Table of Contents**PART I****Item 1. Business**

This Form 10-K contains forward-looking statements concerning PriceSmart, Inc.'s ("PriceSmart" or the "Company") anticipated future revenues and earnings, adequacy of future cash flow and related matters. These forward-looking statements include, but are not limited to, statements containing the words expect, believe, will, may, should, project, estimate, scheduled and like expressions, and the negative thereof. statements are subject to risks and uncertainties that could cause actual results to differ materially from the statements, including foreign exchange risks, political or economic instability of host countries, and competition as well as those risks described in the Company's Securities and Exchange Commission reports, including the risk factors referenced in this Form 10-K. See Part I, Item 1A Risk Factors.

PriceSmart's business consists primarily of international membership shopping warehouse clubs similar to, but smaller in size than, warehouse clubs in the United States. The number of warehouse clubs in operation, as of August 31, 2007 and 2006, the Company's ownership percentages and basis of presentation for financial reporting purposes by each country or territory are as follows:

Country/Territory	Number of Warehouse Clubs in Operation (as of August 31, 2007)	Number of Warehouse Clubs in Operation (as of August 31, 2006)	Ownership (as of August 31, 2007)	Basis of Presentation
Panama	4	4	100%	Consolidated
Costa Rica	4	4	100%	Consolidated
Dominican Republic	2	2	100%	Consolidated
Guatemala	2	2	100%	Consolidated
El Salvador	2	2	100%	Consolidated
Honduras	2	2	100%	Consolidated
Trinidad	2	2	95%	Consolidated
Aruba	1	1	90%	Consolidated
Barbados	1	1	100%	Consolidated
U.S. Virgin Islands	1	1	100%	Consolidated
Jamaica	1	1	100%	Consolidated
Nicaragua	1	1	51%	Consolidated
Totals	23	23		

During fiscal year 2006, the Company purchased land in Honduras for the construction of a warehouse club. The Company completed construction and relocated its San Pedro Sula, Honduras warehouse club to this new site, which is also located in San Pedro Sula. The opening at the new site took place on November 4, 2006 (fiscal year 2007). During fiscal year 2007, the Company purchased land in Guatemala and Trinidad, where it plans to complete construction and open new warehouse clubs in November and December 2007 (fiscal year 2008), respectively.

On November 18, 2005 (fiscal year 2006), the Company opened its fourth warehouse club in Costa Rica. Also during fiscal year 2006, the Company acquired the 32.5% of minority interests in PriceSmart Jamaica, increasing the Company's ownership to 100%. In addition, the Company acquired an additional 5% interest in its PriceSmart Trinidad subsidiary, increasing its ownership to 95% from 90%.

Edgar Filing: PRICESMART INC - Form 10-K

On August 28, 2007, Grupo Gigante S.A. de C.V. agreed to purchase all 164,046 shares held by PriceSmart, Inc. in PSMT Mexico for \$2.0 million, thereby allowing Grupo Gigante S.A. de C.V. to assume 100% control and ownership of PSMT Mexico. PSMT Mexico, S.A. de C.V. is a 50/50 joint venture of PriceSmart and Grupo Gigante S.A. de C.V. which operated three membership warehouse clubs in Mexico until February 28, 2005. The sale of the shares was finalized on October 31, 2007.

Table of Contents

At the end of August 2007 and 2006, the total number of consolidated warehouse clubs in operation was 23 operating in 11 countries and one U.S. territory. The average age of the 23 warehouse clubs included in continuing operations was 80 months and 68 months as of the end of fiscal year 2007 and fiscal year 2006, respectively.

In addition to the warehouse clubs operated directly by the Company or through joint ventures, there is one warehouse club in operation in Saipan, Micronesia licensed to and operated by local business people, from which the Company earns a royalty fee. During the second quarter of fiscal year 2005, the Company terminated the license agreement with its China licensee, under which such licensee previously operated 11 warehouse clubs. No licensing revenue has been recorded with respect to the China licensee in the past three fiscal years.

International Warehouse Club Business

The Company owns and operates U.S.-style membership shopping warehouse clubs through majority or wholly owned ventures operating in Central America and the Caribbean using the trade name PriceSmart. In addition, there is one warehouse club in operation in Saipan, Micronesia licensed to and operated by local business people, from which the Company earns a royalty fee. The warehouse clubs sell basic consumer goods to individuals and businesses, sales are typically comprised of approximately 50% U.S.-sourced merchandise and approximately 50% locally sourced merchandise, with an emphasis on quality and low prices. By offering low prices on brand name and private label merchandise, the warehouse clubs seek to generate sufficient sales volumes to operate profitably at relatively low gross profit margins. The typical no-frills warehouse club-type buildings range in size from 48,000 to 72,000 square feet and are located primarily in urban areas to take advantage of dense populations and relatively higher levels of disposable income. Product selection includes perishable foods and basic consumer products. Ancillary services include food services, bakery, tire centers, and photo centers. The shopping format includes an average annual membership fee of approximately \$25.

