## Edgar Filing: HEWITT ASSOCIATES INC - Form 425

Our second quarter results reflect strong operational performance in Brokerage and Consulting. In Brokerage, our Americas business delivered a two percent increase in organic revenue highlighted by strong growth in Latin America and benefits related to the global risk insight platform. Consulting delivered a two percent increase in organic revenue highlighted by strong growth in international health and benefits and compensation consulting. On an adjusted basis, total operating margins increased 110 basis points, including a 200 basis point increase in Brokerage operating margins, and EPS from continuing operations increased seven percent, said Greg Case, president and chief executive officer. Our GRIP platform, Aon Broking initiatives and restructuring programs are expected to deliver long-term growth and significant margin improvement in Brokerage. In addition, we continue to make substantial investments across our firm, including the recently announced merger of Hewitt with Aon, which upon close, will substantially strengthen our position as the preeminent global professional services firm focused on risk and human capital solutions.

**SECOND QUARTER FINANCIAL SUMMARY**

**Total revenue** increased 1% to \$1.9 billion from the prior year quarter due to a 2% increase from acquisitions, primarily Allied North America, net of dispositions, and a 1% increase from foreign currency translation, partially offset by a 1% organic decline in commissions and fees and a 21% decline in fiduciary investment income.

**Total operating expenses** decreased 2% or \$32 million to \$1.6 billion due primarily to a \$64 million decrease in restructuring related expenses and benefits related to the 2007 and Aon Benfield restructuring programs, partially offset by a non-cash charge to pension expense of \$49 million and an estimated \$10 million unfavorable impact from foreign currency translation.

**Restructuring expenses** were \$31 million in the second quarter compared to \$95 million in the prior year quarter. Including the second quarter expenses, the Company has incurred 96% of the \$905 million of total costs necessary to deliver savings under the 2007 and Aon Benfield restructuring programs. An analysis of restructuring-related expenses by segment and type are detailed on page 13 of this release.

**Restructuring savings** in the second quarter related to the 2007 restructuring program are estimated at \$113 million compared to \$51 million in the prior year quarter. Of the estimated restructuring savings in the second quarter, \$95 million were related to the Brokerage segment primarily from workforce reductions. Before any potential reinvestment of savings, the 2007 restructuring program is expected to deliver \$536 million of annualized run-rate cost savings by the end of 2010.

Restructuring savings in the second quarter related to the Aon Benfield restructuring program are estimated at \$24 million compared to \$10 million in the prior year quarter. Before any potential reinvestment of savings, the Benfield restructuring program is expected to deliver cumulative cost savings of \$90-100 million in 2010 and \$122 million in 2011.

**Currency** fluctuations in the second quarter favorably impacted adjusted net income from continuing operations by \$0.02 per diluted share when the Company translates prior year quarter results at current quarter foreign exchange rates.

**Effective tax rate** on net income from continuing operations was 24.5% in the second quarter. Excluding the impact of the 40% tax rate applied to the non-cash charge to pension expense of \$49 million, the effective tax rate on net income from continuing operations in the second quarter was 27.5% compared to 27.1% in the prior year quarter. The company anticipates an underlying tax rate on continuing operations of 28% for 2010.

**Average diluted shares outstanding** decreased to 282.6 million in the second quarter compared to 292.7 million in the prior year quarter due primarily to the Company's share repurchase program. During the quarter, the Company repurchased 1.2 million shares of common stock for \$50 million. The company has approximately \$165 million remaining under the share repurchase program previously authorized in 2005 and \$2 billion under the share repurchase program previously authorized in 2010.

**Discontinued Operations** after-tax loss of \$26 million is primarily related to the settlement of legacy litigation previously disclosed in the Company's SEC filings. The prior year quarter

after-tax income of \$2 million includes results for the run-off property and casualty insurance operations.

### ***Explanation of Non-GAAP Measures***

This communication includes supplemental information related to organic revenue and several additional measures including expenses, margins and income per share, that exclude the effects of restructuring charges and certain other noteworthy items that affected results for the comparable periods. Organic revenue excludes from reported revenues the impact of foreign exchange, acquisitions, divestitures, transfers between business units, reimbursable expenses and unusual items. The impact of foreign exchange is determined by translating last year's revenue, expense or net income at this year's foreign exchange rates. Reconciliations are provided in the attached schedules. Supplemental organic revenue information and additional measures that exclude the effects of the restructuring charges and certain other items do not affect net income or any other GAAP reported amounts. Management believes that these measures are important to make meaningful period-to-period comparisons and that this supplemental information is helpful to investors. They should be viewed in addition to, not in lieu of, the Company's Consolidated Statements of Income. Industry peers provide similar supplemental information regarding their performance, although they may not make identical adjustments.

(1) Certain noteworthy items impacting operating income in 2010 and 2009 are described in this schedule. The items shown with the caption "as adjusted" are non-GAAP measures.

(2) The effective tax rate for continuing operations is 24.5% and 27.1% for the second quarters ended June 30, 2010 and 2009, respectively, and 24.7% and 29.8% for the six months ended June 30, 2010 and 2009, respectively (U.S. GAAP). Reconciling items are generally taxed at the effective tax rate. However, the second quarter and six months 2010 U.S. GAAP effective tax rate was adjusted to 27.5% and 26.1%, respectively, to exclude the impact of the 40% tax rate applied to the \$49 million U.S. pension expense adjustment for prior years. In addition, the six months 2009 U.S. GAAP effective tax rate was adjusted to 28.0% to exclude the impact of the 40% tax rate applied to the \$83 million U.S. pension curtailment gain.
