

AMERICAN AXLE & MANUFACTURING HOLDINGS INC

Form 10-Q

April 27, 2012

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2012

or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-14303

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

(Exact Name of Registrant as Specified in Its Charter)

Delaware

(State or Other Jurisdiction of Incorporation or Organization)

36-3161171

(I.R.S. Employer Identification No.)

One Dauch Drive, Detroit, Michigan

(Address of Principal Executive Offices)

48211-1198

(Zip Code)

(313) 758-2000

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☐ No ☒

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "accelerated filer," "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Edgar Filing: AMERICAN AXLE & MANUFACTURING HOLDINGS INC - Form 10-Q

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of April 25, 2012, the latest practicable date, the number of shares of the registrant's Common Stock, par value \$0.01 per share, outstanding was 74,839,567 shares.

Internet Website Access to Reports

The website for American Axle & Manufacturing Holdings, Inc. is www.aam.com. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13 or 15(d) of the Exchange Act are available free of charge through our website as soon as reasonably practicable after they are electronically filed with, or furnished to, the Securities and Exchange Commission (SEC). The SEC also maintains a website at www.sec.gov that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

FORWARD-LOOKING STATEMENTS

In this Quarterly Report on Form 10-Q (Quarterly Report), we make statements concerning our expectations, beliefs, plans, objectives, goals, strategies, and future events or performance. Such statements are “forward-looking” statements within the meaning of the Private Securities Litigation Reform Act of 1995 and relate to trends and events that may affect our future financial position and operating results. The terms such as “will,” “may,” “could,” “would,” “plan,” “believe,” “expect,” “anticipate,” “intend,” “project,” and similar words of expressions, as well as statements in future tense, are intended to identify forward-looking statements.

Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. Forward-looking statements are based on information available at the time those statements are made and/or management’s good faith belief as of that time with respect to future events and are subject to risks and may differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such differences include, but are not limited to:

- global economic conditions, including the impact of the current sovereign debt crisis in the Euro-zone;
- reduced purchases of our products by GM, Chrysler or other customers;
- reduced demand for our customers’ products (particularly light trucks and SUVs produced by GM and Chrysler);
- our ability to realize the expected revenues from our new business backlog;
- our ability or our customers’ and suppliers’ ability to successfully launch new product programs on a timely basis;
- our ability to achieve the level of cost reductions required to sustain global cost competitiveness;
- our ability to attract new customers and programs for new products;
- supply shortages or price increases in raw materials, utilities or other operating supplies for us or our customers as a result of natural disasters or otherwise;
- our ability to respond to changes in technology, increased competition or pricing pressures;
- price volatility in, or reduced availability of, fuel;
- our ability to maintain satisfactory labor relations and avoid work stoppages;
- our suppliers’, our customers’ and their suppliers’ ability to maintain satisfactory labor relations and avoid work stoppages;
- risks inherent in our international operations (including adverse changes in political stability, taxes and other law changes, potential disruption of production and supply, and currency rate fluctuations);
- liabilities arising from warranty claims, product recall, product liability and legal proceedings to which we are or may become a party;
- availability of financing for working capital, capital expenditures, R&D or other general corporate purposes, including our ability to comply with financial covenants;
- our customers’ and suppliers’ availability of financing for working capital, capital expenditures, R&D or other general corporate purposes;
- our ability to develop and produce new products that reflect market demand;
- lower-than-anticipated market acceptance of new or existing products;
- our ability to consummate and integrate acquisitions and joint ventures;
- adverse changes in laws, government regulations or market conditions affecting our products or our customers’ products (such as the Corporate Average Fuel Economy (“CAFE”) regulations);
- changes in liabilities arising from pension and other postretirement benefit obligations;
- risks of noncompliance with environmental regulations or risks of environmental issues that could result in unforeseen costs at our facilities;
- our ability to attract and retain key associates;
- other unanticipated events and conditions that may hinder our ability to compete.

It is not possible to foresee or identify all such factors and we make no commitment to update any forward-looking statement or to disclose any facts, events or circumstances after the date hereof that may affect the accuracy of any forward-looking statement.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2012
(Unaudited)

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization American Axle & Manufacturing Holdings, Inc. (Holdings) and its subsidiaries (collectively, we, our, us or AAM) is a Tier I supplier to the automotive industry. We manufacture, engineer, design and validate driveline and drivetrain systems and related components and chassis modules for light trucks, sport utility vehicles (SUVs), passenger cars, crossover vehicles and commercial vehicles. Driveline and drivetrain systems include components that transfer power from the transmission and deliver it to the drive wheels. Our driveline, drivetrain and related products include axles, chassis modules, driveshafts, power transfer units, transfer cases, chassis and steering components, driveheads, transmission parts and metal-formed products. In addition to locations in the United States (U.S.) (Michigan, Ohio, Indiana and Pennsylvania), we also have offices or facilities in Brazil, China, Germany, India, Japan, Luxembourg, Mexico, Poland, Scotland, South Korea, Sweden and Thailand.

