CareGeneration, Inc. (CareGeneration , CGI) is a recently formed Nevada Corporation to take advantage of the opportunities that lie in the retail pharmacy business via direct mail order distribution of prescriptions and related products/supplies. FCG tech products, PS contacts, and Ron Kelly's imagination and drive helped identify this market at the retail level of healthcare. Today, it is a primary national business focus, a critical political focus, a pharmaceutical industry focus, and a natural fit within the existing businesses in our domain. Very natural business relationships, such as Hispanic American and other minority groups, all add credence and support to the project. The mail order focus is being planned and energized at this time as a major American improvement in overall healthcare.

Pharmaceutical Solutions Group

Pharmaceutical Solutions Group (PS or Pharma Solutions), is a newly formed unit of CareGeneration Corporation a Nevada Corporation. Pharma Solutions was formed when CGI acquired the licenses, client lists, receivables and goodwill from Kelly Company World Group, Inc., a Delaware corporation (KCWG), as well as and the rights to operate wholesale and retail (closed door) prescription drug pharmacies, formerly owned by KCWG.

The Merger Transaction

We have attached the merger agreement to this document as Appendix A. Please read the merger agreement. It is the legal document that governs the merger.

Effect and Timing of the Merger

Assuming satisfaction or waiver of all conditions to the merger, 20 days after the first mailing date of this Information Statement the Company will merge Target with its wholly owned subsidiary, Pharma Tech Solutions, Inc., the result of which Target will receive 42,500,000 of the Company's common stock for all of the shares of the Target common stock and all of the Target preferred stock. Each warrant and convertible note of the Target, outstanding and unexercised as of the effective time of the merger and each option to purchase common stock of the Target then outstanding will be assumed by the Subsidiary.

CareDecision's Reasons for the Merger

The Board believes that this transaction couples CareDecision's patents-pending WiFi handheld technology and installed WiFi hotel e-business networks, with the wireless PC and PDA hardware distribution, wholesale and mail order retail drug and medical supply distribution, physician to-fulfillment networks, and other wireless technology solutions brought into the new company by CareGeneration, Inc.

CareGeneration's Reason for the Merger

CareGeneration's board of directors considered various factors in approving the merger transaction, including expanding market potential; increased visibility in the financial community; perceived credibility and enhanced corporate image due to public status of CareDecision.

Preexisting Relationships

The Company and Care Generation, Inc. did not have any preexisting relationship prior to entering into the Merger Agreement. To the best of our knowledge, none of the Company's stockholders are affiliates of CareGeneration, Inc.,

and none of the shareholders of CareGeneration, Inc. are affiliates of the Company.

Interests of Company Management in the Merger and Potential Conflicts of Interests

Ronald Kelly, the controlling shareholder of CareGeneration, Inc. has interests in the merger that differ from, or are in addition to, your interests as stockholders of the Company.

Dissenters' Appraisal Rights

Under Nevada law and our articles of incorporation and bylaws, no stockholder of the Company has any right to dissent to the proposed transaction.

Accounting Treatment

For accounting purposes, the financial statements of the Surviving Corporation will be substantially those of the Target, as adjusted for the merger. As such, the Target's assets, liabilities, capital accounts, and share data will be retroactively restated to give effect to the merger, and the pre-merger historical financial statements of the Target will become those of the Surviving Corporation.

RISK FACTORS

The following discussion contains, in addition to historical information, forward-looking statements in relation to CareDecision Corporation that involve risks and uncertainties. Actual results could differ significantly from the results discussed in the forward-looking statements.

Our limited operating history could delay our growth and minimize your investment.

We are considered a development stage company with an inception date of July 6, 2000 and thus have a limited operating history on which to base an evaluation of our business and prospects. Our prospects must be considered in light of the risks, expenses and difficulties frequently encountered by companies in their early stage of development. Such risks include, but are not limited to, dependence on the growth of use of electronic medical information and services, the adoption of PDA based Internet appliances for the transmission and display of medical information, the need to establish our brand name, the ability to establish a sufficient client base, the level of use of medical providers and the management of growth. To address these risks, we must maintain and increase our customer base, implement and successfully execute our business and marketing strategy, continue to develop and improve our point of care software and patient processing system, provide superior customer service, respond to competitive developments and attract, retain, and motivate qualified personnel. There can be no

assurance that we will be successful in addressing such risks, and the failure to do so could have a negative impact the value of our Company's common shares and could result in the loss of your entire investment.

We have historically lost money and losses may continue in the future, which means that we may not be able to continue operations unless we obtain additional funding.

We have historically lost money. As a result, the Company incurred accumulated net losses from July 6, 2000 (inception) through the period ended September 30, 2004 of \$(9,111,800). In addition, the Company's development activities since inception have been financially sustained by capital contributions. Future losses are likely to occur. Accordingly, we may experience significant liquidity and cash flow problems if we are not able to raise additional capital as needed and on acceptable terms. No assurances can be given that we will be successful in reaching or maintaining profitable operations.

We had a major shift in our business strategy in 2003. The transactions contemplated herein will further evolve that strategy. It was not until the last quarter of 2002 that we focused on the integration and marketing of our systems and applications to non-medical industries, particularly motels, hotels, and real estate management company properties. In this regard, we have only recently begun to generate revenues from these business sectors. We have a limited operating history upon which to evaluate our business plan and prospects. Although the transactions contemplated herein should provide sources of revenue, there is not as yet a history of profit. If we are unable to obtain additional external funding or generate revenue from the sales of our products, we could be forced to curtail or cease our operations.

Our profitability and your investment will be directly affected by our competition.

