CASTLE BRANDS INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements

NOTE 1 — ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements do not include all of the information and footnote disclosures normally included in financial statements prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”) and U.S. generally accepted accounting principles (“GAAP”) and, in the opinion of management, contain all adjustments (which consist of only normal recurring adjustments) necessary for a fair presentation of such financial information. Results of operations for interim periods are not necessarily indicative of those to be achieved for full fiscal years. The condensed consolidated balance sheet as of March 31, 2010 is derived from the March 31, 2010 audited financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with Castle Brands Inc.’s (the “Company”) audited consolidated financial statements for the fiscal year ended March 31, 2010 included in the Company’s annual report on Form 10-K for the year ended March 31, 2010, as amended (“2010 Form 10-K”). Please refer to the notes to the audited consolidated financial statements included in the 2010 Form 10-K for additional disclosures and a description of accounting policies. The Company has evaluated subsequent events through the date the financial statements contained in this report were issued.

The Company expects its current cash and working capital and funds available under its revolving credit agreement to provide sufficient funds to execute planned operations for at least the next twelve months. The Company anticipates that from time to time it may borrow up to the full limit of the credit facility to fund operations, inventory requirements and potential acquisition opportunities.

A. Description of business and business combination — The unaudited condensed consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries, Castle Brands (USA) Corp. (“CB-USA”), and McLain & Kyne, Ltd. (“McLain & Kyne”), and the Company’s wholly-owned foreign subsidiaries, Castle Brands Spirits Group Limited (“CB-IRL”) and Castle Brands Spirits Marketing and Sales Company Limited, and the Company’s 60% ownership interest in Gosling-Castle Partners, Inc. (“GCP”), with adjustments for income or loss allocated based upon percentage of ownership. The accounts of the subsidiaries have been included as of the date of acquisition. All significant intercompany transactions and balances have been eliminated.

B. Organization and operations — The Company is principally engaged in the importation, marketing and sale of premium and super premium brands of vodka, whiskey, rums, tequila, liqueurs and fine wine in the United States, Canada, Europe, Latin America and the Caribbean. The vodka, Irish whiskeys and certain liqueurs are procured by CB-IRL, billed in Euros and imported from Europe into the United States. The risk of fluctuations in foreign currency is borne by the U.S. entities.

C. Goodwill and other intangible assets — Goodwill represents the excess of purchase price including related costs over the value assigned to the net tangible and identifiable intangible assets of businesses acquired. Goodwill and other identifiable intangible assets with indefinite lives are not amortized, but instead are tested for impairment annually, or more frequently if circumstances indicate a possible impairment may exist. Intangible assets with estimable useful lives are amortized over their respective estimated useful lives, generally on a straight-line basis, and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable.

D.

Impairment of long-lived assets — Under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 310, “Accounting for the Impairment or Disposal of Long-lived Assets”, the Company periodically reviews whether changes have occurred that would require revisions to the carrying amounts of its definite lived, long-lived assets. When the sum of the expected future cash flows is less than the carrying amount of the asset, an impairment loss is recognized based on the fair value of the asset.

E. Excise taxes and duty — Excise taxes and duty are computed at standard rates based on alcohol proof per gallon/liter and are paid after finished goods are imported into the United States and then transferred out of “bond.” Excise taxes and duty are recorded to inventory as a component of the cost of the underlying finished goods. When the underlying products are sold “ex warehouse”, the sales price reflects the taxes paid and the inventoried excise taxes and duties are charged to cost of sales.

CASTLE BRANDS INC. AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Financial Statements - Continued

F. Foreign currency — The functional currency for the Company’s foreign operations is the Euro in Ireland and the British Pound in the United Kingdom. Under ASC 830, “Foreign Currency Matters”, the translation from the applicable foreign currencies to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income. Gains or losses resulting from foreign currency transactions are shown as a separate line item in the consolidated statements of operations. The Company’s vodka, Irish whiskeys and certain liqueurs are procured by CB-IRL and billed in Euros to CB-USA, with the risk of foreign exchange gain or loss resting with CB-USA. Also, the Company has funded the continuing operations of the international subsidiaries. The Company previously considered these transactions to be trading balances and short-term funding subject to transaction adjustment under ASC 830. As such, at each balance sheet date, the Euro denominated intercompany balances included on the books of the foreign subsidiaries were restated in U.S. Dollars at the exchange rate in effect at the balance sheet date, with the resulting foreign currency transaction gain or loss included in net loss. In November 2009, to improve the liquidity of the foreign subsidiaries, the Company converted \$17,481,169 in intercompany balances into an additional investment in the subsidiaries. Beginning December 1, 2009, the translation gain or loss from the investments in the foreign subsidiaries is included in other comprehensive income.

G. Fair value of financial instruments — ASC 825, “Financial Instruments”, defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties and requires disclosure of the fair value of certain financial instruments. The Company believes that there is no material difference between the fair-value and the reported amounts of financial instruments in the Company’s balance sheets due to the short term maturity of these instruments, or with respect to the Company’s debt, as compared to the current borrowing rates available to the Company.

The Company’s investments are reported at fair value in accordance with authoritative guidance, which accomplishes the following key objectives:

- Defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date;
- Establishes a three-level hierarchy (“valuation hierarchy”) for fair value measurements;
- Requires consideration of the Company’s creditworthiness when valuing liabilities; and
- Expands disclosures about instruments measured at fair value.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument’s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the valuation hierarchy are as follows:

- Level 1 — inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 — inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are directly or indirectly observable for the asset or liability for substantially the full term of the financial instrument.
- Level 3 — inputs to the valuation methodology are unobservable and significant to the fair value measurement.

