## CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Consolidated Financial Information

The unaudited consolidated financial information for the first quarter ended March 31, 2010 and 2009, reflect, in the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows of Ecolab Inc. ( the company ) for the interim periods presented. The financial results for any interim period are not necessarily indicative of results for the full year. The consolidated balance sheet data as of December 31, 2009 was derived from the audited consolidated financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The unaudited consolidated financial information should be read in conjunction with the consolidated financial statements and notes thereto incorporated in the company s Annual Report on Form 10-K for the year ended December 31, 2009.

With respect to the unaudited financial information of the company for the first quarter ended March 31, 2010 and 2009 included in this Form 10-Q, PricewaterhouseCoopers LLP reported that they have applied limited procedures in accordance with professional standards for a review of such information. Therefore, their separate report dated May 6, 2010 appearing herein, states that they did not audit and they do not express an opinion on that unaudited financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. PricewaterhouseCoopers LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933, as amended (the Act ) for their report on the unaudited financial information because that report is not a report or a part of a registration statement prepared or certified by PricewaterhouseCoopers LLP within the meaning of Sections 7 and 11 of the Act.

2. Special Gains and Charges

Special gains and charges reported on the Consolidated Statement of Income include the following:

## Edgar Filing: ECOLAB INC - Form 10-Q

Beginning in 2010, Venezuela has been designated hyper-inflationary and as such all foreign currency fluctuations are recorded in income. On January 8, 2010 the Venezuelan government devalued its currency (Bolivar Fuerte). As a result of the devaluation, the company recorded a charge of \$4.2 million in the first quarter of 2010 due to remeasurement of the local balance sheet using the official rate of exchange for the Bolivar Fuerte.

2. Special Gains and Charges (Continued)

In 2009, the company completed restructuring and other cost-saving actions in order to streamline operations and improve efficiency and effectiveness. The restructuring included a reduction of the company's global workforce by 950 positions or 4% and the reduction of plant and distribution center locations during 2009. As a result of these actions, the company recorded restructuring charges of \$32.7 million (\$20.9 million after tax) in the first quarter of 2009. The restructuring plan was finalized and all actions, except for certain cash payments, were completed as of December 31, 2009.

The restructuring charges and subsequent reductions to the related liability accounts include the following:

(millions)	Employee Termination Costs	Disposals	Other	Total
<b>First Quarter 2009:</b>				
Recorded expense and accrual	\$ 31.2	\$ 0.6	\$ 0.9	\$ 32.7
Cash payments	(8.0)			(8.0)
Non-cash charges		(0.6)	(0.9)	(1.5)
Restructuring liability, March 31, 2009	\$ 23.2	\$	\$	\$ 23.2
<b>First Quarter 2010:</b>				
Restructuring liability December 31, 2009	\$ 18.6	\$	\$ 1.4	\$ 20.0
Cash payments	(8.0)		(0.9)	(8.9)
Effect of foreign currency translation	(0.6)			(0.6)
Restructuring liability, March 31, 2010	\$ 10.0	\$	\$ 0.5	\$ 10.5

Restructuring charges have been included as a component of both cost of sales and special gains and charges on the Consolidated Statement of Income for 2009. Amounts included as a component of cost of sales include asset write-downs and manufacturing related severance.

Restructuring liabilities have been classified as a component of other current liabilities on the Consolidated Balance Sheet. The majority of the remaining accrued amount is expected to be paid in 2010.

Employee termination costs include personnel reductions and related costs for severance, benefits and outplacement services. Asset disposals include inventory and intangible asset write-downs related to the discontinuance of product lines which are not consistent with the company's

long-term strategies. Other charges include one-time curtailment and settlement charges related to the company's International pension plans and U.S. postretirement health care benefits plan, and lease terminations.

For segment reporting purposes, special gains and charges are included in the Corporate segment, which is consistent with the company's internal management reporting.