Basis of Presentation We have prepared the accompanying interim condensed consolidated financial statements in accordance with the instructions to Form 10-Q under the Securities Exchange Act of 1934. These condensed consolidated financial statements are unaudited but include all normal recurring adjustments, which we consider necessary for a fair presentation of the information set forth herein. Results of operations for the periods presented are not necessarily indicative of the results for the full fiscal year.

The balance sheet at December 31, 2011 presented herein has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete consolidated financial statements.

In order to prepare the accompanying interim condensed consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts and disclosures in our interim condensed consolidated financial statements. Actual results could differ from those estimates.

For further information, refer to the audited consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2011.

Effect of New Accounting Standards On January 1, 2012, we adopted new accounting guidance on the presentation of comprehensive income. The new guidance allows an entity to present components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate, but consecutive statements. We have elected to present the components of other comprehensive income in a separate statement immediately following the statement of operations. The guidance eliminates the previous option to report other comprehensive income and its components in the statement of changes in equity. While the new guidance changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income under current accounting guidance. Other than the change in presentation, the adoption of this new guidance has had no impact on our condensed consolidated financial statements.

On January 1, 2012, we also adopted new accounting guidance on testing goodwill for impairment. This new guidance allows us the option to first assess qualitative factors to determine whether it is necessary to perform the two-step quantitative goodwill impairment test. Under this amendment, we are not required to calculate the fair value of a reporting unit unless we determine, based on a qualitative assessment, that it is more likely than not that its fair value is less than its carrying amount. The amendment includes a number of events and circumstances to consider in

conducting the qualitative assessment. We do not believe that the adoption of this new accounting guidance will have a significant effect on our goodwill impairment assessments in the future.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

2. RESTRUCTURING ACTIONS

A summary of the restructuring related activity for the three months ended March 31, 2012 is shown below (in millions):

	One-time Termination Benefits	Asset Retirement Obligations	Other Restructuring Actions	Total
Accrual as of December 31, 2011	\$0.3	\$0.6	\$—	\$0.9
Charges	1.7	—	12.2	13.9
Cash utilization	(0.5) —	(12.2) (12.7
Accrual as of March 31, 2012	\$1.5	\$0.6	\$—	\$2.1

In the first quarter of 2012, we incurred charges related to the redeployment of assets and other related costs associated with the closure of our Detroit Manufacturing Complex (DMC) and Cheektowaga Manufacturing Facility (CKMF). We expensed and paid \$12.2 million in the first quarter of 2012, related to these actions.

We expect to make payments of \$2.1 million during the remainder of 2012 related to the remaining restructuring accrual.

3. INVENTORIES

We state our inventories at the lower of cost or market. The cost of our inventories is determined using the FIFO method. When we determine that our gross inventories exceed usage requirements, or if inventories become obsolete or otherwise not saleable, we record a provision for such loss as a component of our inventory accounts.

Inventories consist of the following:

	March 31, 2012 (in millions)	December 31, 2011
Raw materials and work-in-progress	\$204.5	\$177.0
Finished goods	25.6	26.9
Gross inventories	230.1	203.9
Inventory valuation reserves	(27.1) (26.7
Inventories, net	\$203.0	\$177.2

4. LONG-TERM DEBT

Long-term debt consists of the following:

	March 31, 2012 (in millions)	December 31, 2011
Revolving credit facility	\$60.0	\$—
9.25% Notes, net of discount	379.2	379.0

Edgar Filing: AMERICAN AXLE & MANUFACTURING HOLDINGS INC - Form 10-Q

7.875% Notes	300.0	300.0
7.75% Notes	200.0	200.0
5.25% Notes, net of discount	249.9	249.9
Foreign credit facilities	53.6	45.2
Capital lease obligations	6.0	6.1
Long-term debt	\$1,248.7	\$1,180.2

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

As of March 31, 2012, the Revolving Credit Facility provided up to \$86.8 million of revolving bank financing commitments through June 30, 2013 and \$235.0 million of such revolving bank financing commitments through June 30, 2016. At March 31, 2012, we had \$233.6 million available under the Revolving Credit Facility. This availability reflects a reduction of \$28.2 million for standby letters of credit issued against the facility.