H. Income taxes — Under ASC 740, “Income Taxes”, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and

liabilities and their respective tax basis. A valuation allowance is provided to the extent a deferred tax asset is not considered recoverable.

The Company has not recognized any adjustments for uncertain tax provisions. The Company recognizes interest and penalties related to uncertain tax positions in general and administrative expense; however, no such provisions for accrued interest and penalties related to uncertain tax positions have been recorded as of June 30, 2010 or 2009.

The Company's income tax benefit for the three months ended June 30, 2010 and 2009 consists of federal, state and local taxes attributable to GCP, which does not file a consolidated income tax return with the Company. In connection with the investment in GCP, the Company recorded a deferred tax liability on the ascribed value of the acquired intangible assets of \$2,222,222, increasing the value of the asset. The difference between the book basis and tax basis created a deferred tax liability that is being amortized over a period of 15 years (the life of the licensing agreement) on a straight-line basis. For each of the three-month periods ended June 30, 2010 and 2009, the Company recognized \$37,038 of deferred tax benefits.

I. Accounting standards adopted — In February 2010, the FASB issued authoritative guidance which eliminated as of February 2010 the requirement for an SEC filer to disclose the date through which subsequent events have been evaluated. The adoption of this guidance did not have a material impact on the Company's results of operations, cash flows or financial condition.

CASTLE BRANDS INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements - Continued

In January 2010, the FASB issued authoritative guidance intended to improve disclosure about fair value measurements. The guidance requires entities to disclose significant transfers in and out of fair value hierarchy levels and the reasons for the transfers and to present information about purchases, sales, issuances, and settlements separately in the reconciliation of fair value measurements using significant unobservable inputs (Level 3). Also, the guidance clarifies that a reporting entity should provide fair value measurements for each class of assets and liabilities and disclose the inputs and valuation techniques used for fair value measurements using significant other observable inputs (Level 2) and significant unobservable inputs (Level 3). This guidance is effective for interim and annual periods beginning after December 15, 2009, except for the disclosure about purchases, sales, issuances and settlements in the Level 3 reconciliation, which will be effective for interim and annual periods beginning after December 15, 2010. As this guidance provides only disclosure requirements, the adoption of this guidance did not have a material impact on the Company's results of operations, cash flows or financial condition.

In June 2009, the FASB issued authoritative guidance which eliminates the concept of a qualifying special-purpose entity, creates more stringent conditions for reporting a transfer of a portion of a financial asset as a sale, clarifies other sale-accounting criteria, and changes the initial measurement of a transferor's interest in transferred financial assets. This guidance became effective for the Company on April 1, 2010. The adoption of the standard did not have a material impact on the Company's results of operations, cash flows or financial condition.

In June 2009, the FASB issued authoritative guidance which eliminates exceptions to consolidating qualifying special-purpose entities, contains new criteria for determining the primary beneficiary, and increases the frequency of required reassessments to determine whether a company is the primary beneficiary of a variable interest entity. This guidance also contains a new requirement that any term, transaction, or arrangement that does not have a substantive effect on an entity's status as a variable interest entity, a company's power over a variable interest entity, or a company's obligation to absorb losses or its right to receive benefits of an entity must be disregarded. The elimination of the qualifying special-purpose entity concept and its consolidation exceptions means more entities will be subject to consolidation assessments and reassessments. This guidance became effective for the Company on April 1, 2010. The adoption of the standard did not have a material impact on the Company's results of operations, cash flows or financial condition.

In June 2009, the FASB issued an amendment to the accounting and disclosure requirements for the consolidation of variable interest entities. The guidance affects the overall consolidation analysis and requires enhanced disclosures on involvement with variable interest entities. This guidance became effective for the Company on April 1, 2010. The adoption of the standard did not have a material impact on the Company's results of operations, cash flows or financial condition.

J. Recent accounting pronouncements — In July 2010, the FASB issued authoritative guidance which requires expanded disclosures to help financial statement users understand the nature of credit risks inherent in a creditor's portfolio of financing receivables; how that risk is analyzed and assessed in arriving at the allowance for credit losses; and the changes, and reasons for those changes, in both the receivables and the allowance for credit losses. The disclosures should be prepared on a disaggregated basis and provide a roll-forward schedule of the allowance for credit losses and detailed information on financing receivables including, among other things, recorded balances, nonaccrual status, impairments, credit quality indicators, details for troubled debt restructurings and an aging of past due financing receivables. The guidance will be effective for the Company beginning December 15, 2010. The Company has evaluated the guidance and does not expect its adoption will have a material impact on the Company's results of operations, cash flows or financial condition.

NOTE 2 — BASIC AND DILUTED NET LOSS PER COMMON SHARE

Basic net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted net loss per common share is computed giving effect to all dilutive potential common shares that were outstanding during the period. Diluted potential common shares consist of incremental shares issuable upon exercise of stock options and warrants outstanding. In computing diluted net loss per share for the three months ended June 30, 2010 and 2009, no adjustment has been made to the weighted average outstanding common shares as the assumed exercise of outstanding options and warrants is anti-dilutive.

Potential common shares not included in calculating diluted net loss per share are as follows:

NOTE 3 — INVENTORIES

	June 30, 2010	March 31, 2010
Raw materials	\$ 3,027,880	\$ 2,961,887
Finished goods – net	7,850,538	6,281,914

As of June 30, and March 31, 2010, 54% and 47%, respectively, of raw materials and 3% and 4%, respectively, of finished goods were located outside of the United States.

The Company recorded reversals of its allowance for obsolete and slow moving inventory of \$24,589 and \$415,072 during the three months ended June 30, 2010 and 2009, respectively. These reversals were recorded as the Company was able to sell certain of the goods included in the allowance recorded during previous fiscal years. The reversals were recorded as a reduction in cost of sales. The Company estimates the allowance for obsolete and slow moving inventory based on analyses and assumptions including, but not limited to, historical usage, expected future demand and market requirements.

Inventories are stated at the lower of weighted average cost or market.

NOTE 4 — ACQUISITIONS AND DIVESTITURES

Acquisition of McLain & Kyne

On October 12, 2006, the Company acquired all of the outstanding capital stock of McLain & Kyne, pursuant to a stock purchase agreement. As consideration for the acquisition, the Company paid \$2,000,000, consisting of \$1,294,800 in cash and 100,000 shares of its common stock, valued at \$705,200, at closing. Under the McLain & Kyne agreement, as amended, the Company will also pay an earn-out, not to exceed \$4,000,000, to the sellers based on the financial performance of the acquired business through March 31, 2011. For the three months ended June 30, 2010, \$35,448 was earned by the sellers under this agreement. For the three months ended June 30, 2009, no such earn-out was earned. The earn-out payments have been recorded as an increase to goodwill.

A. In connection with the Betts & Scholl asset acquisition in September 2009, the Company issued a secured promissory note in the aggregate principal amount of \$1,094,541. This note is secured by the Betts & Scholl inventory acquired by the Company under a security agreement. This note provides for an initial payment of \$250,000, paid at closing, and for eight equal quarterly payments of principal and interest, with the final payment due on September 21, 2011. Interest under this note accrues at an annual rate of 0.84%, compounded quarterly. This note contains customary events of default, which if uncured, entitle the holder to accelerate the due date of the unpaid principal amount of, and all accrued and unpaid interest on, the note. At June 30, 2010, \$426,328 and \$100,981 of principal due on this note is included in current and long-term liabilities, respectively.

B.

In December 2009, GCP issued a promissory note (the "GCP Note") in the aggregate principal amount of \$211,580 to Gosling's Export (Bermuda) Limited in exchange for credits issued on certain inventory purchases. The GCP Note matures on April 1, 2020, is payable at maturity, subject to certain acceleration events, and calls for annual interest of 5%, to be accrued and paid at maturity. Interest has been recorded retroactive to November 15, 2008. At June 30, 2010, \$214,225, consisting of \$211,580 of principal and \$2,645 of accrued interest, due on the GCP Note is included in long-term liabilities.

C. In December 2009, the Company entered into a \$2,500,000 revolving credit agreement with, among others, Frost Gamma Investments Trust, an entity affiliated with Phillip Frost, M.D., a director and principal shareholder of the Company, Vector Group Ltd., a principal shareholder of the Company, Lafferty Ltd., a principal shareholder of the Company, IVC Investors, LLLP, an entity affiliated with Glenn Halpryn, a Company director, Mark Andrews, the Company's Chairman, and Richard J. Lampen, the Company's President and Chief Executive Officer. Under the credit agreement, the Company may borrow from time to time up to \$2,500,000 to be used for working capital or general corporate purposes. Borrowings under the credit agreement mature on April 1, 2013 and bear interest at a rate of 11% per annum, payable quarterly. The credit agreement provides for the payment of an aggregate commitment fee of \$75,000 payable to the lenders over the three-year period. The note issued under the credit agreement contains customary events of default, which if uncured, entitle the holders to accelerate the due date of the unpaid principal amount of, and all accrued and unpaid interest on, such note. Amounts may be repaid and reborrowed under the revolving credit agreement without penalty. The note is secured by the inventory and trade accounts receivable of CB-USA, subject to certain exceptions, pursuant to a security agreement. At June 30, 2010, \$1,000,000 of principal due on this credit agreement is outstanding and is included in long-term liabilities.

D. In June 2010, the Company issued a \$2,000,000 promissory note to Frost Gamma Investments Trust. Borrowings under the note mature on June 21, 2012 and bear interest at a rate of 11% per annum. Interest accrues quarterly and is payable at maturity. The note may be prepaid in whole or in part at any time prior to maturity without penalty, but with payment of accrued interest to the date of prepayment. At June 30, 2010, \$2,000,000 of principal due on this note is included in long-term liabilities.

NOTE 8 — EQUITY

Common stock — In June 2010, the Company issued 3,000,000 shares of its common stock in exchange for fine wine inventory. The inventory was valued at \$840,000 based on the closing price of the common stock on the date of the transaction.

Share repurchase — In June 2010, the Company repurchased 3,790,562 shares of its common stock at a price of \$0.27 per share in a privately-negotiated transaction. Also, the Company's board of directors approved a stock repurchase program authorizing the Company to repurchase up to an additional 2,500,000 shares of its common stock. As of June 30, 2010, no shares of the Company's common stock had been repurchased under the repurchase program.

NOTE 9 — FOREIGN CURRENCY FORWARD CONTRACTS

The Company enters into forward contracts to reduce its exposure to foreign currency fluctuations. The Company recognizes in the balance sheet derivative contracts at fair value, and reflects any net gains and losses currently in earnings. At June 30, 2010, the Company held outstanding forward exchange positions for the purchase of Euros, which expire through September 2010, in the amount of \$372,380 with a weighted average conversion rate of €1 = \$1.24126 as compared to the spot rate at June 30, 2010 of €1 = \$1.22055. At March 31, 2010, the Company had no forward contracts outstanding. Gain or loss on foreign currency forward contracts, which was de minimis during the periods presented, is included in other income and expense.

NOTE 10 — STOCK-BASED COMPENSATION

In June 2010, the Company granted to employees and directors options to purchase an aggregate of 1,350,000 shares of the Company's common stock at an exercise price of \$0.35 per share. The options, which expire in June 2020, vest

25% on each of the first four anniversaries of the date of grant. The Company has valued the options at \$225,018 using the Black-Scholes option pricing model.

Stock-based compensation expense for the three months ended June 30, 2010 and 2009 amounted to \$36,289 and \$40,496, respectively. At June 30, 2010, total unrecognized compensation cost amounted to approximately \$405,151, representing 3,113,750 unvested options. This cost is expected to be recognized over a weighted-average period of 9.2 years. There were 10,600 shares exercised during the three months ended June 30, 2010 and none exercised during the three months ended June 30, 2009. The Company did not recognize any related tax benefit for the three months ended June 30, 2010 and 2009 from these option exercises.

NOTE 11 — COMMITMENTS AND CONTINGENCIES

A. The Company has entered into a supply agreement with Irish Distillers Limited (“Irish Distillers”), which provides for the production of Irish whiskeys for the Company through 2014, subject to annual extensions thereafter, provided that the Company and Irish Distillers agree on the amount of liters of pure alcohol to be provided in the following year. Irish Distillers may terminate this agreement at the end of its term in 2014. Under this agreement, the Company is obligated to notify Irish Distillers annually of the amount of liters of pure alcohol it requires for the current contract year and contracts to purchase that amount. For the contract year ending June 30, 2011, the Company has contracted to purchase approximately €909,882 or \$1,110,556 (translated at the June 30, 2010 exchange rate) in bulk Irish whiskey. The Company is not obligated to pay Irish Distillers for any product not yet received. During the term of this supply agreement, Irish Distillers has the right to limit additional purchases above the commitment amount.

B. The Company leases office space in New York, NY, Dublin, Ireland and Houston, TX. The New York, NY lease began on April 1, 2010 and expires on April 2012 and provides for monthly payments of \$16,779. The Dublin lease commenced on March 1, 2009 and extends through November 30, 2013 and calls for monthly payments of €1,394 or \$1,701 (translated at the June 30, 2010 exchange rate). The Houston, TX lease commenced on February 24, 2000 and extends through January 31, 2011 and calls for monthly payments of \$1,778. The Company has also entered into non-cancelable operating leases for certain office equipment.

NOTE 12 — CONCENTRATIONS

A. Credit Risk — The Company maintains its cash and cash equivalents balances at various large financial institutions that, at times, may exceed federally and internationally insured limits. As of June 30, and March 31, 2010, the Company exceeded the insured limit by approximately \$65,000 and \$760,000, respectively.

B. Customers — Sales to three customers accounted for approximately 43.5% of the Company's revenues for the three months ended June 30, 2010 (of which one customer accounted for 27.1%) and approximately 43.7% of accounts receivable at June 30, 2010. Sales to three customers accounted for approximately 45.0% of the Company's revenues for the three months ended June 30, 2009 (of which one customer accounted for 31.3% of total sales). Sales to three customers accounted for approximately 40.3% of accounts receivable at June 30, 2009.

NOTE 13 — GEOGRAPHIC INFORMATION

The Company operates in one reportable segment — the sale of premium beverage alcohol. The Company's product categories are vodka, rum, liqueurs, whiskey, tequila and fine wine. The Company reports its operations in two geographic areas: International and United States.

The consolidated financial statements include revenues and assets generated in or held in the U.S. and foreign countries. The following table sets forth the amounts and percentage of consolidated revenue, consolidated results from operations, consolidated net loss attributable to common shareholders, consolidated income tax benefit and consolidated assets from the U.S. and foreign countries and consolidated revenue by category.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We develop and market premium brands in the following beverage alcohol categories: vodka, rum, whiskey, liqueurs, tequila and fine wine. We distribute these spirits in all 50 U.S. states and the District of Columbia, in twelve primary international markets, including Ireland, Great Britain, Northern Ireland, Germany, Canada, Bulgaria, France, Russia, Finland, Norway, Sweden, China and the Duty Free markets, and in a number of other countries in continental Europe and Latin America. We market the following brands, among others, Gosling's Rum®, Jefferson's™, Jefferson's Reserve® and Jefferson's Presidential Select™ bourbons, Clontarf® Irish Whiskey, Pallini® liqueurs, Boru® vodka, Knappogue Castle Whiskey®, Tierras™ tequila and Betts & Scholl™ wines.

Our objective is to continue building a distinctive portfolio of global premium spirits, super premium and fine wine brands. We have shifted our focus from a volume-oriented approach to a profit-centric focus. To achieve this, we continue to seek to:

- increase revenues from existing brands. We are focusing our existing distribution relationships, sales expertise and targeted marketing activities to concentrate on our more profitable brands by expanding our domestic and international distribution relationships to increase the mutual benefits of concentrating on our most profitable brands, while continuing to achieve brand recognition and growth and gain additional market share for our brands within retail stores, bars and restaurants, and thereby with end consumers;

- improve value chain and manage cost structure. We have undergone a comprehensive review and analysis of our supply chains and cost structures both on a company-wide and brand-by-brand basis. This has included restructurings and personnel reductions throughout our company. We further intend to map, analyze and redesign our purchasing and supply systems to reduce costs in our current operations and achieve profitability in future operations;

- selectively add new premium brands to our portfolio. We intend to continue developing new brands and pursuing strategic relationships, joint ventures and acquisitions to selectively expand our premium spirits and fine wine portfolio, particularly by capitalizing on and expanding our already demonstrated partnering capabilities. Our criteria for new brands focuses on underserved areas of the beverage alcohol marketplace, while examining the potential for direct financial contribution to our company and the potential for future growth based on development and maturation of agency brands. We will evaluate future acquisitions and agency relationships on the basis of their potential to be immediately accretive and their potential contributions to our objectives of becoming profitable and further expanding our product offerings. We expect that future acquisitions, if consummated, would involve some combination of cash, debt and the issuance of our stock; and

- cost containment. We have taken significant steps to reduce our costs, which has resulted in a significant decrease in selling expense and general and administrative expense. These steps included: reducing staff in our U.S. and international operations; restructuring our international distribution system; changing distributor relationships in certain markets; moving production of certain products to a lower cost facility in the U.S.; and reducing general and administrative costs, including professional fees, insurance, occupancy and other overhead costs. Efforts to further reduce expenses continue.

