INTRODUCTION

General

This is the proxy statement of Cleco Corporation. Unless the context clearly indicates otherwise or unless otherwise noted, all references in this proxy statement to "Cleco" mean Cleco Corporation.

Proxy Solicitation

The enclosed proxy is solicited on behalf of the Cleco board of directors to be voted at the annual meeting. The management of Cleco will solicit proxies by mail, telephone, facsimile, the Internet or overnight delivery. Proxies also may be solicited in advertisements and in person by Cleco officers and employees. Cleco has hired Morrow & Company, Inc. to assist in the solicitation of proxies. Morrow's fee is approximately \$7,500 plus expenses. Other than Morrow, no specially engaged solicitors will be retained to solicit proxies. Cleco is responsible for the payment of all expenses of the solicitation, including the cost of preparing and mailing this proxy statement and the reimbursement of brokerage firms and other nominees for their reasonable expenses in forwarding proxy material to beneficial owners of Cleco voting stock.

All duly executed proxies will be voted in accordance with their instructions. If no instructions are in an executed proxy, the shares represented by such proxy will be voted at the annual meeting or any adjournments or postponements thereof **FOR** the proposal and, in the discretion of the persons named in the proxy, on any other business that may properly come before the annual meeting. Management is not aware of any other matters that are likely to be brought before the annual meeting.

Cleco's principal executive offices are located at 2030 Donahue Ferry Road, Pineville, Louisiana 71360-5226, and Cleco's telephone number is (318) 484-7400.

Record Date and Voting Rights

Holders of record of outstanding voting stock as of the close of business on February 23, 2004 are entitled to receive notice of and to vote at the annual meeting. As of February 23, 2004, there were 47,031,136 shares of Cleco common stock outstanding and 255,457 shares of Cleco preferred stock outstanding. As of February 23, 2004, all officers and directors of Cleco, as a group, beneficially owned 3.4% of the outstanding shares of Cleco common stock and 20.8% of the outstanding shares of Cleco preferred stock.

This proxy provides you with the opportunity to specify your approval or disapproval of, or abstention with respect to, the proposal to elect four directors to serve until the 2007 annual meeting of shareholders.

Generally, under Louisiana law and Cleco's Amended and Restated Articles of Incorporation and Bylaws, an abstention by a shareholder who is either present in person at the annual meeting or represented by proxy is not a vote cast and is counted neither for nor against the matter subject to the abstention. Broker non-votes on matters are treated as shares as to which voting power has been withheld by the beneficial holders of

Edgar Filing: CLECO CORP - Form DEF 14A

those shares and, therefore, as shares not entitled to vote. Under Louisiana law and the Cleco Bylaws, a quorum is based upon the number of outstanding shares of voting stock, including shares relating to abstentions.

Election of directors is by plurality of the voting stock, with each holder of Cleco common stock being able to cast as many votes as equal the number of such holder's shares of common stock multiplied by the number of directors to be elected. Each holder of Cleco common stock may cumulate all or any part of these votes for one or more of the nominees.

The proxy enclosed for record holders of voting stock is for the number of shares registered in your name with Cleco, together with any additional full shares held in your name in Cleco's Dividend Reinvestment Plan, or DRIP.

If you are an employee of Cleco and participate in the Cleco Savings and Investment Plan, you may vote the number of shares of Cleco common stock equivalent to your interest in the Cleco common stock fund as of the close of business on February 23, 2004, the record date for the annual meeting. You also may vote the number of shares of Cleco preferred stock allocated to your account under the plan as of the record date for the annual meeting. Additionally, if you are an employee of Cleco and participate in the Cleco Employee Stock Purchase Plan, you may vote the number of shares of Cleco common stock purchased with your payroll deductions as of the record date. In any case, complete and return the proxy card being mailed with this proxy statement. The trustee under the Savings and Investment Plan and/or the custodian under the Employee Stock Purchase Plan will vote the shares allocated to your account(s) according to your instructions. If you do not send instructions within the time required, the share equivalents credited to your account(s) will not be voted.

Please call Cleco's Office of Shareholder Assistance at 1-800-253-2652 with any questions relating to the proposal to be considered at the annual meeting.

Execution and Revocation of Your Proxy

Shares represented by proxies properly signed and returned will be voted at the annual meeting in accordance with the shareholder's specifications. If a proxy is signed but no voting specification is made, then the shares represented by the proxy will be voted **FOR** the election of the four nominees for director, and in accordance with the recommendations of the Cleco board of directors on any other proposals that may properly come before the annual meeting.

A shareholder who gives a proxy may revoke it at any time before the proxy is voted at the annual meeting. To revoke a proxy, a written instrument signed in the same manner as the proxy must be delivered to the corporate secretary of Cleco at or before the annual meeting. Also, a shareholder who attends the annual meeting in person may vote by ballot at the meeting, thereby canceling his or her proxy.

PROPOSAL ELECTION OF FOUR CLASS I DIRECTORS

Cleco's Bylaws provide for the division of Cleco's board of directors into three classes, Class I, Class II and Class III, with each class consisting, as nearly as possible, of one-third of the number of directors constituting the whole board. Cleco's board of directors currently has a total of 11 directors: four are in Class I, four are in Class II, and three are in Class III. The term of each directorship is three years. The terms of the three classes are staggered in a manner so that only one class is elected by the shareholders annually. The four Class I director positions are proposed for election this year to serve as members of Cleco's board of directors until the annual meeting of shareholders in 2007, or until their successors are elected and qualified.

The persons named in the accompanying proxy may act with discretionary authority to cumulate the votes attributable to shares of Cleco common stock represented by the proxy and to vote for other nominees upon the unavailability of a named nominee, although management is not aware of any circumstance likely to render any of the named nominees unavailable for election. Unless a shareholder specifies otherwise, the persons named in the accompanying proxy intend to vote in favor of the nominees listed below. The four persons who receive the most votes cast will be elected as directors.

