

Edgar Filing: FORD MOTOR CO - Form 8-K

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 2.02. Results of Operations and Financial Condition.

Ford Motor Company (“Ford” or “Company”) hereby incorporates by reference its news release dated January 24, 2018, which is filed as Exhibit 99.1 hereto.

Beginning at 5:30 p.m. on January 24, 2018, Ford President and Chief Executive Officer Jim Hackett and Executive Vice President and Chief Financial Officer Bob Shanks will host a conference call to discuss Ford’s preliminary fourth quarter and full year 2017 financial results. Investors may access the presentation by dialing 1-877-870-8664 (or 1-970-297-2423 from outside the United States). The passcode for the call is a verbal response of “Ford Earnings.”

The presentation and supporting materials are available at www.shareholder.ford.com. Representatives of the investment community and the news media will have the opportunity to ask questions on the call.

Investors also may access replays of the presentation beginning after 9:30 p.m. the day of the event through January 31, 2018 by dialing 1-855-859-2056 (or 1-404-537-3406 from outside the United States). The passcode for replays is 95413410.

All times referenced above are in Eastern Standard Time.

Item 7.01. Regulation FD Disclosure.

Ford’s presentation materials dated January 24, 2018 are furnished as Exhibit 99.2 to this Report and incorporated by reference herein.

Item 9.01. Financial Statements and Exhibits.

CONN'S, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Summary of Significant Accounting Policies

Basis of Presentation. The accompanying unaudited, condensed consolidated financial statements of Conn's, Inc. and subsidiaries (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The accompanying financial statements reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of the results for the interim periods presented. All such adjustments are of a normal recurring nature, except as otherwise described herein. The Company's business is somewhat seasonal, with a higher portion of sales and operating profit realized during the quarter that ends January 31, due primarily to the holiday selling season. Operating results for the three-month period ended April 30, 2013 are not necessarily indicative of the results that may be expected for the fiscal year ending January 31, 2014. The financial statements should be read in conjunction with the Company's audited consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended January 31, 2013, filed with the Securities and Exchange Commission on April 4, 2013.

The Company's balance sheet at January 31, 2013, has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for a complete financial presentation. Please see the Company's Annual Report on Form 10-K for a complete presentation of the audited financial statements for the fiscal year ended January 31, 2013, together with all required footnotes, and for a complete presentation and explanation of the components and presentations of the financial statements.

Principles of Consolidation. The consolidated financial statements include the accounts of Conn's, Inc. and its wholly-owned subsidiaries. Conn's, Inc. is a holding company with no independent assets or operations other than its investments in its subsidiaries. All material intercompany transactions and balances have been eliminated in consolidation.

In April of 2012, the Company transferred certain customer receivables to a bankruptcy-remote, variable-interest entity ("VIE") in connection with a securitization. The VIE, which is consolidated within the accompanying financial statements, issued debt secured by the customer receivables that were transferred to it, which were included in customer accounts receivable and long-term portion of customer accounts receivable on the consolidated balance sheet as of January 31, 2013. On April 15, 2013, the VIE redeemed the then outstanding asset-backed notes and the remaining customer receivables were transferred back to the Company.

The Company determined that the VIE should be consolidated within its financial statements due to the fact that it qualified as the primary beneficiary of the VIE based on the following considerations:

- The Company directed the activities that generated the customer receivables that were transferred to the VIE;
- The Company directed the servicing activities related to the collection of the customer receivables transferred to the VIE;
- The Company absorbed losses incurred by the VIE to the extent of its interest in the VIE before any other investors incurred losses; and
- The Company had the right to receive benefits generated by the VIE after paying the contractual amounts due to the other investors.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

6

Table of Contents

Earnings per Share. Basic earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding. Diluted earnings per share include the dilutive effects of any stock options and restricted stock units granted, to the extent not anti-dilutive, which is calculated using the treasury-stock method. The following table sets forth the shares outstanding for the earnings per share calculations:

(in thousands)	Three Months Ended April 30,	
	2013	2012
Weighted average common shares outstanding - Basic	35,313	32,195
Assumed exercise of stock options	937	576
Unvested restricted stock units	202	133
Weighted average common shares outstanding - Diluted	36,452	32,904

The weighted average number of stock options and restricted stock units not included in the calculation due to their anti-dilutive effect was 1.1 million for the three months ended April 30, 2012.

Fair Value of Financial Instruments. The fair value of cash and cash equivalents and accounts payable approximate their carrying amounts because of the short maturity of these instruments. The fair value of customer accounts receivables, determined using a discounted cash flow analysis, approximates their carrying amount. The fair value of the Company's debt approximates carrying value due to the recent date at which the facility has been renewed. The Company's interest rate cap options are presented on the balance sheet at fair value. Fair value of these instruments were determined using Level 2 inputs of the GAAP hierarchy, which are defined as inputs not quoted in active markets, but are either directly or indirectly observable.

2. Charges and Credits

During the three months ended April 30, 2012, the Company accrued the lease buyout costs related to one of its store closures and revised its estimate of future obligations related to its other closed stores. This resulted in a pre-tax charge of \$163 thousand (\$106 thousand after-tax). This amount is reported within the retail segment and classified in charges and credits in the consolidated statement of operations.