Business Strategy

PriceSmart's mission is to efficiently operate U.S.-style membership warehouse clubs in Central America and the Caribbean that sell high quality merchandise at low prices to PriceSmart members and that provide fair wages and benefits to PriceSmart employees, as well as a fair return to PriceSmart stockholders. The Company delivers U.S. brand-name and locally sourced products to its small business and consumer members in a warehouse club format that provides high value to its members. By focusing on providing exceptional value on quality merchandise in a low cost operating environment, the Company seeks to grow sales volume and membership which in turn will allow for further efficiencies, resulting in price reductions and improved value to our members.

Membership Policy

PriceSmart believes that membership reinforces customer loyalty. In addition, membership fees provide a continuing source of revenue, which allows us to continue lowering prices for the members. PriceSmart has two types of members: Business and Diamond (individual).

Business owners and managers qualify for Business membership. PriceSmart promotes Business membership through its merchandise selection and its marketing programs primarily targeting small businesses like restaurants, hotels and convenience stores. Business members pay an annual membership fee of approximately \$25 for a primary and spouse membership card and approximately \$10 for additional add-on membership cards. Diamond (individual) members pay an annual membership fee of approximately \$20 and approximately \$10 for an add-on

membership card.

The Company recognizes membership fee revenues over the term of the membership, which is 12 months. Deferred membership income is presented separately on the balance sheet and totaled \$6.6 million and \$5.8 million as of August 31, 2007 and 2006, respectively. PriceSmart's membership agreements contain an explicit

Table of Contents

right to refund if its customers are dissatisfied with their membership. The Company's historical rate of membership fee refunds has been approximately 0.5% of membership income.

Expansion Plans

In the past, the Company rapidly expanded into new countries and markets as part of its strategy to gain volume buying benefits and to move quickly into underserved areas. The Company is currently focusing its management attention on improving the operations of its current locations and believes that its existing portfolio provides the opportunity for improved sales and profitability. However, the Company continues to evaluate various options for expansion, particularly in the countries in which it has already established a strong market presence. In that regard, the Company currently plans to complete construction and open new warehouse clubs in Trinidad and Guatemala early in fiscal year 2008, which would bring to three the total number of warehouse clubs in both Guatemala and Trinidad.

Warehouse Club Closings and Asset Impairment

During fiscal year 2005, the Company recorded \$11.4 million in asset impairment and closure costs related to the closed warehouse clubs in Guatemala and Dominican Republic, and an impairment charge for the U.S. Virgin Islands warehouse club operation.

As of August 31, 2005, the Company had signed a sub-lease agreement with a sub-tenant for the closed warehouse club in Guatemala, and began marketing the closed warehouse club location in East Santo Domingo, Dominican Republic for an amount that was consistent with the carrying value of the asset.

During fiscal year 2006, the Company recorded \$1.8 million in asset impairment and closure costs, which were primarily due to the write-down of two real estate assets of the Company, one in Honduras and one in the Dominican Republic. The Company's original San Pedro Sula, Honduras location was vacated and the operation was relocated to a new site which was acquired during the fiscal year 2006 in another section of the city. The charge in the Dominican Republic relates to the previously closed warehouse club in East Santo Domingo.

During fiscal year 2007, the Company recorded \$1.6 million in asset impairment and closure costs. These were primarily due to the write down of the vacated San Pedro Sula, Honduras location and the loss on the sale of the East Santo Domingo, Dominican Republic location. In addition there were closure costs recorded in Guatemala for the closed Plaza warehouse, and closure costs in the Dominican Republic and Honduras incurred in operating and preparing the respective properties for sale. In September 2007, the Company finalized the sale of the vacated San Pedro Sula, Honduras location at the net impaired value of the asset.

Discontinued Operations

With the disposition of the Company's interest in PSMT Philippines, Inc., this entity, as well as the Company's Guam operation, which was closed on December 24, 2003, qualify for treatment as discontinued operations in the Company's consolidated financial statements. The prior periods have been reclassified for comparative purposes.

International Licensee Business

The Company had one warehouse club in operation in Saipan, Micronesia licensed to and operated by local business people at the end of fiscal year 2007, through which the Company receives royalties.

Table of Contents

Intellectual Property Rights

It is the Company's policy to obtain appropriate proprietary rights protection for trademarks by filing applications for registrable marks with the U.S. Patent and Trademark Office, and in certain foreign countries. In addition, the Company relies on copyright and trade secret laws to protect its proprietary rights. The Company attempts to protect its trade secrets and other proprietary information through agreements with its joint ventures, employees, consultants and suppliers and other similar measures. There can be no assurance, however, that the Company will be successful in protecting its proprietary rights. While management believes that the Company's trademarks, copyrights and other proprietary know-how have significant value, changing technology and the competitive marketplace make the Company's future success dependent principally upon its employees' technical competence and creative skills for continuing innovation.

There can be no assurance that third parties will not assert claims against the Company with respect to existing and future trademarks, trade names, domain names, sales techniques or other intellectual property matters. In the event of litigation to determine the validity of any third-party's claims, such litigation could result in significant expense to the Company and divert the efforts of the Company's management, whether or not such litigation is concluded in favor of the Company.

