SCHEDULE 14A

(Rule 14a-101)

INFORMATION REQUIRED IN PROXY STATEMENT

SCHEDULE 14A INFORMATION

Required in Proxy Statement Pursuant to Section 14(a)

of the Securities Exchange Act of 1934

(Amendment No. 1)

Filed by the Registrant

Filed by a Party other than the Registrant

Check the appropriate box:

Preliminary Proxy Statement

Confidential, for Use of the Commission Only (as permitted by Rule 14a-6(e)(2))

Definitive Proxy Statement

Definitive Additional Materials

Soliciting Material Pursuant to § 240.14a-12

CONSTELLATION ENERGY GROUP, INC.

(Name of Registrant as Specified in Its Charter)

(Name of Person(s) Filing Proxy Statement, if other than Registrant)

Payment of Filing Fee (Check the appropriate box):

No fee required.

Fee computed on table below per Exchange Act Rules 14a-6(i)(1) and 0-11.

(1) Title of each class of securities to which transaction applies:

Common stock, without par value, of Constellation Energy Group, Inc.

(2) Aggregate number of securities to which transaction applies:

178,410,258 shares of Common Stock; 274,360 shares of Common Stock related to other rights to receive Constellation Energy Common Stock and 41,410,354 performance units

(3) Per unit price or other underlying value of transaction computed pursuant to Exchange Act Rule 0-11 (set forth the amount on which the filing fee is calculated and state how it was determined):

Calculated solely for the purpose of determining the filing fee. The transaction valuation is determined based upon the sum of (A) 178,410,258 shares of Common Stock multiplied by \$26.50 per share, (B) 274,360 shares of Common Stock related to other rights to receive Constellation Energy Common Stock multiplied by \$26.50 per share and (C) 41,410,354 performance units multiplied by \$2.00 per unit. In accordance with Section 14(g) of the Securities Exchange Act of 1934, as amended, the filing fee was determined by multiplying 0.00003930 by the sum calculated in the preceding sentence.

(4) Proposed maximum aggregate value of transaction: **\$4,817,963,085**

(5) Total fee paid: **\$189,346**

Fee paid previously with preliminary materials: \$189,346.

Check box if any part of the fee is offset as provided by Exchange Act Rule 0-11(a)(2) and identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing.

(1) Amount Previously Paid:

(2) Form, Schedule or Registration Statement No.:

PRELIMINARY PROXY STATEMENT, SUBJECT TO COMPLETION DATED OCTOBER 20, 2008

MAYO A. SHATTUCK III
Chairman of the Board

*Constellation Energy Group, Inc.
100 Constellation Way
Baltimore, Maryland 21202*

[], 2008

Dear Shareholder:

You are invited to attend a special meeting of Constellation Energy Group, Inc. shareholders to be held on [], 2008, starting at [], local time, at the [].

At the special meeting, you will be asked to consider and vote upon a proposal to approve a merger pursuant to which Constellation Energy will merge with MEHC Merger Sub Inc., a wholly-owned subsidiary of MidAmerican Energy Holdings Company, and become a wholly-owned subsidiary of MidAmerican Energy Holdings Company. We entered into a merger agreement with MidAmerican on September 19, 2008. If the merger is approved and becomes effective, you will be entitled to receive \$26.50 in cash, without interest and less any applicable withholding taxes, for each share of Constellation Energy common stock owned by you immediately prior to the effective time of the merger, as more fully described in the accompanying proxy statement.

Constellation Energy's board of directors has approved and declared advisable the merger agreement, the merger and the other transactions contemplated by the merger agreement, determined that the merger and the other transactions contemplated by the merger agreement are fair to and in the best interests of Constellation Energy and its shareholders and resolved to recommend that Constellation Energy's shareholders vote in favor of the approval of the merger.

Accordingly, our board of directors recommends that you vote *FOR* the approval of the merger.

Your vote is very important, regardless of the number of shares of common stock you own. We cannot complete the merger unless the merger is approved by the affirmative vote of holders of a majority of the outstanding shares of Constellation Energy common stock entitled to vote at the special meeting. Failing to vote will have the same effect as voting against the merger. Whether or not you plan to attend the special meeting, please complete, date, sign and return as promptly as possible the enclosed proxy card in the accompanying reply envelope or submit your proxy by telephone or the Internet. If you have Internet access, we encourage you to authorize your proxy via the Internet. If you attend the special meeting and vote in person, your vote by ballot will revoke any proxy previously submitted.

The accompanying proxy statement provides you with detailed information about the special meeting, the merger, the merger agreement and the other transactions contemplated by the merger agreement. Before voting, you should carefully review all the information contained in the accompanying proxy statement. **For a discussion of risk factors that you should consider in evaluating the merger, please see Risk Factors beginning on page 16 of the accompanying proxy statement.**

Thank you in advance for your continued support and your consideration of this matter.

Sincerely,

Mayo A. Shattuck III

Neither the Securities and Exchange Commission nor any state securities regulatory agency has approved or disapproved the merger, passed upon the merits or fairness of the merger or passed upon the adequacy or accuracy of the disclosure in this document. Any representation to the contrary is a criminal offense.

The accompanying proxy statement is dated [], 2008 and is first being mailed to shareholders on or about [], 2008.

Constellation Energy Group, Inc.

100 Constellation Way

Baltimore, Maryland 21202

NOTICE OF SPECIAL MEETING OF SHAREHOLDERS

To Be Held On [], 2008

To the Owners of Common Stock

of Constellation Energy Group, Inc.:

A special meeting of shareholders of Constellation Energy Group, Inc., a Maryland corporation, will be held on [], 2008, starting at [], local time, at the [], for the following purposes:

1. to consider and vote on a proposal to approve the merger of MEHC Merger Sub Inc., a wholly-owned subsidiary of MidAmerican Energy Holdings Company, with and into Constellation Energy Group, Inc. as contemplated by the Agreement and Plan of Merger, dated as of September 19, 2008, by and among Constellation Energy Group, Inc., MidAmerican Energy Holdings Company, and MEHC Merger Sub Inc.;
2. to consider and vote on any proposal to adjourn or postpone the special meeting to a later date or time, if necessary or appropriate, including to solicit additional proxies in favor of the proposal to approve the merger if there are insufficient votes at the time of such adjournment or postponement to approve the merger; and
3. to consider and vote on such other business as may properly come before the special meeting or any adjournments or postponements thereof.

Our board of directors has fixed the close of business on [] 2008 as the record date for the purpose of determining the shareholders who are entitled to receive notice of, and to vote at, the special meeting. All shareholders of record at the close of business on the record date are entitled to notice of and to attend and vote at the special meeting and any adjournment or postponement thereof. The vote of holders of our preferred stock is not required to approve the merger; accordingly, proxies are not being solicited from them.

Under Maryland law, Constellation Energy shareholders do not have the right to seek appraisal of the fair value of their shares in connection with the merger.

Our board of directors has approved and declared advisable the merger, the merger agreement and the other transactions contemplated by the merger agreement, determined that the merger and the other transactions contemplated by the merger agreement are fair to and in the best interests of Constellation Energy and its shareholders and resolved to recommend that Constellation Energy's shareholders vote in favor of the approval of the merger.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE APPROVAL OF THE MERGER AND FOR THE ADJOURNMENT OR POSTPONEMENT OF THE SPECIAL MEETING, IF NECESSARY OR APPROPRIATE, INCLUDING TO SOLICIT ADDITIONAL PROXIES.

Table of Contents

Your vote is important. The approval of the merger requires the affirmative vote of holders of at least a majority of the outstanding shares of Constellation Energy common stock entitled to vote at the special meeting assuming a quorum is present. Therefore, your failure to vote in person at the special meeting or to submit a signed proxy card will have the same effect as a vote by you **AGAINST** the approval of the merger. If you make no specification on your properly executed proxy card as to how you want your shares voted before signing and returning it, your proxy will be voted **FOR** the approval of the merger and **FOR** the adjournment or postponement of the special meeting, if necessary or appropriate, including to solicit additional proxies. Even if you plan to attend the special meeting in person, we request that you complete, sign, date and return the enclosed proxy or submit your proxy by telephone or the Internet prior to the special meeting to ensure that your shares will be represented at the special meeting if you are unable to attend. If you have Internet access, we encourage you to record your vote via the Internet. If you hold your shares through a bank, broker or other custodian, you must obtain a legal proxy from such custodian in order to vote in person at the special meeting. If you attend the special meeting, you may revoke your proxy and vote in person if you wish, even if you have previously returned your proxy card. Your prompt attention is greatly appreciated.

Please note that space limitations make it necessary to limit attendance at the special meeting to shareholders as of the record date (or their authorized representatives). If you attend, please note that you may be asked to present valid photo identification. If your shares are held by a bank or broker, please bring to the special meeting your statement evidencing your beneficial ownership of Constellation Energy common stock.

By Order of the Board of Directors,

Charles A. Berardesco

Vice President and Secretary

Baltimore, Maryland

[], 2008

Table of Contents

QUESTIONS AND ANSWERS ABOUT THE MERGER AND THE SPECIAL MEETING

The following questions and answers address briefly some questions you may have regarding the matters to be voted upon at the special meeting. These questions and answers may not address all questions that may be important to you as a Constellation Energy shareholder. Please refer to the more detailed information contained elsewhere in this proxy statement, the annexes to this proxy statement and the documents referred to or incorporated by reference in this proxy statement. In this proxy statement, the terms Constellation Energy, Company, we, us, and our, and any derivation thereof, refer to Constellation Energy Group, Inc. prior to the merger with MEHC Merger Sub Inc., a Maryland corporation (which we refer to as Merger Sub) and a wholly-owned subsidiary of MidAmerican Energy Holdings Company, an Iowa corporation (which we refer to as MidAmerican).

Why am I receiving this proxy statement?

Constellation Energy is soliciting proxies for the special meeting of shareholders. You are receiving a proxy statement because you owned shares of Constellation Energy common stock at the close of business on [], 2008, the record date, and that entitles you to vote at the special meeting. By use of a proxy, you can vote whether or not you attend the special meeting. This proxy statement describes the matters on which we would like you to vote and provides information on those matters so that you can make an informed decision.

What is the proposed transaction?

The proposed transaction is the acquisition of Constellation Energy by MidAmerican pursuant to an Agreement and Plan of Merger (which we refer to as the merger agreement) dated as of September 19, 2008 by and among Constellation Energy, MidAmerican and Merger Sub. Once the merger has been approved by Constellation Energy's shareholders and the other closing conditions under the merger agreement have been satisfied or waived, Merger Sub will merge with and into Constellation Energy (which we refer to as the merger). Constellation Energy will be the surviving corporation in the merger, which we sometimes refer to as the surviving corporation, and will become a wholly-owned subsidiary of MidAmerican.

What will I receive in the merger?

Upon completion of the merger, you will have the right to receive \$26.50 in cash, without interest and less any applicable withholding taxes, for each share of Constellation Energy common stock that you own immediately prior to the effective time of the merger. For example, if you own 100 shares of Constellation Energy common stock, you will have the right to receive \$2,650.00 in cash in exchange for your Constellation Energy common stock, less any applicable withholding taxes. You will not own any shares in the surviving corporation.

When do you expect the merger to be completed?

We intend to complete the merger as soon as reasonably practicable. We are working to complete the merger in the second quarter of 2009. We cannot consummate the merger until Constellation Energy shareholders approve the merger and the other conditions set forth in the merger agreement, including the receipt of certain regulatory approvals, are satisfied or waived. In addition, other factors outside of our control could require us to complete the merger at a later time or not to complete it at all. For a discussion of the conditions to the completion of the merger and of the risks associated with the failure to satisfy such conditions, please see The Merger Agreement Conditions to the Merger beginning on page 81 and Risk Factors beginning on page 16.

Are there risks I should consider in deciding how to vote on the proposals related to the merger?

Yes. In evaluating the proposals related to the merger, you should carefully read this proxy statement, including the risk factors discussed in the section Risk Factors beginning on page 16. **You are urged to read this proxy statement in its entirety prior to voting or submitting a proxy.**

Table of Contents

What do I need to do now?

After carefully reading and considering the information in this proxy statement, please submit your proxy by telephone or via the Internet in accordance with the instructions set forth in the enclosed proxy card, or fill out, sign and date the proxy card, and then mail your signed proxy card in the enclosed prepaid envelope so that your shares may be voted at the special meeting.

Should I send in my stock certificates now?

Shortly after the merger is completed, you will receive a letter of transmittal with instructions informing you how to send in your stock certificates representing shares of Constellation Energy common stock to the paying agent in order to receive the merger consideration. If your shares are held in street name by your brokerage firm, bank, trust or other nominee, you will receive instructions on how to effect the surrender of your street name shares in exchange for the merger consideration. At that time, you should use the letter of transmittal to exchange stock certificates for the merger consideration to which you are entitled as a result of the merger. **Do not send any stock certificates with your proxy.**

May I vote in person?

Yes. If you are a shareholder of record as of the close of business on [], 2008, you may attend the special meeting and vote your shares in person instead of returning your signed proxy card or submitting your proxy by telephone or via the Internet. However, because you can revoke a previously granted proxy by attending the special meeting and voting your shares in person, we urge you to return your proxy card or submit your proxy by telephone or via the Internet even if you are planning to attend the special meeting.

If my shares are held in street name by my broker, will my broker vote my shares for me even if I do not give my broker voting instructions?

If your shares are held in street name, your broker under certain circumstances may vote your shares for you if you do not return your proxy. Brokerage firms have the authority under the rules of the New York Stock Exchange, or NYSE, to vote their clients' unvoted shares on certain routine matters. If you do not give a proxy to your broker to vote your shares, your broker may either vote your shares on routine matters or leave your shares unvoted. When a broker does not receive instructions but returns an executed proxy card and leaves shares unvoted, that is often referred to as a broker non-vote. The proposal related to the approval of the merger is not a routine matter under the NYSE rules, and your broker does not have discretionary authority to vote on this proposal. Therefore, if your shares are held in street name by your broker and you do not provide your broker with instructions on how to vote your street name shares, your broker will not be permitted to vote on the approval of the merger. If you do not provide your broker with instructions, your shares of Constellation Energy common stock will not be voted on this proposal, which will have the same effect as a vote AGAINST the approval of the merger. You should therefore be sure to provide your broker with instructions on how to vote your shares. The proposal to adjourn or postpone the special meeting is considered a routine matter. Therefore, your broker may vote your shares for you on this proposal if you do not return your proxy. Please check the voting form used by your broker to see if it offers telephone or Internet submission of proxies.

What does it mean if I receive more than one set of materials?

This means you own shares of Constellation Energy common stock that are registered under different names or in different forms. For example, you may own some shares directly as a shareholder of record and other shares through a broker or you may own shares through more than one broker. In these situations and others, you will receive multiple sets of proxy materials. It is necessary for you to vote, sign and return all of the proxy cards, or follow the instructions for any alternative voting procedure on each of the proxy cards you receive, in order to vote all the shares you own. Each proxy card you receive will be accompanied by its own prepaid return envelope; if you submit your proxy by mail, make sure you return each proxy card in the return envelope which accompanied that proxy card.

Table of Contents

How do I vote my Constellation Energy 401(k) shares?

If you participate in either the Constellation Energy Group, Inc. Employee Savings Plan (which we refer to as the Constellation Energy Savings Plan) or the Represented Employee Savings Plan for Nine Mile Point you may give voting instructions to T. Rowe Price, as trustee of both plans, by completing and returning the proxy card accompanying this proxy statement. Your instructions will tell the trustee of the Constellation Energy Savings Plan or the Represented Employee Savings Plan for Nine Mile Point how to vote the number of shares of Constellation Energy common stock held in your account. If you do not give the trustee voting instructions, your shares will be voted in the same proportions as the trustee votes shares for which instructions were received. The trustee will vote your shares in accordance with your duly executed proxy card received by [], 2008.

You may also revoke previously given voting instructions by [], 2008, by filing with the trustee of the Constellation Energy Savings Plan or the Represented Employee Savings Plan for Nine Mile Point either a written notice of revocation or a properly completed and signed proxy card bearing a later date. Your voting instruction will be kept confidential by the trustee.

Can I revoke my proxy and change my vote?

Yes. You have the right to revoke your proxy at any time prior to the time your shares are voted at the special meeting. If you are a shareholder of record, your proxy can be revoked in several ways: by timely delivery of a written revocation to our corporate secretary, by submitting another valid proxy bearing a later date or by attending the special meeting and voting your shares in person. You may also revoke your proxy and submit a new proxy by telephone or via the Internet.

However, if your shares are held in the name of your bank, broker, custodian or other recordholder, you must check with your bank, broker, custodian or other recordholder to determine how to revoke your proxy.

What happens if I do not vote or abstain from voting?

The proposal to approve the merger will not be approved unless it receives the affirmative vote of holders of a majority of the outstanding shares of Constellation Energy common stock entitled to vote at the special meeting on the proposal, assuming a quorum is present. Abstentions and broker non-votes will have the same effect as votes against the merger proposal. If the merger becomes effective, whether or not you vote for the merger proposal, you will be entitled to receive the merger consideration for your shares of Constellation Energy common stock upon completion of the merger.

What is a quorum?

A quorum of the holders of the outstanding shares of Constellation Energy common stock must be present for the special meeting to be held. A quorum is present if the holders of a majority of the outstanding shares of Constellation Energy common stock entitled to vote at the special meeting are present at the meeting, either in person or represented by proxy. Abstentions are counted as present for the purpose of determining whether a quorum is present. Once a quorum is present, a quorum cannot be broken by the subsequent withdrawal of any shareholders.

Who will bear the cost of this solicitation?

The expense of preparing, printing and mailing this proxy statement and the proxies solicited hereby will be borne by Constellation Energy. Additional solicitation may be made by telephone, facsimile or other contact by certain directors, officers, employees or agents of Constellation Energy, none of whom will receive additional compensation therefor. Constellation Energy will reimburse brokers and other custodians, nominees and fiduciaries for their reasonable expenses for forwarding material to the beneficial owners of Constellation Energy shares held of record by others.

Table of Contents

Will a proxy solicitor be used?

Yes. Constellation Energy has engaged [] to assist in the solicitation of proxies for the special meeting. Constellation Energy estimates that it will pay them a fee of approximately \$[], and will reimburse them for reasonable administrative and out-of-pocket expenses incurred in connection with the solicitation.

When and where is the special meeting?

The special meeting will take place at [] located at [], on [], 2008, at [], local time.

Who can help answer my questions regarding the special meeting or the merger?

SUMMARY TERM SHEET

*The following summary term sheet highlights selected information in this proxy statement and may not contain all the information that may be important to you. Accordingly, we encourage you to read carefully this entire proxy statement, its annexes and the documents referred to or incorporated by reference in this proxy statement. Each item in this summary term sheet includes a page reference directing you to a more complete description of that topic. See *Where You Can Find More Information* beginning on page 89.*

The Parties to the Merger (Page 27)

Constellation Energy Group, Inc. Constellation Energy is an energy company, which includes a merchant energy business and Baltimore Gas and Electric Company (which we refer to as BGE) a regulated electric and gas public utility in central Maryland. Constellation Energy's merchant energy business is a competitive provider of energy solutions for a variety of customers. It has electric generation assets located in various regions of the United States and provides energy solutions to meet customers' needs. Constellation Energy's merchant energy business focuses on serving the full energy and capacity requirements (load-serving) of, and providing other energy products and risk management services for, various customers. Constellation Energy was incorporated in Maryland in 1995, and in 1999 Constellation Energy became the holding company for BGE and its subsidiaries. BGE was incorporated in Maryland in 1906. Constellation Energy's principal executive offices are located at 100 Constellation Way, Baltimore, Maryland 21202. The telephone number is (410) 470-2800.

MidAmerican Energy Holdings Company. MidAmerican is a holding company that owns subsidiaries that are principally engaged in energy businesses. MidAmerican is a consolidated subsidiary of Berkshire Hathaway Inc. (which we refer to as Berkshire). The balance of MidAmerican's common stock is owned by a private investor group comprised of Mr. Walter Scott, Jr. (along with family members and related entities), who is a member of MidAmerican's Board of Directors, Mr. David L. Sokol, its Chairman, and Mr. Gregory E. Abel, its President and Chief Executive Officer. As of September 30, 2008, Berkshire, Mr. Scott (along with family members and related entities), Mr. Sokol and Mr. Abel owned 88.2%, 11.0%, % and 0.8%, respectively, of MidAmerican's voting common stock and held diluted ownership interests of 87.4%, 10.9%, 0.7% and 1.0% respectively.

MidAmerican's operations are organized and managed as eight distinct platforms. Through these platforms, MidAmerican owns and operates an electric utility company in the Western U.S., a combined electric and natural gas utility company in the Midwestern U.S., two interstate natural gas pipeline companies in the U.S., two electricity distribution companies in Great Britain, a diversified portfolio of independent power projects and the second-largest residential real estate brokerage firm in the U.S. MidAmerican's principal executive offices are located at 666 Grand Avenue, Suite 500, Des Moines, Iowa 50309-2580, and its telephone number is (515) 242-4300.

MEHC Merger Sub Inc. Merger Sub is a Maryland corporation and a wholly-owned subsidiary of MidAmerican. Merger Sub was formed solely for the purpose of facilitating MidAmerican's acquisition of Constellation Energy. Merger Sub has not carried on any activities to date, except for activities incidental to its formation and activities undertaken in connection with the transactions contemplated by the merger agreement. MidAmerican intends to transfer the ownership of Merger Sub to Constellation Energy Holdings LLC (which we refer to as Constellation Holdings) immediately prior to consummation of the merger. Constellation Holdings is a wholly-owned subsidiary of MidAmerican and has not carried on any activities to date, except for activities incidental to formation and activities undertaken in connection with the transactions contemplated by the merger agreement. It was formed solely for the purpose of owning Constellation Energy and facilitating such acquisition, including through the interposition of ring-fencing protections for Constellation Energy. Upon consummation of the proposed merger, Merger Sub will merge with and into Constellation Energy and will cease to exist, with Constellation Energy continuing as the surviving corporation. Merger Sub's address is c/o MidAmerican Energy Holdings Company, 666 Grand Avenue, Suite 500, Des Moines, Iowa 50309-2580. The telephone number is (515) 242-4300.

Table of Contents

The Merger (Page 71)

The Agreement and Plan of Merger, dated as of September 19, 2008, by and among Constellation Energy, MidAmerican and Merger Sub, provides that Merger Sub will merge with and into Constellation Energy. As a result of the merger, Constellation Energy will become a wholly-owned subsidiary of MidAmerican. Constellation Energy will be the surviving corporation in the merger and, following the merger, will continue to do business as Constellation Energy Group, Inc. In addition, following completion of the merger, the registration of Constellation Energy common stock and its reporting obligations with respect to such common stock under the Securities Exchange Act of 1934, as amended, or the Exchange Act, will be terminated upon application to the Securities and Exchange Commission, or the SEC. Upon completion of the proposed merger, shares of Constellation Energy common stock will no longer be listed on any stock exchange or quotation system, including the NYSE. However, Constellation Energy will continue to have reporting obligations under NYSE rules and the Exchange Act because our Series A Junior Subordinated Debentures are currently listed and traded on the NYSE. A copy of the merger agreement is attached to this proxy statement as Annex A.

Merger Consideration (Page 71)

If the merger is completed, each outstanding share of Constellation Energy common stock will be converted into the right to receive \$26.50 in cash, without interest and less any applicable withholding taxes. We refer to this amount in this proxy statement as the merger consideration. As a shareholder, you will be entitled to receive the merger consideration for each share of Constellation Energy common stock owned by you immediately prior to the effective time of the merger. Following the merger, you will no longer own any shares of the surviving corporation. If the merger is not approved, Constellation Energy will remain an independent public company and our common stock and our Series A Junior Subordinated Debentures will continue to be listed and traded on the NYSE.

Completion of the Merger (Page 71)

We are working toward completing the merger as quickly as possible, and we currently anticipate that it will be completed in the second quarter of 2009. However, we cannot predict the exact timing of the completion of the merger and whether the merger will be completed. In order to complete the merger, we must obtain shareholder approval and the other closing conditions under the merger agreement, including receipt of certain regulatory approvals, must be satisfied or, to the extent legally permitted, waived.

Required Shareholder Approval (Page 24)

Proposal 1: The approval of the merger proposal requires the affirmative vote of holders of a majority of the outstanding shares of Constellation Energy common stock entitled to vote at the special meeting, assuming a quorum is present.

Proposal 2: Approval of any proposal to adjourn or postpone the special meeting, if necessary or appropriate in the view of our board of directors, including for the purpose of soliciting additional proxies in favor of the proposal to approve the merger, requires the affirmative vote of a majority of the votes cast by holders of shares of Constellation Energy common stock present in person or represented by proxy at the special meeting and entitled to vote on the matter, whether or not a quorum is present.

THE MERGER WILL NOT BE COMPLETED UNLESS, AMONG OTHER THINGS, THE CONSTELLATION ENERGY SHAREHOLDERS APPROVE THE MERGER. UNDER THE MERGER AGREEMENT, COMPLETION OF THE MERGER IS SUBJECT TO THE SATISFACTION (OR, IF LEGALLY PERMITTED, WAIVER) OF SPECIFIED CLOSING CONDITIONS. APPROVAL BY THE CONSTELLATION ENERGY SHAREHOLDERS OF THE MERGER PROPOSAL IS A CLOSING CONDITION WHICH MAY NOT BE WAIVED.

Recommendation of Constellation Energy's Board of Directors (Page 42)

Our board of directors approved and declared advisable the merger agreement, the merger and the other transactions contemplated by the merger agreement, determined that the merger and the other transactions

Table of Contents

contemplated by the merger agreement are fair to and in the best interests of Constellation Energy and its shareholders and recommended that Constellation Energy's shareholders vote in favor of the approval of the merger. The board of directors recommends that our shareholders vote **FOR** the approval of the merger and, if the board of directors determines to adjourn or postpone the special meeting, **FOR** the adjournment or postponement of the special meeting, including if necessary or appropriate, to solicit additional proxies.

Opinion of Constellation Energy's Financial Advisor (Page 45)

The board of directors received a written opinion, dated September 19, 2008, from its financial advisor, Morgan Stanley & Co. Incorporated (which we refer to as Morgan Stanley) to the effect that, as of the date of its opinion, the \$26.50 per share in cash consideration to be received by the holders of Constellation Energy common stock, pursuant to the merger agreement was fair to such holders from a financial point of view. The opinion of Morgan Stanley is subject to the assumptions, limitations and qualifications set forth in its opinion (some of which are non-customary due to the unique circumstances in which the merger was negotiated), which is attached as Annex B to this proxy statement and is incorporated herein by reference. We encourage you to read the opinion and the section "The Merger Opinion of Constellation Energy's Financial Advisor" beginning on page 45 carefully and in its entirety. The opinion of Morgan Stanley was addressed to Constellation Energy's board of directors in connection with their evaluation of the merger, does not address any other aspect of the merger and does not constitute a recommendation to any shareholder as to how you should vote on any matter at the special meeting. The opinion is included as Annex B to this proxy statement.

Risk Factors (Page 16)

There are a number of risks related to the merger including those described in "Risk Factors" beginning on page 16.

Conditions to the Merger (Page 81)

As more fully described in this proxy statement and in the merger agreement, the completion of the merger is subject to a number of conditions being satisfied or, where legally permissible, waived. The conditions to MidAmerican's obligations include, among others, the absence of the occurrence of a material adverse effect on Constellation Energy from the date of the merger agreement; all unsecured senior debt of Constellation Energy being rated investment grade or better with no less than a stable outlook by Moody's Investors Service, Inc., Standard & Poor's Ratings Group, Inc. and Fitch Ratings; if requested by MidAmerican, the receipt of payoff letters from the lenders under Constellation Energy's credit facilities or the receipt of a waiver from such lenders of any default under the credit facilities as a result of the merger; MidAmerican not having determined that either the retail and/or wholesale businesses or assets of Constellation Energy and its subsidiaries and joint ventures, taken as a whole, have materially deteriorated since June 30, 2008 (the parties agreeing in the merger agreement that an adverse change in the net economic value of such businesses or assets in excess of \$400 million since June 30, 2008 will be deemed material). The conditions of Constellation Energy's obligations and MidAmerican's obligations include approval of the merger by Constellation Energy's shareholders and the receipt of certain required regulatory approvals and other customary closing conditions.

We cannot be certain when, or if, the conditions to the merger will be satisfied or waived, or that the merger will be completed.

Regulatory Approvals (page 62)

The approval of, among others, the following U.S. federal, state and local regulatory authorities must be obtained before the merger can be completed:

the Federal Energy Regulatory Commission (which we refer to as the FERC);

the Nuclear Regulatory Commission (which we refer to as the NRC);

Table of Contents

the Federal Communications Commission (which we refer to as the FCC); and

the state regulatory agencies in several of the states in which Constellation Energy operates electric and/or gas businesses. In addition, under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and the rules and regulations promulgated thereunder (which we refer to as the HSR Act) the merger cannot be completed until notification and report forms have been filed with the U.S. Federal Trade Commission (which we refer to as the FTC) and the Antitrust Division of the U.S. Department of Justice (which we refer to as the Antitrust Division) and the applicable waiting period has expired or been terminated. On October 1, 2008, both Constellation Energy and Berkshire (as the ultimate parent of MidAmerican) filed their respective notification and report forms under the HSR Act with the FTC and the Antitrust Division. The applicable HSR Act waiting period expires on October 31, 2008, unless the waiting period is extended through a pull and refile procedure or through the issuance of a Request for Additional Information and Documentary Material, commonly known as a Second Request for Information. In addition, certain notifications and approvals under foreign competition and change in control laws, including those of the European Union, may be required.

As of the date of this proxy statement, Constellation Energy and MidAmerican are in the process of seeking such approvals as are necessary.

Termination of the Merger Agreement (Page 82)

The merger agreement may be terminated at any time prior to the effective time of the merger in any of the following ways:

by mutual written consent of Constellation Energy, MidAmerican and Merger Sub;

by either Constellation Energy or MidAmerican by written notice to the other party:

if any state or federal law or order is adopted or issued, which has the effect, as supported by the written opinion of outside counsel for such party, of prohibiting the merger, or if a court of competent jurisdiction in the United States has issued a final, non-appealable order permanently enjoining, restraining or otherwise prohibiting the merger;

if the effective time of the merger has not occurred on or before June 19, 2009 (or September 19, 2009 if all conditions other than those relating to regulatory approvals, debt ratings and/or required consents have been fulfilled as of June 19, 2009), unless the party seeking to terminate under this provision shall have proximately contributed to the failure of the effective time of the merger to occur on or before such applicable date; or

if Constellation Energy shareholders fail to approve the merger at the special meeting or any adjournment thereof.

by MidAmerican:

if there has been a breach of any representation or warranty of Constellation Energy, or any such representation or warranty shall have become untrue and incapable of being cured prior to the effective time of the merger, or any breach of any covenant or other agreement of Constellation Energy in the merger agreement, and such breach would result in the applicable closing condition to the merger not being satisfied and is not curable or, if curable, is not cured within 30 days after written notice is given by MidAmerican to Constellation Energy; or

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form PRER14A

if Constellation Energy's board of directors (i) withdraws or modifies, in a manner adverse to MidAmerican, its recommendation to shareholders regarding the merger, (ii) approves, recommends or enters into an agreement (other than a confidentiality agreement) in respect of a takeover proposal, in each case, by a party other than MidAmerican or an affiliate thereof, (iii) resolves to take any of these actions, or (iv) Constellation Energy, its subsidiaries, joint ventures or any of its officers or directors has breached in any material respect the non-solicitation covenant in the merger agreement.

Table of Contents

by Constellation Energy if there has been a breach of any representation or warranty of MidAmerican or Merger Sub, or any such representation or warranty shall have become untrue and incapable of being cured prior to the effective time of the merger, or any breach of any covenant or other agreement of MidAmerican or Merger Sub in the merger agreement, and such breach would result in the applicable closing condition to the merger not being satisfied and is not curable or, if curable, is not cured within 30 days after written notice is given by Constellation Energy to MidAmerican.

Termination Fee (Page 83)

Constellation Energy has agreed to pay MidAmerican a termination fee of \$175 million if the merger agreement is terminated for any reason other than by Constellation Energy because of MidAmerican's or Merger Sub's breach of any representation, warranty, covenant or other agreement made by MidAmerican or Merger Sub.

Restrictions on Solicitation of Alternative Transactions (Page 78)

The merger agreement restricts Constellation Energy, its subsidiaries and joint ventures, and their respective officers, directors, agents and representatives from, among other things, soliciting or engaging in or encouraging or facilitating any discussions or negotiations with any third parties regarding specified transactions involving Constellation Energy or its subsidiaries and Constellation Energy's board of directors' right to change or withdraw its recommendation in favor of the merger. Notwithstanding these restrictions, under limited circumstances specified in the merger agreement prior to obtaining shareholder approval, in order for directors to comply with their duties under applicable law, Constellation Energy's board of directors may respond to certain unsolicited superior competing proposals or modify or withdraw its recommendation in favor of the approval of the merger.

Financing of the Merger (Page 53)

At the time of signing the merger agreement, MidAmerican issued \$1 billion of 11% trust preferred securities of a newly formed statutory business trust to Berkshire. The proceeds of the issuance were subsequently contributed to a direct wholly-owned subsidiary of MidAmerican, MEHC Investment, Inc. In turn, MEHC Investment, Inc. then used such funds to purchase \$1 billion of Constellation Energy's Series A Convertible Preferred Stock (which we refer to as the Series A Preferred Stock).

MidAmerican will finance the approximately \$4.73 billion merger consideration through the issuance of approximately \$2.73 billion of its common stock to Berkshire, and \$2.0 billion in aggregate principal amount of subordinated debentures issued to a statutory business trust that will be newly formed and wholly-owned by MidAmerican.

The newly formed statutory business trust will simultaneously offer \$2.0 billion in aggregate principal amount of 11% trust preferred securities to Berkshire or certain of its subsidiaries, and will invest the proceeds it receives from the 11% trust preferred securities offering in the \$2.0 billion aggregate principal amount of subordinated debentures issued by MidAmerican. The \$2.0 billion in aggregate principal amount of 11% trust preferred securities will have maturities and dividend provisions identical to comparable provisions in the subordinated debentures issued by MidAmerican, and will be substantially identical as to other terms to the prior series issued by trusts wholly-owned by MidAmerican to various Berkshire subsidiaries.

The merger agreement is not subject to a financing condition.

Limitation of Remedies (Page 83)

Constellation Energy agreed in the merger agreement that its remedies would be limited to damage claims, with the maximum aggregate liability of MidAmerican for losses or damages in connection with the merger

Table of Contents

agreement being limited in amount to \$1.0 billion. Constellation Energy's recourse for such losses or damages is limited to the Series A Preferred Stock (or shares of Constellation Energy common stock and 14% Senior Notes (as defined below) issued upon conversion thereof), or the proceeds of the redemption or repayment of the Series A Preferred Stock or the aggregate principal amount of the 14% Senior Notes. In addition, if Constellation Energy attempts to challenge the validity of the \$1.0 billion damage cap, the merger agreement provides that such amount will be automatically reduced to \$1,000.