3. Supplemental Disclosure of Customer Receivables

Customer accounts receivable are originated at the time of sale and delivery of the various products and services. The Company records the amount of principal and accrued interest on customer receivables that is expected to be collected within the next twelve months, based on contractual terms, in current assets on its consolidated balance sheet. Those amounts expected to be collected after twelve months, based on contractual terms, are included in long-term assets. Typically, customer receivables are considered delinquent if a payment has not been received on the scheduled due date. Accounts that are delinquent more than 209 days as of the end of a month are charged-off against the allowance for doubtful accounts and interest accrued subsequent to the last payment is reversed and charged against the allowance for uncollectible interest.

As part of its efforts in mitigating losses on its accounts receivable, the Company may make loan modifications to a borrower experiencing financial difficulty that are intended to maximize the net cash flow after expenses, and avoid the need for repossession of collateral. The Company may extend the loan term, refinance or otherwise re-age an account. Accounts that have been re-aged in excess of three months or refinanced are considered Troubled Debt Restructurings ("TDR").

Table of Contents

The Company uses risk-rating criteria to differentiate underwriting requirements, potentially requiring differing down payment and initial application and documentation criteria. The following tables present quantitative information about the receivables portfolio managed by the Company, segregated by class:

(in thousands)	Total Outstanding Balance					
	Customer Accounts Receivable		60 Days Past Due (1)		Re-aged (1)	
	January	April	January	April	January	April
	April 30, 2013	31, 2013	30, 2013	31, 2013	30, 2013	31, 2013
Customer accounts receivable	\$733,626	\$702,737	\$40,106	\$41,704	\$47,024	\$47,757
Restructured accounts (2)	39,810	38,807	11,437	11,135	39,669	38,671
Total receivables managed	\$773,436	\$741,544	\$51,543	\$52,839	\$86,693	\$86,428
Allowance for uncollectible accounts related to the credit portfolio			(46,162)	(43,911)		
Allowance for promotional credit programs			(7,976)	(6,572)		
Short-term portion of customer accounts receivable, net			(395,085)	(378,050)		
Long-term customer accounts receivable, net			\$324,213	\$313,011		

Amounts are based on end of period balances. As an account can become past due after having been re-aged, accounts may be presented in both the past due and re-aged columns shown above. The amounts included within both the past due and re-aged columns shown above as of April 30, 2013 and January 31, 2013 were \$20.8 million and \$20.7 million, respectively. The total amount of customer receivables past due one day or greater was \$173.4 million and \$172.4 million as of April 30, 2013 and January 31, 2013, respectively. These amounts include the 60 days past due totals shown above.

In addition to the amounts included in restructured accounts, there are \$1.7 million and \$1.9 million as of April 30, 2013 and January 31, 2013, respectively, of accounts re-aged four or more months included in the re-aged balance above that did not qualify as TDRs because they were not re-aged subsequent to January 31, 2011.

(in thousands)	Average Balances		Net Credit Charge-offs (1)	
	Three Months Ended		Three Months Ended	
	April 30, 2013	2012	April 30, 2013	2012
	2013	2012	2013	2012
Customer accounts receivable	\$713,700	\$589,969	\$8,843	\$7,576
Restructured accounts	39,521	44,774	2,712	5,953
Total receivables managed	\$753,221	\$634,743	\$11,555	\$13,529

(1) Charge-offs include the principal amount of losses (excluding accrued and unpaid interest) net of recoveries which include principal collections during the period shown of previously charged-off balances.

Table of Contents

Following is the activity in the Company's balance in the allowance for doubtful accounts and uncollectible interest for customer receivables for the three months ended April 30, 2013 and 2012:

(in thousands)	Three Months Ended April 30, 2013			Three Months Ended April 30, 2012		
	Customer			Customer		
	Accounts Receivable	Restructured Accounts	Total	Accounts Receivable	Restructured Accounts	Total
Allowance at beginning of period	\$27,702	\$ 16,209	\$43,911	\$24,518	\$ 25,386	\$49,904
Provision ⁽¹⁾	12,505	3,282	15,787	9,448	1,834	11,282
Principal charge-offs ⁽²⁾	(9,634)	(2,955)	(12,589)	(8,597)	(6,755)	(15,352)
Interest charge-offs	(1,516)	(465)	(1,981)	(1,282)	(1,007)	(2,289)
Recoveries ⁽²⁾	791	243	1,034	1,021	802	1,823
Allowance at end of period	\$29,848	\$ 16,314	\$46,162	\$25,108	\$ 20,260	\$45,368

(1) Includes provision for uncollectible interest, which is included in finance charges and other.

Charge-offs include the principal amount of losses (excluding accrued and unpaid interest), and recoveries include (2) principal collections during the period shown of previously charged-off balances. These amounts represent net charge-offs.