While the Company has registered under various classifications the mark PriceSmart in several countries, certain registration applications remain pending; because of objections by one or more parties, there can be no assurance that the Company will obtain all such registrations or that the Company has proprietary rights to the marks.

In August 1999, the Company and Associated Wholesale Grocers, Inc. (AWG) entered into an agreement regarding the trademark PriceSmart and related marks containing the name PriceSmart. The Company agreed not to use the PriceSmart mark or any related marks containing the name PriceSmart in connection with the sale or offer for sale of any goods or services within AWG's territory of operations, including the following ten states: Kansas, Missouri, Arkansas, Oklahoma, Nebraska, Iowa, Texas, Illinois, Tennessee and Kentucky. The Company, however, may use the mark PriceSmart or any mark containing the name PriceSmart on the internet or any other global computer network whether within or outside such territory, and in any national advertising campaign that cannot reasonably exclude the territory, and the Company may use the mark in connection with various travel services. AWG has agreed not to oppose any trademark applications filed by the Company for registration of the mark PriceSmart or related marks containing the name PriceSmart, and AWG has further agreed not to bring any action for trademark infringement against the Company based upon the Company's use outside the territory (or with respect to the permitted uses inside the territory) of the mark PriceSmart or related marks containing the name PriceSmart.

Employees

As of August 31, 2007, the Company and its consolidated subsidiaries had a total of 3,434 employees. Approximately 94% of the Company's employees were employed outside of the United States.

Seasonality

Historically, the Company's merchandising businesses have experienced holiday retail seasonality in their markets. In addition to seasonal fluctuations, the Company's operating results fluctuate quarter-to-quarter as a result of economic and political events in markets served by the Company, the timing of holidays, weather, the timing of shipments, product mix, and currency effects on the cost of U.S.-sourced products

Edgar Filing: PRICESMART INC - Form 10-K

which may make these products more or less expensive in local currencies and therefore more or less affordable. Because of such fluctuations, the results of operations of any quarter are not indicative of the results that may be achieved for a full fiscal year or any future quarter. In addition, there can be no assurance that the Company's future results will be consistent with past results or the projections of securities analysts.

Table of Contents

Item 1A. Risk Factors

In evaluating our business, you should consider the following discussion of risk factors, in addition to other information contained in this report as well as our other public filings with the Securities and Exchange Commission.

The Company's financial performance is dependent on international operations, which exposes it to various risks. The Company's international operations account for nearly all of the Company's total sales. The Company's financial performance is subject to risks inherent in operating and expanding the Company's international membership business, which include: (i) changes in and interpretation of tariff and tax laws and regulations, as well as inconsistent enforcement of laws and regulations, (ii) the imposition of foreign and domestic governmental controls, (iii) trade restrictions, (iv) greater difficulty and costs associated with international sales and the administration of an international merchandising business, (v) thefts and other crimes, (vi) limitations on U.S. company ownership in certain foreign countries, (vii) product registration, permitting and regulatory compliance, (viii) volatility in foreign currency exchange rates, (ix) the financial and other capabilities of the Company's joint venturers and licensees, and (x) general political as well as economic and business conditions.

Any failure by the Company to manage its widely dispersed operations could adversely affect the Company's business. As of August 31, 2007, the Company had in operation 23 consolidated warehouse clubs in 11 countries and one U.S. territory (four in Panama; four in Costa Rica; two each in the Dominican Republic, Guatemala, El Salvador, Honduras and Trinidad; and one each in Aruba, Barbados, Jamaica, Nicaragua and the United States Virgin Islands). The success of the Company's business will depend to a significant degree on the Company's ability to (i) efficiently operate warehouse clubs on a profitable basis and (ii) maintain positive comparable warehouse club sales growth in the applicable markets. In addition, the Company will need to continually evaluate the adequacy of the Company's existing personnel, systems and procedures, including warehouse management and financial and inventory control. Moreover, the Company will be required to continually analyze the sufficiency of the Company's inventory distribution channels and systems and may require additional facilities in order to support the Company's operations. The Company may not adequately anticipate all the changing demands that will be imposed on these systems. An inability or failure to retain effective warehouse personnel or to update the Company's internal systems or procedures as required could have a material adverse effect on the Company's business, financial condition and results of operations.

The Company faces significant competition. The Company's international merchandising businesses compete with exporters, wholesalers, local retailers and trading companies in various international markets. Some of the Company's competitors may have greater resources, buying power and name recognition. There can be no assurance that additional competitors will not decide to enter the markets in which the Company operates or that the Company's existing competitors will not compete more effectively against the Company. The Company may be required to implement price reductions in order to remain competitive should any of the Company's competitors reduce prices in any of the Company's markets. Moreover, the Company's ability to operate profitably in its markets, particularly small markets, may be adversely affected by the existence or entry of competing warehouse clubs or discount retailers.

