## Item 8.01 Other Events

The following is an update to the disclosure under "Subsequent event" in HEI's Note 3 and HECO's Note 16 of their respective Notes to Consolidated Financial Statements, which are incorporated herein by reference, in HEI's and HECO's Consolidated Financial Statements, included or incorporated in their Annual Report on Form 10-K for the year ended December 31, 2012.

As previously reported, on January 28, 2013, HECO, Hawaii Electric Light Company, Inc. (HELCO), Maui Electric Company, Limited (MECO) (the Companies) and the Consumer Advocate, signed a settlement agreement (Agreement) to write-off \$40 million of costs in lieu of conducting the regulatory audits of the Campbell Industrial Park Combustion Turbine Unit No. 1 (CIP CT-1) project and the Customer Information System (CIS) project. Based on the Agreement, as of December 31, 2012, the Companies recorded an after-tax charge to net income of approximately \$24 million -- \$17.1 million for HECO, \$3.4 million for HELCO, and \$3.2 million for MECO. The remaining recoverable costs of \$52 million were included in rate base as of December 31, 2012.

As part of the Agreement, the parties also agreed that HELCO would withdraw its 2013 test year rate case, and delay filing a new rate case until a 2016 test year. Additionally, HECO would delay the filing of its scheduled 2014 test year rate case to no earlier than January 2, 2014. For both utilities, the existing terms of the last approved rate cases continue. The Agreement also includes that, starting in 2014, HECO will be allowed to record Revenue Adjustment Mechanism (RAM) revenues starting January 1 of each year through 2016. The cash collection of RAM revenues will remain unchanged, starting June 1 of each year through May 31 of the following year. As previously reported, the Agreement was subject to approval by the Public Utilities Commission of the State of Hawaii (PUC). For more information on the Agreement, see the Form 8-K filed by HEI and HECO on January 29, 2013, which is incorporated herein by reference.

On March 19, 2013, the PUC issued a decision and order approving the Agreement, with the following clarifications, none of which change the financial impact recorded as of December 31, 2012: (1) The PUC reiterated its authority to examine and ascertain what post go-live CIS costs would be subject to regulatory review in future rate cases; (2) the PUC discouraged requesting single issue cost deferral accounting and/or cost recovery mechanisms during the period of rate case deferral by HECO and HELCO; (3) the PUC approved the agreed-upon recovery of CIP CT-1 and CIS project costs through the RAM, as set forth in the Agreement, however not setting a precedent for future projects and (4) the PUC reaffirmed its right to rule on the substance of the MECO 2012 test year rate case in its ongoing rate case proceeding.

In approving the Agreement, the PUC found that there is value in the fact the Agreement terminates further accrual of carrying costs for the CIP CT-1 and CIS projects pending potentially long regulatory audits of these projects. The PUC expects the Agreement to free up resources of the Companies to enable greater focus on achieving Hawaii's statutory energy mandates and policies of increased energy efficiency and renewable generation and improve operational efficiencies.