Many of CareDecision's potential competitors have longer operating histories, larger clientele bases, better service recognition and significantly greater financial, marketing and other resources than do we. Increased competition may result in reduced operating margins, loss of market share and a diminished brand franchise. There can be no assurance that we will be able to compete successfully against current and future competitors, and competitive pressures faced by us could harm our operating results, our business prospects, and financial condition.

We may not be able to retain our key personnel or attract additional personnel, which could affect our ability to continue as a going concern, which may diminish your return on investment.

Our performance is substantially dependent on the services and on the performance of our Management. The company is, and will be, heavily dependent on the skill, acumen and services of our proposed new Chairman, Ronald

Kelly, interim CEO Robert Cox, interim President, Secretary and Treasurer, Keith Berman, Chief Operating Officer Robert Ellis and Chief Financial Officer, Richard Foisy. Our performance also depends on our ability to attract, hire, retain and motivate our officers and key employees. The loss of the services of our executives could have a material adverse effect on our business, prospects, financial condition and results of operations. We have not entered into a long-term employment agreements with our key personnel and currently have no Key Employee life insurance policies. Our future success may also depend on our ability to identify, attract, hire, train, retain and motivate other highly skilled technical, managerial, marketing and customer service personnel. Competition for such personnel is intense, and there can be no assurance that we will be able to successfully attract, assimilate or retain sufficiently qualified personnel. If we are unable to attract, retain, and train the necessary technical, managerial, marketing and customer service personnel, our expectations of increasing our clientele could be hindered, and the profitability of our Company reduced.

Possible Future Issuances of Common Stock Will Have a Dilutive Affect on Existing Shareholders

The Company is authorized to issue up to 1,250,000,000 Shares of common stock. As of November 24, there are 259,205,421 shares of common stock issued and outstanding. Additional issuances of common stock may be required to raise capital, to acquire stock or assets of other companies, to compensate employees or to undertake other activities without stockholder approval. These additional issuances of common stock will increase outstanding shares and further dilute stockholders' interests. Because our common stock will be subject to the existing rules on penny stocks, the market liquidity for and value of our securities can be severely adversely affected.

We may not effectively manage the growth necessary to execute our business plan, which could adversely affect the quality of our operations and our costs.

In order to achieve the critical mass of business activity necessary to successfully execute our business plan, we must significantly increase the number of strategic partners and customers that use our technology. This growth will place significant strain on our personnel, systems and resources. We also expect that we will continue to hire employees, including technical, management-level employees, and sales staff for the foreseeable future. This growth will require us to improve management, technical, information and accounting systems, controls and procedures. We may not be able to maintain the quality of our operations, control our costs, continue complying with all applicable regulations and expand our internal management, technical information and accounting systems in order to support our desired growth. We cannot be sure that we will manage our growth effectively, and our failure to do so could cause us to reduce or cease operations.

Our common stock has been relatively thinly traded and we cannot predict the extent to which a trading market will develop.

Before this merger, our common stock has traded on the Over-the-Counter Bulletin Board. Our common stock is thinly traded compared to larger more widely known companies in our industry. Thinly traded common stock can be

more volatile than common stock trading in an active public market. We cannot predict the extent to which an active public market for the common stock will develop or be sustained after this offering.

Our common stock is considered a "penny stock" which makes it more difficult for investors to sell their shares due to suitability requirements.

The SEC has adopted regulations, which generally define penny stock to be an equity security that has a market price of less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to specific exemptions. Presently, the market price of our common stock is less than \$5.00 per share. Therefore, the SEC "penny stock" rules govern the trading in our common stock. These rules require, among other things, that any broker engaging in a transaction in our securities provide its customers with the following:

.

A risk disclosure document;

.

Disclosure of market quotations, if any;

.

Disclosure of the compensation of the broker and its salespersons in the transaction; and

.

Monthly account statements showing the market values of our securities held in the customer's accounts.

The broker must provide the bid and offer quotations and compensation information before effecting the transaction. This information must be contained on the customer's confirmation. Moreover, broker/dealers are required to determine whether an investment in a penny stock is a suitable investment for a prospective investor.

Generally, brokers may be less willing to effect transactions in penny stocks. This may make it more difficult for investors to dispose of our common stock. This could cause our stock price to decline. In addition, the broker prepares the information provided to the broker's customer. Because we do not prepare the information, we cannot assure you that such information is accurate, complete or current.

The success of our products and services in generating revenue may be subject to the quality and completeness of the data that is generated into our interconnectivity systems, including the failure to input appropriate or accurate information.

Failure or unwillingness by the user to accommodate the required information may result in our not being paid for our services. As a developer of connectivity technology products, we will be required to anticipate and adapt to evolving industry standards and regulations and new technological developments. The market for our technology is characterized by continued and rapid technological advances in hardware and software development, requiring ongoing expenditures for research and development, and timely introduction of new products and enhancements to existing products.

Our future success, if any, will depend in part upon our ability to enhance existing products, to respond effectively to technology changes and changes in applicable regulations, and to introduce new products and technologies that are functional and meet the evolving needs of our clients and users.

We rely on a combination of internal development, strategic relationships, licensing and acquisitions to develop our products and services. The cost of developing new information services and technology solutions is inherently difficult to estimate. Our development of proposed products and services may take longer than originally expected, require more testing than originally anticipated and require the acquisition of additional personnel and other resources. In addition, there can be no assurance that the products or services we develop or license will be able to compete with the alternatives available to our customers.

New or newly integrated products and services will not become profitable unless they achieve sufficient levels of market acceptance.