All of the nominees listed below currently serve as directors of Cleco. Directors who are members of Classes II and III, who are continuing as directors at this time and whose terms of office expire in 2005 and 2006, respectively, are named below following the information concerning the four nominees for election as Class I directors.

Cleco's board of directors has unanimously approved the nomination of the four nominees for Class I director and recommends that you vote **FOR** the election of the four nominees for Class I director.

Below is information concerning the four nominees for election as Class I directors at the annual meeting, as well as the continuing Class II and Class III directors, including the business experience of each during the past five years.

Mr. King, who is 57 years old, has been a director of Cleco since 1999 and is a member of the Compensation Committee. He is also a director of Hibernia Corporation and Hibernia National Bank.

Independence and Organization of the Board of Directors

Cleco's board of directors has delegated some of its authority to five committees. These are the Executive Committee, the Audit Committee, the Compensation Committee, the Nominating/Governance Committee and the Qualified Legal Compliance Committee. The members of those committees are identified, as appropriate, under Class I Directors, Class II Directors and Class III Directors above. In accordance with current listing standards of the New York Stock Exchange (NYSE), Cleco's board of directors has adopted categorical standards to assist it in making determinations of director independence that are required by the NYSE. These categorical standards are included as Appendix B to this proxy statement. The board of directors has determined that all of its directors, except Mr. Eppler, who is chief executive officer of Cleco, meet the categorical standards and are independent within the meaning of the current listing standards of the NYSE.

The Executive Committee exercises all powers of the board of directors, as defined and limited by Cleco's Bylaws, between meetings of the full board whenever it is not desirable or practical to conduct a meeting of the full board. The Executive Committee operates under a written charter adopted by the board of directors in January 2003 and revised in January 2004, a copy of which is included as Appendix C to this proxy statement. The Executive Committee held five meetings during 2003.

The Audit Committee selects the independent auditors of Cleco, reviews the scope of audits, reviews and recommends to Cleco's board of directors financial reporting and accounting practices, and reviews Cleco's procedures for internal auditing and the adequacy of its system of internal accounting controls. The Audit Committee operates under a written charter adopted by the board of directors in April 2000 and revised in January 2004, a copy of which is included as Appendix D to this proxy statement. The Audit Committee held five meetings during 2003.

The Compensation Committee approves, or in some cases recommends to Cleco's board of directors, remuneration arrangements and compensation plans involving Cleco's officers and employees and administers the annual incentive compensation program and the granting of stock options, restricted stock and other awards to eligible employees under the long-term incentive plan. The Compensation Committee operates under a written charter adopted by the board of directors in January 2003 and revised in January 2004, a copy of which is included as Appendix E to this proxy statement. The Compensation Committee held two meetings in 2003.

The Nominating/Governance Committee considers and makes recommendations to the board of directors with respect to the size and composition of the board, potential candidates for membership on the board, compensation of directors, the effectiveness, structure and operation of the board and changes to Cleco's Corporate Governance Guidelines. The Nominating/Governance Committee operates under a written charter adopted by the board of directors in January 2003 and revised in January 2004, a copy of which is included as Appendix F to this proxy statement. The Nominating/Governance Committee held five meetings in 2003.

The Qualified Legal Compliance Committee was formed in October 2003 to receive, consider and take action with respect to any report made by an attorney of evidence of a material violation of federal or state securities law, a material breach of fiduciary duty arising under federal or state law or similar material violation of any federal or state law, in each case by Cleco or by any officer, director, employee or agent of Cleco. Each board member who serves as a member of the Nominating/Governance Committee also serves as a member of the Qualified Legal Compliance Committee. If at any time the Nominating/Governance Committee does not include a member of Cleco's Audit Committee, the then-current chairman of the Audit Committee also shall be a member of the Qualified Legal Compliance Committee. The Qualified Legal Compliance Committee operates under a written charter adopted by the board of directors in October 2003, a copy of which is included as Appendix G to this proxy statement. The Qualified Legal Compliance Committee held no meetings in 2003.

Cleco's board of directors held four regular meetings and five special meetings, two of which were formal telephone meetings, during 2003. In each month when a formal meeting is not held, members of Cleco's board of

directors hold informal telephone conference meetings, are provided with written reports regarding the operations of Cleco, and also are consulted informally from time to time with respect to pending business. When necessary, special meetings, including formal telephone meetings, are called as official board meetings to deal with specific action items. Cleco's Corporate Governance Guidelines provide that executive sessions of non-management directors will be regularly scheduled at the conclusion of all official in-person meetings of the board and its committees, although non-management directors may meet in executive session at any time. During 2003, all directors attended at least 75% of the total number of formal meetings of Cleco's board of directors and of the committees of Cleco's board of directors on which such directors served. Directors also are expected to attend each annual meeting of shareholders. The 2003 annual meeting of shareholders was attended by all ten directors serving at that time.

During 2003, all members of Cleco's board of directors served as members of the board of managers of Cleco Power LLC, Cleco's wholly owned utility subsidiary.

Director Nomination Process

Recently, the board of directors amended Cleco's Corporate Governance Guidelines to formalize the method of selecting director nominees. Cleco also has recently amended its Corporate Governance Guidelines to provide for annual evaluations of the board and the board committees as a whole. Beginning in 2004 in connection with these evaluations, Cleco's board of directors will identify, and the Nominating/Governance Committee will compile, attributes of the board's incumbent members believed to contribute to the work of the board and its committees, including leadership, accomplishments, skills, diversity, integrity and commitment to board duties. When a position on the board of directors becomes vacant, or if the number of the members on the board of directors is being increased, the Nominating/Governance Committee will review these attributes of the incumbent board members and determine the attributes that, if possessed by the new board member, would likely result in the most significant contribution to the board of directors. Persons recommended to the Nominating/Governance Committee for consideration as nominees for a vacant or new board position will then be evaluated with respect to the attributes determined by the committee to be optimal for the vacant or new position. Following the evaluation, which may involve interviews or other procedures the Nominating/Governance Committee deems appropriate, the committee will make a recommendation to the board of directors regarding a candidate to either be nominated at the next annual meeting of shareholders or elected by the board between such meetings.