5. **Financial Instruments and Hedging Transactions**

The carrying amount and the estimated fair value of financial instruments held by the company were:

(millions)	March 31, 2010		December 31, 2009	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
<b><u>Assets</u></b>				
Cash and cash equivalents	\$ 85.3	\$ 85.3	\$ 73.6	\$ 73.6
Accounts receivable, net	950.2	950.2	1,016.1	1,016.1

Commercial paper	168.0	168.0	74.4	74.4
Long-term debt (including current maturities)	835.6	880.0	876.7	908.7

The carrying amount of cash equivalents, accounts receivable, notes payable and commercial paper approximate fair value because of their short maturities. The carrying amount of foreign exchange contracts is at fair value, which is determined based on foreign currency exchange rates as of the balance sheet date (level 2 - significant other observable inputs). The fair value of long-term debt is based on quoted market prices for the same or similar debt instruments. The company has concluded that it does not have any amounts of financial assets and liabilities measured using the company's own assumptions of fair market value (level 3 - unobservable inputs).

**Derivative Instruments and Hedging**

The company uses foreign currency forward contracts, interest rate swaps and foreign currency debt to manage risks associated with foreign currency exchange rates, interest rates and net investments in foreign operations. The company records all derivatives as assets and liabilities on the balance sheet at fair value. Changes in fair value are recognized immediately in earnings unless the derivative qualifies and is designated as a hedge. The effective portion of changes in fair value of hedges are initially recognized in accumulated other comprehensive income ( AOCI ) on the Consolidated Balance Sheet. Amounts recorded in AOCI are reclassified into earnings in the same period or periods during which the hedged transactions affect earnings. The company evaluates hedge effectiveness at inception and on an ongoing basis. If a derivative is no longer expected to be effective, hedge accounting is discontinued. Hedge ineffectiveness, if any, is recorded in earnings.

The company does not hold derivative financial instruments of a speculative nature. The company is exposed to credit loss in the event of nonperformance of counterparties for foreign currency forward exchange contracts and interest rate swap agreements. The company monitors its exposure to credit risk by using credit approvals and credit limits and by selecting major international banks and financial institutions as counterparties. The company does not anticipate nonperformance by any of these counterparties.

## CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

**5. Financial Instruments and Hedging Transactions (Continued)***Derivatives Designated as Cash Flow Hedges*

The company utilizes foreign currency forward contracts to hedge the effect of foreign currency exchange rate fluctuations on forecasted foreign currency transactions, including: sales, inventory purchases, and intercompany royalty and management fee payments. These forward contracts are designated as cash flow hedges. The effective portions of the changes in fair value of these contracts are recorded in AOCI until the hedged items affect earnings, at which time the gain or loss is reclassified into the same line item in the Consolidated Statement of Income as the underlying exposure being hedged. All hedged transactions are forecasted to occur within the next twelve months.

The company occasionally enters into interest rate swap contracts to manage interest rate exposures. In 2006 the company entered into and subsequently closed two forward starting swap contracts related to the issuance of its senior euro notes. The settlement payment was recorded in AOCI and is recognized in earnings as part of interest expense over the remaining life of the notes as the forecasted interest transactions occur.

*Derivatives Not Designated as Hedging Instruments*

The company also uses foreign currency forward contracts to offset its exposure to the change in value of certain foreign currency denominated assets and liabilities, primarily receivables and payables. Although the contracts are effective economic hedges, they are not designated as accounting hedges. Therefore, changes in the value of these derivatives are recognized immediately in earnings, thereby offsetting the current earnings effect of the related foreign currency denominated assets and liabilities.

The following table summarizes the fair value of the company's outstanding derivatives:

(millions)	Balance Sheet Location	Asset Derivatives		Liability Derivatives		
		March 31 2010	December 31 2009	March 31 2010	December 31 2009	
<u>Derivatives designated as hedging instruments:</u>						
Foreign currency forward contracts	Other current assets	\$ 1.0	\$ 0.9	Other current liabilities	\$ 1.9	\$ 4.1

Derivatives not designated as hedging instruments:

Foreign currency forward contracts	Other current assets		0.8		Other current liabilities		3.7		1.6
Total		\$	1.8	\$	3.2	\$	5.6	\$	5.7

The company had foreign currency forward exchange contracts with notional values that totaled approximately \$406 million at March 31, 2010, and \$356 million at December 31, 2009.