The Company faces difficulties in the shipment of and inherent risks in the importation of merchandise to its warehouse clubs. The Company's warehouse clubs typically import half or more of the merchandise that they sell, which originates from various countries and is transported over great distances, typically over water, which results in: (i) substantial lead times needed between the procurement and delivery of product, thus complicating merchandising and inventory control methods, (ii) the possible loss of product due to theft or potential damage to, or destruction of, ships or containers delivering goods, (iii) product markdowns as a result of it being cost prohibitive to return merchandise upon importation, (iv) product registration, tariffs, customs and shipping regulation issues in the locations the Company ships to and from, and (v) substantial ocean freight and duty costs. Moreover, each country in which the Company operates has different governmental rules and regulations regarding the importation of foreign products. Changes to the rules and regulations governing the importation of

Table of Contents

merchandise may result in additional delays, costs or barriers in the Company's deliveries of products to its warehouse clubs or product it selects to import. For example, several of the countries in which the Company's warehouse clubs are located have imposed restrictions on the importation of some U.S. beef products because of concerns about Bovine Spongiform Encephalopathy (BSE), commonly referred to as mad cow disease. As a result of these restrictions, the sales of U.S. beef products may be impaired for the duration of these restrictions and may continue following the lifting of these restrictions because of perceptions about the safety of U.S. beef among people living in these countries. In addition, only a limited number of transportation companies service the Company's regions. The inability or failure of one or more key transportation companies to provide transportation services to the Company, any collusion among the transportation companies regarding shipping prices or terms, changes in the regulations that govern shipping tariffs or the importation of products, or any other disruption in the Company's ability to transport the Company's merchandise could have a material adverse effect on the Company's business, financial condition and results of operations.

The Company is exposed to weather and other risks associated with international operations. The Company's operations are subject to the volatile weather conditions and natural disasters such as earthquakes and hurricanes, which are encountered in the regions in which the Company's warehouse clubs are located and which could result in significant damage to, or destruction of, or temporary closure of, the Company's warehouse clubs. For example, during September 2004, while no damage was sustained from the multiple hurricanes in the Caribbean, a total of eight days of sales were lost due to selected warehouse club closures resulting from heavy rains, local flooding and government advisories to stay off the roads. Losses from business interruption may not be adequately compensated by insurance and could have a material adverse effect on the Company's business, financial condition and results of operations.

Declines in the economies of the countries in which the Company operates its warehouse clubs would harm its business. The success of the Company's operations depends to a significant extent on a number of factors that affect discretionary consumer spending, including employment rates, business conditions, consumer spending patterns and customer preferences and other economic factors in each of the Company's foreign markets. Adverse changes in these factors, and the resulting adverse impact on discretionary consumer spending, would affect the Company's growth, sales and profitability. In addition, a significant decline in these economies may lead to increased governmental ownership or regulation of the economy, higher interest rates, increased barriers to entry such as higher tariffs and taxes, and reduced demand for goods manufactured in the United States. Any general instability in the national or regional economies of the foreign countries, in which the Company currently operates, could have a material adverse effect on the Company's business, financial condition and results of operations.

A few of the Company's stockholders have control over the Company's voting stock, which will make it difficult to complete some corporate transactions without their support and may prevent a change in control. On October 31, 2007, a group comprised of Robert E. Price, who is the Company's Chairman of the Board and Chief Executive Officer, Jose Luis Laparte, the Company's President, Sol Price, a significant stockholder of the Company and father of Robert E. Price, and Jack McGrory, Murray Galinson, and Keene Wolcott, members of our Board of Directors, and affiliates of these individuals, including Price Charities, and The Price Group, LLC filed an amended Schedule 13D reporting their collective ownership of approximately 51% of the Company's outstanding shares of common stock and stating their intention to act as a group with respect to voting of the Company's common stock. Because the group beneficially owns, in the aggregate, more than 50.0% of the Company's common stock, PriceSmart is a controlled company within the meaning of Nasdaq Marketplace Rule 4350(c)(5). As a result of their beneficial ownership, these stockholders have the ability to control the outcome of all matters submitted to the Company's stockholders for approval, including the election of directors. In addition, this ownership could discourage the acquisition of the Company's common stock by potential investors and could have an anti-takeover effect, possibly depressing the trading price of the Company's common stock.

The loss of key personnel could harm the Company's business. The Company depends to a large extent on the performance of its senior management team and other key employees, such as U.S. expatriates in certain

Table of Contents

locations where the Company operates, for strategic business direction. The loss of the services of any members of the Company's senior management or other key employees could have a material adverse effect on the Company's business, financial condition and results of operations.

The Company is subject to volatility in foreign currency exchange rates. The Company, primarily through majority or wholly owned subsidiaries, conducts operations in Central America and the Caribbean, and as such is subject to both economic and political instabilities that cause volatility in foreign currency exchange rates or weak economic conditions. As of August 31, 2007, the Company had a total of 23 consolidated warehouse clubs operating in 11 foreign countries and one U.S. territory, 16 of which operate under currencies other than the U.S. dollar. For fiscal year 2007, approximately 78% of the Company's net warehouse club sales were in foreign currencies. Also, as of August 31, 2007, the Company had a 50/50 joint venture accounted for under the equity method of accounting, which operates under the Mexican Peso. The Company may enter into additional foreign countries in the future or open additional locations in existing countries, which may increase the percentage of net warehouse sales denominated in foreign currencies.

