Notes to Consolidated Financial Statements

NOTE 1. Management Statement

In the opinion of the Company, the accompanying audited and unaudited Consolidated Financial Statements reflect all adjustments necessary for a fair presentation of the financial position of the Company as of June 30, 2004 and December 31, 2003, as well as the results of operations and changes in financial position for the three-month and six-month, year-to-date periods ended June 30, 2004 and 2003. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed statements be read in conjunction with the Independent Auditor's Report and Financial Statements contained in the Company's most recent Annual Report on Form 10-KSB, as of December 31, 2003.

Certain reclassifications of June 30, 2003 balances have been made to conform to the June 30, 2004 presentation; there was no impact on net income or stockholders' equity. The number of weighted average shares outstanding, the effect of dilutive securities on earnings per share and the calculation of earnings per share have been restated for the three-month and six-month, year-to-date periods ending June 30, 2003 to reflect the effect of a five-percent stock dividend effective for shareholders of record as of May 14, 2004.

NOTE 2. Securities

Most of the securities are classified as available-for-sale and are stated at fair value, and unrealized holding gains and losses, net of related deferred taxes, are reported as a separate component of stockholders' equity. Realized gains or losses on available-for-sale securities sales are reported as part of non-interest income based on the net proceeds and the adjusted carrying amount of the securities sold, using the specific identification method. Pre-tax, realized net gains of \$36,767 are included in the financial results for the six-month, year-to-date period ending June 30, 2004; and, net gains of \$32,483 are included in the financial results for the six-month, year-to-date period ending June 30, 2003. Carrying amounts and fair values at June 30, 2004 and December 31, 2003 were as follows (in thousands):

NOTE 4. Allowance for Loan Losses

The allowance for loan losses is maintained at a level considered adequate by management to provide for reasonably anticipated credit losses in the Bank's loan portfolio. Future credit losses are estimated through an analysis of various factors affecting the performance of the loan portfolio, including: individual review of problem loans, including an evaluation of the quality of underlying collateral; current business conditions and the Bank's historical loan loss experience; the term, in years, that the average loan is expected to remain on the Bank's books; and other factors that management determines to be relevant at the time of the analysis. Changes in the allowance for loan losses during the three-month and six-month, year-to-date periods ended June 30, 2004 and 2003 were as follows (in thousands):