The Company records an allowance for doubtful accounts, including estimated uncollectible interest, for its customer accounts receivable, based on its historical cash collections and net loss experience using a projection of monthly delinquency performance, cash collections and losses. In addition to pre-charge-off cash collections and charge-off information, estimates of post-charge-off recoveries, including cash payments, amounts realized from the repossession of the products financed and, at times, payments received under credit insurance policies are also considered.

The Company determines reserves for those accounts that are TDRs based on the present value of cash flows expected to be collected over the life of those accounts. The excess of the carrying amount over the discounted cash flow amount is recorded as a reserve for loss on those accounts.

The Company typically only places accounts in non-accrual status when legally required. Interest accrual is resumed on those accounts once a legally-mandated settlement arrangement is reached or other payment arrangements are made with the customer. Customer receivables in non-accrual status were \$9.4 million and \$9.0 million at April 30, 2013 and January 31, 2013, respectively. Customer receivables that were past due 90 days or more and still accruing interest totaled \$36.2 million and \$36.6 million at April 30, 2013 and January 31, 2013, respectively.

4. Supplemental Disclosure of Finance Charges and Other Revenue

The following is a summary of the classification of the amounts included as finance charges and other for the three months ended April 30, 2013 and 2012:

(in thousands)	Three Months Ended April 30,	
	2013	2012
Interest income and fees on customer receivables	\$33,010	\$28,640
Insurance commissions	8,267	5,033
Other	338	241
Finance charges and other	\$41,615	\$33,914

Interest income and fees on customer receivables is reduced by provisions for uncollectible interest of \$2.1 million and \$1.8 million, respectively, for the three months ended April 30, 2013 and 2012. The amount included in interest income and fees on customer receivables related to TDR accounts was \$1.2 million for each of the three months ended April 30, 2013 and 2012. The Company recognizes interest income on TDR accounts using the interest income method, which requires reporting interest income equal to the increase in the net carrying amount of the loan attributable to the passage of time. Cash proceeds and other adjustments are applied to the net carrying amount of TDR accounts such that it always equals the present value of expected future cash flows.

Table of Contents

5. Accrual for Store Closures

During the fiscal years ended January 31, 2013 and 2012, the Company closed two and 11 retail locations, respectively, that did not perform at a level the Company expects for mature store locations. As a result of the closure of 10 of the stores which had unexpired leases, the Company recorded an accrual for the present value of remaining lease obligations and anticipated ancillary occupancy costs, net of estimated sublease income. Revisions to these projections for changes in estimated marketing times and sublease rates are made to the obligation as further information related to the actual terms and costs become available. The estimates were calculated using Level 2 fair value inputs. The following table presents detail of the activity in the accrual for store closures during the three months ended April 30, 2013 and 2012:

(in thousands)	Three Months Ended April 30,	
	2013	2012
Balance at beginning of period	\$5,071	\$8,106
Accrual for closures	-	450
Change in estimate	-	(287)
Cash payments	(522)	(961)
Balance at end of period	\$4,549	\$7,308

	April 30, 2013
Balance sheet presentation:	
Accrued expenses	\$2,691
Other long-term liabilities	1,858
	\$4,549

The cash payments include payments made for facility rent and related costs.

6. Debt and Letters of Credit

The Company's long-term debt consisted of the following at the period ended:

(in thousands)	April 30, 2013	January 31, 2013
Asset-based revolving credit facility	\$293,700	\$262,401
Asset-backed notes, net of discount of \$205	-	32,307
Other long-term debt	295	349
Total debt	293,995	295,057
Less current portion of debt	222	32,526
Long-term debt	\$293,773	\$262,531

The Company's asset-based revolving credit facility with a syndicate of banks was expanded in March 2013 with capacity increasing from \$545 million to \$585 million. The Company's revolving credit facility, which matures in September 2016, provides funding based on a borrowing base calculation that includes customer accounts receivable and inventory. The amended and restated credit facility bears interest at LIBOR plus a spread ranging from 275 basis points to 350 basis points, based on a leverage ratio (defined as total liabilities to tangible net worth). In addition to the leverage ratio, the revolving credit facility includes a fixed charge coverage requirement, a minimum customer

receivables cash recovery percentage requirement and a net capital expenditures limit. The asset-based revolving credit facility restricts the amount of dividends the Company can pay and is secured by the assets of the Company not otherwise encumbered.

On April 30, 2012, the Company's VIE issued \$103.7 million of asset-backed notes which bore interest at 4.0% and were sold at a discount to deliver a 5.21% yield, before considering transaction costs. The principal balance of the notes, which was secured by certain customer receivables, was reduced on a monthly basis by collections on the underlying customer receivables after the payment of interest and other expenses of the VIE. While the final maturity for the notes was April 2016, the Company repaid the outstanding note balance in April 2013. In connection with the early repayment of the asset-backed notes, the Company accelerated the amortization of deferred financing cost resulting in an additional \$0.4 million of interest expense.

Table of Contents

The Company was in compliance with its debt covenants at April 30, 2013.

As of April 30, 2013, the Company had immediately available borrowing capacity of approximately \$244.6 million under its asset-based revolving credit facility, net of standby letters of credit issued, for general corporate purposes. The Company also had \$45.3 million that may become available under its asset-based revolving credit facility if it grows the balance of eligible customer receivables and its total eligible inventory balances. The Company pays additional fees in the amount of 25 basis points for the additional commitment amount.

