In the second half of 2011, we further strengthened our MMORPG and web and social game pipeline by following our strategy of focusing on games with the highest quality. Among our robust game pipeline, Firefall, a revolutionary next-generation triple-A title MMOFPS game, will be presented to online gaming enthusiasts worldwide."

Discussion of The9's Unaudited Third and Fourth Quarter 2011 Results

Net Revenues

Our net revenues in the third quarter of 2011 amounted to RMB27.2 million (US\$4.3 million), representing an increase of 6% from RMB25.5 million (US\$4.1 million) in the second quarter of 2011 and an increase of 2% from RMB26.6 million (US\$4.2 million) in the third quarter of 2010. These increases were primarily due to an increase in net revenues from our TV game platform and overseas licensing operations.

Our net revenues in the fourth quarter of 2011 amounted to RMB27.9 million (US\$4.4 million), representing an increase of 3% from RMB27.2 million (US\$4.3 million) in the third quarter of 2011 and a decrease of 3% from RMB28.8 million (US\$4.6 million) in the fourth quarter of 2010. The increase from the third quarter of 2011 was primarily due to an increase in net revenues from ShenXianZhuan. The year-over-year decrease was primarily due to a decrease in net revenues from our then operating MMORPGs.

Gross Profit

Our gross profit in the third quarter of 2011 amounted to RMB13.6 million (US\$2.2 million), representing an increase of 8% from RMB12.7 million (US\$2.0 million) in the second quarter of 2011 and an increase by 17 times compared to RMB0.8 million (US\$0.1 million) in the third quarter of 2010. The year-over-year increase in gross profit in the third quarter was primarily due to a decrease in royalties, as we have more games in our games portfolio developed in-house compared to last year.

Our gross profit in the fourth quarter of 2011 amounted to RMB13.3 million (US\$2.1 million), representing a decrease of 3% from RMB13.6 million (US\$2.2 million) in the third quarter of 2011 and an increase by 7 times from RMB1.6 million (US\$0.3 million) in the fourth quarter of 2010. The year-over-year increase in gross profit in the fourth quarter of 2011 was primarily due to a decrease in royalties, as we have more games in our games portfolio developed in-house compared to last year.

Operating Expenses

In the third quarter of 2011, our operating expenses were RMB141.4 million (US\$22.5 million), representing a 37% increase from RMB103.6 million (US\$16.5 million) in the second quarter of 2011 and a 79% increase from RMB79.0 million (US\$12.6 million) in the third quarter of 2010. The increase in operating expenses was mainly due to an increase in marketing expenses relating to Chinajoy game exhibition and our online game promotion efforts, as well as an increase in development expenses, including those incurred by Red5 Studios, Inc.

In the third quarter of 2011, share-based compensation was RMB10.8 million (US\$1.7 million), compared to RMB16.1 million (US\$2.6 million) in the second quarter of 2011 and RMB2.1 million (US\$0.3 million) in the third quarter of 2010.

In the fourth quarter of 2011, our operating expenses were RMB140.2 million (US\$22.3 million), representing a 1% decrease from RMB141.4 million (US\$ 22.5 million) in the third quarter of 2011 and an 18% increase from RMB118.7 million (US\$18.9 million) in the fourth quarter of 2010. The increase from the fourth quarter of 2010 was primarily due to an increase in marketing expenses for Firefall and G-star game exhibition in Korea, an increase in development expenses due to the increased research and development headcount and an increase in general and administrative expenses as a result of our establishment of overseas offices and increased share-based compensation.

In the fourth quarter of 2011, share-based compensation was RMB10.0 million (US\$1.6 million), compared to RMB10.8 million (US\$1.7 million) in the third quarter of 2011 and RMB8.4 million (US\$1.3 million) in the fourth quarter of 2010.

Other Operating Income

As a result of non-renewal of WoW license in 2009, we announced a refund plan for the unactivated WoW game point cards, which we recorded as advance from customers in September 2009. The legal liability relating to the unactivated WoW game point cards was extinguished in September 2011 under applicable laws and the associated liability amounting to RMB26.0 million (US\$4.1 million) was recognized as other operating income for the year ended December 31, 2011.

Interest Income

Interest income in the third quarter of 2011 was RMB8.6 million (US\$1.4 million), compared to RMB7.5 million (US\$1.2 million) in the second quarter of 2011 and RMB5.6 million (US\$0.9 million) in the third quarter of 2010. Such increase was due to an increase in bank interest rate.

Interest income in the fourth quarter of 2011 was RMB7.1 million (US\$1.1 million), compared to RMB8.6 million (US\$1.4 million) in the third quarter of 2011 and RMB5.8 million (US\$0.9 million) in the fourth quarter of 2010. The decrease from the third quarter of 2011 was due to a decrease of cash balance and the increase from the fourth quarter of 2010 was due to an increase in bank interest rate.

Other (Expenses) Income, net

Other expenses in the third quarter of 2011 was RMB5.7 million (US\$0.9 million), compared to other income of RMB6.7 million (US\$1.1million) in the second quarter of 2011 and other expenses of RMB0.1 million (US\$0.02 million) in the third quarter of 2010. Other expenses in the third quarters of 2010 and 2011 primarily represented the foreign exchange loss. Other income in the second quarter of 2011 primarily represented the income from a one-off settlement fee.

Other expenses in the fourth quarter of 2011 was RMB0.8 million (US\$0.1 million), compared to other expenses of RMB5.7 million (US\$0.9 million) in the third quarter of 2011 and other income of RMB22.6 million (US\$3.6 million) in the fourth quarter of 2010. The decrease from the third quarter of 2011 was primarily due to a decrease of foreign exchange loss. Other income in the fourth quarter of 2010 mainly represented a government subsidy of RMB23.0 million (US\$3.6 million).

Gain on Investment Disposal

In the fourth quarter of 2011, we reversed RMB15.7 million (US\$2.5 million) from the gain on investment disposal. In April 2011, we disposed of our equity interest in OpenFeint Inc. and recognized a gain on investment disposal with a total amount of RMB60.1 million in the second quarter of 2011. As a result of third parties' claims against OpenFeint Inc. and our potential indemnification obligations to the buyer of OpenFeint Inc., we made a provision of RMB15.7 million on the receivable from the disposal withheld in an escrowed account established to secure our indemnification obligations and reversed the gain on investment disposal accordingly.

Net (Loss) Income attributable to holders of ordinary shares

In the third quarter of 2011, net loss attributable to holders of ordinary shares was RMB93.7 million (US\$14.9 million), representing a 678% increase from RMB12.0 million (US\$1.9 million) in the second quarter of 2011 and a 37% increase from RMB68.5 million (US\$10.9 million) in the third quarter of 2010.

In the fourth quarter of 2011, net loss attributable to holders of ordinary shares was RMB126.0 million (US\$20.0 million), representing a 35% increase from RMB93.7 million (US\$14.9 million) in the third quarter of 2011 and a 56% decrease from RMB289.5 million (US\$46.0 million) in the fourth quarter of 2010.

Fully diluted loss per share and per ADS for the fourth quarter of 2011 was RMB5.14 (US\$0.82), compared to RMB3.74 (US\$0.59) in the third quarter of 2011 and RMB11.52 (US\$1.83) in the fourth quarter of 2010.