**5. Financial Instruments and Hedging Transactions (Continued)**Net Investment Hedge

The company designates its euro 300 million (\$409 million as of March 31, 2010) senior notes and related accrued interest as a hedge of existing foreign currency exposures related to net investments the company has in certain Euro functional subsidiaries. Accordingly, the transaction gains and losses on the euronotes which are designated and effective as hedges of the company's net investments have been included as a component of the cumulative translation adjustment account. Total transaction gains and losses related to the euronotes charged to shareholders' equity were as follows:

7. Business Acquisitions and Dispositions

There were no acquisitions or material business disposals during the first quarter of 2010.

There were no business disposals during the first quarter of 2009. In February 2009, the company acquired assets of the Stackhouse business of CORPAK Medsystems, Inc. Stackhouse is a leading developer, manufacturer and marketer of surgical helmets and smoke evacuators, primarily for use during orthopedic surgeries. The business, which has annual sales of approximately \$4 million, became part of the company's U.S. Cleaning & Sanitizing operations during the first quarter of 2009.

Acquisitions in 2009 are not material to the company's consolidated financial statements; therefore pro forma financial information is not presented. The aggregate purchase price of acquisitions has been reduced for any cash or cash equivalents acquired with the acquisitions.

Based upon purchase price allocations, the components of the aggregate purchase prices of acquisitions and investments in affiliates made were as follows:

The company is not required to make any contributions to its U.S. pension plan and postretirement health care benefits plan for 2010.

Certain international pension benefit plans are required to be funded in accordance with local government requirements. The company contributed \$6.7 million to its international pension benefit plans during the first quarter of 2010. The company currently estimates that it will contribute approximately \$20 million more to the international pension benefit plans during the remainder of 2010.

11. Goodwill and Other Intangible Assets

The company tests goodwill for impairment on an annual basis during the second quarter. If circumstances change significantly, the company would also test a reporting unit for impairment during interim periods between its annual tests.

The straight-line method of amortization reflects an appropriate allocation of the cost of the intangible assets to earnings in proportion to the amount of economic benefits obtained by the company in each reporting period. Total amortization expense related to other intangible assets during the first quarters ended March 31, 2010 and 2009 was \$10.3 million and \$10.0 million, respectively. As of March 31, 2010, future estimated amortization expense related to amortizable other identifiable intangible assets will be:

12. New Accounting Pronouncements

There were no new accounting pronouncements issued or effective that have had or are expected to have a material impact on the company's consolidated financial statements.

13. Commitments and Contingencies

The company and certain subsidiaries are party to various lawsuits, claims and environmental actions that have arisen in the ordinary course of business. These include antitrust, patent infringement, product liability and wage hour lawsuits, as well as possible obligations to investigate and mitigate the effects on the environment of the disposal or release of certain chemical substances at various sites, such as Superfund sites and other operating or closed facilities. Because litigation is inherently uncertain, and unfavorable rulings or developments could occur, there can be no certainty that the company may not ultimately incur charges in excess of presently recorded liabilities. A future adverse ruling, settlement or unfavorable development could result in future charges that could have a material adverse effect on the company's results of operations or cash flows in the period in which they are recorded. The company currently believes that such future charge, if any, would not have a material adverse effect on the company's consolidated financial position.

## Edgar Filing: ECOLAB INC - Form 10-Q

The company records liabilities where a contingent loss is probable and can be reasonably estimated. If the reasonable estimate of a probable loss is a range, the company records the most probable estimate of the loss or the minimum amount when no amount within the range is a better estimate than any other amount. The company discloses a contingent liability even if the liability is not probable or the amount is not estimable, or both, if there is a reasonable possibility that a material loss may have been incurred.

The company is a defendant in three wage hour lawsuits in the Southern District of New York, one of which has been certified for class-action status. The company has entered into a settlement agreement covering these suits which has been preliminarily approved by the court and is subject to final approval. The company has fully accrued for the settlement amount, which is not material to the company's consolidated results of operations or financial position.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Directors

Ecolab Inc.

