(e) On April 18, 2008, EXACT Sciences Corporation (the Company) entered into amended and restated employee retention agreements (the Agreements) with certain employees, including Jeffrey R. Lubert, the Company's President and Chief Executive Officer, and Charles R. Carelli, Jr., the Company's Senior Vice President, Chief Financial Officer, Treasurer and Secretary. The Agreements supersede and replace the prior employee retention agreements entered into between the Company and Messrs. Lubert and Carelli on October 23, 2006.

In the event that the Company terminates Mr. Lubert's or Mr. Carelli's employment other than for cause, the Agreements provide for, among other things, (i) severance payments equal to eighteen (18) months and fifteen (15) months, respectively, in the form of salary continuation to Messrs. Lubert and Carelli at a rate equivalent to their base salaries as of the date of termination; (ii) continued health insurance premium payments for such respective periods; and (iii) nine (9) months accelerated vesting of unvested stock options. Such severance payments would also be due (except that unvested stock options would also accelerate in full) upon termination of such executive's employment, within two (2) years following a change of control, without cause or for good reason, which is defined in the Agreements as a material diminution in job responsibility, a substantial reduction in compensation or a certain geographic movement. In addition, the Agreements provide that, upon a change in control of the Company, fifty percent (50%) of the unvested stock options held by each such executive will be accelerated. Messrs. Lubert and Carelli will each also be entitled to a bonus in an amount equal to such executive's then-current annual base salary upon a change in control of the Company or other significant transaction as determined by the Board of Directors.

The foregoing description of the Agreements is not complete and is qualified in its entirety by reference to the Agreements, which are filed as Exhibits 10.1 and 10.2 hereto and which are incorporated herein by reference.
