SENSIENT TECHNOLOGIES CORPORATION

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

1. Accounting Policies

In the opinion of Sensient Technologies Corporation (the “Company”), the accompanying unaudited consolidated condensed financial statements contain all adjustments (consisting of only normal recurring adjustments) that are necessary to present fairly the financial position of the Company as of June 30, 2017, and the results of operations and comprehensive income for the three and six months ended June 30, 2017 and 2016, and cash flows for the six months ended June 30, 2017 and 2016. The results of operations for any interim period are not necessarily indicative of the results to be expected for the full year.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Expenses are charged to operations in the period incurred.

In July 2015, the Financial Accounting Standards Board (FASB) affirmed its proposed one-year deferral of the effective date for Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. Under this proposal, the requirements of the new standard are effective for interim and annual periods beginning after December 15, 2017. The proposal also permits entities to adopt the standard for interim and annual reporting periods beginning after December 15, 2016. The Company currently recognizes revenue (net of estimated discounts, allowances, and returns) when title to goods passes, the customer is obliged to pay the Company, and the Company has no remaining obligations. Such recognition typically corresponds with the shipment of goods. The Company created a project team within its Corporate Finance Department, in 2016, to review the potential impact that this ASU may have on the Company. At that time, the Company’s revenue recognition project team began gathering data, including issuing a detailed revenue recognition questionnaire designed to highlight instances of variable consideration, and reviewing existing contracts and other relevant documents across all of the Company’s segments. In the first quarter of 2017, the Company finalized a detailed project plan and distributed a second revenue recognition questionnaire designed to examine potential instances of variable consideration in greater detail. In the second quarter of 2017, the Company reviewed and analyzed the questionnaires and supporting documentation. The Company expects to be completed with its review and analysis by the end of the third quarter of 2017. The Company has also implemented additional internal controls and monitoring around revenue recognition during the second quarter of 2017. In July 2017, the Company updated its Audit Committee on the status of the implementation of this ASU. Based on procedures to-date, the Company has not identified any areas that will result in significant changes to the timing of recognition or measurement of revenue, but the Company will continue to evaluate the effects of this standard on the Company’s Consolidated Financial Statements. As a result of our ongoing assessment, the Company has changed its planned method to incorporate this new standard and now plans to use the modified retrospective method.

In July 2015, the FASB issued ASU No. 2015-11, Simplifying the Measurement of Inventory. Under this guidance, inventory that is accounted for using first-in-first-out, or average cost method, shall be measured at the lower of cost or net realizable value, as opposed to the lower of cost or market measurement under previous guidance. This guidance became effective for interim and annual periods beginning after December 15, 2016, with early adoption permitted. The Company adopted this standard in first quarter of 2017, and it did not have a material effect on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases, which requires lessees to recognize the lease assets and lease liabilities that arise from leases on the balance sheet and to disclose qualitative and quantitative information

about lease transactions. This guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company continues to evaluate the expected impact of this standard.

In December 2016, the FASB issued ASU 2016-16, Accounting for Income Taxes: Intra-Entity Asset Transfers of Assets Other than Inventory. Under current GAAP, the tax effects of intra-entity asset transfers are deferred until the transferred asset is sold to a third party or otherwise recovered through use. The new guidance eliminates the exception for all intra-entity sales of assets other than inventory. The guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within those years. The Company continues to evaluate the expected impact of this standard.

Index

In March 2017, the FASB issued ASU No. 2017-07, Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. This ASU requires employers to present the service cost component of the net periodic benefit cost in the same income statement line item as the other employee compensation costs arising from services rendered during the period. The other components of net benefit cost are to be presented outside of any subtotal of operating income. This ASU is effective for fiscal years and interim periods beginning after December 15, 2017, and early adoption is permitted. The Company is currently evaluating the expected impact of this standard.

Please refer to the notes in the Company's annual consolidated financial statements for the year ended December 31, 2016, for additional details of the Company's financial condition and a description of the Company's accounting policies, which have been continued without change.

