awards under the 2005 Plan on the third business day following each annual meeting of shareholders. The 2018 non-employee director equity awards consisted of (i) nonqualified stock options to purchase 15,000 shares of our common stock that, once vested, will remain exercisable for three years following the director's separation from the Board or until the option's earlier expiration, and (ii) RSUs valued at \$45,000 on the grant date. These options and RSUs vest monthly in equal increments over a 12-month period following the award's grant date assuming continued service as a director, with the RSU share distribution date occurring on the first anniversary of the grant date. Non-employee directors may make an annual irrevocable election to defer the RSU share distribution date to a date that is (i) five years following the RSU grant date, or (ii) concurrent with the Director's separation from the Board. Our Board has adopted stock ownership guidelines applicable to non-employee directors designed to achieve long-term alignment between non-employee directors and

our shareholders. Under these guidelines, each non-employee director is required to own a number of shares of our common stock equal to three times such director's annual retainer fee within five years of service on the Board.

On October 4, 2018, our non-employee directors were each granted RSUs covering 16,403 shares and an option to purchase 15,000 shares of our common stock having an exercise price of \$2.76 per share, which RSUs and options vest as described above.

On July 28, 2016, our Board approved revisions to the company's Outside Director Compensation program to provide for compensation, in the form of RealNetworks options and restricted stock units awards, to any nonemployee director of RealNetworks who is appointed by the RealNetworks Board to serve, on behalf of RealNetworks and the Board, on the board of directors of an entity that is an affiliate or investee of RealNetworks. The annual equity awards to be granted as compensation for such RealNetworks-designated service, would be equal to the annual equity awards granted to nonemployee directors of RealNetworks as described above. Pursuant to these revisions, on October 22, 2018, the Board approved equity awards to compensate Mr. Slade for his service as a RealNetworks-designated director on the board of Rhapsody International, Inc., d/b/a Napster. RealNetworks owned approximately 42% of the issued and outstanding stock of Rhapsody International on December 31, 2018 and, accordingly, it is considered an affiliate of ours. The equity awards served as compensation to Mr. Slade for Rhapsody board service for the one-year period following October 22, 2018, and are reflected in the 2018 Director Compensation Table below and more specifically described in the footnotes that accompany the table.

While Mr. Glaser serves as our Chief Executive Officer, he will not receive compensation as a director. See the "Summary Compensation Table" for Mr. Glaser's compensation for services provided as Chief Executive Officer in 2018.