The Company's asset-based revolving credit facility provides it the ability to utilize letters of credit to secure its deductibles under the Company's property and casualty insurance programs, among other acceptable uses. At April 30, 2013, the Company had outstanding letters of credit of \$1.3 million under this facility. The maximum potential amount of future payments under these letter of credit facilities is considered to be the aggregate face amount of each letter of credit commitment, which totals \$1.3 million as of April 30, 2013.

7. Contingencies

Litigation. The Company is involved in routine litigation and claims incidental to its business from time to time, and, as required, has accrued its estimate of the probable costs for the resolution of these matters, which are not expected to be material. These estimates have been developed in consultation with counsel and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. However, the results of these proceedings cannot be predicted with certainty, and changes in facts and circumstances could impact the Company's estimate of reserves for litigation.

8. Segment Reporting

Financial information by segment is presented in the following tables for the three months ended April 30, 2013 and 2012:

(in thousands)	Three Months Ended April 30, 2013			Three Months Ended April 30, 2012		
	Retail	Credit	Total	Retail	Credit	Total
Revenues						
Product sales	\$ 190,860	\$-	\$ 190,860	\$ 152,115	\$-	\$ 152,115
Repair service agreement commissions	15,989	-	15,989	11,392	-	11,392
Service revenues	2,599	-	2,599	3,430	-	3,430
Total net sales	209,448	-	209,448	166,937	-	166,937
Finance charges and other	339	41,276	41,615	241	33,673	33,914

Other income, net	(6)	-	(6)	(96)	-	(96)
Income before income taxes	\$27,306	\$7,837	\$35,143	\$10,857	\$7,334	\$18,191

Selling, general and administrative expenses include the direct expenses of the retail and credit operations, allocated overhead expenses and a charge to the credit segment to reimburse the retail segment for expenses it incurs related to occupancy, personnel, advertising and other direct costs of the retail segment which benefit the credit operations by sourcing credit customers and collecting payments. The reimbursement received by the retail (a) segment from the credit segment is estimated using an annual rate of 2.5% times the average portfolio balance for each applicable period. The amount of overhead allocated to each segment was approximately \$2.6 million and \$2.2 million for the three months ended April 30, 2013 and 2012, respectively. The amount of reimbursement made to the retail segment by the credit segment was approximately \$4.7 million and \$4.0 million for the three months ended April 30, 2013 and 2012, respectively.

·Home office, including computers, tablets, printers and accessories.

Additionally, the Company offers a variety of products on a seasonal basis, including lawn and garden equipment, room air conditioners and outdoor furniture.

Our stores typically range in size from 18,000 to 50,000 square feet and are predominately located in areas densely populated by our core customer and are typically anchor stores in strip malls. We utilize a “good-better-best” merchandising strategy that offers approximately 2,300 branded products from approximately 200 manufacturers and distributors in a wide range of price points. Our commissioned sales, consumer credit and service personnel are well-trained and knowledgeable to assist our customers with product selection and the credit application process. We also provide additional services including next day delivery and installation capabilities, and product repair or replacement services for most items sold in our stores.

12

Table of Contents

Unlike many of our competitors, we provide multiple financing options to address various customer needs including a proprietary in-house credit program, a third-party financing program and a third-party rent-to-own payment program. The majority of our credit customers use our in-house credit program and typically have a credit score of between 550 and 650, with the average score of new applicants for the three months ended April 30, 2013 of 602. For customers who do not qualify for our in-house program, we offer rent-to-own payment plans through RAC Acceptance. For customers with high credit scores, we have partnered with GE Capital to offer long-term, no interest and revolving credit plans. RAC Acceptance and GE Capital manage their respective underwriting decisions, management and collection of their credit programs. For the three months ended April 30, 2013, we financed approximately 74.0% of our retail sales, including down payments, under our in-house financing program.

We believe our extensive brand and product selection, competitive pricing, financing alternatives and supporting services combined with our customer service-focused store associates make us an attractive alternative to appliance and electronics superstores, department stores and other national, regional, local and internet retailers.

Our business is moderately seasonal, with a greater share of our revenues, operating and net income historically realized during the quarter ending January 31, due to the holiday selling season.

Operational Changes and Operating Environment

We have implemented, continued to focus on, or modified operating initiatives that we believe should positively impact future results, including:

- Opening expanded Conn's HomePlus stores in new markets. In April of 2013, we opened new stores in Las Cruces, New Mexico and Tulsa, Oklahoma and plan to open 8 to 10 additional new stores by the end of fiscal year 2014;

- Remodeling existing stores utilizing the new Conn's HomePlus format to increase retail square footage and improve our customers shopping experience;

- Expanding and enhancing our product offering of higher-margin furniture and mattresses;

- Focusing on higher-price, higher-margin products to improve operating performance;

 - Reviewing our existing store locations to ensure the customer demographics and retail sales opportunity are sufficient to achieve our store performance expectations, and selectively closing or relocating stores to achieve those goals. In this regard, we closed a total of 13 retail locations in fiscal 2012 and 2013 that did not perform at the level we expect for mature store locations;

