REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Plan Administrator

Flushing Bank 401(k) Savings Plan

Uniondale, New York

We have audited the accompanying statements of net assets available for benefits of the Flushing Bank 401(k) Savings Plan (the "Plan") as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015 in conformity with accounting principles generally accepted in the United States of America.

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2015 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our

opinion, the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

The accompanying notes are an integral part of this financial statement.

FLUSHING BANK 401(k) SAVINGS PLAN

Notes to Financial Statements

1. Description of the Plan:

The following description of the Flushing Bank 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Flushing Bank (the "Bank") is a wholly-owned subsidiary of Flushing Financial Corporation (the "Company"), a publicly-held corporation whose stock trades on the Nasdaq under the symbol FFIC.

a. General:

The Plan is a tax-deferred savings plan which began on September 1, 1987, and covers all salaried employees age 21 and older of the Bank and participating affiliates. However, participants are not eligible to receive Bank contributions until they have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan Trustee is Prudential Bank & Trust, FSB. The Plan is comprised of the following three components: participant deferrals (including Bank matching contributions), Profit Sharing ("PS") contributions and Defined Contribution Retirement Program ("DCRP") contributions. All three components of the Plan as well as all earnings and losses thereon are segregated by component.

b. Contributions:

Participant contributions can be no less than 1% nor greater than 25% of the participant's base compensation for each plan year. Participant contributions could not exceed \$18,000 annually for the plan year ended December 31, 2015, adjusted as prescribed under the Internal Revenue Code. Participants who have reached the age of 50 before the end of the Plan year are eligible to make catch-up contributions, for a maximum of \$6,000 for 2015. The Bank will match 50% of each participant's base contributions up to a maximum of 3% of the participant's base compensation. Of the 50% match, one half of the match will be made in Company common stock, which the participant has the ability to immediately re-allocate. The remaining half of the match will be invested into corresponding participant directed investment accounts. Currently, contributions to the Plan are not subject to Federal, State, or Local income taxes until withdrawn from the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Under the DCRP, eligible employees who have met the Plan's age and service eligibility requirements will annually have a contribution made to their individual accounts equal to 4% of their base compensation. PS contributions will be made annually at the Bank's discretion. Any such contribution shall be allocated among eligible employees in proportion to each such employee's eligible compensation for the entire year in which the effective date occurs. PS and

DCRP contributions will be initially made in the form of Company common stock, which the participant has the ability to immediately re-allocate. Employer non cash contributions reported on the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2015, include \$2,495,994 in contributions receivable. This receivable represents \$1,473,117 contribution to the PS and \$1,012,072 contribution to the DCRP for the year ended December 31, 2015, which were made in February 2016.

FLUSHING BANK 401(k) SAVINGS PLAN

Notes to Financial Statements

c. Participant accounts:

Each participant's account is credited with the participant's contributions, the Bank's matching contributions, PS contributions and DCRP contributions, and related net earnings and losses thereon and charged for withdrawals and certain administrative expenses. The Plan assets were segregated into fourteen (14) investment accounts at December 31, 2015 and 2014, of which two (2) investment accounts are closed to future contributions, leaving twelve (12) investment accounts available for contributions. All Plan assets are held by Prudential Bank and Trust, FSB.

d. Vesting:

Participants are immediately 100 percent vested in their salary deferral contributions plus earnings and losses thereon. Vesting of employer contributions plus earnings and losses thereon is based on continuous years of service. A participant vests 20 percent per year of credited service and is 100 percent vested after five years of credited service. In addition, a participant also becomes 100 percent vested when they reach their normal retirement date, early retirement date, the occurrence of a change of control, upon the participant's death, or the date the participant becomes disabled.

e. Forfeitures:

Under the Plan, if a Participant who is not fully vested in the net value of his/her account terminates employment, the non-vested portion of the account shall constitute a forfeiture upon the earlier of when the participant takes a lump sum distribution of the vested portion of the account or the participant has been terminated from the Plan for five years. All forfeitures occurring after January 1, 2015, are to be applied against employer contribution obligations or against plan expense. PS forfeitures occurring prior to January 1, 2015, were allocated among all participants who were eligible employees during the year in proportion to their compensation for the portion of the plan year during which they were eligible employees. At December 31, 2015 forfeited non-vested accounts totaled \$181,200 of which \$117,906 were PS forfeitures. At December 31, 2014 forfeited non-vested accounts totaled \$298,806 of which \$184,734 were PS forfeitures. In 2015, \$131,405 in forfeitures was used to reduce employer contributions and \$3,131 was used to pay certain Plan administrative expenses.

f. Investment options:

Upon enrollment in the Plan, a participant may direct employee contributions in one percent increments into the twelve (12) offered investment accounts which are open for contributions. Thereafter, a participant may direct investment changes in their accounts daily.