Foreign currencies in most of the countries where the Company operates have historically devalued against the U.S. dollar and are expected to continue to devalue. For example, the Dominican Republic experienced a net currency devaluation of 81% between the end of fiscal year 2002 and the end of fiscal year 2003 and 13% (significantly higher at certain points of the year) between the end of fiscal year 2003 and the end of fiscal year 2004. Foreign exchange transaction gains (losses), including repatriation of funds, which are included as part of the costs of goods sold in the consolidated statement of operations, for fiscal years 2007, 2006 and 2005 were approximately \$5,000, \$(1.5) million and \$551,000, respectively.

The Company faces the risk of exposure to product liability claims, a product recall and adverse publicity. The Company markets and distributes products, including meat, dairy and other food products, from third-party suppliers, which exposes the Company to the risk of product liability claims, a product recall and adverse publicity. The Company may inadvertently redistribute food products that are contaminated, which may result in illness, injury or death if the contaminants are not eliminated by processing at the foodservice or consumer level. The Company generally seeks contractual indemnification and insurance coverage from its major suppliers. However, if the Company does not have adequate insurance or contractual indemnification available, product liability claims relating to products that are contaminated or otherwise harmful could have a material adverse effect on the Company's ability to successfully market its products and on the Company's business, financial condition and results of operations. In addition, even if a product liability claim is not successful or is not fully pursued, the negative publicity surrounding a product recall or any assertion that the Company's products caused illness or injury could have a material adverse effect on the Company's reputation with existing and potential customers and on the Company's business, financial condition and results of operations.

Potential future impairments under Financial Accounting Standards Board Statement of Financial Accounting Standard No. 144 (SFAS 144), Accounting for the Impairment or Disposal of Long-Lived Assets could adversely affect the Company's future results of operations and financial position. In accordance with SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets, long-lived assets are assessed for impairment annually or whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. An impairment loss would be measured and recognized if the sum of the expected future discounted cash flows is less than the carrying amount of the asset. If the carrying amount of the asset were determined to be impaired, an impairment loss to write-down the carrying value of the asset to fair value by using quoted market prices, when available, would be required. When a quoted market price is not available, an estimated fair value would be determined through other valuation techniques. The Company has used projected cash flows discounted to reflect the expected commercial, competitive and other factors related to its long-lived assets and comparisons to similar asset sales and valuations by others to estimate the fair value of its intangible assets. These future tests may result in a determination that these assets have been impaired. If at any time the Company determines that an impairment has occurred, it will be required to reflect the impaired value as a charge, resulting in a reduction in earnings in the quarter such impairment is identified and a corresponding reduction in our net asset value.

Table of Contents

For example, the Company was required to take an impairment charge pursuant to SFAS No. 144 on the old San Pedro Sula, Honduras warehouse site in fiscal year 2007 of approximately \$897,000. This was due to the revised fair valuation of the land and building as a result of the disposal agreement. In addition the Company recorded \$2.6 million impairment charge related to the write down of the Company's interest in its Mexico joint venture as a result of the disposal agreement.

In fiscal year 2006, the Company was required to take an impairment charge pursuant to SFAS 144 of \$1.6 million for its Honduras warehouse club operation, which was due to the intended relocation in November 2006 from the original San Pedro Sula location to a new site acquired during 2006 in another section of the city, and for the closed warehouse club operations in the Dominican Republic. In fiscal year 2005 the Company was required to take an impairment charge pursuant to SFAS 144 of \$10.4 million in fiscal year 2005 for its U.S. Virgin Island warehouse club operation and for closed warehouse club operations in Guatemala and Dominican Republic, as well as \$1.1 million and \$3.1 million related to the write down of the Company's interest in its Mexico joint venture in fiscal years 2005 and 2004, respectively. A material reduction in earnings resulting from such a charge could cause the Company to fail to be profitable in the period in which the charge is taken or otherwise to fail to meet the expectations of investors and securities analysts, which could cause the price of the Company's stock to decline.

Write-offs pursuant to Financial Accounting Standards Board Statement of Financial Accounting Standard No. 142 (SFAS 142), Goodwill and Other Intangible Assets could adversely affect the Company's future results of operations and financial position. Under statement of Financial Accounting Standard No. 142, Goodwill and Other Intangible Assets, goodwill and intangible assets deemed to have indefinite lives are not amortized but instead are subject to annual impairment tests in accordance with the Statement. As of August 31, 2007, the Company had goodwill of approximately \$31.7 million, net of accumulated amortization originating prior to the adoption of SFAS 142. The Company performed its impairment test on goodwill as of August 31, 2007 and August 31, 2006, and no impairment losses were recorded. In the future, the Company will test for impairment at least annually. Such tests may result in a determination that these assets have been impaired. If at any time the Company determines that an impairment has occurred, the Company will be required to reflect the impaired value as a part of operating income, resulting in a reduction in earnings in the period such impairment is identified and a corresponding reduction in the Company's net asset value. A material reduction in earnings resulting from such a charge could cause the Company to fail to be profitable or increase the amount of its net loss in the period in which the charge is taken or otherwise to fail to meet the expectations of investors and securities analysts, which could cause the price of the Company's stock to decline.