The Revolving Credit Facility provides back-up liquidity for our foreign credit facilities. We intend to use the availability of long-term financing under the Revolving Credit Facility to refinance any current maturities related to such debt agreements that are not otherwise refinanced on a long-term basis in their local markets.

We utilize local currency credit facilities to finance the operations of certain foreign subsidiaries. At March 31, 2012, \$53.6 million was outstanding under these facilities and an additional \$14.2 million was available.

The weighted-average interest rate of our long-term debt outstanding was 7.9% at March 31, 2012 and 8.0% at December 31, 2011.

5. FAIR VALUE

The fair value accounting guidance defines fair value as “the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.” The definition is based on an exit price rather than an entry price, regardless of whether the entity plans to hold or sell the asset. This guidance also establishes a fair value hierarchy to prioritize inputs used in measuring fair value as follows:

- Level 1: Observable inputs such as quoted prices in active markets;
- Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Financial instruments The estimated fair value of our financial assets and liabilities that are recognized at fair value on a recurring basis, using available market information and other observable data, as of March 31, 2012, are as follows:

Balance Sheet Classification	March 31, 2012		December 31, 2011		Input
	Carrying Amount (in millions)	Fair Value	Carrying Amount (in millions)	Fair Value	
Cash equivalents	\$4.1	\$4.1	\$36.0	\$36.0	Level 1
Prepaid expenses and other current assets					
Currency forward contracts	1.4	1.4	0.1	0.1	Level 2
Other assets and deferred charges					
Currency forward contracts	—	—	0.1	0.1	Level 2
Other accrued expenses					
Currency forward contracts	1.3	1.3	5.6	5.6	Level 2

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The carrying value of our cash, accounts receivable, accounts payable and accrued liabilities approximates their fair values due to the short-term maturities of these instruments. The carrying value of our borrowings under the foreign credit facilities approximates their fair value due to the frequent resetting of the interest rates. We estimated the fair value of the amounts outstanding on our debt using available market information and other observable data, to be as follows:

	March 31, 2012		December 31, 2011		
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Input
	(in millions)		(in millions)		
Revolving Credit Facility	\$60.0	\$55.8	\$—	\$—	Level 2
9.25% Notes	379.2	424.6	379.0	415.0	Level 2
7.875% Notes	300.0	309.8	300.0	295.5	Level 2
7.75% Notes	200.0	212.0	200.0	195.0	Level 2
5.25% Notes	249.9	255.0	249.9	243.8	Level 2

6. DERIVATIVES

Our business and financial results are affected by fluctuations in world financial markets, including interest rates and currency exchange rates. Our hedging policy has been developed to manage these risks to an acceptable level based on management's judgment of the appropriate trade-off between risk, opportunity and cost. We do not hold financial instruments for trading or speculative purposes.

Currency forward contracts From time to time, we use foreign currency forward contracts to reduce the effects of fluctuations in exchange rates, primarily relating to the Mexican Peso, Euro, Pound Sterling and Brazilian Real. As of March 31, 2012, we have currency forward contracts outstanding with a notional amount of \$54.0 million that hedge our exposure to changes in foreign currency exchange rates for our payroll expenses.

The following table summarizes the reclassification of pre-tax derivative gains into net income from accumulated other comprehensive income (loss):

	Location of Gain (Loss) Reclassified into Net Income	Gain (Loss) Reclassified During Three Months Ended		Gain Expected to be Reclassified During the Next 12 Months
		March 31, 2012 (in millions)	2011	
Currency forward contracts	Cost of Goods Sold	\$(0.2) \$0.7	\$0.1

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

7. EMPLOYEE BENEFIT PLANS

The components of net periodic benefit cost are as follows:

	Pension Benefits Three Months Ended March 31, 2012		2011
	(in millions)		
Service cost	\$0.8		\$1.1
Interest cost	8.8		9.2
Expected asset return	(8.0)	(7.9
Amortized loss	1.8		1.1
Net periodic benefit cost	\$3.4		\$3.5
	Other Postretirement Benefits Three Months Ended March 31, 2012		2011
	(in millions)		
Service cost	\$0.1		\$0.2
Interest cost	3.9		4.3
Amortized loss	0.2		0.1
Amortized prior service credit	(0.5)	(0.8
Curtailment gain	(21.8)	—
Net periodic benefit cost (credit)	\$(18.1)	\$3.8

We recorded a gain of \$21.8 million to cost of goods sold for the curtailment of certain other postretirement benefits (OPEB) in the three months ended March 31, 2012. This resulted primarily from the reduction in the expected future OPEB related to the DMC and CKMF hourly associates who have terminated employment from AAM as a result of our plant closures. These curtailment gains resulted in an increase in our accumulated other comprehensive loss of \$21.8 million.