2. Fair Value

Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, defines fair value for financial assets and liabilities, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. As of June 30, 2017, and December 31, 2016, the Company's assets and liabilities subject to this standard are forward exchange contracts and investments in a money market fund and municipal investments. The fair value of the forward exchange contracts based on current pricing obtained for comparable derivative products (Level 2 inputs) was an asset of \$0.2 million as of June 30, 2017, and a liability of \$0.2 million as of December 31, 2016. The fair value of the investments based on June 30, 2017, and December 31, 2016, market quotes (Level 1 inputs) was an asset of \$3.9 million and \$1.8 million, respectively, and is reported in Other Assets in the Consolidated Condensed Balance Sheets.

The carrying values of the Company's cash and cash equivalents, trade accounts receivable, accounts payable, accrued expenses, and short-term borrowings approximated fair values as of June 30, 2017. The fair value of the Company's long-term debt, including current maturities, is estimated using discounted cash flows based on the Company's current incremental borrowing rates for similar types of borrowing arrangements (Level 2 inputs). The carrying value of the long-term debt at June 30, 2017, was \$586.9 million. The fair value of the long-term debt at June 30, 2017, was \$602.9 million.

Beginning in the first quarter of 2017, the results of operations for certain of the Company's cosmetic and fragrance businesses in the Asia Pacific segment are now reported in the Color segment and Flavors & Fragrances segment, respectively. The results for 2016 have been restated to reflect these changes.

The Company evaluates performance based on operating income of the respective segments before restructuring and other costs, interest expense, and income taxes. The 2017 and 2016 restructuring and other costs related to continuing operations are reported in Corporate & Other. See Note 11, Restructuring, for more information on the Company's restructuring activities. The 2017 and 2016 other costs pertain to the costs associated with the Company's divestiture of a facility and certain related business lines within the Flavors & Fragrances business in Strasbourg, France. See Note 13, Divestiture.

4. Inventories

At June 30, 2017, and December 31, 2016, inventories included finished and in-process products totaling \$290.5 million and \$273.8 million, respectively, and raw materials and supplies of \$138.4 million and \$130.5 million, respectively.

5. Retirement Plans

The Company's components of annual benefit cost for the defined benefit plans for the periods presented are as follows:

(In thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Service cost	\$ 465	\$ 503	\$ 926	\$ 1,006

Settlement expense	3,797	-	3,797	-
Total defined benefit expense	\$ 4,341	\$ 683	\$ 4,881	\$ 1,362

During the three months ended June 30, 2017, one of the Company's defined benefit plans was terminated. As a result, the pension benefit obligation was settled by making lump-sum cash payments to certain participants and also purchasing nonparticipating annuity contracts to cover the remaining vested benefits. As a result of this plan's termination, the Company recognized \$3.8 million of settlement expense during the three months ended June 30, 2017, which have been recorded in the Company's restructuring and other costs. The plan was associated with two facilities which were closed under the Company's 2014 Restructuring Plan.

Index

6.Shareholders' Equity

The Company repurchased 178,800 and 334,649 shares of its common stock for an aggregate cost of \$14.4 million and \$26.7 million during the three and six months ended June 30, 2017, respectively, and 47,456 and 311,226 shares of its common stock for an aggregate cost of \$3.1 million and \$18.5 million during the three and six months ended June 30, 2016, respectively. The amount of treasury stock purchases reported in the Company's Consolidated Condensed Statements of Cash Flow represent purchases that have settled within each respective six-month period.

7.Derivative Instruments and Hedging Activity

The Company may use forward exchange contracts and foreign currency denominated debt to manage its exposure to foreign exchange risk in order to reduce the effect of fluctuating foreign currencies on short-term foreign currency denominated intercompany transactions, non-functional currency raw material purchases, non-functional currency sales, and other known foreign currency exposures. These forward exchange contracts generally have maturities of less than 18 months. The Company's primary hedging activities and their accounting treatment are summarized below.

Forward exchange contracts – Certain forward exchange contracts have been designated as cash flow hedges. The Company had \$23 million and \$25.4 million of forward exchange contracts designated as hedges outstanding as of June 30, 2017, and December 31, 2016, respectively. For the three and six months ended June 30, 2017, gains of \$0.2 million were reclassified into net earnings in the Company's Consolidated Statement of Earnings, which offset the earnings impact of the related non-functional asset or liability hedged in the same period. For the three and six months ended June 30, 2016, losses reclassified into net earnings were \$0.2 million and \$0.7 million, respectively. In addition, the Company utilizes forward exchange contracts that are not designated as cash flow hedges; the results of these transactions were not material to the financial statements.