The Company faces increased compliance risks associated with compliance with Section 404 of the Sarbanes-Oxley Act of 2002. Like many smaller public companies, the Company faces a significant impact from required compliance with Section 404 of the Sarbanes-Oxley Act of 2002. Section 404 requires management of public companies to evaluate, and the independent auditors to attest to the effectiveness of internal control over financial reporting and the evaluation performed by management. The Securities and Exchange Commission has adopted rules implementing Section 404 for public companies as well as disclosure requirements. The Public Company Accounting Oversight Board, or PCAOB, has adopted documentation and attestation standards that the independent auditors must follow in conducting its attestation under Section 404.

Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and include those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect our transactions and the dispositions of our asset; (2) provide reasonable assurance that our transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with appropriate authorizations; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Table of Contents

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Any failure to effectively implement new or improved internal controls, or to resolve difficulties encountered in their implementation, could harm the Company's operating results, cause it to fail to meet reporting obligations, result in management being required to give a qualified assessment of the Company's internal controls over financial reporting or the Company's independent auditors providing an adverse opinion regarding their attestation of the effectiveness of the Company's internal controls over financial reporting. Any such result could cause investors to lose confidence in the Company's reported financial information, which could have a material adverse effect on the Company's stock price.

If remediation costs or hazardous substance contamination levels at certain properties for which the Company maintains financial responsibility exceed management's current expectations, the Company's financial condition and results of operations could be adversely impacted. In connection with its spin-off from Price Enterprises, Inc. (PEI) in 1997, the Company agreed to indemnify PEI for all of PEI's liabilities (including indemnification obligations for environmental liabilities) arising out of PEI's prior ownership of certain properties. The Company's ownership of real properties and its agreement to indemnify PEI could subject it to certain environmental liabilities. Certain of these properties are located in areas of current or former industrial activity, where environmental contamination may have occurred. For example, PEI sold an unimproved, 12.9-acre site located in Meadowlands, New Jersey in August 1995. A prior owner used this site as a debris disposal area. Elevated levels of heavy metals (including a small area contaminated with polychlorinated biphenyl) and petroleum hydrocarbons are present in soil at the Meadowlands site. To date, the Company has not been advised that PEI has been notified by any governmental authority, and is not otherwise aware, of any material noncompliance, liability or claim relating to hazardous or toxic substances or petroleum products in connection with the Meadowlands site. Nevertheless, PEI's previous ownership of the Meadowlands site creates the potential of liability for remediation costs associated with groundwater beneath the site. The Company also retains certain environmental indemnification obligations with respect to a parcel of land in Silver City, New Mexico, which PEI sold in March 1996 but agreed to retain responsibility for certain environmental matters. This site contains petroleum hydrocarbons in the soil and groundwater. There are no known receptors (groundwater users) down gradient of the Silver City site and the extent of soil and groundwater contamination is limited. The Company is continuing to monitor the soil and groundwater at this property under supervision of local authorities. If the Company were to incur costs for remediating contamination at the Meadowlands or Silver City sites (or any other site for which the Company maintains environmental responsibility) which exceed management's current expectations, the Company's financial condition and results of operations could be adversely impacted.

Available Information

The PriceSmart, Inc. website or internet address is www.pricesmart.com. On this website the Company makes available, free of charge, its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to those reports, as soon as reasonably practicable after electronically filing such material with or furnishing it to the Securities and Exchange Commission (SEC). The Company's SEC reports can be accessed through the investor relations section of its website under SEC Filings. All of the Company's filings with the SEC may also be obtained at the SEC's Public Reference Room at Room 1580, 100 F Street NE, Washington, DC 20549. For information regarding the operation of the SEC's Public Reference Room, please contact the SEC at 1-800-SEC-0330. Additionally, the SEC maintains an internet site that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC at www.sec.gov.

Item 1B. Unresolved Staff Comments

None.

Table of Contents**Item 2. Properties**

At August 31, 2007, PriceSmart operated twenty-three membership warehouse clubs and construction is underway for the opening of two additional warehouse clubs:

			Warehouse	
Number of warehouse clubs	Own land and building	Lease land and/or building	expected openings	Total
CENTRAL AMERICA				
Panama	3	1		4
Guatemala ⁽¹⁾		2	1	3

St. Thomas, U.S.V.I.	May 4, 2001	54,046	February 28, 2020	10 years

Edgar Filing: PRICESMART INC - Form 10-K

- ⁽¹⁾ Barrigada, Guam not included; warehouse club was closed December 24, 2003. Land and building currently subleased to third-parties, net costs are included in discontinued operations line item.
- ⁽²⁾ The Company acquired the land and building leased in Barbados on November 15, 2007 (fiscal year 2008).