- Augmenting our credit offerings through the use of third-party consumer credit providers to provide flexible financing options to meet the varying needs of our customers, while focusing the use of our credit program to offer credit to customers where third-party programs are not available;

- Assessing the ability to approve customers being declined today, as retail margin and portfolio yield may provide the ability to finance these customers profitably; and

- Limiting the number of months an account can be re-aged and reducing the period of time a delinquent account can remain outstanding before it is charged off. Additionally, we have shortened contract terms for higher-risk products and smaller-balances originated. We have increased credit lines to higher credit scored customers to allow them to purchase additional products given our furniture and mattress offerings expansion. In total, these changes are expected to continue to improve the performance of our portfolio and increase the cost-effectiveness of our

collections operation.

While we have benefited from our operations being concentrated in the Texas, Louisiana and Oklahoma region in the past, continued weakness in the national and state economies, including instability in the financial markets and the volatility of oil and natural gas prices, have and will present significant challenges to our operations in the coming quarters.

Table of Contents

Historical Static Loss Table

The following static loss analysis calculates the cumulative percentage of balances charged off, based on the year the credit account was originated and the period the balance was charged off. The percentage computed below is calculated by dividing the cumulative net amount charged off since origination by the total balance of accounts originated during the applicable fiscal year. The net charge-off was determined by estimating, on a pro rata basis, the amount of the recoveries received during a period that was allocable to the applicable origination period.

Fiscal Year	Cumulative loss rate as a % of balance originated ^(a)				
	Years from origination	0	1	2	3
of Origination	0	1	2	3	Terminal ^(b)
2005	0.3%	1.7%	3.4%	4.3%	4.9%
2006	0.3%	1.9%	3.6%	4.8%	5.7%
2007	0.2%	1.7%	3.5%	4.6%	5.6%
2008	0.2%	1.8%	3.6%	5.0%	5.9%
2009	0.2%	2.0%	4.6%	6.0%	6.6%
2010	0.2%	2.4%	4.5%	5.9%	6.0%
2011	0.4%	2.6%	5.2%	5.5%	
2012	0.2%	3.1%	3.8%		
2013	0.4%	0.6%			

(a) The most recent percentages in years from origination 1 through 3 include loss data through April 30, 2013, and are not comparable to prior fiscal year accumulated net charge-off percentages in the same column.

(b) The terminal loss percentage presented represents the point at which that pool of loans has reached its maximum loss rate.

Table of Contents

Results of Operations

The presentation of our results of operations may not be comparable to some other retailers since we include the cost of our in-home delivery and installation service as part of selling, general and administrative expense. Similarly, we include the cost related to operating our purchasing function in selling, general and administrative expense. It is our understanding that other retailers may include such costs as part of their cost of goods sold.

The following tables present certain operations information, on a consolidated and segment basis:

Selling, general and administrative expenses include the direct expenses of the retail and credit operations, allocated overhead expenses and a charge to the credit segment to reimburse the retail segment for expenses it incurs related to occupancy, personnel, advertising and other direct costs of the retail segment which benefit the credit operations by sourcing credit customers and collecting payments. The reimbursement received by the retail (a) segment from the credit segment is estimated using an annual rate of 2.5% times the average portfolio balance for each applicable period. The amount of overhead allocated to each segment was approximately \$2.6 million and \$2.2 million for the three months ended April 30, 2013 and 2012, respectively. The amount of reimbursement made to the retail segment by the credit segment was approximately \$4.7 million and \$4.0 million for the three months ended April 30, 2013 and 2012, respectively.

Table of Contents

Three months ended April 30, 2013 compared to three months ended April 30, 2012

Segment Overview

The following provides an overview of our retail and credit segment operations for the three months ended April 30, 2013. A detailed explanation of the changes in our operations for the comparative periods is included below.

Retail Segment

Revenues were \$209.8 million for the quarter ended April 30, 2013, an increase of \$42.5 million, or 25.5%, from the prior-year period. The increase in revenues during the quarter was primarily driven by significantly improved same store sales and the opening of five new Conn's HomePlus™ stores during fiscal 2013. On a same store basis, revenues for the current quarter rose 16.5% over the prior-year period.

Retail gross margin was 40.3% for the quarter ended April 30, 2013, an increase of 660 percentage points over the 33.7% reported in the comparable quarter last year. This increase was driven by continued margin improvement across all major product categories due primarily to the continued focus on higher price-point, higher margin products and sourcing opportunities. Additionally, higher-margin furniture and mattress sales increased 72.7% over the prior-year period.

Selling, general and administrative ("SG&A") expense was \$57.5 million for the quarter ended April 30, 2013, an increase of \$11.5 million, or 24.9%, over the quarter ended April 30, 2012. The SG&A expense increase was primarily due to higher sales-driven compensation and delivery costs, facility-related costs and advertising expenses. As a percent of segment revenues, SG&A expense declined 10 basis points to 27.4% in the current period from 27.5% in the prior-year quarter.