Recent Events

Promissory Note

Edgar Filing: Castle Brands Inc - Form 10-Q

In June 2010, we issued a \$2.0 million promissory note to Frost Gamma Investments Trust, an entity affiliated with Phillip Frost, M.D., a director and principal shareholder of ours, which we refer to as the Frost Note. Borrowings under the Frost Note mature on June 21, 2012 and bear interest at a rate of 11% per annum. Interest accrues quarterly and is due at maturity. The Frost Note may be prepaid in whole or in part at any time prior to maturity without penalty, but with payment of accrued interest to the date of prepayment.

Share Repurchase

In June 2010, we repurchased 3,790,562 shares of our common stock at a price of \$0.27 per share in a privately-negotiated transaction. Also, our board of directors approved a stock repurchase program authorizing us to repurchase up to an additional 2.5 million shares of our common stock.

Currency Translation

The functional currencies for our foreign operations are the Euro in Ireland and continental Europe and the British Pound in the United Kingdom. With respect to our consolidated financial statements, the translation from the applicable foreign currencies to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income. Previously, gains or losses resulting from balances due from funding our international subsidiaries, were included in other income (expenses). In November 2009, to improve the liquidity of our foreign subsidiaries, we converted our intercompany balances into an additional investment in these subsidiaries. Beginning December 1, 2009, the translation gain or loss from the restatement of the investments in our foreign subsidiaries is included in other comprehensive income. Prior to this conversion, we considered these transactions to be trading balances and short-term funding subject to transaction adjustment. As such, at each balance sheet date, we restated the Euro denominated intercompany balances included on the books of the foreign subsidiaries in U.S. Dollars at the exchange rate in effect at the balance sheet date, with the resulting foreign currency transaction gain or loss included in net loss.

Where in this report we refer to amounts in Euros, we have for your convenience also in certain cases provided a conversion of those amounts to U.S. Dollars in parentheses. Where the numbers refer to a specific balance sheet account date or financial statement account period, we have used the exchange rate that was used to perform the conversions in connection with the applicable financial statement. In all other instances, unless otherwise indicated, the conversions have been made using the exchange rates as of June 30, 2010, each as calculated from the Interbank exchange rates as reported by Oanda.com. On June 30, 2010, the exchange rate of the Euro in exchange for U.S. Dollars was €1.00 = U.S. \$1.22055 (equivalent to U.S. \$1.00 = €0.81930) for Euros.

These conversions should not be construed as representations that the Euro amounts actually represent U.S. Dollar amounts or could be converted into U.S. Dollars at the rates indicated.

Critical Accounting Policies

There are no material changes from the critical accounting policies set forth in Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our annual report on Form 10-K for the year ended March 31, 2010, as amended, which we refer to as our 2010 Annual Report. Please refer to that section for disclosures regarding the critical accounting policies related to our business.

Three months ended June 30, 2010 compared with three months ended June 30, 2009

Net sales. Net sales increased 4.4% to \$6.1 million for the three months ended June 30, 2010, as compared to \$5.9 million for the comparable prior-year period. Our U.S. case sales as a percentage of total case sales increased to 77.9% for the three months ended June 30, 2010, as compared to 77.6% for the comparable prior-year period. U.S. net sales increased to \$5.3 million for the three months ended June 30, 2010 from \$5.0 million for the comparable prior-year period. 2010 results include \$0.1 million in revenue from sales of Jefferson's Presidential Select bourbon, which we launched in August 2009, and \$0.2 million in revenue from sales of our Betts & Scholl wines, which we acquired in September 2009. The growth in U.S. sales reflects the momentum of most of our portfolio in the U.S., particularly for our Gosling's rums. Boru vodka sales decreased due to our focus on improved margins for this brand and increased competition due to price reductions by competing brands. Case sales decreased while net sales increased in the three months ended June 30, 2010 as compared to the three months ended June 30, 2009 as we focused our efforts on our more profitable brands and markets.

Edgar Filing: Castle Brands Inc - Form 10-Q

The table below presents the increase or decrease, as applicable, in case sales by product category for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009:

	Increase/(decrease) in case sales		Percentage increase/(decrease)	
	Overall	U.S.	Overall	U.S.
Rum	3,424	1,324	14.9%	6.8%
Vodka	(7,625)	(5,715)	(33.8)%	(34.4)%
Liqueurs	1,881	1,724	20.4%	19.1%
Whiskey	(895)	275	(14.3)%	12.2%
Tequila	(368)	(368)	(58.8)%	(58.8)%
Fine Wine	724	724	0.0%	0.0%
Total	(2,859)	(2,036)	(4.6)%	(4.3)%

Gross profit. Gross profit was \$2.3 million for each of the three months ended June 30, 2010 and 2009, while our gross margin decreased to 36.8% for the three months ended June 30, 2010 compared to 39.4% for the comparable prior-year period. During the three months ended June 30, 2010 and 2009, we recorded reversals of our allowance for obsolete and slow moving inventory of \$0.02 million and \$0.4 million, respectively. We recorded these reversals because we were able to sell certain goods included in the allowance recorded during previous fiscal years. We recorded the reversals as a decrease in cost of sales. Absent the reversals of the allowance, our gross profit was \$2.2 million and \$1.9 million for the three months ended June 30, 2010 and 2009, respectively, and our gross margin was 36.4% and 32.4%, respectively. Absent the reversals, our gross profit and gross margin increased in the current period as we focused our efforts on our more profitable brands and markets.