There can be no assurance that our chosen marketplaces will accept from us new products and services, or products and services that result from integrating existing and/or acquired products and services, including the products and services we are developing to integrate our services. In addition, there can be no assurance that any pricing strategy that we implement for any such products and services will be economically viable or acceptable to the target markets. Failure to achieve broad penetration in target markets with respect to new or newly integrated products and services could have a material adverse effect on our business prospects.

The market for our connectivity products and services may be slow to develop due to the large number of practitioners who are resistant to change, as well as the financial investment and workflow interruptions associated with change, particularly in a period of rising pressure to reduce costs in the marketplace.

Achieving market acceptance of new or newly integrated products and services is likely to require significant efforts and expenditures.

Achieving market acceptance for new or newly integrated products and services is likely to require substantial marketing efforts and expenditure of significant funds to create awareness and demand by participants in the healthcare industry. In addition, deployment of new or newly integrated products and services may require the use of additional resources for training our existing sales and customer service personnel and for hiring and training additional salespersons and customer service personnel. There can be no assurance that the revenue opportunities from new or newly integrated products and services will justify amounts spent for their development, marketing and rollout.

We could be subject to breach of warranty claims if our software products, information technology systems or transmission systems contain errors, experience failures or do not meet customer expectations.

We could face breach of warranty or other claims or additional development costs if the software and systems we sell or license to customers or use to provide services contain undetected errors, experience failures, do not perform in accordance with their documentation, or do not meet the expectations that our customers have for them. Undetected errors in the software and systems we provide or those we use to provide services could cause serious problems for which our customers may seek compensation from us. We attempt to limit, by contract, our liability for damages arising from negligence, errors or mistakes. However, contractual limitations on liability may not be enforceable in certain circumstances or may otherwise not provide sufficient protection to us from liability for damages.

If our systems or the Internet experience security breaches or are otherwise perceived to be insecure, our business could suffer.

A security breach could damage our reputation or result in liability. We retain and transmit confidential information, including patient health information. Despite the implementation of security measures, our infrastructure or other systems that we interface with, including the Internet, may be vulnerable to physical break-ins, hackers, improper employee or contractor access, computer viruses, programming errors, attacks by third parties or similar disruptive problems. Any compromise of our security, whether as a result of our own systems or systems that they interface with, could reduce demand for our services.

Certain of our products are subject to compliance with HIPAA.

Failure to comply with HIPAA may have a material adverse effect on our business. Government regulation of healthcare and healthcare information technology, are in a period of ongoing change and uncertainty and creates risks and challenges with respect to our compliance efforts and our business strategies. The healthcare industry is highly regulated and is subject to changing political, regulatory and other influences. Federal and state legislatures and agencies periodically consider programs to reform or revise the United States healthcare system. These programs may contain proposals to increase governmental involvement in healthcare or otherwise change the environment in which healthcare industry participants operate. Particularly, compliance with HIPAA and related regulations are causing the healthcare industry to incur substantial cost to change its procedures. Healthcare industry participants may respond by reducing their investments or postponing investment decisions, including investments in our products and services. Although we expect these regulations to have the beneficial effect of spurring adoption of our software products, we cannot predict with any certainty what impact, if any, these and future healthcare reforms might have on our business. Existing laws and regulations also could create liability, cause us to incur additional cost or restrict our operations.

We have been granted certain copyrights and have applied to receive patent rights, and trademarks relating to our software. However, patent and intellectual property legal issues for software programs, such as our products, are complex and currently evolving.

Patent applications are secret until patents are issued in the United States, or published in other countries, therefore, we cannot be sure that we are first to file any patent application. In addition, there can be no assurance those competitors, many of which have far greater resources than we do, will not apply for and obtain patents that will interfere with our ability to develop or market product ideas that we have originated. Furthermore, the laws of certain foreign countries do not provide the protection to intellectual property that is provided in the United States, and may limit our ability to market our products overseas. We cannot give any assurance that the scope of the rights we have are broad enough to fully protect our technology from infringement. Litigation or regulatory proceedings may be necessary to protect our intellectual property rights, such as the scope of our patent. Such litigation and regulatory proceedings are very expensive and could be a significant drain on our resources and divert resources from product development. There is no assurance that we will have the financial resources to defend our patent rights or other intellectual property from infringement or claims of invalidity.

M and E Equities, LLC Renegotiated Note

Based on terms negotiated on March 4, 2002, and after a further documentation process that was completed on April 23, 2002, Medicius, Inc., the Company's merger partner in its June 2002 merger, was loaned \$475,000 from M and E Equities, LLC (M&E) (as previously discussed in Note 6). A condition of the loan stipulated that Medicius, Inc. complete its merger with the Company and become a fully reporting public company. As of December 31, 2003, after a partial payment of interest and principal and a settlement of a legal dispute that arose over this note and other issues, the remaining value of the note and accrued interest was \$522,527. On March 2, 2004, the Company renegotiated its debt with M&E. The terms of the agreement are stipulated as follows:

\$.
\$320,000 is paid to M&E by Wells & Company, Inc., Lima Capital, Inc., JC Financial, Inc. and Corporate Architects, Inc. to satisfy a remaining principal amount of \$400,000.

\$.
M&E agreed to transfer 10,000,000 of the Class A Warrants, formerly issued by Medicius, Inc., with an expiration date of January 5, 2005 to Empyreon.net Corp. for \$30,000, and 2,000,000 Class A Warrants to Mr. Moshe Mendlowitz for \$20.00. The Company incurred interest expense during the six months ended June 30, 2004 totaling \$405,700, the deemed value of the Warrants on the transfer date based on the Black-Scholes Valuation Model.