We have reviewed the accompanying consolidated balance sheet of Ecolab Inc. and its subsidiaries as of March 31, 2010 and the related consolidated statement of income for the three month periods ended March 31, 2010 and 2009 and the consolidated statement of cash flows for the three month periods ended March 31, 2010 and 2009. These interim financial statements are the responsibility of Ecolab's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2009, and the related consolidated statements of income, of comprehensive income and changes in shareholders' equity, and of cash flows for the year then ended (not presented herein), and in our report dated February 26, 2010, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet information as of December 31, 2009, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis provides information that we believe is useful in understanding our operating results, cash flows and financial condition. The discussion should be read in conjunction with both the unaudited consolidated financial information and related notes included in this Form 10-Q, and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2009. This discussion contains various Non-GAAP Financial Measures and also contains various Forward-Looking Statements within the meaning of the Private Securities Litigation Reform Act of 1995. We refer readers to the statements entitled Non-GAAP Financial Measures and Forward-Looking Statements located at the end of Part I of this report.

**Overview of the First Quarter Ended March 31, 2010**

We delivered strong earnings results in the first quarter of 2010, despite continued challenging market conditions. First quarter sales improved, led by strong sales growth from Kay, Asia Pacific, Canada and Latin America operations. Cost savings actions and favorable delivered product costs helped income and margins improve during the quarter.

Both 2010 and 2009 results of operations included special gains and charges, as well as discrete tax items which impact the year over year comparisons.

**Sales Performance**

- Consolidated net sales increased 6% to \$1.4 billion. Net sales were favorably impacted by foreign currency exchange during the quarter. When measured in fixed rates of currency exchange, sales grew 2%.
- U.S. Cleaning & Sanitizing sales grew 2% to \$632 million. Results were led by 13% sales growth at Kay. Institutional showed improvement, growing sales 1%, Food & Beverage sales were comparable to the prior year and Healthcare reported a 1% sales decline.
- U.S. Other Services sales declined 2% to \$105 million. Pest Elimination reported a 2% decline and GCS reported a 3% decrease in sales.
- International sales, when measured in fixed rates of currency exchange, increased 2% to \$700 million in the first quarter. Asia Pacific sales grew 10% while Canada and Latin America reported sales growth of 8% and 6%, respectively. Europe/Middle East/Africa ( EMEA ) sales declined 1% in the quarter. When measured at public currency rates, International sales increased 12%.

ECOLAB INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Financial Performance

- Operating income increased 58% to \$154 million. Excluding the impact of special gains and charges from both years, adjusted operating income increased 19% compared to the first quarter of 2009.
- Net income attributable to Ecolab increased 66% to \$96 million. Excluding the impact of special gains and charges, and discrete tax items, adjusted net income attributable to Ecolab increased 24%.
- Diluted net income attributable to Ecolab per share increased 67% to \$0.40 for the first quarter of 2010 compared to \$0.24 in the first quarter of 2009. Excluding the impact of special gains and charges, and discrete tax items, adjusted diluted net income attributable to Ecolab per share increased 24% to \$0.41 for the first quarter of 2010 compared to \$0.33 in the first quarter of 2009.
- Our reported effective income tax rate was 31.1% for the first quarter of 2010 compared to 29.4% for the first quarter of 2009. Excluding the tax rate impact of special gains and charges, and discrete tax items, our adjusted effective income tax rate was 30.6% and 31.3% for the first quarter of 2010 and 2009, respectively.

Reconciliations of reported and adjusted amounts referred to above are provided on pages 24 and 25 of this report.

Results of Operations – First Quarter Ended March 31, 2010

Net Sales

Consolidated net sales for the first quarter ended March 31, 2010 were \$1.4 billion, an increase of 6% compared to last year. When measured in fixed rates of currency exchange, sales for the first quarter of 2010 were up 2% compared to the comparable prior year period. The components of the sales increase are shown below.

(percent)	First Quarter Ended March 31, 2010
Volume	1%
Price changes	1
Foreign currency exchange	4
Acquisitions & divestitures	
Total sales increase	6%

Gross Profit Margin

The gross profit margin ( gross margin )(defined as the difference between net sales less cost of sales divided by net sales) was 50.0% and 47.5% for the first quarter of 2010 and 2009, respectively. Our gross margin increase for the first quarter was driven by volume gains, pricing and favorable delivered product costs. Cost of sales in the prior year included \$8 million of restructuring charges which reduced our gross margin in the first quarter of 2009.