Selling expense. Selling expense decreased 6.3% to \$2.5 million for the three months ended June 30, 2010 from \$2.7 million for the comparable prior-year period. This decrease in selling expense was attributable to our continued cost containment efforts, primarily due to a decrease in advertising, marketing and promotion expense of \$0.3 million for the three months ended June 30, 2010 compared to the comparable prior-year period. This decrease was offset by an increase in employee expense, including salaries, related benefits and travel and entertainment, of \$0.1 million for the three months ended June 30, 2010 compared to the comparable prior-year period, due to the addition of staff in our Fine Wine Division. As a result of our continued cost containment efforts, selling expense as a percentage of net sales decreased to 41.1% for the three months ended June 30, 2010 as compared to 45.8% for the comparable prior-year period.

General and administrative expense. General and administrative expense decreased 9.4% to \$1.2 million for the three months ended June 30, 2010 as compared to \$1.4 million for the comparable prior-year period, primarily due to decreases of \$0.1 million in professional fees and \$0.1 million in insurance expense, respectively, due to our ongoing cost containment efforts. As a result, general and administrative expense as a percentage of net sales decreased to 20.4% for the three months ended June 30, 2010 as compared to 23.5% for the comparable prior-year period.

Depreciation and amortization. Depreciation and amortization was \$0.2 million for each of the three months ended June 30, 2010 and 2009.

Loss from operations. As a result of the foregoing, our loss from operations improved \$0.3 million, or 11.3%, to \$1.7 million for the three months ended June 30, 2010 from \$2.0 million for the comparable prior-year period. As a result of our continued cost containment efforts, our focus on our more profitable brands and markets, and expected growth from our existing brands, recently acquired brands and brands we may acquire in the future, we anticipate continued improved results of operations in the near term as compared to comparable prior-year periods, although there is no assurance that we will attain such results.

Foreign exchange gain. Foreign exchange gain for the three months ended June 30, 2010 was \$0.1 million as compared to a gain of \$1.0 million for the three months ended June 30, 2009 due to the strengthening of the U.S. dollar against the Euro and the British Pound and its effect on our Euro- and British Pound-denominated intercompany advances to our foreign subsidiaries. In November 2009, to improve the liquidity of our foreign subsidiaries, we converted our intercompany balances into an additional investment in these subsidiaries. Beginning December 1, 2009, the translation gain or loss from the restatement of the investments in our foreign subsidiaries is included in other comprehensive income. Prior to this conversion, we considered these transactions to be trading balances and short-term funding subject to transaction adjustment under ASC 830, "Foreign Currency Matters". As such, at each balance sheet date, we restated the Euro denominated intercompany balances included on the books of the foreign subsidiaries in U.S. Dollars at the exchange rate in effect at the balance sheet date, with the resulting foreign currency transaction gain or loss included in net loss.

Interest (expense) income, net. We had interest expense, net of (\$0.03) million for the three months ended June 30, 2010 as compared to interest income, net of \$0.02 million for the three months ended June 30, 2009. The increase in interest expense is due to the outstanding balances on our notes payable as described below in "Liquidity and Capital Resources," particularly our \$2.5 million revolving credit facility. We expect interest expense to increase in future periods due to borrowings under the Frost Note and our expected borrowings over the next three years of up to the full limit of our revolving credit facility to fund operations, inventory requirements and potential acquisition opportunities.

Gain on exchange of note payable. In May 2009, we exchanged our subsidiary's outstanding 3% note payable for 200,000 shares of our common stock. This resulted in a pre-tax, non-cash gain of \$0.3 million for the three months ended June 30, 2009.

Net (income) loss attributable to noncontrolling interests. Net (income) loss attributable to noncontrolling interests during the three months ended June 30, 2010 amounted to a loss of (\$0.05) million as compared to income of \$0.05 million for the comparable prior-year period, both the result of allocated net results recorded by our 60%-owned subsidiary, Gosling-Castle Partners, Inc.

Net loss attributable to common shareholders. As a result of the net effects of the foregoing, net loss attributable to common shareholders for the three months ended June 30, 2010 increased to a loss of \$1.7 million from a loss of \$0.6 million for the three months ended June 30, 2009. Net loss per common share, basic and diluted, was \$0.02 per share for the three months ended June 30, 2010 as compared to \$0.01 per share for the comparable prior-year period.

Liquidity and capital resources

Since our inception, we have incurred significant operating and net losses and have not generated positive cash flows from operations. For the three months ended June 30, 2010, we had a net loss of \$1.7 million, and used cash of \$2.4 million in operating activities. As of June 30, 2010, we had an accumulated deficit of \$113.8 million.

In June 2010, we issued the \$2.0 million Frost Note. Borrowings under the Frost Note mature on June 21, 2012 and bear interest at a rate of 11% per annum. Interest is accrued quarterly and due at maturity. The Frost Note may be prepaid in whole or in part at any time prior to maturity without penalty, but with payment of accrued interest to the date of prepayment. The Frost Note does not contain any financial covenants.