Recommendations for potential nominees may come from any source, including members of the board of directors, shareholders, self-recommendations, members of the communities Cleco serves or search firms. All persons recommended for a vacant or new board position will be given equal consideration regardless of the source of the recommendation.

As noted earlier, Mr. Westbrook was elected by the board of directors in 2003 to fill a newly created board vacancy and has not been previously elected by the shareholders of Cleco. Mr. Westbrook was initially identified as a potential candidate for the vacant board seat by Hotard & Associates, Executive Search Consultants. Cleco's Nominating/Governance Committee did not receive any nominees for election as director at the 2004 annual meeting of shareholders from a shareholder or group of shareholders who individually, or in the aggregate, beneficially owned more than 5% of Cleco's voting common stock for at least one year.

Any person wishing to make a recommendation for a person to be considered by the Nominating/Governance Committee pursuant to the process described above as a potential nominee to the board of directors should direct the recommendation to the chairman of the Nominating/Governance Committee in care of Cleco's corporate secretary. However, Cleco is not obligated to nominate any nominee that is recommended to the Nominating/Governance Committee following these processes. Separately, Cleco's Bylaws contain certain provisions concerning nomination of a director by a shareholder, which are described below under the caption "Proposals by Shareholders."

Communications with the Board of Directors

The Corporate Governance Guidelines also were amended to provide for communications with the board of directors by shareholders and other interested persons. In order that shareholders, employees and other interested persons may make their concerns known to the board, Cleco has established a procedure for communications with the board through the non-management chairman of the board. The procedure is intended to provide a method for confidential communication while at the same time protecting the privacy of the members of the board. Any shareholder or other interested person wishing to communicate with the board of directors, or the non-management members of the board may do so by addressing such communication as follows:

Chairman of the Board of Directors
c/o Corporate Secretary
Cleco Corporation
P. O. Box 5000
Pineville, LA 71361-5000

Upon receipt, Cleco's corporate secretary will forward the communication, unopened, directly to the non-management chairman of the board. The chairman of the board will, upon review of the communication, make a determination as to whether it should be brought to the attention of the other non-management members and/or the management member of the board of directors and whether any response should be made to the person sending the communication, unless the communication was made anonymously.

Compensation of the Board of Directors

Directors who are Cleco employees receive no additional compensation for serving as a director. In 2003, compensation for non-management directors included annual retainer and meeting fees, stock options, restricted stock awards, and insurance benefits under a group accidental death and dismemberment plan.

During 2003, each non-management director received an annual retainer of \$20,000; an additional annual fee of \$3,000 if the director was a chairman of a committee; \$1,000 for each day of in-person meeting attendance at a board or committee meeting; and \$500 for each day of telephone conference meeting attendance at a board or committee meeting including the informal meetings described above. In July 2003, an evaluation of director compensation yielded a recommendation, subsequently approved by the board of directors, to increase the fee of the chairman of the Audit Committee to \$7,500 to reflect the increased responsibilities of this position as a result of the Sarbanes-Oxley Act of 2002. Mr. Garrett was elected chairman of Cleco's board of directors effective October 1, 2003. As chairman, Mr. Garrett will receive an additional annual retainer of \$65,000. The increase in the compensation of the Audit Committee chairman was effective in October 2003, as was the retainer payment for the chairman of the board. Annual retainer and meeting fees are paid, at the election of each director, in the form of cash, Cleco common stock or a combination of both cash and stock. Cleco reimburses directors for travel and related expenses incurred for attending meetings of Cleco's board of directors and board committees. During 2003, all non-management directors served the entire year, except for Mr. Westbrook, who was elected a director on July 25, 2003.

At the beginning of his or her three-year term, each non-management director receives a grant of options to purchase 5,000 shares of Cleco common stock. Each grant is immediately exercisable, has a ten-year exercise period and an exercise price equal to the fair market value of Cleco common stock on the date of grant. If a director's initial term is less than three years, the grant is prorated. During 2003, Mr. Garrett, Mr. James and Mr. King each received a grant of options to purchase 5,000 shares of Cleco common stock. During 2003, Mr. Westbrook was granted options to purchase 3,750 shares of Cleco common stock in connection with his election to Cleco's board of directors. During 2003, each non-management director also received an annual grant of options to purchase 2,500 shares of Cleco common stock, subject to the same terms and conditions as the term grant, and an annual restricted stock award of 250 shares of Cleco common stock. Directors were not required to

provide any consideration in exchange for the restricted stock award. Restrictions on the stock subject to the award lapse after a three-year period measured from the date of the award, and the stock cannot be sold or transferred during the three-year period.

Restricted stock awards also were made to each non-management director upon his or her initial election to the board. The amount of the award was equal to the number of shares necessary to increase ownership of Cleco common stock to 1,000 shares. The purchase price was the fair market value of Cleco common stock on the date of the award. The stock cannot be sold or transferred until the shares have been paid, in full, by the application of a portion of the director's annual retainer. During 2003, no directors received such restricted stock awards. In December 2003, the long-term incentive plan was amended to eliminate potential perceived conflicts with the Sarbanes-Oxley Act of 2002.

A non-management director may elect to participate in a deferred compensation plan and defer the receipt of all or part of his or her fees, whether payable in cash or Cleco common stock, and option gain. Benefits are equal to the amount credited to each director's individual account based on compensation deferred plus applicable investment returns. Accounts are payable when a director ceases to serve on the board or attains a specified age. Cleco also provides its non-management directors with \$200,000 of life insurance and permanent total disability coverage under a group accidental death and dismemberment plan maintained by Cleco Power LLC, a wholly owned subsidiary of Cleco.