Interests of Constellation Energy's Directors and Executive Officers in the Merger (Page 53)

In considering the recommendation of the board of directors that you vote to approve the merger, you should be aware that our directors and executive officers may be considered to have interests in the merger that are different from, or in addition to, your interests as a shareholder. Constellation Energy's board of directors was aware of and took account of these interests, among other matters, in reaching its decision to declare the merger advisable and in determining that the merger is in the best interests of Constellation Energy and its shareholders, and in approving the merger agreement, the merger, and the other transactions contemplated by the merger agreement. Such interests include (i) severance payments and benefits payable to executive officers upon a qualifying termination of employment pursuant to agreements previously entered into between the executive officers and Constellation Energy, (ii) the accelerated vesting and cashing out of certain compensation and equity awards to executive officers and the accelerated vesting and/or payment of deferred compensation arrangements for certain directors and officers and (iii) rights to continued indemnification and insurance coverage after the merger for acts or omissions occurring prior to the merger.

Treatment of Options and Other Awards (Page 72)

Stock Options. Prior to the effective time of the merger, Constellation Energy will take all actions required so that, immediately prior to the effective time of the merger, all outstanding options to acquire Constellation Energy common stock, whether or not vested, will be cancelled and holders thereof will be entitled to the right to receive, following the effective time of the merger, a payment in cash from Constellation Energy equal to the number of shares of Constellation Energy common stock then issuable upon the exercise of such option multiplied by the amount, if any, by which \$26.50 exceeds the exercise price of such option, without interest and less any applicable withholding taxes. There are no outstanding options that have an exercise price less than \$26.50.

Constellation Energy Performance Units. As of the effective time of the merger, the holder of each Constellation Energy performance unit that becomes vested at the effective time of the merger pursuant to the terms of the plan pursuant to which they were issued will be entitled to receive, in full satisfaction of such holder's rights with respect to vested performance units, an amount in cash equal to \$2.00 per unit within 30 days after the effective time of the merger, without interest and less any applicable withholding taxes.

Other Awards. Prior to the effective time of the merger, Constellation Energy will take all actions required so that, as of the effective time of the merger, all awards of equity of Constellation Energy (including shares of restricted stock, restricted stock units and stock equivalents) outstanding immediately before the effective time of the merger (other than the Constellation Energy performance units and stock options) will be cancelled. The holder of any such award will be entitled to receive, in cancellation and settlement of such award, a payment in cash from Constellation Energy equal to the total number of shares of Constellation Energy common stock that would be issuable upon full vesting of such award or for which restrictions would lapse upon full vesting of such award multiplied by \$26.50, without interest and less any applicable withholding taxes. Upon completion of the merger, each holder of such award granted under the Constellation Energy Stock Plans, except those awards granted under the 2002 Senior Management Long-Term Incentive Plan and the Executive Long-Term Incentive Plan, will be paid on or promptly following the effective time of the merger a pro rata portion of such aggregate cancellation payment, with the pro rata portion determined based on the number of months in the vesting period that have elapsed as of the closing date of the merger as compared to the total number of months in the original

Table of Contents

vesting period. The remainder of the cancellation payment will be paid to the holder at the end of the original vesting period, subject to such holder's continued service through the applicable vesting date. Each holder of such award granted under the 2002 Senior Management Long-Term Incentive Plan and the Executive Long-Term Incentive Plan will be paid on or promptly following the effective time of the merger the full amount of such cancellation payment.

Litigation Related to the Merger (Page 68)

Beginning September 18, 2008, six shareholders of Constellation Energy have filed lawsuits in the Circuit Court for Baltimore City, Maryland challenging the proposed merger. Four of those lawsuits were brought as shareholder class actions and two were brought as shareholder derivative actions. The four shareholder class actions claim that Constellation Energy and members of its board of directors breached their fiduciary duties to shareholders in agreeing to the proposed merger. One of these four shareholder class actions also names MidAmerican as a defendant, alleging that it aided and abetted members of Constellation Energy's board of directors in breaching their fiduciary duties. The two shareholder derivative actions allege that members of Constellation Energy's board of directors breached their fiduciary duties to the Company in agreeing to the proposed merger and that MidAmerican aided and abetted members of the board of directors in breaching their fiduciary duties.

The shareholder class actions and shareholder derivative actions claim that the merger consideration is inadequate and does not maximize value for shareholders, that the sales process leading up to the merger was unreasonably short and procedurally flawed, and that unreasonable deal protection devices were agreed to that ward off competing bids and coerce shareholders into accepting the merger.

Although Constellation Energy is unable at this time to determine the ultimate outcome of these lawsuits, injunctive relief or an adverse determination in the shareholder class actions or the shareholder derivative actions could affect our ability to complete the proposed merger.

Material U.S. Federal Income Tax Consequences (Page 59)

The payment of cash upon the cancellation of shares of Constellation Energy common stock generally will be a taxable transaction for U.S. federal income tax purposes. Shareholders who receive cash upon the cancellation of their shares of Constellation Energy common stock will generally recognize gain or loss in an amount equal to the difference, if any, between the cash received in the merger and their adjusted tax basis in their shares of Constellation Energy common stock. You should consult your tax advisor for a complete analysis of the effect of the merger on your federal, state and local and/or foreign taxes.

Common Stock Ownership of Directors and Executive Officers (Page 87)

As of October 10, 2008, the directors and executive officers of Constellation Energy held and are entitled to vote, in the aggregate, 728,393 shares of Constellation Energy common stock at the special meeting, which represents less than 1% of our outstanding common stock. All of our directors and executive officers have informed us that they currently intend to vote all of their shares of common stock **FOR** the approval of the merger and, if the board of directors determines to adjourn or postpone the special meeting, **FOR** the adjournment or postponement proposal.

Common Stock Ownership of Significant Shareholders (Page 52)

Électricité de France International, S.A., which we refer to as EDFI, acquired Constellation Energy common stock through open market purchases in accordance with an investor agreement, dated July 20, 2007 (which we refer to as the investor agreement) between EDFI and Constellation Energy, entered into in connection with the joint venture arrangement between EDFI and Constellation Energy with respect to development of nuclear projects in the United States and Canada. Under the terms of the investor agreement, EDFI is permitted to

Table of Contents

acquire up to 9.9% of Constellation Energy common stock and has agreed to vote its shares in the manner recommended by Constellation Energy's board of directors. EDFI also agreed not to, singly or as part of a group, directly or indirectly, without Constellation Energy's consent, acquire any additional securities in excess of the 9.9% ownership interest permitted by the investor agreement, participate in a solicitation of proxies, join with any other parties to form a group with respect to Constellation Energy common stock (as determined pursuant to Section 13(d) of the Exchange Act), act alone or in concert with others to seek or offer to control or influence, in any manner, our management, board of directors or policies, or seek to make a proposal or public announcement with respect to a merger, consolidation or sale of all or substantially all of the assets or a majority of the outstanding shares of Constellation Energy common stock, or any form of restructuring, or any other proposal inconsistent with the terms of the investor agreement. Under the terms of the investor agreement, EDFI also agreed to restrictions on its ability to dispose of its shares of Constellation Energy common stock. According to the Schedule 13D filed by EDFI on September 8, 2008, as of that date EDFI owned approximately 9.51% of Constellation Energy common stock.

Preferred Stock Ownership of MidAmerican (Page 66)

On September 19, 2008, Constellation Energy entered into a stock purchase agreement pursuant to which it agreed to sell \$1.0 billion of its Series A Preferred Stock to MidAmerican. On September 22, 2008, MidAmerican assigned its rights and obligations under the stock purchase agreement to MEHC Investment, Inc., a wholly-owned subsidiary of MidAmerican. This sale was consummated on September 22, 2008. If the merger agreement is terminated (other than due to a breach by MidAmerican or Merger Sub), or upon the occurrence of other specified events, the Series A Preferred Stock will, subject to the receipt of all required regulatory approvals, automatically convert into (A) 35,506,757 shares of Constellation Energy common stock (representing approximately 19.9% of the number of shares of Constellation Energy common stock that were outstanding on September 22, 2008, or approximately 16.6% on an as-converted basis), subject to certain adjustments, and (B) \$1.0 billion in aggregate principal amount of senior unsecured promissory notes of Constellation Energy due December 31, 2009 (which we refer to as the 14% Senior Notes). The Series A Preferred Stock pays dividends at 8% per annum compounded quarterly and payable quarterly in arrears. In the event that Constellation Energy has not received all regulatory approvals required for the issuance of shares of common stock upon conversion of the Series A Preferred Stock, Constellation Energy will be required to make a cash payment to the holder in lieu of the issuance of the shares that are otherwise due to the holder in an amount equal to \$26.50 multiplied by the number of shares issuable to such holder and not so issued. In such event, Constellation Energy would also still be obligated to deliver the 14% Senior Notes upon such conversion.

Appraisal Rights (Page 65)

Under Maryland law, Constellation Energy shareholders do not have the right to seek appraisal of the fair value of their shares in connection with the merger.

Solicitation of Proxies (Page 26)

Constellation Energy will pay all expenses of this solicitation, including the cost of preparing and mailing this document. The proxies are being solicited by and on behalf of our board of directors. In addition to solicitation by use of the mails, proxies may be solicited by our directors, officers and employees in person or by telephone, telegram, electronic mail, facsimile transmission or other means of communication. Those persons will not be additionally compensated for solicitation activities, but may be reimbursed for out-of-pocket expenses in connection with any solicitation. We also may reimburse custodians, nominees and fiduciaries for their expenses in sending proxies and proxy material to beneficial owners. In addition, we have retained [] to assist in the solicitation of proxies for the special meeting for a fee of approximately \$[], plus reimbursement of reasonable out-of-pocket expenses.

Table of Contents

Market Price of Common Stock (Page 85)

Constellation Energy common stock is listed on the NYSE under the trading symbol CEG. The closing sale price of Constellation Energy common stock on the NYSE on September 12, 2008, the last trading day prior to our public announcement regarding the resulting effects of the bankruptcy of Lehman Brothers Holdings Inc. and its subsidiaries on Constellation Energy, was \$58.37. On September 15, 2008, the closing price of Constellation Energy's common stock was \$47.99, a decline of approximately 22% from the prior trading day's closing price, while the Dow Jones Industrial Average dropped almost 500 points, or 4.4%, that same day.

The closing sale price of Constellation Energy common stock on the NYSE on September 17, 2008, the last trading day prior to the first public announcement of a tentative agreement between MidAmerican and Constellation Energy for MidAmerican to make a preferred stock investment in Constellation Energy and for the proposed merger, was \$24.77. The closing sale price of Constellation Energy common stock on the NYSE on September 19, 2008, the trading day we executed the merger agreement with MidAmerican after the close of trading, was \$24.20. The \$26.50 per share to be paid for each share of Constellation Energy common stock in the merger represents a premium of approximately 9.5% to the closing price on September 19, 2008.

On [], 2008, the last trading day before this proxy statement, Constellation Energy's common stock closed at \$[] per share.

Additional Information (Page 89)

Table of Contents

RISK FACTORS

In addition to the other information included and incorporated by reference in this proxy statement, Constellation Energy's shareholders should consider the matters described below in determining whether to approve the merger.

The merger is subject to closing conditions, including shareholder approval, that, if not satisfied or waived, will result in the merger not becoming effective, which may result in material adverse consequences to Constellation Energy's business and operations, including a potential bankruptcy filing.

The merger is subject to closing conditions, including the approval of Constellation Energy's shareholders that, if not satisfied, will prevent the merger from becoming effective. The closing condition that Constellation Energy's shareholders approve the merger may not be waived under applicable law and must be satisfied for the merger to be completed. Immediately prior to executing the merger agreement with MidAmerican, Constellation Energy was facing severe liquidity concerns and the possibility of seeking bankruptcy protection. If Constellation Energy's shareholders do not approve the merger and the merger does not become effective, Constellation Energy may be unable to continue to operate its business on a stand-alone basis and could reasonably be expected to be required to seek bankruptcy protection, unless Constellation Energy is able to quickly obtain alternative sources of additional liquidity in amounts and in time to prevent any adverse action by rating agencies or other adverse reactions by trading counterparties and other business partners.

As of the date of this proxy statement, there are no competing takeover proposals for Constellation Energy and there is no assurance that, if one were to be made, Constellation Energy would be able to agree on the terms of or complete an alternative transaction on a timely basis.

If the merger agreement is terminated other than due to a breach by MidAmerican, holders of Constellation Energy common stock will be diluted significantly and Constellation Energy will incur substantial additional indebtedness.

If the merger agreement is terminated other than due to a breach by MidAmerican, in addition to the \$175 million termination fee that Constellation Energy will be required to pay to MidAmerican, the Series A Preferred Stock acquired by MEHC Investment Inc., a wholly-owned subsidiary of MidAmerican, pursuant to a purchase agreement executed contemporaneously with the merger agreement will, subject to the receipt of all required regulatory approvals, automatically convert into 35,506,757 shares of Constellation Energy common stock, subject to certain adjustments, and \$1.0 billion in aggregate principal amount of 14% Senior Notes. In addition, the Series A Preferred Stock will, subject to the receipt of all required regulatory approvals, automatically convert into shares of Constellation Energy common stock and 14% Senior Notes on June 19, 2009 (or September 19, 2009 if all conditions other than those relating to regulatory approvals, debt ratings and/or required consents have been fulfilled as of June 19, 2009), whether or not the merger agreement is terminated on such applicable date. The issuance of shares of Constellation Energy common stock upon conversion of the Series A Preferred Stock will cause a significant reduction in the relative percentage ownership of Constellation Energy common stock of current Constellation Energy shareholders.

Further, the 14% Senior Notes to be issued upon conversion of the Series A Preferred Stock will mature on December 31, 2009. This obligation will reduce the cash available to finance our operations and other business activities and could limit our flexibility in planning for or reacting to changes in our business. In addition, under the terms of an existing \$2.0 billion credit facility commitment with UBS Loan Finance LLC and RBS Securities Corporation, the credit facility commitment would automatically be reduced to \$1.0 billion upon conversion of the Series A Preferred Stock, ultimately reducing the amount of committed additional borrowings that would be available to Constellation Energy for its business operations. The conversion of the Series A Preferred Stock into additional indebtedness could also have a negative impact on our credit ratings.

If Constellation Energy terminates the merger agreement due to a breach by MidAmerican or Merger Sub, the Series A Preferred Stock will not convert into shares of Constellation Energy common stock or the 14%

Table of Contents

Senior Notes upon such termination, but Constellation Energy will be required on September 22, 2010 to redeem all, but not less than all, of the Series A Preferred Stock for an amount in cash equal to 100% of the stated value for each share of Series A Preferred Stock plus all accrued but unpaid dividends, subject to the right of the Series A Preferred Stock to receive a distribution, in preference to outstanding shares of Constellation Energy common stock, in an amount equal to the amount of the redemption payment, in the case of an intervening liquidation or change of control. Redemption of the Series A Preferred Stock will reduce the cash available to finance our operations and other business activities and could limit our flexibility in planning for or reacting to changes in our business and could also have a negative impact on our credit ratings.

If continued unprecedented instability in global financial and commodities markets materially and adversely affects the net economic value of Constellation Energy's retail and/or wholesale businesses and assets or results in its senior unsecured debt being rated below investment grade, MidAmerican may seek to terminate the merger agreement and abandon the merger.

Extraordinary conditions in global financial and commodities markets, which have included unprecedented limitations on the availability of credit, have presented many businesses, including Constellation Energy, with unparalleled operating and liquidity challenges. If such conditions persist or worsen, and if, as a result, Constellation Energy faces more stringent limits on its access to liquidity, further downgrades in its debt ratings (to a level below investment grade) or other unprecedented market conditions that adversely affect Constellation Energy's business or the net value of its assets, MidAmerican may seek to terminate the merger agreement and abandon the merger. The merger agreement provides that MidAmerican is not obligated to consummate the merger if the net economic value of Constellation Energy's retail and/or wholesale businesses or assets declines by more than \$400 million between June 30, 2008 and the closing of the merger, as determined in the sole discretion of MidAmerican. In addition, MidAmerican's obligation to close the merger is conditioned upon, among other things, Constellation Energy's senior unsecured debt having an investment grade rating with no less than a stable outlook at the time of closing. As of the date of this proxy statement, Constellation Energy's senior unsecured debt was rated [].

Either Constellation Energy or MidAmerican may terminate the merger agreement if the effective time of the merger has not occurred on or before June 19, 2009 (or September 19, 2009 if all conditions other than those relating to regulatory approvals, debt ratings and/or required consents have been fulfilled as of June 19, 2009), unless the party seeking to terminate under this provision shall have proximately contributed to the failure of the effective time of the merger to occur on or before such applicable date. In the event of such a termination, among other events, Constellation Energy will be required to pay MidAmerican a termination fee of \$175 million and the Series A Preferred Stock will, subject to receipt of all required regulatory approvals, automatically convert into 35,506,757 shares of Constellation Energy common stock, subject to certain adjustments, and \$1.0 billion aggregate principal amount of 14% Senior Notes. Termination of the merger agreement and abandonment of the merger in these circumstances could have a material, negative impact on Constellation Energy's business and financial condition and would result in substantial dilution to current Constellation Energy shareholders. See The Merger Agreement Conditions to the Merger beginning on page 81 and The Merger Agreement Termination beginning on page 82.

The merger is subject to receipt of consent or approval from governmental entities that could delay or prevent the completion of the merger, impose conditions that could cause abandonment of the merger or impose conditions that could have a material adverse effect on the future operations of Constellation Energy even if the merger is not completed.

Completion of the merger is conditioned upon the receipt of consents, orders, approvals or clearances from various federal, state and international regulatory agencies. As part of the regulatory approval process, governmental entities may impose terms and conditions that may not be acceptable to MidAmerican, which may provide MidAmerican the ability to terminate the merger agreement. In such an event, Constellation Energy will be required to pay to MidAmerican a termination fee of \$175 million in connection with termination of the merger agreement and the Series A Preferred Stock will, subject to receipt of all required regulatory approvals,

Table of Contents

automatically convert into 35,506,757 shares of Constellation Energy common stock, subject to certain adjustments, and \$1.0 billion aggregate principal amount of 14% Senior Notes.

In addition, governmental entities may impose terms and conditions that are unfavorable or add significant additional costs to the future operations of Constellation Energy even if the merger is not completed, which may have a material adverse effect on the future operations of Constellation Energy. As of the date of this proxy statement, because we have not yet received all required regulatory approvals, we do not know the terms or conditions of those approvals, whether we will receive them at all, or if one or more regulatory agencies will conduct hearings or proceedings or otherwise open an investigation. See *The Merger Summary of Series A Preferred Stock and 14% Senior Notes* beginning on page 66, *The Merger Regulatory Approvals* beginning on page 62 and *The Merger Agreement Conditions to the Merger* beginning on page 81 for a description of the regulatory approvals necessary in connection with the merger.

A substantial delay in obtaining required approvals or the imposition of unfavorable terms or conditions in connection with such approvals could have a material adverse effect on the business, financial condition or results of operations of Constellation Energy and could also have a negative impact on our credit ratings. In addition, delays or unfavorable terms could lead Constellation Energy to become involved in litigation with one or more governmental entities or private litigants or may cause MidAmerican to terminate the merger agreement and abandon the merger.

The fairness opinion obtained by Constellation Energy from its financial advisor does not reflect changes in circumstances between signing the merger agreement and the completion of the merger.

Constellation Energy has not obtained an updated fairness opinion as of the date of this proxy statement from Morgan Stanley, Constellation Energy's financial advisor. Changes in the operations and prospects of Constellation Energy, general market and economic conditions and other factors that may be beyond the control of Constellation Energy, and on which the fairness opinion was based, may alter the value of Constellation Energy by the time the merger is completed. Morgan Stanley's opinion does not speak as of the time the merger will be completed or as of any date other than the date of such opinion, which was September 19, 2008. Morgan Stanley's opinion does not address the fairness of the merger consideration, from a financial point of view, at the time the merger is completed because Constellation Energy did not ask its financial advisor to update its opinion and does not anticipate doing so. For a description of the opinion that Constellation Energy received from its financial advisor, see *The Merger Opinion of Constellation Energy's Financial Advisor* on page 45. The opinion is included as Annex B to this proxy statement. For a description of the other factors considered by Constellation Energy's board of directors in determining to approve the merger, see *The Merger Constellation Energy's Reasons for the Merger; Recommendation of the Constellation Energy Board of Directors* beginning on page 42.

The merger agreement contains provisions that could affect the decisions of a third party considering making an alternative acquisition proposal to the merger.

Under the terms of the merger agreement, except where Constellation Energy terminates the merger agreement due to a breach of the merger agreement by MidAmerican, Constellation Energy will be required to pay to MidAmerican a termination fee of \$175 million in connection with termination of the merger agreement. In addition, upon such termination of the merger agreement, the Series A Preferred Stock will, subject to receipt of all required regulatory approvals, automatically convert into 35,506,757 shares of Constellation Energy common stock, subject to certain adjustments, and \$1.0 billion aggregate principal amount of 14% Senior Notes. The merger agreement also limits the ability of Constellation Energy to initiate, solicit, encourage or facilitate acquisition or merger proposals from a third party. In addition, even if Constellation Energy receives an acquisition or merger proposal from a third party that Constellation Energy's board of directors concludes is superior to the merger with MidAmerican, Constellation Energy is not permitted to terminate the merger agreement for that reason unless and until Constellation Energy shareholders have voted on the merger and failed to approve it. The merger agreement also does not permit Constellation Energy to enter into an agreement to

Table of Contents

complete a transaction that it concludes is superior to the merger prior to termination of the merger agreement. These provisions could affect the decision by a third party to make a competing acquisition proposal, or the structure, pricing and terms proposed by a third party seeking to acquire or merge with Constellation Energy. See *The Merger Agreement Termination Fee* beginning on page 83, *The Merger Background of the Merger* beginning on page 29 and *The Merger Agreement Restrictions on Solicitation of Alternative Transactions* beginning on page 78.

The voting rights and conversion features of MidAmerican's \$1.0 billion Series A Preferred Stock investment in Constellation Energy, along with MidAmerican's right to designate one nominee to serve as a member of Constellation Energy's board of directors, may provide MidAmerican with influence over certain corporate matters and may impact the likelihood that a third party would seek to acquire, or succeed in acquiring, Constellation Energy (or its stock or assets).

Under the articles supplementary that designated certain preferences, conversion and other rights, and the terms and conditions of redemption of the Series A Preferred Stock (which we refer to as the articles supplementary) and the Investor Rights Agreement, dated as of September 19, 2008, by and between Constellation Energy and MidAmerican (which we refer to as the investor rights agreement) the number of members of Constellation Energy's board of directors was initially increased by one, and MidAmerican has the right to nominate one individual to the new directorship so long as MidAmerican and its affiliates beneficially own at least 33.3% of the shares of Series A Preferred Stock that were originally issued to MEHC Investment Inc. If MidAmerican does not exercise its right to nominate one individual to the new directorship, it may appoint a board observer who has the right to attend and participate in all meetings of, and receive all material distributed to, Constellation Energy's board of directors (subject to customary exceptions), but will not be entitled to vote at meetings of the board of directors or any committees thereof. As of the date of this proxy statement, MidAmerican has not exercised its right to nominate a director or appoint a board observer.

The Series A Preferred Stock generally does not have voting rights, but the consent of holders of such stock is required for specified matters in accordance with the terms of the articles supplementary. However, the holders of Series A Preferred Stock do not have the right to vote with respect to the merger. In addition, upon the occurrence of a conversion event of the Series A Preferred Stock, the Series A Preferred Stock will, subject to the receipt of all required regulatory approvals, convert into 35,506,757 shares of Constellation Energy common stock (representing approximately 19.9% of the outstanding shares of Constellation Energy common stock on September 22, 2008, or approximately 16.6% on an as-converted basis), subject to certain adjustments, and \$1.0 billion in aggregate principal amount of 14% Senior Notes.

Moreover, following such a conversion, MidAmerican would continue to have the director nomination and related rights described above so long as MidAmerican and its affiliates beneficially own at least 50% of the shares of Constellation Energy common stock received by MidAmerican and its affiliates upon conversion of the Series A Preferred Stock. Accordingly, if the merger agreement is terminated other than due to a breach by MidAmerican or Merger Sub, MidAmerican's common stock ownership and director nomination rights will enable it to exert significant influence over the outcome of a range of corporate matters, including significant corporate transactions requiring a shareholder vote, such as a merger or a sale of Constellation Energy or its assets. In that circumstance, this combination of significant common stock ownership and influence in board decision-making also could negatively affect the price of Constellation Energy common stock by, among other things, discouraging a potential acquirer from seeking to acquire shares of Constellation Energy common stock (whether by making a tender offer or otherwise) or otherwise attempting to obtain control of Constellation Energy. In addition, Constellation Energy and its subsidiaries will be subject to certain negative covenants relating to limitations on: amending or revising the organizational documents of Constellation Energy and its subsidiaries; liquidation; incurring indebtedness of Constellation Energy and its subsidiaries; and entering into affiliate transactions. See *The Merger Background of the Merger* beginning on page 29, *The Merger Restrictions on Solicitation of Alternative Transactions* beginning on page 78 and *The Merger Summary of Series A Preferred Stock and 14% Senior Notes* beginning on page 66.

Table of Contents

If the merger agreement is terminated and the 14% Senior Notes are issued by Constellation Energy upon conversion of the Series A Preferred Stock, the documents governing the 14% Senior Notes will contain restrictions on Constellation Energy's operation of its business.

The definitive documentation governing the terms of the 14% Senior Notes to be issued upon conversion of the Series A Preferred Stock contain various covenants that will limit Constellation Energy's ability to engage in specific types of transactions and in operating its business. Constellation Energy will be subject to certain affirmative covenants relating to the payment of its obligations; the conduct of its business and corporate existence; maintenance of its property and insurance; and the inspection of its books and records. In addition, Constellation Energy and its subsidiaries will be subject to certain negative covenants relating to limitations on: indebtedness of Constellation Energy and its subsidiaries; incurring certain liens; engaging in certain fundamental changes (including, among other things, entering into a merger other than with a subsidiary of Constellation Energy; the sale of its assets; certain types of restricted payments; investments, loans and advances; acquisitions; optional payments and modifications to debt instruments; transactions with affiliates; changes to Constellation Energy's fiscal year end; conduct of business; and the issuance of capital stock of any subsidiary). Accordingly, if the Series A Preferred Stock is converted, Constellation Energy will be subject to restrictions on the operation of its business, including the types of transactions in which it may engage. See *The Merger Background of the Merger* beginning on page 29, *The Merger Restrictions on Solicitation of Alternative Transactions* beginning on page 78 and *The Merger Summary of Series A Preferred Stock and 14% Senior Notes* beginning on page 66.

Constellation Energy and its directors and officers are named parties to a number of actions relating to the merger and certain of these actions seek a court decision delaying or prohibiting the completion of the merger.

A number of actions are pending in Maryland state and federal courts relating to the merger. These include securities class actions against Constellation Energy and its directors and officers, and class-action complaints on behalf of a putative Constellation Energy shareholder class against Constellation Energy and its directors and officers. The shareholder class actions and shareholder derivative actions allege that members of Constellation Energy's board of directors breached their fiduciary duties to the Company in agreeing to the proposed merger. The shareholder class actions and shareholder derivative actions collectively seek declaratory judgment establishing the unenforceability of the merger based on the alleged breaches of duty, injunctive relief to enjoin the merger, rescission of the merger or rescissory damages, the imposition of a constructive trust in favor of shareholders of any benefits received by the individual members of the board of directors of Constellation Energy, and reasonable costs and expenses, including attorney's fees. Depending upon the outcome, these actions could result in a court enjoining the merger, or could otherwise impede the closing of the merger and could have adverse financial effects to Constellation Energy. See *The Merger Litigation Related to the Merger* beginning on page 68.

Members of management and Constellation Energy's board of directors have interests in the merger that are different from, or in addition to, those of other shareholders and that could have influenced their decision to support or approve the merger.

In considering whether to vote to approve the merger, Constellation Energy shareholders should recognize that some members of management and Constellation Energy's board of directors have interests in the merger that differ from, or are in addition to, their interests as shareholders of Constellation Energy. The independent members of Constellation Energy's board of directors were aware of and considered these interests, among other matters, in evaluating and negotiating the merger agreement and the merger, and in recommending to shareholders that the merger be approved. See *The Merger Interests of Constellation Energy's Directors and Executive Officers in the Merger* beginning on page 53.

Table of Contents

Constellation Energy is subject to business uncertainties and contractual restrictions while the merger is pending, as well as additional non-operating demands on management, that could adversely affect Constellation Energy's businesses.

Uncertainty about the effect of the merger on employees and customers may have an adverse effect on Constellation Energy, regardless of whether the merger is eventually completed. These uncertainties may impair Constellation Energy's ability to attract, retain and motivate key personnel until the merger is completed, or the merger agreement is terminated, and for a period of time thereafter. These uncertainties also could cause customers, suppliers, counterparties and other business partners that deal with Constellation Energy to seek to terminate or change existing business relationships with Constellation Energy.

Employee retention and recruitment may be particularly challenging during the pendency of the merger because employees and prospective employees may be uncertain about their future roles with Constellation Energy if the merger is completed. The departure of existing key employees or the failure of potential key employees to continue employment with Constellation Energy, despite Constellation Energy's retention and recruiting efforts, could have a material adverse impact on Constellation Energy's business, financial condition and operating results, regardless of whether the merger is eventually completed.

The pursuit of the merger with MidAmerican places a significant burden on management and internal resources. The diversion of management attention away from day-to-day business concerns and any difficulties encountered in the transition and integration process could have a material adverse impact on Constellation Energy's business, financial condition and operating results, regardless of whether the merger is eventually completed.

In addition, the merger agreement restricts Constellation Energy, without MidAmerican's consent, from making certain acquisitions and taking other specified actions until the merger occurs or the merger agreement terminates. These restrictions and the time spent to obtain MidAmerican's consent may prevent Constellation Energy from pursuing in a timely manner otherwise attractive business opportunities and making other changes to its businesses prior to completion of the merger or termination of the merger agreement. See "The Merger Agreement" Conditions to the Merger beginning on page 81.

Constellation Energy has agreed to limit its remedies against MidAmerican for breach of the merger agreement.

Constellation Energy agreed in the merger agreement that the maximum aggregate liability of MidAmerican for losses or damages in connection with the merger agreement (including the failure to complete the merger once all of the conditions to the completion of the merger have been satisfied) would be limited in amount to \$1.0 billion. Constellation Energy's recourse for such losses or damages is limited to the Series A Preferred Stock (or shares of Constellation Energy common stock and 14% Senior Notes issued upon conversion thereof) or the proceeds of the redemption or repayment of the Series A Preferred Stock or the aggregate principal amount of the 14% Senior Notes. The merger agreement also provides that Constellation Energy will not be entitled to an injunction to prevent breaches of the merger agreement by MidAmerican or to enforce specifically the terms and provisions of the merger agreement against MidAmerican. Breach of the merger agreement by MidAmerican may result in a material adverse effect on Constellation Energy for which it is not able to recover damages, which itself could have material adverse effects on Constellation Energy. In addition, if Constellation Energy attempts to challenge the validity of the \$1.0 billion damage cap, the merger agreement provides that such amount will be automatically reduced to \$1,000.

FORWARD-LOOKING STATEMENTS

This proxy statement, and the documents to which we refer you in this proxy statement, include forward-looking statements based on estimates and assumptions. There are forward-looking statements throughout this proxy statement, including, without limitation, under the headings

Summary Term Sheet, Questions and Answers about the Special Meeting and the Merger, The Merger, Opinions of Constellation Energy's Financial Advisors, Regulatory Approvals, and Litigation Related to the Merger, and in statements containing words such as believes, estimates, anticipates, continues, contemplates, expects, intends, may, will, plans, could, should or would or other similar words or phrases. These statements disclose non-historical information that represents management's expectations, which are based on numerous assumptions. These statements, which are based on information currently available to us, are not guarantees of future performance and may involve risks and uncertainties that could cause our actual growth, results of operations, performance and business prospects, and opportunities to materially differ from those expressed in, or implied by, these statements. These forward-looking statements speak only as of the date on which the statements were made and we expressly disclaim any obligation to release publicly any updates or revisions to any forward-looking statement included in this proxy statement or elsewhere. In addition to other factors and matters contained or incorporated in this document, these statements are subject to risks, uncertainties, and other factors, including, among others:

the occurrence of any event, change or other circumstances that could give rise to the termination of the merger agreement;

the outcome of any legal proceedings that have been or may be instituted against Constellation Energy and others relating to the merger agreement including the terms of any settlements of such legal proceedings that may be subject to court approval;

the inability to complete the merger due to the failure to obtain shareholder approval or the failure to satisfy other conditions to consummation of the merger;

the failure of the merger to close for any other reason;

risks that the proposed transaction disrupts current plans and operations and the potential difficulties in employee retention as a result of the merger;

the effect of the announcement of the merger on our business relationships, operating results and business generally;

the amount of the costs, fees, expenses and charges related to the issuance of the Series A Preferred Stock and the merger;

the timing and extent of changes in commodity prices and volatilities for energy and energy related products including coal, natural gas, oil, electricity, nuclear fuel, freight, and emission allowances, and the impact of such changes on our liquidity requirements;

the liquidity and competitiveness of wholesale markets for energy commodities;

the effect of weather and general economic and business conditions on energy supply, demand, and prices;

the ability to attract and retain customers in our customer supply activities and to adequately forecast their energy usage;

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form PRER14A

the timing and extent of deregulation of, and competition in, the energy markets, and the rules and regulations adopted in those markets;

uncertainties associated with estimating natural gas reserves, developing properties, and extracting natural gas;

Table of Contents

regulatory or legislative developments federally, in Maryland, or in other states that affect deregulation, the price of energy, transmission or distribution rates and revenues, demand for energy, or increases in costs, including costs related to nuclear power plants, safety, or environmental compliance;

the ability of our regulated and nonregulated businesses to comply with complex and/or changing market rules and regulations;

the ability of BGE to recover all its costs associated with providing customers service;

the conditions of the capital markets, interest rates, foreign exchange rates, availability of credit facilities to support business requirements, liquidity, and general economic conditions, as well as Constellation Energy and BGE's ability to maintain their current credit ratings;

the effectiveness of Constellation Energy's and BGE's risk management policies and procedures and the ability and willingness of our counterparties to satisfy their financial and performance commitments;

operational factors affecting commercial operations of our generating facilities (including nuclear facilities) and BGE's transmission and distribution facilities, including catastrophic weather-related damages, unscheduled outages or repairs, unanticipated changes in fuel costs or availability, unavailability of coal or gas transportation or electric transmission services, workforce issues, terrorism, liabilities associated with catastrophic events, and other events beyond our control;

the actual outcome of uncertainties associated with assumptions and estimates using judgment when applying critical accounting policies and preparing financial statements, including factors that are estimated in determining the fair value of energy contracts, such as the ability to obtain market prices and, in the absence of verifiable market prices, the appropriateness of models and model inputs (including, but not limited to, estimated contractual load obligations, unit availability, forward commodity prices, interest rates, correlation and volatility factors);

changes in accounting principles or practices;

losses on the sale or write down of assets due to impairment events or changes in management intent with regard to either holding or selling certain assets;

the ability to successfully identify and complete acquisitions and sales of businesses and assets; and

cost and other effects of legal and administrative proceedings that may not be covered by insurance, including environmental liabilities.

These factors and other risk factors discussed in this proxy statement, including under the heading "Risk Factors" in this proxy statement, are not necessarily all of the important factors that could cause Constellation Energy's actual result to differ materially from those expressed in any of its forward-looking statements. Other unknown or unpredictable factors also could have material adverse effects on Constellation Energy's future results.

In addition, for a more detailed discussion of these risks and uncertainties and other factors regarding our business, please refer to those risks discussed and identified in our public filings with the SEC. See "Where You Can Find More Information" beginning on page 89. Many of the factors that will determine our future results are beyond our ability to control or predict. In light of the significant uncertainties inherent in the forward-looking statements contained herein, readers should not place undue reliance on forward-looking statements, which reflect

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form PRER14A

management's views only as of the date hereof. We cannot guarantee any future results, levels of activity, performance or achievements. The statements made in this proxy statement represent our views as of the date of this proxy statement, and it should not be assumed that the statements made herein remain accurate as of any future date. Moreover, we assume no obligation to update forward-looking statements or update the reasons that actual results could differ materially from those anticipated in forward-looking statements, except as required by law.

Table of Contents

THE SPECIAL MEETING

Date, Time and Place

This proxy statement is being furnished to our shareholders as part of the solicitation of proxies by our board of directors for use at the special meeting to be held on [], 2008, starting at [], local time, at [], or at any adjournment or postponement thereof.

Proposals

Proposal 1: To consider and vote on a proposal to approve the merger of MEHC Merger Sub Inc., a wholly-owned subsidiary of MidAmerican Energy Holdings Company, with and into Constellation Energy Group, Inc. as contemplated by the Agreement and Plan of Merger, dated as of September 19, 2008, by and among Constellation Energy Group, Inc., MidAmerican Energy Holdings Company, and MEHC Merger Sub Inc.; and

Proposal 2: To consider and vote on any proposal to adjourn or postpone the special meeting to a later date or time, if necessary or appropriate in the view of our board of directors, including to solicit additional proxies in favor of the proposal to approve the merger if there are insufficient votes at the time of such adjournment or postponement to approve the merger.

Shareholders Entitled to Vote

We have fixed the close of business on [] 2008, as the record date for the special meeting, and only holders of record of Constellation Energy common stock on the record date are entitled to receive notice of, and vote at, the special meeting. As of [], 2008, there were [] shares of Constellation Energy common stock outstanding and entitled to vote. Each share of Constellation Energy common stock entitles its holder to one vote on all matters properly coming before the special meeting.

Vote Required for Approval

The following votes are required to approve the proposals:

Proposal 1: The approval of the merger proposal requires the affirmative vote of holders of a majority of the outstanding shares of Constellation Energy common stock entitled to vote at the special meeting assuming a quorum is present.

Proposal 2: Approval of any proposal to adjourn or postpone the special meeting, if necessary or appropriate in the view of our board of directors, including for the purpose of soliciting additional proxies in favor of the proposal to approve the merger, requires the affirmative vote of a majority of the votes cast by holders of shares of Constellation Energy common stock present in person or represented by proxy at the special meeting and entitled to vote on the matter, whether or not a quorum is present.

OUR SHAREHOLDERS MUST APPROVE THE MERGER IN ORDER FOR THE MERGER TO OCCUR. IF OUR SHAREHOLDERS FAIL TO APPROVE THE MERGER, THE MERGER WILL NOT OCCUR. A COPY OF THE MERGER AGREEMENT IS ATTACHED TO THIS PROXY STATEMENT AS ANNEX A. YOU ARE URGED TO READ THE MERGER AGREEMENT IN ITS ENTIRETY.

Quorum

A quorum is the presence at the special meeting in person or by proxy of shareholders entitled to cast a majority of the votes at the special meeting. Shares of Constellation Energy common stock represented at the special meeting but not voted, including shares of Constellation Energy common stock for which proxies have been received but for which shareholders have abstained, will be treated as present at the special meeting for purposes of determining the presence or absence of a quorum for the transaction of all business. Once a quorum

Table of Contents

is present, a quorum cannot be broken by the subsequent withdrawal of any shareholders. In the event that a quorum is not present at the special meeting, the meeting may be adjourned or postponed to solicit additional proxies.

Abstentions and Broker Non-Votes

You may vote **FOR** or **AGAINST**, or you may **ABSTAIN** from voting on, the proposal to approve the merger. Abstentions will not be counted as votes cast or shares voting on the proposal to approve the merger, but will count for the purpose of determining whether a quorum is present.

Completion of the merger requires the approval of the merger by the affirmative vote of holders of a majority of the outstanding shares of Constellation Energy common stock entitled to vote at the special meeting, assuming a quorum is present. Therefore, if you abstain, it will have the same effect as a vote **AGAINST** the approval of the merger.

Under the rules of the NYSE, brokers who hold shares in street name for customers have the authority to vote on routine proposals when they have not received instructions from beneficial owners. However, brokers are precluded from exercising their voting discretion with respect to approving non-routine matters such as the approval of the merger and, as a result, absent specific instructions from the beneficial owner of such shares, brokers are not empowered to vote those shares. Executed proxy cards that are properly signed and returned by brokers who do not vote on a non-routine matter such as the merger are referred to generally as broker non-votes. Therefore, while broker non-votes will be counted for the purpose of determining a quorum, because completion of the merger requires the approval of the merger by the affirmative vote of holders of a majority of the outstanding shares of Constellation Energy common stock entitled to vote at the special meeting, any broker non-votes will have the same effect as a vote **AGAINST** the approval of the merger.

The proposal to adjourn or postpone the special meeting is considered a routine matter, therefore, your broker may vote your shares for you if you do not return your proxy.

Votes by Constellation Energy Directors and Executive Officers

As of October 10, 2008, our directors and executive officers held and are entitled to vote, in the aggregate, 728,393 shares of Constellation Energy common stock at the special meeting, which represented less than 1.0% of our outstanding common stock. All of our directors and executive officers have informed Constellation Energy that they currently intend to vote all of their shares of common stock **FOR** the approval of the merger and **FOR** the proposal to adjourn or postpone the special meeting if required to solicit additional proxies.

Proxies and Revocation

If you submit a proxy by telephone or the Internet or by returning a signed and dated proxy card by mail, your shares will be voted at the special meeting as you indicate. If you sign your proxy card without indicating your vote, your shares will be voted **FOR** the approval of the merger and **FOR** the adjournment or postponement of the special meeting, if necessary or appropriate, to solicit additional proxies, and in accordance with the recommendations of our board of directors on any other matters properly brought before the special meeting, or at any adjournment or postponement thereof, for a vote.

If your shares of Constellation Energy common stock are held in street name, you will receive instructions from your broker, bank or other nominee that you must follow in order to have your shares voted. If you do not instruct your broker, bank or nominee to vote your shares, it has the same effect as a vote against approval of the merger.

Proxies received at any time before the special meeting, and not revoked or superseded before being voted, will be voted at the special meeting. You have the right to change or revoke your proxy at any time before the vote taken at the special meeting:

if you hold your shares in your name as a shareholder of record, by notifying our corporate secretary in writing;

Table of Contents

by attending the special meeting and voting in person (your attendance at the meeting will not, by itself, revoke your proxy; you must vote in person at the meeting);

by submitting a later-dated, properly executed proxy card, but not later than 11:59 p.m., Eastern Standard Time, on [], 2008, or the date before the special meeting date, if the special meeting is adjourned or postponed;

if you authorized your proxy by telephone or the Internet, by authorizing you proxy again by telephone or Internet; or

if you have instructed a broker, bank or other nominee to vote your shares, by following the directions received from your broker, bank or other nominee to change those instructions.

Adjournments and Postponements

Although it is not currently expected, the special meeting may be adjourned or postponed by Constellation Energy for the purpose of soliciting additional proxies. Constellation Energy's bylaws provide that any adjournment may be made without notice if the time and place are announced at the special meeting unless the adjournment is to a date that is more than 120 days after the original record date, or a new record date is fixed for the adjourned meeting, in which circumstances a notice of the adjourned meeting will be given to each shareholder of record entitled to vote at the meeting. Any signed proxies received by Constellation Energy in which no voting instructions are provided on such matter will be voted FOR an adjournment or postponement of the special meeting, if necessary or appropriate, to solicit additional proxies. Any adjournment or postponement of the special meeting for the purpose of soliciting additional proxies will allow Constellation Energy's shareholders who have already sent in their proxies to revoke them at any time prior to their use at the special meeting as adjourned or postponed.

Solicitation of Proxies

This proxy solicitation is being made and paid for by Constellation Energy on behalf of its board of directors. In addition, we have retained [] to assist in the solicitation of proxies for the special meeting for a fee of approximately \$[], plus reimbursement of reasonable out-of-pocket expenses. Our directors, officers and employees may also solicit proxies by personal interview, mail, e-mail, telephone, facsimile or other means of communication. These persons will not be paid additional remuneration for their efforts. We will also request brokers and other fiduciaries to forward proxy solicitation material to the beneficial owners of shares of our common stock that the brokers and fiduciaries hold of record. Upon request, we will reimburse them for their reasonable out-of-pocket expenses.

The expenses of preparing, printing and mailing this proxy statement and the proxies solicited by this proxy statement will be borne by Constellation Energy.

Availability of Documents

Documents incorporated by reference (excluding exhibits to those documents unless the exhibit is specifically incorporated by reference into those documents) will be provided without charge, to each person to whom this proxy statement is delivered, upon written or oral request of such person and by first class mail.

Questions and Additional Information

If you have more questions about the merger or how to submit your proxy, or if you need additional copies of this proxy statement or the enclosed proxy card or voting instructions, please call our proxy solicitor, [].

Table of Contents

THE MERGER

This discussion of the merger is qualified in its entirety by reference to the merger agreement, which is attached to this proxy statement as Annex A and which is incorporated by reference into this proxy statement. You should read the entire merger agreement carefully as it is the legal document that governs the merger.

Parties to the Merger

Constellation Energy Group, Inc.

Constellation Energy is an energy company which includes a merchant energy business and BGE, a regulated electric and gas public utility in central Maryland. Constellation Energy was incorporated in Maryland on September 25, 1995. On April 30, 1999, Constellation Energy became the holding company for BGE and its subsidiaries. BGE was incorporated in Maryland in 1906.

Constellation Energy's merchant energy business is a competitive provider of energy solutions for a variety of customers. It has electric generation assets located in various regions of the United States and provides energy solutions to meet customers' needs. Constellation Energy's merchant energy business focuses on serving the full energy and capacity requirements (load-serving) of, and providing other energy products and risk management services for, various customers.

Constellation Energy's merchant energy business includes:

a power generation and development operation that owns, operates, and maintains fossil and renewable generating facilities, and holds interests in qualifying facilities, fuel processing facilities and power projects in the United States;

a nuclear generation operation that owns, operates and maintains nuclear generating facilities;

a customer supply operation that primarily provides energy products and services relating to load-serving obligations to wholesale and retail customers, including distribution utilities, cooperatives, aggregators, and commercial, industrial and governmental customers; and

a global commodities operation that manages contractually controlled physical assets, including generation facilities, natural gas properties and international coal and freight assets, provides risk management services and trades energy and energy-related commodities.

Constellation Energy's other nonregulated businesses:

design, construct and operate renewable energy, heating, cooling and cogeneration facilities and provide various energy-related services, including energy consulting, for commercial, industrial and governmental customers throughout North America;

provide home improvements, service heating, air conditioning, plumbing, electrical and indoor air quality systems, and provide natural gas to residential customers in central Maryland; and

develop and deploy new nuclear plants in North America.

Constellation Energy common stock is publicly traded on the NYSE under the symbol CEG. Constellation Energy's principal executive offices are located at 100 Constellation Way, Baltimore, Maryland 21202. The telephone number is (410) 470-2800. For more information about Constellation Energy, please visit our website at www.constellation.com. Our website address is provided as an inactive textual reference only.

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form PRER14A

The information provided on our website is not part of this proxy statement, and is not incorporated herein by reference. See also [Where You Can Find More Information](#) beginning on page 89.

Table of Contents

MidAmerican Energy Holdings Company

MidAmerican is a holding company that owns subsidiaries that are principally engaged in energy businesses. MidAmerican is a consolidated subsidiary of Berkshire. The balance of MidAmerican's common stock is owned by a private investor group comprised of Mr. Walter Scott, Jr. (along with family members and related entities), who is a member of MidAmerican's board of directors, Mr. David L. Sokol, its Chairman, and Mr. Gregory E. Abel, its President and Chief Executive Officer. As of September 30, 2008, Berkshire, Mr. Scott (along with family members and related entities), Mr. Sokol and Mr. Abel owned 88.2%, 11.0%, % and 0.8%, respectively, of MidAmerican's voting common stock and held diluted ownership interests of 87.4%, 10.9%, 0.7% and 1.0% respectively.

MidAmerican's operations are organized and managed as eight distinct platforms: PacifiCorp, MidAmerican Funding, LLC, which primarily includes MidAmerican Energy Company, Northern Natural Gas Company, Kern River Gas Transmission Company, CE Electric UK Funding Company, which primarily consists of Northern Electric Distribution Limited and Yorkshire Electricity Distribution plc, CalEnergy Generation-Foreign, which owns a majority interest in the Cascanan project in the Philippines, CalEnergy Generation-Domestic, which owns interests in independent power projects in the U.S., and HomeServices of America, Inc. Through these platforms, MidAmerican owns and operates an electric utility company in the Western U.S., a combined electric and natural gas utility company in the Midwestern U.S., two interstate natural gas pipeline companies in the U.S., two electricity distribution companies in Great Britain, a diversified portfolio of independent power projects and the second-largest residential real estate brokerage firm in the U.S.

MidAmerican's energy subsidiaries generate, transmit, store, distribute and supply energy. Approximately 91% of MidAmerican's operating income in 2007 was generated from rate-regulated businesses. As of September 30, 2008, MidAmerican's electric and natural gas utility subsidiaries served approximately 6.2 million electricity customers and end-users and approximately 0.7 million natural gas customers. MidAmerican's natural gas pipeline subsidiaries operate interstate natural gas transmission systems that transported approximately 8% of the total natural gas consumed in the U.S. in 2007. These pipeline subsidiaries have approximately 17,000 miles of pipeline in operation and a design capacity of 6.9 Bcf of natural gas per day. As of September 30, 2008, MidAmerican had interests in approximately 17,000 net owned MW of power generation facilities in operation and under construction, including approximately 16,000 net owned MW in facilities that are part of the regulated asset base of our electric utility businesses and approximately 1,000 net owned MW in non-utility power generation facilities. The majority of MidAmerican's non-utility power generation facilities sell substantially all of their energy and/or capacity under long-term contracts.

MidAmerican's principal executive offices are located at 666 Grand Avenue, Suite 500, Des Moines, Iowa 50309-2580, and its telephone number is (515) 242-4300.

MEHC Merger Sub Inc.

Merger Sub is a Maryland corporation and a wholly-owned subsidiary of MidAmerican. Merger Sub was formed solely for the purpose of facilitating MidAmerican's acquisition of Constellation Energy. Merger Sub has not carried on any activities to date, except for activities incidental to its formation and activities undertaken in connection with the transactions contemplated by the merger agreement. MidAmerican intends to transfer the ownership of Merger Sub to Constellation Holdings LLC immediately prior to consummation of the merger. Constellation Holdings is a wholly-owned subsidiary of MidAmerican and has not carried on any activities to date, except for activities incidental to formation and activities undertaken in connection with the transactions contemplated by the merger agreement. It was formed solely for the purpose of owning Constellation Energy and facilitating such acquisition, including through the interposition of ring-fencing protections for Constellation Energy. Upon consummation of the proposed merger, Merger Sub will merge with and into Constellation Energy and will cease to exist, with Constellation Energy continuing as the surviving corporation. Merger Sub's address is c/o MidAmerican Energy Holdings Company, 666 Grand Avenue, Suite 500, Des Moines, Iowa 50309-2580. The telephone number is (515) 242-4300.

Table of Contents

Background of the Merger

Throughout 2008, Constellation Energy, due to its significant merchant energy operations (and particularly its large global commodities trading business), has had to navigate the effects of rapidly changing commodity prices. As Constellation Energy reported in its Quarterly Report on Form 10-Q for the quarter ended June 30, 2008, in the first half of 2008 energy markets saw increases in prices for power of approximately 33%, for natural gas of approximately 44%, for coal of approximately 153%, and for crude oil of approximately 55%. This rapid change put financial pressure on many companies in the energy industry, including many companies with which Constellation Energy's merchant energy operations conducted business. This commodity price environment also had an impact on Constellation Energy, as highlighted in its second quarter 2008 Form 10-Q:

It experienced significant mark-to-market gains as a result of increased commodity prices.

Its total derivative assets increased \$4.9 billion, and its total derivative liabilities increased \$3.7 billion since December 31, 2007.

It experienced an increase in exposure to lower credit quality wholesale counterparties primarily due to the increase in coal prices. In response to this environment, Constellation Energy reported in its second quarter 2008 Form 10-Q that:

It executed several contract settlements and amended certain other contracts, primarily in the first quarter of 2008, to reduce exposure to supplier nonperformance risk and/or credit risk.

Higher commodity prices impacted the level of capital required to support Constellation Energy's business activities, and it issued an additional \$1.75 billion of letters of credit in the second quarter of 2008 to support the company's global commodities activities.

Constellation Energy and its subsidiaries issued \$1.1 billion of debt securities (including \$400 million issued by BGE) and secured an additional \$1.25 billion of available bank credit to expand available liquidity and support the capital needs of its business in the first six months of 2008.

While addressing the demands of this volatile commodity price environment, Constellation Energy was also mindful of the potential risks, stating in its second quarter 2008 Form 10-Q: As a result of the nature of our business, we are exposed to the impact of market fluctuations in the price and transportation costs of electricity, natural gas, coal, uranium and other commodities. [Constellation Energy] seek[s] to mitigate the effect of these fluctuations through various hedging strategies, which may require the posting of collateral by both [Constellation Energy] and [its] counterparties. Changes in the prices of commodities and initial margin requirements for exchange-traded contracts can affect the amount of collateral that must be posted, depending on the particular hedge position. As a result, significant changes in the prices of commodities and margin requirements for exchange-traded contracts could require [Constellation Energy] to post additional collateral from time to time, which could adversely affect [its] overall liquidity and ability to finance [its] operations, which, in turn, could adversely affect [its] credit ratings.

Constellation Energy's management, in consultation with its board of directors, also considered and actively explored a number of additional options and strategies in response to changing market conditions:

Throughout the first half of 2008, management, after consultation with the board, and with the assistance of outside financial and legal advisors, explored a range of potential operating and financing options for the global commodities business, including a potential sale of all or a portion of that business. Because of deteriorating conditions in the global capital markets and declining credit availability, a number of these options became either impractical or financially undesirable, and none were ultimately implemented.

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form PRER14A

In late August 2008, Constellation Energy announced that it had entered into a commitment for a \$2.0 billion credit facility with UBS Loan Finance LLC (which we refer to as UBS Finance) and RBS Securities Corporation (which we refer to as RBS). It was expected that this credit facility could be

Table of Contents

closed and funded by October 31, 2008. The facility would provide Constellation Energy with additional liquidity that could be necessary to fund estimated additional collateral posting requirements (calculated as of July 31, 2008) in the event of a multi-notch credit ratings downgrade. The actual amount of collateral that Constellation Energy would be required to post in the event of a multi-notch downgrade fluctuates based on market conditions and contractual obligations at the time of a downgrade. Management also announced an intention to sell the company's upstream gas business and to sell or recapitalize its international coal and freight intermediation business, all as part of a broad effort to reduce the capital demands and perceived volatility of a portion of the company's commodities business by reducing exposure to commodities counterparties, releasing a significant portion of posted collateral and monetizing certain derivative positions. Management took these actions after determining in early August that the amount of additional collateral Constellation Energy could be required to post in the event of a downgrade of its credit ratings was greater than previously estimated. On August 11, 2008, in its second quarter 2008 Form 10-Q, Constellation Energy reported the revised estimates of such potential additional collateral posting requirements.

In late August and into early September, Constellation Energy executives, at the direction of Mayo A. Shattuck, Chairman and Chief Executive Officer of Constellation Energy, held numerous meetings and discussions with one of the company's largest shareholders, Électricité de France International, S.A. (which we refer to as EDFI), together with outside legal and financial advisors, focusing on the possibility of EDFI making a direct equity investment in Constellation Energy. EDFI owned approximately 4.9% of the outstanding shares of Constellation Energy common stock and was a joint venture partner with Constellation Energy in UniStar Nuclear Energy, LLC (UNE), which was formed in July 2007 for the purpose of developing, owning, and operating new nuclear projects in the United States and Canada. In late August and early September 2008, after discussions with Constellation Energy, EDFI, through open market purchases (rather than through a direct investment as discussed previously), increased its ownership of Constellation Energy common stock to approximately 9.5%. Under the terms of an investor agreement between Constellation Energy and EDFI, EDFI is permitted to own no more than 9.9% of Constellation Energy common stock. As a result of these additional, publicly reported open market purchases, EDFI became a substantial security holder of Constellation Energy under NYSE rules, and Constellation Energy could not thereafter sell more than an additional 4.9% of its common stock to EDFI without the prior approval of Constellation Energy shareholders.

In August and into early September, management worked with outside legal and financial advisors to prepare documents for potential offerings of equity securities (including convertible preferred stock), if such offerings (as an alternative to the other options being explored) became necessary or advisable to provide the company with additional liquidity without adding indebtedness to its balance sheet.

Throughout August and early September, management also remained in active dialogue with the major credit rating agencies. While a ratings downgrade could lead to a need for additional capital, it could simultaneously make it more expensive or difficult (or both) for Constellation Energy to obtain additional liquidity to fund additional capital requirements. On August 13, 2008, following the release of Constellation Energy's second quarter 2008 Form 10-Q, S&P downgraded the credit ratings of Constellation Energy from BBB+ with a negative outlook to BBB with a stable outlook. Subsequently, Fitch Ratings downgraded the credit rating to BBB on August 19. Moody's did not change its credit ratings for Constellation Energy, but on August 20, 2008, it announced that the company's ratings were under review for possible downgrade. On Wednesday, September 10, 2008, John Collins, Executive Vice President and Chief Financial Officer, and Jonathan Thayer, Vice President, Managing Director of Corporate Strategy and Development and Acting Treasurer, along with other management, met with representatives of Moody's to discuss Constellation Energy's activities to increase available liquidity and its strategic plans with respect to the global commodities business. Messrs. Collins and Thayer received an indication from Moody's that it did not expect to take any action on Constellation Energy's credit ratings until early October.

Table of Contents

On Friday, September 12, 2008, Constellation Energy's board of directors held a telephonic meeting to review the status of all of these activities. Management reported on the status of work to complete the recently announced supplemental \$2.0 billion credit facility, continuing efforts to negotiate an additional equity investment from EDFI, the possibility of offering equity securities in the market generally, and the status of the other announced strategic initiatives designed to reduce the collateral requirements and volatility of the company's global commodities business. The directors and management also discussed the potential impact on Constellation Energy of the continued deterioration of global financial and capital markets and the continued constriction of credit availability. Management also updated the board on its ongoing discussions with the credit rating agencies. In light of the adverse capital and credit market changes, and dependant in part on the company's progress with respect to its various strategic initiatives and the reactions of the ratings agencies, management advised the board of its view that the company might need to raise between \$500 and \$750 million of new equity to protect the company's investment-grade credit rating. In light of the status of the various initiatives and the expectation that Moody's would not take any further action for approximately three weeks, Constellation Energy's board of directors tentatively agreed to meet again on September 19, 2008.

On Monday, September 15, 2008, Lehman Brothers Holdings Inc. (which we refer to as Lehman) announced that it had filed a voluntary bankruptcy petition in the U.S. Bankruptcy Court for the Southern District of New York. On the same day, Merrill Lynch announced that it had agreed to be acquired by Bank of America, ending speculation about whether Merrill Lynch would be able to survive as a stand-alone investment bank or might be required to file for bankruptcy protection. At the same time, there were serious concerns in the marketplace about whether insurance giant American International Group would remain solvent.

This began a week of unprecedented change and chaos on Wall Street that reflected widespread fears about the viability of financial institutions, including both commercial banks and investment banks, and serious concerns about the stability of any business that required access to credit markets to support liquidity needs or that required substantial access to the capital markets to function. By the end of the week, the only two remaining large, independent U.S. investment banks, Morgan Stanley and Goldman Sachs, had agreed to become bank holding companies and be subject to greater regulation in exchange for access to broader capital through the Federal Reserve System; the U.S. government had agreed to an \$85 billion loan to American International Group; and the federal government was working to implement an unprecedented \$700 billion rescue package in an attempt to restore order to the U.S. financial and banking system and unlock frozen credit markets.

The Dow Jones Industrial Average dropped almost 500 points, or 4.4%, on September 15, 2008. The trading price of Constellation Energy's common stock dropped nearly 18%, to a new 52-week low of \$47.99, on trading volume of more than 8 million shares, or over twice the average trading volume of the company's common stock over the 30 prior days. As financial firms and businesses that required substantial credit support sought to provide reassurance about their continued ability to function, Constellation Energy faced rapidly growing doubts among investors and business partners about its ability to navigate through the market crisis. During the day, rumors circulated about the possibility of UBS Finance and RBS withdrawing their \$2.0 billion credit facility commitment and the effects of a Lehman bankruptcy on Constellation Energy's business. In response to these concerns, late in the afternoon on September 15, 2008, Constellation Energy filed a Current Report on Form 8-K to address market rumors about its exposure to Lehman. In this filing, Constellation Energy stated that it did not believe the Lehman bankruptcy and the possible resulting effects on subsidiaries of Lehman would have a material adverse effect on Constellation Energy or its subsidiaries.

The disclosure in the Form 8-K filed on September 15, 2008 did not eliminate market volatility associated with Constellation Energy's situation and prospects. Beginning at approximately 1:00 p.m. on Tuesday, September 16, 2008, the trading price of Constellation Energy common stock declined precipitously to an intra-day low of \$13.00, before closing down by 36%, at \$30.76, on trading volume of more than 41 million shares. When the share price hit \$13.00, the NYSE temporarily halted trading of the company's common stock. According to several analyst reports, the significant price decline was driven by unsubstantiated market speculation about Constellation Energy's potential credit exposure to Lehman Brothers and continued

Table of Contents

rumors that RBS and UBS Finance were withdrawing from their commitment for the \$2.0 billion credit facility. A JPMorgan analyst report entitled *No reason to step in front of the bus*, advised investors to remain on the sidelines amid concerns about liquidity, capital and trading counterparties. As a result of market rumors, certain counterparties ceased trading with Constellation Energy, and others requested adequate assurance of performance, which could result in Constellation Energy being required to provide additional collateral in amounts that Constellation Energy would have been unable to provide. On the same day, Reuters reported that the price of Constellation Energy's credit default swaps, which are available to insure against a default on the debt of Constellation Energy, had increased 60% to 478 basis points, from 304 basis points on September 15, 2008. The price of credit default swaps on Constellation Energy debt had fluctuated between 140 and 200 basis points as recently as the end of August 2008.

On the morning of September 16, 2008, Mr. Shattuck called representatives of Morgan Stanley and asked that they come immediately to Constellation Energy's Baltimore headquarters to advise on the company's options to address the situation. Constellation Energy also retained UBS Securities LLC (which we refer to as UBS Securities), which had been advising the company on potential capital market transactions, to also act as an additional financial advisor. Given the fast and substantial negative turn in market conditions, the management team was concerned that a further erosion of confidence in Constellation Energy's ability to support its business, whether fueled by market speculation, the effect of a ratings downgrade or fallout from the broader financial and credit market conditions, could lead to demand for additional collateral that would require more liquidity than Constellation Energy had or could access in a short time, particularly in these volatile markets. Accordingly, management also instructed its outside legal advisors to begin preparing for a possible bankruptcy filing, as a contingency.

Throughout the day on September 16, 2008, Constellation Energy executives held discussions with representatives of EDFI about EDFI's potential interest in making an additional equity investment in Constellation Energy. Constellation Energy proposed to EDFI that it invest between \$450 million and \$500 million. No agreement was reached.

At approximately 2:15 p.m. on September 16, 2008, Mr. Shattuck received an unsolicited call from David Sokol, the chairman of MidAmerican. Neither Mr. Shattuck nor any other executives of Constellation Energy had spoken previously with Mr. Sokol or any other executives of MidAmerican, although Constellation Energy senior management was aware that MidAmerican had access to capital through its parent company, Berkshire. Mr. Sokol indicated that his company was interested in a possible transaction with Constellation Energy and that he was prepared to fly to Baltimore that day to meet with Mr. Shattuck. In light of the extreme market conditions and market rumors that Constellation Energy was facing an immediate liquidity crisis and a potential ratings downgrade, Mr. Shattuck requested that Mr. Sokol arrive in Baltimore by 6:00 p.m.

Following the call from Mr. Sokol, Mr. Shattuck returned the unsolicited call of the chief executive officer of another company in the energy industry who indicated that his company might be interested in making an investment in Constellation Energy, if that was of interest to Constellation Energy. Morgan Stanley also received an unsolicited call from a private equity firm that said it might be interested in a transaction with Constellation Energy.

Management called for an emergency telephonic board meeting at 5:00 p.m. on September 16, 2008. Representatives of Cleary Gottlieb Steen & Hamilton LLP (which we refer to as Cleary), who were advising the company on a potential investment by EDFI, attended the meeting. At the meeting, management reviewed the day's events and discussed the potential for downgrades in the company's credit ratings and the anticipated impact of such downgrades on the company's business. Management advised the board that, in light of events over the last two days, and ongoing discussions with counterparties and ratings agencies, management believed the company needed to move immediately to arrange for a substantial additional equity investment in the company. Management noted that the \$2.0 billion credit facility commitment from UBS Finance and RBS was

Table of Contents

not an immediate source of additional liquidity, as it was not expected to close until sometime in late October. Management advised the board that, in its view, without significant new equity immediately and assurances that UBS Finance and RBS would continue to honor their \$2.0 billion credit facility commitment, the ratings agencies were highly likely to issue an immediate further downgrade to the company's debt ratings, which would trigger additional collateral posting requirements that if not satisfied would put additional financial pressure on the company, resulting in counterparties and suppliers requesting additional financial assurances or ceasing doing business with the company. This, in turn, would likely render the company insolvent and force it to seek bankruptcy protection.

At this meeting, Mr. Shattuck also advised the board of the call from MidAmerican, other calls and discussions with potential investment sources and the retention of Morgan Stanley and UBS Securities. In response to the situation, the Board authorized Mr. Shattuck to raise up to \$1.5 billion in additional equity on the best available terms to enhance Constellation Energy's liquidity. The board also directed management to explore options with all interested third parties and to report back the next morning. The board agreed to meet again at 8:00 a.m. the next morning.

That evening, Mr. Shattuck and a representative of Morgan Stanley, along with Thomas Brooks, Executive Vice President of Constellation Energy and President of Constellation Energy Resources, held two meetings with Mr. Sokol and Greg Abel, the president and chief executive officer of MidAmerican. At the first meeting, Mr. Shattuck outlined Constellation Energy's liquidity needs and concerns about a ratings downgrade. He suggested the company could need an immediate equity investment of as much as \$1.0 billion. Mr. Sokol indicated that MidAmerican was already preparing a letter of intent outlining MidAmerican's proposal. He stated unequivocally that MidAmerican would not be willing to provide immediate equity financing unless it was part of a broader transaction for MidAmerican to acquire Constellation Energy. Mr. Shattuck stated that Constellation Energy was not looking to be acquired, but he indicated that he would review whatever proposal Mr. Sokol was willing to make.

At the second meeting, Mr. Sokol presented Mr. Shattuck with a proposal that included the following principal terms:

An immediate \$1.0 billion investment in Series A Convertible Preferred Stock that would accrue dividends at a rate of 8% per annum compounding quarterly, subject to certain adjustments, and payable quarterly in cash;

Conversion of the preferred stock into 19.9% of Constellation Energy's outstanding common stock, as measured on the announcement date (or 16.6% on an as-if converted basis), and a 14.0% senior secured note in aggregate principal amount of \$1.0 billion upon the earliest of (i) six months following exercise of a limited 14-day due diligence termination right (assuming Constellation Energy did not exercise its right to redeem the preferred stock at its stated value during such six-month period), (ii) termination of the merger agreement (other than due to a breach by MidAmerican or exercise of its limited 14-day due diligence termination right) and (iii) nine months following execution of the merger agreement;

The right to nominate one person to the board of directors of Constellation Energy;

Constellation Energy would be required to pay a \$25 million fee to MidAmerican upon execution of a letter of intent containing the terms of the proposal to compensate MidAmerican for all fees and expenses of its legal and financial advisors that would be incurred in connection with the drafting, negotiation and execution of such letter of intent and definitive agreements;

Constellation Energy would be required to enter into a merger agreement, contemporaneously with the execution of the purchase agreement to acquire the preferred stock, for MidAmerican to acquire Constellation Energy at a price of \$26.50 per share of Constellation Energy common stock;

Following signing of the merger agreement, MidAmerican would have a limited 14-day due diligence period to terminate the merger agreement if MidAmerican determined that since June 30, 2008 through

Table of Contents

the date of termination that the retail and/or wholesale businesses or assets of Constellation Energy taken as a whole had materially deteriorated, with an adverse change in excess of \$100 million from June 30, 2008 being deemed material;

The merger agreement would not be subject to a financing condition but closing conditions would include the absence of a ratings downgrade and Constellation Energy not having incurred net aggregate decreases in value in its trading portfolio of more than \$200 million between June 30, 2008 and the closing date; and

A customary exclusivity period lasting through 5:00 p.m. on Friday, September 19, 2008, during which Constellation Energy would not have discussions with any party other than MidAmerican and would seek to negotiate and sign definitive agreements. MidAmerican stated its offer would expire at 5:00 p.m. on September 17, 2008. Mr. Shattuck expressed dissatisfaction with the proposed merger consideration of \$26.50 per share and repeated Constellation Energy's interest in a financing transaction that did not involve a second step merger. Mr. Shattuck and a representative of Morgan Stanley also raised a number of issues related to the proposal in addition to price. Mr. Sokol said MidAmerican would consider these issues and concluded the meeting by stating that he intended to leave Baltimore the next morning but understood Constellation Energy needed time to review its alternatives and would be holding a meeting of its board of directors in the morning. Mr. Sokol agreed to stay through the completion of the board meeting.

Also that evening, several members of Constellation Energy senior management held a call with senior management of the energy company whose chief executive officer had called Mr. Shattuck earlier in the day. On this call, Constellation Energy management learned that this energy company was interested in acquiring specific limited assets of Constellation Energy and would not be able to make the kind of rapid, substantial equity investment Constellation Energy needed.

That same evening, Mr. Thayer was advised by S&P that Constellation Energy would need to raise in excess of \$500 million of new equity, have the \$2.0 billion credit facility commitment from UBS Finance and RBS remain in place and continue to execute on its strategic plan to avoid a downgrade of its credit ratings.

At 8:00 a.m. on Wednesday, September 17, 2008, Constellation Energy's board of directors held another telephonic meeting. Representatives of Cleary attended the meeting. Management updated the board on the discussions with representatives of MidAmerican and EDFI. Management summarized MidAmerican's proposal to make a \$1.0 billion equity investment in Constellation Energy and then acquire the company for \$26.50 per share in cash. Management expressed dissatisfaction with the terms of the offer. Management noted that discussions with EDFI would continue that day. Management also updated the board on its discussions with S&P and stated that in its view, in light of statements by the ratings agencies, market conditions and the statements and actions of Constellation Energy's trading counterparties and other business partners, Constellation Energy needed to immediately raise between \$750 million and \$1 billion of new equity. The board directed management to continue discussions with MidAmerican, EDFI and any other interested parties and agreed to reconvene early the next morning so that management could provide an update.

At approximately 9:00 a.m. on Wednesday, September 17, 2008, Constellation Energy issued a press release announcing that:

Constellation Energy had retained Morgan Stanley and UBS Securities to advise it on strategic alternatives and that it was in talks with potential partners or buyers;

UBS Finance and RBS had confirmed to Constellation Energy that the commitment for an additional \$2.0 billion credit facility announced on August 27, 2008 remained in effect;

estimated aggregate credit exposure, net of collateral, to financial institutions was approximately \$120 million, with no single financial institution representing more than \$28 million of net credit risk exposure; and

Table of Contents

Constellation Energy was reaffirming its third quarter 2008 outlook of earnings per share of \$0.83 to \$0.99 and full-year 2008 earnings guidance of \$5.25 to \$5.75 per share.

That same morning, S&P placed the company on CreditWatch, developing , and cited an acute crisis of confidence facing Constellation Energy that had resulted in a decline in its stock price, a widening of its credit default swap spread and the curtailing of business activities with Constellation Energy by certain counterparties. In its release, S&P confirmed its understanding that RBS and UBS Finance continued to stand behind their \$2.0 billion credit facility commitment, but commented that the resolution of the CreditWatch would depend on the sustained availability of the \$2.0 billion bank lines, the near-term infusion of \$750 million to \$1.0 billion of equity into the company, and the completion of asset sales or an outright sale of the company. Without rapid execution of these steps to enhance liquidity in the very near term, S&P said a multiple-notch downgrade was likely, and that it did not expect the company could withstand such a rating action. S&P further indicated that it would also review its decision if the actions of another credit rating agency resulted in additional collateral posting requirements.

Also that morning, Mr. Thayer spoke with Moody's to inform them that UBS Finance and RBS remained committed to the \$2.0 billion credit facility commitment. As a result of this conversation, management believed that Moody's would not make any imminent changes to Constellation Energy's credit rating.

During the morning, Mr. Shattuck and representatives of Morgan Stanley held telephonic discussions about a potential equity investment in Constellation Energy with three interested parties (other than MidAmerican and EDFI), including two energy companies and a consortium of private equity firms. All of these companies agreed to send representatives to Constellation Energy's offices that day to be available for further discussions and a review of due diligence materials.

At approximately 1:30 p.m. MidAmerican delivered a draft letter of intent consistent with the terms outlined by Mr. Sokol the previous evening, including the proposed post-signing due diligence period. The letter also set forth other key proposed terms, including MidAmerican's termination rights in the event of a decline in Constellation Energy's credit ratings, MidAmerican's request for guarantees from subsidiaries of Constellation Energy to secure the promissory note issuable upon conversion of the convertible preferred stock and proposed constraints on operating Constellation Energy's business prior to the closing of a sale of Constellation Energy to MidAmerican.

Early that afternoon, Constellation Energy senior management met with the company's outside legal counsel from Kirkland & Ellis LLP (which we refer to as Kirkland & Ellis) and representatives of Morgan Stanley and UBS Securities, to discuss the situation. During the remainder of the day on September 17, 2008, Constellation Energy executives and its outside legal and financial advisors engaged in a series of simultaneous activities:

Constellation Energy executives continued telephonic discussions with representatives of EDFI. By mid-afternoon, EDFI advised Constellation Energy that it would be willing to make an equity investment of approximately \$450 million in non-voting common stock, convertible into common stock upon obtaining all required regulatory approvals (up to the 4.9% limit permitted by the NYSE rules without prior shareholder approval), but that such investment would be conditioned on EDFI receiving assurances from S&P and Moody's that such investment would avoid a further downgrade of Constellation Energy's debt ratings and from RBS and UBS Finance that the \$2.0 billion credit facility commitment remained in place. EDFI also stated that its proposed investment would be the first step in a possible broader transaction between the two companies in the future, but no additional details were discussed. Early that afternoon, Constellation Energy sought relief from the NYSE on the shareholder approval requirement, so that EDFI could (if it were willing) immediately invest a larger amount in Constellation Energy. Later in the day, the NYSE denied Constellation Energy's request.

In an attempt to satisfy the conditions of EDFI's proposed equity investment, management contacted S&P and UBS Finance, each of which provided EDFI with the requested assurances. However, when

Table of Contents

Messrs. Collins and Thayer contacted Moody's, they learned that Moody's had already completed its credit review and was prepared to announce a two-notch ratings decrease to Baa3 (one notch above sub-investment grade), with a negative outlook. Constellation Energy urged reconsideration of the pending ratings downgrade and discussed with Moody's the possible EDFI and MidAmerican investment proposals. Messrs. Shattuck, Collins and Thayer then made a subsequent call to Moody's seeking to persuade it to change its view. On a subsequent call, Moody's indicated that its rating committee had convened and was unable to resolve the company's rating that evening and would take the EDFI proposal back to its committee again on the morning of September 19. However, Moody's stated that it would not comment on whether a transaction with EDFI would alter its decision to lower Constellation Energy's credit rating. Thus, Constellation Energy could not provide EDFI with the assurance it required. EDFI was quoted in Bloomberg that EDFI has studied the opportunity of increasing its stake in Constellation Energy.... At this stage, EDFI considers that all conditions are not met to do so.

Constellation Energy executives and the company's outside legal and financial advisors reviewed the proposed letter of intent from MidAmerican and discussed the terms by telephone with Willkie Farr & Gallagher LLP (which we refer to as Willkie), MidAmerican's outside legal advisor, and Doug Anderson, MidAmerican's general counsel. The parties agreed to revisions to certain of the terms of the letter of intent, but Constellation Energy and its advisors were told that the material economic terms were not subject to negotiation.

Mr. Shattuck and representatives of Morgan Stanley met with Messrs. Abel and Sokol to discuss the terms of MidAmerican's proposal and advised them that Constellation Energy needed additional time to work through the terms of their offer and to attend to discussions with the credit rating agencies. Messrs. Abel and Sokol agreed to delay their departure to 5:00 p.m. Mr. Shattuck and representatives of Morgan Stanley asked Messrs. Abel and Sokol to consider an increase in the proposed merger consideration. However, Messrs. Abel and Sokol responded that MidAmerican would not change its proposed merger consideration. Later in the day, after Constellation Energy's common stock price had fallen significantly (below MidAmerican's proposed merger consideration), Mr. Shattuck asked for confirmation that MidAmerican would not lower its merger consideration. Messrs. Sokol and Abel responded that the price was firm until the 5:00 p.m. deadline.

Members of Constellation Energy's senior management and representatives of Morgan Stanley met with representatives of the other potential investors and buyers who had traveled to Constellation Energy's offices in Baltimore. They outlined for these parties Constellation Energy's immediate cash needs, and parties who signed confidentiality and standstill agreements were provided with due diligence materials. Each party was also informed that there was a pending offer set to expire at 5:00 p.m. and that to remain a participant in the process, these other parties would, within the next few hours, need to address their ability to commit to providing Constellation Energy with financing of approximately \$1.0 billion and announce a definitive transaction by the close of business on Friday, September 19, 2008.

In an effort to estimate the potential value that the company's equity holders might realize if the company were to file for bankruptcy, management estimated the potential fair values of the company's businesses, other than the global commodities business. Such values did not reflect any material discount for the potential negative effects of a bankruptcy filing. Management did not value the global commodities business because it believed that the value of such business was highly unpredictable and would be subject to the greatest degree of volatility and uncertainty in a bankruptcy. In light of these estimates, management observed that if the global commodities business, following a bankruptcy filing, generated a net loss of more than \$2 billion, then after repayment of Constellation Energy's outstanding indebtedness, the aggregate equity value for holders of Constellation Energy common stock would likely be less than \$26.50 per share. Management observed that it could not reasonably assess the magnitude of potential deterioration in the value of the company's businesses as a result of a bankruptcy filing, particularly if the company had to make an immediate filing without having a

Table of Contents

substantial debtor-in-possession loan in place to provide needed liquidity, or the impact of disruption to the business and the substantial costs and expenses of a bankruptcy process. Management also observed that the impact of a bankruptcy filing and of significant liquidity constraints would likely be most severe on the global commodities business. Management concluded that, in light of this information, and taking into account the uncertainties of the bankruptcy process and the significant potential for such process to negatively affect the company's business, it was likely that the \$26.50 per share price proposed by MidAmerican was more than the company's existing shareholders would receive in the event of a bankruptcy filing. Management also observed that a bankruptcy filing brought with it the potential to damage recovery by the company's creditors, whereas the transaction proposed by MidAmerican was likely to avoid such a result. Management reviewed its estimates with Morgan Stanley.

As MidAmerican's 5:00 p.m. deadline neared, Messrs. Abel and Sokol agreed to extend the 5:00 p.m. deadline to 11:59 p.m. and remain at Constellation Energy's offices until later that evening, following indications that Constellation Energy was seriously considering moving forward with MidAmerican.

At approximately 6:00 p.m., Mr. Shattuck convened a meeting with his senior management team. They discussed the possibility of a ratings downgrade by Moody's and the impact that it would have on Constellation Energy's ability to continue operations. Management also expressed concern that in view of the continued deterioration of the credit and capital markets, a \$450 million equity investment (even if EDFI were willing to proceed despite Moody's position) was unlikely to be viewed by the company's trading and business partners or the ratings agencies as sufficient to alleviate their concerns about Constellation Energy's liquidity. Accordingly, management determined that the proposed equity investment by EDFI was not a viable alternative because of Moody's position (which did not satisfy EDFI's condition for investing). Based upon market conditions, the company's business situation, the views of the credit rating agencies, near-term insolvency risks, and MidAmerican's position that it would terminate discussions if the letter of intent was not signed that day, management concluded that absent a viable alternative proposal from one of the other parties then considering an investment in Constellation Energy, it would sign the letter of intent and recommend to the board of directors that Constellation Energy accept the MidAmerican proposal. Management determined that it could not expose the business or the company's shareholders to the risks of having no solid, substantial investment commitment to address liquidity concerns when markets opened for business on Thursday, September 18, 2008.

That evening, each of the three other firms that had come to Constellation Energy's offices advised members of management or representatives of Morgan Stanley and UBS Securities that either it would not be able to provide a definitive offer within the timeframe required by Constellation Energy or that it was not interested in a transaction that required this kind of substantial, immediate equity investment. The representatives of these firms subsequently left Constellation Energy's offices.

In another volatile day on Wall Street, the trading price of Constellation Energy common stock had dropped another 19.5%, to close at \$24.77 per share on trading volume of almost 37 million shares. Reuters reported that the price of Constellation Energy's credit default swaps had reached a high of 617.5. The merger proposal from MidAmerican represented a 7% premium over that day's closing price.

At approximately 9:45 p.m. on September 17, 2008, Messrs. Collins and Sokol called S&P, Moody's and Fitch to inform them of the pending announcement of a transaction with MidAmerican and that they intended to be in New York on Thursday morning to discuss the specifics of the transactions. Moody's informed Messrs. Collins and Sokol that it would not make any further decisions about Constellation Energy's credit rating until after that meeting had occurred.

At approximately 11:00 p.m. on September 17, 2008, Messrs. Shattuck and Abel signed the letter of intent, with effectiveness being subject to approval by Constellation Energy's board no later than 9:00 a.m. the next morning and payment of the \$25 million fee to MidAmerican.

Table of Contents

On the morning of Thursday, September 18, 2008, the Wall Street Journal European edition published an article stating that EDFI was expected to raise its stake in Constellation Energy or take over the company. The article, relying on the views of third parties reportedly familiar with the situation, characterized Constellation Energy as being at risk of becoming another casualty of the radiating credit crisis. The article stated that some traders reportedly had decided not to enter into contracts with Constellation Energy beginning the week of September 13 on the Intercontinental Exchange, a global commodities-trading exchange. Despite the news of a potential deal with EDFI and despite positive movement in the price of Constellation Energy stock in after-hours trading, during the morning in London, many of Constellation Energy's European trading counterparties expressed continued concern about their ongoing exposure to Constellation Energy's credit and ceased doing business as trading partners.

At 8:00 a.m. on September 18, 2008, Constellation Energy's board of directors convened a telephonic meeting. Representatives of Kirkland & Ellis, Morgan Stanley and UBS Securities participated in the meeting. Mr. Shattuck reported that he had executed a letter of intent with MidAmerican late the previous night, which was subject to board approval by no later than 9:00 a.m. If the board approved the letter and if Constellation Energy paid the \$25 million fee to MidAmerican, the transaction would be publicly announced. The board reviewed with management the events of the previous day and was advised of the morning's developments in London. Mr. Shattuck explained that senior management had decided to execute the letter of intent because it determined, in view of the events of the day and the implications of not acting immediately, the MidAmerican proposal was the only alternative available that would avoid the substantial risks of an immediate ratings downgrade and a likely near-term bankruptcy.

Management and representatives of Morgan Stanley and Kirkland & Ellis reviewed in detail with the directors the terms of the letter of intent, including the terms of the \$1.0 billion investment in convertible preferred equity, including the conversion features and the triggers for such conversion, and the proposed all-cash merger for \$26.50 per share. The directors received advice on and considered their obligations to the company and its shareholders. The board further discussed the possibility that insolvency of the company, absent a major investment in the company within the next 24-48 hours, appeared increasingly likely in view of the market's and the credit rating agencies' reaction to the company's liquidity and the continued deterioration of credit and capital markets. The board was advised that Morgan Stanley was working to prepare a fairness opinion with respect to the consideration proposed to be received pursuant to the transaction, which would be provided to and discussed with the board before it made a final decision on the transaction with MidAmerican. If, after approving the letter of intent, the board decided not to approve the definitive agreements for the proposed transactions, the letter of intent would terminate at 5:00 p.m. on September 19, 2008, and Constellation Energy thereafter would have no further obligations to MidAmerican or be subject to any restrictions on its ability to consider other transactions with other parties.

The board discussed these matters as well as the proposed equity investment by EDFI. Management stated its view that the proposed approximately \$450 million investment by EDFI was unlikely to satisfy the ratings agencies. Management also provided information about regulatory approvals that would be required if Constellation Energy sought to pursue a broader transaction with EDFI. At the conclusion of the discussion, the board unanimously ratified and approved the execution of the letter of intent and authorized payment of the \$25 million fee to MidAmerican. The board agreed to meet again twice on Friday, September 19, 2008, in the early morning and again in the afternoon. Following the meeting, Ann C. Berzin, one of Constellation Energy's non-employee directors, advised a Constellation executive that she and her husband had long held a substantial investment in the equity of Berkshire. It was agreed she would advise the board of this interest and would abstain from voting on any transactions involving MidAmerican.

Mr. Shattuck promptly advised Mr. Sokol of the board's decision, and Constellation Energy paid the \$25 million fee. At approximately 9:00 a.m., Constellation Energy and MidAmerican issued a joint press release announcing that they had reached a preliminary agreement on a transaction involving an immediate \$1 billion investment by MidAmerican, to be followed by an all-cash merger for approximately \$4.7 billion, or \$26.50 per

Table of Contents

share. It was reported that under the terms of the letter of intent, the parties had until 5:00 p.m. on September 19, 2008, to enter into definitive agreements. Each party filed a Current Report on Form 8-K that afternoon attaching copies of the press release and the executed letter of intent.

During the day, an additional 30 million shares of Constellation Energy common stock were traded, but the price remained relatively stable, closing down \$0.57 at \$24.20.

Later the same morning, Messrs. Collins and Sokol traveled to New York City to meet with representatives of the three major ratings agencies to discuss the transaction and seek to persuade them that MidAmerican's investment of \$1.0 billion represented a significant improvement in Constellation Energy's liquidity position and that a ratings downgrade would be inappropriate. Following these meetings, S&P issued a research update on September 18, 2008 reconfirming a BBB credit rating and stating that Constellation Energy remained on CreditWatch with developing implications, although in the release S&P indicated that the MidAmerican transaction suggested confidence in Constellation Energy's business in the face of negative market sentiment. Fitch Ratings affirmed its prior rating of BBB. Although Moody's downgraded Constellation Energy to Baa2, this one-notch downgrade was not unexpected and resulted in all three ratings agencies having an equivalent rating on Constellation Energy's senior unsecured debt. However, the commentary released by Moody's expressed the greatest level of ongoing concern among the three ratings agencies. Moody's indicated that although it viewed the pending transaction with MidAmerican as a positive step, in its view Constellation Energy continued to face near-term challenges, including execution risks related to the MidAmerican transaction and completion of the \$2.0 billion credit facility with RBS and UBS Finance.

Beginning in the late morning and continuing into the afternoon of September 18, Willkie provided drafts of the definitive transaction documents to Constellation Energy and its outside legal and financial advisors. Representatives of Willkie and Kirkland & Ellis, together with members of MidAmerican and Constellation Energy management, reviewed the drafts and engaged in negotiation of the terms by telephone throughout the remainder of the day and night and into the morning of Friday, September 19, 2008. The parties negotiated changes to the definition of Company Material Adverse Effect, substantial revisions to the terms of the operating covenants that would restrict Constellation Energy's operations between the signing of the merger agreement and the closing of the merger, the closing conditions obligating MidAmerican to close the merger, the terms of the covenants contained in the senior note that MidAmerican would receive upon conversion of the preferred stock it would be acquiring and the concept of material deterioration of Constellation Energy's business that applied to MidAmerican's limited 14-day due diligence termination right under the merger agreement. The parties also discussed at length the non-solicitation, fiduciary out, termination and remedies provisions of the merger agreement, but only modest changes were accepted. Willkie produced several revised drafts of all of the agreements in response to comments and discussions. Representatives of MidAmerican made clear throughout the discussions that the major economic terms of the transaction were not subject to negotiation.

At 8:00 a.m. on Friday, September 19, 2008, the Constellation Energy board of directors held a telephonic meeting at which senior management and representatives of Morgan Stanley and Kirkland & Ellis provided an update on discussions with MidAmerican with respect to the definitive agreements. Representatives of UBS Securities also attended the meeting. Members of senior management emphasized the importance of having a definitive and announced agreement in place by 5:00 p.m. that day. Senior management expressed its belief that the failure to have such an agreement in place and publicly announced would lead to an immediate ratings downgrade and would likely trigger substantial difficulties with trading counterparties and business partners over the weekend, which it expected would result in the company facing a need to file for bankruptcy protection by Monday morning, September 22, 2008.

Mr. Shattuck indicated that there was no consensus as to whether another offer might be received, although a representative from a third party had indicated by email that it was working on an alternative proposal. The board then reviewed key provisions in the definitive merger agreement. This included covenants that would restrict Constellation Energy's operating flexibility between signing and any closing and the non-solicitation and

Table of Contents

termination fee arrangements that would govern the board's ability to consider and negotiate an unsolicited alternative transaction. The board also discussed the potential impact on a competing offer of the terms of the convertible preferred stock to be acquired by MidAmerican. Mr. Shattuck reported that he was scheduled to speak later that morning with Warren Buffett, chief executive officer of Berkshire. Management also discussed the important role that MidAmerican and Berkshire could play in helping to ensure that Constellation Energy's new \$2.0 billion credit facility was completed.

Telephonic negotiation of the definitive agreements continued throughout the day on September 19, 2008, among representatives of Kirkland & Ellis and Willkie, together with members of management of Constellation Energy and MidAmerican. With the Constellation Energy board scheduled to convene again at 2:30 p.m., all parties resolved their differences on all major terms prior to that time.

At approximately 1:30 p.m. on September 19, 2008, Constellation Energy received by email an unsolicited, non-binding proposal from EDFI in which EDFI, together with Kohlberg Kravis Roberts & Co. L.P. (which we refer to as KKR) and TPG Capital, L.P. (which we refer to as TPG), proposed the following principal terms:

\$1.0 billion investment that could be funded no later than 12:00 p.m., Paris time on Monday, September 22, 2008 for a non-voting security convertible into (1) 10.4% of Constellation Energy's voting equity and 5.6% of non-voting equity, which would be convertible into voting equity upon receipt of necessary regulatory approvals (although not entirely clear from the proposal, management assumed the proposal was to acquire an aggregate of 16.0% on an as-converted basis) and (2) \$750 million aggregate principal amount of 10% senior notes; and

if of interest to Constellation Energy, negotiations would commence to acquire Constellation Energy at a price of \$35.00 per share of Constellation Energy common stock, with due diligence completed by October 9, 2009.

The letter included with it a mark-up of the equity investment portion of the term sheet between MidAmerican and Constellation Energy that had been attached to the letter of intent that was signed on September 17, 2008. EDFI, KKR and TPG indicated further that they would be prepared to move expeditiously to execute definitive agreements based on the forms of agreements negotiated with MidAmerican, subject to review of those agreements. The proposal did not include a mark-up of the portion of the term sheet addressing a proposed second-step merger with Constellation Energy, or contain any other terms for a proposed merger, other than the purchase price. Also, the proposal did not explain the ownership interest among members of the group or address potential regulatory considerations, and there was no information provided as to the sources or availability of funds to finance the investment or a second-step merger.

As required by the letter of intent with MidAmerican, Constellation Energy promptly advised Mr. Abel of the letter. Members of senior management of Constellation Energy then met with the company's legal and financial advisors to discuss the letter. At approximately 2:20 p.m., Mr. Shattuck asked Mr. Abel to waive MidAmerican's contractual exclusivity right so that Constellation Energy and its advisors could contact representatives of EDFI and the private equity firms to clarify certain aspects of the letter. Mr. Abel refused that request and reminded Mr. Shattuck of the terms of the exclusivity provisions in the letter of intent. He also reiterated that if the definitive agreements were not approved by the Constellation Energy board and signed by 5:00 p.m., MidAmerican would terminate all further discussions. Following that discussion, Constellation Energy's management and its outside legal and financial advisors discussed the unsolicited offer further and assessed its feasibility and desirability, in light of the status of discussions with MidAmerican, market conditions, the company's liquidity needs, the terms of the unsolicited offer, including the timing and likelihood of completion of an alternative transaction, market expectations of a transaction announcement by 5:00 p.m. and the significant potential for a credit rating downgrade entering the weekend without any assurances there would be a committed, replacement transaction to announce before markets opened on Monday, September 22.

At approximately 2:30 p.m. on September 19, 2008, the board of directors of Constellation Energy convened a meeting to review the status of negotiations with MidAmerican and to vote on the financing and

Table of Contents

merger transactions. Representatives of Kirkland & Ellis, Morgan Stanley and UBS Securities participated in the meeting. At the beginning of the meeting, Ms. Berzin advised the board that she and her husband had long held a substantial investment in the equity of Berkshire, the parent company of MidAmerican. Accordingly, she stated that she would abstain from voting on the transaction with MidAmerican.

The board again reviewed its obligations to the company and its shareholders and then reviewed the significant terms of the proposed MidAmerican financing and the merger agreement. It also discussed consequences of a termination of the agreement, including the Company's right to consider other unsolicited acquisition proposals and the terms and potential impact on a competing offer of the conversion of the \$1 billion of convertible preferred stock investment and the terms of the securities into which it was convertible. Management provided the board with its evaluation of the likelihood that MidAmerican would find a basis to terminate the merger agreement pursuant to the limited 14-day termination right. The board also discussed in detail the issue of required regulatory approvals, the standard in the merger agreement for obtaining such approvals and management's views of the likelihood of securing the required approvals on acceptable terms. It was noted that MidAmerican had successfully obtained state approvals for other similar transactions, and that management had a high confidence in being able to obtain regulatory approval of a merger with MidAmerican. Mr. Shattuck also reviewed discussions with Maryland state officials over the last 36 hours, noting that there had been a generally positive reaction to the prospect of a transaction with MidAmerican. Mr. Shattuck also reported that he had a productive telephone conversation with Warren Buffett, who was supportive of the transaction and Constellation Energy's nuclear efforts.

Representatives of Morgan Stanley reviewed the key economic terms of the proposed transaction. They reviewed Constellation's share price performance, noting the rapid decline in the share price, particularly in September, and compared it to share price performance in the energy and investment bank/trading operations sectors, noting that in particular investment and trading operations had been under significant pressure due to liquidity and solvency concerns in the marketplace generally. Representatives of Morgan Stanley then reviewed with the board its financial analysis of the consideration to be received in the proposed merger and provided its oral opinion, confirmed by delivery of a written version dated September 19, 2008, to the effect that, as of such date and subject to the assumptions made, matters considered and limitations on the review undertaken, the \$26.50 per share cash consideration to be received by the holders of Constellation Energy common stock pursuant to the merger agreement was fair from a financial point of view to such holders. For a full discussion of the Morgan Stanley opinion delivered to the board of directors, see "The Merger Opinion of Constellation Energy's Financial Advisor" beginning on page 45.

The board then discussed the risks associated with not accepting the MidAmerican proposal, particularly the risk of immediate negative credit rating agency reactions and the expected consequences of such action. Management repeated its belief that at least Moody's would immediately downgrade the company if the execution of definitive agreements were not announced that day. Management and the board discussed the fact that in the event of a two-notch ratings downgrade to below investment grade, the amount of additional collateral that management expected the company would be required to post would exceed amounts available from cash on hand and availability under existing funded credit facilities (as the \$2.0 billion credit facility commitment with UBS Finance and RBS would not be available until late October) and that absent any viable alternatives to obtain additional liquidity, counterparties would likely cease doing business with Constellation Energy and Constellation Energy would have no choice but to file for bankruptcy protection.

Mr. Shattuck then advised the board of the unsolicited offer that had been received from EDFI and the two private equity firms. He and the company's financial advisors reviewed the terms of that offer, and the board discussed potential advantages and disadvantages of the offer given the concerns in the market and among the company's business partners and the rating agencies about the company's liquidity.

Following these discussions, and extensive review and discussion among the members of the board of directors, management and representatives of Morgan Stanley, including consideration of the factors described

Table of Contents

under The Merger Constellation Energy's Reasons for the Merger; Recommendation of the Constellation Energy Board of Directors beginning on page 42, the board of directors (with Ms. Berzin abstaining in light of her investment in the equity of Berkshire), determined that the transactions contemplated by the merger agreement and the related transactions and agreements are advisable and in the best interests of Constellation Energy and its shareholders, and the directors voted to approve the merger, to approve and adopt the merger agreement and to approve the related transactions and agreements.

At approximately 4:50 p.m., Mr. Shattuck advised Mr. Abel of the board's decision.

During that day, based on discussions between Constellation Energy and Moody's, Constellation Energy management came to believe that Moody's would likely require the company to have access to a total of \$3.0 billion of additional liquidity to avoid a further ratings downgrade. This would be comprised of the \$1.0 billion investment by MidAmerican and the \$2.0 billion credit facility commitment from UBS Finance and RBS. As a result, throughout the day, members of the management teams of Constellation Energy and MidAmerican engaged in a series of discussions with representatives of UBS Finance and RBS to confirm their agreement that the \$2.0 billion credit facility commitment would not be reduced by the amount of MidAmerican's \$1.0 billion equity investment in Constellation Energy. UBS Finance and RBS ultimately agreed not to treat MidAmerican's \$1 billion equity investment in Constellation Energy as a dollar-for-dollar reduction in their commitment, unless Constellation or MidAmerican terminated the merger agreement. As a condition to this agreement, MidAmerican agreed not to require Constellation Energy's subsidiaries to guarantee the \$1.0 billion promissory note issuable to MidAmerican upon conversion of the preferred stock, extended the maturity of that note to the end of 2009 and agreed to allow Constellation Energy to issue unlimited amounts of additional senior, unsecured debt. The changes to the definitive agreements with MidAmerican were made promptly and the changes to the credit facility commitment were subsequently documented over the ensuing 48 hours and were signed on Sunday, September 21, 2008.

MidAmerican and Constellation Energy signed the definitive agreements and issued a joint press release announcing the execution of the agreements around 5:00 p.m. on September 19, 2008.

During the day, nearly 26 million shares of Constellation Energy common stock were traded, and the price of the common stock rose for the first time in a week, closing up more than 6% at \$25.76, after trading as high as \$29.50 during the day.

At approximately 11:30 a.m. on Monday, September 22, 2008, MidAmerican completed the purchase of \$1 billion of Constellation Energy's Series A Preferred Stock.

Before markets opened on Thursday, October 2, 2008, MidAmerican waived its limited 14-day due diligence termination right under the merger agreement, and the waiver was announced publicly.

Constellation Energy's Reasons for the Merger; Recommendation of the Constellation Energy Board of Directors

In reaching its decision to approve the merger and the related transactions contemplated by the merger agreement, the board of directors of Constellation Energy, acting with the advice and assistance of its legal and financial advisors and the company's senior management, concluded that the proposed investment from and merger with MidAmerican was the best alternative available to Constellation Energy. The board of directors of Constellation Energy based this conclusion on a number of factors, including the following material factors:

Based on statements made by the ratings agencies to Constellation Energy, absent a significant, immediate equity investment, one or more of the ratings agencies were likely to downgrade Constellation Energy's credit rating (possibly by two notches to below investment grade), which would trigger an obligation for Constellation Energy to post additional collateral under existing counterparty contracts and further exacerbate the crisis of confidence with its business counterparties, thereby seriously impairing Constellation Energy's ability to operate its business and likely forcing the company to file for bankruptcy protection;

Table of Contents

Absent new additional liquidity, a two-notch downgrade in Constellation Energy's credit ratings to below investment grade would require Constellation Energy to post additional collateral in excess of amounts available from cash on hand and availability under existing, funded credit facilities, which would render the company insolvent and force Constellation Energy to seek bankruptcy protection;

Morgan Stanley's oral opinion at the meeting of the Constellation Energy board of directors on September 19, 2008, and subsequently confirmed by delivery of a written opinion dated September 19, 2008 that, as of such date and based upon and subject to the various assumptions, procedures, factors, limitations and qualifications in its opinion (some of which were non-customary), the \$26.50 per share in cash consideration to be received pursuant to the merger agreement was fair, from a financial point of view, to the holders of Constellation Energy common stock;

The efforts made by Constellation Energy's senior management and its advisors to obtain greater value than the \$26.50 per share provided for in the merger, and the recognition that the \$26.50 per share in value for shareholders was likely a greater amount for the shareholders than could be expected from a bankruptcy filing, which was the most likely alternative available given the uncertainty that any transaction other than the one proposed by MidAmerican could be completed in time;

The absence of a definitive ratings response from Moody's to the investment proposal made by EDFI on September 17, 2008, the decisions of numerous counterparties in London to cease doing business with Constellation Energy on September 18, despite a press report of a potential transaction between Constellation Energy and EDFI, and the content of discussions with both Moody's and S&P on September 17 and 18, all of which led management to believe that Constellation Energy would need \$1.0 billion of additional equity no later than Monday morning, September 22, 2008, and likely by Friday, September 19, 2008, to avoid a further ratings downgrade that likely would push Constellation Energy into bankruptcy;

The contacts and discussions on September 16 and September 17, 2008, among Morgan Stanley, UBS Securities, Constellation Energy management and a number of different energy industry companies and private equity firms, all of which either declined to participate in the process or were unable to submit an acceptable proposal for making the necessary substantial investment in Constellation Energy within the timeframe required;

The terms of the unsolicited, non-binding acquisition proposal from EDFI, KKR and TPG submitted on the afternoon of Friday, September 19, 2008 and the fact that Constellation Energy had significant questions about the terms of the proposal that it could not address before the expiration of MidAmerican's offer because MidAmerican was unwilling to waive Constellation Energy's exclusivity obligations to MidAmerican;

Constellation Energy management's view that the proposal from EDFI, KKR and TPG did not assure the company, its shareholders, its business partners and counterparties, its creditors and the ratings agencies that a transaction would be completed quickly and would take the place of the MidAmerican equity investment, which Constellation Energy would be forced to decline in order to pursue discussions and negotiations with EDFI, KKR and TPG;

MidAmerican's willingness to make an immediate \$1.0 billion equity investment in Constellation Energy only if there was a definitive agreement in place at the time of that investment for the second-step, \$26.50 per share all-cash merger;

The deadline in the letter of intent with MidAmerican for execution of definitive agreements by 5:00 p.m. on Friday, September 19, 2008, and MidAmerican's unwillingness to extend the deadline;

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form PRER14A

The fact that the board of directors of Constellation Energy would be able to consider and negotiate an unsolicited superior proposal, taking into account the limits on such opportunities that would be imposed by the terms of the merger agreement and a potential conversion of the Series A Preferred Stock; and

Table of Contents

The expectation that the merger would be completed on a timely basis, based on Constellation Energy's belief that a transaction with MidAmerican involved substantially less regulatory risk than other possible transactions, based in part on MidAmerican's track record in obtaining state approvals for other similar transactions and general discussions with Maryland state officials about a possible transaction with MidAmerican and Mr. Shattuck's conversation with Warren Buffett.

The board of directors of Constellation Energy also considered certain terms of the merger and the related transactions that were required by MidAmerican as conditions to its willingness to enter into the merger agreement, including:

The potential effects of certain of the terms and provisions of the merger agreement on other parties that might be interested in proposing a competing transaction to Constellation Energy, including prohibitions on soliciting alternative transactions, a requirement to hold a shareholder meeting on the MidAmerican merger whether or not the board of directors continues to believe at the time of the shareholder meeting that the merger is fair to, and in the best interests of, Constellation Energy, and an inability to enter into an agreement for an alternative transaction prior to termination of the merger agreement with MidAmerican;

The closing conditions that would allow MidAmerican not to consummate the merger, including the absence of a material adverse effect, the requirement that all unsecured senior debt of Constellation Energy shall be rated investment grade or better with no less than a stable outlook and the requirement that, as measured two days prior to closing, the net economic value of Constellation Energy's retail and/or wholesale trading businesses or assets, taken as a whole, have not deteriorated in excess of \$400 million since June 30, 2008;

The requirement to pay MidAmerican a \$175 million breakup fee if the merger is not completed, other than upon a termination of the merger agreement by Constellation Energy due to a breach by MidAmerican or if MidAmerican exercised its limited 14-day due diligence termination right, which would increase the cost to a third party seeking to make an alternative proposal to acquire Constellation Energy;

The fact that if the merger agreement were terminated, other than upon a termination by Constellation Energy due to a breach by MidAmerican, MidAmerican's \$1.0 billion preferred stock investment would convert into (1) 14.0% senior notes in a principal amount of \$1.0 billion (maturing on December 31, 2009) and (2) 16.6% of the outstanding shares of Constellation Energy common stock (on an as-converted basis), which would substantially increase the cost to a third party seeking to make an alternative proposal to acquire Constellation Energy;

The limitation of any liability against MidAmerican in the event of a breach of the merger agreement by MidAmerican to \$1.0 billion, with recourse only against the preferred stock issued to MidAmerican or the \$1.0 billion note received upon conversion of the preferred stock (or proceeds received upon any redemption of the preferred stock or repayment of the principal amount of the note), and the absence of any specific performance right against MidAmerican;

The limited 14-day due diligence period following execution of the merger agreement, which provided MidAmerican with the right to terminate the merger agreement without penalty (which MidAmerican subsequently waived before markets opened on October 2, 2008); and

The covenants restricting Constellation Energy's operation of the business between execution of the merger agreement and any closing.

The board of directors of Constellation Energy has determined that the merger, the merger agreement and the transactions contemplated by the merger agreement are advisable and in the best interests of Constellation Energy and its shareholders and has unanimously approved the merger agreement (with Ms. Berzin abstaining in light of her investment in the equity of Berkshire). The board of directors of Constellation Energy recommends that Constellation Energy's shareholders vote FOR approval of the merger pursuant to the merger agreement.

Table of Contents

The foregoing discussion of the information and factors considered by the board of directors of Constellation Energy is not exhaustive, but includes the material factors considered by the board of directors of Constellation Energy. In view of the wide variety of factors considered in connection with its evaluation of the merger and related transactions and the complexity of these matters, the board of directors of Constellation Energy did not find it useful, and did not attempt, to quantify, rank or otherwise assign relative weights to these factors. In considering the factors described above, individual members of the board of directors of Constellation Energy may have given different weight to different factors. The board of directors of Constellation Energy conducted an analysis of the factors described above, including thorough discussions with, and questioning of, the management of Constellation Energy and Constellation Energy's legal and financial advisors, and reached the consensus that the merger, as initially proposed and as subsequently amended, was advisable and in the best interests of Constellation Energy and Constellation Energy's shareholders.

Opinion of Constellation Energy's Financial Advisor

In accordance with an engagement letter, dated September 17, 2008, Constellation Energy formally retained Morgan Stanley to act as Constellation Energy's financial advisor in connection with the transaction. On September 19, 2008, Morgan Stanley rendered its oral opinion, subsequently confirmed in writing, to Constellation Energy's board of directors that as of such date and, based upon and subject to the assumptions, qualifications and limitations set forth in the opinion (some of which are non-customary due to the unique circumstances in which the merger was negotiated), the consideration to be received by the holders of Constellation Energy's common stock pursuant to the merger agreement was fair, from a financial point of view, to such shareholders.

THE FULL TEXT OF MORGAN STANLEY'S WRITTEN FAIRNESS OPINION DATED SEPTEMBER 19, 2008 IS ATTACHED AS ANNEX B TO THIS PROXY STATEMENT. YOU SHOULD READ THE MORGAN STANLEY OPINION FOR A DISCUSSION OF THE ASSUMPTIONS MADE, PROCEDURES FOLLOWED, FACTORS CONSIDERED AND LIMITATIONS UPON THE REVIEW UNDERTAKEN BY MORGAN STANLEY IN RENDERING ITS OPINION (SOME OF WHICH WERE NON-CUSTOMARY). THIS SUMMARY IS QUALIFIED IN ITS ENTIRETY BY REFERENCE TO THE FULL TEXT OF SUCH OPINION. MORGAN STANLEY'S OPINION IS DIRECTED TO CONSTELLATION ENERGY'S BOARD OF DIRECTORS AND ADDRESSES ONLY THE FAIRNESS FROM A FINANCIAL POINT OF VIEW OF THE CONSIDERATION TO BE RECEIVED BY THE HOLDERS OF CONSTELLATION ENERGY COMMON STOCK PURSUANT TO THE MERGER AGREEMENT AS OF THE DATE OF THE OPINION. IT DOES NOT ADDRESS ANY OTHER ASPECTS OF THE MERGER OR OF THE \$1.0 BILLION CONVERTIBLE PREFERRED STOCK FINANCING AND DOES NOT CONSTITUTE A RECOMMENDATION TO ANY COMMON SHAREHOLDER OF CONSTELLATION ENERGY AS TO HOW TO VOTE AT THE SPECIAL MEETING. FURTHER, MORGAN STANLEY'S OPINION WAS NECESSARILY BASED ON FINANCIAL, ECONOMIC, MARKET AND OTHER CONDITIONS AS IN EFFECT ON, AND THE INFORMATION MADE AVAILABLE TO MORGAN STANLEY AS OF, THE DATE OF THE OPINION. MORGAN STANLEY ASSUMED NO RESPONSIBILITY FOR UPDATING OR REVISING ITS OPINION BASED ON CIRCUMSTANCES OR EVENTS OCCURRING AFTER THE DATE OF THE OPINION. THE MERGER AGREEMENT AND THE OTHER TRANSACTION DOCUMENTS HAD BEEN NEGOTIATED AND REVIEWED, AND MORGAN STANLEY RENDERED ITS OPINION, ON A HIGHLY EXPEDITED BASIS AS CONSTELLATION ENERGY HAD VERY LITTLE TIME AVAILABLE TO EXECUTE ANY TRANSACTION THAT WOULD ALLOW IT TO AVOID FILING FOR BANKRUPTCY.

In arriving at its opinion, Morgan Stanley among other things:

Reviewed certain publicly available financial statements and other business and financial information of Constellation Energy;

Reviewed certain publicly available business and financial information of MidAmerican;

Table of Contents

Reviewed certain internal financial statements and other financial and operating data concerning Constellation Energy prepared by the management of Constellation Energy;

Reviewed certain financial projections prepared by the management of Constellation Energy;

Discussed the past and current operations and financial condition and the prospects of Constellation Energy with senior executives of Constellation Energy;

Reviewed the reported prices and trading activity for Constellation Energy common stock;

Reviewed the trading activity and price of Constellation Energy's credit default swaps with those of companies comparable with Constellation Energy;

Compared the financial performance of Constellation Energy and the prices and trading activity of Constellation Energy common stock with those of certain other publicly-traded companies comparable with Constellation Energy;

Reviewed the financial terms, to the extent publicly available, of certain comparable acquisition transactions;

Participated in certain discussions and negotiations among representatives of Constellation Energy and MidAmerican and their financial and legal advisors;

Reviewed the merger agreement and certain related documents; and

Performed such other analyses, reviewed such other information and considered such other factors as Morgan Stanley deemed appropriate in light of the limited time in which Constellation Energy requested that Morgan Stanley had to prepare its opinion. For the purposes of its opinion, Morgan Stanley assumed and relied upon, without independent verification or expressing any views with respect to, the following facts as of the close of business on September 18, 2008, based on its discussions with Constellation Energy's management and other advisors:

Constellation Energy and its principal operating subsidiaries had a limited amount of liquidity facilities available;

As a result of extraordinarily difficult market conditions in general and matters specific to Constellation Energy's financial condition, Constellation Energy was having difficulty accessing additional liquidity to support its businesses on a stand-alone basis;

As a result of credit concerns, trading counterparties of Constellation Energy had begun to cease trading with Constellation Energy;

Based on conversations with ratings agencies, Constellation Energy needed approximately \$750 million to \$1.0 billion in immediate, additional liquidity to avoid a credit rating downgrade;

The accelerated execution of previously announced asset divestitures were not going to satisfy the rating agencies' concerns;

Based on extensive recent dialogues with the rating agencies and a weakened liquidity profile, among other things, Constellation Energy believed a credit rating downgrade of one or more levels was imminent;

Given Constellation Energy's obligations, pursuant to various contracts and agreements to which it is a party, to post exponentially greater amounts of collateral upon any credit rating downgrade, and the likelihood of a significant downgrade, Constellation Energy expected that it would require immediate liquidity in an amount significantly beyond that available to Constellation Energy in the near term;

Constellation Energy had very limited options available to it that could provide Constellation Energy with the immediate liquidity it needed and the collateral it would be required to post in the event of a credit rating downgrade and, given Constellation Energy's resulting inability to operate in certain of its

Table of Contents

businesses, Constellation Energy and its subsidiaries would likely be forced into imminent insolvency or bankruptcy proceedings; and

Based on the expected treatment of Constellation Energy's businesses, assets and financing arrangements in the context of a bankruptcy, the holders of shares of Constellation Energy common stock were likely to receive value less than the consideration of \$26.50 per share of Constellation Energy common stock to be received pursuant to the merger agreement in the event of a bankruptcy or liquidation of Constellation Energy.

In arriving at its opinion, Morgan Stanley assumed and relied upon without independent verification the accuracy and completeness of the information that was publicly available or supplied or otherwise made available to it by Constellation Energy and formed a substantial basis for Morgan Stanley's opinion. With respect to the financial projections, Morgan Stanley assumed that they had been reasonably prepared on bases reflecting the best available estimates and judgments of the management of Constellation Energy of the future financial performance of Constellation Energy without considering the then current credit and liquidity issues facing Constellation Energy. Morgan Stanley noted that it had not reviewed, nor been provided with, any financial projections for Constellation Energy that were prepared assuming the then current credit and liquidity conditions of Constellation Energy. Morgan Stanley further noted that, given the extreme changes in then current market conditions, it had not performed certain additional due diligence or analyses such as reviewing trading metrics that it would customarily conduct in connection with the rendering of a fairness opinion. Morgan Stanley assumed that the merger transaction will be consummated in accordance with the terms set forth in the merger agreement without any waiver, amendment or delay of any terms or conditions. Morgan Stanley assumed that, at the time of closing of the merger, all unsecured senior debt of Constellation Energy will be rated investment grade or better with no less than a stable outlook by the various credit rating agencies. Morgan Stanley assumed that in connection with the receipt of all the necessary governmental, regulatory or other approvals and consents required for the merger, no delays, limitations, conditions or restrictions will be imposed that would have a material adverse effect on the contemplated benefits expected to be derived in the merger. Morgan Stanley is not a legal, tax, regulatory or bankruptcy advisor. Morgan Stanley is a financial advisor only and has relied upon, without independent verification, the assessment of Constellation Energy and its legal, tax, regulatory or bankruptcy advisors with respect to legal, tax, regulatory or bankruptcy matters. Morgan Stanley did not make any independent valuation or appraisal of the assets or liabilities of Constellation Energy, or concerning the solvency of Constellation Energy. In particular, it did not express any opinion as to the value of any asset of Constellation Energy, whether at current market prices or in the future. Morgan Stanley's opinion is not a solvency opinion and does not in any way address the solvency or financial condition of Constellation Energy or whether other strategic alternatives existed for Constellation Energy or if such alternatives were available. Morgan Stanley noted, however, that under the ownership of a company with adequate liquidity and capital, such as MidAmerican, the value of some or all of the assets of Constellation Energy could substantially improve, resulting in significant returns to MidAmerican if the merger was to be consummated.

Morgan Stanley did not express any opinion with respect to the fairness of the amount or nature of the compensation to any of Constellation Energy's officers, directors or employees, or any class of such persons, relative to the consideration to be received by the directors or employees, or any class of such persons, relative to the consideration to be received by the holders of shares of Constellation Energy common stock in the merger. Morgan Stanley's opinion did not in any manner address (i) the solvency of Constellation Energy, or (ii) the \$1.0 billion convertible preferred stock financing, including the fairness of the consideration to be received by Constellation Energy in such financing transaction.

Morgan Stanley's opinion was necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to Morgan Stanley as of, the date of its opinion. Morgan Stanley further noted the extraordinary nature of such market conditions in effect as of the date of the opinion, and the likely continuing fluctuations in such conditions. Events occurring after such date may affect its opinion and the assumptions used in preparing it, and Morgan Stanley did not assume any obligation to update, revise or reaffirm its opinion.

Table of Contents

Morgan Stanley noted that, although Constellation Energy and Morgan Stanley had initiated a process to identify and had contacted a variety of potential acquirors, the terms of the merger agreement and the other transaction documents had been negotiated and reviewed by Constellation Energy on a highly expedited basis and without the benefit of a prolonged auction process. Morgan Stanley further noted that Constellation Energy had very little time to execute any transaction that would have allowed it to avoid filing for bankruptcy.

The following is a summary of the material financial analyses used by Morgan Stanley in connection with providing its opinion to Constellation Energy's board of directors. In order to fully understand the financial analyses used by Morgan Stanley, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the financial analyses. Rather, the analyses listed in the tables and described below must be considered as a whole; considering any portion of such analyses and of the factors considered, without considering all analyses and factors, could create a misleading or incomplete view of the process underlying Morgan Stanley's fairness opinion.

*Summary of Morgan Stanley's Analyses**Summary of Historical Constellation Energy Share Price Performance and Relative Sector Performance*

Morgan Stanley reviewed Constellation Energy's historical share price performance. The last three years averages, the 6 months and 1 month averages, the intraday highs and lows for September 16 and 17, 2008 and the current share price as of September 17, 2008 are presented in the table below:

Constellation Energy Stock Price Performance

Date	High	Low	Close
September 17	\$ 38.77	\$ 16.60	\$ 24.77
September 16	\$ 47.67	\$ 13.00	\$ 30.76
1 Month Average			\$ 60.41
6 Month Average			\$ 72.07
1 Year Average			\$ 87.24
2 Year Average			\$ 82.86
3 Year Average			\$ 68.06

In addition, Morgan Stanley reviewed Constellation Energy's weighted volume average share price. The one year average, the 3 months and 1 month averages, the 20-days and 10-days averages and the weighted volume average share price as of September 17, 2008 were as follows:

Constellation Energy Weighted Volume Average Price (WVAP)

Date	\$
September 17	24.77
10-Day WVAP	36.69
20-Day WVAP	44.00
1 Month WVAP	49.23
3 Month WVAP	65.54
1 Year WVAP	75.98

Against this background, Morgan Stanley no longer believed that Constellation Energy's share performance and average share price was comparable to its peer group companies but rather driven by liquidity and collateral concerns and a perceived bankruptcy risk (as discussed below). As a result, analysis by reference to the trading performance of Constellation Energy's peer group was no longer deemed relevant.

Table of Contents*Summary of Comparative Credit Default Swap Spreads Analyses*

Morgan Stanley reviewed the annual spreads of five-year credit default swaps (CDSs) of Constellation Energy and selected entities in the power and utility industry or companies in similar positions of financial distress that it viewed as reasonably comparable with Constellation Energy. None of the selected companies was directly comparable with Constellation Energy, but the companies were chosen because they have operations within the power and utility industry that are similar to those of Constellation Energy. The results are presented in the table below:

Historical Credit Default Swap Spreads

Agency	1 Year Prior	6 Months Prior	3 Months Prior	1 Month Prior	17-Sep-08	18-Sep-08
Exelon Generation	63.8	170.2	113.8	135.3	229.2	239.2
Exelon Corp.	60.8	151.2	100.2	123.5	192.5	216.2
PPL ES	59.5	188.8	115.2	149.1	281.7	261.7
PSEG Power	49.2	166.4	99.9	128.2	238.3	247.1
IG10 Index	61.0	185.0	112.0	134.4	203.4	178.7
Lehman Brothers	92.5	443.3	252.8	304.3	706.7(1)	706.7(1)
Constellation	52.8	179.3	101.7	181.8	765.0	280.8(2)

Note:

1. Lehman CDS traded through September 12, 2008 at a closing of 706.7. Lehman filed for bankruptcy protection on September 15, 2008.
2. The execution of the letter of intent between Constellation Energy and MidAmerican was announced on September 18, 2008. Constellation Energy's spreads were significantly higher than those of some other selected companies, reflecting the higher market expectation of default.

Summary of Liquidity Analyses

Constellation Energy's merchant energy and trading businesses are significantly correlated to commodity prices, with higher prices impacting the level of capital required to support its business activities. Given this fact, Constellation Energy's collateral requirements and its available liquidity would have changed given a downgrade in credit ratings. This is because certain contracts and agreements contain provisions that would have required additional collateral upon credit ratings decreases in the senior unsecured debt of Constellation Energy beyond certain levels. Morgan Stanley reviewed management's estimates of Constellation Energy's liquidity position for the period leading up to the execution of the merger agreement and management's conclusions that a credit ratings downgrade and the increased liquidity requirements that come with such a downgrade would put the standalone viability of Constellation Energy's businesses in question.

On August 27, 2008, Constellation Energy announced that it had entered into a firm underwritten commitment for an additional \$2.0 billion credit facility and its intention to sell its upstream gas assets and sell or recapitalize the international coal and freight business.

Conversations with S&P on September 16, 2008 highlighted a need for in excess of \$500 million in additional liquidity to avoid being downgraded.

On the morning of September 17, 2008, Constellation Energy affirmed the firm underwritten commitment for an additional \$2.0 billion credit facility, which it had previously announced on August 27, 2008. Constellation Energy furthermore announced that it had hired Morgan Stanley and UBS Securities to act in advisory capacity to evaluate strategic alternatives and was in active discussions with potential strategic partners.

Early in the evening on September 17, 2008, Moody's indicated, in a telephone conversation with Constellation Energy that it intended to downgrade Constellation Energy. In addition to such indication of a

Table of Contents

downgrade by Moody's, S&P had issued a research update on September 17, 2008, in which it announced that the sustained availability of the \$2.0 billion bank lines, which Constellation Energy had announced on August 27, 2008, the near-term infusion of equity, and the completion of the assets sale (referring to the sale of Constellation Energy's upstream gas assets and the international coal and freight intermediation businesses), or an outright sale of Constellation Energy were crucial. In its research update, S&P considered a multiple-notch downgrade likely in the absence of rapid execution of these credit supportive actions.

Morgan Stanley also reviewed publicly announced credit ratings of Constellation Energy as of September 19, 2008, as well as the corresponding commentary attached to such ratings decisions by the agencies. The ratings as of such date were as follows:

Constellation Energy Historical Credit Ratings

Agency	11-Aug-08	17-Sep-08	18-Sep-08
Standard & Poors	BBB+	BBB	BBB
Moody's	Baa1	Baa1	Baa2
Fitch	BBB+	BBB	BBB

Due to Moody's expected ratings downgrade, which was likely to have resulted in further deteriorations of Constellation Energy's liquidity and collateral situation and possibly resulting in additional ratings downgrades, Constellation Energy would have had to immediately post additional collateral to trading counterparties to avoid a breach of, or default under, certain existing contracts and agreements. The amount of required additional collateral was in excess of Constellation Energy's available liquidity. Further, liquidity requirements to participate in certain energy markets in which Constellation Energy typically operates would not have been available, thereby preventing Constellation Energy from participating in those energy markets, resulting in reduced earnings and cash flow.

Constellation Energy Valuation Summary

Morgan Stanley also considered that Constellation Energy's share price had recently decreased as a result of the following interrelated factors:

First, difficult market conditions in general and matters specific to Constellation Energy's financial circumstances had led to Constellation Energy having difficulty accessing additional liquidity.

Second, ratings agencies had announced that they were reviewing Constellation Energy for a potential credit rating downgrade triggered by concerns surrounding Constellation Energy's risk management, a weakened liquidity profile and an aggressive investment and acquisition strategy.

Third, Constellation Energy's businesses had entered into certain contracts and agreements containing provisions that would require additional collateral to be posted upon a decrease in credit ratings.

Morgan Stanley concluded that the circular link between the access to liquidity, the potential credit rating downgrade and the increased liquidity requirements that come with a downgrade had put the standalone viability of Constellation Energy's businesses in question. Furthermore, based on the alternatives presented to date, it was apparent that Constellation Energy had very limited options available that would provide an immediate and longer term liquidity solution to run its businesses.

As a result of all of the above factors, Morgan Stanley had concluded that traditional valuation methodologies did not apply and, on the evening of September 17, 2008, Constellation Energy's board of directors was left with no time for further negotiations and was forced to decide between two alternatives:

(1) Continue to operate Constellation Energy on its own, risking a ratings downgrade which then was likely to have resulted in further deteriorations of Constellation Energy's liquidity and collateral situation and possibly further resulting in ratings downgrades which would have increased drastically the likelihood of Constellation Energy being pushed into insolvency or bankruptcy proceedings;

Table of Contents

The nature of Constellation Energy's various businesses, assets and financing arrangements, some of which would be afforded differing treatment in bankruptcy, and the complexity of Constellation Energy's operations would have resulted in difficult issues of valuation in the event of a bankruptcy, creating significant uncertainty regarding the value of Constellation Energy common stock in such an environment. On the basis of information obtained from Constellation Energy's management regarding losses to be incurred by Constellation Energy's energy trading business, Morgan Stanley assumed, without independent verification of such information, that the holders of Constellation Energy common stock were likely to receive less than \$26.50 per share in the event of the bankruptcy of Constellation Energy; or

(2) Accept the offer from MidAmerican for \$26.50 cash per share for 100% ownership accompanied by an immediate equity injection that the ratings agencies had indicated would likely remove the specter of a downgrade or risk losing the transaction, as MidAmerican's offer would expire at 5:00 p.m. (Eastern time) on September 19, 2008.

Finally, a financial proposal received by Constellation Energy from another party for a capital injection equal to approximately \$450 million at \$50.00 per share was subject to conditions that Constellation Energy felt could not be met nor would such proposal solve Constellation Energy's liquidity problem. Other parties that expressed interest in a potential transaction or investment were unable to provide firm offers within the required short timeframe. In addition, the unsolicited proposal received from EDFI, KKR and TPG on September 19, 2008 was deemed to be non-actionable given uncertainty around regulatory approvals, financing sources and ownership structure.

Other

The preparation of a financial opinion is a complex process and is not necessarily susceptible to a partial analysis or summary description. In arriving at its opinion, Morgan Stanley considered the results of all of its analyses as a whole and did not attribute any particular weight to any analysis or factor it considered. Morgan Stanley believed that selecting any portion of its analyses, without considering all analyses as a whole, would create an incomplete view of the process underlying its analyses and opinion. In addition, Morgan Stanley may have given various analyses and factors more or less weight than other analyses and factors, and may have deemed various assumptions more or less probable than other assumptions.

Morgan Stanley reviewed the above information and prepared its analyses for purposes of providing its opinion to Constellation Energy's board of directors as to the fairness, from a financial point of view, of the consideration to be received by the holders of Constellation Energy common stock pursuant to the merger agreement. These analyses do not purport to be appraisals or necessarily reflect the prices at which the businesses or securities of Constellation Energy actually may have been sold.

In performing its analyses, Morgan Stanley made numerous assumptions with respect to industry performance, general business and economic conditions and other matters. Many of these assumptions are beyond the control of Constellation Energy. In addition, analyses based on forecasts of future results are not necessarily indicative of actual future results, which may be significantly more or less favorable than suggested by these analyses. These analyses are inherently subject to uncertainty, being based upon numerous factors or events beyond the control of the parties or their respective advisors. Any estimates contained in Morgan Stanley's analyses are not necessarily indicative of future results or actual values, which may be significantly more or less favorable than those suggested by such estimates.

Morgan Stanley conducted the analyses described above solely as part of its analysis of the fairness from a financial point of view of the consideration to be received by the holders of Constellation Energy common stock pursuant to the merger agreement and in connection with the delivery of its opinion to Constellation Energy's board of directors. These analyses do not purport to be appraisals or to reflect the prices at which shares of Constellation Energy common stock might actually trade.

Table of Contents

The merger consideration was determined through arm's-length negotiations between Constellation Energy and MidAmerican and was approved by Constellation Energy's board of directors. Morgan Stanley provided advice to Constellation Energy during these negotiations. Morgan Stanley did not, however, recommend any specific merger consideration to Constellation Energy or that any specific merger consideration constituted the only appropriate merger consideration for the merger.

Morgan Stanley's opinion was one of many factors taken into consideration by Constellation Energy's board of directors in making the determination to approve the merger agreement and to recommend that Constellation Energy's stockholders approve the merger. Consequently, the review and analyses as described above should not be viewed as determinative of the opinion of Constellation Energy's board of directors with respect to the merger consideration or of whether Constellation Energy's board of directors would have been willing to agree to a different merger consideration.

Morgan Stanley is a global financial services firm engaged in the securities, investment management and individual wealth management business. Morgan Stanley was selected to act as investment banker to Constellation Energy because of Morgan Stanley's expertise and reputation and because its investment banking professionals have substantial experience in comparable transactions (including those involving Constellation Energy). Morgan Stanley, as part of its investment banking and financial advisory business, is continuously engaged in the valuation of businesses and securities in connection with mergers and acquisitions, negotiated underwritings, competitive biddings, secondary distributions of listed and unlisted securities, private placements and valuations for corporate, estate and other purposes. In the ordinary course of its trading, brokerage, investment management and financing activities, Morgan Stanley or its affiliates may actively trade the debt and equity securities of Constellation Energy for its own accounts or for the accounts of its customers and, accordingly, may at any time hold long or short positions in such securities. Morgan Stanley has acted as financial advisor to the board of directors of Constellation Energy in connection with the merger and will receive a fee of \$20 million for its services, a substantial portion of which is contingent upon the closing of the merger. Constellation Energy has also agreed to reimburse Morgan Stanley for its expenses incurred in performing its services. In addition, Constellation Energy has agreed to indemnify and hold harmless Morgan Stanley and its affiliates, their respective officers, directors, employees and agents and each other person, if any, controlling Morgan Stanley or any of its affiliates from and against any losses, claims, damages or liabilities related to, arising out of or in connection with Morgan Stanley's engagement in the merger.

The issuance of the opinion in connection with the transaction was approved by a committee of Morgan Stanley investment banking and other professionals in accordance with its customary practice. In the two years prior to the date of the opinion, Morgan Stanley has provided financial advisory and financing services for Constellation Energy and has received fees in connection with such services. These services include participating in two of Constellation Energy's current credit facilities for a total amount of \$275 million. Specifically, Morgan Stanley is committed to provide \$225 million in Constellation Energy's \$3.85 billion five-year unsecured revolving credit facility due July 2012 and \$50 million in Constellation Energy's \$750 million six-month revolving credit facility due December 2008. Morgan Stanley may also seek to provide services to Constellation Energy in the future and expects to receive fees for the rendering of services.

Common Stock Ownership of Significant Shareholders

EDFI acquired Constellation Energy common stock through open market purchases in accordance with an investor agreement between EDFI and Constellation Energy, entered into in connection with the joint venture arrangement between EDFI and Constellation Energy with respect to development of nuclear projects in the United States and Canada. Under the terms of the investor agreement, EDFI and Constellation Energy agreed on certain terms and conditions of EDFI's acquisition of Constellation Energy common stock. EDFI is permitted to acquire up to 9.9% of Constellation Energy common stock, and has agreed to vote its shares in the manner recommended by Constellation Energy's board of directors. EDFI also agreed not to, singly or as part of a group, directly or indirectly, without Constellation Energy's consent, acquire any additional securities in excess of the 9.9% ownership interest permitted by the investor agreement, participate in a solicitation of proxies, join with

Table of Contents

any other parties to form a group with respect to Constellation Energy common stock (as determined pursuant to Section 13(d) of the Exchange Act), act alone or in concert with others to seek or offer to control or influence, in any manner, our management, board of directors or policies, or seek to make a proposal or public announcement with respect to a merger, consolidation or sale of all or substantially all of the assets or a majority of the outstanding shares of Constellation Energy, or any form of restructuring, or any other proposal inconsistent with the terms of the investor agreement. Under the terms of the investor agreement, EDFI also agreed to restrictions on its ability to dispose of its shares of Constellation Energy common stock. Specifically, EDFI may not dispose of any of its shares of Constellation Energy common stock for three years from the date of the investor agreement, and the amount of shares sold by EDFI in aggregate may not exceed, in any single day, 20% of the average daily trading volume of Constellation Energy common stock over the preceding 30-day trading day period. According to the Schedule 13D filed by EDFI on September 8, 2008, as of that date EDFI owned approximately 9.51% of Constellation Energy common stock.

Financing the Merger

At the time of signing the merger agreement, MidAmerican issued \$1 billion of 11% trust preferred securities of a newly formed statutory business trust to Berkshire. The proceeds of the issuance were subsequently contributed to a direct wholly-owned subsidiary of MidAmerican, MEHC Investment, Inc. In turn, MEHC Investment, Inc. then used such funds to purchase \$1 billion of Constellation Energy's Series A Preferred Stock.

MidAmerican will finance the approximately \$4.73 billion merger consideration through the issuance of \$2.73 billion of its common stock to Berkshire, and \$2.0 billion in aggregate principal amount of subordinated debentures issued to a statutory business trust that will be newly formed and wholly-owned by MidAmerican.

The newly formed statutory business trust will simultaneously offer \$2.0 billion in aggregate principal amount of 11% trust preferred securities to Berkshire or certain of its subsidiaries, and will invest the proceeds it receives from the 11% trust preferred securities offering in the \$2.0 billion aggregate principal amount of subordinated debentures issued by MidAmerican. The \$2.0 billion in aggregate principal amount of 11% trust preferred securities will have maturities and dividend provisions identical to comparable provisions in the subordinated debentures issued by MidAmerican, and will be substantially identical as to other terms to the prior series issued by trusts wholly-owned by MidAmerican to various Berkshire subsidiaries.

Interests of Constellation Energy's Directors and Executive Officers in the Merger

Under the terms of various contractual agreements and corporate benefit and incentive plans, Constellation Energy's executive officers and directors will be entitled to receive certain payments and benefits in connection with the completion of the merger. The agreements and plans provide for payments and benefits under the following two circumstances:

If an individual's employment with Constellation Energy is terminated under specified circumstances following the merger; and

Upon completion of the merger, with respect to currently outstanding equity and long-term incentive awards.

Payments Due Upon a Termination of Employment

Under the terms of change in control severance agreements with eight of the current executive officers of Constellation Energy, an executive officer whose employment with Constellation Energy is terminated under specified circumstances following the completion of the merger will be entitled to receive specified payments and benefits. None of these payments or benefits will be received by executive officers who remain employed with Constellation Energy for at least two years following completion of the merger. Similarly, under the terms of Constellation Energy's annual incentive bonus plan, which covers approximately 160 Constellation Energy

Table of Contents

employees (including each executive officer), an employee whose employment with Constellation Energy is terminated under specified circumstances following the completion of the merger will, notwithstanding such termination, be entitled to receive his or her annual bonus, pro-rated for the portion of the year worked.

Change in Control Agreements

Each of Henry B. Barron, Thomas F. Brady, Thomas V. Brooks, John R. Collins, Beth Perlman, Mayo A. Shattuck, Michael J. Wallace and Irving B. Yoskowitz is a party to a change in control severance agreement with Constellation Energy. We refer to the agreements (as amended and restated, if applicable) herein as the Change in Control Agreements. The completion of the merger will constitute a change in control under the Change in Control Agreements.

In general, payments and benefits under the Change in Control Agreements are intended to provide salary and bonus payments and retirement and insurance payments and benefits equal to what an executive officer whose employment is terminated following the merger would have received if the executive officer had continued to be employed for an additional two or three years (depending on the terms of the individual s agreement).

Potential Cash Severance Payments. If the employment of an executive officer who is party to a Change in Control Agreement is terminated by Constellation Energy without cause, or if the executive officer resigns with good reason (each, as such terms are defined in the executive s Change in Control Agreement), and if this occurs within two years following completion of the merger, a qualifying termination occurs. Subject to the modifications described in the following paragraph, in such event, the executive officer would become entitled to receive a lump-sum cash severance payment equal to two times (for Messrs. Barron, Brooks and Collins, and Ms. Perlman) or three times (for Messrs. Brady, Shattuck, Wallace and Yoskowitz) the sum of (i) the executive s then current annual base salary or the executive s annual base salary at the time of the merger, whichever is higher, plus (ii) the executive s average annual incentive bonus (calculated as the average of the executive s two highest annual incentive bonus amounts in the past four or five years (depending on the terms of the individual s agreement), measured from the date of the merger or the date of termination of employment, whichever is higher). The cash severance benefits for Mr. Brooks cannot exceed \$5,000,000, subject to the modifications described in the following paragraph.

In connection with, and subject to the completion of, the merger, Mr. Shattuck has waived his right to receive payment of any cash severance to which he would otherwise be entitled under his Change in Control Agreement. In addition, in connection with, and subject to completion of, the merger, all other executive officers with Change in Control Agreements (other than Mr. Barron) have agreed to reduce their cash severance benefits to the lesser of (i) one times (reduced from two or three times, as applicable) their base salary and incentive bonus, and (ii) \$2 million. Constellation Energy concluded that it was not appropriate to require a reduction in the cash severance payable to Mr. Barron under his Change in Control Agreement in light of his recent commencement of employment and brief tenure with Constellation Energy.

Other Potential Severance Benefits. In the event of a qualifying termination, each executive officer who is a party to a Change in Control Agreement (other than Mr. Brooks, who will not receive continued benefits) will receive two or three years of continued health and life insurance benefits, depending on the terms of the executive s agreement. For a discussion of other benefits payable upon termination of employment to an executive officer who is not a party to a Change in Control Agreement, see *The Merger Payments Due Upon Termination of Employment Senior Management Severance Plan* beginning on page 59.

If an executive officer who is party to a Change in Control Agreement would be subject to the excise tax as a result of Section 280G of the U.S. Internal Revenue Code of 1986, as amended, or the Code, and is required to

Table of Contents

make a payment due to the application of this section, the executive officer will receive a gross-up payment such that he or she is placed in the same after-tax position as if no excise tax had been imposed. Constellation Energy estimates, based on assumptions that it believes are reasonable, that the maximum aggregate amount of gross-up payments that could be owed to the executive officers who are parties to the Change in Control Agreements would be approximately \$2.6 million.

In addition, Constellation Energy has the right to delay payments to comply with Section 409A of the Code and the obligation to notify the executive officer if a payment would be subject to Section 409A, as well as to negotiate reasonably and in good faith to amend the terms of the arrangements between the executive officer and Constellation Energy to comply with Section 409A of the Code. Constellation Energy has also agreed not to take actions (without the executive's written consent) that would expose any benefits or payments to the executive officer to additional taxes under Section 409A of the Code and to hold the executive officer harmless for any action Constellation Energy may take in violation of these obligations.

The Change in Control Agreements also entitle Constellation Energy's executive officers to receive certain replacement options. In connection with the execution of the merger agreement, the eight executive officers who are parties to Change in Control Agreements executed waivers of rights to receive equity in the surviving corporation following completion of the merger that they otherwise would have been entitled to receive under their Change in Control Agreements. The waivers terminate upon any termination of the merger agreement prior to completion of the merger.

