Explanatory Note:

As previously reported in a Current Report on Form 8-K filed on July 30, 2010 (the Initial Form 8-K), Comfort Systems USA, Inc. (the Company) entered into a stock purchase agreement (the Stock Purchase Agreement), dated July 28, 2010, to purchase all of the issued and outstanding stock of ColonialWebb Contractors Company, a Virginia corporation (ColonialWebb). As a result of the acquisition, ColonialWebb is a wholly-owned subsidiary of the Company. This Amendment No. 1 on Form 8-K/A amends and supplements the Initial Form 8-K to include financial statements and pro forma financial information required pursuant to Item 9.01 of Form 8-K.

Item 9.01 Financial Statements and Exhibits

(a) *Financial statements of businesses acquired*

The audited financial statements for ColonialWebb as of December 31, 2008, including the related independent auditors report, are included as Exhibit 99.2 hereto.

The audited financial statements for ColonialWebb as of December 31, 2009, including the related independent auditors report, are included as Exhibit 99.3 hereto.

The unaudited financial statements for ColonialWebb as of June 30, 2010 are included as Exhibit 99.4 hereto.

(b) *Pro forma financial information*

The following unaudited pro forma condensed combined balance sheet combines the historical consolidated balance sheet of the Company and the historical balance sheet of ColonialWebb, giving effect to the acquisition as if the acquisition had been consummated on June 30, 2010. The unaudited pro forma condensed combined statements of operations for the year ended December 31, 2009 and the six months ended June 30, 2010 combine the historical consolidated statements of operations of the Company and the historical statements of operations of ColonialWebb, giving effect to the acquisition as if it had occurred on January 1, 2009. The unaudited pro forma adjustments to reflect the purchase price allocation are based upon preliminary information, which may be revised as additional information becomes available.

The notes to the unaudited pro forma condensed combined financial statements provide a more detailed discussion of how such adjustments were derived and presented in the pro forma financial statements. The accompanying unaudited pro forma condensed combined financial statements have been compiled from historical financial statements and other information as described herein, but do not purport to represent what the Company's financial position or results of operations actually would have been had the transactions occurred on the dates indicated herein, or project the Company's performance for any future periods. Historically, the construction industry has been highly cyclical and, specifically, the HVAC industry is subject to seasonal variations.

The pro forma financial information should be read in conjunction with the Company's historical financial statements included in its Form 10-K for the year ended December 31, 2009 and Form 10-Q for the period ended June 30, 2010.

NOTES TO UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL STATEMENTS

1. Purchase Price Allocation

The allocation of the purchase price to the assets acquired and liabilities assumed is preliminary and, therefore, subject to change. The allocation of the purchase price was prepared based on the information available as of the acquisition date and, therefore, may be materially impacted by certain adjustments on the finalization of the fair value assessments of ColonialWebb's assets and liabilities.

The following is the unaudited pro forma purchase price and the unaudited pro forma purchase price allocation based on ColonialWebb's unaudited June 30, 2010 balance sheet (in thousands):

Cash paid from available funds	\$	57,072
Cash paid for excess working capital		21,761
Notes issued to former owners		24,200
Estimated fair value of contingent earn-out payments		6,660
Total consideration and costs	\$	109,693
Pro forma purchase price allocation:		
Fair value of net assets acquired	\$	41,728
Effect of transaction on deferred income taxes		(9,789)
Estimated identifiable intangible assets		28,100
Goodwill		49,654
Total consideration and costs	\$	109,693

2. Pro Forma Adjustments

The accompanying pro forma condensed combined financial statements give effect to the following pro forma adjustments necessary to reflect the acquisition outlined in the preceding introduction as if the transaction occurred on January 1, 2009 in the pro forma condensed combined statement of operations and on June 30, 2010 in the pro forma condensed combined balance sheet:

(A) Purchase price paid from cash, including the cash paid for excess working capital as of June 30, 2010.

(B) Additional consideration payable in the form of notes issued to the former owners and contingent earn-out payments associated with the achievement of specified milestones. Contingent earn-out payments are recorded at their estimated fair value determined based on a probability-weighted income approach. This fair value measurement is based on significant unobservable inputs in the market and thus represents a Level 3 measurement within the fair value hierarchy. Future changes in the estimated fair value of the contingent payments will be recognized immediately in earnings.

Edgar Filing: COMFORT SYSTEMS USA INC - Form 8-K/A

(C) Fair value adjustments to assets and liabilities acquired, which includes \$3.1 million to property and equipment, \$49.7 million to goodwill, \$28.1 million to intangible assets (see note 3), \$0.3 million to accrued self insurance expense, and \$0.2 million to other current liabilities.

(D) Adjustments to reflect the addition of deferred income taxes related to acquired assets and liabilities and the conversion of ColonialWebb from an S-Corp to a C-Corp.

(E) Adjustment to conform the accounting for deferred compensation with the Company's accounting policy.

(F) Elimination of ColonialWebb's pre-existing stockholders' equity balances due to change in ownership.

(G) Amortization of preliminary fair value amounts allocated to definite-lived intangible assets over the preliminary estimated useful lives. (See note 3 for further details.)

(H) Elimination of the Company's interest income associated with the utilization of cash for the transaction.

(I) Interest expense incurred on the notes to former owners.

(J) Depreciation expense incurred on the step-up of the property and equipment to fair value.

3. Identifiable Intangible Assets

The preliminary components of identifiable intangible assets resulting from the acquisition and their related amortizable lives are as follows (dollars in thousands):

	Estimated Amortization Life	Estimated Value
Backlog	18 months	\$ 580
Customer relationships	15 years	15,700
Non-compete agreements	1-5 years	1,720
Trade names	25 years	10,100
Total		\$ 28,100

These components are subject to change based upon the results of a third party valuation of the identifiable intangible assets. The estimated value of the backlog, trade names, and non-compete agreements are being amortized using the straight line method of accounting over their estimated amortization lives. The estimated value of the customer relationships is being amortized using the expected future cash flows that reflect the expected economic benefit.

(d) *Exhibits*

The following exhibits are included herein:
