**CHAIRMAN'S STATEMENT**

Dear Shareholders,

I am gratified by the results of the first half of the year 2007. Despite facing harsh challenges from intense market competition, we have successfully maintained our solid fundamentals, benefiting from the effective implementation of strategic transformation. The Company has continued to record growth in both revenue and profit. Through the transformation, our business structure was further optimised with our Internet access, value-added and integrated information services gaining momentum. This has also vigorously abated the pressure on the operation of our traditional voice business. What encourages me most is that, on implementation of the transformation during the past two years and beyond, our people at all levels have continued to liberalise their mindset and courageously faced the prevailing tough operating environment while executing the transformation strategy with passion. They keep on exploring and innovating products and services to satisfy the increasingly diverse communication and information needs of our

customers, leveraging our rich resources and infrastructure. We firmly believe that as we further deepen our strategic transformation and capitalise on our multi-services convergence offering edge, we would drive greater value for our customers and for you as shareholders.

## FINANCIAL RESULTS

In the first half of 2007, operating revenues reached RMB88,624 million, of which RMB1,666 million were accounted for by the amortisation of upfront connection fees. Excluding the upfront connection fees, operating revenues were RMB86,958 million, a 2.5% growth compared to the same period in 2006. EBITDA<sup>1</sup> was RMB44,551 million, and the EBITDA margin<sup>1</sup> maintained at a healthy level of 51.2%. Operating expenses were RMB68,340 million, an increase of 3.3% compared to the same period in 2006. Profit attributable to equity holders of the Company<sup>1</sup> was RMB11,816 million, an increase of 1.3% compared to the same period last year, and basic earnings per share<sup>1</sup> was RMB0.15. Capital expenditure was RMB20,435 million, 1.6% less than that of the same period last year. Free cash flow<sup>2</sup> was RMB19,356 million.

Taking into consideration of the Company's business development needs and its cash flow position, the Board of Directors has resolved not to pay any interim dividend for the year in order to maintain adequate funding flexibility. The Board will proactively consider the final dividend proposal at the time of reviewing the full year results and propose to the shareholders' general meeting accordingly.

## BUSINESS PERFORMANCE

In the first half of 2007, the Company's voice business was affected by the continuous decline in effective mobile tariff, the extensive implementation of mobile calling-party-pay packages and the increased diversity in communication methods. Our voice revenue recorded RMB56,997 million, a decrease of 6.9% from the same period last year. In face of the immense pressure of declining voice revenue caused by the aggressive expansion of mobile operators, the Company strengthened its customer brand operation to fully capitalize on branding premium value. Leveraging our two major customer brands, BizNavigator and One Home, we further expanded our Internet access, value-added and integrated information services, so that our non-voice businesses emerged as the new revenue-drivers for the Company. In the first half of 2007, our non-voice businesses revenue reached RMB29,961 million, an increase of 26.9% compared to the same period last year, triggering 7.5 percentage points growth in revenue and accounting for 34.5% of operating revenue. The Company's revenue profile was thus further optimised. Additionally, our high-quality customer brands enhanced effective packaged sales of both voice and non-voice businesses, fostering customer loyalty and consolidating revenue. It also progressively transformed voice usage value to integrated information services, enhancing our multi-services convergence offering edge and making good the loss in voice revenue to a certain extent.

- 
- 1 Including the amortisation of upfront connection fees, EBITDA was RMB46,217 million, EBITDA margin was 52.1%, profit attributable to equity holders of the Company was RMB13,482 million and basic earnings per share was RMB0.17.
  - 2 2MFree cashflow is calculated from EBITDA (excluding amortisation of upfront connection fees) minus capital expenditure and income tax.

Starting from this year, the Company has further increased the marketing efforts of broadband access, in particular for the penetration of the government & enterprise customers as well as mid-to-high-end household customers, to achieve its high value and scale development. To reinforce our leading position in the broadband market, the Company has also persistently improved the quality of the Internet network as well as the user-ends bandwidth to enhance customers' experience. The number of our broadband subscribers increased by 3.87 million to 32.19 million in the first half of the year. In order to accelerate the development of our Internet applications business, we strengthened the cooperation with renowned software and content providers, such as Microsoft, Google and Sina to improve our back-end operation. Revenue brought by our Internet value-added services grew by 54.2% in the first half of the year.