Net investment hedges – The Company has certain debt denominated in Euros and Swiss Francs. These debt instruments have been designated as partial hedges of the Company's Euro and Swiss Franc net asset positions. Changes in the fair value of this debt attributable to changes in the spot foreign exchange rate are recorded in foreign currency translation in other comprehensive income ("OCI"). As of June 30, 2017, and December 31, 2016, the total value of the Company's Euro and Swiss Franc debt was \$251.1 million and \$195.6 million, respectively. For the three and six months ended June 30, 2017, the impact of foreign exchange rates on these debt instruments increased debt by \$15.5 million and \$18.1 million, respectively, which has been recorded as foreign currency translation in OCI.

8.Income Taxes

The effective income tax rates for continuing operations for the quarters ended June 30, 2017 and 2016, were 22.4% and 36.6%, respectively. For the six-month periods ended June 30, 2017 and 2016, the effective income tax rates for continuing operations were 25.3% and 31.6%, respectively. The effective tax rates in both 2017 and 2016 were impacted by restructuring activities, changes in estimates associated with the finalization of prior year foreign and domestic tax items, audit settlements, adjustments to valuation allowances, and mix of foreign earnings. The tax rate for the three-month period ended June 30, 2017, was also impacted by a tax planning opportunity that expires in 2017. The six-month period ended June 30, 2017, was also impacted by the limited tax deductibility of losses related to the divestitures discussed in Note 11, Restructuring and Note 13, Divestiture.

In 2017, the Company completed the divestiture of a facility and certain related business lines in the Flavors & Fragrances segment (See Note 13, Divestiture, for additional information), resulting in the reclassification of the cumulative translation loss of \$2.8 million into net earnings. In addition, the Company completed the sale of its European Natural Ingredient business (See Note 11, Restructuring, for additional information), resulting in the reclassification of the cumulative translation loss of \$4.0 million into net earnings. During the three months ended June 30, 2017, one of the Company's pension plans was terminated resulting in the reclassification of the cumulative translation loss of \$1.5 million into net earnings (See Note 5, Retirement Plans, for additional information).

10. Accounts Receivable Securitization

During October 2016, the Company entered into an accounts receivable securitization program with a commitment size of \$40 million, whereby transactions under the program are accounted for as sales of trade receivables in accordance with ASC Topic 860, Transfers and Servicing. Sales of trade receivables under the program are recorded as a reduction of accounts receivable in the Consolidated Balance Sheet. Proceeds received, including collections on the deferred purchase price receivable, are included in cash flows from operating activities in the Condensed Consolidated Statements of Cash Flows.

The initial trade receivables sold to the third-party financial institution, Wells Fargo, in October 2016, totaled \$60.6 million, for which \$40 million in proceeds was received. The fair value of the receivables sold equaled the carrying cost at the time of sale and no gain or loss was recorded as a result of the sale. The sale also resulted in the recording of a deferred purchase price amount, which represents the retained interest in the sold receivables. This amount is adjusted each month based on collections and other activity. The fair value of the deferred purchase price receivable recorded on the initial sale in October 2016, was \$20.6 million. The Company estimates the fair value of the deferred purchase price receivable based on historical performance of similar receivables, including an allowance for doubtful accounts, as well as estimated cash discounts to be taken by customers and potential credits issued to customers. The Company deems the interest rate risk related to the deferred purchase price receivable to be de minimis primarily due to the short average collection cycle of the related receivables. As of June 30, 2017, the trade receivables sold to Wells Fargo totaled \$57 million. The fair value of the deferred purchase price receivable was \$17 million, which is recorded

in Trade Accounts Receivable in the Company's Consolidated Balance Sheets.

11. Restructuring

The Company incurred restructuring costs in both continuing and discontinued operations. The discussion in this note relates to the combination of both continuing and discontinued operations unless otherwise noted. Restructuring costs related to discontinued operations are recorded in discontinued operations within the Company's Consolidated Condensed Statements of Earnings and are discussed in Note 12, Discontinued Operations, in more detail.