Credit Segment

Revenues were \$41.3 million for the three months ended April 30, 2013, an increase of \$7.6 million, or 22.6%, from the prior-year quarter. The increase was primarily driven by year-over-year growth in the average balance of the customer receivable portfolio.

SG&A expense for the credit segment was \$15.7 million for the quarter ended April 30, 2013, an increase of \$2.1 million, or 15.7%, from the same quarter last year. SG&A expense as a percent of revenues was 38.1% in the current year period, which compares to 40.4% in the prior-year period.

Provision for bad debts was \$13.8 million for the three months ended April 30, 2013, an increase of \$4.9 million from the prior-year quarter. This additional provision was driven primarily by the substantial year-over-year growth in the average receivable portfolio outstanding, which included an increase of \$31.9 million during the current quarter.

Net interest expense for the quarter ended April 30, 2013 was \$3.9 million, relatively unchanged from the prior-year period. The Company recorded approximately \$0.4 million of accelerated amortization of deferred financing costs related to the early repayment of asset-backed notes during the current quarter.

(in thousands)	Three Months Ended		
	April 30,		
	2013	2012	Change
Total net sales	\$209,448	\$166,937	\$42,511
Finance charges and other	41,615	33,914	7,701
Total Revenues	\$251,063	\$200,851	\$50,212

The following table provides an analysis of net sales by product category in each period, including repair service agreement commissions and service revenues, expressed both in dollar amounts and as a percent of total net sales.

(dollars in thousands)	Three Months ended April 30,				Change	%	%	Same store % change
	2013	% of Total	2012	% of Total				
Home appliance	\$57,679	27.5 %	\$48,293	29.0 %	\$9,386	19.4	11.5	
Furniture and mattress	49,123	23.5	28,446	17.0	20,677	72.7	50.9	
Consumer electronic	56,810	27.1	52,446	31.4	4,364	8.3	(0.8)	
Home office	17,506	8.4	12,150	7.3	5,356	44.1	34.2	
Other	9,742	4.7	10,780	6.5	(1,038)	(9.6)	(15.3)	
Product sales	190,860	91.2	152,115	91.2	38,745	25.5	15.2	
Repair service agreement commissions	15,989	7.6	11,392	6.8	4,597	40.4	28.0	
Service revenues	2,599	1.2	3,430	2.0	(831)	(24.2)		
Total net sales	\$209,448	100.0%	\$166,937	100.0%	\$42,511	25.5	16.5	

The following provides a summary of items influencing the Company's major product category performance during the quarter, compared to the prior-year period:

Home appliance average selling price rose 14.6% and unit volume increased 3.8%. Laundry sales increased 25.8%, refrigeration sales were up 16.2% and cooking sales rose 19.4%;

·Furniture unit sales increased 81.6% and the average selling price was down slightly;

·Mattress unit volume increased 33.6% and average selling price was up 19.7%;

·Same store sales of consumer electronics improved through the quarter. In April, same store sales were up 5.9%; and

·Tablet sales increased 218.0% and computer sales were up 16.2%.

(in thousands)	Three Months Ended		
	April 30,		
	2013	2012	Change
Interest income and fees	\$33,010	\$28,640	\$4,370
Insurance commissions	8,267	5,033	3,234
Other income	338	241	97
Finance charges and other	\$41,615	\$33,914	\$7,701

Interest income and fees and insurance commissions are included in the finance charges and other for the credit segment, while other income is included in finance charges and other for the retail segment.

Interest income and fees of the credit segment increased over the prior year level primarily driven by an 18.7% increase in the average balance of the portfolio. Portfolio interest and fee yield remained constant at 18.0% year-over-year, but declined 70 basis points sequentially as a result of increased short-term, no-interest financing.

Table of Contents

The following table provides key portfolio performance information for the three months ended April 30, 2013 and 2012:

	Three Months Ended	
	April 30,	
	2013	2012
(in thousands, except percentages)		
Interest income and fees (a)	\$33,010	\$28,640
Net charge-offs	(11,555)	(13,529)
Borrowing costs (b)	(3,871)	(3,759)
Net portfolio yield	\$17,584	\$11,352
Average portfolio balance	\$753,221	\$634,743
Interest income and fee yield % (annualized)	18.0 %	18.0 %
Net charge-off % (annualized)	6.1 %	8.5 %

(a) Included in finance charges and other.

(b) Total interest expense.

	Three Months Ended		
	April 30,		
	2013	2012	Change
(in thousands, except percentages)			
Cost of goods sold	\$123,457	\$108,443	\$15,014
Product gross margin percentage	35.3 %	28.7 %	

Product gross margin expanded 660 basis points as a percent of product sales from the quarter ended April 30, 2012. Margin improvement was reported in each of the product categories – reflecting the benefit of the sale of higher-price point, higher margin goods and the realization of sourcing opportunities. Product gross margin was also influenced by a favorable shift in product mix.

	Three Months		
	Ended		
	April 30,		
	2013	2012	Change
(in thousands, except percentages)			
Cost of service parts sold	\$1,406	\$1,550	\$(144)
As a percent of service revenues	54.1 %	45.2 %	

Cost of service parts sold declined due to a \$0.8 million decrease in service revenues.