In December 2009, we entered into a \$2.5 million revolving credit agreement with, among others, Frost Gamma Investments Trust, an entity affiliated with Phillip Frost, M.D., a director and principal shareholder of our company, Vector Group Ltd., a principal shareholder of our company, Lafferty Ltd., a principal shareholder of our company, IVC Investors, LLLP, an entity affiliated with Glenn Halpryn, a director of our company, Mark Andrews, our chairman, and Richard J. Lampen, our president and chief executive officer. Under the credit agreement, we may borrow from time to time up to \$2.5 million to be used for working capital or general corporate purposes. Borrowings under the credit agreement mature on April 1, 2013 and bear interest at a rate of 11% per annum, payable quarterly. The credit agreement provides for the payment of an aggregate commitment fee of \$75,000 payable to the lenders over the three-year period. The note issued under the credit agreement contains customary events of default, which if uncured, entitle the holders to accelerate the due date of the unpaid principal amount of, and all accrued and unpaid interest on, such note. Amounts may be repaid and reborrowed under the revolving credit agreement without penalty. At June 30, 2010, the note was secured by \$10.0 million of inventory and \$4.4 million in trade accounts receivable of Castle Brands (USA) Corp. under a security agreement. In April 2010, we borrowed \$1.0 million under the credit agreement.

In connection with the September 2009 Betts & Scholl acquisition, we issued a secured promissory note in the aggregate principal amount of \$1.1 million. The note is secured under a security agreement by the Betts & Scholl inventory acquired. The note provides for an initial payment of \$0.3 million, paid at closing, and for eight equal

quarterly payments of principal and interest, with the final payment due on September 21, 2011. Interest under the note accrues at an annual rate of 0.84%, compounded quarterly. The note contains customary events of default, which if uncured, entitle the holder to accelerate the due date of the unpaid principal amount of, and all accrued and unpaid interest on, the note.

In December 2009, Gosling-Castle Partners, Inc., a 60% owned subsidiary, issued a promissory note in the aggregate principal amount of \$0.2 million to Gosling's Export (Bermuda) Limited in exchange for credits issued on certain inventory purchases. This note matures on April 1, 2020, is payable at maturity, subject to certain acceleration events, and calls for annual interest of 5%, to be accrued and paid at maturity. Interest has been recorded retroactive to November 15, 2008.

We expect our current cash and working capital and funds available to us under our revolving credit agreement, to provide us with sufficient funds to execute our planned operations for at least the next twelve months. We anticipate that from time to time we may borrow up to the full limit of our credit facility to fund operations, inventory requirements and potential acquisition opportunities.

As of June 30, 2010, we had shareholders' equity of \$20.7 million as compared to \$22.8 million at March 31, 2010. This decrease is primarily due to our total comprehensive loss in three months ended June 30, 2010. We had working capital of \$12.6 million at June 30, 2010 as compared to \$11.3 million as of March 31, 2010. This increase is primarily due to increased inventory, particularly fine wine inventory.

As of June 30, 2010, we had cash and cash equivalents of approximately \$0.9 million, as compared to \$1.3 million as of March 31, 2010. The decrease is primarily attributable to the funding of our operations and working capital needs for the three months ended June 30, 2010. At June 30, 2010, we also had approximately \$0.4 million of cash restricted from withdrawal and held by a bank in Ireland as collateral for overdraft coverage, creditors' insurance, revolving credit, and other working capital purposes.

The following may result in a material decrease in our liquidity over the near-to-mid term:

- continued significant levels of cash losses from operations;
- an increase in working capital requirements to finance higher levels of inventories and accounts receivable;
- our ability to maintain and improve our relationships with our distributors and our routes to market;
- our ability to procure raw materials at a favorable price to support our level of sales;
- potential acquisition of additional brands; and
- expansion into new markets and within existing markets in the United States and internationally.

We continue to implement a plan supporting the growth of existing brands through sales and marketing initiatives that we expect will generate cash flows from operations in the next few years. As part of this plan, we seek to grow our business through expansion to new markets, growth in existing markets and strengthened distributor relationships. We are also seeking additional brands and agency relationships to leverage our existing distribution platform. We intend to finance our brand acquisitions through a combination of our available cash resources, borrowings and, in appropriate circumstances, the further issuance of equity and/or debt securities. Acquiring additional brands could have a significant effect on our financial position, could materially reduce our liquidity and could cause substantial fluctuations in our quarterly and yearly operating results. We are also taking a systematic approach to expense reduction, seeking improvements in routes to market and containing production costs to improve cash flows.

Cash flows

The following table summarizes our primary sources and uses of cash during the periods presented:

	Three months ended June 30,	
	2010	2009
	(in thousands)	
Net cash provided by (used in):		
Operating activities	\$ (2,418)	\$ (3,142)

Edgar Filing: Castle Brands Inc - Form 10-Q

Investing activities	(65)	(29)
Financing activities	2,114	(303)
Effect of foreign currency translation	(23)	1
Net decrease in cash and cash equivalents	\$ (392)	\$ (3,473)

Operating activities. A substantial portion of available cash has been used to fund our operating activities. In general, these cash funding requirements are based on operating losses, driven chiefly by the inherent costs in developing and maintaining our distribution system and our sales and marketing activities. We have also utilized cash to fund our receivables and inventories. In general, these cash outlays for receivables and inventories are only partially offset by increases in our accounts payable to our suppliers and accrued expenses.

On average, the production cycle for our owned brands is up to three months from the time we obtain the distilled spirits, bulk wine and other materials needed to bottle and package our products to the time we receive products available for sale, in part due to the international nature of our business. We do not produce Gosling's rums, Pallini liqueurs, Tierras tequila or Brunello di Montalcino wines. Instead, we receive the finished product directly from the owners of such brands. From the time we have products available for sale, an additional two to three months may be required before we sell our inventory and collect payment from customers.