Interests of the Board of Directors

In 2003, no non-management member of Cleco's board performed services for or received compensation from Cleco or its affiliates except for those services relating to his or her duty as a member of Cleco's board.

SECURITY OWNERSHIP OF DIRECTORS AND MANAGEMENT

The following table describes the Cleco common stock and Cleco preferred stock beneficially owned by Cleco directors and nominees, the executive officers named in the Summary Compensation Table below and the directors and executive officers as a group. Shares of stock are beneficially owned by a person if the person directly or indirectly has or shares the power to vote or dispose of the shares, regardless of whether the person has any economic interest in the shares. A person also beneficially owns shares as to which the person has the right to acquire beneficial ownership within 60 days, as in the case of the stock options set forth under the Options Exercisable Within 60 Days column in the following table.

All information in the table is as of February 1, 2004 and is based upon information supplied by the directors and officers. Unless otherwise indicated in the footnotes and subject to community property laws where applicable, each of the shareholders named in the table has sole voting and investment power with respect to the shares indicated as beneficially owned.

Such shares have been included only once in calculating the beneficial ownership of all officers and directors as a group.

Stock Option Plans

Options to purchase shares of Cleco common stock are outstanding under two plans. The first plan is the 1990 Long-Term Incentive Compensation Plan adopted and maintained by Cleco Power LLC, a wholly owned subsidiary of Cleco. An aggregate of 1,600,000 shares of Cleco common stock was reserved for issuance under the 1990 plan. The 1990 plan expired on January 1, 2000, and no additional grants can be made under the 1990 plan. As of December 31, 2003, grants of stock options representing 715,194 shares of Cleco common stock were outstanding under the 1990 plan.

Under the 2000 Long-Term Incentive Compensation Plan (Long-Term Incentive Plan), certain officers, employees and non-management directors of Cleco may receive restricted stock, stock options, phantom stock, stock appreciation rights and certain other awards. An aggregate of 1,600,000 shares of Cleco common stock has been reserved for issuance under the Long-Term Incentive Plan. As of December 31, 2003, grants of stock options representing 539,469 shares of Cleco common stock were outstanding.

Option Grants

The table below sets forth, for each of the five persons listed in the Summary Compensation Table, the following information concerning non-qualified stock options granted during 2003:

The number of shares of Cleco common stock underlying options granted during 2003;

The portion such grants represent of the total number of options granted to Cleco employees in 2003, expressed as a percentage;

The per share exercise price and expiration date of the options; and

The potential realizable value of each grant of options, assuming that the market price of Cleco common stock appreciates from the date of grant to the end of the option term at a 5% and 10% compound annual rate.

All options immediately vest upon the occurrence of a change in control as defined in the Long-Term Incentive Plan. A change in control generally is deemed to have occurred in accordance with the events described in this proxy statement under Employment Agreements and Change in Control below.
- (2) These columns illustrate the gains that could be realized if the market price of Cleco common stock appreciates at a 5% or 10% compound annual rate. These growth rates are arbitrary rates specified by the SEC, not Cleco's predictions.

Long-Term Incentive Plan

The following table describes restricted stock grants made January 1, 2003 under the Long-Term Incentive Plan.

Restricted stock grants are made in a target amount that is subject to forfeiture, in whole or in part, if specified performance goals are not attained during a designated three-year performance cycle. The number of shares granted is listed in the **Number of Shares** column. During the performance cycle, the recipient of the grant is the record owner of these securities and, as such, is entitled to vote the shares and receive dividends. The recipient cannot sell, pledge or otherwise transfer the shares during the cycle, except as provided for in the Long-Term Incentive Plan. Restricted stock is awarded at the end of the performance cycle but is subject to an additional three-year holding period before it can be sold or otherwise transferred.

The amounts listed in the **Number of Threshold Shares** column represent the restricted stock grants that will vest if only the threshold goals are attained during the performance cycle. The amounts listed in the **Number of Target Shares** column represent the restricted stock grants that will vest if the target levels of performance goals are attained during the performance cycle. No portion of the restricted stock grants will vest if comparative shareholder return (defined as the Cleco common stock price appreciation plus dividends paid during the performance cycle) is less than the pre-established performance level of the 40th percentile. Once the performance level is determined, the vesting schedule for restricted stock grants is as follows:

No awards will vest if Cleco's performance on growth in net income and return on investment is less than 75% of plan.

Threshold performance on both factors provides a 30% award payout.

Target performance on both factors at 100% of plan provides 100% award payout.

Restricted stock vesting for performance above the threshold level and below the target level is prorated.

The amounts listed under the **Number of Maximum Shares** column represent the number of performance-based restricted stock grants that vest at the target level and the number of performance-based **opportunity shares** that will vest between the target and maximum levels established by the Compensation Committee. Opportunity shares are phantom shares that are awarded in connection with a restricted stock grant. The award of phantom shares does not entitle the recipient to the rights of a shareholder until the issuance of Cleco common stock at the end of the performance cycle. The phantom shares vest based on performance above target levels for growth in net income and return on investment. The vesting or payout schedule for the **opportunity shares** included in this column, based on Cleco's performance on growth in net income and return on investment, is as follows:

No awards of **opportunity shares** vest if Cleco's performance is at or below 100% of plan for growth in net income and return on investment.

Maximum performance provides 100% **opportunity shares** award payout, which is equal to 100% of the number of target shares of restricted stock, at 125% of plan for growth in net income and 130% of plan for return on investment.

Edgar Filing: CLECO CORP - Form DEF 14A

The number of phantom or opportunity shares vested for performance above the target level and below the maximum level is prorated. Cleco common stock issued in satisfaction of an opportunity share is subject to a three-year holding period.