Our regulatory pension funding requirements in 2012 are approximately \$35 million. We expect our cash outlay for other postretirement benefit obligations in 2012, net of GM cost sharing, to be approximately \$16 million.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

8. PRODUCT WARRANTIES

We record a liability for estimated warranty obligations at the dates our product are sold. These estimates are established using sales volumes and internal and external warranty data where there is no payment history and historical information about the average cost of warranty claims for customers with prior claims. We adjust the liability as necessary.

As part of the 2009 Settlement and Commercial Agreement, AAM agreed to expanded warranty cost sharing with GM, which began on January 1, 2011.

The following table provides a reconciliation of changes in the product warranty liability:

	Three Months Ended March 31, 2012		2011
	(in millions)		
Beginning balance	\$ 13.4		\$ 2.3
Accruals	3.6		3.0
Settlements	(0.2)	(0.2
Adjustment to prior period accruals	(0.1)	0.1
Foreign currency translation and other	0.1		0.1
Ending balance	\$ 16.8		\$ 5.3

9. INCOME TAXES

We are required to adjust our effective tax rate each quarter to consistently estimate our annual effective tax rate. We must also record the tax impact of certain discrete items, unusual or infrequently occurring, including changes in judgment about valuation allowances and effects of changes in tax laws or rates, in the interim period in which they occur. In addition, jurisdictions with a projected loss for the year or a year-to-date loss where no tax benefit can be recognized are excluded from the estimated annual effective tax rate. The impact of such an exclusion could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

Income tax expense was \$2.2 million in the first quarter of 2012 as compared to \$2.1 million in the first quarter of 2011. Our effective income tax rate was 4.3% in the first quarter of 2012 as compared to 5.4% in the first quarter of 2011. Our income tax expense and effective tax rate for the three months ended March 31, 2012 and 2011 reflect the effect of recognizing a net operating loss benefit against our taxable income in the U.S. Our income tax expense and effective tax rate for the three months ended March 31, 2012 reflect the effect of recognizing a tax benefit of \$1.1 million relating to the release of a prior year unrecognized tax benefit, due to the expiration of the statute of limitations for the year in which the uncertain tax position was established. Our income tax expense for the three months ended March 31, 2012 also reflects tax expense of \$0.7 million relating to foreign withholding taxes paid for which a foreign tax credit cannot currently be realized.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

10. EARNINGS PER SHARE (EPS)

The following table sets forth the computation of our basic and diluted EPS:

	Three Months Ended March 31, 2012 2011 (in millions, except per share data)	
Numerator		
Net income attributable to AAM	\$51.2	\$37.7
Denominator		
Basic shares outstanding -		
Weighted-average shares outstanding	75.0	73.7
Effect of dilutive securities		
Dilutive stock-based compensation	—	0.2
Dilutive GM warrants	—	1.4
Diluted shares outstanding -		
Adjusted weighted-average shares after assumed conversions	75.0	75.3
Basic EPS	\$0.68	\$0.51
Diluted EPS	\$0.68	\$0.50

Certain exercisable stock options were excluded in the computations of diluted EPS because the exercise price of these options was greater than the average period market prices. The number of stock options outstanding, which were not included in the calculation of diluted EPS, was 3.3 million at March 31, 2012 and 4.1 million at March 31, 2011. The ranges of exercise prices related to the excluded exercisable stock options were \$15.58 - \$40.83 at March 31, 2012 and \$15.56 - \$40.83 at March 31, 2011.

As part of the 2009 Settlement and Commercial Agreement, we issued to GM five year warrants, which entitled GM to purchase 4.1 million shares of AAM's common stock at an exercise price of \$2.76 per share. In the first quarter of 2011, GM exercised these warrants. In accordance with the cashless exercise option available in the agreement, we issued 3.3 million net shares of common stock to GM.

11. INVESTMENT IN JOINT VENTURES

In the first quarter of 2012, we paid \$4.0 million to acquire the remaining shares of e-AAM Driveline Systems AB (e-AAM). e-AAM, previously a joint venture between AAM and Saab Automobile AB (Saab), was created to design and commercialize electric all-wheel-drive (eAWD) systems designed to improve fuel efficiency, reduce CO₂ emissions and provide all-wheel-drive capability.