Based upon compensation and benefit levels in effect on the date of this proxy statement and assuming that the merger is consummated on June 30, 2009 and that a qualifying termination occurs immediately thereafter, each executive officer who is a party to a Change in Control Agreement would be entitled to receive the following severance benefits in connection with the termination of such executive's employment.

Executive Officer	Cash Severance Payments Upon a Qualifying Termination	Estimated Value of Continued Health Benefits
Mr. H. Barron	\$ 3,450,000	\$ 42,600
Mr. T. Brady	\$ 1,031,250	\$ 32,100
Mr. T. Brooks	\$ 2,000,000	\$ 0
Mr. J. Collins	\$ 1,650,000	\$ 64,900
Ms. B. Perlman	\$ 1,406,250	\$ 22,000
Mr. M. Shattuck	\$ 0 (1)	\$ 54,200
Mr. M. Wallace	\$ 2,000,000	\$ 38,600
Mr. I. Yoskowitz	\$ 2,000,000	\$ 83,100

- (1) In connection with, and subject to the completion of, the merger, Mr. Shattuck has waived his right to receive payment of any cash severance to which he would otherwise be entitled under his Change in Control Agreement. Mr. Shattuck has requested that Constellation Energy donate the amount that he would have received in the event of the termination of his employment following a change of control, which would be approximately \$18 million, to the Constellation Energy Group Foundation.

For a discussion of the severance benefits that would be owed upon a termination of employment to an executive officer who is not a party to a Change in Control Agreement, see *The Merger Payments Due Upon a Termination of Employment Senior Management Severance Plan* beginning on page 59.

Potential Enhanced Supplemental Retirement Benefits. If the employment of an executive officer who is party to a Change in Control Agreement (other than Mr. Brooks, who is not eligible for enhanced pension benefits) is terminated within two years following the merger, and if that termination is a qualifying termination, then the executive officer would become entitled to receive a lump-sum cash payment in respect of enhanced supplemental retirement benefits under Constellation Energy's Senior Executive Supplemental Plan, its Supplemental Pension Plan or its Benefits Restoration Plan (collectively referred to herein as the Constellation

Table of Contents

Energy Supplemental Plans), calculated as of the date of termination or the date of completion of the merger, whichever is greater, by (a) waiving any age and service eligibility requirements, (b) using a deemed average annual incentive bonus amount in lieu of any other annual incentive bonus amount, (c) adding three years of executive level service (two years for Messrs. Barron and Collins, and Ms. Perlman) to the executive's actual service, and (d) for the purpose of computing the present value of the benefit that otherwise would be paid to the executive officer at age 62, adding three years to the executive officer's age (two years for Messrs. Barron and Collins, and Ms. Perlman). In general, the enhancements are intended to provide an executive officer whose employment is terminated following the merger with the additional value that would have been received if the executive officer had continued to be employed for an additional two or three years (depending on the terms of the individual's Change in Control Agreement). For an executive officer who has satisfied the age and service eligibility requirements of the Constellation Energy Supplemental Plans as of the date of a qualifying termination (meaning that the executive officer would have been entitled to receive the executive's supplemental retirement benefit upon any termination of employment, even if the merger had not occurred), this arrangement does not provide for any accelerated vesting of such executive's supplemental retirement benefits.

Mr. Brooks is not entitled to any enhanced supplemental retirement benefits or any accelerated vesting of such benefits. Mr. Shattuck is not currently vested in any portion of the supplemental retirement benefits under the Senior Executive Supplemental Plan. None of those supplemental retirement benefits will vest on an accelerated basis or become payable to him as a result of the completion of the merger or any changes to his position, responsibilities and compensation that are contemplated by the merger.

Based upon compensation and benefit levels in effect on the date of this proxy statement and assuming that the merger is consummated on June 30, 2009 and a qualifying termination occurs immediately thereafter, each executive officer who is a party to a Change in Control Agreement would be entitled to receive the following accelerated and enhanced supplemental retirement benefits in connection with the termination of such executive's employment:

Executive Officer	Acceleration of amounts executive officer would otherwise have received		Total potential value of acceleration and enhancement if terminated (A + B)
	if not terminated prior to standard vesting (A)	Enhancement if terminated (B)	
Mr. H. Barron	\$ 215,600	\$ 625,300	\$ 840,900
Mr. T. Brady	\$ 0	\$ 3,110,800	\$ 3,110,800
Mr. T. Brooks	\$ 0	\$ 0	\$ 0
Mr. J. Collins	\$ 0	\$ 1,355,000	\$ 1,355,000
Ms. B. Perlman	\$ 0	\$ 543,700	\$ 543,700
Mr. M. Shattuck	\$0 (1)	\$ 9,367,500	\$ 9,367,500
Mr. M. Wallace	\$ 0	\$ 8,031,700	\$ 8,031,700
Mr. I. Yoskowitz	\$ 0	\$ 1,201,400	\$ 1,201,400

- (1) In connection with the merger, Mr. Shattuck has waived his right to accelerated vesting of his net accrued benefit under the Constellation Energy Supplemental Plans that would exist only if the merger is completed. (This waiver is effective only if the merger is completed and will not apply if the merger is terminated.) As a result of this waiver, completion of the merger will have no acceleration or other impact on Mr. Shattuck's rights to receive his net accrued benefits.

Treatment of Annual Incentive Bonus in Year of Employment Termination

Pursuant to the Constellation Energy Executive Annual Incentive Plan, Constellation Energy officers and key employees are eligible for annual incentive awards based on the achievement of specified performance goals. Approximately 160 employees participate in the plan. The plan provides that if a plan participant's service is terminated within two years following a change in control (as defined in the plan), the participant will be entitled to receive an award for the performance year during which the separation from service occurs, calculated assuming the participant has achieved the maximum performance possible. The award will be pro-rated for the portion of the year worked, although the compensation committee of Constellation Energy's board of directors

Table of Contents

has the discretion to award the entire annual amount. Payment of the award will be made in a lump sum in cash within 60 days of the participant's separation from service. The completion of the merger will constitute a change in control under the Executive Annual Incentive Plan.

The following table sets forth for each executive officer of Constellation Energy who is a party to a Change in Control Agreement and for the other three executive officers as a group, such pro rata amount that each Constellation Energy executive officer would be entitled to receive, assuming consummation of the merger and termination of such executive officer's employment with Constellation Energy on June 30, 2009.

Executive Officer	Award for Year of Termination (assuming termination on June 30, 2009)	
Mr. H. Barron	\$	862,500
Mr. T. Brady	\$	281,250
Mr. T. Brooks	\$	397,500
Mr. J. Collins	\$	600,000
Ms. B. Perlman	\$	562,500
Mr. M. Shattuck	\$	1,950,000
Mr. M. Wallace	\$	810,000
Mr. I. Yoskowitz	\$	825,000
All other executive officers as a group (3 people)	\$	862,500

Treatment of Outstanding Awards Under Constellation Energy's Compensation Plans

Treatment of Constellation Energy Long-Term Incentive Plan Awards.

Stock Options. Pursuant to the terms of the merger agreement, all options to purchase Constellation Energy common stock outstanding as of September 17, 2008 under the 2002 Senior Management Long-Term Incentive Plan, the Executive Long-Term Incentive Plan, the Management Long-Term Incentive Plan, the 1995 Long-Term Incentive Plan and the 2007 Long Term Incentive Plan (such plans collectively referred to herein as the "Constellation Energy Stock Plans"), whether or not exercisable (such stock options collectively referred to herein as the "Company Employee Stock Options"), will be cancelled before completion of the merger. In consideration for cancellation of the Company Employee Stock Options, each holder thereof shall be entitled to receive a payment in cash equal to (i) the amount, if any, by which the merger consideration of \$26.50 per share of Constellation Energy common stock exceeds the exercise price of the Company Employee Stock Options, multiplied by (ii) the total number of shares of Constellation Energy common stock then issuable upon the exercise of the Company Employee Stock Options, without interest and less any applicable withholding taxes.

All of the Company Employee Stock Options currently held by the executive officers with Change in Control Agreements and the three other executive officers as a group described herein have exercise prices that exceed the merger consideration of \$26.50 per share and, accordingly, such Company Employee Stock Options will be canceled in connection with the completion of the merger without any consideration being paid to such executive officers in respect thereof.

Restricted Stock, Restricted Stock Units and Performance Units. Pursuant to the terms of the merger agreement, Constellation Energy is obligated to take all actions necessary to provide for the cancellation of each award outstanding immediately prior to completion of the merger (including all restricted stock, restricted stock units and stock equivalents, but excluding Company Employee Stock Options and performance units) (such awards, excluding Company Employee Stock Options and performance units, being collectively referred to herein as the "Company Awards"). Upon completion of the merger, each Company Award will be cancelled and each holder of Company Awards will be entitled, in cancellation and settlement for such Company Awards, to payment in cash equal to (i) \$26.50, multiplied by (ii) the total number of shares of Constellation Energy common stock that would be issuable upon full vesting of such award or for which restrictions would lapse upon full vesting of such award, without interest and less any applicable withholding taxes. Upon completion of the merger, each holder of a Company Award granted under the Constellation Energy Stock Plans, except those awards granted under the 2002 Senior Management Long-Term Incentive Plan and the Executive Long-Term

Table of Contents

Incentive Plan, will be paid on or promptly following the effective time of the merger a pro rata portion of such aggregate cancellation payment, with the pro rata portion determined based on the number of months in the vesting period that have elapsed as of the closing date of the merger as compared to the total number of months in the original vesting period. The remainder of the cancellation payment will be paid to the holder at the end of the original vesting period, subject to such holder's continued service through the applicable vesting date. Each holder of a Company Award granted under the 2002 Senior Management Long-Term Incentive Plan and the Executive Long-Term Incentive Plan will be paid on or promptly following the effective time of the merger the full amount of such cancellation payment.

Constellation Energy has issued performance units that entitle the holder up to \$2.00 per unit if specified performance targets are achieved. Under the terms of the Constellation Energy Stock Plans, a pro rata portion of all outstanding performance units under such awards will become immediately and fully vested and earned upon a change in control (as defined in the plan), with the pro rata portion determined based on the number of months in the performance period that have elapsed as of the date of the change in control as compared to the total number of months in the performance period. In addition, pursuant to the Constellation Energy Stock Plans, each outstanding performance unit that does not become vested upon a change in control pursuant to the terms of the applicable plan will expire upon a change in control such that the holder thereof will be entitled to no further payments or benefits with respect thereto. The merger will constitute a change in control under the Constellation Energy Stock Plans. If the merger is completed on June 30, 2009, the performance periods for the units awarded under the 2007 long-term incentive plan and the 2008 long-term incentive plan will not have been completed. Consequently, a pro rata portion of all outstanding performance units under such awards will become immediately and fully vested and earned upon completion of the merger, with the pro rata portion determined based on the number of months in the performance period that have elapsed as of the date of completion of the merger as compared to the total number of months in the performance period. Under the terms of the merger agreement, each outstanding performance unit that becomes vested upon the consummation of the merger will entitle the holder thereof to a payment in cash equal to \$2.00 per performance unit, without interest and less any applicable withholding taxes, and the performance units that do not become so vested will be forfeited for no consideration.

The following table sets forth for each executive officer of Constellation Energy who is a party to a Change in Control Agreement and for the other three executive officers as a group, the amount in cash, assuming completion of the merger on June 30, 2009 and a per share price of Constellation Energy common stock of \$26.50, that would be received in respect of the following: (i) performance units under the 2007 long-term incentive plan and the 2008 long-term incentive plan, and (ii) outstanding shares of restricted stock and restricted stock units that will vest upon completion of the merger. The following table does not take into account awards that will otherwise become vested in the ordinary course in accordance with the terms and conditions of such awards prior to June 30, 2009 without regard to the proposed transaction.

Executive Officer	2007 LTIP Cash for 2007-2009 Performance Units	2008 LTIP Cash for 2008-2010 Performance Units	Cash Received in Respect of Unvested Restricted Stock and Restricted Stock Units
Mr. H. Barron	\$ 0	\$ 431,300	\$ 236,400 (1)
Mr. T. Brady	\$ 604,200	\$ 318,800	\$ 0
Mr. T. Brooks	\$ 4,166,700	\$ 3,625,000	\$ 430,400 (2)
Mr. J. Collins	\$ 666,700	\$ 550,000	\$ 0
Ms. B. Perlman	\$ 500,000	\$ 300,000	\$ 0
Mr. M. Shattuck	\$ 6,666,700	\$ 4,250,000	\$ 0
Mr. M. Wallace	\$ 1,250,000	\$ 750,000	\$ 0
Mr. I. Yoskowitz	\$ 833,300	\$ 600,000	\$ 0
All other executive officers as a group (3 people)	\$ 4,450,000	\$ 3,800,000	\$ 0

- (1) Mr. Barron was granted restricted stock units on April 1, 2008 with a four year pro rata vesting period. The portion of such award that was not otherwise scheduled to become vested prior to June 30, 2009 will be

Table of Contents

converted into cash and a prorated amount of such cash (approximately \$236,400) will be paid out upon completion of the merger. The remaining portion of such cash will be paid out on the original vesting dates.

- (2) Mr. Brooks holds 16,243 fully vested stock units with sale restrictions that were otherwise scheduled to end on February 24, 2010. These units will be converted to cash on the change in control date with a value of approximately \$430,400 and will be paid at the end of the original restriction period.

Senior Management Severance Plan

Executives who are parties to Change in Control Agreements are not eligible to participate in the Senior Management Severance Plan. Under the terms of the Senior Management Severance Plan, eligible employees whose service with Constellation Energy is terminated without cause will be eligible to receive a minimum severance payment based on number of years of service, with a minimum payment of six months (and a maximum payment of twelve months) of base salary and average bonus, plus medical and dental continuation during the severance period and executive outplacement and educational assistance. Under the plan, an individual will be deemed terminated by Constellation Energy if such individual is required to move more than 50 miles from such individual's current office location. If the employment of each of the three executive officers of Constellation Energy who are not party to a Change in Control Agreement were to be terminated (or deemed terminated), the aggregate amount of cash severance that would be payable to these executives under the Senior Management Severance Plan or the company's standard severance plans, as applicable, would be approximately \$1,064,400.

Deferred Compensation Plan for Non-Employee Directors

Pursuant to the Constellation Energy Deferred Compensation Plan for non-employee directors, notwithstanding a director's deferral elections or any other provision of the plan relating to distribution of deferred amounts, if a director's board membership terminates for any reason within one year following a change in control (as defined in the plan), the director will be entitled to a lump-sum distribution of all amounts deferred under the plan within 30 days of the termination of such board membership. The completion of the merger will be a change in control under the Deferred Compensation Plan. None of the current non-employee directors will continue as board members of the surviving company following completion of the merger. The current aggregate balance deferred under the Deferred Compensation Plan as of September 30, 2008 is approximately \$4.7 million. This balance represents deferred directors' fees plus earnings on such fees. The directors have no severance or other benefits that will be payable or continue after termination of their service on the board, including any continuing health or supplemental retirement benefits.

Indemnification and Insurance

The surviving corporation has agreed pursuant to the merger agreement to provide certain rights of indemnification to current and former directors and officers, employees or fiduciaries under benefit plans of Constellation Energy against all losses arising out of actions or omissions occurring at or prior to completion of the merger that are based on or arise out of the fact that such person is or was a director, officer, employee or fiduciary under benefit plans. In addition, the surviving corporation after completion of the merger has agreed to provide certain rights of indemnification with respect to losses based on or arising out of the transactions contemplated by the merger agreement and to continue to provide directors and officers of Constellation Energy directors' and officers' liability insurance following the completion of the merger. See The Merger Agreement Indemnification and Insurance beginning on page 83.

Material U.S. Federal Income Tax Consequences of the Merger to Our Shareholders

The following is a general discussion of certain U.S. federal income tax consequences of the merger to holders of Constellation Energy common stock who receive cash in exchange for such Constellation Energy common stock pursuant to the merger and who have no direct or indirect interest in Constellation Energy after the merger. This discussion is a summary for general information purposes only and does not consider all aspects

Table of Contents

of U.S. federal income taxation that may be relevant to holders in light of their particular investment circumstances or to certain types of holders subject to special tax rules, including partnerships, banks, financial institutions or other financial services entities, broker-dealers, insurance companies, tax-exempt organizations, regulated investment companies, real estate investment trusts, retirement plans, individual retirement accounts or other tax-deferred accounts, persons who use or are required to use mark-to-market accounting, persons that hold Constellation Energy common stock as part of a straddle, a hedge or a conversion transaction, investors in partnerships and other pass-through entities, persons who acquired Constellation Energy common stock in connection with the performance of services, persons with a functional currency other than the U.S. dollar, certain former citizens or permanent residents of the United States and persons subject to the alternative minimum tax. This discussion also does not address any U.S. federal non-income tax considerations or any state, local or foreign income or non-income tax considerations. This discussion assumes that holders hold Constellation Energy common stock as capital assets (generally, assets held for investment) within the meaning of Section 1221 of the Code. This discussion is based on the Code and applicable U.S. Treasury Regulations, rulings, administrative pronouncements and decisions as of the date hereof, all of which are subject to change or differing interpretations at any time with possible retroactive effect. The authorities on which this discussion is based are subject to various interpretations, and any views expressed within this discussion are not binding on the U.S. Internal Revenue Service (which we refer to as the IRS) or the courts. No assurance can be given that the IRS or the courts will agree with the tax consequences described herein.

This discussion applies to holders of Constellation Energy common stock who receive cash in exchange for such Constellation Energy common stock pursuant to the merger and who have no direct or indirect interest in Constellation Energy after the merger. The tax considerations of the merger may differ for holders who have any direct or indirect interest in Constellation Energy after the merger, and this discussion does not apply to such holders. Constellation Energy strongly encourages any such holder to consult such holder's own tax advisor.

For purposes of this discussion, a *U.S. Holder* is a beneficial owner of Constellation Energy common stock that is:

a citizen or individual resident of the United States;

a corporation (or entity treated as a corporation for U.S. federal income tax purposes) created or organized, or treated as created or organized, in or under the laws of the United States, any State thereof or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust (1) if a court within the United States is able to exercise primary supervision over the trust's administration and one or more U.S. persons have authority to control all substantial decisions of the trust or (2) that has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

For purposes of this discussion, a *Non-U.S. Holder* is a beneficial owner of Constellation Energy common stock that does not qualify as a U.S. Holder under the definition above.

If a partnership (or entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds Constellation Energy common stock, the tax treatment of a partner in the partnership generally will depend upon the status of the partner and the activities of the partnership. In this event, the partner and partnership are urged to consult their tax advisors concerning the tax treatment of the merger.

EACH HOLDER OF CONSTELLATION ENERGY COMMON STOCK IS URGED TO CONSULT ITS TAX ADVISOR REGARDING THE SPECIFIC U.S. FEDERAL, STATE AND LOCAL AND NON-U.S. INCOME AND OTHER TAX CONSIDERATIONS OF RECEIVING CASH IN EXCHANGE FOR SUCH CONSTELLATION ENERGY COMMON STOCK PURSUANT TO THE MERGER.

Table of Contents

Consequences to a U.S. Holder

A U.S. Holder that receives cash in exchange for Constellation Energy common stock pursuant to the merger and that has no direct or indirect interest in Constellation Energy after the merger will recognize capital gain or loss equal to the amount of cash received in exchange for the Constellation Energy common stock minus the U.S. Holder's adjusted tax basis in the Constellation Energy common stock. Any capital gain or loss recognized by the U.S. Holder will generally be long-term capital gain or loss if the U.S. Holder has held the Constellation Energy common stock for more than one year at the time of the disposition of such Constellation Energy common stock and short-term capital gain or loss otherwise. Long-term capital gains recognized by individuals are taxable under current law at a maximum federal income tax rate of 15%, and short-term capital gains recognized by individuals are taxable under current law at a maximum federal income tax rate of 35%. Capital gains recognized by corporations (long-term and short-term) are taxable under current law at a maximum federal income tax rate of 35%. A U.S. Holder's ability to use any capital loss to offset other income or gain is subject to certain limitations.

Consequences to a Non-U.S. Holder

A Non-U.S. Holder that receives cash in exchange for Constellation Energy common stock pursuant to the merger and that has no direct or indirect interest in Constellation Energy after the merger generally will not be subject to U.S. federal income taxation unless:

gain resulting from the disposition of Constellation Energy common stock is effectively connected with the conduct of a U.S. trade or business; or

(1) Constellation Energy is or has been a U.S. real property holding corporation, orUSRPHC, as defined in Section 897 of the Code at any time within the lesser of the five-year period preceding the disposition of Constellation Energy common stock and the Non-U.S. Holder's holding period for the Constellation Energy common stock, (2) the Non-U.S. Holder owned more than 5% of the Constellation Energy common stock at any time within such period, and (3) certain other conditions are satisfied.

In general, a corporation is a USRPHC if the fair market value of its U.S. real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide (domestic and foreign) real property interests and its other assets used or held for use in a trade or business. We do not believe that Constellation Energy is or has been a USRPHC at any time within the five-year period preceding the merger.

If a Non-U.S. Holder is subject to U.S. federal income taxation upon the receipt of cash in exchange for Constellation Energy common stock pursuant to the merger, the Non-U.S. Holder generally will be taxable in the same manner as a U.S. Holder. Additionally, if the gain resulting from the disposition of Constellation Energy common stock is effectively connected with the conduct of a U.S. trade or business, a Non-U.S. Holder that is a corporation may also be subject to a 30% branch profits tax on after-tax profits effectively connected with a U.S. trade or business to the extent that such after-tax profits are not reinvested and maintained in the U.S. business. A Non-U.S. Holder's ability to use any capital loss to offset other income or gain subject to U.S. federal income taxation is subject to certain limitations.

Under certain circumstances, an individual Non-U.S. Holder who is present in the U.S. for 183 days or more during the individual's taxable year in which the disposition of Constellation Energy common stock pursuant to the merger occurs may, unless such gain is already subject to tax as effectively connected with the conduct of a U.S. trade or business, be subject to a 30% tax on the gross amount of the gain on such disposition. In this case, the Non-U.S. Holder's ability to use other losses to offset the gain on the Constellation Energy common stock will be limited.

Income Tax Treaties

If a Non-U.S. Holder is eligible for treaty benefits under an income tax treaty entered into by the U.S., the Non-U.S. Holder may be able to reduce or eliminate certain of the U.S. federal income taxes discussed above,

Table of Contents

such as the branch profits tax, and the Non-U.S. Holder may be able to treat gain, even if effectively connected with a U.S. trade or business, as not subject to U.S. federal income taxation if the U.S. trade or business is conducted through a permanent establishment located in the U.S. Non-U.S. Holders are urged to consult their tax advisors regarding possible relief under an applicable income tax treaty.

Withholding and Information Reporting

A U.S. Holder or Non-U.S. Holder that receives cash in exchange for Constellation Energy common stock pursuant to the merger may be subject to backup withholding (currently at a rate of 28%) on the amount of cash received unless the U.S. Holder or Non-U.S. Holder is exempt from backup withholding and, when required, demonstrates that status or otherwise complies with the applicable requirements of the backup withholding rules. A U.S. Holder of Constellation Energy common stock should generally complete and sign the IRS Form W-9 included in the Letter of Transmittal, in accordance with the instructions provided thereon, to provide the information and certifications necessary to avoid backup withholding. A Non-U.S. Holder of Constellation Energy common stock should generally complete and sign an appropriate Form W-8 (a copy of which may be obtained from the Depository) attesting to such Non-U.S. Holder's exempt status. The IRS may impose a penalty on a U.S. Holder that does not furnish the U.S. Holder's social security number or other taxpayer identification number on IRS Form W-9. We may be required to comply with information reporting requirements under the Code with respect to the proceeds from the merger.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be refunded or credited against a holder's U.S. federal income tax liability, if any, provided that the required information is furnished to the IRS. Holders are advised to consult their tax advisers to ensure compliance with the procedural requirements to reduce or avoid withholding (including backup withholding) or, if applicable, to file a claim for a refund of withheld amounts in excess of the holder's U.S. federal income tax liability.

THE U.S. FEDERAL INCOME TAX DISCUSSION SET FORTH ABOVE IS INCLUDED FOR GENERAL INFORMATION PURPOSES ONLY. HOLDERS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS TO DETERMINE THE FEDERAL, STATE AND LOCAL AND NON-U.S. TAX CONSIDERATIONS OF RECEIVING CASH IN EXCHANGE FOR CONSTELLATION ENERGY COMMON STOCK PURSUANT TO THE MERGER.

Regulatory Approvals

General

To complete the merger, Constellation Energy and MidAmerican need to obtain approvals or consents from, or make filings with a number of U.S. federal and state public utility, antitrust and other regulatory authorities, as well as international regulatory agencies. The material U.S. federal and state approvals, consents and filings are described below. The approvals are collectively referred to in this proxy statement as the required statutory approvals.

It is a condition to completion of the merger that final orders are obtained for these approvals. A final order means action by the relevant regulatory authority that has not been reversed, stayed, enjoined, set aside, annulled or suspended, with respect to which any waiting periods prescribed by law before the merger may be completed have expired, and as to which all conditions to the completion of the merger prescribed by law or order have been satisfied.

While Constellation Energy and MidAmerican believe that they will receive the required statutory approvals and other clearances for the merger, there can be no assurance as to the timing of these approvals and clearances or their ability to obtain these approvals and clearances on satisfactory terms or otherwise. There can be no assurance that any of these approvals will be obtained or, if obtained, will not contain terms or conditions that could reasonably be expected to have a material adverse effect on Constellation Energy prior to or following completion of the merger (including if the merger agreement is terminated). The parties will try to expedite the

Table of Contents

approval process to complete the merger as soon as practicable. If the parties are unsuccessful in such efforts, or if one or more regulatory agencies conduct hearings or proceedings or otherwise open an investigation, the closing of the merger may be delayed.

Constellation Energy currently intends to submit the merger proposal to its shareholders at the special meeting. It is likely that one or more governmental entities will not have approved the merger by the date of the special meeting, which could delay completion of the merger for a significant period of time after Constellation Energy's shareholders have approved the proposal relating to the merger. As part of the regulatory approval process, governmental entities may impose terms and conditions that may not be acceptable to MidAmerican, which may cause MidAmerican to terminate the merger agreement. In addition, governmental entities may impose terms and conditions that are unfavorable or add significant additional costs to the future operations of Constellation Energy even if the merger is not completed, which may have a material adverse effect on the future operations of Constellation Energy. Any delay in the completion of the merger could result in additional transaction costs, loss of revenue or other effects associated with uncertainty about the transaction. In addition, delays or unfavorable terms could lead Constellation Energy to become involved in litigation with one or more governmental entities or other private litigants or may cause MidAmerican to terminate the merger agreement and abandon the merger. See *Risk Factors* beginning on page 16.

Antitrust and Competition Matters

The merger is subject to notification under the antitrust and competition laws of the United States and certain foreign jurisdictions. The merger cannot be consummated until the HSR waiting period has expired or has been early terminated and there has been compliance with certain foreign jurisdiction notification obligations and waiting periods.

HSR Act. Under the HSR Act and related rules and regulations issued by the FTC, certain acquisition transactions may not be consummated until specified information and documentary material has been furnished for review by the FTC and the Antitrust Division and certain waiting period requirements have been satisfied. These HSR Act requirements apply to this merger. Constellation Energy and Berkshire filed notification and report forms under the HSR Act on October 1, 2008. The 30-day initial waiting period under the HSR Act will expire on October 31, 2008, permitting the parties to consummate the merger thereafter, unless the 30-day HSR waiting period is re-started through a pull and refile procedure or the HSR waiting period is extended by the issuance of a Request for Additional Information and Documentary Material, which is commonly known as a Second Request for Information. At any time before or after the consummation of the merger, the FTC or the Antitrust Division can take any action under the antitrust laws that it considers necessary and in the public interest, including but not limited to seeking to enjoin the merger or seeking asset divestitures. Private parties as well as state Attorneys General may also bring legal actions under the antitrust laws under certain circumstances.

EC Merger Regulation. Under Article 7(1) of Council Regulation EC No. 139/2004 (which we refer to as the EC Merger Regulation) a transaction meeting certain thresholds may not be completed before it is notified to the European Commission and has been declared not to fall within the scope of the EC Merger Regulation under Article 6(1)(a) or has been declared to be compatible with the common market. Based on data currently available to Constellation Energy from MidAmerican, the merger falls under the definition of a notifiable concentration pursuant to the EC Merger Regulation. Under the provisions of the EC Merger Regulation, the initial (Phase I) review period is 25 working days, which may be extended by 10 working days if the parties offer remedial undertakings during the initial 20 working days of the Phase I period. If the European Commission has serious doubts whether a notified transaction is compatible with the common market, it may initiate Phase II proceedings, which last an additional 90 to 125 working days. The European Commission could take enforcement action under the EC Merger Regulation, including declaring that the concentration is incompatible with the common market, or seeking the divestitures of stock or assets.

Table of Contents

Other Foreign Filings. It may be necessary to make additional competition and merger control filings in other foreign jurisdictions. Constellation Energy and MidAmerican are reviewing whether any such filings are necessary in connection with the merger. Constellation Energy will make any such filings as appropriate.

State Approvals

Maryland Public Service Commission. The Maryland Public Service Commission (which we refer to as MPSC) must authorize MidAmerican's acquisition of the power to exercise substantial influence over BGE, a regulated gas and electric company, as a result of the merger. The MPSC is required to comprehensively review and take action on the application for authorization within 180 days, or within 45 days thereafter, based on good cause for requiring additional time. The MPSC will issue an order approving the application if it finds that the acquisition is consistent with the public interest, convenience, and necessity, including benefits and no harm to consumers.

The timing and scope of any MPSC proceedings relating to the application are uncertain. There is no assurance that approval will be granted or that the conditions of any approval, if received, will be satisfactory to either Constellation Energy or MidAmerican, or both of them.

New York Public Service Commission. As owners of generation facilities in the State of New York, subsidiaries of Constellation Energy are subject to the jurisdiction of the New York Public Service Commission (which we refer to as NYPSC). Under Section 70 of the New York Public Service Law, the NYPSC's declaratory ruling of exemption or, alternatively, its approval, is required in connection with the indirect transfer of ownership interests in such subsidiaries in connection with the merger.

Other State Approvals. The merger may also be subject to review by the governmental authorities of various other states under the various antitrust and utility regulation laws of those states. Constellation Energy and MidAmerican do not expect that any of these reviews will impact the anticipated timing of the closing of the merger.

Nuclear Regulatory Commission

Constellation Energy, through its various subsidiaries, holds six relevant NRC licenses for its three nuclear facilities—Calvert Cliffs, Nine Mile Point and Ginna. Constellation Energy is the sole owner of these facilities, with the exception of Nine Mile Point, Unit 2. Constellation Energy owns 82% of that unit and The Long Island Power Authority owns the remaining 18%.

The Atomic Energy Act of 1954, as amended, provides that a NRC license may not be transferred or, in any manner disposed of, directly or indirectly, through a transfer of control of any license unless the NRC finds that the transfer complies with the Atomic Energy Act and consents to the transfer. Therefore, the consent of the NRC may be required for the indirect transfer of control pursuant to the merger of the licenses held by the parties. Constellation Energy and MidAmerican jointly filed an application with the NRC seeking consent to the indirect transfers of control of such licenses on October 3, 2008.

Federal Energy Regulatory Commission

Each of Constellation Energy and MidAmerican has public utility subsidiaries subject to the jurisdiction of FERC under the Federal Power Act. Section 203 of the Federal Power Act requires approval for direct or indirect transfers of control over FERC-jurisdictional facilities and further provides that no holding company in a holding company system that includes a transmitting utility or an electric utility may merge or consolidate with a holding company system that includes a transmitting utility or electric utility company without first having obtained authorization from FERC.

Table of Contents

FERC must approve the merger if it finds that the transaction is consistent with the public interest. FERC has stated in its 1996 utility merger policy statement that, in analyzing a merger under Section 203, it will evaluate the following criteria:

the effect of the merger on competition in wholesale electric power markets, utilizing an initial screening approach derived from the Department of Justice/Federal Trade Commission-Initial Merger Guidelines to determine if a merger will result in an increase in an applicant's market power;

the effect of the merger on the applicants' FERC jurisdictional ratepayers; and

the effect of the merger on state and federal regulation of the applicants.

In addition, as amended by the Energy Power Act of 2005, Section 203 of the Federal Power Act also requires that FERC, before granting approval under Section 203, determine the transaction will not result in the cross-subsidization by public utility subsidiaries of other subsidiaries or improper encumbrances or pledges of utility assets and, if such cross-subsidization or encumbrances were to occur, whether they are in the public interest.

Constellation Energy and MidAmerican filed their application for Section 203 approval with FERC on October 14, 2008. Constellation Energy and MidAmerican currently expect that the FERC schedule relating to approval under Section 203 will not impact the anticipated timing of closing of the merger.

Federal Communications Commission

Constellation Energy, directly and indirectly, owns certain entities that hold licenses issued by the FCC for the operation of radio systems used for internal communications associated with power generation and distribution. FCC approval is required prior to the transfer of control of any entity holding such FCC licenses. The FCC will review whether the transfer of control of these entities is in the public interest, and if consented to then the consents are noted in an FCC Public Notice. Constellation Energy filed transfer of control applications with the FCC on October 3, and October 4, 2008. The FCC's Public Notice of October 8, 2008 announced the FCC's consent to several of the transfer of control applications. FCC consent to all of the remaining applications is expected by mid-November, and such consents are expected to appear on an FCC Public Notice released on or before November 26, 2008. The FCC's consent is valid for six months from the date of the FCC's Public Notice, and can be renewed for subsequent six month periods.

Other Approvals

The merger may also be subject to review by the governmental authorities of various other jurisdictions under the antitrust and utility regulation laws of those jurisdictions. Constellation Energy and MidAmerican do not expect that any of these reviews will impact the anticipated timing of the closing of the merger.

There can be no assurance that the reviewing authorities will permit the applicable statutory waiting periods to expire or that the reviewing authorities will terminate the applicable statutory waiting periods at all or otherwise approve the merger without restrictions or conditions that would have a material adverse effect on the combined company if the merger were completed. These restrictions and conditions could include mandatory licenses, sales or other dispositions of assets, divestitures, or the holding separate of assets, businesses or Constellation Energy capital stock or implementation of adverse rate or operating conditions.

Appraisal Rights

Under Maryland law, Constellation Energy's shareholders are not entitled to appraisal rights in connection with the merger.

Delisting and Deregistration of Our Common Stock

If the merger is completed, Constellation Energy common stock will be delisted from the NYSE and deregistered under the Exchange Act and Constellation Energy will no longer file periodic reports with the SEC

Table of Contents

on account of Constellation Energy common stock. However, Constellation Energy will continue to have reporting obligations under NYSE rules and the Exchange Act because our Series A Junior Subordinated Debentures are currently listed and traded on the NYSE.

