Edgar Filing: ENERGY POWER SYSTEMS LTD - Form 6-K

Energy Power Reports Third Quarter Results

Energy Power Systems Limited (AMEX: EGY & Frankfurt EPW) (www.epsx.com)

("Energy

Power" or the "Company") announces that it has released unaudited consolidated financial statements for the nine-month period ended March 31, 2002 stated in Canadian dollars. These statements reflect the following activities of Energy Power operating as an Oil & Gas Division and it's wholly-owned subsidiary operating as an Engineering & Offshore Division:

- consolidated revenues of \$16.7 million for the nine-month period ended March 31, 2002 versus \$15.2 million for the nine month period ending March 31 2001;
- consolidated gross profits of \$2.2 million for the nine-month period ended March 31, 2002 versus \$1.5 million for the nine month period ending March 31, 2001;
- consolidated EBITDA of \$0.7 million for the nine-month period ended March 31, 2002 versus (\$0.1) million for the nine month period ending March 31, 2001;
- consolidated loss from continuing operations of \$0.1 million for the nine-month period ended March 31, 2002 versus a consolidated net loss of \$0.7 million for the nine month period ending March 31, 2001; and
- consolidated basic loss per share from continuing operations of 1 cent per share for the nine-month period ending March 31, 2002 versus 17 cents loss per share for the nine month period ending March 31, 2001.

Third quarter results for the nine-month period ending March 31, 2002 showed revenues increasing 10% to \$16.7 million versus \$15.2 million for the same period in the previous year. Growth was derived by revenue gains in the Company's Engineering & Offshore Division further bolstered by increased revenue from the Company's Oil & Gas Division.

Consolidated gross profit for the nine-month period ending March 31, 2002 increased 47% to \$2.2 million from \$1.5 million in 2001. Approximately \$0.7 million of the increase was due to an improvement in profit margins during the period from the Company's Engineering & Offshore Division as well as increased revenue of \$1.2 million. During the nine-month period ending March 31, 2002 gross profit margins from the Engineering & Offshore Division were 13% compared to 10% for the nine-month period ending the previous year. The remainder of the increase is related to incremental gross profit derived from the Company's Oil & Gas Division.

Consolidated EBITDA of \$0.7 million for the nine-month period ending March 31, 2002 was \$0.8 million higher than a consolidated EBITDA of (\$0.1) million reported for the previous nine-month period. The \$0.8 million increase in EBITDA during the period was due in part to improved margins by the Company's Engineering & Offshore division and the increased cash flow from the Company's Oil & Gas division.

Consolidated loss from continuing operations of \$0.1 million for the nine-month period ending March 31, 2002 improved by \$0.6 million or 86% over the consolidated loss from continuing operations of \$0.7 million reported for the previous nine-month period. The loss was due to a \$0.2 million write down of assets held for sale. Before the non-cash write down income from continuing operations was \$0.1 million. The above reported earnings from continuing operations for the nine-month period ending March 31, 2002 resulted in a loss

Edgar Filing: ENERGY POWER SYSTEMS LTD - Form 6-K

per share from continuing operations of 1 cent per share. Losses from continuing operations of 17 cents per share were reported for the previous nine-month period.

Losses incurred from discontinued operations derive from the Company's discontinued Power Division. Losses from discontinued operations were \$0.1 million for the nine-month period ending March 31, 2002 versus (\$0.2) million for the nine-month period ending March 31, 2001.

As a result of the foregoing, net losses improved by \$0.4 million or 60% to \$0.2 million for the nine-month period ending March 31, 2002 compared to net losses of \$0.5 million during the previous fiscal period. The loss was due to a \$0.2 million write down of assets held for sale. Before the non-cash write down income from continuing operations was \$0.1 million. Net losses per share were 2 cents per share for the nine-month period ending March 31, 2002 and net losses of 13 cents per share were reported for the previous nine-month period.

About Energy Power Systems Limited

Energy Power is an integrated energy source and service company operating as an Engineering and Offshore Division and an Oil & Gas Division. There are approximately 10.6 million shares issued and outstanding in the capital of the Company.