FLUSHING BANK 401(k) SAVINGS PLAN

Notes to Financial Statements

g. Payment of benefits:

Upon termination of service, a participant is entitled to receive a lump sum equal to the value of his or her account to the extent such funds are vested. If a participant's employment with the Bank is terminated for any other reason than death, disability or retirement and the account balance does not exceed \$1,000, the Plan will automatically distribute a lump-sum payment to the participant.

h. Voting rights:

With respect to the Company's common stock, each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account, and is notified by the Trustee prior to the time that such rights are to be exercised. With respect to shares of stock credited to participant accounts as to which the Trustee did not receive timely voting instructions and shares of stock not credited to participant's account, the Trustee shall vote all such shares of stock in the same proportion as were voted shares as to which participants provided timely instructions. For the mutual funds, the shares are voted at the discretion of the Plan Administrator.

i. Notes receivable from participants:

Loans are made available to all participants. All loans must be collateralized by a security interest in the participant's vested interest under the Plan equal to the amount of the loan. Loans are limited by the Internal Revenue Code Section 72(p) and may not exceed the lesser of: (i) 50% of the net value of a participant's vested account balance (excluding PS and DCRP contributions and any earnings or losses thereon) or (ii) \$50,000 reduced by the largest outstanding loan balance in the Plan during the preceding 12 months.

The term of a loan to a participant shall be no greater than five years, except to acquire a principal residence in which case the term shall be no greater than 10 years. Loans bear a rate of interest (currently prime plus one percent rounded to the nearest one quarter of one percent). At December 31, 2015 and 2014, all outstanding loans bore an interest rate of 4.25%.

2. Summary of Significant Accounting Policies:

a. Basis of presentation:

The accompanying financial statements have been prepared using the accrual method of accounting as required by accounting principles generally accepted in the United States of America ("U.S. GAAP"). Investment contracts held by

a defined-contribution plan are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of the plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. At December 31, 2015 and 2014, the Plan invested in one fund that was considered a fully benefit-responsive investment, the Prudential Guaranteed Income Fund.

FLUSHING BANK 401(k) SAVINGS PLAN

Notes to Financial Statements

b. Use of estimates:

The preparation of the Plan's financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements, the changes in net assets available for plan benefits during the period, and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

c. Investment valuation and income recognition:

The Plan presents interest and dividend income and net appreciation (depreciation) in the fair value of its investments in the statement of changes in net assets available for plan benefits. Net appreciation (depreciation) in the fair value of its funds and common stock consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments. Interest and dividends consist of interest payments received or accrued on interest bearing securities such as money market securities and dividend payments received or accrued on the ex-dividend date from individual securities such as common and preferred stock. Dividend and interest income on investments held by the funds are reinvested by each fund. Purchases and sales of securities are recorded on a trade date basis.

d. Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced to zero and a benefit payment is recorded.

e. Expenses:

The ordinary administrative expenses of the Plan, including compensation of the Trustee and other administrative expenses of the Trustee are paid from the Plan unless paid by the Bank at its discretion. Certain expenses of maintaining the Plan are paid directly by the Bank and are excluded from these financial statements.

f. Payment of benefits:

Benefit payments to participants are recorded upon distribution.

FLUSHING BANK 401(k) SAVINGS PLAN

Notes to Financial Statements

g. New Authoritative Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-07, Disclosures for “Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)” which seeks to eliminate diversity in practice surrounding how investments measured at net asset value under the practical expedient, with future redemption dates, have been categorized in the fair value hierarchy. The guidance is effective for fiscal years beginning after December 15, 2015, and requires retrospective presentation. Early adoption is permitted and these Notes to Financial Statements reflect early adoption.

In July 2015, the FASB issued ASU 2015-12, “Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965)” - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient. Part I requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II requires that investments that are measured using fair value (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments by nature, characteristics, and risks. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation or depreciation in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share as a practical expedient and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment’s strategy is no longer required. Part III is not applicable to the Plan. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Parts I and II require retrospective application. Management has elected to early adopt the provisions of Parts I and II of this new standard.

h. Reclassifications

Certain reclassifications have been made to the 2014 financial statements in order to confirm to the 2015 presentation.