Summary of Series A Preferred Stock and 14% Senior Notes

Stock Purchase Agreement

On September 19, 2008, Constellation Energy entered into a Stock Purchase Agreement (which we refer to as the purchase agreement) with MidAmerican providing for the private placement of 10,000 shares of Series A Preferred Stock for an aggregate purchase price of \$1.0 billion. In connection with the execution of the merger agreement, MidAmerican assigned its right to purchase the Series A Preferred Stock to MEHC Investment Inc. The sale of the Series A Preferred Stock to MEHC Investment Inc. was consummated on September 22, 2008. Upon the occurrence of certain events described below, the Series A Preferred Stock is convertible into 35,506,757 shares of Constellation Energy common stock, subject to certain adjustments, and the 14% Senior Notes.

At the time of signing the merger agreement, MidAmerican issued \$1 billion of 11% trust preferred securities of a newly formed statutory business trust to Berkshire. The proceeds of the issuance were subsequently contributed to a direct wholly-owned subsidiary of MidAmerican, MEHC Investment, Inc. In turn, MEHC Investment, Inc. then used such funds to purchase \$1 billion of Constellation Energy's Series A Preferred Stock.

Series A Preferred Stock

In accordance with the purchase agreement, Constellation Energy filed articles supplementary with the State Department of Assessments and Taxation of Maryland that designated certain preferences, conversion and other rights, and the terms and conditions of redemption of the Series A Preferred Stock. The articles supplementary were filed with and accepted for record by the State Department of Assessments and Taxation of Maryland on September 22, 2008. Under the articles supplementary, the Series A Preferred Stock ranks senior to all classes of common stock of Constellation Energy and accrues dividends at a rate of 8% per annum compounding quarterly, subject to certain adjustments, and payable quarterly in cash. Upon certain triggering events, including Constellation Energy's failure to (i) redeem the Series A Preferred Stock on the applicable redemption date, (ii) elect the nominee of holders of the Series A Preferred Stock to Constellation Energy's board of directors, (iii) list the shares of common stock issuable upon conversion of the Series A Preferred Stock on the NYSE or other approved market, or (iv) reserve a sufficient number of shares of common stock issuable upon conversion of the Series A Preferred Stock, then the dividend rate shall be increased by 2% per annum. In the event of a liquidation or change of control (each as defined in the articles supplementary), holders of the Series A Preferred Stock will be entitled to receive 100% of the stated value for each share plus all accrued but unpaid dividends.

The articles supplementary restrict Constellation Energy from declaring, paying, or setting apart payment for, any dividends or other distributions, upon any stock junior in rank to the Series A Preferred Stock, or redeeming or purchasing any junior stock, unless all accrued but unpaid dividends have been paid on the Series A Preferred Stock. The articles supplementary further provide that on September 22, 2010, Constellation Energy shall redeem all, but not less than all, of the outstanding shares of Series A Preferred Stock for an amount in cash equal to 100% of the stated value for each share of Series A Preferred Stock plus accrued but unpaid dividends, subject to the rights of the Series A Preferred Stock in the case of an intervening liquidation or change of control (each as defined in the articles supplementary).

Under the articles supplementary and the investor rights agreement, which is discussed below, the number of members of Constellation Energy's board of directors was automatically increased by one, and MidAmerican has the right to nominate one individual to the new directorship so long as MidAmerican and its affiliates beneficially own at least 33.3% of the shares of Series A Preferred Stock that were originally issued to MEHC

Table of Contents

Investment Inc. Constellation Energy's board of directors must include such nominee in the slate of nominees recommended by the board of directors for election at the 2009 annual meeting of shareholders of Constellation Energy and for reelection at every meeting thereafter, so long as MidAmerican retains the nomination right. If MidAmerican does not exercise its right to nominate one individual to the new directorship, it may appoint a board observer who has the right to attend and participate in all meetings of, and receive all material distributed to, Constellation Energy's board of directors (subject to customary exceptions), but is not be entitled to vote at meetings of Constellation Energy's board of directors or any committees thereof. As of the date of this proxy statement, MidAmerican has not exercised its rights to nominate a director or appoint a board observer.

The articles supplementary further provide that so long as any shares of the Series A Preferred Stock are outstanding, Constellation Energy and its subsidiaries may not, without the vote of more than 50% of the then-outstanding shares of Series A Preferred Stock, voting together as a single class (i) amend any provision of Constellation Energy's charter or bylaws in any manner that would adversely affect the rights of the Series A Preferred Stock or issue any senior stock or parity stock or any security convertible into, or exchangeable or exercisable for, shares of senior stock or parity stock; (ii) authorize or effect a voluntary or involuntary liquidation, dissolution or winding up; (iii) amend any provision of Constellation Energy's or a subsidiary's charter or bylaws or issue any shares of capital stock having a right to dividends (other than Constellation Energy's common stock) or redemption; (iv) (a) incur indebtedness other than as specified in the articles supplementary, (b) increase the amount of Constellation Energy's regular quarterly common stock dividend, (c) pay or distribute assets to holders of Constellation Energy's capital stock (other than dividends on the Series A Preferred Stock, regular cash dividends, dividends required by the terms of existing capital stock, and the payment of the merger consideration) or (d) engage in a self tender offer, redemption or share repurchase (whether privately negotiated or open market repurchases) other than as required by the terms of existing capital stock; (v) if dividends have not been paid in full to holders of the Series A Preferred Stock on two consecutive dividend payment dates, take any action that requires the approval of holders of common stock or other capital stock, other than the election of members of the board of directors and the ratification of Constellation Energy's independent auditor at Constellation Energy's regularly scheduled annual shareholders' meeting; or (vi) enter into any transaction with any officer, director or beneficial owner of five percent or more of the common stock or any affiliate, other than employment and compensation arrangements for officers, employees and directors in the ordinary course of business consistent with past practice. However, these voting rights do not apply to any takeover proposal after the occurrence of a breach by MidAmerican or Merger Sub under the merger agreement that causes a termination of such agreement. In addition, for so long as the merger agreement is in effect, Constellation Energy is not prohibited from taking any action permitted by the merger agreement. The holders of the Series A Preferred Stock are not entitled to vote on the merger and, except as set forth below, are not entitled to vote on matters presented to holders of Constellation Energy common stock.

Upon the occurrence of a conversion event (as described below) and subject to the receipt of all required regulatory approvals, the Series A Preferred Stock will be automatically converted into (A) 35,506,757 shares of Constellation Energy common stock (representing approximately 19.9% of Constellation Energy's outstanding shares of common stock on September 22, 2008, or approximately 16.6% on an as-converted basis), subject to certain adjustments, and (B) \$1.0 billion in aggregate principal amount of 14% Senior Notes. In the event Constellation Energy has not received all regulatory approvals required for the issuance of the shares of Constellation Energy common stock due to a holder upon conversion of such holder's shares of Series A Preferred Stock, Constellation Energy must make a cash payment to the holder in lieu of the issuance of the shares of Constellation Energy common stock that are otherwise due to such holder in amount equal to (i) the number of shares of Constellation Energy common stock issuable to such holder and not issued multiplied by (ii) \$26.50, subject to certain adjustments. In such an event, Constellation Energy would also still be obligated to deliver the 14% Senior Notes upon such conversion. Under the articles supplementary, the Series A Preferred Stock converts upon the first to occur of (i) the date the merger agreement is terminated (other than due to a breach of the merger agreement by MidAmerican or Merger Sub) and (ii) June 19, 2009 (or September 19, 2009 if all conditions to the merger in the merger agreement other than those relating to regulatory approvals, debt ratings and/or required consents have been fulfilled as of June 19, 2009), whether or not the merger agreement is terminated on such date.

Table of Contents

14% Senior Notes

The 14% Senior Notes will be in an aggregate principal amount of \$1.0 billion and will accrue interest at a rate of 14% per annum, payable monthly in cash. If an event of default (as defined in the 14% Senior Notes) has occurred and is continuing, interest will accrue at 17% per annum from the date of such event. The 14% Senior Notes mature and become due and payable on December 31, 2009.

Pursuant to the 14% Senior Notes, Constellation Energy is subject to certain affirmative covenants relating to the payment of its obligations; the conduct of its business and corporate existence; maintenance of its property and insurance; and the inspection of its books and records. In addition, Constellation Energy is subject to certain negative covenants relating to limitations on: indebtedness; incurring certain liens; certain fundamental changes (including, among other things, entering into a merger other than with a subsidiary of Constellation Energy); the sale of its assets; certain types of restricted payments; investments, loans and advances; acquisitions; optional payments and modifications to debt instruments; transactions with affiliates; changes to Constellation Energy's fiscal year end; conduct of business; and the issuance of capital stock. Upon an event of default (as defined in the 14% Senior Notes), holders of the Series A Preferred Stock may declare the 14% Senior Notes due and payable; *provided, however*, that upon an event of default relating to bankruptcy or insolvency, the 14% Senior Notes will automatically become due and payable. A change of control (as defined in the 14% Senior Notes) of Constellation Energy is an event of default for purposes of the 14% Senior Notes. Upon the 14% Senior Notes being declared due and payable following such a change of control, Constellation Energy will be required to make an additional payment in an amount equal to 1.0% of the outstanding principal balance of the 14% Senior Notes at the time of such change of control, in addition to Constellation Energy's other obligations payable thereunder.

Investor Rights Agreement

In connection with entering into the purchase agreement, Constellation Energy and MidAmerican also entered into an investor rights agreement. Under the investor rights agreement, the Series A Preferred Stock, the shares of Constellation Energy common stock issuable upon the conversion of the Series A Preferred Stock, the 14% Senior Notes, any other shares of Constellation Energy common stock acquired by MidAmerican and any Constellation Energy common stock issued as a dividend or other distribution in respect of the foregoing securities (which we refer to as the registrable securities) are subject to certain registration rights. Under the investor rights agreement, Constellation Energy has agreed to two demand registration rights by MidAmerican and unlimited piggy-back registration rights. Under the investor rights agreement, Constellation Energy has agreed to file a registration statement with the SEC within 60 days after receiving notice from MidAmerican requesting that Constellation Energy file a registration statement covering the registrable securities having an aggregate price to the public (net of any underwriter's discounts or commissions) greater than \$25 million. Constellation Energy will pay all expenses incurred in connection with the registration, except for underwriting discounts and commissions. The registration rights terminate after the earlier of (i) three years following the consummation of the sale of securities pursuant to a registration statement filed by Constellation Energy in connection with the initial firm commitment underwritten offering of its securities to the general public or (ii) as to any holder, such time at which all registrable securities held by such holder can be sold in any 90 day period without registration in compliance with Rule 144.

The investor rights agreement also provides that, following a conversion of the Series A Preferred Stock to Constellation Energy common stock and 14% Senior Notes, MidAmerican will continue to have director nomination and related rights that are the same as those provided under the articles supplementary so long as MidAmerican and its affiliates beneficially own at least 50% of the shares of Constellation Energy common stock received by MidAmerican and its affiliates upon conversion of the Series A Preferred Stock.

Litigation Related to the Merger

Beginning September 18, 2008, six shareholders of Constellation Energy filed lawsuits in the Circuit Court for Baltimore City, Maryland, challenging the proposed merger. Four of those lawsuits were brought as shareholder class actions and two were brought as shareholder derivative actions.

Table of Contents

Shareholder Class Actions

Four lawsuits were filed in Baltimore on behalf of a proposed class of Constellation Energy common shareholders claiming that Constellation Energy and members of its board of directors breached their fiduciary duties to shareholders in agreeing to the proposed merger. One of these four shareholder class actions also names MidAmerican as a defendant, alleging that it aided and abetted members of Constellation Energy's board of directors in breaching their fiduciary duties.

Shareholder Derivative Actions

Two cases were filed in Baltimore by shareholders derivatively on behalf of Constellation Energy, against members of its board of directors and MidAmerican. The shareholder derivative actions allege that members of Constellation Energy's board of directors breached their fiduciary duties to the Company in agreeing to the proposed merger, and that MidAmerican aided and abetted members of the board of directors in breaching their fiduciary duties.

The shareholder class actions and shareholder derivative actions claim that the proposed merger price is inadequate and does not maximize value for shareholders, that the sales process leading up to the merger was unreasonably short and procedurally flawed, and that unreasonable deal protection devices were agreed to that ward off competing bids and coerce shareholders into accepting the merger. The shareholder class actions and shareholder derivative actions collectively seek declaratory judgments establishing the unenforceability of the merger based on the alleged breaches of duty, injunctive relief to enjoin the merger, rescission of the merger or rescissory damages, the imposition of a constructive trust in favor of shareholders of any benefits received by the individual members of the board of directors of Constellation Energy, and reasonable costs and expenses, including attorney's fees.

Plaintiffs in the shareholder class actions and shareholder derivative actions, Constellation Energy, the individual members of the board of directors of Constellation Energy, and MidAmerican, through their counsel, have agreed that the shareholder class actions and shareholder derivative actions should be consolidated for all purposes into a single proceeding. Plaintiffs have indicated that they intend to file a single consolidated amended complaint shortly after the filing of a proxy statement related to the merger and have agreed that the defendants will not be required to respond until 30 days after the consolidated amended complaint is served.

Although Constellation Energy is unable at this time to determine the ultimate outcome of these lawsuits, injunctive relief or an adverse determination in the shareholder class actions or shareholder derivative actions could affect our ability to complete the proposed merger.

Other Recent Litigation

Securities Class Action

In addition to the shareholder class actions and shareholder derivative actions discussed above, on September 22, 2008, a federal securities class action lawsuit was filed in the United States District Court for the Southern District of New York, in Manhattan. While the securities class action does not arise out of the proposed merger, it raises claims based in part on events during the period shortly before the merger. The securities class action was filed by John Martin LLC, claiming to be a shareholder of Constellation Energy, on behalf of a proposed class of persons who acquired publicly traded securities, including the Series A Junior Subordinated Debentures, of Constellation Energy between January 30, 2008 and September 16, 2008, and who acquired Series A Junior Subordinated Debentures in the offering completed in June 2008, pursuant to a shelf registration statement filed in July 2006.

The securities class action alleges that Constellation Energy, a number of its present or former officers or directors, and underwriters Citigroup Global Markets, Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. Incorporated, UBS Securities LLC, and Wachovia Capital Markets LLC violated the

Table of Contents

securities laws by issuing a false and misleading registration statement and prospectus (which we refer to as the Registration Statement and Prospectus) in connection with Constellation Energy's June 27, 2008 offering of Series A Junior Subordinated Debentures. The securities class action also alleges that Constellation Energy issued false or misleading statements in connection with its January 20, 2008 announcement of fourth quarter and full year 2007 financial results; in connection with its April 30, 2008 announcement of first quarter 2008 financial results and first quarter 2008 Form 10-Q filing; and in connection with its July 31, 2008 announcement of second quarter 2008 financial results. The securities class action alleges that an analyst report issued by Jefferies & Co. questioned Constellation Energy's accounting on August 12, 2008 and that by the end of August 2008 Constellation Energy's stock had dropped to \$66 per share. It further alleges that the stock dropped to \$47.99 per share when investors in the market became aware of Constellation Energy's exposure to Lehman Brothers Holdings Inc.'s bankruptcy on September 15, 2008, and that the stock further dropped to a closing price of \$24.77 per share on September 17, 2008, after a September 16, 2008 Bloomberg article claiming that credit market turmoil might hurt Constellation Energy's search for a partner to share the risk of Constellation Energy's energy trading business. The securities class action seeks, among other things, certification of the case as a class action, compensatory damages, reasonable costs and expenses, including counsel fees, and rescission damages.

A lead plaintiff has not yet been appointed pursuant to the provisions of the Private Securities Litigation Reform Act and Constellation Energy and other defendants have accordingly not been required to respond to the complaint or take other action to defend the litigation. We are unable at this time to determine the ultimate outcome of the securities class action.

ERISA Action

On October 9, 2008, a proposed class of participants in the Constellation Energy Savings Plan with retirement investment portfolios that include Constellation Energy common stock filed a lawsuit in the United States District Court for the District of Maryland against Constellation Energy, Mayo A. Shattuck, Constellation Energy's Chairman of the Board, President and Chief Executive Officer, and two Constellation Energy employees with job responsibilities related to Constellation Energy Savings Plan's administration. The complaint alleges that the defendants violated various sections of ERISA by breaching their fiduciary duties to prudently and loyally manage Constellation Energy Savings Plan's assets, to avoid conflicts of interest and to adequately monitor other fiduciaries and provide them with accurate information. We are unable at this time to determine the ultimate outcome of this ERISA action.

Table of Contents

THE MERGER AGREEMENT

The following is a summary of the material terms of the merger agreement. This summary does not purport to describe all the terms of the merger agreement and is qualified by reference to the complete merger agreement, which is attached as Annex A to this proxy statement and is incorporated by reference in this proxy statement. All Constellation Energy shareholders are urged to read the merger agreement carefully and in its entirety.

The merger agreement is being summarized in this proxy statement and has been included as an annex to this proxy statement to provide you with information regarding its terms. The merger agreement contains representations and warranties that the parties made to each other as of specific dates. The assertions embodied in those representations and warranties were made solely for purposes of the contract between the respective parties for purposes of the transactions contemplated thereby and may be subject to important qualifications and limitations agreed to by Constellation Energy and MidAmerican in connection with negotiating the terms thereof, including qualifications and limitations based on facts disclosed in certain of Constellation Energy's SEC filings or in a disclosure schedule to the merger agreement. Moreover, some of those representations and warranties may not be accurate or complete as of any specified date, may be subject to a contractual standard of materiality different from those generally applicable to shareholders or may have been used for the purpose of allocating risk among the parties to the merger agreement rather than establishing matters as facts. Accordingly, these representations and warranties should not be relied upon as characterizations of the actual state of facts about Constellation Energy, MidAmerican, or Merger Sub at the time they were made or otherwise. Constellation Energy will provide additional disclosure in its public reports to the extent that it is aware of the existence of any material facts that are required to be disclosed under federal securities law and that might otherwise contradict the representations and warranties contained in the merger agreement and will update such disclosure as required by federal securities laws.

The Merger

The merger agreement provides for the merger of Merger Sub with and into Constellation Energy upon the terms, and subject to the conditions, of the merger agreement, with Constellation Energy continuing as the surviving corporation. As a result of the merger, Constellation Energy will become a wholly-owned subsidiary of MidAmerican.

Effective Time

Closing. Unless the parties agree otherwise, the closing of the merger will take place on the third business day after all closing conditions have been satisfied or waived (other than any condition that by its nature cannot be satisfied until the closing), unless the merger agreement has been terminated. See *The Merger Agreement Conditions to the Merger* beginning on page 81 for a description of the conditions that must be satisfied or waived prior to closing.

Effective Time of the Merger. As soon as practicable after the satisfaction or waiver of the conditions to the merger and in any event prior to the closing of the merger, Constellation Energy and MidAmerican will file articles of merger with the State Department of Assessments and Taxation of Maryland.

Merger Consideration

Each share of Constellation Energy common stock issued and outstanding as of the effective time of the merger (other than shares owned by MidAmerican or any wholly-owned subsidiary of MidAmerican or shares owned by any wholly-owned subsidiary of Constellation Energy) will be converted into the right to receive \$26.50 in cash, without interest and less any applicable withholding taxes, pursuant to the merger.

Table of Contents

Treatment of Options and Other Awards

Stock Options. Prior to the effective time of the merger, Constellation Energy will take all actions required so that, immediately prior to the effective time of the merger, all outstanding options to acquire Constellation Energy common stock, whether or not vested, will be cancelled, and holders thereof will be entitled to receive, following the effective time of the merger, a payment in cash from Constellation Energy equal to the number of shares of Constellation Energy common stock then issuable upon the exercise of such option multiplied by the amount, if any, by which \$26.50 exceeds the exercise price of such option, without interest and less any applicable withholding taxes.

Constellation Energy Performance Units. As of the effective time of the merger, Constellation Energy performance units that become vested at the effective time of the merger pursuant to the terms of the plan pursuant to which they were issued will be entitled to receive, in full satisfaction of such holder's rights with respect to vested performance units, an amount in cash equal to \$2.00 per unit within 30 days after the effective time of the merger, without interest and less any applicable withholding taxes.

Other Awards. Prior to the effective time of the merger, Constellation Energy will take all actions required so that, as of the effective time of the merger, all awards of equity of Constellation Energy (including shares of restricted stock, and restricted stock units) outstanding immediately before the effective time of the merger, (other than Constellation Energy performance units and stock options) will be cancelled. The holder of any such other award will be entitled to receive a payment in cash from Constellation Energy equal to the number of shares of Constellation Energy common stock that would be issuable upon full vesting of such award or for which restrictions would lapse upon full vesting of such award multiplied by \$26.50, without interest and less any applicable withholding taxes.

Notwithstanding the terms of the merger agreement, Constellation Energy and MidAmerican agreed subsequently that employees of Constellation Energy who hold restricted stock and restricted stock units will receive cash proceeds as a result of the transactions contemplated by the merger agreement pursuant to, and in accordance with, the terms of the plans governing such awards. Accordingly, upon completion of the merger, each holder of Constellation Energy equity awards (including shares of restricted stock and restricted stock units, but excluding Constellation Energy performance units and options (which shall be treated in accordance with the preceding paragraphs)) granted under the Constellation Energy Stock Plans (other than the 2002 Senior Management Long-Term Incentive Plan and the Executive Long-Term Incentive Plan), will be paid a pro rata portion of the cash amount described in the preceding paragraph, with the pro rata portion determined based on the number of months in the vesting period that have elapsed as of the date of completion of the merger as compared to the total number of months in the original vesting period. The remainder of the cash amount will be paid to the holder at the end of the original vesting period, subject to continued service through such date. Each holder of shares of restricted stock and restricted stock units granted under the 2002 Senior Management Long-Term Incentive Plan and the Executive Long-Term Incentive Plan will be paid the full amount of the cash amount described in the preceding paragraph on or promptly following the effective time of the merger.

Exchange and Payment Procedures

At or immediately prior to the effective time of the merger, MidAmerican will deposit in trust an amount of cash sufficient to pay the merger consideration to each holder of shares of Constellation Energy common stock with a bank or trust company, which we refer to as the paying agent, reasonably acceptable to us. As soon as practicable after the effective time of the merger, the paying agent will mail a letter of transmittal and instructions to you and the other shareholders. The letter of transmittal and instructions will tell you how to surrender your common stock certificates in exchange for the merger consideration.

Table of Contents

You should not return your stock certificates with the enclosed proxy card, and you should not forward your stock certificates to the paying agent without a letter of transmittal.

You will not be entitled to receive the merger consideration until you surrender your stock certificate or certificates or book-entry shares to the paying agent, together with a duly completed and executed letter of transmittal and any other documents as the paying agent may require. The merger consideration may be paid to a person other than the person in whose name the corresponding certificate is registered if the certificate is properly endorsed or is otherwise in the proper form for transfer. In addition, the person who surrenders such certificate or book-entry share must either pay any transfer or other applicable taxes or establish to the satisfaction of the surviving corporation that such taxes have been paid or are not applicable.

No interest will be paid or will accrue on the cash payable upon surrender of the certificates or book-entry shares. The paying agent will be entitled to deduct and withhold, and pay to the appropriate taxing authorities, any applicable taxes from the merger consideration. Any sum which is withheld and paid to a taxing authority by the paying agent will be deemed to have been paid to the person with regard to whom it is withheld.

At the effective time of the merger, our stock transfer books will be closed, and there will be no further registration of transfers of outstanding shares of Constellation Energy common stock. If, after the effective time of the merger, certificates or book-entry shares are presented to the surviving corporation for transfer, they will be cancelled and exchanged for the merger consideration.

The paying agent, MidAmerican and the surviving corporation will not be liable to any person for any cash delivered to a public official pursuant to any applicable abandoned property, escheat or similar law. Any portion of the merger consideration deposited with the paying agent that remains undistributed to the holders of shares of Constellation Energy common stock for 180 days after the effective time of the merger, will be delivered, upon demand, to MidAmerican. Holders of certificates who have not surrendered their certificates prior to the delivery of such funds to MidAmerican may only look to MidAmerican for the payment of the merger consideration. Any portion of the merger consideration that remains unclaimed as of a date that is immediately prior to such time as such amounts would otherwise escheat to or become property of any governmental authority will, to the extent permitted by applicable law, become the property of MidAmerican free and clear of any claims or interest of any person previously entitled to the merger consideration.

If you have lost a certificate, or if it has been stolen or destroyed, then before you will be entitled to receive the merger consideration, you will have to comply with the replacement requirements established by the paying agent, including, if necessary, the posting of a bond in a customary amount sufficient to protect the surviving corporation against any claim that may be made against it with respect to that certificate.

Representations and Warranties

Constellation Energy made customary representations and warranties, generally qualified by prior filings by Constellation Energy with the SEC, that were made to MidAmerican as of specified dates.

The representations and warranties in the merger agreement relate to:

corporate existence, qualification to conduct business and corporate standing and power;

subsidiaries;

capitalization and capital structure;

corporate authority to enter into, and carry out the obligations under, the merger agreement and enforceability of the merger agreement;

absence of a breach of the charter, bylaws, law or material agreements as a result of the merger;

required approvals and consents as a result of the merger;

compliance with law;

Table of Contents

approval of the merger by Constellation Energy's board of directors and the recommendation of Constellation Energy's board of directors;

filings with the SEC and other governmental entities;

real property;

internal controls and procedures;

legal proceedings;

absence of undisclosed liabilities;

restrictions on dividends;

tax matters;

employee benefit plans;

labor and employee matters;

the operation of nuclear power plants;

trading limits and guidelines;

environmental matters;

material contracts;

intellectual property;

the absence of certain changes or events since December 31, 2007;

required shareholder votes;

the opinion of Morgan Stanley;

insurance;

payment of fees to finders or brokers in connection with the merger agreement;

regulatory proceedings;

applicability of anti-takeover statutes;

joint ventures; and

solvency as of the date of the merger agreement.

For purposes of the merger agreement, Constellation Energy Partners LLC is not considered a joint venture, although limited representations about Constellation Energy Partners LLC have been given. Many of Constellation Energy's representations and warranties are qualified by a company material adverse effect standard. As used in the merger agreement, the term company material adverse effect means any event, change or occurrence or development of a set of circumstances or facts, which, individually or in the aggregate, has or would reasonably be expected to have a material adverse effect on the business, assets, liabilities, properties, financial condition or results of operations of Constellation Energy and its subsidiaries and joint ventures taken as a whole. However, a company material adverse effect would not include facts, circumstances, events, changes, effects or occurrences relating to or resulting from any of the following:

general changes in the nuclear, electric or natural gas utility industry, other than such effects having a disproportionate impact on Constellation Energy as compared to similarly situated persons;

changes in law or accounting principles generally accepted in the United States (which we refer to as GAAP) other than such effects having a disproportionate impact on Constellation Energy as compared to similarly situated persons;

changes in financial markets or general economic conditions, other than such effects having a disproportionate impact on Constellation Energy as compared to similarly situated persons; or

Table of Contents

the announcement of the execution of the merger agreement, including any such change resulting therefrom in the market value of Constellation Energy common stock.

However, a company material adverse effect shall be deemed to have been caused by (x) bankruptcy, receivership or similar actions of any winding-up or liquidation of Constellation Energy or (y) any event, change, occurrence or development that is reasonably likely to prevent, materially delay or materially impair the consummation of the transactions contemplated by the agreement.

The merger agreement also contains various representations and warranties made by MidAmerican and Merger Sub that are subject, in some cases, to specified exceptions and qualifications. These representations and warranties relate to, among other things:

absence of a breach of the charter, bylaws, law or material agreements as a result of the merger;

required approvals and consents as a result of the merger;

corporate existence, qualification to conduct business and corporate standing and power;

corporate or other power and authority to enter into, and carry out the obligations under, the merger agreement and enforceability of the merger agreement;

financing capability to consummate the merger; and

payment of fees to finders or brokers in connection with the merger agreement.

Some of MidAmerican and the Merger Sub's representations and warranties are qualified by a MidAmerican material adverse effect standard. For purposes of the merger agreement, the term MidAmerican material adverse effect means any material adverse effect on the ability of MidAmerican and the Merger Sub to consummate the transactions contemplated by the merger agreement.

The representations and warranties of each of the parties to the merger agreement will expire at the effective time of the merger.

Conduct of Our Business Pending the Merger

Under the merger agreement, Constellation Energy agreed that, subject to certain exceptions, including the prior written consent of MidAmerican (not to be unreasonably withheld, conditioned or delayed), between the date of the merger agreement and the effective time of the merger, Constellation Energy, its subsidiaries and joint ventures will conduct business in a manner substantially consistent with current practice and a business plan to be proposed by Constellation Energy and approved by MidAmerican (such approval not to be unreasonably withheld or delayed), providing for the reduction of Value at Risk with respect to Constellation Energy's trading portfolio and maintain its real property in good condition and to operate its real property consistent with its current practice. In addition, except as is consistent with current practice or, following approval by MidAmerican, the new business plan referred to above, otherwise expressly permitted by the merger agreement, required by the purchase agreement or the articles supplementary of the Series A Preferred Stock issued thereunder or required by statute or regulation or order of a governmental authority, Constellation Energy agreed that, subject to certain exceptions, including the prior written consent of MidAmerican (not to be unreasonably withheld, conditioned or delayed), between the date of the merger agreement and the effective time of the merger, Constellation Energy, its subsidiaries and joint ventures will:

conduct the business of Constellation Energy and its subsidiaries and joint ventures in the ordinary and usual course in substantially the same manner as previously conducted and use commercially reasonable efforts to preserve their business organizations intact, to maintain their existing relations and goodwill with customers, suppliers, creditors, regulators, lessors, employees and business associates and to maintain in effect all material governmental permits, franchises and other authorizations pursuant to which

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form PRER14A

Constellation Energy or its subsidiaries or joint ventures, operate; *provided, however*, that Constellation Energy and/or any wholly-owned, direct or indirect, subsidiaries

Table of Contents

thereof may enter into intercompany transactions and intercompany reorganizations that do not have adverse effects on Constellation Energy or such subsidiary or joint venture so reorganized;

not (i) issue, sell, pledge, dispose of or encumber any capital stock, voting securities or equity interests or (ii) split, combine, subdivide or reclassify its outstanding shares of capital stock, voting securities or other equity interests;

not amend its charter or bylaws;

not (i) declare, set aside or pay any dividend payable in cash, stock or property in respect of any capital stock, voting securities or equity interests other than regular quarterly common stock cash dividends subject to specified maximum amounts or certain dividends required by the BGE Capital Trust II in accordance with its terms or (ii) repurchase, redeem or otherwise acquire any shares of its capital stock, voting securities or equity interests or any options or securities convertible into or exchangeable or exercisable for any shares of its capital stock, voting securities or equity interests (except for mandatory sinking fund obligations existing on the date of the merger agreement, and redemptions, purchases, acquisitions or issuances required by the respective terms of any company plan, in the ordinary course of the operation of such plans consistent with past practice); *provided, however* that this provision does not restrict dividends from any wholly-owned subsidiary of Constellation Energy to another such subsidiary or to Constellation Energy, nor does it restrict Constellation Energy's ability to dissolve, liquidate or wind-up any subsidiary that Constellation Energy deems to be no longer useful so long as such action would not result in any adverse effect on Constellation Energy or the subsidiary;

not fund Constellation Energy's direct stock purchase and dividend reinvestment plan with authorized but unissued shares of Constellation Energy common stock (other than with the dividends payable on October 1, 2008);

not issue, sell, pledge, dispose of or encumber any capital stock, voting securities or other equity interests owned by it in any of its subsidiaries or any shares of, or securities convertible into or exchangeable or exercisable for, or options, warrants, calls, commitments or rights of any kind to acquire, any shares of its capital stock of any class or any other property or assets (other than shares issuable pursuant to options outstanding on the date of the merger agreement and issuances of securities in connection with grants or awards of stock-based compensation);

not incur, assume or modify any indebtedness other than the incurrence of indebtedness permitted by the articles supplementary of the Series A Preferred Stock issued pursuant to the purchase agreement;

not (i) terminate, establish, adopt, enter into, make any new grants or awards of stock-based compensation or other benefits under, amend or otherwise modify any plan or increase the salary, wage, bonus or other compensation of any directors, officers or employees (other than actions necessary to satisfy existing contractual obligations under any collective bargaining agreement or any plans or as required by law and except for ordinary course annual performance bonuses or salary increases), (ii) grant any new severance or termination pay or enter into any new severance agreement with respect to employees who are not officers or directors of Constellation Energy, its subsidiaries or any of the joint ventures; or (iii) take any action to fund or in any other way secure the payment of compensation or benefits under any plan;

maintain insurance in such amounts and against such risks and losses as are consistent in all material respects with Constellation Energy's existing insurance coverage;

cause BGE and its subsidiaries not to make any changes to any of their rates or charges, standards of service or regulatory accounting or execute any agreement with respect to such matters except (i) pursuant to routine filings made in the ordinary course of business

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form PRER14A

consistent with past practice, provided that a general rate case will not be considered a routine filing for purposes of the merger agreement; or (ii) as required by a governmental authority of competent jurisdiction;

not (i) make or change any material tax election, change or consent to any change in Constellation Energy's, any subsidiary's or any joint venture's method of accounting for tax purposes, (ii) settle or

Table of Contents

compromise any dispute, claim or assessment regarding a tax liability for more than of \$10 million individually or \$20 million in the aggregate, or (iii) file any material amended tax return, or, other than in the ordinary course of business, consistent with past practice, forego any amount of tax refund;

except as required by GAAP or FERC, not cause or allow any change in accounting methods, principles or practices;

not (i) enter into or assume any contract that would have been a material contract of the type required to be disclosed to MidAmerican (which generally include non-competition contracts, contracts requiring the dispositions of businesses or material assets, certain types of indebtedness and contracts purporting to bind MidAmerican or its affiliates) or material real property lease had it been entered into prior to the date hereof, other than in the ordinary course of business consistent with past practice and other than indebtedness permitted to be incurred under the articles supplementary or any debt issuable upon conversion of the Series A Preferred Stock or (ii) amend, terminate or waive any rights under any such material contract or a material real property lease other than in the ordinary course of business consistent with past practice; *provided, however* that Constellation Energy may renew or replace any material contract with one or more contracts on substantially similar terms at current market prices.

not waive, release, cancel, assign, settle or compromise any action, litigation, claim, arbitration or right, other than waivers, releases, cancellations, assignments, settlements or compromises that involve only the payment of monetary damages not in excess of \$5 million individually or \$10 million in the aggregate;

not (i) make or offer to make any acquisition of any business involving the payment in excess of \$2 million individually or \$5 million in the aggregate for all such payments or where such business, assets or securities do not primarily relate to the current business of Constellation Energy, its subsidiaries and joint ventures or (ii) make any sale, lease, encumbrance or other disposition of any business (through a business combination, merger, asset sale or otherwise), involving receipt of consideration in excess of \$2 million individually or \$5 million in the aggregate for all such receipts;

not enter into any contract, agreement or pledge to sell, assign, license, transfer, guarantee, mortgage or otherwise dispose of any environmental attributes other than in the ordinary course of business;

not make any loans, advances or capital contributions to, acquisitions of or investments in, any other person in excess of \$5 million in the aggregate, other than loans, advances or capital contributions to or among Constellation Energy and its wholly-owned subsidiaries;

not authorize or make any capital expenditure, other than capital expenditures that are not, in the aggregate, in excess of 3% above the capital expenditures provided for in the current capital expenditure budget or following adoption, the new business plan;

comply with prudent policies, practices and procedures with respect to risk management and trading limitations for Constellation Energy's trading portfolio; allow MidAmerican and its representatives reasonable access to the customer supply and global commodities operations of Constellation Energy, its subsidiaries and joint ventures and their respective books and records; develop procedures to permit MidAmerican and its representatives to monitor compliance with Constellation Energy trading guidelines and any other risk management guidelines agreed to by the parties; and not amend or rescind the Constellation Energy trading guidelines or any other risk management guidelines agreed to by the parties;

not enter into, amend or otherwise modify any contract which is subject to Constellation Energy trading guidelines in any manner which is not consistent with Constellation Energy trading guidelines;

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form PRER14A

not enter into any contract (i) in respect of fuel enrichment involving over its term amounts in excess of \$100 million or (ii) other than a trading contract and indebtedness of Constellation Energy permitted under the merger agreement, involving over its term amounts in excess of \$100 million; and

not authorize or enter into an agreement to do any of the actions prohibited by the foregoing.