In March 2014, the Company announced that it was initiating a restructuring plan ("2014 Restructuring Plan" or "Plan") to eliminate underperforming operations, consolidate manufacturing facilities, and improve efficiencies within the Company. The Company determined that it had redundant manufacturing capabilities in both North America and Europe and that it could lower costs and operate more efficiently by consolidating into fewer facilities. Eight facilities were identified for consolidation in the Flavors & Fragrances segment, four in North America and four in Europe. Closures have been completed in Indianapolis, Indiana, United States; Cornwall, Mississauga, and Halton Hills, Canada; Bremen, Germany; and Milan, Italy. The Company sold its two European Natural Ingredients facilities as part of the Plan, as discussed below. In addition, the Company discontinued one of the businesses in the Color segment, located near Leipzig, Germany, because it did not fit with the Company's long-term strategic plan and it had generated losses for several years. In 2015, the Company identified additional opportunities to consolidate manufacturing operations at one of the Color segment's facilities in Europe and to eliminate additional positions in the European Flavors & Fragrances businesses. As of June 30, 2017, the Company has effectively completed all of the above-mentioned activities and closures.

Based on this Plan, the Company determined that certain long-lived assets associated with the underperforming operations were impaired. The Company reduced the carrying amounts of these assets to their aggregate respective fair values, which were determined based on independent market valuations. The fair values of the remaining long-lived assets are estimated to be approximately \$9 million, which includes certain of the land, buildings, and equipment in the assets held for sale, as noted below. Also, certain machinery and equipment has been identified to be disposed of at the time of the facility closures and the associated depreciation for these assets has been accelerated. The Company recorded a de minimis amount of long-lived asset impairments, including the impairment charges and accelerated depreciation, during the three months ended June 30, 2017, versus \$0.3 million during the three months ended June 30, 2016, and \$0.4 million and \$0.7 million during the six months ended June 30, 2017 and 2016, respectively. Since initiating the Plan, the Company has recorded \$87 million of long-lived asset impairments, including the impairment charges and accelerated depreciation. In addition, certain intangible assets, inventory, and other current assets were also determined to be impaired and were written down.

The Company has also incurred employee separation and other restructuring costs as a result of this Plan. The Company originally anticipated that it would reduce headcount related to direct and indirect labor at manufacturing sites by approximately 400 positions at the affected facilities, primarily in the Flavors & Fragrances segment. Except for certain positions assisting with the facility decommissioning activities, the majority of these positions have been eliminated as of June 30, 2017.

During the three months ended March 31, 2017, the Company sold its European Natural Ingredients business (also known as the European Dehydrated Vegetable business), a business in the Flavors & Fragrances segment. This business had two facilities, located in Marchais, France, and Elburg, the Netherlands. The European Natural Ingredients business had not generated significant profits for several years and did not fit with the Company's long-term strategic plan. The Company completed the sale of this business on March 27, 2017, for a de minimis amount and has recognized a non-cash loss of approximately \$21.6 million.

As of June 30, 2017, the Company has recorded assets held for sale of land, buildings, and equipment of \$7.3 million related to the 2014 Restructuring Plan.

Index

In accordance with GAAP, the Company recorded total restructuring costs of \$7.4 million and restructuring income of \$0.2 million for both the three months ended June 30, 2017 and 2016, respectively, and restructuring costs of \$27.6 million and \$3.1 million for the six months ended June 30, 2017 and 2016, respectively. Since initiating the 2014 Restructuring Plan, the Company has incurred \$180 million of restructuring costs through June 30, 2017. The Company expects to incur approximately \$1 million of additional restructuring costs by the end of 2017, primarily related to the wind down of restructuring activities.

Since initiating the Plan, the Company has realized total savings of approximately \$22 million as of June 30, 2017. During the three and six months ended June 30, 2017, the Company realized a de minimis amount of savings. The Company does not expect any additional savings for the remainder of 2017, but expects additional savings of approximately \$4 to \$5 million in 2018. Expected savings have shifted from 2017 to 2018 primarily due to the delay in closing the Indianapolis facility. The Company intends to continue to optimize production at the consolidating sites after the completion of the restructuring activities.