During the three months ended June 30, 2010, net cash used in operating activities was \$2.4 million, consisting primarily of a net loss of \$1.7 million, a \$0.9 million increase in inventory, a \$0.2 million increase in prepaid expenses and supplies and a \$0.9 million decrease in accounts payable and accrued expenses. These uses of cash were partially offset by a \$1.0 million increase in due to related parties and depreciation and amortization expense of \$0.2 million.

During the three months ended June 30, 2009, net cash used in operating activities was \$3.1 million, consisting primarily of a net loss of \$0.6 million, a decrease in allowance for obsolete inventories of \$0.4 million, an increase in prepaid expense and supplies of \$0.3 million, a decrease in accounts payable and accrued expenses of \$1.6 million and the effects of changes in foreign exchange of \$1.3 million. These uses of cash were partially offset by a \$0.7 million decrease in accounts receivable, a \$0.2 million dollar decrease in inventories, a \$0.2 million increase in due to related parties and depreciation and amortization expense of \$0.2 million.

Investing Activities. Net cash used in investing activities was \$0.07 million for the three months ended June 30, 2010, representing \$0.03 million used in the acquisition of fixed and intangible assets and \$0.04 million in payments under contingent consideration agreements.

Net cash used in investing activities was \$0.03 million during the three months ended June 30, 2009, representing net purchases of certain short-term investments.

Financing activities. Net cash provided by financing activities for the three months ended June 30, 2010 was \$2.1 million, consisting of the \$2.0 million borrowed under the Frost Note, \$1.0 million borrowed under our \$2.5 million revolving credit agreement and a \$0.2 million reduction in restricted cash. These proceeds were offset by the repayment of \$0.1 million on the Betts & Scholl note and \$1.0 million for the repurchase of our common stock.

Net cash used in financing activities during the three months ended June 30, 2009 was \$0.3 million, consisting of the repayment of \$0.1 million to a bank in Ireland under our revolving credit facility and \$0.2 million for the repurchase of our common stock.

Recent accounting standards issued and adopted.

We discuss recently issued and adopted accounting standards in the "Accounting standards adopted" and "Recent accounting pronouncements" sections of Note 1 of the "Notes to Unaudited Condensed Consolidated Financial Statements" in the accompanying unaudited condensed consolidated financial statements.

Cautionary Note Regarding Forward Looking Statements

This report includes certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, which involve risks and uncertainties, relate to the discussion of our business strategies and our expectations concerning future operations, margins, profitability, liquidity and capital resources and to analyses and other information that are based on forecasts of future results and estimates of amounts not yet determinable. We use words such as "may", "will", "should", "expects", "intends", "plans", "anticipates", "believes", "estimates", "predicts", "could", "projects", "potential" and similar terms and phrases, including references to assumptions, in this report to identify forward-looking statements. These forward-looking statements are made based on expectations and

beliefs concerning future events affecting us and are subject to uncertainties, risks and factors relating to our operations and business environments, all of which are difficult to predict and many of which are beyond our control, that could cause our actual results to differ materially from those matters expressed or implied by these forward-looking statements. These risks and other factors include those listed under “Risk Factors” in our 2010 Annual Report, and as follows:

- our history of losses and expectation of further losses;
- the effect of poor operating results on our company;
- the adequacy of our cash resources and our ability to raise additional capital;

our ability to expand our operations in both new and existing markets and our ability to develop or acquire new brands;

- our relationships with and our dependency on our distributors;

the impact of supply shortages and alcohol and packaging costs in general, as well as our dependency on a limited number of suppliers and inventory requirements;

- the success of our sales and marketing activities;

economic and political conditions generally, including the current recessionary economic environment and concurrent market instability;

- the effect of competition in our industry;

- negative publicity surrounding our products or the consumption of beverage alcohol products in general;

- our ability to acquire and/or maintain brand recognition and acceptance;

- trends in consumer tastes;

- our and our strategic partners' abilities to protect trademarks and other proprietary information;

- the impact of litigation;

the impact of currency exchange rate fluctuations and devaluations on our revenues, sales and overall financial results;

- our executive officers, directors and principal shareholders own a substantial portion of our voting stock; and

- the impact of federal, state, local or foreign government regulations.

We assume no obligation to publicly update or revise these forward-looking statements for any reason, or to update the reasons actual results could differ materially from those anticipated in, or implied by, these forward-looking statements, even if new information becomes available in the future.

Item 4. Controls and Procedures

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding disclosure.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a—15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period

covered by this report, and, based on that evaluation, our principal executive officer and principal financial officer have concluded that these controls and procedures are effective.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 of the Exchange Act that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We believe that neither we nor any of our subsidiaries is currently subject to litigation which, in the opinion of management after consultation with counsel, is likely to have a material adverse effect on us.

We may, however, become involved in litigation from time to time relating to claims arising in the ordinary course of our business. These claims, even if not meritorious, could result in the expenditure of significant financial and managerial resources.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On June 15, 2010, we issued 3,000,000 shares of common stock to an accredited investor in exchange for fine wine inventory. The issuance was exempt from registration pursuant to Regulation D and Section 4(6) of the Securities Act of 1933, as amended. No underwriters were utilized and no commissions or fees were paid with respect to the transaction.

During the three months ended June 30, 2010, we made the following purchases of our common stock:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Announced Plans or Programs	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
April 1 to April 30, 2010	—	—	—	—	—
May 1 to May 31, 2010	—	—	—	—	—
June 1 to June 30, 2010	3,790,562(1)	\$ 0.27	—	—	2,500,000(2)
Total	3,790,562(1)	\$ 0.27	—	—	2,500,000(2)

(1) We repurchased these shares in a private transaction.

(2) On June 21, 2010, we announced that our board of directors approved a stock repurchase program authorizing us to repurchase up to 2,500,000 shares of our common stock. The repurchase program may be terminated at any time by our board of directors.