Retirement Plans

Cleco's executive officers are participants in the Savings and Investment Plan, the Pension Plan and a Supplemental Executive Retirement Plan, or SERP, all of which are maintained by Cleco Power LLC. Contributions made in 2003 to the Savings and Investment Plan for the benefit of the named executive officers are listed in the Summary Compensation Table.

Pension Plan

The Pension Plan generally covers employees of Cleco who have attained age 21 and completed one year of service. The monthly benefit payable under the Pension Plan at the normal retirement age of 65 is an amount determined with reference to a participant's compensation base and years of service (not to exceed 35 years) at termination of employment. A participant's compensation base is calculated by averaging compensation paid during the highest successive five completed calendar years during the ten years prior to termination of employment. Compensation is determined taking into account the salaries and bonuses reflected in the Salary and Bonus columns of the Summary Compensation Table. However, the compensation that may be taken into account under the Pension Plan is subject to an annual limit under the Internal Revenue Code (the Code), which in 2003 was \$200,000. Benefits under the Pension Plan are fully vested upon the completion of five years of service. The maximum annual benefit payable under the Pension Plan for employees who retired in 2003 is the lesser of \$160,000, a limitation imposed by the Code, or 100% of average compensation, as defined in the Code. Payments from the Pension Plan are not reduced for Social Security benefits.

As of December 31, 2003, the following individuals had the following years of service credited under the Pension Plan:

Mr. Eppler	22 years
Ms. Samil	2 years
Mr. Charlton	2 years
Ms. Powell	12 years
Mr. Chadwick	3 years

SERP

Cleco Power LLC maintains a supplemental executive retirement plan, or SERP, for the benefit of key executives of Cleco and its affiliates when designated by the Compensation Committee. The SERP benefit is a percentage of each participant's eligible compensation, reduced by any amount payable from the Pension Plan. Under the SERP, eligible compensation is based upon the sum of the highest annual salary paid during the five years prior to termination of employment and the average of the three highest annual incentive compensation plan awards paid to the participant during the preceding 60 months. In the event of a change in control, Cleco will make a contribution to a rabbi trust to fund the benefit obligation.

As of December 31, 2003, the chief executive officer and the four other most highly compensated executive officers of Cleco participated in the SERP. The following table illustrates the combined estimated annual benefit payable from both the Pension Plan and the SERP at age 65 to persons at specified compensation levels. Benefits are computed on a joint and 100% survivor annuity basis.

Other

Mr. Eppler, Ms. Samil, Mr. Charlton, Ms. Powell and Mr. Chadwick may elect to participate in a deferred compensation plan and defer the receipt of all or part of salary, bonus and option gain. Benefits are equal to the amount credited to each executive's individual account based on compensation deferred plus applicable investment returns and generally are payable when an executive retires or attains a specified age.

Employment Agreements and Change in Control

Cleco has executive employment agreements with Mr. Eppler, Ms. Samil, Mr. Charlton, Ms. Powell and Mr. Chadwick and other executive officers and general managers of Cleco. Each agreement provides generally for the payment of a minimum annual salary, participation in all Cleco benefit plans and programs applicable to Cleco's executive officers and reimbursement of employment-related expenses incurred during the term of employment. Under the agreements, the 2004 base salaries for the individuals named in the Summary Compensation Table are as follows:

Mr. Eppler	\$425,000
Ms. Samil	\$245,000
Mr. Charlton	\$218,000
Ms. Powell	\$190,000
Mr. Chadwick	\$200,000

Each agreement provides for an initial three-year term that renews annually for one additional year, unless either Cleco or the executive officer gives notice prior to renewal that such officer's term of employment will not be extended. The agreements also generally require, among other things, the executives not to disclose confidential information related to Cleco and, for a period of one year after termination, not to hire Cleco officers, employees or agents, or solicit or divert any customer or supplier of Cleco.

Severance Payments

No severance is payable if Cleco terminates an executive for cause or the executive terminates other than on account of a constructive termination (generally, a material reduction in base compensation, authority or duties). If the executive terminates on account of death or disability, he or she is entitled to a prorated bonus for the year of termination. If Cleco terminates the executive, without cause, or the executive terminates on account of a

constructive termination, he or she is entitled to the following: (a) payment of at least 100% of his or her annual base compensation; (b) payment of an incentive bonus payable in the target amount for the year of termination; (c) full vesting of service requirements under the SERP; (d) continued group medical coverage paid for by Cleco for up to 18 months after such termination; and (e) payment of certain relocation benefits. Severance benefits are payable to other executive officers and certain key managers.

Change in Control

If a change in control occurs and Cleco terminates the executive's employment without cause or the executive terminates his or her employment for good reason, either within 60 days before or 36 months after such change, the executive will receive change in control benefits in lieu of any severance obligation otherwise payable under the agreement. The term "change in control" is defined in the Long-Term Incentive Plan and generally includes the following events:

Any person or group becomes the direct or indirect beneficial owner of 20% or more of Cleco's outstanding voting securities;

The majority of Cleco's board changes during a 24-month period;

As a result of a merger or consolidation, less than 80% of the surviving corporation's outstanding voting securities are owned by former Cleco shareholders (excluding the affiliates of any party to the transaction);

Cleco sells, leases or otherwise disposes of all or substantially all of its assets;

Cleco's shareholders approve a plan of dissolution or liquidation;

Cleco sells, leases or otherwise disposes of all or substantially all of its interest in Cleco Power LLC; or

Certain other significant events that Cleco would be required to report in a proxy statement.

The change in control benefits provided under the agreements for the named executive officers consist of: (a) an amount equal to three times the executive's annual base compensation plus target incentive; (b) accelerated vesting, lapse of restrictions and all performance objectives being deemed satisfied as to any outstanding grants or awards made to the executive under Cleco's long-term incentive plans; (c) full vesting of service requirements under the SERP and a minimum benefit; (d) an amount equal to Cleco's maximum matching contribution obligation under the Savings and Investment Plan for a three-year period; (e) continued group medical coverage paid for by Cleco for up to three years or until similar coverage is obtained; and (f) certain relocation benefits.