Selling, General and Administrative Expense

Selling, general and administrative expenses as a percentage of consolidated net sales were 39.0% for the first quarter of 2010 compared to 38.3% in 2009. The increase in ratio for the first quarter was due to continued investments in our business and other cost increases which more than offset savings from last year's restructuring and sales leverage. We continue to make key business investments that drive innovation and efficiency, through R&D and information technology systems.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONSSpecial Gains and Charges

Special gains and charges reported on the Consolidated Statement of Income included the following items:

(millions)	First Quarter Ended	
	March 31 2010	March 31 2009
Cost of sales		
Restructuring charges	\$	\$ 8.0
Special gains and charges		
Restructuring charges		24.7
Venezuela currency devaluation	4.2	
Business structure and optimization	0.6	1.0
Business write-downs and closures	(1.0)	
Other items	(0.3)	0.8
Total	3.5	26.5
Total special gains and charges	\$ 3.5	\$ 34.5

Beginning in 2010, Venezuela has been designated hyper-inflationary and as such all foreign currency fluctuations are recorded in income. On January 8, 2010 the Venezuelan government devalued its currency (Bolívar Fuerte). We are remeasuring the financial statements of our Venezuela subsidiary using the official exchange rate of 4.30 Bolívars to U.S. dollar. As a result of the devaluation, we recorded a charge of \$4.2 million in the first quarter of 2010 due to the remeasurement of the local balance sheet. We are unable to predict the ongoing currency gains and losses for the remeasurement of the balance sheet, but we do not expect these gains and losses to have a material impact on our future consolidated results of operations or financial position.

We recorded restructuring expense of \$32.7 million (\$20.9 million after tax) or \$0.09 per diluted share during the first quarter of 2009. Restructuring expense on the Consolidated Statement of Income has been included both as a component of cost of sales and as a component of special gains and charges, as shown in the table above. Further details related to these restructuring expenses are included in Note 2.

Adjustments:

Non-GAAP adjusted operating income	\$	157.3	\$	132.0	19%

The reported operating income increase was impacted by the year over year comparison of special gains and charges. Excluding the impact of special gains and charges, adjusted operating income increased 19% in the first quarter as volume gains, pricing, favorable delivered product costs and cost savings from last year's restructuring more than offset continued investment in the business and other costs in the quarter. Foreign currency exchange had a favorable impact on the first quarter. Adjusted operating income increased 15% at fixed rates of foreign currency exchange.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Interest Expense, Net

Net interest expense totaled \$15.0 million in the first quarter of 2010, compared with \$15.8 million in the first quarter of 2009. The decrease in our first quarter net interest expense was primarily due to lower short-term borrowings and lower average interest rates during the period, offset partially by lower interest income.

### Provision for Income Taxes

The following table provides a summary of our reported tax rate:

(percent)	First Quarter Ended	
	March 31 2010	March 31 2009
Reported GAAP tax rate	31.1%	29.4%
Tax rate impact of:		
Special gains and charges	(1.0)	1.8
Discrete tax items	0.5	0.1
Non-GAAP adjusted tax rate	30.6%	31.3%

The decrease in the adjusted first quarter effective tax rate was due primarily to increased benefits from the domestic manufacturing deduction in the U.S. The discrete tax items for 2010 included a \$5 million charge due to the passage of the U.S. Patient Protection and Affordable Care Law which changes the tax deductibility related to federal subsidies and resulted in a reduction of the value of the company's deferred tax assets related to the subsidies. This charge was offset by a \$6 million tax benefit from the settlement of an international tax audit.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Net income attributable to Ecolab increased 66% to \$96 million in the first quarter of 2010. On a per share basis, reported diluted net income attributable to Ecolab per share increased 67% to \$0.40 per share compared to \$0.24 per share reported in 2009. The first quarter of 2010 includes \$3.8 million, net of tax, of special gains and charges, and discrete tax benefits of \$0.8 million, which together reduced the reported per share amount by \$0.01 per share. Currency translation had a favorable impact of approximately \$4 million, net of tax, or \$0.02 per share for the first quarter of 2010 compared to 2009. The first quarter of 2009 included \$22.3 million, net of tax, of net charges reported in special gains and charges, and \$0.2 million of net discrete tax benefits, which together decreased the reported per share amount by \$0.09.