Under the purchase agreement, Saab's bankruptcy estate sold its minority ownership (33% of the shares) in the joint venture to AAM. e-AAM is now a wholly-owned subsidiary of AAM and continues to be a fully consolidated entity. As a result, AAM has 100% ownership and control of the business operation and will continue the full scope of engineering, developing and commercializing eAWD hybrid driveline systems for passenger cars and crossover

vehicles.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

12. CONTINGENCIES

In February 2012, the International UAW filed suit in the United States District Court for the Eastern District of Michigan, alleging that AAM violated certain provisions of the collective bargaining agreement related to pension and postretirement benefits. AAM disputes these claims and intends to defend the lawsuit vigorously. While the exact amount of any potential liability is not known, a reasonable estimate of the value of these pension and postretirement benefits, based on the information available to date as a result of the claims asserted by the International UAW, is approximately \$18.2 million, as valued by our actuaries. As this case is in the earliest stages of activity, we are unable to predict the timing or outcome of these proceedings at this time. New facts and circumstances may become available in the future that could have a significant impact on this estimate.

13. SUPPLEMENTAL GUARANTOR CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

Holdings has no significant asset other than its 100% ownership in AAM, Inc. and no direct subsidiaries other than AAM, Inc. Holdings fully and unconditionally guarantees the 7.875% Notes and 5.25% Notes, which are senior unsecured obligations of AAM, Inc. The 9.25% Notes are senior secured obligations of AAM Inc. and the 7.75% Notes are senior unsecured obligations of AAM Inc.; both of which are fully and unconditionally guaranteed by Holdings and substantially all domestic subsidiaries of AAM, Inc.

These Condensed Consolidating Financial Statements are prepared under the equity method of accounting whereby the investments in subsidiaries are recorded at cost and adjusted for the parent's share of the subsidiaries' cumulative results of operations, capital contributions and distributions, and other equity changes.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis (MD&A) should be read in conjunction with the unaudited condensed consolidated financial statements and notes appearing elsewhere in this Quarterly Report and our Annual Report on Form 10-K for the year ended December 31, 2011.

Unless the context otherwise requires, references to "we," "our," "us" or "AAM" shall mean collectively (i) American Axle & Manufacturing Holdings, Inc. (Holdings), a Delaware corporation, and (ii) American Axle & Manufacturing, Inc. (AAM, Inc.), a Delaware corporation, and its direct and indirect subsidiaries. Holdings has no subsidiaries other than AAM, Inc.

COMPANY OVERVIEW

We are a Tier I supplier to the automotive industry. We manufacture, engineer, design and validate driveline and drivetrain systems and related components and chassis modules for light trucks, sport utility vehicles (SUVs), passenger cars, crossover vehicles and commercial vehicles. Driveline and drivetrain systems include components that transfer power from the transmission and deliver it to the drive wheels. Our driveline, drivetrain and related products include axles, chassis modules, driveshafts, power transfer units, transfer cases, chassis and steering components, driveheads, transmission parts and metal-formed products. In addition to locations in the United States (U.S.) (Michigan, Ohio, Indiana and Pennsylvania), we also have offices or facilities in Brazil, China, Germany, India, Japan, Luxembourg, Mexico, Poland, Scotland, South Korea, Sweden and Thailand.

We are the principal supplier of driveline components to General Motors Company (GM) for its rear-wheel drive (RWD) light trucks and SUVs manufactured in North America, supplying substantially all of GM's rear axle and front four-wheel drive and all-wheel drive (4WD/AWD) axle requirements for these vehicle platforms. Sales to GM were approximately 74% of our total net sales in the first quarter of 2012 as compared to 72% in the first quarter of 2011 and 73% for the full-year 2011.

We are the sole-source supplier to GM for certain axles and other driveline products for the life of each GM vehicle program covered by a Lifetime Program Contract (LPC). Substantially all of our sales to GM are made pursuant to the LPCs. The LPCs have terms equal to the lives of the relevant vehicle programs or their respective derivatives, which typically run 5 to 7 years, and require us to remain competitive with respect to technology, design and quality.

We are also the principal supplier of driveline system products for the Chrysler Group LLC's (Chrysler) heavy-duty Dodge Ram full-size pickup trucks and its derivatives. Sales to Chrysler were approximately 9% of our total net sales in the first quarter of 2012 and 2011, and 8% for the full-year 2011. In addition to GM and Chrysler, we supply driveline systems and other related components to Volkswagen AG, Audi AG, Scania AB, Mack Trucks Inc., PACCAR Inc., Nissan Motor Co. Ltd., Harley-Davidson Inc., Tata Motors, Ford Motor Company, Deere & Company and other original equipment manufacturers (OEMs) and Tier I supplier companies. Our net sales to customers other than GM increased to \$193.6 million in the first quarter of 2012 as compared to \$178.4 million in the first quarter of 2011.