In connection with the 2014 Restructuring Plan, the Company approved a plan to dispose of a certain business, located near Leipzig, Germany, within the Color segment. Production ceased in 2014 and the business met the criteria to be reported as a discontinued operation. In 2016, the facility and remaining assets were sold and the entity was liquidated.

The Company evaluates performance based on operating income of each segment before restructuring and other costs. All restructuring and other costs related to continuing operations are recorded in Corporate & Other. The following table summarizes the restructuring expense by segment and discontinued operations for the three and six months ended June 30, 2017 and 2016, respectively:

12. Discontinued Operations

In connection with the 2014 Restructuring Plan, the Company approved a plan to dispose of a business unit within the Color segment, located near Leipzig, Germany. Since 2014, the business has met the criteria to be presented as a discontinued operation as established in ASC Subtopic 205-20, Discontinued Operations. The results of this business have been reported as a discontinued operation in the Consolidated Condensed Statements of Earnings for all periods presented. In 2016, the facility and remaining assets were sold and the entity was liquidated.

The following table summarizes the discontinued operation's results for the three and six months ended June 30, 2017 and 2016:

13. Divestiture

In 2016, the Company's Board of Directors authorized management to explore strategic alternatives for a facility and certain related business lines within the Flavors & Fragrances segment in Strasbourg, France. In 2016, the Company recorded a non-cash impairment charge of \$10.8 million, in selling and administrative expense, reducing the carrying value of the long-lived assets for this facility to zero. An estimate of the fair value of this business less cost to sell was determined to be lower than its carrying value. The difference between the fair value and its carrying value exceeded the existing net book value of the long-lived assets. In addition, the Company incurred \$0.7 million of outside professional fees and other related costs in 2016, as a result of the then anticipated divestiture.

On January 6, 2017, the Company completed the sale of this facility and certain related business lines for approximately \$12.5 million. At that time, the Company recognized an additional non-cash loss of approximately \$11 million during the three months ended March 31, 2017. In addition, an additional non-cash loss of approximately \$0.6 million was recognized during the three months ended June 30, 2017. The additional non-cash losses in 2017 are primarily due to changes in the estimates related to working capital balances.

14. Debt

On May 3, 2017, the Company issued three new fixed-rate notes consisting of a 7-year note of €50 million (approximately \$53 million) at a fixed rate of 1.27%; a 10-year note of €40 million (approximately \$43 million) at a fixed rate of 1.71%; and a 7-year note of \$27 million at a fixed rate of 3.65%. Also, on May 3, 2017, the Company extended the maturity date of its revolving credit loan from November 2020 to May 2022, and increased its credit facility term loan to \$145 million. Proceeds were used to refinance existing debt.

15. Commitments and Contingencies

U.S. Equal Employment Opportunity Commission Civil Complaint

On September 21, 2015, the U.S. Equal Employment Opportunity Commission (EEOC) filed a civil complaint against Sensient Natural Ingredients LLC (SNI) in the U.S. District Court for the Eastern District of California. SNI is a wholly owned subsidiary of the Company. The EEOC's complaint alleged that SNI failed to comply with the Americans with Disabilities Act (ADA), as amended, when it terminated five employees in 2011. In its discovery responses, the EEOC identified 3 additional former employees as claimants for whom the Agency sought relief.

The parties reached an agreement to settle the case through a Consent Decree, which was approved by the Court on June 29, 2017. The Company previously accrued \$0.6 million for the settlement of this matter, which it will pay to the previously identified claimants in accordance with the terms of the Consent Decree. Additionally, the Company has agreed to pay up to an additional \$0.2 million to any other claimant(s) that may be identified by the EEOC through a claims process, and to undertake additional training efforts and policy enhancements related to ADA compliance.

Other Claims and Litigation

The Company is subject to various claims and litigation arising in the normal course of business. The Company establishes reserves for claims and proceedings when it is probable that liabilities exist and reasonable estimates of loss can be made. While it is not possible to predict the outcome of these matters, based on our assessment of the facts and circumstances now known, we do not believe that these matters, individually or in the aggregate, will have a material adverse effect on our financial position. However, actual outcomes may be different from those expected and could have a material effect on our results of operations or cash flows in a particular period.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following discussion of the financial condition and results of operations excludes the results of discontinued operations unless otherwise indicated.