Segment Results

Sales for each of our reportable segments are as follows:

(millions)	First Quarter Ended		%
	March 31 2010	March 31 2009

Consolidated	\$ 1,432.1	\$ 1,348.2	6%

U.S. Cleaning & Sanitizing sales increased 2% in the first quarter. Sales for our large U.S. Cleaning & Sanitizing businesses were as follows:

- **Institutional** - Sales improved in the first quarter, rising 1%, as new account gains and new products benefited first quarter sales. We continued to experience soft consumption from our foodservice and lodging customers in the first quarter but we believe our customers have an improving tone to their business and we continue to expect gradual improvement in demand through 2010.
- **Food & Beverage** - Sales in the first quarter of 2010 were comparable to the first quarter of 2009 as moderate growth for our core Food & Beverage business was offset by lower Water Care and Ecovation sales. Food & Beverage sales grew in the beverage and processed food markets as corporate account wins and new products offset soft results in dairy, agri and meat and poultry market segments.
- **Kay** - Sales grew 13% in the first quarter of 2010 led by strong growth from both Quick Service Restaurant (QSR) and Food Retail businesses. Kay QSR sales benefited from sales growth at existing customers as well as success with new products. The Food Retail business continued to show strong sales growth driven by new accounts.

## Edgar Filing: ECOLAB INC - Form 10-Q

- Healthcare - Healthcare sales were off 1% compared to the first quarter of last year. As expected, sales were impacted by our customers rebalancing of H1N1-related product trade inventories.

Segment Results (Continued)

U.S. Other Services sales decreased 2% in the first quarter of 2010 compared to the prior year period. Sales for our U.S. Other Services businesses were as follows:

- Pest Elimination - Sales declined 2% for the first quarter of 2010 compared to the first quarter of 2009. Gains in the quick service restaurant and food & beverage plant market were offset by slow conditions in restaurants and lodging. Both contract services and non-contract sales were lower. New account gains are being offset by customer cancellations as our customers are focusing on reducing their spending due to the continued soft economy.
- GCS Service - Sales declined 3% for the first quarter of 2010. Both service and direct parts sales continued to be soft. New account wins during the quarter were more than offset by slower foodservice business conditions and by general market weakness, especially among independent accounts.

We evaluate the performance of our International operations based on fixed rates of foreign currency exchange. Fixed currency rate sales for our International operations increased 2% for the first quarter of 2010. When measured at public currency rates, International sales increased 12% for the first quarter of 2010. Fixed currency sales changes for our International regions were as follows:

- EMEA - Sales declined 1% for the first quarter of 2010. First quarter sales growth in MEA, U.K. and Italy were offset by flat sales in France and lower sales in Germany. The EMEA region continues to be negatively impacted by the current weak economy in Europe. From a divisional perspective, Europe's Institutional sales were off slightly. The foodservice market appears to be stabilizing in most European markets but we have not yet seen a return to growth. Lodging demand has picked up in Europe. Healthcare and Pest Elimination sales increased modestly, Food & Beverage sales were flat, while Textile Care reported a sales decline for the quarter. Healthcare sales were impacted by the reduced concern regarding the H1N1 virus and the associated decrease in demand for hand sanitizing products.
- Asia Pacific - Sales increased 10% in the first quarter of 2010 as recovery in the region improved. Sales growth in the region continued to be led by growth in Food & Beverage due to increased product penetration and new account gains. Institutional sales also showed a good gain in the quarter with growth strengthening as occupancy levels improve and economies recover. From a country perspective, sales growth was driven by growth in China, Australia and Thailand.
- Latin America - Sales increased 6% led by continued strong growth in Brazil and Venezuela. Our Institutional, Food & Beverage and Pest Elimination businesses all showed strong gains in the region.
- Canada - Sales increased a strong 8% for the first quarter of 2010 compared to the prior year. Sales growth was led by strong results from Food & Beverage, driven by new account wins. Institutional also reported strong sales growth for the quarter led by pricing and increased distributor sales volume.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONSSegment Results (Continued)

Operating income for each of our reportable segments is as follows:

(millions)	First Quarter Ended		%
	March 31 2010	March 31 2009	
<b>Operating Income</b>			
United States			
Cleaning & Sanitizing	\$ 113.4	\$ 102.6	11%

Subtotal at fixed currency rates	153.3	102.1	50
Effect of foreign currency translation	0.5	(4.6)	
Consolidated	\$ 153.8	\$ 97.5	58%

U.S. Cleaning & Sanitizing operating income increased 11% for the first quarter of 2010. Favorable delivered product costs and volume gains more than offset cost increases to drive operating income growth in the first quarter.