In the event of a change in control, payments (for item (a) above) under the agreements for the individuals named in the Summary Compensation Table, using the base annual compensation and target incentive for 2004, will be approximately as follows:

Mr. Eppler	\$2,103,750
Ms. Samil	\$1,065,750
Mr. Charlton	\$ 915,600

Edgar Filing: CLECO CORP - Form DEF 14A

Ms. Powell	\$ 798,000
Mr. Chadwick	\$ 840,000

Change in control benefits are provided to other executive officers and certain key managers.

Business Transaction

If the executive's employment with Cleco and its affiliates is involuntarily terminated on account of a business transaction, other than for cause, the executive is entitled to the following: (a) payment of at least 100% of his or her annual base compensation; (b) an incentive bonus payable in the target amount for the year of termination; (c) accelerated vesting, lapse of restrictions and all performance objectives being deemed satisfied as to any outstanding grants or awards made to the executive under Cleco's long-term incentive plans; (d) full vesting of service requirements under the SERP and a minimum benefit; (e) continued group medical coverage; and (f) relocation benefits. A business transaction is defined as the sale, lease or other disposition of all or a substantial portion of Cleco Midstream Resources LLC or the transmission line of business of Cleco Power LLC other than a transaction that constitutes a change in control as determined by the Compensation Committee.

Tax Payment

Payments to Mr. Eppler, Ms. Samil, Mr. Charlton, Ms. Powell and Mr. Chadwick in connection with a change in control or business transaction will be increased, to the extent necessary, to offset the effects of any golden parachute excise taxes payable with respect to such payments. The agreements for other executive officers and certain key managers provide similar benefits or that benefits will be cut back in an amount sufficient to avoid applicable excise taxes.

Compensation Committee Report on Executive Compensation

The Compensation Committee (Committee), composed entirely of independent directors (see Proposal Election of Four Class I Directors Independence and Organization of the Board of Directors above), is responsible for implementing or making recommendations to the board of directors with respect to Cleco's officer compensation programs. The Committee has retained the services of executive compensation consultants to provide professional assistance, data and advice regarding pay practices at Cleco. This report describes the basis on which such 2003 compensation determinations or recommendations were made by the Committee with respect to Cleco's executive officers and provides specific information regarding compensation of Cleco's executive officers as a group. Cleco's chief executive officer and the four other most highly compensated executive officers are sometimes referred to as the Named Executives.

Section 162(m) of the Internal Revenue Code limits to \$1,000,000 in a taxable year the deduction Cleco may claim for compensation paid to an executive officer, unless certain performance-based requirements are met. Cleco has reviewed this provision and does not anticipate any payment of compensation in the near term in excess of that which is deductible under Section 162(m). Under the Cleco Corporation 2000 Long-Term Incentive Compensation Plan (Long-Term Incentive Plan), which was presented to Cleco shareholders and approved at the 2000 annual meeting, the Committee has the discretion to determine whether to make grants or awards contingent upon the achievement of objective performance goals necessary to qualify as performance-based compensation under Section 162(m).

Compensation Philosophy and Overall Objective of Executive Compensation Programs

Cleco seeks to ensure that executive compensation is directly linked to corporate performance and increased shareholder value and is comparable with pay practices similar to those of comparable electric utilities and energy services companies. Each year, the Committee, in making compensation decisions and recommendations, and the board of directors, in considering recommendations of the Committee and approving compensation levels, reviews Cleco's performance and compares such performance to specified internal and external performance standards. The following guidelines are used by the Committee to make compensation decisions and recommendations:

Provide variable compensation opportunities that are directly linked to the financial and operational performance of Cleco and are aligned with the interests of shareholders.

Provide incentives to increase corporate performance and shareholder value relative to the level achieved at comparable electric utilities and energy services companies. When compared to the market,

Cleco's strong performance orientation places more emphasis on the performance-based components of compensation than its peer group, as validated by Cleco's compensation consultants.

Establish executive officer base pay levels relative to the 50th percentile of the competitive market, while providing incentive award opportunities above the 50th percentile when specific performance objectives are achieved.

Provide a competitive total compensation package that has a significant at-risk component and enables Cleco to attract and retain key executives.

Compensation Program Components

In general, the compensation program for executive officers is currently comprised of base salary, annual performance-related incentives, performance-based awards of restricted stock and related opportunity shares (additional stock awards based on exceeding company performance targets) and grants of stock options. The awards of performance-based restricted stock, related opportunity shares and grants of stock options are made under the Long-Term Incentive Plan. The components of the compensation program for Cleco's executive officers are further explained below.

Base Salaries

Base pay levels largely are determined through comparisons with those of peer diversified energy services companies and other investor-owned utilities. These individual position comparisons are based on the responsibilities of the specific executive and the appropriate competitive market comparison. Actual salaries are based on individual performance contributions within an overall salary and total compensation administration program. While the actual relationship may vary from year to year, it is Cleco's policy to set base pay levels for Cleco's executive officers, including the Named Executives, relative to the 50th percentile of the competitive market. Including 2003 base salary increases, actual base pay levels for Cleco's executive officers as a group, including the Named Executives, were consistent with this policy. Increases in base salaries for 2003 for continuing executive officers were recommended by the Committee and approved by the board of directors in January 2003. In January 2003, the Named Executives, other than the chief executive officer, received base pay increases that averaged less than 1% (.98%). Two of the Named Executives (Mr. Chadwick and Ms. Samil) were granted stock options to help bring their base compensation levels closer to the 50th percentile of the competitive market. These stock options were approved in January to be granted in July 2003. In addition, a late-year pay adjustment was made to the base salary of Ms. Samil to reflect her contributions and position in the senior management of Cleco. The individual performance adjustments reflect increases in position responsibilities, an assessment of individual contributions, as well as the current competitive market.