\$.
The outstanding note balance of \$200,526 was recapitalized into 207,526 shares of the Company's \$0.001 par value Class A 2002 Convertible Preferred Stock and registered in M&E's name. Each share of Class A 2002 Convertible Preferred Stock is convertible into 18 shares (3,717,468 total) of the Company's \$0.001 par value common stock at \$0.055556 per share. M&E agrees to hold the Preferred Shares for a minimum of one year, pursuant to Rule 144, with no conversions allowed during that period of time. After the one year, M&E may convert and sell only 500,000 shares of the Company's \$0.001 par value common stock every 60 days as permissible by Rule 144.

The note was extended by the company as of September 24, 2004. Pinnacle may, at its option, at any time from time to time, elect to convert some or all of the then-outstanding principal of the Note into shares of the Company's \$0.001 par value common stock at a conversion price of \$0.045 per share, unless such conversion would result in Pinnacle being deemed the beneficial owner of 4.99% or more of the then-outstanding Common Shares within the meaning of Rule 13d-3 of the Securities Exchange Act of 1934, as amended. In the event the Company fails to pay any installment or principal or interest when due, the interest rate will then accrue at a rate of 24% per annum on the unpaid balance until the payment default is cured.

Notes

Note 1 Significant accounting policies and procedures

Organization

The Company was organized March 2, 2001 (Date of Inception) under the laws of the State of Nevada, as ATR Search Corporation. On June 21, 2002, the Company merged Medicius, Inc. and filed amended articles of incorporation changing its name to CareDecision Corporation.

The Company has a limited history of operations, and in accordance with SFAS #7, the Company is considered a development stage company.

Merger agreement with Medicius, Inc. (MED)

On June 21, 2001, the Company entered into an agreement with MED whereby the Company acquired all of the issued and outstanding common stock of MED in exchange for 38,043,863 voting shares of the Company's \$0.001 par value common stock. The merger was accounted for using the purchase method of accounting as applicable to change of control mergers because the former stockholders of MED controlled the Company's common stock immediately upon conclusion of the transaction. The value of the acquired fixed assets on the merger date was \$1,704,703.

Cash and cash equivalents

The Company maintains a cash balance in a non-interest-bearing account that currently does not exceed federally insured limits. For the purpose of the statements of cash flows, all highly liquid investments with an original maturity of three months or less are considered to be cash equivalents. There are no cash equivalents as of December 31, 2003 and 2002.

Investments

Investments in companies over which the Company exercises significant influence are accounted for by the equity method whereby the Company includes its proportionate share of earnings and losses of such companies in earnings. Other long-term investments are recorded at cost and are written down to their estimated recoverable amount if there is evidence of a decline in value, which is other than temporary.

Fixed assets

Fixed assets are stated at the lower of cost or estimated net recoverable amount. The cost of property, plant and equipment is depreciated using the straight-line method based on the lesser of the estimated useful lives of the assets or the lease term based on the following life expectancy:

Computer equipment

5 years

Software

5 years

Office furniture and fixtures

7 years

Repairs and maintenance expenditures are charged to operations as incurred. Major improvements and replacements, which extend the useful life of an asset, are capitalized and depreciated over the remaining estimated useful life of the asset. When assets are retired or sold, the costs and related accumulated depreciation and amortization are eliminated and any resulting gain or loss is reflected in operations.

Consolidation policy

The accompanying Consolidated Financial Statements include the accounts of the Company and its majority-owned subsidiary corporations, after elimination of all material intercompany accounts, transactions, and profits. Investments in unconsolidated subsidiaries representing ownership of at least 20% but less than 50%, are accounted for under the equity method. Nonmarketable investments in which the Company has less than 20% ownership and in which it does not have the ability to exercise significant influence over the investee are initially recorded at cost and periodically reviewed for impairment. As of December 31, 2003 and 2002, the Company did not have nonmarketable investments.

(a Development Stage Company)

Notes

Revenue recognition

Revenue from proprietary software sales that does not require further commitment from the company is recognized upon shipment. Consulting revenue is recognized when the services are rendered. License revenue is recognized ratably over the term of the license.

The cost of services, consisting of staff payroll, outside services, equipment rental, communication costs and supplies, is expensed as incurred.

Advertising costs

The Company expenses all costs of advertising as incurred. There were no advertising costs included in general and administrative expenses as of December 31, 2003 and 2002.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Fair value of financial instruments

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of December 31, 2003 and 2002. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values. These financial instruments include cash and accounts payable. Fair values were assumed to approximate carrying values for cash and payables because they are short term in nature and their carrying amounts approximate fair values or they are payable on demand.

Impairment of long-lived assets

The Company reviews its long-lived assets and intangibles periodically to determine potential impairment by comparing the carrying value of the long-lived assets with the estimated future cash flows expected to result from the use of the assets, including cash flows from disposition. Should the sum of the expected future cash flows be less than the carrying value, the Company would recognize an impairment loss. An impairment loss would be measured by comparing the amount by which the carrying value exceeds the fair value of the long-lived assets and intangibles. There were no impairment losses recognized in 2003.

On December 31, 2003, the Company determined that it should write down certain fixed assets acquired with the Medicius, Inc. merger as an impairment loss after comparing the carrying value of the assets with the estimated future cash flows expected to result from the use of the assets. In addition the company has determined that it might sell or hypothecate certain of these assets. Accordingly, the write down resulted in the realization of a \$1,000,770 impairment loss on operating assets recorded on the Restated Statement of Operations for the year ended December 31, 2002.

Reporting on the costs of start-up activities

Statement of Position 98-5 (SOP 98-5), Reporting on the Costs of Start-Up Activities, which provides guidance on the financial reporting of start-up costs and organizational costs, requires most costs of start-up activities and organizational costs to be expensed as incurred. SOP 98-5 is effective for fiscal years beginning after December 15, 1998. With the adoption of SOP 98-5, there has been little or no effect on the Company's financial statements.