3. Fair Value Measurements:

Financial assets and financial liabilities reported at fair value are required to be measured based on either: (1) quoted prices in active markets for identical financial instruments (Level 1), (2) significant other observable inputs (Level 2), or (3) significant unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – where quoted market prices are available in an active market.

9

FLUSHING BANK 401(k) SAVINGS PLAN**Notes to Financial Statements**

Level 2 – when quoted market prices are not available, fair value is estimated using quoted market prices for similar financial instruments and adjusted for differences between the quoted instrument and the instrument being valued. Fair value can also be estimated by using pricing models, or discounted cash flows. Pricing models primarily use market-based or independently sourced market parameters as inputs, including, but not limited to, yield curves, interest rates, equity or debt prices, and credit spreads. In addition to observable market information, models also incorporate maturity and cash flow assumptions.

Level 3 – when there is limited activity or less transparency around inputs to the valuation.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the Plan's assets that are carried at fair value on a recurring basis, and the method that was used to determine their fair value, at December 31, 2015 and 2014.

	At December 31, 2015			
	(Level 1)	(Level 2)	(Level 3)	Total
Assets at fair value:				
Mutual funds	\$18,773,814	\$-	\$-	\$18,773,814
Common stock	24,622,010	-	-	24,622,010
Total assets at fair value	\$43,395,824	\$-	\$-	\$43,395,824
	At December 31, 2014			
	(Level 1)	(Level 2)	(Level 3)	Total
Assets at fair value:				
Mutual funds	\$17,379,625	\$-	\$-	\$17,379,625
Common stock	20,486,593	-	-	20,486,593
Total assets at fair value	\$37,866,218	\$-	\$-	\$37,866,218

Mutual funds – (Level 1) Valued at the net asset value (quoted market prices) of shares held by the plan at December 31, 2015 and 2014.

Common stock – (Level 1) Valued at the closing price reported on the active market on which the security is traded at December 31, 2015 and 2014.

FLUSHING BANK 401(k) SAVINGS PLAN

Notes to Financial Statements

4. Fully Benefit-Responsive Investment Contracts:

The Plan holds the Prudential Guaranteed Income Fund (“PGIF”) which is a fully benefit-responsive investment contract. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. For the PGIF Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Interest is credited on contract balances using a single “portfolio rate” approach. Under this methodology, a single interest crediting rate is applied to all contributions made regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis. Certain factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer’s general account are used to establish interest crediting rates. These rates are established without the use of a specific formula. The minimum crediting rate under the contract is 1.50%. The PGIF’s average yield earned and credited to participants was 1.55% and 1.70% for 2015 and 2014, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan’s prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that causes a significant withdrawal from the Plan, or (4) the failure of the Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan’s ability to transact at contract value with participants are probable of occurring.

5. Risks and Uncertainties:

The Plan currently invests in twelve mutual funds, one guaranteed income fund and one equity security. These investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities in which these funds may invest, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

FLUSHING BANK 401(k) SAVINGS PLAN

Notes to Financial Statements

6. Plan Termination:

Although it has not expressed any intent to do so, the Bank specifically reserves the right, at any time, to terminate the Plan or to amend, in whole or in part, any or all of the provisions of the Plan, subject to the provisions of ERISA and approval of the Company's Board of Directors. In the event of termination or partial termination of the Plan or upon complete discontinuance of contributions under the Plan, the accounts of each affected participant shall become 100% vested and fully distributable, in accordance with the Internal Revenue Code and all income tax regulations promulgated thereunder.

7. Federal Tax Status:

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The IRS has determined and informed the Bank by a signed letter dated July 25, 2011 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code and therefore exempt from taxation. The Plan has since been amended and to the best of management's belief, the Plan is designed and operating in accordance with the Internal Revenue Code as of December 31, 2015.

The Plan is subject to routine audits by taxing jurisdictions. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

8. Related-Party Transactions:

Plan investments include a guaranteed income fund issued by the Prudential Retirement Insurance and Annuity Company and two mutual funds issued by Prudential Investments. For the year ended December 31, 2015 and 2014, the Plan Trustee was Prudential Bank & Trust, FSB. The Plan also includes the common stock of Flushing Financial Corporation, the parent company of the Bank. Accordingly, these transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

9.

Subsequent Events:

The Plan Administrator has performed an evaluation of events that have occurred subsequent to December 31, 2015, and through June 24, 2016 (the date these financial statements were available to be issued). There have been no material subsequent events that occurred during such period that would require disclosure in these financial statements, as of or for the year ended December 31, 2015.