For 2004, increases approved for the Named Executives again averaged less than 1.0% (.80%). In considering individual performance or contributions and base salary levels as compared to the market, merit lump sum payments may be awarded in place of base salary increases to certain executives, including the Named Executives, to recognize high performers whose pay already is competitive with market compensation values.

Annual Incentive Compensation

Cleco's executive officers are eligible to participate in an annual incentive compensation program (AIP). The objectives of the AIP are to deliver competitive levels of bonus opportunity, based on the attainment of specific short-term financial and operational objectives. Performance measures used in the AIP are selected as they contribute to enhance shareholder value and reinforce behavior that contributes to consistent

Edgar Filing: CLECO CORP - Form DEF 14A

growth of the enterprise. Using size-adjusted compensation market data, the Committee establishes total target annual bonus levels intended to be above the 50th percentile bonus levels at companies in a selected group that are of similar scope as Cleco. All of the utility/energy services companies used in this competitive analysis (referred to in this report as the Selected Peer Group) are included in one or more of the following indices: the Edison Electric

Institute Index and the S&P MidCap 400 Utilities Index (Electric Utilities and Multi-Utilities & Unregulated Power Sectors). The Edison Electric Institute Index is provided in the Performance Graph included on page 27 in this proxy statement for common stock performance comparison purposes as it continues to be widely recognized and used as a representation of Cleco's overall industry. Based on Cleco's size and scope of operations for 2003, the Committee approved the use of companies in the S&P MidCap 400 Utilities Index (Electric Utilities and Multi-Utilities & Unregulated Power Sectors) for incentive plan purposes. Targeted awards for Cleco's officers under this program range from 10% to 65% of base salary. Awards are paid in the first quarter of the year following the year for which the award is earned. The amounts of actual awards are further subject to the discretion of the Committee and may be increased or decreased by up to 25%. Over the past several years, awards have been based on both corporate and business unit performance. However, for 2003, Cleco's AIP focused on corporate financial and non-financial measures only. The corporate financial performance objectives comprised approximately 55% to 70% of the total target bonus levels and were based on earnings-per-share goals and Cleco's return on average equity in relation to that of companies in the S&P MidCap 400 Utilities Index (Electric Utilities and Multi-Utilities & Unregulated Power Sectors). The corporate non-financial measures related to safety, ethics and compliance education and customer satisfaction and comprised 30% to 45% of total target bonus levels. Based on actual results, the maximum award that can be earned under the AIP formula is 170% of the target annual bonus levels.

For awards based on 2003 performance, the diluted earnings per share target was \$1.70. Cleco's return on average equity target was between the 50th to 59th percentile of the S&P MidCap 400 Utilities Index (Electric Utilities and Multi-Utilities & Unregulated Power Sectors). Based on actual corporate performance, for Named Executives and other Cleco officers, the Committee approved no awards for 2003 under the Annual Incentive Plan. Awards based on performance of non-financial measures were awarded to employees below the officer level.

Long-Term Incentive Compensation Plan

The Committee supports increased stock ownership by Cleco's key executives and favors awards to key executives of stock and/or cash based on Cleco's stock price appreciation and other measures of performance. The basis for such position is the Committee's belief that Cleco benefits by providing those persons who have substantial responsibility for the management and growth of Cleco with additional incentives. Under the Long-Term Incentive Plan, executive officers may be eligible to receive performance-based and other grants of restricted stock, related opportunity shares, restricted unit grant awards, related opportunity units, stock options and stock appreciation rights, giving them the right to receive or purchase shares of Cleco common stock under specified circumstances or to receive cash awards based on Cleco's stock price appreciation or the achievement of pre-established long-term performance goals. The Committee believes that such programs also are important as a means of retaining senior management over the long term. The number of shares of Cleco common stock and other awards granted to executive officers under the Long-Term Incentive Plan is based on competitive compensation practices of companies in the Selected Peer Group. One of the benefits realized from the use of restricted stock awards has been executive stock ownership levels above those of companies in the Selected Peer Group without establishment of formal ownership requirements.

Provisions of the long-term performance-based restricted stock grants program require an additional three-year holding period following vesting before any shares may be sold or transferred. Because of this requirement, the Long-Term Incentive Plan provides for the payment of a tax gross-up on the value of the shares earned in each performance cycle. This allows executives to avoid selling shares to cover the tax liability thereby encouraging long-term stock ownership. The added value resulting from the tax gross-up is considered when determining the target award level for each executive. Grants of performance-based restricted stock under the Long-Term Incentive Plan were made to all named executive officers in 2003, with a potential value, if any, based on Cleco's performance during a three-year performance cycle and as compared to the S&P MidCap 400 Utilities Index (Electric Utilities and Multi-Utilities & Unregulated Power Sectors) over the same period. In order for performance-based restricted stock and opportunity shares to be earned, two criteria must be met. First, in order for any payout to occur, Cleco's relative total shareholder return must be at or above the 40th percentile of an industry peer group approved by the Committee. Second, if relative total shareholder return meets the 40th

percentile threshold, actual payout is determined by performance on objective measures, which include compound growth in net income and return on investment over the performance period. For the eleventh three-year performance cycle, which ended December 31, 2003, Cleco did not achieve the required performance level during that performance period. Thus, no award was paid for the three-year performance cycle ended December 31, 2003. For retention purposes, grants of time-based restricted stock were made to the Named Executives and other selected individuals. These grants, approved in January 2004, will vest at the end of three years (at December 31, 2006) and, unlike performance-based shares, have no tax gross-up feature.

2003 Compensation for the President and Chief Executive Officer

The Committee believes that the role of the chief executive officer is particularly important in reaching corporate goals and accomplishing organizational objectives. As such, for 2003, the Committee made the following recommendations or determinations regarding the compensation for Mr. Eppler:

Base Salary In January 2003 as a result of Cleco's restructuring completed in 2002, Mr. Eppler received no increase in base salary, which remained at \$415,000. Beginning January 2004, a 2.4% increase to Mr. Eppler's base pay from \$415,000 to \$425,000 was recommended and approved by Cleco's board of directors. Mr. Eppler's base pay continues to be significantly below the 50th percentile of the Selected Peer Group.