Notes

Loss per share

Net loss per share is provided in accordance with Statement of Financial Accounting Standards No. 128 (SFAS #128) Earnings Per Share . Basic loss per share is computed by dividing losses available to common stockholders by the weighted average number of common shares outstanding during the period. There were no securities considered to be dilutive in the computation of earnings (loss) per share.

Comprehensive Income

SFAS No. 130, "Reporting Comprehensive Income", establishes standards for the reporting and display of comprehensive income and its components in the financial statements. The Company had no items of other comprehensive income and therefore has not presented a statement of comprehensive income.

Segment reporting

The Company follows Statement of Financial Accounting Standards No. 130, "Disclosures About Segments of an Enterprise and Related Information." The Company operates as a single segment and will evaluate additional segment disclosure requirements as it expands its operations.

Income taxes

The Company follows Statement of Financial Accounting Standard No. 109, "Accounting for Income Taxes" (SFAS No. 109) for recording the provision for income taxes. Deferred tax assets and liabilities are computed based upon the difference between the financial statement and income tax basis of assets and liabilities using the enacted marginal tax rate applicable when the related asset or liability is expected to be realized or settled. Deferred income tax expenses or benefits are based on the changes in the asset or liability each period. If available evidence suggests that it is more likely than not that some portion or all of the deferred tax assets will not be realized, a valuation allowance is required to reduce the deferred tax assets to the amount that is more likely than not to be realized. Future changes in such valuation allowance are included in the provision for deferred income taxes in the period of change.

Deferred income taxes may arise from temporary differences resulting from income and expense items reported for financial accounting and tax purposes in different periods. Deferred taxes are classified as current or non-current, depending on the classification of assets and liabilities to which they relate. Deferred taxes arising from temporary differences that are not related to an asset or liability are classified as current or non-current depending on the periods in which the temporary differences are expected to reverse.

Recent pronouncements

In July 2002, the FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities, which addresses financial accounting and reporting for costs associated with exit or disposal activities and supersedes EITF No. 94-3, Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring). SFAS No. 146 requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred. Under EITF No. 94-3, a liability for an exit cost was recognized at the date of an entity's commitment to an exit plan. SFAS No. 146 also establishes that the liability should initially be measured and recorded at fair value. The provisions of SFAS No. 146 will be adopted for exit or disposal activities that are initiated after December 31, 2003.

Notes

In December 2002, the FASB issued SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure* an amendment of SFAS No. 123. This Statement amends SFAS No. 123, *Accounting for Stock-Based Compensation*, to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The adoption of SFAS No. 148 is not expected to have a material impact on the company's financial position or results of operations.

In November 2002, the FASB issued FASB Interpretation (FIN) No. 45, *Guarantors Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees and Indebtedness of Others*, an interpretation of FIN No. 5, 57 and 107, and rescission of FIN No. 34, *Disclosure of Indirect Guarantees of Indebtedness of Others*. FIN 45 elaborates on the disclosures to be made by the guarantor in its interim and annual financial statements about its obligations under certain guarantees that it has issued. It also requires that a guarantor recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial recognition and measurement provisions of this interpretation are applicable on a prospective basis to guarantees issued or modified after December 31, 2003; while, the provisions of the disclosure requirements are effective for financial statements of interim or annual periods ending after December 15, 2002. The Company believes that the adoption of such interpretation does not have a material impact on its financial position or results of operations and has adopted such interpretation during fiscal year 2003, as required.

In January 2003, the FASB issued FIN No. 46, *Consolidation of Variable Interest Entities*, an interpretation of Accounting Research Bulletin No. 51. FIN No. 46 requires that variable interest entities be consolidated by a company if that company is subject to a majority of the risk of loss from the variable interest entity's activities or is entitled to receive a majority of the entity's residual returns or both. FIN No. 46 also requires disclosures about variable interest entities that companies are not required to consolidate but in which a company has a significant variable interest. The consolidation requirements of FIN No. 46 will apply immediately to variable interest entities created after January 31, 2003. The consolidation requirements will apply to entities established prior to January 31, 2003 in the first fiscal year or interim period beginning after June 15, 2003. The disclosure requirements will apply in all financial statements issued after January 31, 2003. The company adopted the provisions of FIN No. 46 during the first quarter of fiscal 2003.

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity. SFAS No. 150 changes the classification in the statement of financial position of certain common financial instruments from either equity or mezzanine presentation to liabilities and requires an issuer of those financial statements to recognize changes in fair value or redemption amount, as applicable, in earnings. SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003, and with one exception, is effective at the beginning of the first interim period beginning after June 15, 2003. The effect of adopting SFAS No. 150 will be recognized as a cumulative effect of an accounting change as of the beginning of the period of adoption. Restatement of prior periods is not permitted. SFAS No. 150 did not have any impact on the Company's financial position or results of operations.

Stock-Based Compensation

The Company applies Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and Related Interpretations, in accounting for stock options issued to employees. Under APB No. 25, employee compensation cost is recognized when estimated fair value of the underlying stock on date of the grant exceeds exercise price of the stock option. For stock options and warrants issued to non-employees, the Company applies SFAS No. 123, Accounting for Stock-Based Compensation, which requires the recognition of compensation cost based upon the fair value of stock options at the grant date using the Black-Scholes option pricing model.