U.S. Other Services operating income increased 11% for the first quarter of 2010. Operating income growth was driven by pricing and cost savings actions which more than offset other cost increases.

International segment operating income at fixed currency rates increased 46% for the first quarter of 2010. Strong volume growth, pricing gains, favorable delivered product costs and savings from last year's restructuring more than offset continued investments in the business and increased costs. When measured at public currency rates, International operating income increased 81% for the first quarter of 2010, compared to the prior year.

Consistent with our internal management reporting, the Corporate segment includes special gains and charges reported on the Consolidated Statement of Income. Items included in special gains and charges are shown in the table on page 24. The Corporate segment also includes investments in the development of business systems and other corporate investments we are making as part of our ongoing efforts to improve efficiency and returns.

Financial Position and Liquidity

Total assets were \$4.8 billion as of March 31, 2010, compared to total assets of \$5.0 billion at December 31, 2009. The decrease was primarily due to the impact of foreign currency exchange rates which decreased the value of international assets on our balance sheet when translated into U.S. dollars. In addition to the impact of exchange, our accounts receivable and inventory balances declined from year end 2009, when measured in fixed rates of currency exchange.

Total debt was \$1,039 million as of March 31, 2010 and \$967 million as of December 31, 2009. The ratio of total debt to capitalization (total equity plus total debt) increased to 36% at March 31, 2010 compared to 32% at December 31, 2009 due to a decrease in equity caused by share repurchases and the impact of balance sheet translation, combined with the increase in debt on our balance sheet. We are in compliance with all of our debt covenants and believe we have sufficient borrowing capacity to meet our foreseeable operating needs.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Financial Position and Liquidity (Continued)

Cash provided by operating activities totaled \$135 million for the first three months of 2010 compared to \$27 million in 2009. Operating cash flow in 2009 was negatively impacted by a \$50 million voluntary contribution to our U.S. pension plan. 2010 operating cash flow benefited from improved earnings during the first quarter as well as lower tax payments compared to last year. We continue to generate strong cash flow from operations which has allowed us to continue to fund our ongoing operations, investments in the business, and return cash to shareholders through share repurchases and dividend payments.

Cash used for investing activities decreased slightly to \$58 million in 2010 compared to \$63 million in 2009 primarily due to lower acquisition activity as there was no acquisition activity during the first three months of 2010. Capital and software investments were comparable to the prior year as we continue to invest in merchandising equipment and systems.

Cash used for financing activities in 2010 included the repurchase of 3.3 million of our common shares for \$145 million under our share repurchase program during the first three months of 2010. We did not repurchase shares under our share repurchase program during the first quarter of 2009.

The schedule of contractual obligations included in the Financial Position and Liquidity section of our Form 10-K for the year ended December 31, 2009 disclosed total notes payable and long-term debt due within one year of \$99 million. As of March 31, 2010, the total notes payable and long-term debt due within one year has increased to \$361 million. The increase from year end is primarily due to our \$150 million 6.875% notes, which are due in February 2011, being reclassified to current portion of long-term debt and an increase in our outstanding U.S. commercial paper. Our gross liability for uncertain tax positions was \$104 million as of March 31, 2010 and \$117 million as of December 31, 2009. We are not able to reasonably estimate the amount by which the liability will increase or decrease over time; however, at this time, we do not expect significant payments related to these obligations within the next year. No other significant changes to our contractual obligations occurred during the first three months of 2010.