For our value-added and integrated information services, the Company concentrated its efforts in promoting the development of services, such as Best Tone (information search engine), enterprise informatisation applications, IT services and applications. We also nurtured new value-added services such as media advertising and video applications, thus establishing an advantage over our peers in core competitiveness. These new services play an important role in consolidating the Company's traditional voice business and creating room for further business growth. The Company also established specialised subsidiaries to operate our Best Tone and system integration businesses respectively, introducing innovative management and incentive mechanisms to promote the rapid development of integrated information services at their growing phase and gradually establish a new operating model that would better suit their development.

Over the past two years and beyond, through transformation in our businesses, networks and human resources, we have developed a series of established products and services such as Best Tone, Mega Eye (remote monitoring) and ICT (Information, Communication and Technology), which laid a solid foundation for our customer brand operation. In the first half of the year, we transformed our operation model from product-oriented to customer-oriented to better cater to our customers' needs. We enriched the product combinations under our customer brands and aligned marketing resource allocation with customer value to enhance customers' perception and loyalty. Leveraging our two major customer brands, BizNavigator and One Home, we concentrated our marketing efforts and resources on the key customer segments of government and enterprise as well as mid-to-high-end household, providing them with our integrated information solutions which incorporated voice, broadband access and Internet applications, enhancing customers' value in a broader market. The success of BizNavigator and One Home brought our multi-services packaged strategy into a new stage. Consumers began to appreciate the value enhanced by the multi-services packaging under the customer brand oriented operation. Customer brand operations have driven the robust growth of our non-voice businesses and reduced the risk of our traditional voice business at the same time.

To tackle with the intense market competition, the Company has persistently improved its financial management. Leveraging comprehensive mechanisms, the Company allocated resource tilting towards business or operating units with high growth and high profitability to ensure the quality and growth of transformation businesses, and directed each level of the corporation to embrace

long-term value creation. The Company also strived to ensure sustainable revenue growth, reinforce financial control and cost control with a view to enhancing its operating efficiency and value creation capability.

## **CORPORATE GOVERNANCE**

We are firmly committed to continuously improving our corporate governance and transparency to ensure our healthy development and enhance our corporate value. With regard to the US Sarbanes- Oxley Act, the Company continuously strengthened its internal control systems while further improving its risk management system to effectively lower operating risk. Our efforts in corporate governance have been widely recognized by the capital market and honored with a number of awards, including the accreditation with CAPITAL Outstanding China Enterprise Awards Telecommunications by CAPITAL magazine for two consecutive years. Furthermore, in the nomination of the Asia's Best Companies 2007 (China region) organised by FinanceAsia, we achieved top rankings in the Best Managed Company, Best Corporate Governance and Best Investor Relations categories.

## **FUTURE OUTLOOK**

Our strategic transformation has gathered pace with brand building further strengthened and customer brand oriented operation progressively enhanced. Emerging integrated information business has grown rapidly, expanding new markets for the Company. Our revenue profile has been further enhanced, alleviating the risk of traditional voice business. In addition, we successfully acquired from our parent company, its subsidiaries in Hong Kong and US, as well as its system integration operating subsidiary. These acquisitions have afforded us with expanded markets for our development.

Looking ahead, we are fully confident. Rising demand in the domestic telecommunications market brings a great wealth of opportunities. The vast market potential in social informatization provides us with broader room for development. As we further deepen the strategic transformation, our roadmap is getting clearer. We have built our experience in integrated information operation with our people getting more suited to the requirements of strategic transformation. We are confident that the Company would achieve sustainable development and drive more value for its shareholders.

Finally, on behalf of the Board of Directors, I would like to thank our shareholders and customers for their continuous support to the Company. I would also like to take this opportunity to express my gratitude to our people for their considerable efforts in the corporate transformation.

# 1. BASIS OF PREPARATION

These interim financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting promulgated by the International Accounting Standards Board and the applicable disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. These interim financial statements, which were authorised for issuance by the Board of Directors on 28 August 2007, reflect the unaudited financial position of the Group as at 30 June 2007 and the unaudited results of operations and cash flows of the Group for the six-month period then ended, which are not necessarily indicative of the results of operations and cash flows expected for the year ending 31 December 2007.

These interim financial statements have been prepared in accordance with the same accounting policies adopted in the 2006 annual financial statements.

These interim financial statements are unaudited, but have been reviewed by the Audit Committee of the Company. These interim financial statements have also been reviewed by the Company's international auditors in accordance with Hong Kong Standards on Review Engagements 2410 Review of interim financial information performed by the independent auditor of the entity issued by the Hong Kong Institute of Certified Public Accountants.

## 2. ACQUISITION AND BASIS OF PRESENTATION

Pursuant to an equity purchase agreement entered into by the Company with China Telecommunications Corporation (China Telecom) and together with its subsidiaries other than the Company are referred to as China Telecom Group) on 15 June 2007, the Company acquired the entire equity interests in China Telecom System Integration Co., Ltd. (CTSI), China Telecom (Hong Kong) International Limited (CT (HK)) and China Telecom (USA) Corporation (CT (USA)) (collectively the Third Acquired Group) from China Telecom for a total purchase price of RMB1,408 million on 30 June 2007 (hereinafter, referred to as the Third Acquisition). The purchase price was settled by cash in July 2007.

Since the Group and the Third Acquired Group are under common control of China Telecom, the Third Acquisition has been accounted for as a combination of entities under common control. Accordingly, the assets and liabilities of the Third Acquired Group have been accounted for at historical amounts and the consolidated financial statements of the Company prior to the Third Acquisition have been restated to include the results of operations and assets and liabilities of the Third Acquired Group on a combined basis. The assets of the Third Acquired Group that were retained by China Telecom which consist of bank deposits, have been reflected as a distribution to China Telecom in the consolidated statement of changes in equity for the six-month period ended 30 June 2007. The purchase price payable by the Company for the acquisition of the Third Acquired Group has been accounted for as an equity transaction in the consolidated statement of changes in equity.

The results of operations for the six-month period ended 30 June 2006 and the financial condition as at 31 December 2006 previously reported by the Group have been restated to include the results and assets and liabilities of the Third Acquired Group as set out below:

The functional currencies of CT (HK) and CT (USA) are Hong Kong dollars and US dollars respectively. The results of operations of CT (HK) and CT (USA) are translated into Renminbi at average rate prevailing during the year. Balance sheet items of CT (HK) and CT (USA) are translated into Renminbi at the foreign exchange rates ruling at the balance sheet date. The resulting exchange differences are recognised directly in exchange reserves, a component of equity. For the periods presented, all significant balances and transactions between the Group and the Third Acquired Group have been eliminated on combination.

## 3. SEGMENTAL REPORTING

A business segment is a distinguishable component of the Group that is engaged in providing products or services and is subject to risks and rewards that are different from those of other segments. For the periods presented, the Group has one business segment which is the provision of wireline telecommunications services. No analysis of the Group's operating revenues and profit before taxation by geographical segment has been presented as the majority of the Group's operating activities are

carried out in the PRC and less than 10 percent of the Group's operating revenues and profit before taxation were derived from activities outside the PRC. A majority of the Group's assets are located in the PRC and less than 10 percent of the Group's total assets are located outside the PRC.

#### 4. OPERATING REVENUES

Note:

- (i) On 16 March 2007, the Fifth Plenary Session of the Tenth National People's Congress passed the Corporate Income Tax Law of the People's Republic of China (new tax law), which will take effect on 1 January 2008. According to the new tax law, a unified corporate income tax rate of 25% and unified tax deduction standards will be applied to PRC entities. Effective from 1 January 2008, the 25% unified tax rate will replace the 33% tax rate currently in effect through 2007. In addition, entities currently taxed at preferential rates will be subject to a five-year transition period during which the tax rates will gradually be increased to the unified rate of 25% from 1 January 2008.

According to the new tax law, the income tax rate applicable to the Company and certain of its subsidiaries which are currently taxed at 33% will be reduced to the unified rate of 25% from 1 January 2008. For subsidiaries operating in special economic zones which are currently taxed at preferential rate of 15%, management expect that their tax rate will be increased to 25% from 1 January 2013. For subsidiaries operating in the western region of the PRC which were granted a preferential tax rate of 15% from 2004 to 2010, management expect that their tax rate will be increased to 25% from 1 January 2011. Accordingly, deferred tax assets and liabilities as at 1 January 2007 were adjusted to reflect the change in tax rate. For deferred tax assets and liabilities previously credited and charged to profit and loss upon initial recognition, the effect of change in the tax rate amounted to RMB72 million was recognised in the consolidated income statement. For deferred tax assets and liabilities previously credited and charged to equity upon initial recognition, the effect of change in the tax rate amounted to RMB1,641 million and RMB60 million respectively were recognised in the consolidated statement of changes in equity.

## 12. RELATED PARTY TRANSACTIONS

Companies are considered to be related if one company has the ability, directly or indirectly, to control or jointly control the other company or exercise significant influence over the other company in making financial and operating decisions. Companies are also considered to be related if they are subject to common control.

### (a) Transactions with China Telecom Group

The Group is part of a large group of companies under China Telecom, a company owned by the PRC government, and has significant transactions and relationships with members of China Telecom. Because of these relationships, it is possible that the terms of these transactions are not the same as those that would result from transactions among unrelated parties.

The principal transactions with China Telecom Group which were carried out in the ordinary course of business are as follows:

Six-month periods			
ended 30 June

<b>Total amounts due to China Telecom Group</b>	<b>76,402</b>	<b>62,543</b>

Amounts due from/to China Telecom Group, other than short-term debt and long-term debt, bear no interest, are unsecured and are repayable in accordance with contractual terms which are similar to those terms offered by third parties. The terms of short-term debt and long-term debt payable to China Telecom Group are set out in Note 8 to the interim financial statements included in the Interim Report.

As at 30 June 2007 and 31 December 2006, no material impairment losses for bad and doubtful debts was recorded in respect of amounts due from China Telecom Group.

**(b) Key management personnel compensation**

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, including directors and supervisors of the Group.

Key management personnel compensation of the Group is summarised as follows:

	Six-month periods	
	ended 30 June	
	2007 <i>RMB thousands</i>	2006 <i>RMB thousands</i>
Short-term employee benefits	3,948	3,833
Post-employment benefits	301	331
	4,249	4,164

The above remuneration is included in personnel expenses.

**(c) Contributions to post-employment benefit plans**

As stipulated by the regulations of the PRC, the Group participates in various defined contribution retirement plans organised by municipal and provincial governments for its employees. The Group is required to make contributions to the post-employment benefit plans at rates ranging from 18% to 20% of the salaries, bonuses and certain allowances of the employees. A member of the plan is entitled to a pension equal to a fixed proportion of the salary prevailing at the member's retirement date. The Group has no other material obligation for the payment of pension benefits associated with these plans beyond the contributions described above.

The Group's contributions for the six-month period ended 30 June 2007 were RMB1,214 million (six-month period ended 30 June 2006: RMB1,202 million).

The amount payable for contributions to defined contribution retirement plans as at 30 June 2007 was RMB531 million (31 December 2006: RMB522 million).

**(d) Transactions with other state-controlled entities in the PRC**

The Group is a state-controlled public utilities enterprise and operates in an economic regime currently dominated by entities directly or indirectly controlled by the State through government authorities, agencies, affiliations and other organisations (collectively referred to as state-controlled entities).

Apart from transactions with parent company and its affiliates, the Group have transactions with other state-controlled entities which include but not limited to the following:

sales and purchases of goods, properties and other assets

rendering and receiving services

lease of assets

depositing and borrowing money

use of public utilities

A-17

These transactions are conducted in the ordinary course of the Group's business on terms comparable to those with other entities that are not state-controlled. The Group prices its telecommunication services and products based on government-regulated tariff rates, where applicable, or based on commercial negotiations. The Group has also established its procurement policies and approval processes for purchases of products and services, which do not depend on whether the counterparties are state-controlled entities or not.

Having considered the transactions potentially affected by related party relationships, the entity's pricing strategy, procurement policies and approval processes, and the information that would be necessary for an understanding of the potential effect of the related party relationships on the financial statements, the directors are of the opinion that the following related party transactions require disclosure of numeric details:

(i) Transactions with other state-controlled telecommunications operators in the PRC

The Group's wireline telecommunications networks interconnect with the networks of other state-controlled telecommunications operators. The Group also leases wireline telecommunications networks to these operators in the normal course of business. The interconnection and leased line charges are regulated by the Ministry of Information Industry. The extent of the Group's interconnection and leased line transactions with other state-controlled telecommunications operators in the PRC is as follows:

	Six-month periods	
	ended 30 June	
	2007 RMB millions	2006 RMB millions
Interconnection revenues	6,158	5,926
Interconnection charges	1,870	1,564
Leased line revenues	389	744

Amounts due from/to other state-controlled telecommunications operators in the PRC included in the following balances are summarised as follows:

	30 June	31 December
	2007 RMB millions	2006 RMB millions
Accounts receivable	2,373	1,792
Prepayments and other current assets	267	242
Total amounts due from other state-controlled telecommunications operators in the PRC	2,640	2,034
Accounts payable	70	63
Accrued expenses and other payables	201	181
Total amounts due to other state-controlled telecommunications operators in the PRC	271	244

Amounts due from/to other state-controlled telecommunications operators in the PRC bear no interest, are unsecured and are repayable in accordance with normal commercial terms.