	Three Months		
	Ended		
	April 30,		
	2013	2012	Change
(in thousands, except percentages)			
Selling, general and administrative expense - Retail	\$57,510	\$46,049	\$11,461
Selling, general and administrative expense - Credit	15,745	13,607	2,138
Selling, general and administrative expense - Total	\$73,255	\$59,656	\$13,599
As a percent of total revenues	29.2 %	29.7 %	

For the three months ended April 30, 2013, the increase in SG&A expense was driven by higher sales-related compensation. The improvement in our SG&A expense as a percentage of total revenues was largely attributable to the leveraging effect of higher total revenues.

The SG&A expense increase in the retail segment was primarily due to higher sales-related compensation and delivery costs, facility-related costs and advertising expenses. As a percent of segment revenues, SG&A expense remained relatively unchanged as compared to the prior-year quarter.

Table of Contents

The increase in SG&A expense for the credit segment was driven by higher compensation costs related to collections personnel. SG&A expense as a percent of revenues was 38.1% in the current-year period, which compares to 40.4% in the prior-year period.

(in thousands, except percentages)	Three Months Ended April 30,		
	2013	2012	Change
Provision for bad debts	\$13,937	\$9,185	\$4,752
As a percent of average portfolio balance (annualized)	7.4	% 5.8	%

The provision for bad debts is primarily related to the operations of our credit segment, with approximately \$0.1 million and \$0.2 million for the periods ended April 30, 2013 and 2012, respectively, included in the results of operations for the retail segment.

The provision for bad debts increased by \$4.8 million from the prior-year period. This additional provision was driven primarily by the substantial year-over-year growth in the average receivable portfolio balance outstanding, which includes an increase of \$31.9 million during the current quarter.

(in thousands)	Three Months Ended April 30,		
	2013	2012	Change
Costs related to store closings	\$-	\$163	\$(163)
Charges and credits	\$-	\$163	\$(163)

During the first quarter of fiscal 2013, the Company recorded a \$0.2 million charge related to the adjustment of future lease obligations for closed stores.

(in thousands)	Three Months Ended April 30,		
	2013	2012	Change
Interest expense	\$3,871	\$3,759	\$112

Net interest expense for the three months ended April 30, 2013 remained relatively unchanged from the prior-year period. We recorded approximately \$0.4 million of accelerated amortization of deferred financing costs related to the early repayment of asset-backed notes during the current quarter. The entirety of our interest expense is included in the results of operations of the credit segment.

(in thousands, except percentages)	Three Months Ended April 30,		
	2013	2012	Change
Provision for income taxes	\$12,967	\$6,635	6,332
As a percent of income before income taxes	36.9	% 36.5	%

The provision for income taxes increased due primarily to the year-over-year improvement in profitability.

Table of Contents

Liquidity and Capital Resources

Cash flow

Operating activities

During the three months ended April 30, 2013, net cash used in operating activities was \$6.5 million, which compares to net cash provided by operating activities of \$37.1 million during the prior-year period. The year-over-year improvement in operating performance was more than offset by the impact of the use of cash to fund a \$31.9 million increase in customer accounts receivable during the three months ended April 30, 2013.

Investing activities

Net cash used in investing activities increased to \$7.2 million in the current period, as compared to \$4.1 million in the prior period, primarily due to the construction of new stores and remodeling of existing store locations. We expect during the next twelve months to invest between \$25 million and \$35 million, net of tenant allowances, in capital expenditures for new stores, remodels and other projects.

Financing activities

Net cash provided by financing activities was \$14.2 million during the three months ended April 30, 2013, as compared to net cash used in financing activities of \$32.5 million used during the three months ended April 30, 2012. During the three months ended April 30, 2013, we received \$8.4 million in cash proceeds and \$2.6 million in tax benefit related to the exercise of stock options. Additionally, the balance in restricted cash declined \$4.7 million with the retirement of the ABS facility.

Liquidity

We require capital to finance our growth as we add new stores and markets to our operations, which in turn requires additional working capital for increased customer receivables and inventory. We have historically financed our operations through a combination of cash flow generated from earnings and external borrowings, including primarily bank debt, extended terms provided by our vendors for inventory purchases, acquisition of inventory under consignment arrangements and transfers of customer receivables to asset-backed securitization facilities.

Our asset-based revolving credit facility with a syndicate of banks was expanded in March 2013 with capacity increasing from \$545 million to \$585 million. The facility, which matures in September 2016, provides funding based on a borrowing base calculation that includes customer accounts receivable and inventory. The credit facility bears interest at LIBOR plus a spread ranging from 275 basis points to 350 basis points, based on a leverage ratio (defined as total liabilities to tangible net worth). In addition to the leverage ratio, the revolving credit facility includes a fixed charge coverage requirement, a minimum customer receivables cash recovery percentage requirement and a net capital expenditures limit. The leverage ratio covenant requirement is a required maximum of 2.00 to 1.00. The fixed charge coverage ratio requirement is a minimum of 1.10 to 1.00. We expect, based on current facts and circumstances, that we will be in compliance with the above covenants for the next 12 months. The weighted average interest rate on borrowings outstanding under the asset-based revolving credit facility was 3.1% at April 30, 2013.