RESULTS OF OPERATIONS — THREE MONTHS ENDED MARCH 31, 2012 AS COMPARED TO THREE MONTHS ENDED MARCH 31, 2011

Net Sales Net sales increased to \$751.5 million in the first quarter of 2012 as compared to \$645.6 million in the first quarter of 2011. As compared to the first quarter of 2011, our sales in the first quarter of 2012 reflect an increase of approximately 14% in production volumes for the major North American light truck and SUV programs we currently support. These increases reflect the continuing improvement in both general economic conditions and market conditions in the automotive industry.

Our content-per-vehicle (as measured by the dollar value of our products supporting our customers' North American light truck and SUV programs) was \$1,475 in the first quarter of 2012 as compared to \$1,478 in the first quarter of 2011. Our 4WD/AWD penetration rate on these vehicle programs increased to 64.6% in the first quarter 2012 as compared to 63.8% in the first quarter of 2011.

Gross Profit Gross profit increased to \$139.2 million in the first quarter of 2012 as compared to \$115.4 million in the first quarter of 2011. Gross margin increased to 18.5% in the first quarter of 2012 as compared to 17.9% in the first quarter of 2011. The increase in gross profit and margin in the first quarter of 2012, as compared to the first quarter of 2011, primarily reflects the positive impact of an increase in sales and a \$21.8 million other postretirement benefits (OPEB) curtailment gain recorded as a result of the Detroit Manufacturing Complex (DMC) and Cheektowaga Manufacturing Facility (CKMF) hourly associates who have terminated employment from AAM as a result of our plant closures. Gross profit and gross margin were negatively impacted by increased costs for steel and other metallic material prices, in addition to special charges and other non-recurring operating costs of \$16.0 million, primarily related to asset redeployment and other costs related to the closures of DMC and CKMF.

Selling, General and Administrative Expenses (SG&A) SG&A (including research and development (R&D)) was \$61.8 million or 8.2% of net sales in the first quarter of 2012 as compared to \$56.7 million or 8.8% of net sales in the first quarter of 2011. R&D was \$30.1 million in the first quarter of 2012 as compared to \$27.2 million in the first quarter of 2011. The increase in SG&A in the first quarter of 2012 primarily reflects higher R&D spending and increases in our salaried workforce to support worldwide growth, which is partially offset by lower incentive compensation accruals and stock-based compensation expense.

Operating Income Operating income increased to \$77.4 million in the first quarter of 2012 as compared to \$58.7 million in the first quarter of 2011. Operating margin increased to 10.3% in the first quarter of 2012 as compared to 9.1% in the first quarter of 2011. The increases in operating income and operating margin were due to factors discussed in Gross Profit and SG&A above.

Interest Expense and Investment Income Interest expense was \$24.0 million in the first quarter of 2012 as compared to \$21.3 million in the first quarter of 2011. Investment income was \$0.3 million in the first quarter of 2012 and 2011.

The weighted-average interest rate of our long-term debt outstanding was 7.9% in the first quarter of 2012 and 8.3% in the first quarter of 2011.

Other Income (Expense), Net Other income (expense), net, which includes the net effect of our proportionate share of earnings from equity in unconsolidated subsidiaries and foreign exchange gains and losses, was a loss of \$1.2 million in the first quarter of 2012 as compared to income of \$1.0 million in the first quarter of 2011.

Income Tax Expense Income tax expense was \$2.2 million in the first quarter of 2012 as compared to \$2.1 million in the first quarter of 2011. Our effective income tax rate was 4.3% in the first quarter of 2012 as compared to 5.4% in

the first quarter of 2011. Our income tax expense and effective tax rate for the three months ended March 31, 2012 and 2011 reflect the effect of recognizing a net operating loss benefit against our taxable income in the U.S. Our income tax expense and effective tax rate for the three months ended March 31, 2012 reflect the effect of recognizing a tax benefit of \$1.1 million relating to the release of a prior year unrecognized tax benefit, due to the expiration of the statute of limitations for the year in which the uncertain tax position was established. Our income tax expense for the three months ended March 31, 2012 also reflects a net tax expense of \$0.7 million relating to foreign withholding taxes paid for which a foreign tax credit cannot currently be realized.

In accordance with accounting guidance for income taxes, we estimate whether recoverability of our deferred tax assets is "more likely than not," based on forecasts of taxable income in the related tax jurisdictions. If, in the future, we generate taxable income on a sustained basis in the U.S. or in foreign jurisdictions for which we have recorded valuation allowances, our current estimate of the recoverability of our deferred tax assets could change and result in the future reversal of some or all of the valuation allowances. Our current low effective tax rate is primarily the result of our valuation allowance against deferred tax assets. Sustained levels of profitability are expected to lead to a reversal of the majority of our valuation allowance, which could occur as early as the second half of 2012.