The following table represents the effect on net loss and loss per share if the Company had applied the fair value based method and recognition provisions of Statement of Financial Accounting Standards (SFAS No. 123), Accounting for Stock-Based Compensation, to stock-based employee compensation:

	2003	2002
Net (loss), as reported	\$ (2,168,808)	\$ (3,037,442)
Deduct: Total stock-based non-employee compensation expense determined under fair value based methods for all awards, net of related tax effects	(221,450)	(-)
Pro forma net (loss)	\$ (2,390,258)	\$ (3,037,442)
Net (loss) per common share		
Basic (loss) per share, as reported	\$ (.02)	\$ (.07)
Basic per share, pro forma	\$ (.025)	\$ (.07)

As required, the pro forma disclosures above include options granted during each fiscal year. Consequently, the effects of applying SFAS No. 123 for providing pro forma disclosures may not be representative of the effects on reported net income for future years until all options outstanding are included in the pro forma disclosures.

Note 2 Restatement of financial statements due to change in accounting principle

The Company determined during the year ending December 31, 2003 that it is appropriate to reclassify software acquired in 2001 and 2002 from intellectual property to fixed assets. The Company also determined that it should write down certain assets as an impairment loss given its current business focus and its decision to sell or hypothecate these assets. The effect of the change required a restatement of the December 31, 2002 financial statements in order to properly reflect the asset reclassification and the related adjustment to depreciation expense and impairment loss on operating assets. The effect of this change was to increase net loss for the year ended December 31, 2002 by \$1,000,770. Retained earnings as of January 1, 2002 has been adjusted for the retroactive application of the change in accounting principle.

Note 3 Fixed assets

The Company accounts for income taxes under Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" ("SFAS No. 109"), which requires use of the liability method. Notes

The following is a summary of activity of outstanding stock options under the 2003 Stock Option Plan:

	Number Of Shares		Weighted Average Exercise Price

Balance, December 31, 2003	5,150,000		0.043
Exercisable, December 31, 2003	5,150,000	\$	0.043

The following is a summary of information about the 2003 Stock Option Plan options outstanding at December 31, 2003

Range of Exercise Prices	Shares Underlying Options Outstanding			Shares Underlying Options Exercisable	
	Shares Underlying Options Outstanding	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Shares Underlying Options Exercisable	Weighted Average Exercise Price
\$ 0.040 - 0.050	5,150,000	0 years	\$ 0.043	5,150,000	\$ 0.043

Pro forma information regarding net income and net income per share, as disclosed in Note 1, has been determined as if the Company had accounted for its non-employee stock-based compensation plans and other stock options under the fair value method of SFAS No. 123. The fair value of each option and warrant grant are estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants under the fixed option plan:

	2003	2002
Average risk-free interest rates	5.05 %	5.05 %
Average expected life (in years)	2	2
Volatility	51.0 %	51.0 %

The Black-Scholes option valuation model was developed for use in estimating the fair value of short-term traded options that have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including expected stock price volatility. Because the Company's employee stock options have characteristics significantly different from those of traded options and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options. During 2003 and 2002, there were no options granted with an exercise price below the fair value of the underlying stock at the grant date.

The weighted average fair value of options granted with exercise prices at the current fair value of the underlying stock during 2003 was approximately \$0.043 per option.

Based on terms negotiated on March 4, 2002, and after a further documentation process that was completed on April 23, 2002, Medicius, Inc., the Company's merger partner in its June 2002 merger, was loaned \$475,000 from M and E Equities, LLC (M&E) (as previously discussed in Note 6). As of December 31, 2003, after a partial payment of interest and principal and a settlement of a legal dispute that arose over this note and other issues, the remaining value of the note and accrued interest was \$522,527. On March 2, 2004, the Company renegotiated its debt with M&E. The terms of the agreement are stipulated as follows:

M&E agreed to transfer 10,000,000 of the Class A Warrants, formerly issued by Medicius, Inc., with an expiration date of January 5, 2005 to Empyreon.net Corp. for \$30,000, and 2,000,000 Class A Warrants to Mr. Moshe Mendlowitz for \$20.00. The Company will incur interest expense during the first quarter ended March 31, 2004 totaling \$405,700, the deemed value of the Warrants on the transfer date based on the Black-Scholes Valuation Model.

The Secured Convertible Promissory Note bears interest at the rate of 12% per annum, matures September 25, 2004, except if extended for an additional six months at the option of the company, and is secured by 14,000,000 shares of the Company's \$0.001 par value common stock. Pinnacle may, at its option, at any time from time to time, elect to convert some or all of the then-outstanding principal of the Note into shares of the Company's \$0.001 par value common stock at a conversion price of \$0.08 per share, unless such conversion would result in Pinnacle being deemed the beneficial owner of 4.99% or more of the then-outstanding Common Shares within the meaning of Rule 13d-3 of the Securities Exchange Act of 1934, as amended. In the event the Company fails to pay any installment or principal or interest when due, the interest rate will then accrue at a rate of 24% per annum on the unpaid balance until the payment default is cured.

ARTICLE I

OFFICES

The principal office of the Corporation in the State of Nevada shall be located in Las Vegas, County of Clark. The Corporation may have such other offices, either within or without the State of Nevada, as the Board of Directors may designate or as the business of the Corporation may require from time to time.

ARTICLE II

SHAREHOLDERS

SECTION 1. Annual Meeting. The annual meeting of the shareholders shall be held on the 1st day in the month of March in each year, beginning with the year 2002, at the hour of 10 o'clock a.m., for the purpose of electing Directors and for the transaction of such other business as may come before the meeting. If the day fixed for the annual meeting shall be a legal holiday, such meeting shall be held on the next business day. If the election of Directors shall not be held on the day designated herein for any annual meeting of the shareholders, or at any adjournment thereof, the Board of Directors shall cause the election to be held at a special meeting of the shareholders as soon thereafter as soon as conveniently may be.

