ITEM 4. PURPOSE OF TRANSACTION

(a)-(j). Each of the Reporting Persons became stockholders in the Issuer following the distribution of shares of Common Stock in January 2015 from an investment partnership managed by Flatbush Watermill Management. The Reporting Persons believe a number of significant events have taken place since 2015 that position the Issuer to generate meaningfully improved economic performance in the coming years. First, the Issuer accelerated the transition of its business model from selling software licenses and installing on-premise applications to selling subscriptions and delivering software as a service (SaaS) via the cloud. Second, the Issuer executed a business combination with its largest direct competitor. Third, the Issuer identified and hired a suitable replacement for its founder/long-time chief executive officer. Fourth, the Issuer made a number of other important managerial changes including a new chief financial officer and chief product officer. Fifth, the Issuer became profitable on a cash flow basis. The Reporting Persons believe the Issuer's depth of process knowledge with respect to revenue management in the life sciences and technology manufacturing industries represents a source of valuable competitive advantage that - when combined with its new business model and enhanced management - should generate meaningfully improved levels of: value delivery to customers, cash flow for owners, and intriguing new opportunities for employees. Accordingly, the Reporting Persons have increased their ownership of Common Stock in order to participate in the potential growth in value of the business of the Issuer.

The Reporting Persons further believe that over time, they will be able to share ideas and insight with management that could contribute to long-term value creation for both the Issuer's customers and its owners. For example, the Reporting Persons believe that through thoughtful management of the Issuer's competitive advantage and SaaS business model there exists a very significant opportunity to enhance the value delivered to its network of customers and their trading partners. The Reporting Persons also believe that the current market price of the Issuer's Common Stock is materially below their estimate of its worth. Accordingly, the Reporting Persons may communicate with other stockholders and management of the Issuer about maximizing the value of the Common Stock.

Except as set forth herein, the Common Stock have been acquired by the Reporting Persons for investment purposes and were not acquired with the intent to change or influence control of the Issuer or to participate in any transaction having that purpose or effect. The Reporting Persons reserve the right to change their plans and intentions at any time as they deem appropriate.

The Reporting Persons may acquire additional Common Stock, dispose of all or some of the Common Stock from time to time, in each case in the open market or private transactions, block purchases or sales or otherwise, or may continue to beneficially hold the Common Stock, depending on business and market conditions, their continuing evaluation of the business and prospects of the Issuer and other factors.

Depending on factors deemed relevant by the Reporting Persons, including but not limited to a change in the Issuer's business, governance or financial situation, the Reporting Persons reserve the right to formulate other plans and/or make proposals, and take such other actions as the Reporting Persons, or any of them, may determine.

Presently the Reporting Persons have no plans or proposals which would relate to, or result in any of the matters set forth in subparagraphs (a) - (j) of Item 4 of Schedule 13D except as set forth herein.