Net Loss Attributable to Noncontrolling Interests Net loss attributable to noncontrolling interests was \$0.9 million in the first quarter of 2012 and \$1.1 million in the first quarter of 2011. The noncontrolling interest in e-AAM was acquired in the first quarter of 2012, so there will no longer be an allocation of net loss attributable to noncontrolling interests related to this entity.

Net Income Attributable to AAM and Earnings Per Share (EPS) Net income attributable to AAM increased to \$51.2 million in the first quarter of 2012 as compared to \$37.7 million in the first quarter of 2011. Diluted EPS increased to \$0.68 in the first quarter of 2012 as compared to \$0.50 in the first quarter of 2011. Net income attributable to AAM and EPS for the first quarters of 2012 and 2011 were primarily impacted by the factors discussed in Gross Profit and SG&A above.

LIQUIDITY AND CAPITAL RESOURCES

Our primary liquidity needs are to fund capital expenditures, debt service obligations, employee benefit plan obligations and our working capital requirements. We believe that operating cash flow, available cash and cash equivalent balances and available committed borrowing capacity under our Revolving Credit Facility will be sufficient to meet these needs.

Operating Activities In the first quarter of 2012, net cash used in operating activities was \$71.5 million as compared to net cash provided by operating activities of \$1.0 million in the first quarter of 2011. The following factors impacted cash provided by (used in) operating activities in the first quarter of 2012 as compared to the first quarter of 2011:

Sales and production volumes Our operating cash flow was favorably impacted by higher profits related to an increase in sales and production activity in the first quarter of 2012 as compared to the first quarter of 2011.

Cash paid for special charges In the first quarter of 2012, we made cash payments of \$20.9 million for special charges primarily related to asset redeployment and other costs associated with the closure of DMC and CKMF. In the first quarter of 2011, we made cash payments of \$2.0 million primarily related to leased assets that were permanently idled.

In the first quarter of 2012, we incurred asset redeployment and other non-recurring operating costs of \$12.2 million and \$17.5 million of capital expenditures associated with the closure of DMC and CKMF. We expect to incur approximately \$9 million of additional asset redeployment and other plant closure related costs and approximately \$12 million of additional capital expenditures associated with the completion of these plant closures in the second quarter of 2012.

Standardization of payment terms As a result of a change in the administration of GM supplier payment terms, we expect our operating cash flow to be negatively impacted by approximately \$40 million in the first half of 2012. Approximately \$16 million of this impact was incurred in the first quarter of 2012.

Pension and other postretirement benefits As a result of discretionary pension funding in the fourth quarter of 2011 and 2010, we were not required to make any significant pension contributions in the first quarter of 2012 or 2011, respectively. Our regulatory pension funding requirement in 2012 is approximately \$35 million. We expect our cash outlay for OPEB obligations in 2012, net of GM cost sharing, to be approximately \$16 million.

Investing Activities Capital expenditures were \$44.5 million in the first quarter of 2012 as compared to \$31.5 million in the first quarter of 2011. We expect our capital spending in 2012 to approximate 6.0% of sales (or approximately \$175 million), which includes support for our significant global program launches in 2012 and 2013 within our new business backlog.

In the first quarter of 2012, we received \$0.9 million of proceeds related to the sale of property, plant and equipment as compared to \$1.5 million in the first quarter of 2011.

Financing Activities In the first quarter of 2012, net cash provided by financing activities was \$57.0 million as compared to \$1.2 million in the first quarter of 2011. Total long-term debt outstanding increased \$68.5 million in the first quarter of 2012 to \$1,248.7 million as compared to \$1,180.2 million at year-end 2011, primarily as a result of borrowing on our Revolving Credit Facility in the first quarter of 2012.

At March 31, 2012, we had \$233.6 million available under the Revolving Credit Facility. This availability reflects a reduction of \$28.2 million for standby letters of credit issued against the facility. We also utilize foreign credit facilities and uncommitted lines of credit to finance working capital needs. At March 31, 2012, \$53.6 million was outstanding with an additional \$14.2 million available under these facilities.

Pursuant to the terms of our 9.25% Notes, we have the right to voluntarily redeem an additional 10% of our 9.25% Notes as early as June 2012.

In the first quarter of 2012, we paid \$4.0 million to acquire the remaining shares of e-AAM Driveline Systems AB (e-AAM). e-AAM, previously a joint venture between AAM and Saab Automobile AB, was created to design and commercialize electric all-wheel-drive (eAWD) systems designed to improve fuel efficiency, reduce CO₂ emissions and provide all-wheel-drive capability.