Revenue

Revenue was \$338.5 million and \$360.8 million for the three months ended June 30, 2017 and 2016, respectively, a decrease of 6.2%. Revenue was \$679.9 million and \$703.3 million for the six months ended June 30, 2017 and 2016, respectively. The impact of foreign exchange rates decreased consolidated revenue by approximately 1.1% for both the three and six months ended June 30, 2017.

Gross Profit

The Company's gross margin was 35.2% and 34.5% for the three months ended June 30, 2017 and 2016, respectively. The increase in gross margin for the three months ended June 30, 2017, is primarily a result of higher selling prices and the favorable impact of the divestitures (See Note 11, Restructuring, and Note 13, Divestiture, for further information). Restructuring costs did not have a significant impact on gross margin for the three months ended June 30, 2017 and 2016.

Gross margin was 35.3% and 34.2% for the six months ended June 30, 2017 and 2016, respectively. Included in costs of sales is \$0.3 million and \$0.8 million of restructuring costs for the six months ended June 30, 2017 and 2016, respectively. The increase in gross margin for the six months ended June 30, 2017, is primarily due to higher selling prices and the favorable impact of the divestitures. Restructuring costs reduced gross margin by 10 basis points in both six-month periods.

Selling and Administrative Expense

Selling and administrative expenses as a percent of revenue were 22.1% and 22.4% for the three months ended June 30, 2017 and 2016, respectively. Restructuring and other costs (see the discussions below regarding Restructuring, Divestiture, and Non-GAAP Financial Measures) of \$7.9 million and \$13.4 million were included in selling and administrative expenses for the three months ended June 30, 2017 and 2016, respectively. The decrease in selling and administrative expenses as a percent of revenue is primarily due to the lower restructuring and other costs and lower performance based executive compensation, partially offset by profit on a sale of an import right in 2016 in the Flavors & Fragrances segment. Restructuring and other costs increased selling and administrative expense as a percent of revenue by 230 basis points and 370 basis points for the three months ended June 30, 2017 and 2016, respectively.

Selling and administrative expenses as a percent of revenue were 25.3% and 21.2% for the six months ended June 30, 2017 and 2016, respectively. Restructuring and other costs of \$38.8 million and \$16.1 million were included in selling and administrative expenses for the six months ended June 30, 2017 and 2016, respectively. The increase in selling and administrative expenses as a percent of revenue is primarily due to the higher restructuring and other costs and profit on a sale of an import right in 2016 in the Flavors & Fragrances segment, partially offset by lower performance-based executive compensation. Restructuring and other costs increased selling and administrative expense as a percent of revenue by 570 basis points and 230 basis points for the six months ended June 30, 2017 and 2016, respectively.

Operating Income

Operating income was \$44.4 million and \$43.7 million for the three months ended June 30, 2017 and 2016, respectively. Operating margins were 13.1% and 12.1% for the three months ended June 30, 2017 and 2016, respectively. Restructuring and other costs reduced operating margins by 230 basis points and 380 basis points during

the three months ended June 30, 2017 and 2016, respectively.

Operating income was \$68.4 million and \$91.2 million for the six months ended June 30, 2017 and 2016, respectively. Operating margins were 10.1% and 13.0% for the six months ended June 30, 2017 and 2016, respectively. Restructuring and other costs reduced operating margins by 570 basis points and 240 basis points during the six months ended June 30, 2017 and 2016, respectively.

Index

Interest Expense

Interest expense was \$4.7 million and \$4.6 million for the three months ended June 30, 2017 and 2016, respectively, and \$9.5 million and \$9.4 million for the six months ended June 30, 2017 and 2016, respectively.

Income Taxes

The effective income tax rates for continuing operations for the quarters ended June 30, 2017 and 2016, were 22.4% and 36.6%, respectively. For the six-month periods ended June 30, 2017 and 2016, the effective income tax rates for continuing operations were 25.3% and 31.6%, respectively. The effective tax rates in both 2017 and 2016 were impacted by restructuring activities, changes in estimates associated with the finalization of prior year foreign and domestic tax items, audit settlements, adjustments to valuation allowances, and mix of foreign earnings. The tax rate for the three-month period ended June 30, 2017, was also impacted by a tax planning opportunity that expires in 2017. The six-month period ended June 30, 2017, was also impacted by the limited tax deductibility of losses related to the divestitures discussed in Note 11, Restructuring and Note 13, Divestiture.