As at 30 June 2007 and 31 December 2006, there were no material impairment losses for bad and doubtful debts in respect of amounts due from other state-controlled telecommunications operators in the PRC.

(ii) Transactions with state-controlled banks

The Group deposits its cash balances with several state-controlled banks in the PRC and obtains short-term and long-term loans from these banks in the ordinary course of business. The interest rates of the bank deposits and loans are regulated by the People's Bank of China. The Group's interest income earned from deposits with and interest expense incurred on loans from state-controlled banks in the PRC are as follows:

	Six-month periods	
	ended 30 June	
	2007 RMB millions	2006 RMB millions
Interest income	180	158
Interest expense	1,465	1,842

The amounts of cash deposited with and loans from state-controlled banks in the PRC are summarized as follows:

	30 June 2007 RMB millions	31 December 2006 RMB millions
Cash at bank	12,834	10,659
Time deposits with maturity within three months	4,034	10,484
Time deposits with maturity over three months	145	119
Total deposits with state-controlled banks in the PRC	17,013	21,262

**AUDIT COMMITTEE**

The audit committee has reviewed with management and the Company's international auditor, KPMG, the accounting principles and practices adopted by the Group and discussed internal control and financial reporting matters including the review of the Company's Interim Report for the six months ended 30 June 2007.

## **COMPLIANCE WITH THE CODE ON CORPORATE GOVERNANCE PRACTICES**

The Company has attached great importance to corporate governance. We continued to make efforts in improving the Company's internal control mechanisms, strengthening information disclosure and enhancing the Company's transparency, developing corporate governance practices and protecting shareholders' interests to the maximum degree.

Save for the roles of Chairman and Chief Executive Officer of the Company being performed by the same individual, for the six months period ended 30 June 2007, the Company has been in compliance with all the code provisions as set out in Appendix 14 Code on Corporate Governance Practices of the Listing Rules.

In the Company's opinion, through supervision of the Board and independent non-executive directors, and effective control of the Company's internal check and balance mechanism, the same individual performing the roles of Chairman and Chief Executive Officer can achieve the goal of improving the Company's efficiency in decision-making and execution, and effectively capture business opportunities. Many international leading corporations also have a similar arrangement.

## **COMPLIANCE WITH MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS**

The Company has adopted the Model Code as set out in Appendix 10 of the Listing Rules to govern securities transactions by Directors. Further to the specific enquiries made by the Company to all Directors, they have confirmed their compliance with the Model Code throughout the period from 1 January 2007 to 30 June 2007.

## **INTERIM REPORT**

The Interim Report for the six months ended 30 June 2007 will be despatched to shareholders and made available on the website of Hong Kong Exchanges and Clearing Limited ([www.hkex.com.hk](http://www.hkex.com.hk)) and the website of the Company ([www.chinatelecom-h.com](http://www.chinatelecom-h.com)) in due course.

## **FORWARD-LOOKING STATEMENTS**

**China Telecom Corporation Limited***(A joint stock limited company incorporated in the People's Republic of China with limited liability)***(Stock Code: 0728)****Disclosure of Earnings Before Interest, Tax, Depreciation and Amortization ( EBITDA ) and Reconciliation to Cash Flows from Operating Activities**

On August 28, 2007, the Company presented EBITDA in its interim report and announcement of the interim report for the six months ended June 30, 2007 in Hong Kong.

The Company's EBITDA represents profit before net finance costs, investment income, share of profit from associates, taxation, depreciation and amortisation and minority interests. As the telecommunications business is a capital-intensive industry, capital expenditures, the level of gearing and finance costs may have a significant impact on the net profit of companies with similar operating results. Therefore, the Company believes EBITDA may be helpful in analysing the operating results of a telecommunications service provider like itself. Although EBITDA is widely used in the global telecommunications industry as a benchmark to reflect operating performance, financing capability and liquidity, it is not regarded as a measure of operating performance and liquidity under generally accepted accounting principles ( GAAP ). It also does not represent cash flows from operating activities. In addition, the Company's EBITDA may not be comparable to similar indicators provided by other companies.

The following table sets forth a reconciliation of the EBITDA for the six months ended June 30, 2007 to cash flows from operating activities, being the most comparable GAAP measure under International Financial Reporting Standards:

	<b>RMB millions</b>
<b>EBITDA</b>	<b>46,217</b>
Adjustments:	
Non-cash items included in EBITDA	1,474
Net change in working capital	(1,288)