In the first quarter of 2012, we repurchased 0.5 million shares of AAM common stock for \$5.9 million to satisfy employee tax withholding obligations due upon the vesting of our 2007 and 2009 restricted stock grants.

We received \$0.1 million in the first quarter of 2012 related to the exercise of employee stock options as compared to \$4.6 million in the first quarter of 2011.

CYCLICALITY AND SEASONALITY

Our operations are cyclical because they are directly related to worldwide automotive production, which is itself cyclical and dependent on general economic conditions and other factors. Our business is also moderately seasonal as our major OEM customers historically have an extended shutdown of operations (typically 1-2 weeks) in conjunction with their model year changeover and an approximate one-week shutdown in December. Accordingly, our quarterly results may reflect these trends.

LITIGATION AND ENVIRONMENTAL MATTERS

We are involved in various legal proceedings incidental to our business. Although the outcome of these matters cannot be predicted with certainty, we do not believe that any of these matters, individually or in the aggregate, will have a material adverse effect on our financial condition, results of operations or cash flows.

We are subject to various federal, state, local and foreign environmental and occupational safety and health laws, regulations and ordinances, including those regulating air emissions, water discharge, waste management and environmental cleanup. We will continue to closely monitor our environmental conditions to ensure that we are in compliance with all laws, regulations and ordinances. We have made, and will continue to make, capital and other expenditures (including recurring administrative costs) to comply with environmental requirements. Such expenditures were not significant in the first quarter of 2012, and we do not expect such expenditures to be significant for the remainder of 2012.

In February 2012, the International UAW filed suit in the United States District Court for the Eastern District of Michigan, alleging that AAM violated certain provisions of the collective bargaining agreement related to pension and

postretirement benefits. AAM disputes these claims and intends to defend the lawsuit vigorously. While the exact amount of any potential liability is not known, a reasonable estimate of the value of these pension and postretirement benefits, based on the information available to date as a result of the claims asserted by the International UAW, is approximately \$18.2 million, as valued by our actuaries. As this case is in the earliest stages of activity, we are unable to predict the timing or outcome of these proceedings at this time. New facts and circumstances may become available in the future that could have a significant impact on this estimate.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

MARKET RISK

Our business and financial results are affected by fluctuations in world financial markets, including interest rates and currency exchange rates. Our hedging policy has been developed to manage these risks to an acceptable level based on management's judgment of the appropriate trade-off between risk, opportunity and cost. We do not hold financial instruments for trading or speculative purposes.

Currency Exchange Risk From time to time, we use foreign currency forward contracts to reduce the effects of fluctuations in exchange rates, primarily relating to the Mexican Peso, Euro, Pound Sterling and Brazilian Real. At March 31, 2012, we had currency forward contracts with a notional amount of \$54.0 million outstanding. The potential decrease in fair value of foreign exchange contracts, assuming a 10% adverse change in the foreign currency exchange rates, would be approximately \$4.9 million at March 31, 2012.

Future business operations and opportunities, including the expansion of our business outside North America, may further increase the risk that cash flows resulting from these activities may be adversely affected by changes in currency exchange rates. If and when appropriate, we intend to manage these risks by utilizing local currency funding of these expansions and various types of foreign exchange contracts.

Interest Rate Risk We are exposed to variable interest rates on certain credit facilities. From time to time, we have used interest rate hedging to reduce the effects of fluctuations in market interest rates. As of March 31, 2012, there are no interest rate swaps in place. The pre-tax earnings and cash flow impact of a one-percentage-point increase in interest rates (approximately 13% of our weighted-average interest rate at March 31, 2012) on our long-term debt outstanding at March 31, 2012 would be approximately \$1.1 million on an annualized basis.

Item 4. Controls and Procedures

Under the direction of our Chief Executive Officer and Chief Financial Officer, we evaluated our disclosure controls and procedures and internal control over financial reporting and concluded that (1) our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) were effective as of March 31, 2012, and (2) no change in internal control over financial reporting occurred during the quarter ended March 31, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1A. Risk Factors

There were no material changes from the risk factors previously disclosed in our December 31, 2011 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In the first quarter of 2012, we withheld and repurchased shares of AAM stock to satisfy employee tax withholding obligations due upon the vesting of restricted stock. The following table provides information about our equity security purchases during the quarter ended March, 31, 2012:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares (Or Units) Purchased	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
January 1 - January 31, 2012	372,301	\$ 11.40	—	—
February 1 - February 29, 2012	—	—	—	—
March 1 - March 31, 2012	140,540	\$ 11.61	—	—
Total	512,841	\$ 11.46	—	—

Item 6. Exhibits

Exhibits required by Item 601 of Regulation S-K are listed in the Exhibit Index.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