Table of Contents

Corporate Headquarters. The Company maintains its headquarters at 9740 Scranton Road, San Diego, California 92121-1745. The Company leases approximately 35,000 square feet of office space at a rate of \$49,999 per month, with a 2% annual increase. The current term expires on March 31, 2011. The Company also leases two facilities in Miami, Florida. The first is an 85,000 square foot facility leased at a rate of \$42,650 per month that expires on December 31, 2009. The second is a 24,700 square foot facility leased at a rate of \$38,472 per month that expires on February 28, 2008. The Company is in the process of negotiating a new lease agreement. The Company believes that its existing facilities are adequate to meet its current needs and that suitable additional or alternative space will be available on commercially reasonable terms as needed.

Item 3. Legal Proceedings

From time to time, the Company and its subsidiaries are subject to legal proceedings, claims and litigation arising in the ordinary course of business, the outcome of which, in the opinion of management, would not have a material adverse effect on the Company. The Company evaluates such matters on a case by case basis, and vigorously contests any such legal proceedings or claims which the Company believes are without merit.

The SEC issued a formal order of private investigation on January 8, 2004 to investigate the circumstances surrounding a financial restatement associated with fiscal year 2002 and the first three quarters of fiscal year 2003. The SEC issued subpoenas to the Company for the production of documents and has taken testimony, pursuant to subpoena, from several of the Company's present and former employees, but to the Company's knowledge there has been no activity relating to this matter for approximately two years.

On March 22, 2007, the Company notified Tecnicard, Inc. ("Tecnicard") and Banco de la Producción, S.A. ("Banpro") that it was terminating and would not be renewing the agreement pursuant to which Tecnicard provided co-branded and/or dual purpose credit cards to the Company's members in several markets under a contract set to expire on April 30, 2007, nor a similar contract between Banpro and the Company's Nicaraguan subsidiary, which contract had already expired.

By letters dated April 5, 2007 and April 10, 2007, PSC, S.A., Banco de la Producción, S.A. and Tecnicard, S.A. (the "Promerica Entities") disputed the Company's right to terminate either the contracts or the credit card services relationships between the parties, notwithstanding expiration of the credit card services agreements by their terms, and threatened to take legal action if the Company proceeded with the terminations.

On April 30, 2007 the Company filed with the American Arbitration Association ("AAA") a Notice of Arbitration and Statement of Claim against the Promerica Entities. The Statement of Claim seeks a declaratory judgment that the Company has not breached any of three agreements entered into during the past seven years by the Company and one or more of the Promerica Entities and that the Company has the right to not renew the credit card relationship.

On or about May 16, 2007 the Promerica Entities commenced several proceedings against the Company. Those proceedings are: (i) a Demand for Mediation with the International Chamber of Commerce ("ICC"); (ii) a Demand for Mediation with the AAA; (iii) a Demand for Arbitration with the ICC; (iv) a Demand for Arbitration with Request for Interim Measures in the form of Preliminary Injunctions, filed with the AAA; and (v) an Emergency Motion for Temporary Injunction filed with the Florida state court in Miami-Dade County.

Edgar Filing: PRICESMART INC - Form 10-K

PSC, S.A., one of the Promerica Entities, beneficially owns approximately 3.0% of the Company's outstanding common stock. In June 2000 the Company acquired from PSC the 40% interest in the Company's PSMT Caribe, Inc. subsidiary previously held by PSC, for 679,500 shares of the Company's common stock. The Company already owned the remaining 60% of PSMT Caribe. The Company and PSC are currently shareholders of PriceSmart's Nicaragua subsidiary (PriceSmart owning 51% and PSC owning 49%), and the Promerica Entities and their affiliates, per various agreements with the Company, have provided credit card services to the Company's members in several markets and operate bank branches in many PriceSmart warehouse clubs. In

Table of Contents

connection with the Company's acquisition of the 40% minority interest in PSMT Caribe, the Company agreed to give PSC opportunities to have representation on the boards of directors of PSMT Caribe and the Company. PSC then selected Edgar A. Zurcher as its designee to serve on the Company's Board of Directors, and Mr. Zurcher continues to serve on the Company's Board of Directors. Mr. Zurcher is a director, President and 9.1% shareholder of PSC.

The various proceedings filed by the Promerica Entities asserted multiple causes of action for breach of contract with reference to the credit card services agreements and other agreements between the parties. The Promerica Entities also have asserted causes of actions alleging that the Company has misappropriated and inappropriately disclosed to a competing credit card company confidential or proprietary trade secrets owned by the Promerica Entities (particularly certain data related to credit card usage) and is unfairly competing with one or more of the Promerica Entities. The Promerica Entities additionally alleged that the Company breached its duty of good faith and fair dealing in 2000 by using purportedly overvalued shares of the Company's common stock as consideration for the acquisition of PSC's 40% interest in PSMT Caribe, Inc. The relief sought by the Promerica Entities included monetary damages as well as injunctive relief prohibiting PriceSmart from proceeding with certain commercial activities with the new credit card provider.

Also, by letters dated May 16, 2007 and November 9, 2007, counsel for PSC demanded that the PriceSmart Board of Directors appoint an independent committee to investigate various alleged breaches of fiduciary duty by officers and/or directors of the Company.