Table of Contents

Shareholders Meeting

Constellation Energy has agreed to convene and hold a shareholders meeting as promptly as reasonably practicable for purposes of considering and voting upon the approval of the merger by its shareholders, and in any event the shareholders meeting shall be held within 45 days following clearance of the proxy statement by the SEC or, if the SEC does not review the proxy statement, the earliest date on which Constellation Energy could mail the proxy statement pursuant to the Exchange Act. Unless the merger agreement is terminated in accordance with its terms, the merger will be submitted to the Constellation Energy's shareholders for the purposes of obtaining their approval.

Restrictions on Solicitation of Alternative Transactions

Constellation Energy agreed that from the date of the merger agreement until the earlier of the effective time of the merger or the termination of the merger agreement in accordance with its terms, subject to the exceptions described below, it will not, and will not permit its subsidiaries or joint ventures or its and their officers, directors, agents or representatives to:

initiate, solicit, encourage or facilitate, including by way of furnishing information, any inquiries, proposals or offers constituting a takeover proposal of the type described below;

participate or engage in any discussions or negotiations or otherwise cooperate with or assist any person in connection with a takeover proposal;

furnish or disclose any non-public information in connection with a takeover proposal;

withdraw, modify or amend the recommendation of Constellation Energy's board of directors with respect to the merger in any manner adverse to MidAmerican;

approve, endorse or recommend any takeover proposal; or

enter into an agreement, letter of intent or similar instrument relating to a takeover proposal.

Pursuant to the merger agreement, Constellation Energy agreed to cease all existing solicitations, negotiations or discussions with any person that has made or indicated an intention to make a takeover proposal, and to request from any such person with whom a confidentiality agreement was executed in consideration of a takeover proposal to return or destroy all confidential information related to Constellation Energy.

Constellation Energy further agreed to provide prompt notice to MidAmerican of the receipt of any takeover proposal or any indication by a person that is considering making a takeover proposal, requests for non-public information relating to Constellation Energy outside of the ordinary course of business or any inquiry or request for discussions or negotiations regarding a takeover proposal, including the identity of the person making such request or proposal and a copy thereof.

Constellation Energy agreed that it will not, and will not permit its subsidiaries or joint ventures to, terminate, waive, amend or modify any provision of any existing standstill or confidentiality agreement existing prior to the date the merger agreement was signed and that it will enforce the provisions of any such agreement. Notwithstanding these restrictions, Constellation Energy has the right to waive any standstill solely to the extent required to permit such person to convey confidentially a takeover proposal to Constellation Energy's board of directors under circumstances in which Constellation Energy is permitted under the merger agreement to participate in discussions regarding a takeover proposal (as discussed below), and with notice of such waiver given to MidAmerican.

Notwithstanding these restrictions, prior to Constellation Energy's shareholders approving the merger, Constellation Energy may engage in discussions or negotiations with, and furnish information with respect to itself to, a person making a takeover proposal if:

Constellation Energy enters into a confidentiality agreement with such person with terms as provided in the merger agreement;

Table of Contents

Constellation Energy's board of directors determines in good faith, (i) after receiving the advice of its financial advisors and outside legal counsel, that such takeover proposal constitutes, or is reasonably likely to result in, a superior proposal of the type described below and (ii) after receiving the advice of its outside legal counsel, that the failure to take such action would be reasonably likely to result in a breach of the directors' duties to Constellation Energy and its shareholders under applicable laws;

Constellation Energy advises MidAmerican of its decision to take such action; and

Constellation Energy concurrently discloses the non-public information provided to such person to MidAmerican if such information has not been disclosed to MidAmerican previously.

A takeover proposal means any inquiry, proposal or offer from any person or group of persons other than MidAmerican, Merger Sub or their affiliates relating to:

any direct or indirect acquisition or purchase of a business or division (or more than one of them) that in the aggregate constitutes 15% or more of the net revenues, net income or assets of Constellation Energy and its subsidiaries, taken as a whole, or 15% or more of the equity interest in Constellation Energy (by vote or value);

any tender offer or exchange offer that if consummated would result in any person or group of persons beneficially owning 15% or more of the equity interest (by vote or value) in Constellation Energy; or

any merger, reorganization, consolidation, share exchange, business combination, recapitalization, liquidation, dissolution or similar transaction involving Constellation Energy (or any subsidiary or subsidiaries of Constellation Energy whose business constitutes 15% or more of the net revenues, net income or assets of Constellation Energy and its subsidiaries, taken as a whole).

A superior proposal means any bona fide written takeover proposal that Constellation Energy's board of directors determines in good faith (after consultation with a financial advisor of nationally recognized reputation) to be more favorable (taking into account (i) all relevant legal, financial, regulatory and other aspects of such takeover proposal and the merger, (ii) the identity of the third party making such takeover proposal, (iii) the anticipated timing, conditions and prospects for completion of such takeover proposal, including the prospects for obtaining regulatory approvals and financing, and any third party shareholder approvals and (iv) the other terms and conditions of such takeover proposal) to Constellation Energy's shareholders than the merger and the other transactions contemplated by the merger agreement (taking into account all of the terms of any proposal by MidAmerican to amend or modify the terms of the merger and the other transactions contemplated by the merger agreement) and that is reasonably likely to be consummated, except that the reference to 15% in the definition of takeover proposal shall be deemed to be a reference to 50%.

Board of Directors' Covenant to Recommend

Pursuant to the merger agreement, Constellation Energy's board of directors has agreed to recommend the approval of the merger to its shareholders. MidAmerican may request in writing, at least three business days prior to the special meeting of Constellation Energy shareholders that Constellation Energy's board of directors publicly reaffirms its recommendation, and a failure to do so prior to the special meeting will be deemed a change in recommendation that permits MidAmerican to terminate the merger agreement.

Constellation Energy agreed that it will not, and will not permit its subsidiaries or joint ventures or its and their officers, directors, agents or representatives to, withdraw, modify, or amend the recommendation of Constellation Energy's board of directors in a manner adverse to MidAmerican or Merger Sub unless prior to the approval of the merger by Constellation Energy's shareholders:

Constellation Energy's board of directors determines in good faith, after receiving the advice of its outside legal counsel, that the failure to take such action would be reasonably likely to result in a breach of the directors' duties to Constellation Energy and its shareholders under applicable laws;

Table of Contents

Constellation Energy advises MidAmerican of its decision to take such action and, if the decision relates to a takeover proposal, the material terms and conditions of the takeover proposal, including the identity of the person making such takeover proposal;

Constellation Energy gives MidAmerican five business days after delivery of each such notice to propose revisions of the terms of the merger agreement (or make another proposal) and shall have negotiated in good faith with MidAmerican with respect to such proposed revisions or other proposal, if any; and

Constellation Energy's board of directors shall have determined in good faith, after considering the results of such negotiations and giving effect to the proposals made by MidAmerican, if any, and after receiving the advice of outside legal counsel that the failure to effect such withdrawal, modification or amendment of the recommendation of Constellation Energy's board of directors would be reasonably likely to result in a breach of the directors' duties to Constellation Energy and its shareholders under applicable laws.

Notwithstanding a withdrawal or modification of the recommendation of Constellation Energy's board of directors, Constellation Energy is required to submit the approval of the merger to the vote of its shareholders unless the merger agreement is otherwise terminated. See "The Merger Agreement - Termination" beginning on page 82 for a discussion of each party's ability to terminate the merger agreement.

Agreement to Take Further Action and to Use Reasonable Efforts

MidAmerican and Constellation Energy agreed to use all reasonable efforts to take, or cause to be taken, all necessary actions to ensure that the conditions to the merger are satisfied and to consummate the transactions contemplated by the merger agreement as promptly as practicable.

The merger agreement provides that each party will promptly prepare and make all necessary filings and use all reasonable efforts to obtain necessary approvals, authorizations and consents to effect the merger as promptly as practicable. The parties also agreed to take certain other actions with respect to obtaining the necessary approvals; provided however, that Constellation Energy and its subsidiaries and joint ventures shall not pay, incur or be subject to any liability or commitment in respect of obtaining any consent, approval or waiver that in the aggregate exceeds \$5 million. In addition, Constellation Energy agreed in the merger agreement that it will not agree to, or accept, any additional or different agreements, commitments or conditions in connection with the merger or the transactions contemplated by the purchase agreement pursuant to any settlement or otherwise without the prior written consent of MidAmerican, which consent shall not be unreasonably withheld, conditioned or delayed, except for agreements, commitments and conditions requiring certain permitted actions. Those permitted actions are any actions contemplated by the merger agreement with respect to a governmental entity, but in no event shall include any regulatory actions, capital expenditures constituting regulatory actions or rate reductions constituting regulatory actions involving Constellation Energy or any of its subsidiaries or joint ventures, or MidAmerican or its subsidiaries, and to be taken or made after the date of the merger agreement, the effects of which, individually or in the aggregate, are reasonably likely to exceed in the aggregate an amount acceptable to MidAmerican in its reasonable discretion.

The merger agreement provides that Constellation Energy shall use reasonable best efforts to amend any contract that binds Constellation Energy's affiliates to clarify that MidAmerican is not subject to such contracts.

Other Covenants

The merger agreement contains certain other covenants, including covenants relating to public announcements and employee communications, employee matters, access to information, transfer taxes, takeover statutes, transition services and tax matters.

Table of Contents

Conditions to the Merger

The parties' obligations to complete the merger are subject to the satisfaction or, to the extent legally permissible, the waiver of the following conditions:

the receipt of the approval of the merger by Constellation Energy shareholders;

the absence of any temporary restraining order or preliminary or permanent injunction or other order by a court of competent jurisdiction preventing the consummation of the merger or any federal or state law prohibiting the consummation of the merger; and

the receipt of the required statutory approvals of each party with such approvals becoming final orders, including the expiration or termination of the waiting periods under the HSR Act.

MidAmerican and Merger Subs' obligation to complete the merger is further subject to the satisfaction, or to the extent legally permissible, the waiver of the following conditions:

Constellation Energy will have performed in all material respects its agreements and covenants contained in or contemplated by the merger agreement;

(i) Constellation Energy's representations and warranties regarding organization and certain indemnification claims being true and correct as of the date of the merger agreement and as of the closing date of the merger in all material respects, (ii) Constellation Energy's representations and warranties regarding its equity interest in other persons, capitalization, authority, material contracts purportedly binding MidAmerican or its affiliates, nonoccurrence of a material adverse effect, required shareholder approvals, the opinion of Morgan Stanley, joint ventures and solvency being true and correct as of the closing date of the merger in all respects, and (iii) all of Constellation Energy's other representations and warranties being true and correct in all respects as of the date of the merger agreement and as of the closing date of the merger, except for such failures to be true and correct (without giving effect to any materiality or material adverse effect qualifications or exceptions) which, individually or in the aggregate, have not resulted in and would not reasonably be expected to result in a company material adverse effect (in each case except for representations and warranties that expressly speak as of a specified date, which only need to be true and correct as applicable as of such date);

MidAmerican will have received a certificate from an executive officer of Constellation Energy dated as of the closing date attesting that the two conditions described immediately above have been satisfied;

MidAmerican will have received, on or before (but not more than twenty days prior to) the effective time of the merger, a certificate that Constellation Energy and BGE are not a United States real property holding corporation;

the absence of any company material adverse effect since the date of the merger agreement;

all of Constellation Energy's unsecured senior debt being rated investment grade or better with no less than a stable outlook by Moody's, S&P and Fitch;

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form PRER14A

Constellation Energy has secured all enumerated required consents, the failure of which to obtain would, individually or in the aggregate, have a company material adverse effect;

all required statutory approvals shall have been obtained and shall have become final orders;

if requested by MidAmerican at least ten business days prior to the closing date, MidAmerican shall have received from the administrative agents under certain credit agreements payoff and release information or Constellation Energy shall have received an irrevocable waiver to the effect that the merger would not result in a default of such credit agreement;

Table of Contents

all current and former employees, officers and directors of Constellation Energy or any of its subsidiaries shall have waived any rights they may have to receive an equity interest in the surviving corporation as a result of any severance or change of control agreement, which condition was satisfied on September 19, 2008 by the delivery of the waivers described in The Merger Payments Due Upon a Termination of Employment Other Potential Severance Benefits beginning on page 55; and

MidAmerican not having determined that either the retail and/or wholesale businesses or assets of Constellation Energy and its subsidiaries and joint ventures taken as a whole have materially deteriorated since June 30, 2008 (the parties agreeing in the merger agreement that an adverse change in the net economic value of such businesses or assets in excess of \$400 million since June 30, 2008 will be deemed material) as determined in the sole discretion of MidAmerican.

Constellation Energy's obligation to complete the merger is further subject to the satisfaction, or to the extent legally permissible, the waiver following additional conditions:

MidAmerican and Merger Sub will have performed in all material respects their respective agreements and covenants contained in or contemplated by the merger agreement;

(i) MidAmerican's and Merger Sub's representations and warranties regarding organization being true and correct as of the date of the merger agreement and as of the closing date of the merger in all material respects, and (ii) all of MidAmerican's and Merger Sub's other representations and warranties being true and correct in all respects as of the date of the merger agreement and as of the closing date of the merger, except for such failures to be true and correct (without giving effect to any materiality or material adverse effect qualifications or exceptions), individually or in the aggregate, have not resulted in and would not reasonably be expected to result in a MidAmerican material adverse effect (in each case except for representations and warranties that expressly speak as of a specified date, which only need to be true and correct as applicable as of such date); and

Constellation Energy will have received a certificate from an executive officer of MidAmerican dated as of the closing date attesting that the two conditions described above have been satisfied.

Termination

The merger agreement may be terminated at any time prior to the effective time of the merger in any of the following ways:

by mutual written consent of Constellation Energy, MidAmerican and Merger Sub;

by either Constellation Energy or MidAmerican by written notice to the other party:

if any state or federal law or order is adopted or issued, which has the effect, as supported by the written opinion of outside counsel for such party, of prohibiting the merger, or if a court of competent jurisdiction in the United States has issued a final, non-appealable order permanently enjoining, restraining or otherwise prohibiting the merger;

if the effective time of the merger has not occurred on or before June 19, 2009 (or September 19, 2009 if all conditions other than those relating to regulatory approvals, debt ratings and/or required consents have been fulfilled as of June 19, 2009), unless the party seeking to terminate under this provision shall have proximately contributed to the failure of the effective date of the merger to occur on or before such applicable date; or

if Constellation Energy shareholders fail to approve the merger.

by MidAmerican by written notice to Constellation Energy:

if there has been a breach of any representation or warranty, or any such representation or warranty shall have become untrue and incapable of being cured prior to the effective time of the merger, or any breach of any covenant or other agreement of Constellation Energy in the merger

Table of Contents

agreement, and such breach would result in the applicable closing condition to the merger not being satisfied and is not curable or, if curable, is not cured within 30 days after written notice is given by MidAmerican to Constellation Energy; or

if Constellation Energy's board of directors (i) withdraws or modifies, in a manner adverse to MidAmerican, its recommendation to shareholders regarding the merger, (ii) approves, recommends or enters into an agreement (other than a confidentiality agreement) in respect of a takeover proposal, in each case, by a party other than MidAmerican or an affiliate thereof, (iii) resolves to take any of these actions; or (iv) Constellation Energy, its subsidiaries, joint ventures or any of its officers or directors has breached in any material respect the non-solicitation covenant in the merger agreement.

by Constellation Energy by written notice to MidAmerican if there has been a breach of any representation or warranty, or any such representation or warranty shall have become untrue and incapable of being cured prior to the effective time of the merger, or any breach of any covenant or other agreement of MidAmerican or Merger Sub in the merger agreement, and such breach would result in the applicable closing condition to the merger not being satisfied and is not curable or, if curable, is not cured within 30 days after written notice is given by Constellation Energy to MidAmerican.

Termination Fees

Constellation Energy will be required to pay MidAmerican a termination fee of \$175 million if the merger agreement is terminated for any reason other than by Constellation Energy because of MidAmerican's breach of any representation, warranty, covenant or other agreement made by MidAmerican or Merger Sub. See "The Merger Agreement - Termination" beginning on page 82.

Indemnification and Insurance

The surviving corporation of the merger will indemnify, defend, and hold harmless each current or former director, officer, employee or fiduciary under benefit plans of Constellation Energy or its subsidiaries to the maximum extent permitted by law to the extent such person has a right to indemnification from Constellation Energy or its subsidiaries immediately before the effective time of the merger against:

all losses, expenses (including reasonable attorney's fees and expenses), claims, damages or liabilities or amounts paid in settlement, arising out of actions or omissions occurring at or prior to the effective time of the merger to the extent that they are based on or arising out of the fact that such person is or was a director, officer, employee or fiduciary under benefit plans; *provided, however*, that the surviving corporation will not be liable for any settlement effected without its written consent; and

all indemnified liabilities to the extent they are based on or arise out of or pertain to the transactions contemplated by the merger agreement.

Additionally, MidAmerican will cause the surviving corporation to maintain in effect for six years from the effective time of the merger a directors' and officers' liability insurance policy covering those persons currently covered under Constellation Energy's existing directors' and officers' liability insurance covering acts or omissions occurring at or prior to the effective time with respect to those individuals who are covered by Constellation Energy's directors' and officers' liability insurance policy. The maximum annual premium required to be spent for such policy is premium of 150% of the current aggregate annual premium.

Limitation of Remedies

Constellation Energy agreed in the merger agreement that its remedies would be limited to damage claims, with the maximum aggregate liability of MidAmerican for losses or damages in connection with the merger agreement being limited in amount to \$1.0 billion. Constellation Energy's recourse for such losses or damages is

Table of Contents

limited to the Series A Preferred Stock (or shares of Constellation Energy common stock and 14% Senior Notes issued upon conversion thereof) or the proceeds of the redemption or repayment of the Series A Preferred Stock or the aggregate principal amount of the 14% Senior Notes. In addition, if Constellation Energy attempts to challenge the validity of the \$1.0 billion damage cap, the merger agreement provides that such amount will be automatically reduced to \$1,000.

Fees and Expenses

Constellation Energy paid a \$25 million fee to MidAmerican on September 18, 2008 in connection with execution of the letter of intent on September 17, 2008. Each party will pay its own costs and expenses incurred in connection with the merger and the merger agreement. See *The Merger Agreement Termination* beginning on page 82 for a description of the events that may result in Constellation Energy being required to pay a termination fee to MidAmerican.

Amendment and Waiver

Amendment. The merger agreement may be amended by the parties, except that any amendment after a shareholders' meeting that by law requires approval by shareholders may not be made without such approval. All amendments to the merger agreement must be in writing signed by each party.

Waiver. At any time prior to the effective time of the merger, any party to the merger agreement may:

extend the time for the performance of any of the obligations or other acts of any other party;

waive any inaccuracies in the representations and warranties of any other party contained in the merger agreement or in any document delivered pursuant to the merger agreement; or

waive compliance by any other party with any of the agreements or conditions contained in the merger agreement, to the extent permitted by law.

All extensions and waivers must be in writing and signed by the party against whom the extension or waiver is to be effective.

Governing Law

The merger agreement is governed by the laws of the State of Maryland without regard to conflicts of laws principles thereof.

Table of Contents**MARKET PRICE OF COMMON STOCK**

Constellation Energy's common stock is traded under the ticker symbol CEG. It is listed on the NYSE and the Chicago Stock Exchange.

As of October 10, 2008, there were 37,667 common shareholders of record.

The following table sets forth, for the fiscal quarters indicated, dividends and the high and low intra-day sales prices per share of Constellation Energy common stock as reported on the NYSE composite tape.

	Dividend	Price	
		High	Low
2006			
First Quarter	\$ 0.3775	\$ 60.55	\$ 54.01
Second Quarter	\$ 0.3775	\$ 55.68	\$ 50.55

Fourth Quarter (through November [], 2008)		\$ []	\$ []
Total			

The closing sale price of Constellation Energy common stock on the NYSE on September 12, 2008, the last trading day prior to our public announcement regarding the resulting effects of the bankruptcy of Lehman Brothers Holdings Inc. and its subsidiaries on Constellation Energy, was \$58.37. On September 15, 2008, the closing price of Constellation Energy's common stock was \$47.99, a decline of approximately 22% from the prior trading day's closing price, while the Dow Jones Industrial Average dropped almost 500 points, or 4.4%, that same day.

The closing sale price of Constellation Energy common stock on the NYSE on September 17, 2008, the last trading day prior to the first public announcement of a tentative agreement between MidAmerican and Constellation Energy for MidAmerican to make a preferred stock investment in Constellation Energy and for the proposed merger, was \$24.77. The closing sale price of Constellation Energy common stock on the NYSE on September 19, 2008, the trading day we executed the merger agreement with MidAmerican, after the close of trading, was \$24.20. The \$26.50 per share to be paid for each share of Constellation Energy common stock in the merger represents a premium of approximately 9.5% to the closing price on September 19, 2008.

On [], 2008, the last trading day before this proxy statement was filed, Constellation Energy's common stock closed at \$[] per share. You are encouraged to obtain current market quotations for our common stock in connection with voting your shares.

Table of Contents

Dividend Policy

Constellation Energy pays dividends on its common stock after its board of directors authorizes them and Constellation Energy declares them. There are no contractual limitations on Constellation Energy paying common stock dividends, other than those set forth in the merger agreement. The merger agreement permits Constellation Energy and BGE to continue to pay its regular quarterly dividend but imposes restrictions on increasing the amount of such dividends.

Dividends have been paid continuously since 1910 on the common stock of Constellation Energy, BGE, and their predecessors. Future dividends depend upon future earnings, our financial condition, and other factors.

In January 2008, we announced an increase in our quarterly dividend from \$0.435 to \$0.4775 per share. This is equivalent to an annual rate of \$1.91 per share.

Quarterly dividends were declared on Constellation Energy common stock during 2007 and 2006 in the amounts set forth above.

SUBMISSION OF SHAREHOLDER PROPOSALS

If the merger is completed, we will not have public shareholders, and there will be no public participation in any future meetings of shareholders. However, if the merger is not completed, we expect to hold a 2009 annual meeting of shareholders. Shareholders may present proposals for action at the 2009 annual meeting, if held, only if they comply with the requirements of the proxy rules established by the Securities and Exchange Commission, including Rule 14a-8, and our bylaws.

For inclusion in next year's annual meeting proxy statement: Any Constellation Energy shareholder who desires to include a proposal in the proxy statement for the 2009 annual meeting must deliver it so that it is received by January 15, 2009. In addition, a shareholder must meet all requirements under the rules of the Securities and Exchange Commission necessary to have a proposal included in Constellation Energy's proxy statement.

For presentation at the next annual meeting of shareholders: Under Constellation Energy's current bylaws, any shareholder who wants to propose a nominee for election as a director or to present a proposal at the 2009 annual meeting must deliver it so it is received by March 1, 2009. However, if the date of the 2009 annual meeting is changed so that it is more than 30 days earlier or more than 60 days later than July 18, 2009, any such proposals must be delivered not more than 120 days prior to the 2009 annual meeting and not less than the later of (1) 90 days prior to the 2009 annual meeting or (2) 10 days following the day on which we first publicly announce the date of the 2009 annual meeting.

Any proposals must be sent, in writing, to the Corporate Secretary, Constellation Energy Group, Inc., 100 Constellation Way, Baltimore, Maryland 21202. Proposals will not be accepted by facsimile.

Table of Contents**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT****Stock Ownership of Five Percent Beneficial Owners**

As of October 14, 2008, to the knowledge of our board of directors, the only persons beneficially owning more than 5% of Constellation Energy voting securities were:

Name and address of beneficial owner	Title of class	Amount of beneficial ownership	Percent of class
Électricité de France International, S.A.(1) 20, place de la Défense 92050 Paris la Défense Cedex France	Common Stock	16,964,095	9.51%
Barclays Global Investors, NA(2) 45 Fremont Street San Francisco, CA 94105	Common Stock	12,040,662	6.75%
FMR LLC(3) 82 Devonshire Street Boston, MA 02109	Common Stock	11,711,297	6.56%
AXA Financial, Inc.(4) 1290 Avenue of the Americas New York, New York 10104	Common Stock	9,150,156	5.13%

- (1) According to Schedule 13D filed September 8, 2008, Électricité de France International, S.A. (EDFI) has disclosed that it, directly or indirectly, has sole power to direct the vote of 0 shares and the sole power to direct the disposition of 16,964,095 shares, and on any matters submitted to the vote of shareholders of Constellation Energy, EDFI has agreed to (and to cause each member of the EDFI group to) vote any shares of Constellation Energy common stock that it beneficially owns in the manner recommended by Constellation Energy's board of directors. See additional discussion of EDFI's voting and disposition powers under the heading "Common Stock Ownership of Significant Shareholders" beginning on page 52 of this proxy statement.
- (2) According to Schedule 13G filed February 5, 2008, Barclays Global Investors, NA has disclosed that it, together with certain affiliated entities, directly or indirectly, has sole power to direct the vote of 10,328,797 shares and the sole power to direct the disposition of 12,040,662 shares.
- (3) According to Schedule 13G filed February 14, 2008, FMR LLC has disclosed that it, together with certain affiliated entities, directly or indirectly, has sole power to direct the vote of 1,563,475 shares and sole power to direct the disposition of 11,711,297 shares.
- (4) According to Schedule 13G filed February 14, 2008, AXA Financial, Inc. (AXA), a parent holding company, has disclosed that it, together with certain entities that control AXA, directly or indirectly, has sole power to direct the vote of 5,283,747 shares, shared power to vote 1,381,877 shares and sole power to direct the disposition of 9,150,156 shares.

Preferred Stock Ownership of MidAmerican

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form PRER14A

Upon the occurrence of a conversion event and subject to the receipt of all required regulatory approvals, the Series A Preferred Stock will be automatically converted into (A) 35,506,757 shares of common stock (representing approximately 19.9% of the number of shares of Constellation Energy common stock that were outstanding on September 22, 2008 or approximately 16.6% on an as-converted basis), subject to certain adjustments, and (B) \$1.0 billion in aggregate principal amount of 14% Senior Notes. At the time of the filing of

Table of Contents

this proxy statement, the conversion events are outside of MidAmerican's control and therefore MidAmerican is not deemed to beneficially own the shares of Constellation Energy common stock issuable upon conversion of the Series A Preferred Stock. See The Merger Summary of Series A Preferred Stock and 14% Senior Notes beginning on page 66 for additional discussion of the terms of the Series A Preferred Stock.

Stock Ownership of Directors and Executive Officers

The following table shows as of October 10, 2008, the beneficial ownership of Constellation Energy common stock of each director, the named executive officers of Constellation Energy (as defined in Item 402(a)(3) of Regulation S-K), and all directors and executive officers as a group. If the individual participates in Constellation Energy's long-term incentive plans, shareholder investment plan or Constellation Energy Savings Plan, those shares are included. Each of the individuals listed in the table beneficially owned less than 1% of the outstanding shares of Constellation Energy common stock, except Mr. Shattuck, who beneficially owned approximately 1.1% of the outstanding shares. All directors and executive officers as a group beneficially owned approximately 2.3% of the outstanding shares of Constellation Energy common stock. None of them beneficially owned shares of any other class of our or any of our subsidiaries' equity securities. The address of each executive officer and director is c/o Constellation Energy Group, Inc., 100 Constellation Way, Baltimore, Maryland 21202.

Name	Beneficial Ownership (Shares of Common Stock)(1)	Deferred Stock Units(2)
Douglas L. Becker	3,350	11,693
Ann C. Berzin		1,345
James T. Brady	2,966	6,133
Thomas V. Brooks	813,312(3)	30,558
John R. Collins	105,261(3,4)	2,863
James R. Curtiss	3,621	15,193
Felix J. Dawson	153,553(5)	9,769
Yves C. de Balmann	2,055	9,239
Freeman A. Hrabowski	3,667	12,832
Nancy Lampton	14,479(6)	9,360
Robert J. Lawless	3,520	10,479
Lynn M. Martin	1,740	1,269
George E. Persky	141,278(3,7)	10,021
Mayo A. Shattuck	1,895,606(3)	57,264
John L. Skolds		1,634
Michael D. Sullivan	9,845	6,723
All Directors and Executive Officers as a group (22 individuals)	4,118,435(3,8)	

- (1) Amounts included in the Deferred Stock Units column are not included in this column.
- (2) For non-employee directors, deferred stock units represent the deferral of retainers and restricted stock awards in deferred stock units. For executive officers, deferred stock units represent fully vested restricted stock units that provide for the issuance of shares of common stock to the executive officer one or five years after the grant date and are subject to restrictions on transfer until that time.
- (3) Includes the following shares that may be acquired upon exercise of stock options that are exercisable on or within 60 days after October 10, 2008: Mr. Brooks, 622,516 shares; Mr. Collins, 81,351 shares; Mr. Persky, 67,890 shares; Mr. Shattuck, 1,668,024 shares; and all directors and executive officers as a group, 3,390,042 shares.
- (4) Includes 2,000 shares held by Mr. Collins' children.
- (5) Beneficial ownership for Mr. Dawson is as of May 2, 2008, the date of his resignation.
- (6) Includes 7,500 shares held by Hardscuffle, Inc. and 500 shares held by a trust for which Ms. Lampton serves as trustee. Ms. Lampton disclaims beneficial ownership of such securities.
- (7) Includes 684 shares held by Mr. Persky's wife.
- (8) Includes 104,744 shares held by a non-named executive officer that are pledged as security.

MULTIPLE SHAREHOLDERS SHARING ONE ADDRESS

In accordance with Rule 14a-3(e)(1) under the Exchange Act, one proxy statement will be delivered to two or more shareholders who share an address, unless Constellation Energy has received contrary instructions from one or more of the shareholders. Constellation Energy will deliver promptly upon written or oral request a separate copy of the proxy statement to a shareholder at a shared address to which a single copy of the proxy statement was delivered. Requests for additional copies of the proxy statement, and requests that in the future separate proxy statements be sent to shareholders who share an address, should be directed to Constellation Energy Group, Inc., 100 Constellation Way, Baltimore, Maryland 21202, Attention: Investor Relations, telephone: (410) 470-6440. In addition, shareholders who share a single address but receive multiple copies of the proxy statement may request that in the future they receive a single copy by contacting Constellation Energy at the address and phone number set forth in the prior sentence.

WHERE YOU CAN FIND MORE INFORMATION

Constellation Energy files annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document Constellation Energy files at the SEC's public reference room located at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. Our SEC filings are also available to the public at the SEC's website at <http://www.sec.gov>. You also may obtain free copies of the documents we file with the SEC by going our website at www.constellation.com. Our website address is provided as an inactive textual reference only. The information provided on our website is not part of this proxy statement, and therefore is not incorporated herein by reference.

Reports, proxy statements or other information concerning us may also be inspected at the offices of the NYSE at 20 Broad Street, New York, New York 10005.

Statements contained in this proxy statement, or in any document incorporated by reference in this proxy statement regarding the contents of any contract or other document, are not necessarily complete and each such statement is qualified in its entirety by reference to that contract or other document filed as an exhibit with the SEC. The SEC allows us to incorporate by reference into this proxy statement documents we file with the SEC. This means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be a part of this proxy statement, and later information that we file with the SEC will update and supersede that information. We incorporate by reference the documents listed below and any documents filed by us pursuant to Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 after the date of this proxy statement and before the date of the special meeting:

Annual Report on Form 10-K for the year ended December 31, 2007;

Quarterly Report on Form 10-Q for the quarter ended March 31, 2008;

Quarterly Report on Form 10-Q for the quarter ended June 30, 2008; and

Current Reports on Form 8-K filed on February 26, 2008, March 28, 2008, April 25, 2008, June 30, 2008, July 18, 2008 (other than the portion of that document not deemed to be filed), September 15, 2008, September 18, 2008, September 22, 2008 (two filings), September 30, 2008, October 2, 2008 and October 14, 2008.

THIS PROXY STATEMENT DOES NOT CONSTITUTE THE SOLICITATION OF A PROXY IN ANY JURISDICTION TO OR FROM ANY PERSON TO WHOM OR FROM WHOM IT IS UNLAWFUL TO MAKE SUCH PROXY SOLICITATION IN THAT JURISDICTION. YOU SHOULD RELY ONLY ON THE INFORMATION CONTAINED OR INCORPORATED BY REFERENCE IN THIS PROXY STATEMENT TO VOTE YOUR SHARES AT THE SPECIAL MEETING. WE HAVE NOT AUTHORIZED ANYONE TO PROVIDE YOU WITH INFORMATION THAT IS DIFFERENT FROM WHAT IS CONTAINED IN THIS PROXY STATEMENT. THIS PROXY STATEMENT IS DATED [], 2008. YOU SHOULD NOT ASSUME THAT THE INFORMATION CONTAINED IN THIS PROXY STATEMENT IS ACCURATE AS OF ANY DATE OTHER THAN THAT DATE, AND THE MAILING OF THIS PROXY STATEMENT TO SHAREHOLDERS DOES NOT CREATE ANY IMPLICATION TO THE CONTRARY.

This proxy statement contains a description of representations and warranties made in the merger agreement. Representations and warranties are also set forth in contracts and other documents, including the merger agreement, that are attached or filed as annexes to this proxy or are incorporated by reference into this document. These representations and warranties were made only for the purposes of such contracts or other documents and solely for the benefit of the parties to such contracts or other documents as of specific dates, may be subject to important limitations and qualifications agreed to by the contracting parties (including Constellation Energy, MidAmerican and Merger Sub), and may not be complete. Furthermore, these representations and warranties may have been made for the purposes of allocating contractual risk between the parties to such contract or other document instead of establishing these matters as facts, and may or may not have been accurate as of any specific date and do not purport to be accurate as of the date of this proxy statement. Accordingly, you should not rely upon the descriptions of representations and warranties contained in this proxy statement or the actual representations and warranties contained in such contracts and other documents, including the merger agreement, as statements of factual information.