SECTION 2. Special Meetings. Special meetings of the shareholders, for any purpose or purposes, unless otherwise prescribed by statute, may be called by the President or by the Board of Directors, and shall be called by the President at the request of the holders of not less than fifty percent (50%) of all the outstanding shares of the Corporation entitled to vote at the meeting.

SECTION 3. Place of Meeting. The Board of Directors may designate any place, either within or without the State of Nevada, unless otherwise prescribed by statute, as the place of meeting for any annual meeting or for any special meeting. A waiver of notice signed by all shareholders entitled to vote at a meeting may designate any place, either within or without the State of Nevada, unless otherwise prescribed by statute, as the place for the holding of such meeting. If no designation is made, the place of the meeting will be the principal office of the Corporation.

SECTION 4. Notice of Meeting. Written notice stating the place, day and hour of the meeting and, in case of a special meeting, the purpose or purposes for which the meeting is called, shall unless otherwise prescribed by statute, be delivered not less than ten (10) days nor more than sixty (60) days before the date of the meeting, to each shareholder of record entitled to vote at such meeting. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail, addressed to the shareholder at his/her address as it appears on the stock transfer books of the Corporation, with postage thereon prepaid.

SECTION 5. Closing of Transfer Books or Fixing of Record. For the purpose of determining shareholders entitled to notice of or to vote at any meeting of shareholders or any adjournment thereof, or shareholders entitled to receive payment of any dividend, or in order to make a determination of shareholders for any other proper purpose, the Board

of Directors of the Corporation may provide that the stock transfer books shall be closed for a stated period, but not to exceed in any case fifty (50) days. If the stock transfer books shall be closed for the purpose of determining shareholders entitled to notice of or to vote at a meeting of shareholders, such books shall be closed for at least ten (10) days immediately preceding such meeting. In lieu of closing the stock transfer books, the Board of Directors may fix in advance a date as the record date for any such determination of shareholders, such date in any case to be not more than fifty (50) days and, in case of a meeting of shareholders, not less than ten (10) days prior to the date on which the particular action requiring such determination of shareholders is to be taken. If the stock transfer books are not closed and no record date is fixed for determination of shareholders entitled to notice of or to vote at a meeting of shareholders, or shareholders entitled to receive payment of a dividend, the date on which notice of the meeting is mailed or the date on which the resolution of the Board of Directors declaring such dividend is adopted, as the case may be, shall be the record date for such

determination of shareholders. When a determination of shareholders entitled to vote at any meeting of shareholders has been made as provided in this section, such determination shall apply to any adjournment thereof.

SECTION 6. Voting Lists. The officer or agent having charge of the stock transfer books for shares of the Corporation shall make a complete list of the shareholders entitled to vote at each meeting of shareholders or at any adjournment thereof, arranged in alphabetical order, with the address of and the number of shares held by each. Such list shall be produced and kept open at the time and place of the meeting and shall be subject to the inspection of any shareholder during the whole time of the meeting for the purposes thereof.

SECTION 7. Quorum. A majority of the outstanding shares of the Corporation entitled to vote, represented in person or by proxy, shall constitute a quorum at a meeting of shareholders. If less than a majority of the outstanding shares are represented at a meeting, a majority of the shares so represented may adjourn the meeting from time to time without further notice. At such adjourned meeting at which a quorum shall be present or represented, any business may be transacted which might have been transacted at the meeting as originally noticed. The shareholders present at a duly organized meeting may continue to transact business until adjournment, notwithstanding the withdrawal of enough shareholders to leave less than a quorum.

SECTION 8. Proxies. At all meetings of shareholders, a shareholder may vote in person or by proxy executed in writing by the shareholder by his/her duly authorized attorney-in-fact. Such proxy shall be filed with the secretary of the Corporation before or at the time of the meeting.

SECTION 9. Voting of Shares. Each outstanding share entitled to vote shall be entitled to one vote upon each matter submitted to a vote at a meeting of shareholders.

SECTION 10. Voting of Shares by Certain Holders. Shares standing in the name of another corporation may be voted by such officer, agent or proxy as the Bylaws of such corporation may prescribe or, in the absence of such provision, as the Board of Directors of such corporation may determine. Shares held by an administrator, executor, guardian or conservator may be voted by him, either in person or by proxy, without a transfer of such shares into his name. Shares standing in the name of a trustee may be voted by him, either in person or by proxy, but no trustee shall be entitled to vote shares held by him without a transfer of such shares into his name.

Shares standing in the name of a receiver may be voted by such receiver, and the shares held by or under the control of a receiver may be voted by such receiver without the transfer thereof into his name, if authority to do so be contained in an appropriate order of the court by which such receiver was appointed.

A shareholder whose shares are pledged shall be entitled to vote such shares until the shares have been transferred into the name of the pledgee, and thereafter the pledgee shall be entitled to vote the shares so transferred.

Shares of its own stock belonging to the Corporation shall not be voted, directly or indirectly, at any meeting, and shall not be counted in determining the total number of outstanding shares at any given time.

SECTION 11. Informal Action by Shareholders. Unless otherwise provided by law, any action required to be taken at a meeting of the shareholders, or any other action which may be taken at a meeting of the shareholders, may be

taken without a meeting if a consent in writing, setting forth the action so taken, shall be signed by all of the shareholders entitled to vote with respect to the subject matter thereof.