Restructuring

The Company incurred restructuring costs in both continuing and discontinued operations. The discussion in this note relates to the combination of both continuing and discontinued operations unless otherwise noted. Restructuring costs related to discontinued operations are recorded in discontinued operations within the Company's Consolidated Condensed Statements of Earnings and are discussed in Note 12, Discontinued Operations, in more detail.

In March 2014, the Company announced that it was initiating a restructuring plan ("2014 Restructuring Plan" or "Plan") to eliminate underperforming operations, consolidate manufacturing facilities, and improve efficiencies within the Company. The Company determined that it had redundant manufacturing capabilities in both North America and Europe and that it could lower costs and operate more efficiently by consolidating into fewer facilities. Eight facilities were identified for consolidation in the Flavors & Fragrances segment, four in North America and four in Europe. Closures have been completed in Indianapolis, Indiana, United States; Cornwall, Mississauga, and Halton Hills, Canada; Bremen, Germany; and Milan, Italy. The Company also identified its two European Natural Ingredients facilities to be sold as part of the Plan, as discussed below. In addition, the Company discontinued one of the businesses in the Color segment, located near Leipzig, Germany, because it did not fit with the Company's long-term strategic plan and it had generated losses for several years. In 2015, the Company identified additional opportunities to consolidate manufacturing operations at one of the Color segment's facilities in Europe and to eliminate additional positions in the European Flavors & Fragrances businesses. As of June 30, 2017, the Company has effectively completed all of the above-mentioned activities and closures.

Based on this Plan, the Company determined that certain long-lived assets associated with the underperforming operations were impaired. The Company reduced the carrying amounts of these assets to their aggregate respective fair values, which were determined based on independent market valuations. The fair values of the remaining long-lived assets are estimated to be approximately \$9 million, which includes certain of the land, buildings, and equipment in the assets held for sale, as noted below. Also, certain machinery and equipment has been identified to be disposed of at the time of the facility closures and the associated depreciation for these assets has been accelerated. The Company recorded a de minimis amount of long-lived asset impairments, including the impairment charges and accelerated depreciation, during the three months ended June 30, 2017 versus \$0.3 million during the three months ended June 30, 2016, and \$0.4 million and \$0.7 million during the six months ended June 30, 2017 and 2016, respectively. Since initiating the Plan, the Company has recorded \$87 million of long-lived asset impairments, including the impairment charges and accelerated depreciation. In addition, certain intangible assets, inventory, and other current assets were also determined to be impaired and were written down.

The Company has also incurred employee separation and other restructuring costs as a result of this Plan. The Company originally anticipated that it would reduce headcount related to direct and indirect labor at manufacturing sites by approximately 400 positions at the affected facilities, primarily in the Flavors & Fragrances segment. Except

for certain positions assisting with the facility decommissioning activities, the majority of these positions have been eliminated as of June 30, 2017.

Index

During the three months ended March 31, 2017, the Company sold its European Natural Ingredients business (also known as the European Dehydrated Vegetable business), a business in the Flavors & Fragrances segment. This business had two facilities, located in Marchais, France, and Elburg, the Netherlands. The European Natural Ingredients business had not generated significant profits for several years and did not fit with the Company's long-term strategic plan. The Company completed the sale of this business on March 27, 2017, for a de minimis amount and has recognized a non-cash loss of approximately \$21.6 million.

As of June 30, 2017, the Company has recorded assets held for sale of land, buildings, and equipment of \$7.3 million related to the 2014 Restructuring Plan.

In accordance with GAAP, the Company recorded total restructuring costs of \$7.4 million and restructuring income of \$0.2 million for the three months ended June 30, 2017 and 2016, respectively, and restructuring costs of \$27.6 million and \$3.1 million for the six months ended June 30, 2017 and 2016, respectively. Since initiating the 2014 Restructuring Plan, the Company has incurred \$180 million of restructuring costs through June 30, 2017. The Company expects to incur approximately \$1 million of additional restructuring costs by the end of 2017, primarily related to the wind down of restructuring activities.