Annual Incentive Mr. Eppler was eligible to participate in Cleco's annual incentive compensation program for 2003 as discussed above. The chief executive officer's 2003 target award was increased from 60% of his base salary to 65% to reflect the defined competitive market for his position. Based on the results of the annual incentive program's performance measures, Mr. Eppler received no award under Cleco's Annual Incentive Plan.

Long-Term Incentive Plan Grants were made to Mr. Eppler under the Long-Term Incentive Plan during 2003. The number of shares of stock and other awards granted to the chief executive officer under the Long-Term Incentive Plan are based on competitive practices within the defined competitive market for the position. Administration is consistent with the provisions of the plan as described above in Long-Term Incentive Compensation Plan. For the three-year performance cycle ended December 31, 2003, the chief executive officer did not receive an award payout. Mr. Eppler was awarded non-qualified stock options during 2003 giving him the right to acquire 5,700 shares of company stock. Additionally, for retention purposes, a grant of time-based, restricted stock was approved for Mr. Eppler in January 2004. The grant, in the amount of 5,043 shares, will vest at the end of three years (at December 31, 2006) and has no tax gross-up feature.

Summary

The Committee believes that base pay levels and salary increases, as well as performance-based awards, are reasonable and competitive with the compensation programs provided to officers and other executives by other companies of similar size and complexity to Cleco. The Committee believes further that the degree of performance sensitivity in the annual incentive program continues to be reasonable, yielding awards that are directly linked to the annual financial and operational results of Cleco. The Long-Term Incentive Plan provides, in the view of the Committee, financial opportunities to participants and retention features for Cleco that are consistent with the relative returns that are generated on behalf of Cleco's shareholders.

The Audit Committee of the board of directors, composed entirely of independent directors (see Proposal Election of Four Class I Directors Independence and Organization of the Board of Directors above), includes five directors who also meet the additional requirements for independence as defined under the rules of the SEC and the NYSE listing standards applicable to audit committee members. The board of directors also has determined that Mr. Westbrook is an audit committee financial expert as defined by the rules of the SEC. The Audit Committee operates under a written charter adopted by the board of directors in April 2000 and revised in January 2004, a copy of which is included as Appendix D to this proxy statement.

The Audit Committee is directly responsible for the appointment, compensation, retention, and oversight of the work of Cleco's independent auditors; reviews the scope of audits; reviews and recommends to the board of directors financial reporting and accounting practices; and reviews Cleco's procedures for internal auditing and the adequacy of the systems of internal controls of Cleco.

The Audit Committee held five meetings during 2003. The meetings were designed to facilitate and encourage private communication between the Audit Committee and Cleco's internal auditors and the Independent Auditors.

During these meetings, the Audit Committee reviewed and discussed the financial statements with management of Cleco and the Independent Auditors. The discussions with the Independent Auditors included the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees). In addition, the Audit Committee received the written disclosures and the letter regarding independence from the Independent Auditors as required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and discussed this information with the Independent Auditors.

The Audit Committee has appointed PricewaterhouseCoopers LLP as independent auditors to conduct the annual audit of Cleco for the fiscal year ending December 31, 2003 and quarterly reviews through September 30, 2004. CATEGORICAL STANDARDS FOR INDEPENDENCE

of the Board of Directors of Cleco Corporation

and the Board of Managers of Cleco Power LLC

I. INDEPENDENCE

As a matter of policy, the Board of Directors of Cleco Corporation and the Board of Managers of Cleco Power LLC (with respect to each, the *Board* of the *Company*) intends to maintain its independent character. Thus, at least a majority of the members of the Board (each a *Director*) will be independent, non-employee Directors. No Director qualifies as independent unless the Board affirmatively determines that the Director has no material relationship with the Company (other than as a Director), either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company.

When assessing the materiality of a Director's relationship with the Company, the Board shall consider the issue not merely from the standpoint of the Director, but also from that of persons or organizations with which the Director has an affiliation. Material relationships can include commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships, among others. The Board may otherwise consider any facts and circumstances as it deems relevant to the determination of Director independence.

II. CATEGORICAL STANDARDS

To assist the Board in making determinations of Director independence, and pursuant to Section 303A of the Listed Company Manual of the New York Stock Exchange, the Board will consider, at a minimum, the categorical standards set forth below. If a Director (or his or her immediate family member or certain other entities associated with the Director, as specified below) is engaged in any of the transactions or has any of the relationships specified below, or if within the one year period preceding the Board determination, has been engaged in or has had any of the relationships specified below, then the Board will consider such transactions or relationships in assessing the materiality of the Director's relationship with the Company.

- A. any transaction or series of similar transactions to which the Company or any of its subsidiaries is a party, in which the amount involved exceeds \$60,000 and in which the Director or any member of the immediate family of such Director has a direct or indirect material interest;
- B. any relationship involving payments for property or services by a business or professional entity of which the Director is or within the last fiscal year has been an executive officer or owns, or during the last fiscal year has owned, of record or beneficially in excess of ten percent of the equity interests (an *Associated Business or Professional Entity*), to the Company or its subsidiaries in excess of five percent of (1) the Company's consolidated gross revenues for its last full fiscal year or (2) such Associated Business or Professional Entity's consolidated gross revenues for its last full fiscal year;

Edgar Filing: CLECO CORP - Form DEF 14A

- C. any relationship involving payments for property or services by the Company or its subsidiaries to an Associated Business or Professional Entity in excess of five percent of (1) the Company's consolidated gross revenues for its last full fiscal year or (2) such Associated Business or Professional Entity's consolidated gross revenues for its last full fiscal year;