ARTICLE III

Notice of any special meeting shall be given at least one (1) day previous thereto by written notice delivered personally or mailed to each director at his business address, or by telegram. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail so addressed, with postage thereon prepaid. If notice be given by telegram, such notice shall be deemed to be delivered when the notice be given to the telegraph company. Any directors may waive notice of any meeting. The attendance of a director at a meeting shall constitute a waiver of notice of such meeting, except where a director attends a meeting for the express purpose of objecting to the transaction of any business because the meeting is not lawfully called or convened.

SECTION 6. Quorum. A majority of the number of directors fixed by Section 2 of this Article shall constitute a quorum for the transaction of business at any meeting of the Board of Directors, but if less than such majority is present at a meeting, a majority of the directors present may adjourn the meeting from time to time without further notice.

SECTION 7. Telephonic Meeting. A meeting of the Board of Directors may be had by means of a telephone conference or similar communications equipment by which all persons participating in the meeting can hear each other, and the participation in a meeting under such circumstances shall constitute presence at the meeting.

SECTION 8. Manner of Acting. The act of the majority of the directors present at a meeting at which a quorum is present shall be the act of the Board of Directors.

SECTION 9. Action Without a Meeting. Any action that may be taken by the Board of Directors at a meeting may be taken without a meeting if a consent in writing, setting forth the action so to be taken, shall be signed before such action by all of the directors.

SECTION 10. Vacancies. Any vacancy occurring in the Board of Directors may be filled by the affirmative vote of a majority of the remaining directors though less than a quorum of the Board of Directors, unless otherwise provided by law. A director elected to fill a vacancy shall be elected for the unexpired term of his/her predecessor in office. Any directorship to be filled by reason of an increase in the number of directors may be filled by election by the Board of Directors for a term of office continuing only until the next election of directors by the shareholders.

SECTION 11. Resignation. Any director may resign at any time by giving written notice to the Board of Directors, the President or the Secretary of the Corporation. Unless otherwise specified in such written notice such resignation shall take effect upon receipt thereof by the Board of Directors or such officer, and the acceptance of such resignation shall not be necessary to make it effective.

SECTION 12. Removal. Any director may be removed with or without cause at any time by the affirmative vote of shareholders holding of record in the aggregate at least a majority of the outstanding shares of stock of the Corporation at a special meeting of the shareholders called for that purpose, and may be removed for cause by action of the Board.

SECTION 13. Compensation. By resolution of the Board of Directors, each director may be paid for his/her expenses, if any, of attendance at each meeting of the Board of Directors, and may be paid a stated salary as director or a fixed sum for attendance at each meeting of the Board of Directors or both. No such payment shall preclude any director from serving the Corporation in any other capacity and receiving compensation therefor.

SECTION 14. Contracts. No contract or other transaction between this Corporation and any other corporation shall be impaired, affected or invalidated, nor shall any director be liable in any way by reason of the fact that one or more of the directors of this Corporation is or are interested in, or is a director or officer, or are directors or officers of such other corporations, provided that such facts are disclosed or made known to the Board of Directors, prior to their authorizing such transaction. Any director, personally and individually, may be a party to or may be interested in any contract or transaction of this Corporation, and no directors shall be liable in any way by reason of such interest, provided that the fact of such interest be disclosed or made known to the Board of Directors prior to their authorization of such contract or transaction, and provided that the Board of Directors shall authorize, approve or ratify such contract or transaction by the vote (not counting the

vote of any such Director) of a majority of a quorum, notwithstanding the presence of any such director at the meeting at which such action is taken. Such director or directors may be counted in determining the presence of a quorum at such meeting. This Section shall not be construed to impair, invalidate or in any way affect any contract or other transaction which would otherwise be valid under the law (common, statutory or otherwise) applicable thereto.

SECTION 15. Committees. The Board of Directors, by resolution adopted by a majority of the entire Board, may from time to time designate from among its members an executive committee and such other committees, and alternate members thereof, as they may deem desirable, with such powers and authority (to the extent permitted by law) as may be provided in such resolution. Each such committee shall serve at the pleasure of the Board.

SECTION 16. Presumption of Assent. A director of the Corporation who is present at a meeting of the Board of Directors at which action on any corporate matter is taken shall be presumed to have assented to the action taken unless his/her dissent shall be entered into the minutes of the meeting or unless he/she shall file written dissent to such action with the person acting as the Secretary of the meeting before the adjournment thereof, or shall forward such dissent by registered mail to the Secretary of the Corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action.

SECTION 4. Removal. Any officer or agent may be removed by the Board of Directors whenever, in its judgment, the best interests of the Corporation will be served thereby, but such removal shall be without prejudice to the contract rights, if any, of the person so removed. Election or appointment of an officer or agent shall not of itself create contract rights, and such appointment shall be terminable at will.

SECTION 5. Vacancies. A vacancy in any office because of death, resignation, removal, disqualification or otherwise, may be filled by the Board of Directors for the unexpired portion of the term.

SECTION 6. President. SECTION 7. Vice President. In the absence of the President or in event of his/her death, inability or refusal to act, the Vice President shall perform the duties of the President, and when so acting, shall have all the powers of and be subject to all the restrictions upon the President. The Vice President shall perform such other duties as from time to time may be assigned by the President or by the Board of Directors. If there is more than one Vice President, each Vice President shall succeed to the duties of the President in order of rank as determined by the Board of Directors. If no such rank has been determined, then each Vice President shall succeed to the duties of the President in order of date of election, the earliest date having first rank.

The Corporation shall provide to any person who is or was a director, officer, employee or agent of the Corporation or is or was serving at the request of the Corporation as a director, officer, employee or agent of the corporation, partnership, joint venture, trust or enterprise, the indemnity against expenses of a suit, litigation or other proceedings which is specifically permissible under applicable law.