Since initiating the Plan, the Company has realized total savings of approximately \$22 million as of June 30, 2017. During the three and six months ended June 30, 2017, the Company realized de minimis amount of savings. The Company does not expect any additional savings for the remainder of 2017, but expects additional savings of approximately \$4 to \$5 million in 2018. Expected savings have shifted from 2017 to 2018 primarily due to the delay in closing the Indianapolis facility. The Company intends to continue to optimize production at the consolidating sites after the completion of the restructuring activities.

In connection with the 2014 Restructuring Plan, the Company approved a plan to dispose of a certain business, located near Leipzig, Germany, within the Color segment. Production ceased in 2014 and the business met the criteria to be reported as a discontinued operation. In 2016, the facility and remaining assets were sold and the entity was liquidated.

Divestiture

In 2016, the Company's Board of Directors authorized management to explore strategic alternatives for a facility and certain related business lines within the Flavors & Fragrances segment in Strasbourg, France. In 2016, the Company recorded a non-cash impairment charge of \$10.8 million, in selling and administrative expense, reducing the carrying value of the long-lived assets for this facility to zero. An estimate of the fair value of this business less cost to sell was determined to be lower than its carrying value. The difference between the fair value and its carrying value exceeded the existing net book value of the long-lived assets. In addition, the Company incurred \$0.7 million of outside professional fees and other related costs in 2016, as a result of the then anticipated divestiture.

On January 6, 2017, the Company completed the sale of this facility and certain related business lines for approximately \$12.5 million. At that time, the Company recognized an additional non-cash loss of approximately \$11 million during the three months ended March 31, 2017. In addition, an additional non-cash loss of approximately \$0.6 million was recognized during the three months ended June 30, 2017. The additional non-cash losses in 2017 are primarily due to changes in the estimates related to working capital balances.

SEGMENT INFORMATION

The Company determines its operating segments based on information utilized by the chief operating decision maker to allocate resources and assess performance. Segment performance is evaluated on operating income of the respective business units before restructuring and other costs, which are reported in Corporate & Other, interest expense, and income taxes.

Beginning in the first quarter of 2017, the results of operations for certain of the Company's cosmetic and fragrance businesses in the Asia Pacific segment are now reported in the Color segment and Flavors & Fragrances segment, respectively. PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

U.S. Equal Employment Opportunity Commission Civil Complaint

On September 21, 2015, the U.S. Equal Employment Opportunity Commission (EEOC) filed a civil complaint against Sensient Natural Ingredients LLC (SNI) in the U.S. District Court for the Eastern District of California. SNI is a wholly owned subsidiary of the Company. The EEOC's complaint alleged that SNI failed to comply with the Americans with Disabilities Act (ADA), as amended, when it terminated five employees in 2011. In its discovery responses, the EEOC identified 3 additional former employees as claimants for whom the Agency sought relief.

The parties reached an agreement to settle the case through a Consent Decree, which was approved by the Court on June 29, 2017. The Company previously accrued \$0.6 million for the settlement of this matter, which it will pay to the previously identified claimants in accordance with the terms of the Consent Decree. Additionally, the Company has agreed to pay up to an additional \$0.2 million to any other claimant(s) that may be identified by the EEOC through a claims process, and to undertake additional training efforts and policy enhancements related to ADA compliance

IndexOther Claims and Litigation

The Company is subject to various claims and litigation arising in the normal course of business. The Company establishes reserves for claims and proceedings when it is probable that liabilities exist and reasonable estimates of loss can be made. While it is not possible to predict the outcome of these matters, based on our assessment of the facts and circumstances now known, we do not believe that these matters, individually or in the aggregate, will have a material adverse effect on our financial position. However, actual outcomes may be different from those expected and could have a material effect on our results of operations or cash flows in a particular period.

SEC Inquiry

On October 22, 2015, the Company received an informal inquiry from the staff of the Securities and Exchange Commission's Division of Enforcement requesting the voluntary provision of documents and information generally related to the Company's disclosures of its restructuring activities, its treatment of long-lived assets, and its use of non-GAAP financial measures in its SEC filings and 2014 Annual Report to Shareholders. The Company is fully cooperating with the inquiry and is unable to predict the outcome of the inquiry or its potential impact.