We currently expect to fund all of the cash requirements which are reasonably foreseeable for the remainder of 2010, including scheduled debt repayments, new investments in the business, dividend payments, possible business acquisitions and pension contributions with cash from operating activities, cash reserves and short-term or long-term borrowings. In the event of a significant acquisition or other significant funding need, funding may occur through additional short and/or long-term borrowing or through the issuance of the company's stock.

As of March 31, 2010, we had \$85 million of cash and cash equivalents on hand and expect our operating cash flow to remain strong. Additionally, we have a \$600 million multi-year credit facility with a diverse portfolio of banks which expires in June 2012. The credit facility supports our \$600 million U.S. commercial paper program and our \$200 million European commercial paper program. Combined borrowing under these two commercial paper programs may not exceed \$600 million. As of March 31, 2010, we had \$168 million in outstanding U.S. commercial paper and no amounts outstanding under our European commercial paper program. Both programs are rated A-1

by Standard & Poor's and P-1 by Moody's.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Non-GAAP Financial Measures

This Quarterly Report on Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operation in Item 2, contains financial measures that have not been calculated in accordance with accounting principles generally accepted in the U.S. (GAAP). These Non-GAAP measures include fixed currency sales and fixed currency operating income, adjusted operating income, adjusted effective tax rate, adjusted net income attributable to Ecolab and adjusted earnings per share amounts. We provide these measures as additional information regarding our operating results. We use these Non-GAAP measures internally to evaluate our performance and in making financial and operational decisions, including with respect to incentive compensation. We believe that our presentation of these measures provides investors with greater transparency with respect to our results of operations and that these measures are useful for period-to-period comparison of results.

We include in special gains and charges items that are unusual in nature, significant in amount and important to an understanding of underlying business performance. In order to better allow investors to compare underlying business performance period-to-period, we provide adjusted operating income, adjusted net income and adjusted diluted earnings per share, which exclude special gains and charges and discrete tax items.

The adjusted effective tax rate measure promotes period-to-period comparability of the underlying effective tax rate because the amounts excluded do not necessarily reflect costs associated with historical trends or expected future costs.

We evaluate the performance of our international operations based on fixed currency rates of foreign exchange. Fixed currency sales and fixed currency operating income measures eliminate the impact of exchange rate fluctuations on our international sales and operating income, respectively, and promote a better understanding of our underlying sales and operating income trends. Fixed currency amounts are based on translation into U.S. dollars at fixed foreign currency exchange rates established by management at the beginning of 2010.

These measures are not in accordance with, or an alternative to GAAP, and may be different from Non-GAAP measures used by other companies. Investors should not rely on any single financial measure when evaluating our business. We recommend that investors view these measures in conjunction with the GAAP measures included in this Financial Discussion and have provided reconciliations of reported GAAP amounts to the Non-GAAP amounts.

Forward-Looking Statements

This Quarterly Report on Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operation in Item 2, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We primarily use foreign currency forward contracts, foreign currency debt and interest rate swaps to manage risks generally associated with interest rate and foreign exchange rate volatility and net investments in our foreign operations. We do not hold derivative financial instruments of a speculative nature. For a more detailed discussion of derivative instruments, refer to Note 5, entitled "Financial Instruments and Hedging Transactions" of the consolidated financial statements located under Part I, Item 1 of this quarterly report on Form 10-Q, beginning on page 11.

Item 4. Controls and Procedures

As of March 31, 2010, we carried out an evaluation, under the supervision and with the participation of our management, including the Chairman of the Board, President and Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, our Chairman of the Board, President and Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures are effective.

During the period January 1 through March 31, 2010, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Note 13, entitled "Commitments and Contingencies" located under Part I, Item 1 of this Form 10-Q beginning on page 20 is incorporated herein by reference.

Item 1A. Risk Factors

In our report on Form 10-K for the year ended December 31, 2009, filed with the Securities and Exchange Commission on February 26, 2010, we identify under Item 1A important factors which could affect our financial performance and could cause our actual results for future periods to differ materially from our anticipated results or other expectations, including those expressed in any forward-looking statements made in this Form 10-Q. There has been no material change in our risk factors subsequent to the filing of our Form 10-K for the year ended December 31, 2009.

We may also refer to said disclosure to identify factors that may cause results to differ from those expressed in other forward-looking statements made in oral presentations, including telephone conferences and/or webcasts open to the public.