On April 30, 2012, our VIE issued \$103.7 million of notes which bore interest at 4.0% and were sold at a discount to deliver a 5.21% yield, before considering transaction costs. The principal balance of the notes, which was secured by certain customer receivables, was reduced on a monthly basis by collections on the underlying customer receivables after the payment of interest and other expenses of the VIE. On April 15, 2013, the VIE redeemed the then

outstanding notes and the remaining receivables were transferred back to the Company.

We have interest rate cap options with a notional amount of \$100 million. These cap options are held for the purpose of hedging against variable interest rate risk related to the variability of cash flows in the interest payments on a portion of its variable-rate debt, based on the benchmark one-month LIBOR interest rate exceeding 1.0%. These cap options have monthly caplets extending through August, 2014.

The weighted average effective interest rate on borrowings outstanding under all our credit facilities for the three months ended April 30, 2013 was 5.3%, including the interest expense associated with our interest rate caps and amortization of deferred financing costs.

Table of Contents

A summary of the significant financial covenants that govern our credit facility compared to our actual compliance status at April 30, 2013, is presented below:

	Actual	Required Minimum/ Maximum
Fixed charge coverage ratio must exceed required minimum	2.04 to 1.00	1.10 to 1.00
Total liabilities to tangible net worth ratio must be lower than required maximum	0.88 to 1.00	2.00 to 1.00
Cash recovery percentage must exceed stated amount	6.19%	4.74%
Capital expenditures, net must be lower than stated amount	\$6.1 million	\$40.0 million

Note: All terms in the above table are defined by the revolving credit facility and may or may not agree directly to the financial statement captions in this document. The covenants are required to be calculated quarterly on a trailing twelve month basis, except for the Cash recovery percentage, which is calculated monthly on a trailing three month basis.

As of April 30, 2013, we had immediately available borrowing capacity of \$244.6 million under our asset-based revolving credit facility, net of standby letters of credit issued, available to us for general corporate purposes. In addition to the \$244.6 million currently available under the revolving credit facility, an additional \$45.3 million may become available if we grow the balance of eligible customer receivables and total eligible inventory balances. Payments received on customer receivables which averaged approximately \$55.1 million per month during the three months ended April 30, 2013, are available each month to fund new customer receivables generated.

We will continue to finance our operations and future growth through a combination of cash flow generated from operations and external borrowings, including primarily bank debt, extended vendor terms for purchases of inventory, acquisition of inventory under consignment arrangements and transfers of customer receivables to asset-backed securitization facilities. Based on our current operating plans, we believe that cash generated from operations, available borrowings under our revolving credit facility, extended vendor terms for purchases of inventory, acquisition of inventory under consignment arrangements, and transfers of customer receivable to asset-based securitization facilities will be sufficient to fund our operations, store expansion and updating activities and capital programs for at least the next 12 months, subject to continued compliance with the covenants in our debt and other credit arrangements. Additionally, if there is a default under any of the facilities that is not waived by the various lenders, it could result in the requirement to immediately begin repayment of all amounts owed under our credit facilities, as all of the facilities have cross-default provisions that would result in default under all of the facilities if there is a default under any one of the facilities. If the repayment of amounts owed under our debt and other credit arrangements is accelerated for any reason, we may not have sufficient cash and liquid assets at such time to be able to immediately repay all the amounts owed under the facilities.

The revolving credit facility is a significant factor relative to our ongoing liquidity and our ability to meet the cash needs associated with the growth of our business. Our inability to use this program because of a failure to comply with its covenants would adversely affect our business operations. Funding of current and future customer receivables under the borrowing facility can be adversely affected if we exceed certain predetermined levels of re-aged customer receivables, write-offs, bankruptcies or other ineligible customer receivable amounts.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

On April 15, 2013, we retired the fixed-rate notes that were issued by our VIE on April 30, 2012. There have been no other significant changes to our market risk since January 31, 2013.

For additional quantitative and qualitative disclosures about market risk, see Item 7A. “Quantitative and Qualitative Disclosures about Market Risk,” of Conn’s, Inc. Annual Report on Form 10-K for the fiscal year ended January 31, 2013.

Item 4. Controls and Procedures

Based on management's evaluation (with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO)), as of the end of the period covered by this report, our CEO and CFO have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

For the three months ended April 30, 2013, there have been no changes in our internal controls over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in routine litigation and claims incidental to its business from time to time, and, as required, has accrued its estimate of the probable costs for the resolution of these matters, which are not expected to be material. These estimates have been developed in consultation with counsel and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. However, the results of these proceedings cannot be predicted with certainty, and changes in facts and circumstances could impact the Company’s estimate of reserves for litigation.

Item 1A. Risk Factors

As of the date of the filing, there have been no material changes to the risk factors previously disclosed in Part 1, Item A, of the Company’s Annual Report on Form 10-K for the fiscal year ended January 31, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosure

None.