The following activities have occurred in relation to the various proceedings: (i) the Company's Board has appointed the independent committee to investigate the alleged breaches of fiduciary duty and that Committee has held several meetings; (ii) the Company has removed the state court litigation filed by the Promerica Entities to federal court; (iii) the federal court held a hearing on the Promerica Entities' Emergency Motion for Temporary Injunction on June 12-14 and August 1, 2007, and (iv) the federal court denied the Promerica Entities Emergency Motion for Temporary Injunction by Order dated September 18, 2007, stating that the Promerica Entities had failed to show a substantial likelihood of success on the merits on all but one of its claims for injunctive relief, and as for the remaining claim a damages award may be appropriate but injunctive relief is not. The Promerica Entities have filed a Notice of Appeal of the Order.

The parties have agreed to resolve in a single arbitration with the International Center for Dispute Resolution (a division of the AAA) all matters previously submitted to arbitration by either PriceSmart or the Promerica Entities. On October 23, 2007 the parties participated in a preliminary hearing with the arbitrator. At that time the arbitrator ordered that the parties submit final amended Statements of Claims by November 12, 2007 several other procedural and discovery matters were addressed, and the matter was set for evidentiary hearing on March 24, 2008.

On November 12, 2007 the Company and the Promerica Entities filed their amended claims. The Company's amended claim supplemented its April 30 Statement of Claim by requesting additional declaratory and injunctive relief related to actual and threatened activities by PSC, pertaining to PSC's assertion that it is entitled to have two directors appointed to the Board of Directors of the Company and to several of its subsidiaries. PriceSmart's amended claim additionally seeks an accounting on certain obligations of the Promerica Entities, alleges that the Promerica Entities have breached two agreements, and that the Company is entitled to monetary damages in excess of \$650,000 as well as attorneys fees and costs. The Promerica Entities supplemented their May 16, 2007 Demand with additional factual allegations and contentions relating to their previously alleged claims, and the assertion of two new claims. The new claims allege that the Company violated section 10(b) of the Exchange Act and Rule 10b-5 promulgated there under and fraud in the inducement. Both claims allege that PSC was misled in June 2000 when it conveyed to the Company its 679,000 shares of the Company's common stock in return for its 49% interest in PSMT Caribe, Inc., evidently because the Company restated its consolidated financial statements in December 2003 for fiscal year 2002 and the first three quarters of fiscal year 2003. The amended claim continues to seek injunctive relief as to various activities of the Company as related to the issues in dispute and unspecified compensatory damages, as well as treble damages and attorney's fees and costs.

Table of Contents

Although the Company has been exploring opportunities to achieve a global resolution as an alternative to proceeding with the litigation, the Company intends to continue to diligently proceed with its amended claim filed on November 12, 2007 and to vigorously defend all of the claims asserted by the Promerica Entities in the event the parties are unable to reach a satisfactory resolution. (See Note 10 Commitments and Contingencies).

Item 4. Submission of Matters to a Vote of Security Holders

The Company did not submit any matters to a vote of security holders during the fourth quarter of fiscal year 2007.

None.

Item 9A. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

As of August 31, 2007, under the supervision and with the participation of the Company's management, including the Company's principal executive officer and principal accounting officer, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as defined in Exchange Act Rules 13a-15(f) and 15d-15(f). These disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by the Company in its periodic reports with the SEC is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms, and that the information is accumulated and communicated to the Company's management, including the principal executive officer and principal accounting officer, as appropriate to allow timely decisions regarding required disclosure. The design of any disclosure controls and procedures also is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Table of Contents

Based upon their evaluation, the principal executive officer and principal accounting officer concluded that the Company's disclosure controls and procedures are effective at the reasonable assurance level.

(b) Management's report on internal control over financial reporting

Internal control over financial reporting refers to the process designed by, or under the supervision of, our chief executive officer and chief financial officer, and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles, and includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

Management is responsible for establishing and maintaining adequate internal control over our financial reporting, as such term is defined in Rule 13a-15(f) under the Exchange Act. Under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting. Management has used the framework set forth in the report entitled "Internal Control - Integrated Framework" published by the Committee of Sponsoring Organizations of the Treadway Commission to evaluate the effectiveness of our internal control over financial reporting. Based on its evaluation, management has concluded that our internal control over financial reporting was effective as of August 31, 2007, the end of our most recent fiscal year. Ernst & Young LLP, our independent registered public accounting firm, has issued an attestation report on the effectiveness of our internal control over financial reporting as of August 31, 2007, as stated in their report which is included herein.

(c) Changes in internal control over financial reporting.

There have been no changes in the Company's internal control over financial reporting, during the fourth quarter of the fiscal year ended August 31, 2007 that have materially affected or are reasonably likely to affect, the Company's internal control over financial reporting.

Item 9B. Other Information

Not applicable.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of PriceSmart, Inc.

We have audited PriceSmart, Inc.'s internal control over financial reporting as of August 31, 2007, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). PriceSmart, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, PriceSmart, Inc. maintained, in all material respects, effective internal control over financial reporting as of August 31, 2007, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the 2007 consolidated financial statements of PriceSmart, Inc. and our report dated November 23, 2007 expressed an unqualified opinion thereon.
